# Salary Savings and Budget Efficiencies

## Salary Savings

- 7.2% vacancy rate in first 5 months of 2024
- Created tiered structure in 2024 so small agencies with less turnover are not adversely impacted
  - Fewer than 20 FTEs = 0%
  - 20 – 49 FTEs = 0.5%
  - 50 – 99 FTEs = 1.0%
  - 100 – 199 FTEs = 3.0%
  - 200+ FTEs = 4.0%
- 2025 salary savings = \$5.6m in GF + Library (3.2% of perm wages)

## Budget Efficiencies

- Actual underspend varies by agency, but citywide average for last 3 years is 3.8%
- Cost-to-continue includes 2024 1% “savings” -- \$3.2 million

# What options does the City have?

The operating budget must be balanced. How much we spend (expenditures) cannot be more than the money we bring (revenues).

## Reduce Expenditures

Closing the budget gap through cuts alone will have significant operational impacts and will result in less services to residents.

- Reduce all/most agencies
- Cut specific programs or services
- Cut positions (layoffs) or reduce employee compensation (for example, saving \$22 million would require cutting 220 positions).

## Increase Revenues

The City's options for raising revenues are limited by the State. For example, we cannot levy a local sales tax or income tax.

- Create new special charges
- Increase existing local revenues (e.g. fines, fees)
- Ask voters to increase the property tax ("levy") through a voter referendum

# Council Guidance on 2025 Budget

Legistar 82456, adopted April 16, 2024

## Values and Priorities

1. Maintaining services to residents
2. Preventing layoffs or furloughs of city staff.
3. Maintaining wage parity for general municipal employees
4. Meeting the needs of a growing city.
5. Choosing the most progressive revenue options that consider housing affordability.

## Guidance on Developing 2025 Budget

1. Evaluate service levels, staffing and fiscal impact.
2. Seek ways to increase efficiencies in operations.
3. Explore a reduction in expenditures from cost-to-continue levels that does not compromise services to residents.
4. Develop referendum language to increase property tax to meet some or all of deficit, as well as options to replace existing non-property tax revenues.
5. Prepare options other than property tax, including special charges
6. Develop a multi-year plan, including options for new, or increasing existing, fees and charges.
7. Consider the level of overall general obligation borrowing in 2025 capital budget to reduce rate of growth in property taxes
8. Develop a community engagement plan to educate the public.
