

12-7-11

I recently purchased a home in Grandview Commons with the intent that future retail + grocery would come to the neighborhood. I am in complete support of the Town Center in Grandview Commons. This will help raise property value as well as bring local jobs to the neighborhood. It could employ young adult or high school kids trying to save money for college. It would also help support a future library or other public buildings. If denied, the other option would be more apartment buildings + bring down our home values with no retail options.

Homeowner,
Jay Langley
