2024 Shamrock Shuffle EAP – March 16, 2024

Planning for an Emergency

This outline will serve as a guideline for the 2024 Shamrock Shuffle to deal with emergency situations on event day.

What Race Day Emergencies Can the Running Event Face?

Issues that can face the Shamrock Shuffle the day of the race are:

- Severe or Extreme Weather Conditions – extreme low/high temperatures, lightning, high winds
- Emergency course changes (in case of on-course fires, vehicular accidents, overnight storms or flooding)
- Accident along the course involving runner(s)
- Runner death
- Lost Child(ren)
-

There are other, unforeseen emergencies that could happen on race day. We will offer general guidelines on how to handle these issues with the runners, the public and the media. Also, we will communicate directly with emergency personnel and their respective agencies to develop the appropriate response(s) (or rely on them to enact their own public safety response plan).

Hospital Transports

The primary hospital for transports is UW Hospital located at 600 Highland Ave. Other hospitals include Meriter, located at 202 S. Park St. and St. Mary's, located at 700 S. Park St. These hospitals will be used by choice of patient and/or in the case of less severe injuries. Madison Fire and EMS is the primary transporter for the event.

Starting Line Announcements:

For weather: “Attention runners, our weather forecasters from (media partner) tell us that (weather condition) is in our area. Because the safety and well-being of our runners, the volunteers and the safety workers along the course are foremost in our minds, we are delaying the start of the race for (XX) minutes. Please find shelter in the nearest parking ramp or return to your cars for safety until the storm passes.”

(Conditions updated every 5 minutes until 5 minutes out for actual race start time)

For emergency course changes: “Attention runners. The ____ Police Department has informed us that because of (flooding, water main break, tree down, fire, wires down, etc) there will be a slight course change at Mile ____ of the Shamrock Shuffle. If you are running to that mile, be aware that extra safety personnel and markers will be on hand to direct you along the detour. Your safety and well-being are our main concern, so please be aware of the changes.”

For any other delay: “Attention runners. Because of _____, the start of the Shamrock Shuffle will be delayed approximately ____ minutes. We plan to start the race in ____ minutes, as soon as the situation is corrected. We will keep you updated on the start time, but please, stay here at the starting line.”

Weather Emergencies:

If dangerous weather conditions occur during the race, or temperatures become too dangerous; the Race Director, in consultation with the EMC, Medical Director, and CP will make the decision on whether to continue the event. Runners will be notified on course by event personnel, police, and through the event flag system. (The procedures will be provided on the event website, in participant information, and announced to runners on race day).

The Emergency Management Committee (EMC) makes the final call regarding weather matters. Weather information will be relayed to the Media by the Marketing Director or the Race Director; and will be the only spokespeople for any media questions.

The Race Officials in and out of the Command Center will continuously monitor weather reports including active radar starting 2 hours prior to the race start and continuously throughout the day. Weather updates will be broadcast on the primary race operations radio channel at a minimum of every 30 minutes prior to the race start. After race start, weather updates will be broadcast whenever any weather condition of concern is detected. Threshold for lightening is 10 miles.

Inclement Weather

If the potential exists for hazardous weather, the Race Director will inform all race staff and the race announcer. Announcements will be made periodically, and on a schedule, to keep spectators and participants informed.

The Race Director will decide on the start of the event 20 minutes prior to published start time. If conditions prohibit the start of the race on time appropriate delays will occur until safe to do so. If conditions do not allow the race to start on time, the race will be shortened and or cancelled.

If inclement weather occurs after the race has started, athletes and volunteers are on their own to seek shelter. Weather issues will be communicated via radio to list below telling people what to do. Potential shelters are schools and churches along the route, park shelters, bridge over passes, parking structures in the city of Madison and on the UW Campus.

Communication plan for broadcasting weather issues

Should inclement weather be forecasted/threatening the race, Race Command will be in contact with Brian Hamilton (Race Director) to inform of situation. Based on information received, threat of weather, location of weather, and direction of travel for weather, a decision regarding the race will be made. If race needs to be stopped or shortened or changed, the Race Director will make that decision. Communications to UWPD and Madison Police, and other parties will be made through Dane County

Communications, and necessary decisions regarding the race will be communicated to race staff, aid stations, and volunteers on course via the race radios.

All communications will use cell phones as back-ups and hard lines as a back up to that where possible. After race start, weather updates will be broadcast whenever any weather condition of concern is detected. Threshold for lightening is 10 miles.

Emergency During Race:

No general announcement is needed to the public at the start-finish area UNLESS there is an imminent safety issue that could affect participants or spectators in the Start/Finish area. The media may hear about an on-course problem and ask for a clarification or reaction. If you are asked for a comment BEFORE the information is in, and BEFORE you have had a staff meeting, say that an official comment will be coming shortly, then:

1. Assess the situation. Is it a health emergency? Is it a traffic emergency? What is the appropriate response that will cover the facts while still putting the event in the best position possible?
2. Compose an official statement. This is what will be given to the media, with NO deviation from the talking points.
3. If there are several requests for reaction, call a news conference. Contact media on site, plus call local news outlets on the media contact list and inform them of a news conference to discuss the situation. If it is appropriate to have other officials there besides the Shamrock Shuffle spokesperson, have those persons available at the news conference. If it is a traffic issue, have a police spokesperson there. If it is a health issue, there is little that can be told to the media because of HIPAA rules.
4. Keep the situation information flowing! If there are updates, let the media know. Keeping information from the disseminating sources only leads to speculation and false information.

Emergency Route Changes:

Police in that particular jurisdiction will make all final decisions regarding any route changes after consultation with Race Director.

Lost Child Plan:

Any child that is separated from their parents, near the race site, will be brought to the finish line announcer stand. The announcer will request that the parents (by name) will come to the Finish Line Announcer's Stand. It will also be announced over race radio. Staff member MUST stay with child until reunited with parents. If parents approach regarding their child missing, an all call will go out over radio with description of child. This will also be communicated through event command so Police are aware of the situation. Announcer will also ask for people to look for child and bring them to the announcer tower. Likewise, as Police are approached regarding missing child, it should be communicated to race command so it can be broadcast to Event Staff.

ANY official crisis statement made by the Event should be posted on the Event web site as quickly as possible.

Post-Race Announcements:

The only public crisis announcements that need to be made might be those involving weather. Again, if lightning is in the area, warn spectators and vendors to seek shelter, modifying the starting line weather announcement.

Response to Runners:

Injuries:

If someone is seriously injured during the race, the Boys & Girls Club of Dane County representative and/or event Race Director, should contact the person and/or family as soon as possible. In addition, the Boys & Girls Club of Dane County should consult with the Organization's attorney and follow up with a hand-written note and a waiver for the next year's entry fee (if appropriate). Staff should use an incident report form to collect information about the situation immediately.

Medical personnel:

If someone is injured and needs to be transported to the medical tent or hospital, course volunteers should attempt to **obtain the name and/or race number of the patient**. This is the best and most expedient way to identify the person and contact his/her family. Pass that information along to the Medical Director, who will pass it along to Event staff. It is important to keep track of runners who do not finish the race, in case family members are looking for them at the finish line.

***If there is serious injury along the course, call 911 directly.** Time is of the essence and radio or phone relays back to the Medical Director only delays treatment. Only do this for serious injury, not sprains or scrapes.*

Minor injuries will be treated by volunteer athletic trainers stationed at aid and water stops along the route (if available). That will include administering Band-aids, wrapping sprains, providing Vaseline, etc. This will provide more immediate treatment and will clear the Medical Tent at the finish line for more serious injuries.

The Event personnel, athletic trainers, and EMTs at the finish line WILL NOT treat spectators. If there is a traumatic incident involving spectators the CP will be notified and the appropriate action will be directed from this location.

Media Management

First, identify the problem. Don't speculate on what the issue may be, before the facts are in.

Second, do NOT make any statement to runners or media until the Emergency Management Committee (EMC) has met and the Command Post (CP) is notified. This committee will include the designated representative from Boys and Girls Club of Dane Co. (BGCDC), Event/Race Director, Course Director, Operations Director, and Marketing Director. The EMC can be expanded to include the jurisdictional police department, jurisdictional fire department, communications personnel, medical director or emergency health personnel, and event volunteer coordinator, depending on the nature of

the emergency. This meeting will be convened as quickly as possible. All decision makers need to know what is going on, and what the official Race position or response is.

Third, be honest. The object is to relay accurate information while keeping the message simple and positive as possible.

Fourth, name ONE person who is the official spokesperson of the Shamrock Shuffle (BGCDC President, Event/Race Director, or BGCDC Marketing Director). All media requests will be directed and coordinated through the Marketing Director. The reason for this is to keep the SS message consistent.

Fifth, any request for information, whether it's from runners or media, will be handled through the BGCDC Marketing/PR Director, which then will schedule a response from the spokesperson. If it is a major event or crisis, a news conference will be scheduled on site.

Sixth, follow up on a regular basis with updated information as long as the situation is unresolved. For example, delays at the start should be announced every five minutes, with explanations on what is being done to rectify the situation. A delay due to weather will use the policy established in 2012 regarding start times and notifications.

Complaints/Comments:

If someone has a complaint about the race and expresses it to a race volunteer or official, the volunteer/official should:

- Thank them for their comments and their concern.
- Promise to look into the situation (and do so).
- If possible, collect contact information (e-mail or phone number)
- Volunteers/officials receiving the comments should provide this information to the Operations Director before leaving the race area. If unable to do so, the volunteer should email this information to Race Day Events within 36 hours of the end of the race.
- Follow up should occur no less than a week after the Event. Customer service extends beyond pre-race questions, to post-race concerns.

Street Event Clean-Up and Recycling Plan:

Race Day Events will have 12 staff members dedicated to clean-up during and after the Shamrock Shuffle. RDE will also be providing garbage cans and bags for participants and spectators to use throughout the event. These garbage cans will be strategically placed at the Start/Finish line as well as at Aid Stations to throw any items along the way. In addition to garbage cans, Race Day Events will supply Blue Recycle cans and bags.

Post-race, these garbage bags will be emptied into a 10 yard dumpster to be placed on the 500 block of N. Lake Street (west side of street) in the two "Loading Zone" spots - dumpster provided by Badgerland Disposal, an LRS Company. Recyclables will be taken back to Race Day Events Headquarters to be thrown into our recycling dumpster to also be picked up by Badgerland Disposal.

Dumpster drop-off tentatively for March 10, 2024 with pick-up on March 13, 2024. Will coordinate with the City on specifics of placement.

Accessibility Plan:

There will be no blocking of any sidewalks, pathways, or aisles. Our equipment, including the stage and the start/finish line will not be impeding on any walkway for participants or patrons of Madison.

Site Layout:

- Stage will be a low-rise 8' x 8' platform
- Barricades are individually 4' high x 10' long

Start/Finish Line:
