HI!

I just wanted to be another voice hoping that the test changes that were made on Williamson St a few weeks ago can be permanent. While I don't live in that neighborhood, I regularly walk and bike there and occasionally drive along the road. The additional peak traffic lanes make the experience feel less safe and comfortable whatever transportation mode I am using, but especially if I am outside a vehicle. I appreciated the change in the traffic experience during the test.

I'm hoping that these changes might also be implemented in the future on my side of town (especially on Monroe St).

All the best,
Adria
