Here is Q1 crime data that focuses on three categories of calls for service in the MPD West District, particularly in March. This breakdown of the information was prepared for me by Captain Tim Patton. The percentage increases in March, 2020 are noted in red are my calculations.

Captain Patton also told me that there were significant increases in the North District and East District, but not so much in the Midtown, South, or Central Districts. I did not request breakouts for those districts. The takeaway for me is that while overall calls for service may down Citywide, the calls for service for burglaries, stolen autos, and theft from autos in the City, and in certain districts have risen significantly in the first quarter, and more dramatically March.

Paul Skidmore, 9th District Alder
