Subject: Landmark Commission #51828 2450 Atwood Avenue

This email is in opposition to REQUEST FOR CERTIFICATE OF APPROPRIATENESS 2. 51828 2450 Atwood Avenue - Exterior Alteration to a Designated Madison Landmark; 6th Ald. Dist.

Hello Landmarks' commission.

St. Bernard's Church has a history of not complying with building codes without pressure from our Alder and Building Inspection with their outdoor lighting, resulting in a contentious relationship with its neighbors. Several years ago I had to get the city involved after St. Bernards installed a giant stadium type light on the church that was so bright it cast shadows into my house, across the bikepath and down Talmadge Street. I want to get some assurance that this time will be different.

Please see the past communications I have had with Ms. Rummel and St. Bernard's on the matter:

Light from your parking lot, into my window

to St, me

Thanks for contacting me Jenna.

I know St Bernards has been asked to turn down the wattage before.

Pastor Radowicz please let us know you will take care of this.

Marsha

to [REDACTED], me

This time I have the correct email!

Jenna - thanks for contacting me. As you mentioned in your previous email, Bernards has been asked to turn down the wattage before.

Dear St. Bernard's;

Once again your giant parking lot light is out of compliance with city code, and is pointed upwards. The problem is that is illuminating my home and several neighbors homes. It shines right into my my living room and into my bedroom as well. This is a public nuisance. Please re position your light to be in compliance with lighting ordinances ASAP.

As you may recall the last time this happened you ignored my requests and phone calls and I had to get building inspection involved. I hope you will be neighborly this time and fix the problem immediately.

Thanks in advance,

Jenna Hansen

The only solution is that you add additional lights to the areas that are dark. It is difficult to be patient when it effects my sleep. Can you give me an idea of your timeline for a suitable solution? Can you turn off the light when no one is at the church? Last night the lot was empty for several hours while the light shined on.

Thanks for your quick response. I do appreciate it.

to me

Hi Jenna:

For right now, we've removed the light from the auto timer, and will only switch it on when we have a function here ... Wednesday, Friday and Saturday nights for the most part. I would very much like to add other ambient lighting, but we don't have \$40,000 laying around to tear up the parking lot, trench cable and install additional lights. You have my word that we'll do our best. I'll be in touch soon.

**Best wishes,
Fr. Michael**

Dear Jenna:

I will speak to the building inspector and get back to you. We have had numerous parking lot complaints from parishioners and those visiting the parish that the lot is too dark. When we pointed the light down, the light lost all of its effectiveness and was useless. Combined with the recent issues on the bike path, we have been forced to raise the light a bit until we can find an alternative solution. I would please ask for your patience as we deal with the situation. We're working on it.

Many thanks,
Fr. Michael
