FROM: David Mollenhoff

SUBJECT: Comments on Section 9, Creation and Amendment of Historic Districts

The Ordinance Committee of the Madison Alliance for Historic Preservation met to discuss this section last Thursday and made a series of recommendations for changes to this section. Unfortunately, time did not permit all Committee members to carefully review and react to my draft. I am therefore submitting them to you as my personal recommendations subject to our Committee's final review. I regret the need to do this, but the review schedule has proved to be very tight for a volunteer committee.

The two documents I am providing are:

Analysis of Section 9, Creation and Amendment of Historic Districts  
(9) Creation and Amendment of Historic Districts (Track Changes)

Amy, before you distribute this packet to LORC, please confirm that the document using Track Changes shows the changes in red. Thank you.
