I am the Mt biking chairperson and treasurer for Blackhawk ski club.

It has come to my attention that bike lanes are being considered for Blackhawk road. I am in favor of this. Blackhawk road has high bike traffic. Many biker use this road to get to Blackhawk ski club. In addition it is one of the road bike routes to get out of town.

Please consider supporting the bike advocacy for bike lanes on Blackhawk Road.

thanks

Board of Publics,

It is my understanding that you're gathering information and opinions about adding bike lanes along the route to Blackhawk Ski Club. Please give serious consideration adding bike lanes or paths. Having a safe route with bike lanes vastly improved safety of the cyclists like me who bike to Blackhawk. It's a bit treacherous in spots without them. It's a bit crazy to try to bike along the narrow roads that take us to one of the Madison area's primo mountain bike areas.

Thanks for your consideration,
Biker-Chick Sue

Mr. Skidmore,
We're homeowners on Blackhawk Road – 9401. We would like you to know that we don't agree with the addition of bike lanes or street lighting on Blackhawk Road. The meeting tomorrow is at a very difficult time for us so we'd like to be sure you understand that we are not in favor of this project. If safety is an issue and the reason for the bike lane addition which is an isolated stretch of bike lane then perhaps you'd consider lowering the speed limit. This is a very costly project for the city as well as the residents at a time when the economy is hitting us all hard enough.

Thank you for your service Mr. Skidmore. Please take our views seriously when considering this project.

Sincerely,
Laura and Scott Anderson
