

LEGISTAR Alternate Ordinance 63902v.3

DRAFTER’S ANALYSIS: This ordinance makes changes to the conditional use thresholds and allowable densities in most multi-family residential districts. Similarly, this ordinance makes changes to the conditional use thresholds and the standards for lot area, maximum height, and usable open space for most mixed-use districts.

These changes will allow for the construction of more multi-family dwelling units (“higher densities”) as permitted uses (“by right”). In that way, this ordinance takes one step toward removing barriers in the zoning code that have historically tended to exclude the construction of multi-family housing in areas of the City that are otherwise appropriate for it.

For further information related to the changes contained in this ordinance, please see the Planning Division Staff Report.

The changes contained in this Alternate Ordinance incorporate the recommendations made by the Plan Commission and made in the Substitute Ordinance. In addition, this Alternate ordinance would continue to require conditional use approval in the NMX, TSS, and CC-T Districts for any multi-family dwelling that fronts a commercial or arterial street as identified on the city’s street use class map.

The Common Council of the City of Madison do hereby ordain as follows:
