OUR HISTORY

This initiative was created to cultivate youth leadership, which is crucial for building strong communities. National trends emphasizing youth civic service and education underscored the need for such programs and in response to the lack of leadership opportunities for youth in local communities, several counties in Wisconsin developed and implemented the Youth in Governance program, starting with Kenosha in 2007.

DEVELOPMENT OF THE PROGRAM IN DANE COUNTY

RES. 188, 11-12

CREATING A DANE COUNTY BOARD YOUTH GOVERNANCE PROGRAM

Earlier this year, the Dane County Board created a study committee to consider creation of a youth governance program. The committee has made a report to the County Board, recommending creation of a youth governance program within the Dane County Board's legislative structure. The committee envisions active youth participation in the County Board's standing committee matters and specified an implementation approach including eligibility criteria, selection processes, mentoring opportunities, and outreach to ensure participation.

The study committee agreed to begin the youth governance program on a smaller scale at the outset, limiting youth participation on the standing committees of the Dane County Board, except the Executive Committee. Study committee members also agreed to support and seek provisions for mileage reimbursement for youth participants.

The Youth Governance Program would be created in the Dane County Extension Department, with assistance provided by the Department of Human Services' Youth Commission Coordinator. Program parameters follow:

- Youth members will have a non-binding advisory vote on all County Board standing committees, but will be given the same opportunities for committee participation and involvement as elected county supervisors. Committee closed sessions may include youth members at the call of the chair. Youth members are expected to sign confidentiality agreements to apply to these situations. Youth members will not be counted for purpose of quorum, and committee minutes should record their votes separately as advisory.
- Two youth representatives will be selected to serve on each of the following standing committees, or their counterparts should the standing committee structure change in future years:
 - Personnel & Finance
 - Health & Human Needs
 - Public Protection & Judiciary
 - Public Works & Transportation
 - Environment, Agriculture & Natural Resources
 - Zoning & Land Regulation
- Youth will serve one-year terms from June to June. Program applicants may reapply for a second term. Eligible youths include those in grades 9-12, and participants must be Dane County residents. Applications for the one-year term shall be sent to the Dane County Extension Department by March 1.
- County Extension staff will conduct an initial screening of the applications. The County Extension Committee will conduct brief interviews of the screened applicants, and make final recommendations. Finalists will be forwarded to the County Board Chair for official appointment. Youth members will be notified of their appointment in May.
- Information dissemination and the youth candidate selection process will be administered by the Dane County Extension Department. County Extension staff will develop and disseminate program materials to area high schools, alternative schools, youth organizations, and home school networks, with the anticipation of youth participation on County Board standing committees beginning with the 2012-2014 County Board term.
