I'm writing to ask you to oppose the 2 city options for Pontiac Trail redesign and instead support Option 3 for Pontiac Trail. I've do not support either of the city's options, which I wrote to you about previously, and am now fully behind grassroots Option 3.

This is the plan drafted by neighborhood resident Layne Larson (see his email to you for full details, with images). It is in alignment with Green Streets, minimizes construction impact and destruction, costs less than the city's current 2 plans, and supports balanced livable streetscape and accessibility.

In summary, it involves:

- Sidewalks on both sides in the south segment.
- Sidewalks on the west side in the middle and north segments.
- Accessible crosswalks on Onaway and Mohican.

This plan sounds like the perfect way to meet the needs of the neighborhood and the city. I ask you to support it at the commission meetings.
