

KOSHKONONG SOLAR ENERGY CENTER

PROJECT OVERVIEW

- CAPACITY: 300 megawatts
- STORAGE: 165 megawatt-hour battery
- DANE CO INVESTMENT: \$649M
- CUSTOMERS: WE Energies and MG&E
- ENERGY: Will provide enough energy to power $\frac{1}{4}$ of the residences of Dane County

ADDITIONAL BENEFITS

- Local electric generation close to demand will leverage existing transmission lines
- Vegetation management plan that will reduce erosion & stormwater runoff into lakes/streams
- Emissions Reduction and Air Quality Improvements
- Land-lease payments to private landowners
- Local government payments
- Significant opportunity to replace existing fossil-fuel generation

TIMELINE AND PERMITTING PROCESS

- *December 18, 2020 – Engineering Plan*
- *April 15, 2021 – CPCN Application*
- *Aug thru Oct 2021 – Testimony*
- *November 2021 – Hearings*
- *Early 2022 – PSC Decision*
