

## Capital Region Sustainable Communities

### About the Partnership

Capital Region Sustainable Communities (CRSC) is a public-private collaboration that is enhancing the environment, economy and community through an integrated approach. In summer 2010, twenty-seven governmental, business and non-profit entities came together as partners to seek funding for collaborative approaches to regional challenges.

Challenges such as efficient and equitable transportation, improving water quality, providing housing options near jobs and transit, and increasing capital investments and job opportunities for all, are inter-related and span community borders. Regional partners can only solve these challenges through a collective, multi-pronged approach.

Led by the Capital Area Regional Planning Commission (CARPC), the Partnership secured a three-year, \$1.975 million Sustainable Communities Regional Planning Grant from the U.S. Department of Housing and Urban Development.

#### CRSC focuses on six activities:

- 1) Develop a broad partnership to advance regional sustainable development
- 2) Prepare plans for enhanced transit and transit-oriented development
- 3) Prepare Future Urban Development Area (FUDA) plans for sustainable urban growth
- 4) Close gaps in local/regional plans for inclusive participation, housing and air quality
- 5) Demonstrate sustainable development through catalytic projects
- 6) Establish sustainability indicators and track progress towards long-term desired outcomes
