### Text of Legislative File 17895

#### Fiscal Note

No fiscal impact.

#### Title

Supporting rebuilding of the existing Central Library.

#### Body

WHEREAS, the 2010 Capital Budget includes \$23,000,000 for a new Central Library; and

WHEREAS, the new library project was dependent on successful negotiations with a developer for several phases of the project; and

WHEREAS, these negotiations were not successful; and

WHEREAS, the existing Central Library building systems are past end-of-life usage, and the current building is not adequate for 21st century library operations; and

WHEREAS, the structure of the existing building is sound and capable of being expanded by an additional story; and

WHEREAS, a re-imagined Central Library, built around the structure of the existing building, can be architecturally beautiful, environmentally sustainable, economically feasible, technologically advanced, operationally efficient, aesthetically welcoming and can function as a vital community asset for many years to come;

NOW, THEREFORE, BE IT RESOLVED that the Common Council supports rebuilding of the existing Central Library.

BE IT FURTHER RESOLVED that the 2010 Capital Budget, Library Project #2, is amended to strike the word "new" and replace it with "rebuilt."

BE IT FINALLY RESOLVED that the Common Council supports the ongoing process of Engineering Division Facilities Management to recommend an architect and design engineering firm for this project and present a contract to the Council for approval.
