Caution: This email was sent from an external source. Avoid unknown links and attachments.

All,

I wish to oppose Concept 7a. Unlike the other maps in 5a, 5b, 6, and 7b, this map seems to separate the Crestwood Neighborhood from the Glen Oak Hills Neighborhood. Both neighborhoods have many common interests, including flooding issues and the surrounding parks, that benefit from having common elected representation.

Thanks for your hard work,

Lawrence Lowden
5525 Marconi St
Madison WI 53705

Concepts 7a and 7b split the west edge of the Sunset Village neighborhood into a different alder district. Just west of Midvale Blvd, Hillcrest Drive and Merlham Drive are in Sunset Village. Perhaps you could include them in District 5.

(I sent this to Planning staff on Sept. 30, didn't see it in the list of submitted comments.)

We received this response to our redistricting email, and I thought I'd share it.

Hello,

I checked out the redistricting content and did respond to their "redistricting@cityofmadison.com" but thought I would note here that the information the redistricting presented on both their sites, while in depth, truly lacked context for residents in terms of how both options would affect them and/or policies and services. So much data that didn't tell any particular story. It felt like a missed opportunity for informed engagement.

How can we move forward with community involvement in ways that provide better contextualization of infrastructure choices? It's doable but has to be intentional.

Dear Serene,

Don't reply to this email. Send questions or feedback to redistricting@cityofmadison.com.

Local redistricting is happening now! The City's [Redistricting Committee](#) needs your feedback on [two](#) Alder District Concepts Maps.

Local redistricting is the process of redrawing the City's wards and alder districts based on population changes since 2010. Redistricting determines how communities and neighborhoods are assembled into alder districts and other voting districts.

The two alder district concept maps: 1. [Concept 5a](#), 2. [Concept 6](#)

Leave your feedback on the comment map: [Redistricting Comment Map](#)

Or drop into any [Madison Public Library](#) to see the 2 large print draft maps through this Sunday, September 26 and fill out a paper feedback form.

Visual storymap about the redistricting process: [Redistricting Storymap](#)

Check out cityofmadison.com/Redistricting for more information and subscribe to updates.

Please forward this email to your friends, neighbors, colleagues, or others, and encourage them to get involved in the City of Madison redistricting efforts. Thank you for helping to spread the word!

Any questions, please email redistricting@cityofmadison.com.

Thank you,

Redistricting Staff

Thanks for creating Concept 7A.
I prefer this plan to all of the previous ideas for redistricting our Regent neighborhood.

Thanks again for considering the residents' input.

Dear members of the Redistricting Committee,

Thank you for your service on this very important committee.

1) As the last District 5 alder who did represent the west campus residential halls, I urge you to keep all residential halls within District 8. They were all moved very intentionally from District 5 into District 8 during the last redistricting as it is clear that residential hall residents across the UW campus are a community of interest that should be in the same district and represented by the same alder- the District 8 alder.

2) the Regent Neighborhood spans the vast majority of District 5 and is a very clear community of interest and should remain in District 5 in its entirety.

I know your task is very challenging as it tries to balance many interests. Thank you for taking the time to elicit and integrate the feedback of those "on the ground" in the different parts of our city.

Best,

Shiva Bidar
Former District 5 Alder (2009-2012)

Caution: This email was sent from an external source. Avoid unknown links and attachments.

Hello City Redistricting Committee,

I do not support the proposed change to move the Darbo Worthington neighborhood out of District 6. I know that Brian Benford is working diligently to bring new resources to the Darbo neighborhood. As a member of District 6, I would like this district to continue to partner with and support our Darbo neighbors.

Thank you,
Catherine Stephens

I prefer Concept 6 because the 5a map would split our neighborhood in half, which would make whole neighborhood communications about polling locations and alder representation confusing. Please pay attention to the Neighborhood boundaries and not just population by blocks.

Subject: Concept 7a for redistricting

Caution: This email was sent from an external source. Avoid unknown links and attachments.

This map resolves the issue I had submitted on the earlier maps about my neighborhood, which is between West High and Hoyt School.

I appreciate the fact that Concept 7a has been put on the redistricting website.
