Hello,

I attended the 9/13 safe streets meeting. I did not register to speak but perhaps I should have.

Thanks for your efforts in improving the safety of our streets for non-car users!

I live on E Wilson a few houses East of S Baldwin. I walk, bike commute, drive and skate across Baldwin at E Wilson daily. I have witnessed many near misses and actual accidents at this intersection. Without changes it is a matter of time before another white bicycle monument will be needed. A four way stop sign, if feasible with traffic volumes, would be the single best solution for this intersection. Bump outs may help with visibility, but to me they seem to be more complex and expensive than stop signs. The blinky lights are my least favourite as I find them cumbersome to use.

Best regards,
Julian
