31.01 SHORT TITLE. This ordinance shall be known and may be cited as the Sign Ordinance.

ADMINISTRATION, GENERAL REGULATIONS

31.02 PURPOSE AND SCOPE.

(1) Purpose and Intent. The Common Council, by enacting this ordinance, recognizes the City has a significant and substantial governmental interest in promoting public safety and aesthetic values through the regulation of signs displayed within the City of Madison. The purpose of this ordinance is to create the legal framework for a comprehensive but balanced system of signs, and thereby to facilitate an easy and pleasant communication between people and their environment. Sign regulations, including but not limited to those which control the type, design, size, location and maintenance of signs, are hereby established to further the goals of safety and aesthetics and achieve more specifically, the following purposes:

(a) To enable the public to locate goods, services and facilities without difficulty or confusion;

(b) To protect property values, public investment and overall neighborhood character by promoting an attractive, harmonious and aesthetically-pleasing environment and preventing conditions which have undesirable impacts on surrounding properties;

(c) To promote the development of attractive and harmonious residential areas, viable commercial areas and to identify industrial and other areas;

(d) To protect the public and promote safety, including but not limited to traffic and pedestrian safety; and to minimize effects of signs which may distract or obstruct visibility of official traffic signals and other safety or informational devices; and

(e) To protect scenic views and the visual environment along all city streets, highways and rights-of-way and to promote overall aesthetics, avoid clutter and avoid inappropriate scale;

(f) To recognize the role of appropriate and identifiable signage in helping businesses inform, direct and communicate with customers; and (Cr. by ORD-15-00118, 10-28-15)

(g) Recognition that signage is not intended to serve as a principal or sole use of a zoning lot. (Renum. by ORD-15-00118, 10-28-15)

(2) Scope. This ordinance shall apply to all signs in the City of Madison. However, this ordinance shall not be construed to amend or conflict with any other ordinances or applicable law governing official traffic signs or signals.

31.021 ZONING DISTRICT GROUPS.

(1) For purposes of Chapter 31, the zoning districts established in Chapter 28 ("Madison Zoning Code") are divided into the following groups, so that regulations for signs based upon zoning district can be administered consistently with the purpose of this ordinance and the Madison Zoning Code. The City finds that the zoning districts within each group share characteristics that make it appropriate to regulate signs displayed in those districts similarly. The use of the following groups also provides consistency and efficiency for the administration of this ordinance.

(a) Group 1. The zoning districts in Group 1 include all zoning districts classified as Residential in Sec. 28.021, including DR1 and DR2, and the Agricultural (A),

Urban Agricultural (UA), Campus Institutional (CI) and Conservancy (CN) districts, as listed below. Group 1 zoning districts are the most sensitive to the effects of signage. Signs for Group 1 are primarily regulated through Sec. 31.14.

SR-C1 Suburban Residential - Consistent District 1
SR-C2 Suburban Residential - Consistent District 2
SR-C3 Suburban Residential - Consistent District 3
SR-V1 Suburban Residential - Varied District 1
SR-V2 Suburban Residential - Varied District 2
TR-C1 Traditional Residential - Consistent District 1
TR-C2 Traditional Residential - Consistent District 2
TR-C3 Traditional Residential - Consistent District 3
TR-C4 Traditional Residential - Consistent District 4
TR-V1 Traditional Residential - Varied District 1
TR-V2 Traditional Residential - Varied District 2
TR-U1 Traditional Residential - Urban District 1
TR-U2 Traditional Residential - Urban District 2
TR-R Traditional Residential - Rustic District
TR-P Traditional Residential - Planned District
DR1 Downtown Residential 1
DR2 Downtown Residential 2
A Agricultural District
UA Urban Agricultural District
CI Campus Institutional District
CN Conservancy District

(b) Group 2. The zoning districts in Group 2 are the districts listed below. Group 2 zoning districts include neighborhood-serving commercial uses, pedestrian-oriented corridors, smaller-scale development and park and recreation areas.

LMX Limited Mixed-Use
NMX Neighborhood Mixed-Use District
TSS Traditional Shopping Street District
DC Downtown Core
UOR Urban Office Residential
UMX Urban Mixed-Use
PR Parks and Recreation

(c) Group 3. The zoning districts in Group 3 are the districts listed below. Group 3 zoning districts include higher-volume motor vehicle transportation corridors, larger-scale development, and primarily auto-oriented commercial and employment uses.

AP Airport District
TE Traditional Employment District
SE Suburban Employment District
SEC Suburban Employment Center District
IL Industrial - Limited District
IG Industrial - General District
CC-T Commercial Corridor - Transitional District
CC Commercial Center District

(2) Zoning Districts established in Chapter 28 and not listed in Groups 1, 2 or 3 are addressed in Sec. 31.13, Districts of Special Control for Purposes of Signs.

31.03 RULES AND DEFINITIONS.

(1) Rules. In the construction of this ordinance, the rules and definitions contained in this section shall be observed and applied, except when the context clearly indicates otherwise:

(a) Words used in the present tense shall include the future.

(b) Words in the singular number shall include the plural number, and the plural the singular.
(c) The word "shall" is mandatory and not discretionary.
(d) The word "may" is permissive.
(e) All references to section numbers are Madison General Ordinances, unless otherwise noted.

(2) Definitions. For the purposes of this ordinance, the terms listed below shall have the following definitions:

Above-Roof Sign. A sign displayed above the roofline.

Accessory Sign. A wall sign on a large building, subordinate in area to the principal sign, located elsewhere than the primary signable area, listing other businesses or generic services or departments in the building, such as pharmacy, optical, auto repair, garden center and excluding product brand names.

Advertising Sign. A sign containing a commercial or noncommercial message directing attention to a business, commodity, service, political candidate or cause, public service, social cause, charity, community affair or entertainment, not related to the premises at which the sign is located, or directing attention to a business, commodity, service or entertainment conducted, sold or offered elsewhere than on the premises where the sign is located. Advertising appearing on public transportation vehicles, signs authorized on Madison Transit Utility bus shelters under Sec. 3.14(4)(i), and signs on City-sponsored bicycle-sharing facilities and the bicycles provided as part of a city-sponsored bicycle-sharing program located in the right-of-way or on other City lands in compliance with Sec. 10.33 are not advertising signs as defined herein and are not regulated by this ordinance.

Alteration. Any major change made to an existing sign, other than routine maintenance, painting or change of copy of an existing sign.

Architectural Detail. Any projections, relief, change of material, window or door opening that is on the facade of a building. Where an overall consistent pattern of projections or reliefs exists on a signable area, they shall not be considered architectural details.

Attention-getting Object. An object made of flexible material whether or not it contains text, logos or any other images such as a streamer, pinwheel, pennant or other such device; suspended, hung, pinned or otherwise fastened to a sign or other structure in such a manner that the object is permitted to spin, fly, flap or otherwise move in the wind. Flags and decorative and promotional banners allowed under Sec. 31.075 are not considered "attention getting objects."

Awning. A roof like cover, temporary in nature that projects from the wall of a building.

Awning, Internally Illuminated. An awning consisting of a rigid frame covered with vinyl, plastic, or other translucent material that is internally illuminated.

Banner. A suspended sign made of a flexible material such as canvas, sailcloth, plastic or waterproof paper.

Banner, Decorative. A banner containing no message or logo that is displayed for the purpose of adding color and interest to the surroundings or to the building to which it is attached.

Banner, Promotional. A banner or series of banners containing a noncommercial message displayed to call attention to cultural events, charity campaigns or neighborhood sponsored activities.

Building Entrance Identification Sign. A wall sign used to identify non-residential building entrances such as, "Emergency Room Entrance", "Lubrication," "Wash Rack," as may be customarily found on Large Buildings as defined herein.

Building Line. A line established by ordinance beyond which no building may extend. A building line may be referred to as "required setback".

Business Opening Sign. A sign displayed in addition to permitted wall, roof, above-roof and ground signs; displayed on the premises of a new building or new business or the premises of an existing business upon a change of name or change of ownership; and displayed for a period not to exceed thirty (30) days.

Business Sign. A sign used for identification purposes, which directs attention to a business or profession conducted upon the premises at which the sign is located, which may also refer to goods or services produced, offered for sale or obtained at such premises, and which may also include political, social, public service or other noncommercial messages.

Canopy. A permanent roof structure over a space that is completely unenclosed on at least two (2) sides.

Canopy, Attached. A canopy that is attached to and supported by a building, which may also be supported by additional vertical ground supports or other structures.

Canopy, Detached. A canopy that is a permanent, free-standing roofed-over structure, with four open sides, accessory to but not attached to a principal building.

Changeable Copy Sign (Electronic). A sign, any portion of which displays or has the ability to display electronically illuminated, scrolling or moving text, symbols or other images, utilizing LED, LCD or other digital or electronic technology, commonly known as electronic message or reader boards, electronic marquees, message centers or moving message displays.

Changeable Copy Sign (Manual). Any sign that includes copy, letters, numbers, or symbols that are designed to be changed through manual, mechanical or other non-digital means.

Change of Use. Change in use of the premises from one use category listed in Chapter 28 (the Zoning Code) to another use category listed in Chapter 28.

Commercial Message. A message that directs attention to a business, commodity, service or entertainment enterprise which is intended to produce a monetary profit or earnings which may lawfully inure to the benefit of any private shareholder or individual and the income of which is taxable under the Internal Revenue Code.

Comprehensive Design Review. A process whereby the Madison Urban Design Commission ("UDC") reviews all existing and proposed signs on a building, building site or zoning lot upon request of an applicant who is seeking to have a Comprehensive Sign Plan approved. The UDC may recognize unique, exceptional and innovative effort to integrate signs with building architecture and materials by approving a Comprehensive Sign Plan that includes special allowances for all signs within a building site or zoning lot, and which may also incorporate other approvals authorized in Sec. 31.043(3).

Comprehensive Sign Plan. A complete signage plan for a building or zoning lot that has been approved by the Urban Design Commission through a Comprehensive Design Review.

Condominium Identification Sign. An identification sign for a condominium established under Chapter 703 of the Wisconsin Statutes, that displays the name, address(es) and number(s) of the buildings(s) located within a single condominium.

Construction Directional Sign. A temporary sign displayed on private property for a limited period of time, to identify the location of and entrance to a business that remains open when normal access or pedestrian or vehicle traffic flow has been diverted by construction or road work.

Curb Level. The curb level for any building is the level of the established curb in front of such building measured at the center of such front. Where no curb elevation has been established, the City Engineer shall establish such curb elevation.

Design Extension. Any addition to a sign that is added to or protrudes from the top, sides, or lower edge of the main or principal portion of the sign.

Detached Building. A building surrounded by open space on the same lot or built to the lot line.

Digital Image Sign (Static). A sign, any portion of which displays static or stationary illuminated digital images, produced by technology such as LED (light emitting diode) or LCD (liquid crystal display) display screens, plasma, high-definition, interactive touch-screen, or other such technology.

Digital Image Sign (Animated). A Digital Image Sign as defined above, any portion of which is capable of producing an animated or moving digital or video image.

Electric Sign. Any sign utilizing electric wiring, material, or devices.

Electronic Message Board. See Changeable Copy Sign (Electronic Message Board).

External Lighting Fixtures. For purposes of this Chapter, shall mean lighting sources (as defined in Sec. 10.085(2)) which are electrically powered illuminating devices, lighted or reflective surfaces, lamps and similar devices, permanently installed or portable, used to illuminate a sign.

Facade. Any separate face or surface of a building, including parapet walls, and roof surfaces or any part of a building which encloses or covers usable space. Where separate facades are oriented in the same direction, or where the inside angle at the intersection of two surfaces is greater than one-hundred and thirty-five (135) degrees, they are to be considered as part of a single facade.

Flag. A device generally made of flexible material, such as cloth, paper, or plastic, and displayed from a pole, cable or rope. It may or may not include copy. This definition does not include the flag of any country, state, city, county, corporation or institution.

Flashing Sign. A sign that includes a message or any other component that flashes on and off, blinks or varies in intensity, with intermittent bursts of light, color, brightness, or other feature of any kind that produces a visual flashing effect.

Gross Area. The total area of the sign, including all supporting structures, viewed from the direction the sign is facing; calculated within a single continuous perimeter enclosing the smallest possible square or rectangle, or a combination of not more than three (3) of the smallest possible squares or rectangles that can be drawn around a sign of an irregular shape; enclosing the extreme limits of such sign, with sides that are perpendicular to the ground. Said perimeter shall not pass through or between any adjacent elements of the sign except when more than one square or rectangle is drawn around a sign of an irregular shape, in which case each square or rectangle must be immediately adjacent to the next so that there is no gap between them. If sign copy is displayed on more than one face of a single sign structure, all sides of the sign structure displaying sign copy shall be included in the gross area, by adding together the total square footage of the two-dimensional area encompassing each side of the structure that displays sign copy.

Ground Sign. A freestanding sign supported permanently upon the ground and not attached to any building. For purposes of this Ordinance, Ground Signs include only Pole or Monument Signs as defined herein.

Identification Sign. A sign displayed on a wall, located in the Group 1 districts displayed for the purpose of identifying the building and address, building occupant or management, and any lawful home occupation or business that may be allowed under Chapter 28.

Inflatable Sign. A freestanding or moored sign expanded or inflated with air or another gas, like a balloon, and which may rise and float above the ground.

Kiosk. A freestanding structure upon which temporary information or notices may be posted.

Large Buildings. Those buildings exceeding one hundred twenty-five (125) feet in length or having five (5) stories or more in height.

Legacy Sign. A sign that has been approved by the Urban Design Commission under Sec. 31.043(3)(j).

Logo. A symbol or trademark commonly used to identify a business or organization but which in itself contains no more than two (2) words or numerals.

Marquee. (See Canopy.)

Menu or Merchandise Board. A type of wall sign displayed on the exterior of a building which may include manual changeable copy, may be enclosed in a protective case, and is oriented toward pedestrians to provide information regarding the establishment, such as a restaurant menu, a menu of services, or a list of merchandise. (Am. by ORD-15-00118, 10-28-15)

Merchandise Sign. A sign made of flexible nonmetallic material attached to, and advertising, merchandise displayed outside of an enclosed building.

Monument Sign. A Ground Sign supported by and integrated into an internal structural framework or some other solid structural features other than a pole or poles, if the total width of such supporting structure(s) is more than one-third (⅓) of the width of the net area of the sign copy it supports.

Motion Sign. Any sign possessing visible moving parts or parts that appear to move, including signs that are designed with automatic moving parts in order to change the copy, such as "tri-vision" signs.

Mural. A picture illustration or abstract expression containing no commercial message applied directly to and made integral with a wall or window surface.

Neighborhood Identification Sign. Any sign containing the name of the neighborhood in which it is located, if the neighborhood is recognized as a Neighborhood Association using standards established by the Department of Planning and Community and Economic Development. A public information board, kiosk, or sidewalk showcase (as those terms are defined in this chapter) may be approved as a neighborhood identification sign.

Net Area. The entire area within a single continuous perimeter enclosing the smallest possible square or rectangle drawn around the sign copy; or a combination of not more than three (3) of the smallest possible squares or rectangles that can be drawn around sign copy of an irregular shape; enclosing the extreme limits of such sign copy with sides that are perpendicular to the ground. The perimeter shall not pass through or between any adjacent elements of the sign copy except when more than one square or rectangle is drawn around sign copy of an irregular shape, in which case each square or rectangle must be immediately adjacent to the next so that there is no space between them. If the sign copy is contained entirely within one sign can or board, the entire area of the can or board shall be measured to determine the net area. If the sign copy is contained within multiple sign cans or boards, then all cans or boards shall be measured using the methods for sign copy of an irregular shape, above. The net area shall not include any structural elements lying outside the limits of the sign copy and not forming an integral part of the display. For the purpose of window signs, any background material under Sec. 31.10(2) shall be included in the measurement of net area.

Nonconforming Sign. Any sign does not comply with the regulations of this ordinance.

Nonconforming Use. Any use of land or buildings does not comply with the regulations of Chapter 28 (Zoning Code).

Noncommercial Message. A message intended to direct attention to a political, social, community or public service issue, event or cause, not intended to produce a monetary profit or earnings which may lawfully inure to the benefit of any private shareholder or individual, and any income generated from which is exempt from taxation under the Internal Revenue Code.

Number. For the purposes of this ordinance, the term number shall mean a number or combination of numerals used to identify or designate one particular item such as a quantity, price, telephone number or address of a property.

Off-Premise Directional Sign. A sign displayed on the ground, designed to guide or direct the public to a business, service or entertainment activity.

Parking Lot Directional Sign. A sign that is necessary, for safety or promoting traffic flow, to guide or direct pedestrian or vehicular traffic to a location on the premises on which the sign is located.

Parking Lot Regulation Sign. A sign designating the conditions of use or identity of such parking area, including identification and labeling of individual parking stalls, except for signs that are required by law to identify certain parking stalls or parking areas.

Pennant. A tapered or dove-tailed banner or flag.

Person. May include a firm, association, organization, partnership, trust, company, or corporation as well as an individual.

Pole Sign. A Ground Sign that is supported by one or more poles or other supporting structures, if the total width of the pole(s) or supporting structure(s) is one third (⅓) or less than the width of the net area of the sign copy it supports. The width of all pole(s) and supporting structures at their widest point and any space between poles or supports shall be included when measuring the total width of the pole(s) and supporting structure(s).

Political Sign. Any sign that states the name and/or picture of an individual seeking election or appointment to a public office, or pertaining to a forthcoming public election or referendum, or pertaining to or advocating social or political views or policies.

Portable Sign. A sign that is not permanently attached to the ground or a building or not designed to be permanently attached to the ground or a building, including but not limited to, trailers or other vehicles that are used principally as a sign, posters, "sandwich boards" or other freestanding signboards, regardless of whether such signs are attached to the ground or to a building or structure.

Principal Building. A non-accessory building in which is conducted the principal use of the lot on which it is located.

Project Sign. A temporary sign on private property, describing a construction or improvement project including the names of contractors, architects, engineers, investors, owners or occupants.

Projecting Sign. A sign that is attached to the wall of a building and projects more than fifteen (15) inches beyond such wall.

Public Information Board. A free-standing structure that is oriented toward pedestrians for the purpose of posting leaflet-like temporary notices.

Real Estate Sign. A sign advertising the sale, lease, or rental of the property upon which it is located.

Roof Line. The uppermost line of the roof of a building, including original parapets.

Roof Sign. A sign erected on the roof of a building no portion of which is above the roof line.

Rotating Sign. (See Motion Sign)

Scoreboard. A scoreboard is a sign designed to provide information to spectators at athletic events that may or may not contain advertising messages or public service announcements.

Sidewalk Showcase. A freestanding structure consisting of an enclosed display case or cabinet, used to display information or notices, located on a public or private sidewalk or sidewalk area.

Sign. Any device, structure, fixture, or placard, including its supporting base, frame, electrical and all other accessory components, using text, graphics, symbols and/or other written copy for the primary purpose of identifying, providing directions, or advertising any establishment, product, goods, or services; located outside of a building or within three (3) feet of the interior of a window and which is visible from the exterior.

Sign Copy. The portion of a sign comprised of any combination of text, graphics, symbols, images, and/or other written copy, whether it is displayed within or outside of a sign can or board.

Signable Area. One designated area of the facade of the building up to the roof line that is free of doors, windows (for purposes of this definition, spandrel panels or other non-vision glass used as an exterior building material are not considered windows) or other major architectural detail, that extends no higher than the juncture of the wall and the roof, or in the case of a facade that includes a parapet wall, no more than four (4) vertical feet of the parapet wall, upon which signs are to be displayed.

Street Occupancy Signs. Signs displayed on street occupancy barricades, passageways and fences that have been erected pursuant to a valid street occupancy permit issued under Sec. 10.055(4)(o); denoting only the owner, occupant, architect, engineer or contractor(s) of the project for which the street occupancy permit was issued. (Am. by ORD-15-00036, 4-8-15)

Subdivision Identification Sign. Any sign containing the name of the subdivision in which it is located.

Swinging Sign. (See Motion Sign)

Symbol. Something that stands for or suggests something else by reason of relationship, association, convention or resemblance placed or erected for public view as a sign or as a part of a sign.

Time and/or Temperature Sign. A flashing sign giving the time and/or temperature.

Wall Sign. A sign that is attached to a wall of a building and is affixed parallel to the wall at a distance of not more than fifteen (15) inches from the surface of the wall.

Window Sign. Any sign that is displayed, painted on, applied to, or affixed to the exterior or interior of a window; or displayed within three (3) feet of the interior of a window; and that is visible from the exterior. For purposes of this ordinance, "window" shall include any glass or transparent panels on exterior doors. Merchandise available for purchase within the premises and displayed within three (3) feet of the interior of a window shall not be considered a window sign under this definition.

Zoning Administrator. When used in this Chapter, Zoning Administrator means the Zoning Administrator or his/her designee.

31.04 ADMINISTRATION, ENFORCEMENT, AND CONSTRUCTION REQUIREMENTS.

(1) Interpretation.

(a) In their interpretation and application, the provisions of this ordinance shall be held to be the minimum requirements and least intrusive means for the promotion and protection of the public health, safety, and general welfare.

(b) Where the conditions imposed by any provision of this ordinance upon the erection or maintenance of signs containing commercial messages are either more restrictive or less restrictive than comparable conditions imposed by any other provision of this ordinance or of any other law, ordinance, resolution, rule or regulation of any kind, the regulations which are more restrictive or which impose the higher standards or requirements shall govern.

(c) Any sign permitted or authorized in this ordinance may contain any noncommercial message in addition to or in lieu of any other message.

(2) Application of Other Laws.

(a) Signs Located Near Interstate Highways. All signs hereafter erected within six hundred sixty (660) feet from the edge of the interstate highway easement or property measured horizontally along a line normal or perpendicular to the center line of the interstate highway shall be subject to the applicable provisions of Wis. Stat. § 84.30 and Wis. Admin. Code § Trans. 201.01, 201.04, and 201.05, in addition to being subject to this ordinance.)

(3) Administration and Enforcement of the Sign Control Ordinance.

This ordinance shall be administered as described in this subsection. The authority and duties described below shall be in addition to any other authority described elsewhere in these ordinances. Nothing in this ordinance shall be construed as a limitation upon the powers of the City of Madison nor the enforcement powers of the Inspection Unit, Police Department or any other duly authorized personnel.

(a) Duties of the Zoning Administrator, or Designee:

1. Approve and issue sign permits.
2. Inspect sign construction and erection.
3. Enforce this ordinance as authorized by sub. (4) and elsewhere by ordinance or law.
4. Determine the form and content of applications for sign permits and sign erector's licenses, consistent with this Ordinance.

(b) Duties of the Building Board of Examiners and Appeals:

1. Hear appeals relating to matters of structural or mechanical concern.
2. Hear complaints against sign erectors filed by the Zoning Administrator, and revoke sign erector's license pursuant to Sec. 31.042.

(c) Duties of the Plan Commission. Act upon certain sign permit applications and appeals, where applicable.

(d) Duties of the Director of Planning and Community and Economic Development. Act upon specific sign permit applications as may be authorized in Sec. 31.15 (Tables) or elsewhere in this ordinance.

(e) Duties of the Urban Design Commission of the City of Madison ("UDC"). Act upon all matters relating to signs as described in Sec. 31.043 and Sec. 33.24.

(f) Duties of the Secretary of the Urban Design Commission. Act upon all matters as authorized by the Urban Design Commission in Sec. 33.24(4)(g) or elsewhere in Sec. 33.24 or Chapter 31.

(4) Enforcement.

(a) Summary and Non-Summary Removal or Alteration of Signs. If the Zoning Administrator (or designee) shall find that any sign regulated herein is unsafe or insecure, or is being maintained in violation of the provisions of this ordinance, s/he may give written notice describing the problem to the permittee thereof or the owner of the sign, or the owner of the property on which the sign is located. If the permittee, sign owner, or property owner, to whom the Notice is given, fails to remove or alter the sign so as to comply with the Notice by the date or time for compliance established in the Notice, the Zoning Administrator or the Chief of Police or designee may remove or alter such sign to comply with the Notice and this ordinance at the expense of the permittee, sign owner or owner of the property upon which it is located. In addition, the Zoning Administrator may cause any sign that is a hazard to person or property to be removed summarily and without notice. The Zoning Administrator may refuse to issue a sign permit to any permittee or owner who has failed to pay costs assessed for removal of a hazardous sign under this paragraph.

(b) Other Enforcement Action, Injunctive Relief. The provisions of sub.(a) shall be in addition to any other authorized enforcement action or prosecution for ordinance violations or other law violations; including but not limited to issuance of a Uniform Municipal Ordinance Citation, referral to the City Attorney for prosecution of a forfeiture action and/or other legal or equitable relief. The City Attorney is authorized to pursue civil injunctive or other equitable relief when, in the opinion of the Zoning Administrator a sign presents a hazard and at least one (1) conviction for a violation of the ordinance has been obtained and the sign remains

in violation of this Ordinance. A notice, or failure to comply with a notice sent under sub. (a) shall not be a prerequisite for prosecution, injunctive relief, or other civil remedies available at law based upon a violation of this ordinance.

(c) Compliance Inspection Fees.

1. Any person who shall fail or neglect to comply with any lawful order of the Director of the Building Inspection Division issued pursuant to the provisions of this chapter may be assessed seventy-five dollars ($75) per compliance inspection, as defined in Sec. 27.03(2), MGO, that does not result in compliance with the order.
2. The Department of Planning and Community and Economic Development shall keep an accurate account of all unpaid inspection fees incurred for compliance inspection services rendered and report the same to the Finance Director, who shall annually prepare a statement of these special charges at each lot or parcel of land and report the same to the City Clerk, and the amount therein charged to each lot or parcel of land shall be by said Clerk entered in the tax roll as a special charge against said lot or parcel of land, and the same shall be collected in all respects like other special charges upon real estate as provided in Wis. Stat. § 66.0627.

(5) Construction Requirements.

(a) Definitions:

1. Approved Combustible Material. An approved combustible material shall include:
   a. Wood or materials not more combustible than wood.
   b. Combustible plastics, which, when tested in accordance with ASTM Standard Method for Flammability of Plastics over 0.050 inch in thickness (D 635-44) burn no faster than 2.5 inches per minute in .060 inch in thickness.
2. Incombustible Material. Any material which will not ignite at, or below, a temperature of one thousand two hundred (1,200) degrees Fahrenheit during an exposure of five (5) minutes and which will not continue to glow at that temperature. Tests shall be made as specified in UBC Standard No. 4-1-61.

(b) Sign Structure. Sign structure shall be of incombustible materials, except that nonelectric business and identification signs, not exceeding thirty-two (32) square feet in area nor six (6) feet in height aboveground, and located in a landscaped area, may have a preservative treated wood sign structure, and the structural trim of the sign may be of approved combustible material.

(c) Sign Facings. Sign facings shall be of incombustible materials or approved combustible materials.

(d) Letters, Decorations and Embellishments.

1. Letters, decorations and embellishments of signs shall be of incombustible materials or other approved combustible materials.
2. Letters, decorations and embellishments, in cut-out or irregular form, maintained in conjunction with, attached to, or superimposed upon any sign shall be safely and securely built or attached to the sign structure.

(e) Electric Signs.

1. All electrical signs, as defined in Sec. 31.03(2) shall bear the label of approval of a recognized testing laboratory.
2. All electrical signs shall be equipped with a watertight safety switch. The switch shall be located where the electrical supply enters the sign.
3. Covers of service openings shall be securely fastened by chain or hinges.

(f) Wind Pressure. All signs shall be designed, constructed and anchored to withstand a horizontal wind pressure of not less than thirty (30) pounds per square foot of exposed area.

(g) Dead Load. All sign structures shall be constructed and fastened to adequately support the dead load of any sign.

(h) Footings. All footings for supports of Ground Signs shall be not less than three (3) feet six (6) inches below the existing ground level. This provision applies only to signs meeting the definition of "Ground Signs" in Sec. 31.03(2).

(i) Attachment. Projecting signs may not be attached to any part of an unbraced wall above a point of bearing of the roof rafters.

(j) Roof or Above-Roof Signs. Signs constructed on the roof of a building shall be thoroughly secured and anchored.

(k) Illumination of Signs. Signs shall not be illuminated unless expressly allowed in this chapter. For purposes of this chapter, illumination includes any source of direct or reflected lighting incorporated in or connected with a sign. Illumination, when allowed, may be internal or external to the sign. All sign illumination shall be subject to the provisions of Sec. 10.085, Outdoor Lighting and Sec. 31.046(1), Electronic Changeable Copy Signs in addition to the following restrictions. In the event of a conflict between this section, Sec. 31.046(1), and Sec. 10.085, the more strict provision shall apply:

1. Any illumination shall be so shielded that no direct illumination from it is visible elsewhere than on the sign and in the immediate proximity thereof.
2. All external lighting fixtures, as defined in Sec. 31.03(2) shall be steady, stationary, fully shielded light sources directed solely onto the sign, and shall use lighting designed to minimize light spill and glare.
3. Lighting sources (as defined in Sec. 10.085(2)) shall not be directly visible or cause glare to adjacent public right-of-ways or adjacent private property boundaries. This may be accomplished through the use of shields or cut-off devices or other similar equipment.
4. All signs illuminated by an external lighting fixture shall be limited to a maximum amount of illumination as follows:
   a. Signs with a gross area (for ground signs) or net area (all other signs) of less than three hundred (300) square feet shall have a maximum illumination level of forty (40) foot-candles average across the sign surface. (Am. by ORD-15-00069, 6-24-15)
   b. Signs with a gross area (for ground signs) or net area (all other signs) equal to or greater than 300 square feet shall have a maximum illumination level of 70 foot-candles average across the sign surface.
5. Internally illuminated signs or any other signs with internal illumination or indirect light from the back of the letters or sign shall not produce any glare. Internally illuminated signs displaying illuminated copy shall be designed in such a way so that when illuminated, the sign appears to have light-colored copy on a dark or non-illuminated background.
6. This section shall not apply to "official traffic control devices" as defined in Wis. Stat. § 340.01(38) (2007-08) and as may be amended, authorized by law and erected by the authority having jurisdiction over the highway or right-of-way.
7. Awning signs may be internally illuminated if constructed with a rigid frame covered with vinyl, plastic, or other translucent material and otherwise compliant with this section and Sec. 31.06.
8. See Sec. 31.10 regarding illumination of window signs.
9. Exposed neon signs are exempt from this section.

10. Applicability. This section applies to the illumination of all signs that are erected after the effective date of the ordinance creating this section, as well as new external lighting fixtures installed on an existing sign, any other illumination feature that is added to an existing sign, and upon replacement of any sign illumination feature (external or internal) after the effective date of this ordinance creating this section. Nothing in this section shall be construed to limit or modify the applicability of permit and inspection requirements elsewhere in this chapter, such as those applying to electrical signs, replacement or repair of signs, change of copy, etc.

(6) Signs Projecting into Right-of-Way. The Common Council finds that the display of wall or projecting signs that project from a building face into the right-of-way, or signs on an attached canopy or awning that projects into the right-of-way, consistent with the criteria required for such signs elsewhere in this chapter, will not cause aesthetic blight or traffic hazards of the sort unacceptable to the community. Rather, the City's substantial governmental interests in preserving traffic and pedestrian safety will be furthered by providing easy-to-see directional and wayfinding information oriented primarily toward pedestrians, for the building upon which the sign is displayed, without obstructing the sidewalk, terrace or roadway and without interfering with official traffic control devices. The City's aesthetic interests will be protected by the size and placement criteria established for such signs in Secs. 31.06, 31.07, 31.071, and 31.09. The display of promotional and decorative banners over the right-of-way, consistent with the requirements of Sec. 31.075(2), preserves the City's substantial governmental interests in traffic safety and aesthetics by announcing certain public and civic activities or providing decoration without adding clutter or obstruction to the sidewalk, terrace, or roadway, with the size, under controlled circumstances and in specific locations approved by the City as specified in Sec. 31.075(2).

(a) Wis. Stat. § 86.19 and state administrative rules adopted thereto raise doubts about whether such signs and banners may be located within the limits of highway rights-of-way. The approval of wall, projecting, awning, and canopy signs and promotional or decorative banners, in accordance with ordinance requirements for such signs, is a matter of the local affairs and government of the City of Madison. Signs projecting perpendicularly from a building or displayed on a canopy or awning provide needed identification signage and wayfinding for the business or building to which the sign is attached, without obstructing the pedestrian walkway, creating clutter, or interfering with official traffic control devices or vehicle traffic. Wall signs mounted not more than fifteen (15) inches from a wall in compliance with Sec. 31.07 present no safety hazard or aesthetic concerns. Decorative and Promotional banners under Sec. 31.075 will notify the public of events taking place in the City, and will complement the streetscape with appropriate decorations without cluttering the sidewalk or impeding pedestrian traffic. Therefore, the City of Madison, through its Common Council, hereby determines that to the extent Wis. Stat. § 86.19 and related Wisconsin Administrative Code regulations restrict the City's ability to approve the following signs that project from a building or structure into the street or highway right-of-way, the City will not be governed by Wis. Stat. § 86.19 to that extent for the following subsections or subdivisions:
awning signs under Sec. 31.06(6),
wall signs mounted not more than 15" parallel to the wall under Sec. 31.07(1),
canopy signs under Sec. 31.071(5),
decorative and promotional banners under Sec. 31.075(2), and
projecting signs under Sec. 31.09(1)(a).

(b) This Charter Ordinance, Sec. 31.04(6), shall not apply to State Trunk Highways as defined in Wis. Stat. § 84.02.

(c) Sec. 31.04(6) is a Charter Ordinance adopted pursuant to Wis. Stat. § 66.0101, and Article XI, Sec. 3 of the Wisconsin Constitution and shall be effective upon sixty (60) days from passage and publication, subject to the referendum procedures of Wis. Stat. § 66.0101(5).

31.041 SIGN PERMITS AND FEES.

(1) Permit Required.

(a) Signs may be erected, moved, enlarged, or reconstructed within the City of Madison as allowed in this Ordinance only when a permit therefor shall have been issued by the Zoning Administrator or designee, except when specifically exempt from permit under Sec. 31.044 or elsewhere in this Ordinance.

(b) It shall be unlawful for any person to erect, repair, alter, relocate, maintain, or change copy, except for signs designed for changeable copy, within the City of Madison any sign as defined in this ordinance without first obtaining a permit from the Zoning Administrator and making payment of the fee(s) required by this ordinance, unless a permit is not required under Sec. 31.044 or unless otherwise exempt from obtaining a permit or paying a fee under the provisions of this ordinance. All electric signs shall, in addition, be subject to the provisions of the Electrical Code (Chapter 19), and the permit fee required thereunder.

(2) Application for Sign Permit.

Applications for permits shall be filed on application forms provided by the Zoning Administrator. A photograph of the property, a plot plan, and construction and installation plans, including specifications and engineering data, shall accompany the application. When all of the provisions of this ordinance or other ordinances relating to such sign shall have been complied with and when the applicant has paid the required fee for every such application, the permit may be granted. The Zoning Administrator shall determine, consistent with the provisions of this ordinance, the form and contents of all applications for permits herein required. The application shall be accompanied by the written consent of the owner or lessee of the premises upon which the sign is to be erected, or the applicant must make a sworn statement that the applicant is authorized by the owner, lessee or other authorized occupant of the premises to erect the proposed sign(s).

(3) Permit and Application Fees.

All fees under this subsection shall be payable to the City Treasurer, as follows:

(a) Initial Sign Permit. When a permit is required under this ordinance, the permit fee shall be as follows:

1. Initial permit for all signs under this chapter (except ground signs, advertising signs, and business opening signs): one dollar and seventy-five cents ($1.75) per square foot of the net area.
2. Ground signs: one dollar and seventy-five cents ($1.75) per square foot of the gross area.
3. Advertising signs: two dollars and fifty cents ($2.50) per square foot of the net area.
4. Business opening sign: flat fee of fifty dollars ($50).
5. Portable signs under Sec. 31.046(2): flat fee of fifty dollars ($50)
6. Bicycle-sharing facility signs on private property under Sec. 31.046(4): $100 for all permitted signs per facility.
7. Minimum permit fee: in no case shall any sign permit fee be less than fifty dollars ($50.00), change of copy under Sec. 31.041(3)(b) below.
8. Temporary Decorative Window Coverings under Sec. 31.101: Flat fee of fifty dollars ($50) per window. Each permit is valid for a maximum of six (6) months or until the building or tenant space associated with the

window is occupied, whichever is shorter, and is renewable for the same fee and duration if the building or tenant space continues to be vacant. (Cr. by ORD-14-00159, 10-15-14)

(b) Change of Copy and Change of Location Fees. The permit fee for changing the face or sign copy of a sign for which a permit is required under this ordinance, other than a sign designed for changeable copy, shall be one dollar and fifty cents ($1.50) per square foot of the net area but in no case less than ten twenty-five dollars ($25). The permit fee for changing the location of an existing sign on the same zoning lot shall be twenty-five dollars ($25).

(c) Failure to Obtain Permit. The permit shall be obtained before erecting or starting work on a sign or commencing any action for which a permit is required under this ordinance. The fee for a permit issued after commencement shall be doubled. Imposition of a double fee under this subsection shall be in addition to any monetary forfeiture or other penalty under this Ordinance and shall not be a bar to prosecution or pursuit of other legal remedies by the City.

(d) Urban Design Commission Fees.

1. Comprehensive Design Review.
   a. Initial Comprehensive Design Review: Five-hundred dollars ($500).
   b. Application for a change to a Comprehensive Sign Plan under Sec. 31.043(4)(d) that cannot be approved by the Zoning Administrator as a minor change: Five-hundred dollars ($500).
   c. Application for a change to a Comprehensive Sign Plan under Sec. 31.043(4)(d) that can be administratively approved by the Zoning Administrator as a minor change: One-hundred dollars ($100).
2. The fee for all other applications to the Urban Design Commission under this ordinance, including appeals from the decisions of the Zoning Administrator, requests for approvals in height, area, and setback, and Additional Sign Code Approvals, shall be three-hundred dollars ($300) payable to the City Treasurer.

(Am. by ORD-15-00118, 10-28-15)

(e) Sign Erector's License - See Sec. 31.042.

(4) Issuance of Sign Permit, Duration. It shall be the duty of the Zoning Administrator upon the filing of an application for permit to promptly examine such plans and specifications and other data and, if deemed necessary by the Zoning Administrator, to inspect the premises upon which the proposed sign is to be erected, and if the proposed sign is in compliance with all the requirements of this Ordinance and any other applicable laws, he/she shall promptly issue the appropriate permit upon payment of the appropriate permit fee(s) herein. If work authorized under a permit has not been completed within six (6) months after date of issuance, the said permit shall become null and void.

(5) Denial of Permit for Unpaid Fees, etc. The Zoning Administrator may refuse to issue a sign permit to any permittee or owner who has failed to pay costs assessed for removal of a hazardous sign under Sec. 31.041(1), or failed to comply with a court order to pay a forfeiture for a violation of this Ordinance, or failure to pay other unpaid civil judgment arising out of a violation of this Ordinance. If the Zoning Administrator denies a permit under this paragraph, s/he shall provide written notice to the applicant of the denial, the reason, a description of the unpaid cost, forfeiture or judgment. The permit shall be issued upon proof of payment of the costs, fees, forfeiture or judgment in question. Proof of payment of a docketed civil judgment shall be in the form of a satisfaction of judgment.

(6) All rights and privileges acquired under the provisions of this ordinance or any amendment thereto, are mere permits, revocable at any time by the Zoning Administrator, and all such applications shall contain this provision.

31.042 LICENSING OF SIGN ERECTORS.

(1) License Required. A sign erector's license shall be obtained prior to engaging in the business or commencing work to erect, remove, service, repair or maintain a sign in the City of Madison on behalf of another. This requirement does not apply to persons wishing to erect, remove, service, repair or maintain a sign on the premises which the person owns or leases.

(2) Examination. To be licensed, an individual must pass an examination administered under the direction of the Zoning Administrator. The examination shall be given by appointment with the Zoning Administrator.

(3) Administration. The sign erector's license program shall be administered by the Zoning Administrator or designee. Applications and appointments for the examination shall be made with the Zoning Administrator. Applications shall be filed at least ten (10) days before the date on which the examination is to be held. The applicant shall pay an examination fee of fifteen dollars ($15) at the time of application. This fee shall be in addition to the license fee hereunder.

(4) License Fee. Upon passing the examination, payment to the City Treasurer of one-hundred twenty-five dollars ($125), and recording any required bonds or insurance, an annual license will be issued for erecting, removing, servicing, repairing or maintaining all signs listed in this code.

(5) Duration, Renewal of Sign Erector's License. Every license shall expire on the thirtieth (30th) day of June following the date of its issue. A sign erector's license may be renewed upon filing a renewal application and payment to the City Clerk of the renewal fee of one hundred twenty-five dollars ($125) prior to expiration of the current license. Should any person fail to obtain a renewal license by July 1st s/he will be required to make application for and take the examination for a new license in the same manner as a new applicant.

(6) Application for Sign Permit by Licensee. A person with a sign erector's license may lawfully obtain sign permits in their own name or the name of their own sign erector business or for a corporation or firm that is actively engaged in the sign contracting business and has a recognized business location, provided such person is permanently employed by such firm or corporation.

(7) Transfer of Sign Erector's License Prohibited. It shall be unlawful for any person with a sign erector's license to allow the use of her/his license, directly or indirectly, for the purpose of obtaining local permits for others.

(8) Discontinuance of Licensee's Employment. In the event that any person holding a sign erector's license shall sever her/his employment with an sign contracting and erection business entity that has been in continuous operation within the City for a period of one (1) year or more and there is no other person in such firm, association or corporation, or employed by it, who is licensed under the provisions of this chapter, the Zoning Administrator may issue permits to the business for a period of thirty (30) days from the date the licensee's employment was severed. At that time, if the firm wishes to continue in the business of sign erecting, another member or employee must apply for a license to conduct the business of outdoor sign erection and contracting according to the provisions of this ordinance. In the event that such applicant fails to obtain such license and the firm wishes to continue in the business of sign erecting, it shall employ a properly-licensed outdoor sign erector to conduct the business of outdoor signs erection and contracting within thirty (30) days after said applicant for license has been notified of her/his failure to meet the license requirements. If work done by said business during the interim 30-day period above, fails to meet all requirements of the Madison General Ordinances and applicable state law, Zoning Administrator shall not issue further sign permits until the business has properly obtained a sign erector's license under this section.

(9) Revocation of Sign Erector's License, Appeal. Any license may be revoked by the Building Board of Examiners and Appeals should the licensee violate this Ordinance or any other law or ordinance relating to signs. No license shall be revoked except by a majority vote of

the Building Board of Examiners and Appeals at a regular meeting, and no license shall be revoked unless the licensee has been notified in writing of the charges against her/him at least ten (10) days before such meeting. The licensee shall have the right to appear before the Board to answer the charges and present testimony in her/his defense. A person whose license has been revoked under this section shall not again be licensed within a period of one (1) year from date of such action.

Any person aggrieved by any decision of the Building Board of Examiners and Appeals regarding the revocation of a sign erectors' license under this subsection may, within thirty (30) days after the filing of the decision in the office of the Board, commence an action seeking the remedy available by certiorari, or forever be barred.

(10) Bonds and Liability Insurance. Every person licensed to erect signs shall file with the Zoning Administrator a performance bond in the sum of ten thousand dollars ($10,000) with sureties satisfactory to the Risk Manager conditioned that such person shall faithfully comply with the provisions and requirements of this ordinance with respect to the construction, alteration or location and safety of said signs and conditioned further to indemnify, save and hold harmless the City of Madison its public officers and employees from any and all claims, damages, losses, liabilities, actions, suits or judgments which may be presented, brought, secured or sustained against the City or any of its officials on account of the construction, maintenance, alterations or removal of any said signs or by reason of any accidents caused by or resulting therefrom. In addition, every person licensed to erect signs shall carry commercial general liability insurance with no less than the following limits of liability; bodily injury, death and property damage of one million dollars ($1,000,000) in the aggregate. This policy shall also be endorsed for contractual liability in the same amount. As evidence of that coverage the licensee shall provide a Certificate of Insurance, on a form provided by the City.

31.043 URBAN DESIGN COMMISSION AND COMPREHENSIVE DESIGN REVIEW.

The authority of the Urban Design Commission of the City of Madison ("UDC") to act upon all matters relating to signs shall be exclusively as described herein and Sec. 33.24. The fee for any application to the UDC under this section shall be as described in the fee section, 31.04(3).

(1) Zoning Administrator Appeals. The UDC shall hear and decide appeals of decisions of the Zoning Administrator where it is alleged there is error in any order, requirement, decision or determination made by the Zoning Administrator in the enforcement of this chapter and, where applicable, Official Notices issued by the Building Inspection Division or the Zoning Administrator relating to signs under this chapter, except decisions regarding structural or mechanical concerns which are appealable to the Building Board of Examiners and Appeals under Sec. 31.04(3)(b)1. All applications for appeal shall be in writing and filed with the Director of the Building Inspection Division no later than thirty (30) days after the date of the Official Notice of code violations or of the decision of the Zoning Administrator. The UDC shall make a final decision on an appeal under this section within sixty (60) days of the application, unless the applicant waives this deadline in writing or in person at a UDC meeting. (Am. by ORD-15-00117, 10-28-15)

(2) Modifications of Height, Area or Setback. After a public hearing as provided in Sec. 33.24(4)(e)3., the UDC may approve a sign with up to fifty percent (50%) greater net area or fifty percent (50%) higher than the maximum height otherwise allowed, or reduce the required yard or setback if such approval: (Am. by ORD-15-00118, 10-28-15)

(a) Is necessary for a sign located on the site of an establishment to be identifiable and legible from the nearest roadway at prevailing speeds; and

(b) Will result in a sign more in scale with the building and site and in a superior overall design.

(3) Additional Sign Code Approvals. After a public hearing as provided in Sec. 33.24(4)(e)3., the UDC may:

(a) Permit signs that will front on roads which according to the official map or capital improvement program indicate a change of size of that road or a change of zoning in the future as if the change were currently in effect;

(b) Permit the use of an above-roof sign on a given zoning lot in a Group 2 and where not otherwise allowed in Group 3 districts provided that if the signs on adjacent properties reduce the effectiveness of other types of conforming signs or where topographic relationships between structures and right-of-ways would deem their use appropriate;

(c) Permit the use of an above-roof sign when the architecture of the building does not provide a reasonable signable area;

(d) Permit the use of wall signs on building facades not adjacent to off-street parking areas where, due to a variation of building setbacks, a signable area exists, provided the area of the sign shall not exceed the area of the wall sign permitted on the front of the building;

(e) Permit an above-canopy sign that crosses architectural detail to be erected closer than three (3) feet to the nearest face of a building under Sec. 31.071(2)(e), if the proposed sign would not substantially detract from the contribution of the architectural detail to the overall building design.

(f) Approve additional signs for wayfinding purposes on certain zoning lots as authorized under Sec. 31.14(3)(e)1.; and

(g) Approve a condominium identification sign of up to thirty-two (32) square feet, as authorized under Sec. 31.14(3)(g).

(h) When allowed under this Chapter, approve the use of a banner in place of a permanent sign in all Urban Design Districts.

(i) Approve an Electronic Changeable Copy feature, meeting the criteria of Sec. 31.046(1), on an identification sign for a high school, as authorized under Sec. 31.14(3)(e)2.

(j) Permit a "Legacy Sign" as follows: one or more wall signs on a building that was constructed in whole or in part for a commercial or employment use, if the proposed sign or signs depict solely one or more of the following:

1. business name;
2. name of the building;
3. logo;
4. description of an accessory use that was accessory to a prior use of the building or zoning lot (may include a product name);
5. an exact replica of a known prior sign displayed on the building.

Each of the elements listed in 1. through 5. above, if included in the sign in question, must be found to have a provable, demonstrated historical relationship to a prior sign on the building that pre-dates 1940 or to a prior use of the building that pre-dates 1940. The UDC shall find that there is direct historical relationship between the proposed sign and a pre-1940 use of the building.

The UDC shall approve the materials, design, size, and location of the sign with specificity and the proposed sign shall match the original to the extent that any details of the original sign are known. The sign must blend appropriately with the historic nature of the building and shall not be illuminated. The location and size of the sign must be found by the Urban Design Commission not to interfere with existing signage on the zoning lot. If the appearance of a prior sign is known, the proposed sign shall match the prior sign completely and this will satisfy the criteria of this section. A sign that includes the name of a business or product that is not currently on the premises of the building cannot be approved unless the business or product is no longer in existence, or unless the business or product

name can be shown to be commonly known as the name of the building. This section shall not be used to approve an advertising sign or off-premise sign as defined in this ordinance.

Landmarks/Historic Districts. An application for a legacy sign on a landmark or in a historical district is also subject to Chapter 41, the Historic Preservation ordinance.

Number and Location of Legacy Signs. Legacy signs under this section may be approved on not more than two (2) façades per building. There is no limit to the number of legacy signs per façade but each sign must be found to be eligible under sub. (j)1. through 5. above.

A legacy sign shall take the place of, not be in addition to, a wall sign that would otherwise be allowable under Sec. 31.07(2)(a) and (b), except that a legacy sign may not be approved as an alternative to Secs. 31.07(2)(a)1. or 2. and may not be approved as a roof or above-roof sign. A legacy sign also shall not be approved in lieu of a wall sign under Secs. 31.07(5) or (6). The UDC shall consider all existing wall signs on the façade when considering an application for a legacy sign. Legacy signs may only be displayed within an allowable signable area as defined in Secs. 31.07(2)(b) and 31.03(2), unless the proposed sign is an exact replica of a prior known sign on that building and the location of the prior sign is also known, in which case the sign may be displayed in the prior location, as long as the building exterior has not been significantly modified in that location.

No Additional Wall Signs. Once a permit has been approved for legacy sign(s) on a façade under this section, no new permits for wall signs will be issued. (Am. by ORD-15-00072, 7-29-15)

(4) Comprehensive Design Review ("CDR"). The Urban Design Commission may approve a Comprehensive Sign Plan on a building site or zoning lot to allow special allowances for all signs on private property regulated under this Chapter beyond the restrictions contained elsewhere in this Chapter, and may incorporate other approvals authorized in Secs. 31.043(2) and (3) in order to meet the following purpose:

The purpose of a Comprehensive Design Review is to determine whether unique, exceptional, and innovative use of materials, design, color, lighting, and other design elements, resulting in visual harmony created between signs, building(s), and building site, are sufficient to warrant special allowances beyond the restrictions contained elsewhere in this Chapter. For the signs included in the Comprehensive Design Review, the restrictions of this Chapter shall not apply and there shall be no predetermined requirements for those signs except those requirements which shall be made part of the approved Comprehensive Sign Plan. The resulting Comprehensive Sign Plan shall encompass the new sign(s) requested by the applicant and approved by the UDC, and any approved modifications to existing signs on the same building site or zoning lot.

In addition, the Comprehensive Design Review procedure shall be used for all sign approvals in the MXC and EC districts. These districts with master plan requirements do not have standard restrictions for signage.

(a) Comprehensive Design Review Procedure.

1. The applicant shall file the required application with the required fee(s); submit site plans showing all existing and proposed buildings and signs, location and dimensions of each requested signable area; a color graphic of each proposed sign with dimensions; and any other materials as may be required by the UDC or elsewhere in these Ordinances.
2. The UDC shall review all proposed and existing signs on the buildings and zoning lot, and may require modifications to existing signs over which the applicant has control.
3. The UDC shall hold a hearing to review a complete application that includes all information required by this subsection. The UDC's decision

to approve a Comprehensive Sign Plan shall be after a public hearing on the application, following the UDC's procedures for a public hearing in Sec. 33.02(4)(e)3., except that the appeal process shall be as described herein.

4. The UDC shall make a final decision on all complete applications for CDR within sixty (60) days of the date of the application, unless the applicant waives this deadline in writing or in person at a UDC meeting.

(b) Comprehensive Design Review Criteria. The UDC shall apply the following criteria upon review of an application for a Comprehensive Sign Plan:

1. The Sign Plan shall create visual harmony between the signs, building(s), and building site through unique and exceptional use of materials, design, color, any lighting, and other design elements; and shall result in signs of appropriate scale and character to the uses and building(s) on the zoning lot as well as adjacent buildings, structures and uses.
2. Each element of the Sign Plan shall be found to be necessary due to unique or unusual design aspects in the architecture or limitations in the building site or surrounding environment; except that when a request for an Additional Sign Code Approval under Sec. 31.043(3) is included in the Comprehensive Design Review, the sign(s) eligible for approval under Sec. 31.043(3) shall meet the applicable criteria of Sec. 31.043(3), except that sign approvals that come to Comprehensive Design Review from MXC and EC districts pursuant to 31.13(3) and (7) need not meet the criteria of this paragraph.
3. The Sign Plan shall not violate any of the stated purposes described in Secs. 31.02(1) and 33.24(2).
4. All signs must meet minimum construction requirements under Sec. 31.04(5).
5. The Sign Plan shall not approve Advertising beyond the restrictions in Sec. 31.11 or Off-Premise Directional Signs beyond the restrictions in Sec. 31.115.
6. The Sign Plan shall not be approved if any element of the plan:
   a. presents a hazard to vehicular or pedestrian traffic on public or private property,
   b. obstructs views at points of ingress and egress of adjoining properties,
   c. obstructs or impedes the visibility of existing lawful signs on adjacent property, or
   d. negatively impacts the visual quality of public or private open space.
7. The Sign Plan may only encompass signs on private property of the zoning lot or building site in question, and shall not approve any signs in the right of way or on public property.

(c) Comprehensive Sign Plan Approval. An approved Comprehensive Sign Plan shall include all approved new signs and any required modifications to existing signs on the same building site or zoning lot.

(d) Changes to Comprehensive Sign Plan. Any changes to the approved plan must first be approved by the UDC using the full CDR process under Sec. 31.043(4)(a), except that the Zoning Administrator may grant approval for minor changes that are compatible with the concept approved by the UDC and the standards in Sec. 31.043(4)(b), upon approval of the Planning Division Director or designee.

(e) Violation of Approved Comprehensive Sign Plan. Once a Comprehensive Sign Plan has been approved, no person shall erect or cause to be erected any sign not

approved on the Plan, or alter or relocate any sign displayed pursuant to the Plan, without first obtaining approval under the procedures in Sec. 31.043(4)(d) above, and obtaining all required sign permits from the Zoning Administrator.

(5) Appeals from Decisions of the UDC. A decision of the Urban Design Commission under this ordinance shall be a final administrative decision for purposes of judicial review. Any person aggrieved by the decision of the Urban Design Commission may commence a court action seeking the remedy available by certiorari within thirty (30) days of the decision.

31.044 SIGNS EXEMPT FROM PERMIT.

(1) Signs Exempt from Permit. Consistent with the purpose and scope of this ordinance, the Common Council recognizes that certain temporary, necessary, or limited-purpose signs may be displayed without obtaining a permit, subject to applicable safety and aesthetic regulations herein. The Common Council finds that the following signs may be displayed without a permit because they serve an immediate or temporary traffic safety or wayfinding function, including but not limited to the temporary replacement or relocation of permitted, permanent signs during construction; serve a governmental purpose; are permitted or mandated by city ordinance, state or federal law; allow freedom of speech and expression in a timely manner; allow freedom of speech and expression during election periods; or because the size, location or duration of the sign as regulated herein is not significant enough to require review and a permit prior to display of such sign.

No permit shall be required for the following signs when displayed according to the following provisions and any other applicable requirements of these Ordinances or applicable law. When zoning districts are indicated, such signs are only exempt from permit in those districts. When no zoning district is indicated, such signs are exempt from permit in all districts. Exempt signs may not be illuminated unless expressly stated herein or elsewhere in this chapter. Exempt signs may be displayed on a wall or on the ground unless another manner or location of display is expressly provided or prohibited herein, need not comply with Secs. 31.07 (Wall Signs) or 31.08 (Ground Signs) unless expressly stated herein, but shall comply with Secs. 31.04(5) and 31.045, MGO. Any exempt sign displayed on a wall must be displayed within the signable area and if no maximum net area is stated, the net area shall not exceed 100% of the signable area.

An exempt sign under this section may be displayed on a temporary basis if expressly indicated herein or in the definition section (Sec. 31.03(2)). Exempt signs displayed on a temporary basis shall comply with the construction requirements in Sec. 31.04(5) except a temporary exempt sign shall not be electric, shall not be displayed on the roof or above-roof, and shall not be internally illuminated.

The following signs shall be exempt from permit as provided below:

(a) Athletic Field Signage. Signs, banners, and scoreboards designed solely for view from spectator areas and displayed on interior walls, fences, or other structures located inside an enclosed athletic field at a school, park, or other public or private athletic complex; except that approval of the Park Commission shall be required to display a sign, banner or scoreboard under this paragraph at a city park. Scoreboards that qualify under this paragraph may include flashing elements, if adequate screening is provided to screen the views from abutting streets, as approved by the Director of Planning and Community and Economic Development and Traffic Engineer. For purposes of this paragraph, a "school" shall mean public schools as defined in Wis. Stat. § 115.01(1), private schools defined in Wis. Stat. § 115.001(3r), and technical colleges authorized under Wis. Stat. ch. 38. Athletic field signage may be illuminated and may be temporary. Temporary signs are subject to the illumination restrictions stated in Sec. (1) herein.

(b) Awning Signage. Signs displayed on the lowest twelve inches (12") of the principal face or side panels of awnings provided they do not exceed six inches (6") in height. May be illuminated externally. See Sec. 31.06 for dimensional and internal illumination requirements, and for additional awning signs that require a permit.

(c) 1. City Signs on City Property erected by Parks Division, Traffic Engineering Division, or the Department of Planning Community and Economic Development on City-owned lands, park property or City-owned and occupied buildings.

Maximum Gross Area: Twenty-four (24) square feet.
Maximum Height: Minimum of two (2) feet and maximum of ten (10) feet above the curb.
Illumination: Yes.
Temporary: Yes.

2. Signs on City-Sponsored Bicycle-Sharing Facilities on City-Owned Lands. Signs on City-sponsored bicycle-sharing facility equipment located on other City land, as defined in Sec. 10.33, MGO are subject to the requirements of Sec. 10.33(10), MGO and not regulated herein.

(d) Construction-Related Temporary Signs.

1. Street Occupancy Signs. Temporary signs displayed on street occupancy barricades, passageways and fences that have been erected pursuant to a valid street occupancy permit issued under Sec. 10.055(4)(o); denoting only the owner, occupant, architect, engineer or contractor(s) of the project for which the street occupancy permit was issued. See 10.055(4)(o) for maximum number of signs and any gross area, height, and setback requirements. (Am. by ORD-15-00036, 4-8-15)

2. Construction Directional Signs. Temporary signs displayed on private property for a limited period of time, to identify the location of and entrance to a business that remains open when normal access or pedestrian or vehicle traffic flow has been diverted by construction or road work so as to decrease the effectiveness of existing permanent signs, when approved by the Zoning Administrator. The Zoning Administrator shall approve the quantity, placement and duration of such signs to ensure traffic and pedestrian safety.

Maximum Net Area: Total signage shall not exceed thirty-two (32) square feet, square footage may be divided.
Maximum Height: Ten (10) feet.
Illumination: No.

3. Project Signs. Temporary signs on private property, describing a construction or improvement project, including the name of contractors, architects, engineers, investors, owners and occupants; and displayed only while the project is under construction and valid building permits are in force.

Maximum Net Area: Total signage shall not exceed thirty-two (32) square feet in Group 1 districts, one-hundred and forty-four (144) square feet in all other districts. Square footage may be divided.
Maximum Height: Eight (8) feet in Group 1 districts, ten (10) feet in all other districts.
Setback: Ten (10) feet.
Number of Signs: One (1) per street frontage in the Group 1 districts.
Illumination: No.

(e) Election Campaign Signs. A temporary sign containing a "political message" displayed during an "election campaign period," as those terms are defined in Wis. Stat. § 12.04. Such signs shall not have any electrical, mechanical or audio

auxiliary component, and shall not be attached to or placed on utility poles, trees, traffic devices, or within the public right-of-way and, if affixed to a permanent structure, shall not extend beyond the perimeter of the structure or obstruct any window, door, fire escape, ventilation shaft or other area that is required to remain unobstructed by an applicable building code.

Maximum Net Area: Twelve (12) square feet
Maximum Height: Fifteen (15) feet when displayed on a wall, six (6) feet if displayed on a wooden stake
Setback: Ten (10) feet.
Number: One per candidate or cause
Illumination: No.

(f) Holiday or Temporary Decorations. Holiday or other decoration displayed temporarily on private property, that does not contain any commercial message or logo or depict any commercial symbol or character and that does not exceed fifteen (15) feet in height.
Illumination: Yes.

(g) Identification Signs.

1. Identification signs, including those displayed for a home occupation under Sec. 28.151, allowed in the Group 1 districts under Sec. 31.14(3)(a)1., 2.
2. Identification signs in districts not listed in sub. 1., above, denoting only the name and profession of the occupant.
   Maximum Gross Area: Two (2) square feet.
   Maximum Height: Twelve (12) feet or one (1) story, whichever is lower.
3. Illumination: No.

(h) Leaflet-type Temporary Notices, flat-mounted to kiosks, sidewalk showcases or public information boards, on private property, or in the public right-of-way pursuant to the encroachment proceedings in Sec. 10.31 of the Madison General Ordinances. Kiosks, sidewalk showcases, and information boards help to minimize and eliminate clutter and provide convenient alternatives to attachment of leaflets to trees or public structures in the right-of-way.
Maximum Net Area: Shall not project beyond the edge of any plane of the kiosk or board, when flat-mounted to the kiosk or board.
Illumination: No.

(i) Memorial Signs or Tablets, such as cornerstones, denoting only the names of buildings and date of erection, cut or set into a masonry surface and displayed on a wall only.
Maximum Net Area: Twelve (12) square feet.
Number: One (1) per street frontage.
Illumination: No.

(j) Merchandise Signs in Group 2 and 3 Districts.
Maximum Gross Area: Nine (9) square feet.
Maximum Height: Eight (8) feet.
Number: Two (2) per street frontage.
Illumination: No.
Temporary: Yes.

(k) Noncommercial. Signs expressing a noncommercial message that do not fit into any other category of sign permitted or allowed by this ordinance.
Maximum Net Area: Twelve (12) square feet in Group 1 districts, thirty-two (32) square feet in all other districts.
Maximum Height: One (1) story or twelve (12) feet, whichever is lower in Group 1 districts and fifteen (15) feet in all other districts.

Setback: Ten (10) feet in Group 1 districts, no setback in all other districts.
Number: One (1) per street frontage. On a lot abutting a waterway, may have up to two (2), one facing the street and one facing the waterway.
Illumination: No illumination in Group 1 districts. Can be illuminated if in a location and size that would otherwise be allowed to be illuminated under Sec. 31.04(5)(k).
Temporary: Yes.

(l) Parking Lot Signs.

1. Parking Lot Regulation Signs.
   Maximum Net Area: Nine (9) square feet.
   Setback: Ten (10) feet.
   Number: No limit.
   Illumination: Yes, except in Group 1 districts.
2. Parking Lot Directional Signs.
   Maximum Net area: Three (3) square feet.
   Maximum Height: Ten (10) feet.
   Setback: None.
   Number: Two (2) per street frontage, but no limit on number if setback more than one-hundred (100) feet from the property line.
   Illumination: Yes, except in Group 1 districts.
3. Parking Lot traffic signs required by law. See also sub. (m).
4. Other Parking Lot signs allowed under Sec. 31.14.

(m) Portable Signs. Only those portable signs that are expressly exempt from permit under Sec. 31.046(2). All such portable signs must comply with all requirements of that section.

(n) Public-Hearing-Notice Signs provided by the Department of Planning and Development, denoting the times and locations of public hearings before the Plan Commission and Common Council on applications for zoning map amendments or conditional uses as required by Chapter 28, the Zoning Code.

(o) Real Estate Signs advertising only the sale, rental or lease of the premises upon which the sign is located and displayed temporarily only during times when the premises/property is being offered for sale, rental or lease.

Maximum Net Area (Ground or Wall sign):
Group 1 Districts: Twelve (12) square feet.
Group 2 and 3 Districts: Thirty-two (32) square feet. Additionally, in all of these districts except Urban Design Districts, if the zoning lot fronts a highway with a speed limit of more than forty-five (45) miles per hour, a real estate sign of up to sixty-four (64) square feet in net area may be displayed.
The maximum net area for a real estate sign displayed on the ground in any district shall be measured according to Sec. 31.08(2)(c)2.
Maximum Height: One (1) story or twelve (12) feet, whichever is lower in Group 1 districts and fifteen (15) feet in all other districts.
Minimum Setback for a Ground Sign: Ten (10) feet.
Number: One (1) per street frontage. On a lot abutting a waterway, may have up to two (2), one facing the street and one facing the waterway.
Illumination: No.

(p) Traffic or Other Official Government Signs placed, authorized or required by the City or other authorized governmental agency, including but not limited to official traffic control devices defined in Wis. Stat. § 340.01(38) (2005-06), official traffic signs and signals, other municipal signs, legal notices, railroad crossing signs, warning and temporary emergency signs, mandatory motor fuel price signs as regulated by Wis. Stat. § 100.18 and 168.11(2005-06) or by other law, or warning

signs on utility poles, fixtures or structures. The requirements for gross area, height, setback, other size, materials or physical specifications (including illumination) shall be as required by law or the authorizing agency.

(q) Window Signs as regulated under Sec. 31.10 of this ordinance.

31.045 UNSAFE AND UNLAWFUL SIGNS AND STRUCTURES.

(1) General Enforcement.

The authority of the Zoning Administrator or designee with respect to unsafe, insecure or unlawful signs, or any sign found to in violation of this ordinance is as described in Secs. 31.04(2) and (4) herein.

(2) Maintenance and Removal of Signs.

(a) All signs and structures shall be properly maintained and kept in an overall clean, neat state of appearance. It shall be the responsibility of the permit holder or property owner to maintain signs and structures.

(b) Abandoned Signs. Signs that no longer serve the purpose for which they are intended, or are not maintained, or which have been abandoned, shall be removed by the most recent permit holder, the property owner, or by the City, at the expense of the property owner and may be charged to the property owner as a special charge. The Zoning Administrator shall keep an accurate account of the cost of such removal and bill the property owner. If any account remains unpaid, the Zoning Administrator may report the same to the Finance Director, who shall annually prepare a statement of all special charges at each lot or parcel of land and report the same to the City Clerk, and the amount therein charged against said lot or parcel of land shall be entered in the tax roll as a special charge against said lot or parcel, and the same shall be collected in all respects like any other special charge upon real estate under Wis. Stat. § 66.0627.

(c) Damaged or defaced signs shall be cleaned, repaired or removed by the most recent permit holder or property owner, or by the City of Madison under Sec. 31.04(4).

(3) Hazardous or Prohibited Signs, Structures and Conditions.

(a) Bracing of Signs. No sign or structure or any part of such structure as defined in the preceding sections, or any anchor, brace, guy wire or guide rod shall be attached, fastened or anchored to any fire escape, fire ladder or stand pipe, and no such structure or any part of such structure or anchor brace, guy wire or guide rod shall be erected, put up or maintained so as to cover or obstruct any roof, required doorway, required window or other opening of any building so as to prevent or hinder ingress or egress through such required door, doorway, window, exit or other opening, or so as to prevent or hinder the raising or placing of ladders against such building by a Fire Department as necessity may require.

(b) Signs Not to Constitute a Traffic Hazard. No sign regulated by this ordinance shall be erected at the intersection of any streets in such a manner as to obstruct free and clear vision as further delineated in other sections of this ordinance; or at any location where, by reason of the position, shape or color, it may interfere with, obstruct the view of or be confused with any authorized traffic sign, signal or device; or that makes use of the words "STOP," "LOOK," "DRIVE-IN," "DANGER," or any other word, phrase, symbol, or character in such manner as to interfere with, mislead or confuse traffic.

(c) Public Right-of-Ways.

1. No sign, advertisement, cabinet or obstruction, or any other object shall be placed upon, over, or in any public highway right-of-way, including the sidewalk, street, alley or public ground, or upon posts, trees or other supports in any public street or public ground, except that this section shall not be construed to prohibit the erection or placing of official traffic

control devices, signs, signals or markers or other signs authorized by law or this ordinance, or of any other object specifically authorized by law of the State of Wisconsin or by these ordinances. This section shall not prohibit carrying of portable hand-held signs on the sidewalk or other pedestrian ways, when done so in compliance with Sec. 31.046(2)(b).

2. This subsection does not apply to those matters set forth in Sec. 3.14(4)(i), MGO.

This is a Charter Ordinance adopted pursuant to Wis. Stat. § 66.0101, and Article XI, Sec. 3 of the Wisconsin Constitution.

3. This subsection does not apply to signs on City-sponsored bicycle-sharing facilities set forth in Sec. 10.33, MGO.

This is a Charter Ordinance adopted pursuant to Wis. Stat. § 66.0101, and Article XI, Sec. 3 of the Wisconsin Constitution, and shall be effective upon sixty (60) days from passage and publication, subject to the referendum procedures of Wis. Stat. § 66.0101(5).

4. This subsection does not apply to Government Building Identification Signs and Promotional and Decorative Banners under Sec. 31.07(5)(f).

This is a Charter Ordinance adopted pursuant to Wis. Stat. § 66.0101, and Article XI, Sec. 3 of the Wisconsin Constitution, and shall be effective upon sixty (60) days from passage and publication, subject to the referendum procedures of Wis. Stat. § 66.0101(5).

(d) Suspended Signs. No sign or other structure as defined in this section shall be fixed to or suspended from any other sign so that the distance from the lower side of the sign or projection will be less than ten (10) feet from the top of a pedestrian walkway.

(e) Signs Painted Directly Upon Any Wall Or Wall Surface. No sign shall be painted directly upon any wall or wall surface unless approved by the Urban Design Commission as a legacy sign under Sec. 31.043(3) or approved by the Landmarks Commission under Secs. 41.09(4) or 41.12(2). (Am. by ORD-15-00072, 7-29-15)

(f) Use of Projected Images, in Conjunction With Signs. Any projected images, video, or other electronic light or laser displays projected onto a sign, building or structure are prohibited unless expressly allowed elsewhere in these Ordinances.

(g) 1. Motion Signs. All Motion signs, as defined in Sec. 31.03(2), are prohibited. Flags and decorative and promotional banners allowed under Sec. 31.075 are not considered "motion signs."

2. Attention-Getting Objects. All Attention-Getting Objects, defined in Sec. 31.03(2), whether or not attached to or displayed in connection with a sign, are prohibited. Flags and decorative and promotional banners allowed under Sec. 31.075 are not considered "Attention-Getting Objects."

(h) Flashing Signs. All Flashing signs, as defined in Sec. 31.03(2), are prohibited regardless of the frequency of the flashing. Signs displayed in compliance with Sec. 31.046(1) and motion signs displayed in compliance with sub. (g)1. above, shall not be considered in violation of this prohibition. Official traffic control devices are exempt from this prohibition.

(i) Digital Image Signs. Digital Image Signs, as defined in Sec. 31.03(2), whether static or animated, are prohibited.

(j) Signs on Bridges and Overpasses. No person shall display, place, erect, post, maintain, install, affix, or carry any sign, including a hand-carried sign, on any portion of a vehicular or pedestrian bridge or overpass that passes over a freeway or expressway as defined in Wis. Stat. § 346.57, or a controlled access highway as defined in Wis. Stat. § 990.01, when such highway has a speed limit of more than

40 miles per hour, whether the highway is under the jurisdiction of the federal, state or local government, provided that such sign is visible from such freeway, expressway or controlled access highway.

This paragraph shall not apply to "official traffic control devices" as defined in Wis. Stats. § 340.01(38), (2005-06) and as may be amended, which are authorized by law and erected by the authority having jurisdiction over the highway or right of way. Nothing in this subsection shall be construed to limit or restrict the application of Secs. 31.045(3)(b) and (c) of this ordinance, Wis. Stat. ch. 86 and any applicable regulations created by the Department of Transportation pursuant to that chapter, or any other federal, state or local law that prohibits or restricts the placement of signs in highways or other right-of-ways.

31.046 MISCELLANEOUS SIGNS.

(1) Electronic Changeable Copy Signs. Electronic Changeable Copy Signs, as defined in Sec. 31.03(2), may be displayed on a wall, roof, above-roof, ground, projecting, or canopy sign, in Group 2 and 3 districts, and upon non-residential uses in Districts of Special Control, according to the following criteria:

(a) The sign shall conform to all applicable provisions of this chapter (area, placement, etc.) for the type of sign in question.

(b) The electronic changeable copy or images shall not alternate, change, fade in, fade out, or otherwise change more frequently than once every five (5) minutes in Group 2 and 3 districts, and once every one (1) hour for non-residential uses in Districts of Special Control, including Urban Design Districts.(c) Scrolling, racing, pixelating or moving characters or images, or those that have the appearance of movement, are prohibited for any reason, including as a method of changing copy under sub. (b) above.

(d) All copy/characters or other changeable images shall be of one (1) color only, with light copy on a dark background.

(e) Exceptions:

1. Scoreboards approved under Sec. 31.044(1)(a).
2. Official traffic control devices defined in Wis. Stats. § 340.01(38) (2005-06).
3. A sign with electronic changeable copy that displays only motor fuel prices or gasoline-ethanol fuel blend prices as regulated by Wis. Stat. § 100.18 and 168.11 (2005-06), may be exempt from Sec. 31.046(1)(a), (b) or (d) but is not exempt from Sec. 31.046(1)(c).
4. Time and Temperature. Signs with changeable copy displaying only the time and temperature may change as frequently as necessary to display the correct time and temperature, and are therefore exempt from Sec. 31.046(1)(b), but are not exempt from Sec. 31.046(1)(a), (c) and (d). The time and temperature may be displayed on any sign where allowed by this chapter, in any zoning district other than Group 1 districts.

(f) Signs displayed in compliance with this Sec. 31.046(1) shall not be considered in violation of the prohibition against Flashing Signs in Sec. 31.045(3)(h).

(g) Prohibition. Any sign that displays electronic changeable copy or other digital, electronic or internally illuminated text or images in violation of the above criteria, is prohibited.

(2) Portable Signs.

(a) Display on Private Property.

Hand-carried portable signs may be displayed on a zoning lot in any zoning district, with the owner's permission and without a permit. Other Portable signs may be displayed on a zoning lot in the Group 2 and 3 districts with a permit and subject to the following:

1. Size. The maximum area of the portable signs including all supporting structures, shall be no greater than two (2) feet by three (3) feet on a side, with a maximum of two (2) signable sides or faces. Sign copy shall not be displayed on more than two (2) sides or faces and shall not extend beyond the outer edges of the sign structure.
2. Number. A maximum of one portable sign (1) per street frontage and two (2) per zoning lot may be displayed.
3. The portable sign shall only be displayed when the business or organization to which the sign refers is open for business.
4. A portable sign shall be free-standing, self-supportive and constructed of substantial materials so as to withstand moderate wind velocity as required by Sec. 31.04(5)(f), and otherwise not create a hazard.
5. No portable sign shall be displayed within an entryway or exit that is required to remain unobstructed by any applicable ordinance, state or federal law.
6. Illumination. Portable signs shall not be illuminated.
7. A mobile grocery store, as defined in Sec. 28.211, parked on private property in compliance with Chapter 28, if meeting the criteria for a portable sign, is exempt from the permit fee for a portable sign and from sub. 1. above, and shall not be counted for purposes of the maximum number on a zoning lot under sub. 2. above. Additionally, when such a mobile grocery store is open for business on a zoning lot, up to (1) additional portable sign per street frontage may be displayed on the lot to draw attention to the mobile grocery store, if the signs meet all criteria of this section and a permit fee is paid and permit obtained for the sign.

(b) Display on Public Property. Portable signs may be displayed on public property only as follows, and may be displayed without a sign permit:

1. Portable signs used in a parade for which a permit has been issued under Sec. 12.87(11).
2. Portable signs displayed during and within the confines of an event for which a valid street use permit has been issued under Sec. 10.056, or displayed on private property directly adjacent to the area for which the street use permit has been issued and only while the street use permit is valid.
3. Portable signs used at a city park during and within the confines of an event for which a valid permit has been issued by the Parks Division of the City of Madison and only while the permit is valid.
4. Hand-carried portable signs on private property with the owner's permission or hand-carried signs on the public sidewalk or other pedestrian way, if the person carrying the sign or the sign itself is not in violation of other ordinances or laws applicable to the location and conduct, including but not limited to obstructing traffic, obstructing the sidewalk, trespassing, or conducting or participating in an event for which a parade permit, street use permit or park use special event permit would be required by city ordinance, but without such a required permit. Portable hand-carried signs shall be prohibited on certain bridges and overpasses as stated in Sec. 31.045(3)(j) and this exception shall not apply. Nothing in this exception shall be construed to limit the application of Secs. 31.045(3)(b) and (c) of this ordinance, Wis. Stat. ch. 86 and any regulations created by the Department of Transportation, or any other federal, state or local law that prohibits or restricts signs in highways or other right-of-ways, except as expressly stated herein.

(c) All other portable signs shall be prohibited.

(3) Inflatable Signs. Inflatable signs, other than the exceptions enumerated herein, shall be prohibited because they are generally more distracting and hazardous to pedestrian and traffic safety, tend to have an anchoring device that is less reliable under wind pressure, and out of scale and less compatible with surrounding structures and signs. The following inflatable signs may be displayed as described below:

(a) Parades. Balloons and inflatable figures and displays used in a parade for which a permit has been issued under Sec. 12.87(11).

(b) Street Use Events and Parks Special Events. Inflatable signs, including registered hot air balloons moored and being used primarily as a sign, displayed during and within the confines of an event for which a valid street use permit has been issued under Sec. 10.056, or on private property directly adjacent to the area for which the street use permit has been issued, or at a city park during and within the confines of an event for which a valid permit has been issued by the Parks Division, and only while the permit is valid, subject to the following conditions:

1. A Certificate of Insurance, on a form acceptable to the City, showing that commercial general liability insurance is provided for the inflatable device with the City of Madison, its employees and agents being named as additional insureds. Liability coverage shall include no less than the following limits of liability; bodily injury, death and property damage of one million dollars ($1,000,000) in the aggregate. This policy shall also be enforced for contractual liability in the same amount.
2. Displays may not exceed thirty-five (35) feet in height and may not be displayed from rooftops or moored or tethered with the device floating more than one foot off the ground, unless approved by the Common Council under Sec. 10.056 or the Board of Park Commissioners for displays in public parks;
3. Displays must be set back sixty (60) feet from the traveled portion of any public street or highway and one hundred (100) feet from any intersection, unless approved by the Common Council under Sec. 10.056 or the Board of Parks Commissioners for displays in public parks;
4. Displays may not occupy parking spaces for the handicapped, drive aisles, or required parking spaces for multi-tenant properties and must be safely displayed in accordance with the manufacturer's instructions and any applicable Federal Aviation Administration (FAA) regulations.

(c) The following inflatable devices shall not be considered a sign:

1. Registered hot air balloons in use and momentarily moored but not being used primarily as a sign.
2. Novelty-type balloons less than two (2) feet in diameter and less than three (3) feet in any dimension tethered or moored no more than ten (10) feet above the ground.
3. Inflatable holiday or other decoration displayed temporarily on private property of a residential use, that does not contain any commercial message or logo or depict any commercial symbol or character and that does not exceed fifteen (15) feet in height.

(4) Bicycle-Sharing Facility Signs.

(a) The following signs may be displayed on a non-City owned zoning lot in any zoning district where a City-sponsored bicycle-sharing facility (as defined in Sec. 10.33) is permitted under Chapter 28, in addition to the signage permitted elsewhere in this ordinance:

1. Poster Board Sign. One (1) sign, permanently attached to the bicycle-sharing facility equipment, with not more than two (2) signs faces of not more than five feet and one inch (5'1") square feet in area per sign face, or with a single sign face of not more than ten (10) square feet in area. The

sign shall not be illuminated and shall include a map and other information about the City-sponsored bicycle-sharing program. The sign may also include:

a. The logo and/or business name of a business or businesses located;

b. A business sign for one or more businesses located on the zoning lot where the facility is located;

c. The name or logo of the operator or manufacturer of the bicycle-sharing facility; and,

d. A City of Madison logo.

(Am. by ORD-14-00066, 4-16-14)

2. One (1) additional sign located elsewhere on the bicycle-sharing facility equipment, of not more than one (1) square foot in net area, bearing only the logo and/or business name of a business located on the zoning lot. Such sign shall not be illuminated.

3. Operator Logos: In addition to the logos on the poster board sign under sub. (a)1. above, the following signs bearing only name and logo(s) of the owner, managing agent, or manufacturer of the bicycle-sharing facility or other symbol to identify the equipment as a bicycle-sharing facility may be displayed on the facility equipment:

a. One 2-sided round sign of not more than two (2) square feet in area, per side, and

b. Up to two (2) additional signs of not more than one half (½) of a square foot mounted on the equipment.

The operator logo signs under this subsection 3. are solely to identify the equipment as a City-sponsored bicycle-sharing facility and shall not include any business signs or sponsorship advertising.

4. One sign of not more than twenty (20) square inches, mounted upon the payment equipment, to identify credit cards accepted for payment.

5. One (1) sign of not more than one hundred five (105) square inches denoting the location name of the bicycle-sharing station.

6. Signs on Bicycles provided as part of the City-sponsored bicycle-sharing program as described in Sec. 10.33(10)(c)3.g.

7. One Instructional panel with information for operating the bicycle-sharing facility mounted elsewhere on the equipment, that may include a twelve square inch sign bearing the logo or business name only of the owner, managing agent, or manufacturer of the bicycle-sharing facility, and no other logos, business names or sponsorship signs of any kind.

(b) Permit Fees. There shall be one permit fee covering all signs displayed on a City-sponsored bicycle-sharing facility, as established in Sec. 31.041.

(c) Nothing in this section shall be construed to permit or allow the display of any advertising sign or off-premise directional sign on a bicycle-sharing facility on non-city owned zoning lots or private property. Any sign on a bicycle-sharing facility on non-city owned zoning lots or private property other than those expressly allowed under this subsection is prohibited.

31.05 NONCONFORMING SIGNS.

As an exercise of its police powers and authority to regulate for the health, safety and welfare of the public, the City recognizes only the following limited and enumerated circumstances under which a sign that does not meet to the requirements of this chapter may continue to be displayed:

(1) (a) General Rule. Any existing sign (except an Advertising Sign) that complied with the requirements of this Chapter at the time of erection and becomes noncompli-

ant with the requirements of this Chapter on the effective date of this Ordinance or subsequent amendment may continue to be displayed, and copy may be changed, under the following circumstances:

1. There is no increase in gross area, net area, illumination, increase or addition of flashing, movement, or other features or characteristics prohibited by Sec. 31.045 and no addition of features that would violate Sec. 31.046(1) (Electronic Changeable Copy Signs). Existing signs with features fitting the description of any sign prohibited by Sec. 31.045(3)(f), (g), (h), or (i) shall be required to conform to the requirements of those subsections. Existing signs with features fitting the description of Electronic Changeable Copy Signs shall be required to conform to all requirements of Sec. 31.046(1) including but not limited to the applicable time limitations for changing copy or images.
2. (Rep. by ORD-15-00118, 10-28-15)

(b) (Rep. by ORD-15-00118, 10-28-15)

(c) If an existing nonconforming sign is removed (or substantially removed), ordered to be removed under the authority elsewhere in this chapter, destroyed, or otherwise ceases to exist, the sign is no longer subject to the general rule allowing continued display or changes of copy under Sec. 31.05(1)(a) above. This provision does not apply to signs that are realigned under sub. (2)(c) herein.

(d) Existing nonconforming non-residential uses in residential zoned districts are subject to the sign requirements for Group 2 districts.

(2) Nonconforming Advertising Signs.

(a) Any existing advertising sign, and its supporting structure if other than a wall sign, located on any zoning lot with frontage on State Street, on the Inner or Outer Ring or on streets connecting the Inner Ring and Outer Ring, shall be removed by the owner thereof at no cost to the City no later than December 31, 1983. For purposes of this subsection, the term "Inner Ring" shall mean the connecting pattern of streets abutting the Capitol Square, to wit: Main Street, Pinckney Street, Mifflin Street and Carroll Street. The term "Outer Ring" shall mean the connecting pattern of streets one block off the Capitol Square, to wit: Doty Street, Webster Street, Dayton Street and Fairchild Street. All other existing advertising signs within the No Advertising Sign District, except for the Howard Johnson directional bulletin located at 525 University Avenue which may only continue as a directional sign, the two roof signs located at 753 East Washington Avenue and the three ground signs located at 640 Williamson Street, shall be removed by the owner at no cost to the City at the rate of no less than one sign per year beginning in calendar year 1983. However, all such signs shall be removed no later than December 31, 1989.

(b) Any other advertising sign existing as of November 1, 1983, including those excepted from or otherwise not included in the areas set forth in sub. (a) above, may be continued provided that it may not be relocated, replaced, expanded, enlarged, repositioned or raised in height, except under sub. (2)(c). Such existing advertising signs may not be restored or reconstructed for any reason, except if damaged or destroyed by fire or other casualty or act of God, and only if the total cost of restoration to the condition in which it was before the occurrence does not exceed fifty percent (50%) of its assessed value or the cost to replace with a new structure of equal quality, whichever amount is lower. The determination of eligibility for restoration or reconstruction in the preceding sentence shall be made by the Urban Design Commission and any restoration or reconstruction (except realignment under (2)(c) below) without the approval of the Urban Design Commission is prohibited. Violation of this subdivision shall result in the said sign

being subject to immediate removal by the owner thereof at no cost to the City. Ordinary repairs or normal maintenance shall be considered "required by law" hereunder.

Construction of a Replacement Advertising Sign with a permit under Sec. 31.112 does not violate the prohibitions in this subsection. A Replacement Advertising Sign under Sec. 31.112 is not an advertising sign as contemplated by this subsection, and therefore not subject to treatment as nonconforming hereunder. (Am. by ORD-15-00069, 6-24-15)

(c) Realignment of Advertising Signs or Other Nonconforming Signs. Notwithstanding anything to the contrary in this ordinance, an existing advertising sign or other sign meeting the criteria of sub. (1)(a) may be realigned, as that term is defined in Wis. Stat. § 84.30(5r)(a), as created by 2011 Wis. Act 32, on the same site if a highway project of the State of Wisconsin Department of Transportation ("Department") causes the realignment, upon notification of proposed alignment by the Department under Wis. Stat. § 84.30(5r), as created by 2011 Wis. Act 32. For purposes of this section, the "same site" means the same lot of record, as defined in Chapter 28, MGO. Such sign may be realigned only if the City does not choose to petition the Department to acquire the sign under the procedures in that statute. A sign realigned under this provision shall not be subject to applicable setback requirements found elsewhere in this ordinance, if in the Zoning Administrator's opinion a shorter setback is necessary to accomplish the realignment. Any advertising sign realigned under this provision shall comply with Sec. 31.11 unless expressly exempt. Realignment of a sign in compliance with this provision shall not cause the sign to lose any nonconforming status granted by this section. The Zoning Administrator shall keep a record of any sign realigned under this provision.

SPECIFIC TYPES OF SIGNS

31.06 AWNING SIGNS.

Signs may be displayed on an awning in Group 2 and 3 districts specified in Table 2, 31.15(2), and subject to the following provisions:

(1) Signs may be displayed on the lowest twelve inches (12") of the principal face or side panels of awnings provided they do not exceed six inches (6") in height.

(2) An awning may be designated a signable area in lieu of a signable area on the building façade. The maximum net area of the sign displayed on the awning shall be determined by measuring the available signable area for a wall sign on the building façade using the methods for signable area measurement under Sec. 31.07(2)(b) and calculating the maximum net area under Sec. 31.07(4). An awning sign under this subsection may be displayed in addition to the signs allowed under sub. (1). (Am. by ORD-15-00118, 10-28-15)

(3) The illumination level of an internally illuminated awning shall not exceed seventy-five (75) foot lamberts.

(4) Awning signs may be external illuminated, subject to Sec. 31.04(5)(k).

(5) Awning signs may project into the right-of-way only as authorized under Sec. 31.04(6).

(6) Height. In Group 2 zoning districts, awning signs may only be displayed on an awning that is located on the first story of the building and all awning signage shall be no higher than the floor of the second story or eighteen (18) feet, whichever is lower. (Cr. by ORD-15-00118, 10-28-15)

31.065 BUSINESS OPENING SIGNS.

Business opening signs, as defined in Sec. 31.03(2), may be displayed in the districts indicated in Sec. 31.15(2) (Table 2) of this ordinance, subject to the following provisions:

(1) Type of Sign. A business opening sign may be a wall sign, roof sign, canopy fascia sign, or projecting sign.

(2) Location. A business opening sign may be displayed in the districts indicated in Sec. 31.15(2) (Table 2) of this ordinance. A business opening sign may be displayed in addition to, in lieu of, or affixed to a permanent sign of the type described in sub. (1) above.

(3) Size. The size of a business opening sign shall be determined by the type of sign chosen, and shall be limited to the maximum size allowed for a permanent sign of that type at that location.

(4) Banners. A banner may be used as a business opening sign.

(5) Illumination. Business opening signs may be illuminated subject to Sec. 31.04(5)(k). (Am. by ORD-14-00012, 1-14-14)

(6) Duration. A business opening sign may be displayed for a period not to exceed thirty (30) days from the date the business opened, changed names, or changed ownership; and shall not be renewed.

31.07 WALL, ROOF AND ABOVE-ROOF SIGNS.

(1) Wall and roof signs may be displayed in the Group 2 and 3 districts, subject to the requirements of the Tables of Permitted Signs, Sec. 31.15(1) (Table 1). Wall signs may be attached flat to, or affixed parallel to and at a distance of not more than fifteen (15) inches from the wall, however no wall sign shall project into the right-of-way except as authorized by Sec. 31.04(6). No sign affixed flat against a building wall shall extend beyond any edge of such wall. Wall and roof signs may be illuminated subject to Sec. 31.04(5)(k).

(2) Wall and Roof Signable Area. All wall and roof signs shall be displayed within the selected signable area, except as provided in subs (4) and (5) below.

(a) Number of Signable Areas. There shall be one (1) signable area, whether on the wall or the roof, for each facade facing a street. There shall be no more than four (4) signable areas per building, except:

1. For buildings with more than one occupant side-by-side: the signable area may be divided for building occupants when the building facade is divided by architectural details or internal segmentation that designating separate horizontal occupancies or tenant spaces. Each occupant/tenant will be allowed a signable area as reasonably close to its space as possible.
2. For multi-story buildings with more than one vertical occupancy, there may be up to two (2) additional signable areas per façade displayed above the first story, with no limitation on the height of placement, but a total of only one (1) sign per occupant, per façade, will be allowed.

(b) How to Select and Measure Signable Area: The signable area for wall and roof signs shall be determined as follows:

1. Wall Signs. The signable area for a wall signs is determined by the area of the facade of the building that is free of doors, windows (for purposes of this definition, spandrel panels or other non-vision glass used as an exterior building material are not considered windows) or other major architectural detail, and that extends no higher than the juncture of the wall and the roof, or in the case of a facade that includes a parapet wall, no more than four (4) vertical feet of the parapet wall may be included in the measurement of the signable area.
2. Roof Signs. The signable area for a roof signs is one (1) designated area of the roof that is free of windows and doors or major architectural detail, that extends no higher than the roofline.

3. Measuring Signable Area. The size of the signable area is determined by calculating the number of square feet that are enclosed by an imaginary rectangle or square drawn around the area selected pursuant to 1. and 2. above, and sub. (3) below.

(3) Above-Roof Signs. An above-roof sign is a sign, any portion of which is displayed above the roofline. Above-roof signs may be displayed in the IL and IG employment districts and as allowed in Sec. 31.04(2)(b)2.b.iii. and iv., if no wall or roof sign is displayed on the corresponding facade. The signable area for an above-roof sign is calculated on the corresponding wall facade and can be transferred above the roof line. An above-roof sign may extend to a maximum height of ten (10) feet above the roofline.

(4) Size.

(a) Standard Net Area. The maximum net area of all wall, roof and above-roof signs within a single signable area shall be no more than forty percent (40%) of the signable area or two (2) square feet of signage for each lineal foot of building frontage. When using the lineal foot method, the total net area shall not exceed one hundred percent (100%) of the signable area designated under Sec. 31.07(2), above. In no case shall a wall, roof, or above-roof sign eligible for measurement under this sub. (a) exceed eighty (80) square feet in net area.

(b) Occupancies of 25,000 Square Feet. For a single occupancy, stand-alone, non-residential building with twenty-five thousand (25,000) square feet or more in floor area, or a non-residential occupancy or tenant space with twenty-five thousand (25,000) square feet or more in floor area in a multi-tenant building, the maximum net area of all wall, roof and above roof signs shall be thirty percent (30%) of the signable area. The lineal foot measurement method shall not be available. In no case shall a wall sign under this sub. (b) exceed one hundred twenty (120) square feet in net area. Any other occupancies or tenant spaces of less than twenty-five thousand (25,000) square feet of floor area on the same building or zoning lot are eligible for standard net area measurement under sub. (4)(a).

(Am. by ORD-15-00118, 10-28-15)

(5) Signs Outside Signable Area. The following types of signs may be displayed on a wall outside the selected signable area described in Sec. 31.07(2)(a) and may be displayed in addition to the primary wall sign(s) authorized by that subsection. However, except for menu or merchandise boards, the following signs must be displayed on a part of the wall that meets the definition of "Signable Area" in Sec. 31.03(2):

(a) Parking Lot Directional signs displayed in a location and with dimensions that otherwise conform to the requirements of this chapter for such signs.

(b) Menu or Merchandise Board(s) as defined in Sec. 31.03(2) are permitted anywhere on the façade and need not be placed within a Signable Area as defined in Sec. 31.03(2), if all of the following criteria are met:

1. Maximum of one (1) per occupancy, per street frontage.
2. Placed at a height between two (2) and seven (7) feet measured from the adjacent ground elevation to the top of the menu board.
3. Maximum net area of three (3) square feet.
4. Affixed flat to or parallel to and at a distance of not more than four (4) inches from the wall face or window surface and shall not otherwise project into the right-of-way.
5. Shall not extend beyond any edge of the wall or window to which it is affixed.
6. May include manual changeable copy feature(s), chalkboard, dry erase board, or similar material, however pre-fabricated sign boards that include an advertisement for any product are prohibited.
7. May be enclosed inside a protective case, if so, the case shall be included in measuring the net area.

8. May be displayed on the exterior a window, but shall count against the total net area permissible for a Primary Window Sign under Sec. 31.10(1).

9. Illumination. May be externally illuminated as allowed by Sec. 31.04(5)(k), but shall not be internally illuminated with back-lighting of copy.

10. Downtown Core. Any menu board to be displayed in the Downtown Core, in addition to meeting the criteria of this subsection, must be reviewed by the UDC for compliance with the criteria of the "Downtown Urban Design Guidelines." In the event of a conflict between this subsection and those guidelines, the more stringent requirement shall apply.

(Am. by ORD-15-00118, 10-28-15)

(c) Not more than one (1) logo, a maximum net area of six (6) square feet.

(d) Wall Signs Adjacent To Off-Street Parking. Wall signs may be displayed on the facade of a building that does not face a street but is adjacent to an off-street customer parking area of at least thirty-three (33) feet in width, under the following circumstances: (1) if the parking area is on the same zoning lot as the building on which the sign is displayed; or (2) if the parking area is not on the same zoning lot but is available for use under a reciprocal cross-access agreement, an approved planned multi-use site plan or when a conditional use permit has been granted to the owner of an adjacent lot to allow accessory parking for the use within the building on which the signed is displayed. Such signs shall be subject to the same limitations as signs on the street side(s) of the building but shall not exceed the area of the maximum size wall sign permitted elsewhere on that building.

(e) Any other wall signs allowed under Sec. 31.042, Signs Exempt from Permit, or expressly permitted elsewhere in this ordinance.

(f) Government Building Identification Signs.

1. A sign may be displayed outside the selected signable area of a government building in the Downtown Core (DC) District on a wall surface that projects into the right-of-way if all of the following criteria are met:

   a. The sign contains only the name of the government building.

   b. The purpose of the signage is wayfinding and identification of a public government building.

   c. The building must be owned and operated by a unit of government and be open to the public.

   d. The location of the sign is found not to interfere with any official traffic control devices or signs.

   e. Any necessary encroachment or privilege-in-streets permit is obtained for the portion of the building projecting into the right-of-way.

   f. The portion of the building upon which the sign is proposed to be located does not project into or over the roadway.

   g. Any necessary Urban Design Commission approval is obtained for the sign as required by Sec. 33.24(4)(g)4.b. The DC is a district of Special Control under Sec. 31.13(9) and all signs in this district must be reviewed according to the "Downtown Urban Design Guidelines."

2. Promotional and Decorative Banners on Government Buildings in the DC District. In addition to the identification sign described above, banners meeting the definition of "Decorative" or "Promotional" banners in Sec. 31.03(2) may also be displayed on a government building in the DC district on a wall surface that projects into the right-of-way, if the criteria in subs.

c. through g. above are met. Additionally, any Promotional banner displayed under this provision must pertain to an event, campaign or activity taking place at the building upon which the banner is displayed.

3. Purpose and Findings. The Common Council finds that the display of Government Building Identification Signs and Decorative and Promotional banners on a portion of a government building that projects into the highway right-of-way in the DC Downtown Core district, consistent with the criteria in this section, will not cause aesthetic blight or traffic hazards of the sort unacceptable to the community. Rather, when included as part of the overall building design and streetscape, such signs will further the City's substantial governmental interests as follows: traffic and pedestrian safety will be improved by identifying a public building by name, announcing public events of interest to the community, providing easy-to-see directional and wayfinding information without obstructing the sidewalk, terrace or roadway and without interfering with official traffic control devices. The City's aesthetic interests will be protected because the appearance and location of the sign and/or banners and their integration with the building design and surrounding streetscape must be approved by the Urban Design Commission using the standards for the DC Downtown Core district as a "District of Special Control" under Sec. 31.13(9).

4. Wis. Stat. § 86.19 and state administrative rules adopted thereto raise doubts about whether such signs and banners may be located within the limits of highway rights-of-way. The approval of identification signs and promotional or decorative banners on government buildings in Madison's DC Downtown Core district is a matter of the local affairs and government of the City of Madison. Identification signs on the wall of a public building that projects over the sidewalk will provide efficient identification and wayfinding for the government building without obstructing the pedestrian walkway, creating clutter, or interfering with official traffic control devices or vehicle traffic. Decorative and Promotional banners will notify the public of events taking place at the public building, further assisting with wayfinding, and will complement the streetscape with appropriate decorations without cluttering the sidewalk or impeding pedestrian traffic. Therefore, the City of Madison, through its Common Council, hereby determines that, to the extent Wis. Stat. § 86.19 and related Wisconsin Administrative Code regulations restrict the City's ability to approve identification signs and decorative and promotional banners on a portion of a government building that projects into the street or highway right-of-way, the City will not be governed by Wis. Stat. § 86.19 to that extent.

5. This Charter Ordinance, Sec. 31.07(5)(f) shall not apply to State Trunk Highways as defined in Wis. Stat. § 84.02.

6. Sec. 31.07(5)(f) is a Charter Ordinance adopted pursuant to Wis. Stat. § 66.0101, and Article XI, Sec. 3 of the Wisconsin Constitution and shall be effective upon sixty (60) days from passage and publication, subject to the referendum procedures of Wis. Stat. § 66.0101(5).

(6) Large Buildings. Additional signable areas may be designated on Large Buildings, as defined in Sec. 31.03(2), and wall, roof and above-roof signs may be displayed within those additional signable areas, as provided below:

(a) Buildings Exceeding 125 Feet in Length. On each facade of the building, where wall, roof or above-roof sign(s) are displayed meeting the criteria of this section, up to four (4) additional accessory signs, as defined in Sec. 31.03(2), may be

displayed. The accessory signs under this paragraph shall not exceed fifty percent (50%) of the net area or fifty percent (50%) of the height of largest permitted wall, roof or above-roof sign already displayed on that facade.

(b) Buildings Five (5) or More Stories in Height. For buildings five (5) stories or more in height, one (1) additional signable area for each facade may be selected. The signable area under this section shall be measured using the criteria under Sec. 31.07(2)(b) except the total area of the additional signable area under this paragraph shall not exceed five percent (5%) of the area of the facade. The maximum net area of a sign displayed within this additional signable area shall be determined under Sec. 31.07(4).

(7) Banners. A banner may be used as a wall sign subject to the requirements for a wall sign under Secs. 31.07(2), (4), (5)(b) and (5)(c) herein, except that in an Urban Design District, UDC approval is required under Sec. 33.24 before a banner may be used in place of a permanent sign. A banner shall not be used for a roof or above-roof sign, or for any of the signs described in Sec. 31.07(5)(a) or (6).

31.071 CANOPY SIGNS.

A sign may be displayed on a canopy in the Group 2 or 3 districts specified in Sec. 31.15(2) (Table 2), and subject to the provisions of this section. Canopy signs may be illuminated, subject to Sec. 31.04(5)(k). Banners shall not be used as canopy signs.

(1) Canopy Fascia Signs. A sign may be displayed on the fascia of a canopy in lieu of a wall sign. Such sign shall be considered a wall sign, with the fascia of the attached canopy acting as the signable area, except that the signable area for a canopy fascia sign shall not project beyond the limits of the canopy in any direction, and shall be no wider than the width of the canopy. Any canopy fascia sign shall be in lieu of an above-canopy or below-canopy sign under this section.

(2) Above-Canopy Signs.

(a) A sign may be erected on the top of an attached canopy in a position parallel, or nearly so, to the building face in lieu of a wall sign, if there is no canopy fascia sign visible when facing the building.

(b) A sign may be erected on the top of an attached canopy in a position perpendicular, or nearly so, to the building face, in lieu of a projecting sign, if there is no canopy fascia sign on either side of the canopy.

(c) Number, Design Criteria. A maximum of one (1) sign may be erected on the top of an attached canopy, except where the canopy is facing two (2) street frontages or facing an off-street parking area that is thirty-three (33) or more feet in width, if the parking area is on the same zoning lot as the building on which the sign is displayed, or if the parking area is not on the same zoning lot but is available for use under a reciprocal cross-access agreement, an approved planned multi-use site plan or when a conditional use permit has been granted to the owner of an adjacent lot to allow accessory parking for the use within the building on which the sign is displayed, a maximum of two (2) signs may be erected on the top of said canopy. Above-canopy signs shall be subject to the following additional restrictions:

1. The sign shall be the business name or business logo only.
2. The sign shall have a vertical dimension no higher than the roofline of the corresponding building facade and no higher than two (2) feet above the canopy, except as allowed in Sub. (2)(c)3.b., below.
3. The sign shall be constructed only of free-standing letters, numbers, other characters, or free-standing business logos, subject to the following:
   a. The supporting sign construction for a logo must conform to the shape of the logo.

b. A logo shall be limited to four (4) square feet in area measured by drawing the smallest possible square or rectangle enclosing the extreme limits of the logo. The logo shall not extend above the roofline of the corresponding building facade. However, a logo may exceed the two (2) foot height limit.

4. The horizontal dimension of the sign shall be no wider than the width of the attached canopy on which it is displayed, or the width of the corresponding facade, whichever is narrower.

5. An above-canopy sign may be placed at any distance from the face of the building, but shall not project further from the building than the canopy to which it is attached, and a sign that crosses architectural detail may not be displayed closer than three (3) feet from the nearest face of the building, unless prior approval of the Urban Design Commission has been obtained under Sec. 31.043(3)(e).

(3) Below-Canopy Signs.

(a) A sign may be suspended below an attached canopy in a position parallel to the building face in lieu of a wall sign, if there is no canopy fascia sign visible when facing the building.

(b) A sign may be suspended below an attached canopy in a position perpendicular to the building face, in lieu of a projecting sign, if there is no canopy fascia sign on either side of the canopy.

(c) All below-canopy signs shall comply with all of the following criteria:

1. shall be mounted beneath the canopy.

2. shall not project or extend beyond the limits of the attached canopy in any direction.

3. the sign face shall have a maximum vertical height of two (2) feet, subject to the vertical clearance requirements below.

4. shall not hang more than one (1) foot from the lower most edge of the canopy, however this dimension shall be reduced as necessary to provide the following vertical clearance: the sign must vertically clear any pedestrian area by at least nine (9) feet, and vehicular ways by at least fourteen (14) feet.

(4) Detached Canopy Signs. In lieu of a wall sign on the principal building, a sign that does not fit into any of the categories above may be displayed on a detached canopy if the canopy does not have a signable fascia, and, if the sign meets the following criteria:

(a) The maximum net area of any canopy sign approved under this subsection shall be not more than ten percent (10%) of the total area of an imaginary vertical plane measured from the upper edge of the canopy to the lowest point of the canopy on the face the sign will be attached, excluding any supporting structures.

(b) The horizontal dimension of the sign shall be no wider than the width of the canopy on which it is displayed.

(c) If mounted below the canopy, the sign shall not hang more than one (1) foot from the bottom of the canopy, however this dimension shall be reduced as necessary to provide the following pedestrian or vehicular clearance: the sign must vertically clear any pedestrian area by at least nine (9) feet and vehicular ways by at least fourteen feet (14'), and

(d) The sign shall not project further from the building face than the canopy structure to which it is attached.

(5) Nothing in this section shall be construed to permit canopy signage within any portion of the public right-of way except as expressly provided in this section and Section 31.04(6).

31.075 FLAGS AND DECORATIVE AND PROMOTIONAL BANNER(S).

Flags, decorative banners and promotional banners, as defined in Sec. 31.03(2), may be displayed in the districts indicated in Sec. 31.15(2) (Table 2), subject to the following:

(1) It shall be unlawful for the owner or occupant of any private property to permit the placement or display of any, flags or decorative and promotional banners upon private property except in compliance with the following:
   (a) A permit fee of twenty-five dollars ($25) for each promotional banner.
   (b) A minimum clearance of eight feet (8') shall be required over pedestrian ways and twelve feet (12') over vehicular areas.
   (c) No flag or banner shall be so installed to intrude into any public right-of-way.

(2) It shall be unlawful for any person to install, place or display any flag, decorative banner, or promotional banner in the public right-of-way except in compliance with Sec. 31.04(6) and the following:
   (a) A permit fee of seventy-five dollars ($75) for each promotional banner.
   (b) A minimum vertical clearance of seventeen feet (17') shall be maintained from the roadway to the bottom of the banner when mounted on poles, except on State Street where the clearance shall be a minimum of sixteen feet (16'). When mounted to a structure, the minimum vertical clearance shall be no lower than the bottom of the structure.
   (c) The maximum tensile strength of any rope, cord or other attachment device to be used for attaching banners to City property shall be four hundred (400) pounds.
   (d) Attachment of any banner to a City pole shall be by existing eye bolts or other method approved by the City Department of Transportation.
   (e) A certificate of insurance evidencing the existence of commercial general liability insurance shall be filed with the City Department of Transportation before banner installation with minimum limits of five hundred thousand dollars ($500,000) per occurrence with the City named as an additional insured.

(3) Any flag, decorative banner or promotional banner installed, placed, or displayed in the public right-of-way in violation of this ordinance shall be removed at the owner's expense which shall be in addition to and in excess of any forfeiture or storage fees for violating this ordinance.

31.08 GROUND SIGNS.

(1) Applicability, Location. Ground signs shall consist of two (2) categories, Monument and Pole signs as defined in Sec. 31.03(2). Ground signs under this section are permitted on a zoning lot in the zoning districts indicated in Sec. 31.15(1), "Table 1," if the zoning lot is accessible by motor vehicle, or has off-street parking on the premises, or if the primary building or structure on the zoning lot is set back at least thirty-five (35) feet from the adjacent street or highway right-of-way. Ground signs permitted under this section may be illuminated, subject to Sec. 31.04(5)(k). Except as expressly provided, this section and corresponding portions of Table 1 apply only to Pole and Monument signs.

(2) Number, Height, Net Area.
   (a) Number. No more than two (2) ground signs of the type permitted in this section may be displayed on a single zoning lot, unless approved by the Urban Design Commission through a Comprehensive Design Review under Sec. 31.043 herein, or unless qualified for additional ground signs under sub. (ab) below. "Zoning Lot" shall have the definition found in Sec. 28.211, which includes a planned multi-use site, or a lot, or lots; as further described in that section. However, for purposes of this section only, a planned multi-use site that meets the criteria of Sec. 28.137(2)(e) is considered a single zoning lot. Additional ground signs expressly authorized elsewhere in these Ordinances shall not be counted toward the maximum number of ground signs under this paragraph. (Am. by ORD-15-00118, 10-28-15)

(ab) Additional Ground Signs. More than two ground signs may be displayed on a zoning lot if all of the following criteria are met:

1. The zoning lot has a single street frontage of five-hundred (500) feet or more in length. For purposes of this provision, "street" has the definition in Sec. 28.211, MGO.
2. The zoning lot must have a vehicle entrance with driveway access on the street that corresponds to the five hundred foot (500') lot line.
3. One (1) additional ground sign may be placed at each such vehicle entrance on the zoning lot.
4. Any such additional ground sign must be a Monument Sign as defined in Sec. 31.03(2), with a maximum height of eight (8) feet, maximum net area of thirty-two (32) square feet for a single sign face and sixty-four (64) square feet in combined net area for all faces on the sign, and a maximum of two (2) sign faces per sign.

(Sec. 31.08(2)(ab) Cr. by ORD-15-00118, 10-28-15)

(b) Height. The height of a ground sign shall be measured from the top of the sign to the approved grade at the base of the supporting structure. The maximum height for all permitted ground signs under this section varies by zoning district, the number of lanes and speed limit of adjacent highways, and whether the sign is a Pole sign or Monument sign, as set forth in Sec. 31.15(1), "Table 1." No ground sign shall exceed the maximum height allowed in Table 1. A Pole sign shall have a maximum height of twenty-two (22) feet, subject to the limits of Table 1. The maximum height for other exempt or special-purpose ground signs expressly authorized by another section of this ordinance, shall be as set forth in such other section. The maximum height for any other sign displayed on the ground not addressed by this section or elsewhere in this ordinance shall be fifteen (15) feet.

(c) Net Area. The net area of a Ground sign shall be measured according to the definition of "Net Area" in Sec. 31.03(2). The maximum net area for Ground signs is determined in part by the speed limit of adjacent highways and is set forth in Sec. 31.15(1), (Table 1) and as follows:

1. The maximum net area of any Ground sign face is the lower of the two numbers provided under Ground Signs in Table 1.
2. For a single Ground sign with back-to-back or multiple sign faces, the net area of all sign faces shall be added together to determine the total net area of that ground sign.
3. The combined net area of all ground signs on a zoning lot shall not exceed the greater of the two numbers provided under Ground Signs in Table 1. This total net area may be divided between a maximum of two (2) ground signs or displayed on multiple faces, but in no case shall the net area of a single sign face exceed the smaller of the two numbers permitted in Table 1.

(3) Ground and Projecting Signs.

If Ground and projecting signs are displayed on the same a zoning lot, only one (1) of such signs, where permitted may exceed twelve (12) square feet in net area.

(4) Banners Not to be Used as Ground Signs. A banner may not be used as or displayed upon a Ground sign.

31.09 PROJECTING SIGNS.

(1) Projecting signs, as defined in Sec. 31.03(2), may be displayed on buildings in Group 2 and 3 districts specified in Sec. 31.15(2) (Table 2) and subject to the following restrictions:

(a) Minimum and Maximum Projection. A projecting sign, as defined in Sec. 31.03(2), is a sign that projects outward, perpendicularly from a wall at a distance of at least 15 inches or more from the building face. The maximum distance a projecting sign

may project is not more than twenty-four inches (24") into the right-of-way, as authorized by Sec. 31.04(6). Where setbacks permit, projecting signs may project not more than six feet (6') from the building face.

(b) Location. Occupants may display a total of one (1) projecting sign on a facade facing a street or on a corner of a building. Projecting signs may be displayed in addition to any wall sign allowed under Sec. 31.07.

(c) Net Area. The permitted net area of projecting signs shall not exceed the square footage permitted in the Table of Permitted Signs, Sec. 31.15(1) ("Table 1"), except if a projecting sign is displayed on the same zoning lot as a ground sign, the permitted net area shall be subject to Sec. 31.08(3).

(d) Illumination. Projecting signs may be illuminated, subject to Sec. 31.04(5)(k).

(2) The following additional regulations apply to projecting signs:

(a) Projecting signs must vertically clear any pedestrian area by at least ten (10) feet and vehicular ways by at least fourteen (14) feet.

(b) Projecting signs may extend to the juncture of the roof with the building wall or to the top of any parapet, but projecting signs may not extend above a third story.

(3) Projecting Banners. A banner may be displayed in lieu of a projecting sign permitted under this section and shall be subject to the construction requirements under Sec. 31.04(7). Banners in an Urban Design District require UDC approval.

31.10 WINDOW SIGNS.

Window signs, as defined in Sec. 31.03(2), may be displayed in Group 2 and 3 districts without a permit, subject to the following restrictions:

(1) Primary Window Signs.

(a) Window signs consisting solely of individual alphabetic letters, numerals, or other symbolic characters without any background may be displayed but the net area shall not cover more than thirty (30) percent of the total window area.

(b) A window sign that includes opaque objects, logos, or other images, or any type of background, (whether or not any object allowed under sub. (1) is included) may be displayed, but the net area of all window signs shall not exceed twenty percent (20%) of the total window area.

(2) Accessory Window Signs. The following types of window signs may be displayed in addition to the window signs allowed under subs. (1) and (2) and shall not be counted toward the maximum net area therein:

(a) Temporary window signs of not more than four (4) square feet in net area, displayed for not longer than fifteen (15) calendar days within any thirty (30) day period.

(b) Regulatory signs such as "no smoking," "no firearms/weapons," "no trespassing" and the like, and hours of operation, containing no commercial message. The total net area of all such signs on the window shall not exceed three percent (3%) of the total window area.

(c) The net area for Accessory Window signs shall be measured using the method in subs. (1) or (2), accordingly.

(3) The "total window area" shall be one (1) continuous panel of glass or other transparent material, or a set of two (2) or more panels divided by mullions of six (6) inches in width or narrower. Panels surrounded on all sides by solid walls or mullions wider than six (6) inches shall be considered individual windows.

(4) The net area, for purposes of subs. (1) and (2), shall be determined by measuring a box around each group of characters, objects, images, logos and any background material.

(5) For purposes of this section, any banner attached to the outside of a window shall not be considered a window sign.

(6) Illumination. Window signs may be illuminated, subject to Sec. 31.04(5)(k). Window signs that are internally illuminated and flashing are prohibited.

(7) Other Window Signs Prohibited. Window signs other than those expressly allowed under this section (Sec. 31.10) or expressly permitted or allowed elsewhere in this code (ch. 31) shall be prohibited, and no permit shall be issued for a window sign in violation thereof.
(Am. by ORD-15-00118, 10-28-15)

31.101 TEMPORARY DECORATIVE WINDOW COVERINGS.

The City recognizes the value of improving the visual appearance of the streetscape in the Downtown Core (DC) and Urban Mixed-Use (UMX) districts by allowing temporary decorative coverings on the window of a vacant storefront or tenant space. This promotes the city's substantial interests in improving the aesthetics and safety for businesses and individuals in the downtown area by creating visual interest, providing information about community activities, as well as shielding the view of the interior of the vacant property. Therefore, the Zoning Administrator may issue a permit for a temporary decorative window covering in the Downtown Core and UMX districts, subject to the following:

(1) The building or tenant space associated with the window must be vacant.

(2) The window covering shall include only the following elements:

(a) Decorative design with no text or logo, displayed for the purpose of adding color and interest to the building.

(b) A noncommercial message displayed to call attention to cultural events, charity campaigns or neighborhood-association sponsored activities occurring in the Central Area as defined in Chapter 28.

(3) The window covering may be displayed only on glass or transparent panels, shall be flush with the window surface, and may cover up to one hundred percent (100%) of the total window area as defined in Sec. 31.10(3). If displayed on the outside of the window, the window covering shall be of a weatherproof material and application that resists peeling.

(4) The permit issued for a decorative window covering shall be issued for a maximum of six (6) months or until the building or tenant space associated with the window is occupied, whichever is shorter. Such permit may be renewed if the building or tenant space continues to be vacant.

(5) Temporary decorative window coverings under this section shall not be considered "window signs" under Sec. 31.10.

(Sec. 31.101 Cr. by ORD-14-00159, 10-15-14)

31.11 ADVERTISING SIGNS.

(1) Existing advertising signs are nonconforming and permitted to remain only in CC-T, CC, TE, SE, IL, IG Districts as regulated in this section, subject to the nonconforming advertising signs provisions of Sec. 31.05(2). Notwithstanding any other provision of these ordinances, new, relocated and replacement advertising signs are prohibited, except advertising signs that are realigned pursuant to Sec. 31.05(2)(c) and Wis. Stat. § 84.30(5r) (as created by 2011 Wis. Act 32) and Replacement Advertising Signs under Sec. 31.112, MGO. (Am. by ORD-15-00069, 6-24-15)

(2) General Regulations for Advertising Signs.

(a) In addition to the regulations in this subsection, advertising signs shall conform to all other provisions of this chapter except size, height, setback and signable area regulations which apply only to other signs.

(b) Advertising signs, and their supporting structures if other than a wall sign, shall be spaced at intervals of not less than three hundred (300) feet when viewed from one directional flow of street traffic.

(c) Reserved For Future Use.

(d) An advertising sign that is a wall sign shall not exceed three hundred (300) square feet in area and shall not project beyond the limits of the facade on which it is located. Advertising signs displayed as a wall sign may be illuminated subject to Sec. 31.04(5)(k).

(e) No advertising sign that is a ground sign shall exceed three hundred (300) square feet in area, except that any advertising sign which is located on a zoning lot with frontage on a street on which the speed limit exceeds forty-four (44) miles per hour, provided that such advertising sign conforms to all other provisions of this chapter, may be as large as seven hundred and fifty (750) square feet in area. Advertising signs displayed as a ground sign may be illuminated subject to Sec. 31.04(5)(k).

(f) No advertising sign shall exceed thirty (30) feet in height except that a design extension may exceed the permitted height limit by no more than eight (8) feet, provided the sum total of the area of all such extensions does not exceed seventy-eight (78) square feet in area. The total sum of the area of all design extensions in excess of thirty (30) feet in height shall be determined by calculating the area of the smallest square or rectangle, the sides of which are perpendicular to the ground that encompasses all such design extensions. In no case shall any design extension which protrudes from the top edge of an outdoor advertising sign exceed eight (8) feet in height even where the height of the main or principle portion of the outdoor advertising sign is less than thirty (30) feet. In the event this provision relating to extensions is amended or repealed, any extensions permitted hereunder shall be promptly lowered in height or removed, accordingly, by the owner, at no cost to the City.

(g) The following setbacks for advertising signs are required, except for advertising signs realigned under Sec. 31.05(2)(c):

1. An advertising sign situated parallel to the right-of-way line must be set back a distance equal to its height.
2. An advertising sign perpendicular, or nearly so, to the street right-of-way line must be set back three (3) feet from the property line.

(h) Roof or above-roof advertising signs shall not be permitted.

(i) No advertising signs are permitted in districts of special control.

(j) No advertising signs are permitted on lots on which dwelling units are located, except caretakers' or guards' dwelling units shall be permitted on the same lot with advertising signs.

(k) No advertising signs shall be permitted on the front facade of any building.

(l) No advertising sign shall be located in any required front yard or in the last ten (10) feet of any required rear yard, except for advertising signs realigned under Sec. 31.05(2)(c).

(m) No advertising sign shall be located on any zoning lot occupied by a nonconforming use.

(n) Any design extension that causes an advertising sign to exceed its total permitted square footage of area is strictly prohibited.

(o) Replacement Advertising Signs. As defined in Sec. 31.112, a "Replacement Advertising Sign" is a temporary permitted sign distinct from an Advertising sign. Sec. 31.11 controls Advertising Signs and Sec. 31.112 controls Replacement Advertising Signs. The requirements of Sec. 31.11 shall apply to any Replacement Advertising Sign erected pursuant to Sec. 31.112, except where expressly stated otherwise in that section. (Cr. by ORD-15-00069, 6-24-15)

31.112 ADVERTISING SIGN BANK AND REPLACEMENT ADVERTISING SIGNS.

(1) If the owner of an existing advertising sign permanently removes a lawfully existing advertising sign eligible for replacement under sub. (2) below, the net area of each sign face removed may, at the owner's request, be added to an "Advertising Sign Bank" for that owner. The net area banked by the owner will be available to construct a Replacement Advertising Sign ("RAS") that may be displayed for up to fifty (50) years, as set forth in this section.

(2) Eligibility. The following criteria must be met for an existing advertising sign to be eligible for banking under this section:

(a) The advertising sign must have been in existence within the boundaries of the City of Madison on February 2, 2015 or earlier. Signs that come into the City by annexation or attachment after February 2, 2015 are not eligible to be banked.

(b) Redevelopment. The process established in this ordinance is only available for an advertising sign to be removed from a property that is scheduled for redevelopment, if the redevelopment includes all of the following:

1. Removal of improvement(s) other than the existing advertising sign;
2. Construction of new improvement(s) other than an advertising sign, as evidenced by the issuance of a building permit or zoning certificate for the new improvement(s); and
3. The advertising sign must be removed because the sign is located in the same physical space where a new improvement (other than another advertising sign) will be constructed, or adjacent to a new improvement such that proximity of the existing sign would result in a building code violation.

(c) Advertising Sign Replacement not Considered Redevelopment. Removal of an existing advertising sign and construction of a replacement advertising sign on the same site shall not be considered "redevelopment" under this subsection and is prohibited.

(d) Redevelopment projects that have been approved for a demolition permit by the Plan Commission prior to the effective date of this Sec. 31.112 are not eligible to have existing advertising signs banked.

(3) Definitions. For purposes of this section:

"Owner" means the lawful owner of the existing advertising sign to be removed as of the date of actual removal of the existing advertising sign.

"Remove" means the complete removal of the entire "sign" as defined in Sec. 31.03(2).

"Replacement Advertising Sign" or "RAS" means a new, lawfully-permitted temporary sign meeting the definition of "Advertising Sign" in Sec. 31.03(2), but modified by and authorized under the requirements of this section. Replacement Advertising Signs are permitted for a maximum of fifty (50) years. This section shall in no way modify the requirements for an Advertising Sign under Sec. 31.11.

(4) Advertising Sign Bank.

(a) One-hundred percent (100%) of the net area of each sign face removed from a lawfully pre-existing advertising sign may be banked.

(b) Procedure. An owner wishing to bank square footage under this ordinance shall file written notification of intent to remove an existing advertising sign with the Zoning Administrator not less than ten (10) business days prior to the intended date of removal. The written notification shall include the address of the zoning lot where the existing sign is located, information regarding the intended redevelopment and approximate date for commencement of construction, and description of the existing sign. The Zoning Administrator shall measure the net area of the existing sign prior to removal. The owner shall notify the Zoning Administrator when the existing sign has been removed so the Zoning Administrator can verify its removal and when a building permit has been applied for on the property in question. Square footage may not be banked until a building permit or zoning certificate for new improvement(s) on the property in question has been issued, the Zoning Administrator gives his or her written approval to bank the square footage.

(c) The Zoning Administrator shall maintain an Advertising Sign Bank for each owner so requesting and who meets the requirements herein. The Advertising Sign Bank will include information about the removed sign including the zoning

district, whether the sign was in an Urban Design District and any other information the city deems pertinent. The Zoning Administrator shall draw down an Owner's Advertising Sign Bank when a Replacement Advertising Sign permit is issued.

(d) Failure to complete the installation of a Replacement Advertising Sign within six (6) months of issuance of the sign permit shall cause the permit to expire, per Sec. 31.041(4), and the owner will lose the banked square footage associated with that permit.

(e) Banked square footage expires on the sunset date in sub. (7) herein.

(f) Banked square footage may be banked only by the owner of the lawfully-existing removed sign and is not transferrable under any circumstances including but not limited to a transfer by assignment, merger, acquisition, etc.

(g) If a Replacement Advertising Sign is installed in violation of any requirement of the permit for such sign, said permit shall become null and void, the sign shall be immediately and permanently removed, and the banked square footage for that sign permanently forfeited.

(5) Procedure to Install a Replacement Advertising Sign.

(a) The owner must have accumulated the corresponding amount of unexpired banked square footage in the Owner's Advertising Sign Bank to construct the RAS in question, before applying for an RAS permit.

(b) A complete application and permit fee meeting all the requirements for an advertising sign permit under this chapter shall be filed by the owner and reviewed for compliance with this ordinance and according to applicable procedures for the issuance of sign permits established in this chapter. The application shall also include a written agreement to remove the RAS within fifty (50) years of its installation date as required by sub. (6)(f) herein.

(c) Common Council Review. Prior to approving and issuing a permit for an RAS, the Zoning Administrator or designee shall provide written notice to the alderperson of the district where the RAS is proposed to be placed. That alderperson may request a review by the Common Council within fourteen (14) calendar days of the date of the written notice by notifying the City Clerk in writing of the request for review. The Clerk shall place the matter on the next available Council agenda for review, wherein the Council shall consider whether the proposed RAS will substantially impair or diminish the established uses, values or enjoyment of the property in question or any immediately adjacent property. A two-thirds (⅔) vote of the Common Council shall be required to prevent the issuance of an RAS permit, based upon a finding of the foregoing criteria. Any person aggrieved by the decision of the Common Council may, within thirty (30) days after the decision is published in the proceedings of the Common Council, commence an action seeking the remedy available by certiorari. This Sec. 31.112(5)(c), "Common Council Review," shall be ineffective as of a date two (2) years from the effective date of this ordinance.

(6) Replacement Advertising Sign Criteria. A Replacement Advertising Sign shall conform to the requirements for Advertising Signs in Sec. 31.11(2), "General Regulations for Advertising Signs" except:

(a) Permitted Zoning Districts. Replacement Advertising Signs are permitted only in the CC-T, CC, TE, SE, IL, and IG zoning districts and only such districts or portions of such districts that are not located in a Prohibited Location listed in sub. (5)(b), below. A Replacement Advertising Sign may be located in "Annexed Lands" as described in Sec. 31.13(8), if the annexed land is in a zoning district listed in this paragraph and not a Prohibited Location under Sec. 31.112(5)(b) herein.

(b) Prohibited Locations. No RAS shall be constructed in an Historic District or on a Landmark building or Landmark site, as defined in Chapter 41, an Urban Design District listed in Sec. 33.24, in the geographic area described in Sec. 31.05(2)(a) or in the No Advertising Sign District described in Sec. 31.13(6). (Am. by ORD-15-00072, 7-29-15)

(c) Height. The height of a Replacement Advertising Sign displayed on the ground shall not exceed thirty (30) feet, measured using one of the following two methods:

1. From the top of the sign to the approved grade at the base of the supporting structure, or
2. If the base of the sign's supporting structure sits below the elevation of the adjacent roadway, the height may be measured from the top of the sign to the highest elevation of any roadway surface within the highway right-of-way directly adjacent to the zoning lot where the RAS is to be located, except an on-ramp, off-ramp, overpass or pedestrian bridge is not eligible for this measurement. The point at which the elevation of the eligible roadway is measured shall be determined by drawing a line from the base of the sign to the roadway that bisects the roadway at a right angle.

(d) Setback, Residence Districts.

1. Replacement Advertising Signs shall be set back not less than three (3) feet and not more than one hundred (100) feet from any property line.
2. No RAS shall be erected within one hundred (100) feet of any property line of a residential zoning district or the lot line of any property containing a residential use.

(e) Net Area. For a Replacement Advertising Sign displayed as a ground sign, the maximum net area of the sign face shall be as set forth in Sec. 31.11(2)(e), with a maximum of two (2) sign faces per structure. If displayed as a wall sign, the maximum net area shall be as set forth in Sec. 31.11(2)(d).

(f) Fifty-year Permit. All RAS permits shall expire fifty (50) years from the date of issuance by the City. Any RAS installed under this section shall be removed within fifty (50) years of the date the permit is issued and the permit holder shall agree to do so, in writing, as a condition of the permit. This obligation to remove the sign shall continue with any change of ownership of the sign or the property where the sign is located. No person shall allow a Replacement Advertising Sign to remain erected for more than fifty (50) years from its installation date.

(7) Sunset Clause. Section 31.112(5)(c), "Common Council Review," shall be ineffective as of a date two (2) years from the effective date of this ordinance. The remainder of this ordinance, Sec. 31.112, MGO, and all related cross references as determined by the City Attorney, shall be ineffective as of a date eight (8) years from its effective date and any unused, unexpired banked square footage in an Advertising Sign Bank shall expire as of the eight-year sunset date. Notwithstanding the foregoing, sub. (4)(g), all of sub. (6), "Replacement Advertising Sign Criteria," and any other provision establishing criteria for a Replacement Advertising Sign shall survive the sunsetting of this ordinance for purposes of enforcement.

(Sec. 31.112 Cr. by ORD-15-00069, 6-24-15)

31.115 OFF-PREMISE DIRECTIONAL SIGNS

(1) Off-Premise Directional Signs, as defined in Sec. 31.03(2) are permitted only in the CC-T, CC, TE, TSS, NMX, AP, SE, IL, IG Districts, in compliance with the following:

(a) No off-premise directional sign shall exceed sixteen (16) feet in height or thirty-two (32) square feet in gross area.

(b) Not more than one (1) off-premise directional sign shall be located on any zoning lot.

(c) The following setbacks for off-premise directional signs are required:

1. An off-premise directional sign situated parallel to the highway right-of-way must be set back a distance equal to its height.
2. An off-premise directional sign perpendicular, or nearly so, to the highway right-of-way must be set back three (3) feet from the property line.

(d) An off-premise directional sign cannot be the principal or sole use of land on the zoning lot where the off-premise sign is proposed to be displayed.

31.12 CHANGEABLE COPY SIGNS.

Changeable Copy Signs are permitted as follows:

(1) Manual Changeable Copy Signs. Manual Changeable Copy Signs are permitted in any zoning district where business or identification signs are permitted, provided that:

(a) The changeable copy is integral to a business or identification sign.

(b) The total gross and net area of the entire sign (as applicable) does not exceed the maximum for the type and location of sign upon which the changeable copy is displayed, as provided elsewhere in this ordinance.

(c) The characters forming the changeable copy message shall be of one color.

(2) Electronic Changeable Copy Signs. Electronic Changeable Copy Signs are permitted according to Sec. 31.046(1).

MISCELLANEOUS

31.13 DISTRICTS OF SPECIAL CONTROL FOR PURPOSES OF SIGNS.

The following districts shall be considered "Districts of Special Control" for the purposes of this Ordinance. The provisions of this Ordinance shall apply to all signs within such districts except as stated below:

(1) Historic Districts and Landmarks. The requirements of this Chapter shall apply to all signs to be displayed in an historic district, on a landmark, or a landmark site, as defined in Sec. 41.02, MGO. In addition, all applications for a sign permit in an historic district, on a landmark, or a landmark site shall be reviewed and approved by the Landmarks Commission pursuant to applicable procedures in the Historic Preservation Ordinance, Chapter 41, MGO, including Sec. 41.18(3) regarding a certificate of appropriateness for signs. In the event of a conflict between this section and Chapter 41, the more strict provision shall apply. (Am. by ORD-15-00117, 10-28-15)

(2) Urban Design Districts. Sec. 33.24, MGO, permits the City to designate Urban Design Districts. This chapter shall apply to Urban Design Districts, however the Urban Design criteria for any such district may include specific sign regulations that shall supersede the provisions of this ordinance.

(3) Mixed-Use Center District (MXC). In the Mixed-Use Center District, all signs shall be approved through the Comprehensive Design Review process in Sec. 31.043(4).

(4) Planned Development District (PD).

(a) All requests for sign permits in a Planned Development district shall be made to the Zoning Administrator. The Zoning Administrator shall compare the proposed PD to similar developments (if any) in conventional zoning districts and select an equivalent conventional zoning district under Chapter 28 to use for purposes of applying the regulations of this chapter to the PD. Factors to be considered when selecting the zoning district shall include: location, characteristics, uses, building forms, and design of the proposed PD and its relationship to abutting land uses. Once selected, the requirements of this Chapter for the selected zoning district shall apply to all signs in the PD and the permit requirements under Sec. 31.041

shall apply. The Zoning Administrator's selection of a zoning district is appealable under Sec. 31.043(1) only by the applicant or the alder of the aldermanic district of the proposed PD.

(b) Treatment of Signs with Pre-Existing PD Sign Package. A PD with a sign package approved prior to the effective date of this ordinance (ORD-15-00117) may continue to display signs approved therein. As of the effective date of this ordinance, the following sign applications shall require a new review under sub. (4)(a) above:

1. A new sign, not included in the previously-approved sign package for the PD.
2. Replacement of an existing sign that was previously approved for the PD.
3. Change of copy on an existing sign previously approved for the PD.
4. Installation of a sign included the PD's approved sign package but not installed.
5. Any other alteration to a previously-approved PD sign package.

(c) Alterations of an Approved PD Sign Package. Applications for a new sign or modification to a sign package approved under sub. (4)(a) above shall be made to the Zoning Administrator and referred to the Secretary of the UDC for review under Sec. 33.24(4)(b) and (4)(g)2. Any approved modifications to the sign package shall be recorded by the Zoning Administrator using the procedure in sub. (d) below. Alterations to a sign package approved under this procedure are not subject to the process for an alteration to the PD under Sec. 28.098(6).

(d) Enforcement. The selection of a zoning district and final decision on each sign permit under sub. (a) shall be made a part of the approved recorded General Development Plan (GDP) or Specific Implementation Plan (SIP) for the PD and shall be, along with the recorded plan itself, construed to be and enforced with the full force and effect as this ordinance. The sign package shall be recorded by the Zoning Administrator along with the GDP or SIP. No person shall display any sign within a Planned Development District in violation of the GDP or SIP or this section.

(Am. by ORD-15-00117, 10-28-15)

(5) Planned Mobile Home Park District. The same regulations shall apply as those regulating signs in the PD district in Sec. 31.13(4), above.

(6) No Advertising Sign District. The No Advertising Sign District is the area bounded by Lake Mendota on the North, Lake Monona on the South, Livingston Street on the East and Park Street from Lake Mendota to Dayton Street to Bedford Street to Lake Monona on the West. This district is of special importance historically and includes past, present and future redevelopment projects representing significant public and private investments. Under Sec. 31.11(2)(i), there shall be no advertising signs permitted in Districts of Special Control.

(7) Employment Campus District (EC). In the Employment Campus District, all signs shall be approved through the Comprehensive Design Review process in Sec. 31.043(4).

(8) Annexed Lands. Lands annexed to the City after November 30, 1987 shall be considered a district of special control. Under Sec. 31.11(2)(i), there shall be no advertising signs permitted in Districts of Special Control.

(9) DC Downtown Core and UMX. In the DC Downtown Core and UMX districts, all signs shall conform to the "Downtown Urban Design Guidelines" published by the Urban Design Commission and referenced in Sec. 28.074, in addition to the provisions of this ordinance. The procedure for review of signs in the DC Downtown Core and UMX districts is set forth in Sec. 33.24(4)(g)4.d. (Duties of the Secretary). (Am. by ORD-15-00117, 10-28-15)

(10) Violation of Sign Regulations in a District of Special Control. In addition to the prohibitions found elsewhere in this Ordinance, no person shall display, permit or maintain a sign in a District of Special Control in violation of this section.

31.14 REGULATION OF SIGNS IN GROUP 1 DISTRICTS.

(1) The purpose of this section (31.14) is to describe the types of signs that may be displayed in all Group 1 districts. Sec. 31.14(2) provides general restrictions; Secs. 31.14(3) and (4) describe the type of signs and restrictions depending on the specific zoning district in question. Sec. 31.15(3), "Table 3," also applies to all signs in Group 1. In no case shall any of the signs described in Secs. 31.06 through 31.12 (including as listed in Table 1 or Table 2) be displayed in a Group 1 district unless expressly allowed by this Sec. 31.14 or elsewhere in this Chapter.

(2) General Requirements for all Signs in Group 1.

(a) All signs are to be displayed on a wall or on the ground, and limited to one (1) sign per street frontage, unless otherwise expressly stated herein or Table 3.

(b) All signs require a permit unless exempt from permit in Sec. 31.044.

(c) All signs shall be nonilluminated unless expressly stated otherwise.

(d) No sign shall violate the provision for vision clearance under Sec. 27.05(2)(bb).

(e) Signs displayed on the zoning lot of any non-residential use allowed as a conditional use in the Conservancy, Agriculture, and Urban Agricultural districts shall follow the provisions of this chapter that apply to the Group 2 districts.

(f) Existing nonconforming non-residential Uses in a Residential district shall follow applicable sign requirements for the Group 2 districts.

(3) The following signs may be displayed in the Agricultural (A), Urban Agricultural (UA), and Conservancy (CN) Districts, and all districts classified as Residential in Sec. 28.021 (except for DR1 and DR2), as described below and in Table 3.

(a) Identification Signs.

1. Single Family or 2-Unit Residential Buildings. A maximum of one (1) identification sign per dwelling unit, or two (2) per unit on a corner or through lot, one (1) per street frontage, may be displayed. The identification sign shall not exceed two (2) square feet in net area, and shall be limited to the name of the building occupant or management, address of the building, and any legal home occupation or handicapped home occupation. Signs under this paragraph shall be wall signs only, and are exempt from permit under Sec. 31.044.

2. Multiple Family Dwellings, Apartment Hotels, Fraternity and Sorority Houses and Lodging Houses. A maximum of one (1) identification sign per dwelling unit, or two (2) per unit on a corner or through lot, one per street frontage, may be displayed. The identification sign shall not exceed three (3) square feet in net area, and shall be limited to the name of the building occupant or management, address of the building, and any legal home occupation or handicapped home occupation. If any occupant of the building has a legal home occupation or handicapped home occupation, one (1) additional sign of two (2) square feet in net area may be displayed for each such occupation in addition to the identification sign allowed under this paragraph. Signs under this paragraph shall be wall signs only, and are exempt from permit under Sec. 31.044.

3. Nonresidential Buildings. For nonresidential buildings, a maximum of one (1) identification sign or two (2) per unit on a corner or through lot, one (1) per street frontage, may be displayed. The identification sign shall not exceed six (6) square feet in net area and shall be limited to the name of the

building occupant or management, address of the building, and any legal home occupation or handicapped home occupation. Signs under this paragraph shall be wall signs only.

4. Height. No identification sign shall be higher than one (1) story or twelve (12) feet above curb level, whichever is lower.

(b) Real Estate Signs. Real Estate signs in Group 1 districts shall be allowed under Sec. 31.044, except that on a lot abutting a waterway, up to two (2) real estate signs, one (1) facing the street and one (1) facing the waterway, shall be allowed, and the height shall be restricted to no higher than one (1) story or twelve (12) feet, whichever is lower. Signs under this paragraph are exempt from permit under Sec. 31.044.

(c) Noncommercial Signs. Noncommercial signs may be displayed in addition to the other signs allowed herein, as an Exempt Sign under Sec. 31.044. See also Sec. 31.04(1)(c) regarding noncommercial messages on permitted signs.

(d) Parking Lot Directional and Parking Lot Regulation Signs. The following may be displayed and are exempt from permit under Sec. 31.044:

1. Area and Number. Parking Lot Directional Signs, designating parking area entrances or exits are limited to one (1) sign for such exit or entrance, and to a maximum net area of three (3) square feet each. One (1) Parking Lot Regulation sign per parking area, designating the conditions of use or identity of such parking area and limited to a maximum area of nine (9) square feet, shall be permitted. Two (2) Parking Lot Regulation signs, one (1) facing each street, shall be permitted on a corner zoning lot or a through lot. No sign shall project beyond the property line into the public way.

2. Height. No sign shall project higher than ten (10) feet above curb level.

3. Setback. Signs under this paragraph shall be setback at least three (3) feet.

(e) Church, Hospital, School and Residential Building Complex-Dwelling Signs. (Am. by ORD-13-00134, 8-14-13)

1. Identification Signs for Churches, Hospitals, Schools and Residential Building Complex-Dwelling. (Am. by ORD-13-00134, 8-14-13)

a. Area and Number. One (1) wall and one (1) ground signs per street frontage may be displayed; identifying the entity, with a maximum of two ground (2) signs and two (2) wall signs per zoning lot. Additional wall or ground signs for wayfinding purposes may be permitted when approved by the Urban Design Commission when the zoning lot is occupied by two (2) or more of the uses described above and the size of the lot, number of vehicular and pedestrian entrances, and layout of the buildings require additional signs for wayfinding purposes in order to promote traffic and pedestrian safety. Signs under this paragraph, whether displayed on a wall or the ground, shall not exceed twelve (12) square feet in net area nor be closer than ten (10) feet to any lot line, except such signs may be increased in net area by one (1) square foot for each additional foot that the sign set back more than twelve (12) feet from the street lot line. No sign under this section shall exceed thirty-two (32) square feet in net area.

b. Height. No identification sign shall project higher than one story, or twelve (12) feet above the curb level, whichever is lower.

2. Electronic Changeable Copy Sign for High Schools. A high school may include an Electronic Changeable Copy feature meeting the criteria of Sec. 31.046(1) on an identification sign allowed under Sec. 31.14(3)(e)1. above, if approved by the Urban Design Commission as an Additional Sign Code

approval under Sec. 31.043(3). For purposes of this paragraph, a "high school" is a public or private high school as defined in Wis. Stat. §§ 115.01(1) and 115.001(3r), but does not include a junior high school as defined in Wis. Stat. § 115.01(2). If a high school is on a zoning lot that includes another use, including another school, the sign shall be located and designed in such a way that it is clearly for the use of the high school only.

(f) Project Signs (Non-illuminated).

1. A sign describing a construction or improvement project, including the names of the contractors, architects, engineers, owners or occupants, provided that such sign may be in place only during the period that said project is under construction and while valid building permits are in force and further provided that only one such sign may be erected per street frontage, and no such sign shall exceed thirty-two (32) square feet in area.

2. Height and Setback. The maximum height for a project sign under this section shall be eight (8) feet. The minimum setback for a project sign displayed as a ground sign shall be ten (10) feet.

(g) Condominium Identification Signs.

1. A condominium may display condominium identification sign(s) if the total acreage of the property of the condominium, as determined by the legal description within the condominium instruments, is one and one-half (1½) acres or more and the condominium includes eight (8) or more units. For purposes this paragraph, the terms "condominium," "condominium instruments," "property," and "units" shall have the meanings found in Wis. Stat. ch. 703.

2. Number, Area, and Setback. One (1) identification sign on a wall and one (1) sign on the ground per street frontage may be displayed; with a maximum of two signs on the ground and two on the wall, per condominium. Condominium identification signs shall not exceed twelve (12) square feet in net area, except that the UDC may approve a sign of more than twelve (12) but not more than thirty-two (32) square feet under Sec. 31.043(3)(g). The minimum setback for condominium identification sign shall be ten (10) feet.

3. Height. Maximum height for a condominium identification sign under this section is one (1) story or twelve (12) feet above the curb level, whichever is lower.

(4) Signs in the TR-U1, TR-U2, TR-V2, DR1 and DR2 districts shall follow the rules for signs allowed under sub. (3) above, unless otherwise specified below:

(a) For multiple-family dwellings, apartment hotels, fraternity and sorority houses, and lodging houses, a single identification sign, not exceeding twelve (12) square feet in area and indicating only the name and address of the building and the name of the management thereof, may be displayed, provided that on a corner zoning lot, two (2) such signs, one facing each street, shall be permitted.

(b) For nonresidential buildings, a single identification sign, not exceeding twelve (12) square feet in area and indicating only the name and address of the building and the principal occupant may be displayed, provided that on a corner zoning lot, two (2) such signs, one facing each street, shall be permitted. If displayed as a ground sign, the maximum height shall be four (4) feet. See Table 3 for height requirements for wall signs under this paragraph.

(c) For a dwelling located on a lot that is to the rear of another lot and access to the street is only the width of a driveway, one (1) directional sign not exceeding three (3) square feet may be placed in the front yard of the property fronting on the street, and shall be exempt from permit, provided:

1. Permission is obtained from the owner of the property on which the sign is to be located;
2. Only the name, address, and name of management thereof are indicated;
3. A sign permit is obtained prior to the erection of the sign; and
4. The sign does not exceed three (3) feet in height and is a minimum of six (6) feet from the front lot line.

(d) In the UOR and DR2 districts, additional identification signs up to two (2) square feet for accessory use businesses approved as a conditional use in a residential building.

31.15 TABLES OF PERMITTED SIGNS, BY ZONING DISTRICTS.

(1) **Table 1. GROUND, PROJECTING, WALL, ROOF, AND ABOVE-ROOF SIGNS IN GROUPS 2 AND 3.**

Table 1 describes the zoning districts in which the above types of signs may be displayed, and the maximum net area of the signs, as determined by the speed limit and lanes of traffic of the adjacent highway. Each type of sign is further regulated by specific sections within this chapter.

Type of sign: Zoning District:		Pole Signs:				Monument Signs: Above				Projecting 31.09	Wall[3] & Roof 31.07	Above Roof 31.07(3)
		Group 2		Group 3		Group 2		Group 3		Group 2 and 3	Group 2 and 3	IL & IG Only
No of Traffic Lanes	Speed Limit (mph)[1]	Max. Height	Max. Net Area (sq. ft.)[2, 5]	Max. Height	Max. Net Area (sq. ft.)[2, 5]	Max. Ht.	Max. Net Area (sq. ft.)2, 5	Max. Ht.	Max. Net Area (sq. ft.)[2, 5]	Max. Net Area (sq. ft.)	Max Net Area (% of signable area)[4]	Max. Net Area (% of signable area)[4]
2-3 Lanes	0-34 mph	12'	32/64	16'	32/63	8'	32/64	10'	32/64	20'	40%	40%
	35-44 mph	12'	32/64	16	50/100	8'	32/64	10'	50/100	20'	40%	40%
	45+ mph	14'	32/64	16'	72/144	9'	32/64	10'	72/144	20'	40%	40%
4-5 Lanes	0-34 mph	12'	32/64	16'	40/80	8'	32/64	10'	40/80	32'	40%	40%
	35-44 mph	14'	32/64	16'	64/128	9'	32/64	10'	64/128	32'	40%	40%
	45+ mph	16'	32/64	20'	80/16-	10'	32/64	12'	80/160	32'	40%	40%
6+ Lanes	0-34 mph	14'	32/64	16'	48/96	9'	32/64	10'	48/96	32'	40%	40%
	35-44 mph	16'	32/64	18'	72/144	10'	32/64	11'	72/144	32'	50%	40%
	45+ mph	18'	32/64	22'	144/288	11'	32/64	13'	144/288	32'	40%	40%

Table 1 - footnotes:

1. For ground signs on zoning lots with more than one street frontage, use the miles per hour on the street with the faster speed limit to determine the maximum net area allowed.
2. Maximum Net Area of Ground Signs. The first number represents the maximum net area allowed for a single face of a ground sign. The second number represents the maximum combined net area on all faces of all ground signs displayed on a zoning lot, except when additional ground sign(s) are permitted under Sec. 31.08(1)(ab). (Am. by ORD-15-00118, 10-28-15)
3. Wall signs displayed outside the signable area under Sec. 31.07(5) have different maximum net areas. Additional wall signs displayed on large buildings under Sec. 31.07(6) have different signable area and maximum net areas. See Sec. 31.07.
4. The maximum net area for Wall, Roof and Above-roof signs is either forty percent (40%) of the signable area or two (2) square feet of signage for each lineal foot of building frontage. If the net area is measured by lineal feet of building frontage, the total net area of the sign displayed shall not exceed one hundred percent (100%) of the signable area available under Sec. 31.07(2).
5. Per Sec. 31.13(9), Signs in the DC Downtown Core District, shall conform to the "Downtown Urban Design Guidelines" published by the Urban Design Commission and referenced in Sec. 28.074, in addition to conforming to the provisions of this Chapter. May be approved under the Powers of the Secretary to the Urban Design Commission, per Sec. 33.24(4)(g).

(2) **Table 2. MISCELLANEOUS SIGNS IN GROUPS 2 AND 3.**
"Yes" = Permitted in the districts indicated. Sign Permit required.
UDC = Urban Design Commission review/approval required.

(Am. by ORD-13-00134, 8-14-13)

Table 3 - footnotes:

* Maximum Height 4 feet.

* * Additional wall or ground identification signs for wayfinding purposes may be approved by the Urban Design Commission. See Secs. 31.14(3)(e)1. and 31.043(3)(f).

*** Identification Signs, for properties designated Landmarks, shall be permitted as approved by the Plan Commission and the Landmarks Commission when those commissions approve the use. Signs for existing uses may be approved by the Landmarks Commission.

**** Neighborhood and Subdivision Identification Signs - Subject to approval of Director of Planning and Community and Economic Development or her/his designee after notification to Neighborhood Association and Alderperson. A kiosk, public information board or sidewalk showcase may be approved as a Neighborhood Identification Sign per the definition of Neighborhood Identification Sign in Sec. 31.03(2).

31.16 - 31.18 RESERVED FOR FUTURE USE.

31.19 PENALTIES.

Any person, who violates any provisions of this ordinance, permits, allows or continues a violation, or fails to comply with any of its requirements shall, upon conviction thereof, be subject to a forfeiture of not less than thirty dollars ($30) and not more than five hundred dollars ($500), plus applicable costs, for each violation. Each day or portion thereof that a violation continues shall be considered a separate violation.

31.20 SEVERABILITY.

In the event that any section of this ordinance shall be declared or judged by a court of competent jurisdiction to be invalid or unconstitutional, such adjudication shall in no manner affect the other sections of this ordinance, which shall be in full force and effect as if the said section or said sections were not originally a part thereof.

32.17 Self-Help Repairs. (Cr. by ORD-06-001246, 11-2-06)

32.01 STATEMENT OF PURPOSE. Whereas, the City of Madison has a significant tenant population and equitable landlord-tenant relations are a matter of public welfare. It shall be the policy of the City of Madison to encourage communication and resolution of disputes between landlord(s) and tenant(s). While such communication and resolution can and should occur without the direct participation of the City government, this chapter is adopted to establish standards and procedures for use if needed to reach this goal. This chapter is also intended to facilitate collective bargaining between landlords and tenant unions by establishing minimal procedures to be followed in that process. (Cr. by Ord. 6098, 1-6-78)

32.02 RULES AND DEFINITIONS.

(1) Rules.

(a) The rules and definitions contained in this section shall be applied throughout Chapter 32.

(b) (R. by Ord. 10,778, 11-16-93)

(c) All rights of tenants under Chapter 32 shall be nonwaivable.

(2) Definitions.

(a) Authorized Agent. A person empowered by landlord(s), tenant, or tenant union to represent them. The agent need not be a member of the authorizing group.

(b) City financial assistance means any grant, loan, contract, purchase of service agreement or other arrangement by which the City of Madison funds or otherwise makes available assistance to rental housing development, redevelopment or rehabilitation projects in the form of:

1. Monetary funds;

2. Real and personal property or any interest in or use of such property, including:
   a. Transfers or leases of such property for less than the fair market value, or for reduced consideration; and
   b. Proceeds from a subsequent transfer or lease of such property if the City's share of its fair market value is not returned to the City.
3. The sale or lease of, or the permission to use (on other than a casual or transient basis) City property or any interest in such property without consideration or at a nominal consideration, or at a consideration which is reduced for the purpose of assisting the recipient, or in recognition of the public interest to be served by the sale or lease to the recipient;
4. "City financial assistance" includes, but is not limited to, capital revolving fund loans, redevelopment contracts, CDBG, HOME and Affordable Housing Trust Funds, economic development agreements, tax increment financing or financing for blight elimination and slum clearance. City financial assistance does not include funds made available directly to the tenant or a third party as a household subsidy, such as emergency shelter assistance, grant funded security deposits or rental supplements. City financial assistance also does not include any portion of street improvements, including, but not limited to, improvements of sidewalks, lighting, curb and gutter and/or reverse mortgage assistance. (Cr. by Ord. 13,171, 10-29-02)

(c) Earnest Money Deposit. The total of any payments or deposits, however denominated or described, given by a prospective tenant to a landlord in return for the option of entering into a rental agreement in the future, or for having a rental application considered by the landlord. (Cr. by Ord. 7542, 10-22-81; Renumbered by Ord. 13,171, 10-29-02)

(d) Government Housing Subsidies means financial assistance used for tenant based housing purposes including, but not limited to, Section 8 vouchers and certificates (Housing Choice Voucher Program), welfare to work vouchers and any other Section 8 special allocation vouchers. (Cr. by Ord. 13,171, 10-29-02)

(e) Grievance. Any dispute between tenant(s) and landlord over rents or other condition of tenancy.

(f) Guest. Any person present on the leased premises with the consent of the current tenant who is not listed in the lease. (Cr. by Ord. 12,932, 12-11-01)

(g) Landlord. The owner or lessor of a dwelling unit under any rental agreement, and any agent acting on the owner's or lessor's behalf. The term includes sublessors, other than persons subleasing individual units occupied by them. (Am. by Ord. 10,555, 12-11-92)

(h) Owner. One or more persons, jointly or severally vested with all or part of the legal title to the premises or all or part of the beneficial ownership and right to present use and enjoyment of the premises. The term includes a mortgagee in possession.

(i) Person means any individual, partnership, association, corporation, joint venture, limited liability company or partnership, trust, or other entity that may enter into contracts. (Cr. by Ord. 13,171, 10-29-02)

(j) Recipient of City financial assistance means any person, including that person's successors, assignees and transferees. (Cr. by Ord. 13,171, 10-29-02)

(k) Rental Agreement. A written or oral agreement for the rental or lease of a specific dwelling unit or premises, in which the landlord and tenant agree on essential terms of tenancy such as rent. "Rental agreement" includes a lease. "Rental agreement" does not include an agreement to enter into a rental agreement in the future.

(l) Residential Property. This chapter covers any premises which is used for any residential purpose under the terms of a rental agreement.

(m) Security Deposit. The total of all payments and deposits given by a tenant to the landlord in a residential tenancy as security for the performance of the tenant's obligations, and includes but is not limited to all rent payments in excess of one month's prepaid rent, all pet deposits, furniture deposits and key deposits. (Am. by Ord. 10,812, Adopted 1-18-94)

(n) Tenant. A person, occupying ore entitled to present or future occupancy of a mobile home, as defined in Sec. 9.23(1) or residential property under a rental agreement, and includes persons occupying a mobile home or residential property under periodic tenancies and tenancies at will. The term applies to persons holding over after termination of tenancy until removed by Sheriff's execution of a judicial writ of restitution issued under Sec. 799.44, Wis. Stats. It also applies to person entitled to the return of a security deposit or an accounting for the security deposit. (Am. by Ord. 11,724, 12-13-96)

(o) Tenant Union. Any organization which intends to engage in collective bargaining with landlord(s).

(Section 32.02(2) Am. by Ord. 12,533, 2-18-00; Ord. 12,932, 12-11-01)

32.03 LANDLORD AND TENANT ISSUES COMMITTEE.

(1) Creation. There is hereby created a Landlord and Tenant Issues Committee for the City of Madison.

(2) Composition.

(a) The Landlord and Tenant Issues Committee shall consist of seven (7) members plus one (1) resident alternate member appointed by the Mayor and subject to approval by the Common Council. At least one, but not more than two (2) members shall be alderpersons. The other members shall be resident members. Members shall serve without compensation. The members shall elect annually from among their resident members a chairperson and vice-chairperson; however, the initial chairperson shall be selected by the Mayor. In making appointments, the Mayor may consider for appointment a member of the Housing Strategy Committee. (Am. by ORD-14-00047, 3-6-14)

(b) One (1) resident member appointment shall be a representative of a tenant organization, and one (1) resident member appointment shall be a representative of an apartment owner's organization. One (1) resident member will be a student at a Madison area university or college. Because these members are chosen as representatives of certain groups, these members' actions as committee members are exempted from the provisions of Secs. 3.35(5)(a)1. and 3., MGO, solely to the extent that their position or actions affect or may result in a benefit to the groups they represent. (Am. by Ord. 13,309, 4-30-03)

(Am. by ORD-17-00030, 3-8-17)

(3) Terms. All resident members shall be appointed for three year terms, however, the initial terms of four (4) of the resident members shall expire on April 30, 2013. Initial terms of the remaining three (3) resident members shall expire on April 30, 2014. The resident alternate member will have a one- (1) year term. Thereafter, each resident member shall be appointed for a three-year term commencing on May 1st and expiring on April 30th. The term of any alderperson shall expire with the expiration of his or her term in office. (Am. by ORD-17-00030, 3-8-17)

(4) Powers and Duties. The Landlord and Tenant Issues Committee shall have the following powers, duties, and functions:

(a) Serve as a forum for discussion and communication about landlord-tenant issues;;

(b) Make recommendations to the Mayor and the Common Council on all aspects of landlord and tenant policies and issues, including landlord and tenant issues in Chapters 27 and 32 of the Madison General Ordinances; and

(c) Perform the functions formerly exercised by the Rent Abatement Oversight Committee:

1. Adopt such rules and regulations, subject to approval by the Common Council, as may be necessary to carry out the purpose and provisions of the rent abatement process in Sec. 32.04, MGO.
2. Recommend to the Common Council additions to, deletions from, and changes in the Schedule of Rent Impairing Violations in Sec. 32.04(5)(d) as well as other provisions in Chapter 32 that the Committee believes are appropriate for Common Council action.
3. Approve forms for the use of tenants, landlords, the Building Inspection Division of the Department of Planning and Community and Economic Development and Rent Abatement Hearing Examiners to facilitate the rent abatement process in Sec. 32.04, MGO.
4. Institute procedures for the selection of Rent Abatement Hearing Examiners for the setting of a time and place for rent abatement hearings and for the giving of notice thereof to interested landlords and tenants within ten (10) days of the filing of a request for a hearing concerning authorization for rent abatement with the Building Inspection Division of the Department of Planning and Community and Economic Development.
5. Establish criteria and procedures for waiving the ten dollar ($10) filing fee in cases of economic hardship.
6. Maintain statistics on the number of requests for hearings concerning authorization for rent abatement, the number of hearings held and the results thereof including, but not limited to such information as the following:
   a. Whether abatement was granted and, if so, in what percentage.
   b. Where abatement was denied, the specific reason therefor.
   c. The amount of time elapsed between the filing of the request for a hearing and the issuance of a decision.
7. In order to assist in determining the effectiveness of the abatement process and to ensure full enforcement of the abatement ordinance, the Committee shall also maintain additional statistics which may include such other information as the following:
   a. The amount of time elapsed between the initial inspection and authorization for abatement, if any.
   b. Any extensions of time to effect compliance with inspection orders for repairs to residential rental property.
   c. The number of inspection orders forwarded to the City Attorney for prosecution, the date referred and the final disposition of such referrals.
   d. The number of requests to the City Attorney for enforcement of a Hearing Examiner's order or for prosecution for failure to obey same including such information as the date of referral, the action taken by the City Attorney, the date on which final action was taken and the outcome of such action including abatement amounts secured for a tenant and forfeitures imposed.
8. Staff. The Building Inspection Division of the Department of Planning and Community and Economic Development shall provide staff support

for both the Landlord and Tenant Issues Committee and for the Rent Abatement Hearing Examiners and shall receive and retain all documents, reports and records relating thereto.

(5) Meetings. The Landlord and Tenant Issues Committee shall meet once a month and shall conduct its business in accordance with rules which it may establish. The Director of the Building Inspection Division or his or her designee shall provide staff assistance to the Landlord and Tenant Issues Committee, shall serve as its Secretary, but shall not vote. The City Attorney or his or her designee shall furnish the Landlord and Tenant Issues Committee with legal assistance necessary to carry out its functions. (Am. by Ord. 12,882, 8-7-01; Ord. 13,652, 7-7-04; ORD-08-00109, 10-7-08)

(Sec. 32.03 Cr. by Ord. 12,527, 2-10-00; Am. by ORD-12-00076, 6-20-12)

32.035 RESERVED FOR FUTURE USE. (R. by Ord. 13,673, 8-6-04)

32.04 RENT ABATEMENT.

(1) Statement of Intent. The Common Council of the City of Madison hereby finds that in order to insure the proper repair and maintenance of residential buildings within the City of Madison, to prevent the deterioration and neglect of such structures to the protection of the health and safety of the people of Madison and to further enforcement of and compliance with the Building and Minimum Housing and Property Maintenance Codes of the City of Madison, it is necessary, in the case of uncorrected rent impairing violations, that tenants residing in the City of Madison be authorized to abate an appropriate portion of their rental payments under the provisions of this section.

(2) Notice. A list of addresses of rental properties with uncorrected rent-impairing violations shall be published each week in the official City paper within ten (10) days of the reinspection which reveals noncompliance. Such notice shall indicate that the tenants may be eligible for rent abatement and shall state that any such tenant must request authorization to abate rent within thirty (30) days of publication of the notice of eligibility by the Building Inspection Division of the Department of Planning and Community and Economic Development. A copy of the notice shall also be sent by first class mail, addressed to "Occupant" at each rental unit with uncorrected rent-impairing violations, on or before the date of publication of the notice. Together with the copy of the notice there shall be mailed a cover letter including, but not limited to, the following information: Notice of Eligibility to Apply for Rent Abatement - The owner of your apartment has not followed an order from the City of Madison Building Inspection Division to correct Housing Code violations. Because the owner has not complied, you may be able to get a portion of your rent back pursuant to Madison General Ordinances Sec. 32.04. Along with said cover letter, a letter shall also be included with the copy of the notice, which shall include, but will not be limited to, the following information: Notice of Eligibility to Seek Self Help Repair- In addition to seeking rent abatement, because the owner of your apartment has not followed an order from the City of Madison Building Inspection Division to correct Housing Violations, you may have the right to correct these violations and deduct the amount of the repairs from your rent, if you follow the procedures in Madison General Ordinances Sec. 32.17. (Am. by Ord. 11,994, 12-30-97; ORD-06-00146, 11-2-06; ORD-08-00109, 10-7-08)

(3) Definitions.

Affected Applicant. In rent abatement categories where the percentage of rent abatement is expressed as a certain percentage or a certain dollar amount "per affected applicant", abatement applies only to those dwelling units/lodging rooms affected by the violation and only if a tenant therein has applied for rent abatement.

Affected Dwelling Unit or Lodging Room means a dwelling unit or lodging room in which a rent impairing violation exists or a dwelling unit or lodging room in a residential building where a common area violation exists.

Applicant encompasses the total number of eligible tenants residing in a dwelling unit or lodging room where an eligible tenant has applied for rent abatement and not an individual eligible tenant within the unit or room. (Am. by Ord. 9752, Adopted 4-4-89)

Common Area Violation. A condition constituting a rent impairing violation which exists in any part of a residential building or lot not contained within a dwelling unit or lodging room.

Eligible Tenant(s). Any current or former tenant(s) of a landlord of residential premises where the landlord fails to comply with an order of the Building Inspection Division of the Department of Planning and Community and Economic Development to correct a rent impairing violation by the original due date in the orders unless that date is found unreasonable by the Building Board of Examiners and Appeals, provided that the tenant has lived in an affected dwelling unit for some portion of the time period from the date of the initial inspection by the Building Inspector to the close of the fifteen (15) day period during which a request for abatement hearing may be filed. (Cr. by Ord. 9752, 4-4-89; Am. by ORD-08-000109, 10-7-08)

Per Fixture means per affected appliance regardless of how many separate rent impairing violations may affect that appliance.

Only Facility means the only appliance of its kind in the dwelling unit or lodging room.

Provider Agency means any governmental agency or private social services agency which by contract provides rental assistance on behalf of low-income tenants where such assistance payments are paid directly to the landlord. (Cr. by Ord. 11,339, 8-25-95)

Rent Impairing Violation. A rent impairing violation within the meaning of this section shall designate a condition in a dwelling unit, lodging room or other area of a residential building or lot which constitutes or, if not promptly corrected, will constitute a fire hazard or a threat to the health or safety of occupants thereof. Such conditions include but are not limited to those which involve deficiencies in security, heating, electricity and/or plumbing.

Successor Tenant(s). Any individual(s) who become(s) a tenant in a dwelling unit or lodging room where a prior tenant was authorized or is in the process of being authorized to abate rent pursuant to Sec. 32.04 and where, at the time the tenancy of the successor tenant commences, there exists an uncorrected rent impairing violation which was determined or is in the process of being determined by a hearing examiner to be abatable.

Anyone who succeeds a successor tenant is also a successor tenant, provided that at the time her/his tenancy commences there exists an uncorrected rent impairing violation for which abatement was authorized.

(Cr. by Ord. 9752, Adopted 4-4-89; Sec. 32.04 Renumbered from former Sec. 32.06 by Ord. 12,533, 2-18-00; Sec. 32.06(3) R & ReCr. from former Sec. 32.06(4)(b) by Ord. 11,339, 8-25-95)

(4) Authorization of Rent Abatement.

(a) Eligibility. Notwithstanding any other provision of law or any agreement, whether oral or written, tenants and provider agencies shall be eligible to abate a portion of the total rental payments, in accordance with this section and pursuant to the order of a Rent Abatement Hearing Examiner or by written agreement of the parties, if the landlord of the residential premises fails to comply with an order of the Building Inspection Division of the Department of Planning and Community and Economic Development to correct by the original due date, unless such due date is found to be unreasonable upon appeal to the Board of Building Code, Fire Code, Conveyance Code and Licensing Appeals pursuant to Sec. 29.18(3) of the Madison General Ordinances, a violation which is "rent impairing" as that term is defined in Sec. 32.04(3).

Any such order of the Building Inspection Division shall specifically state that uncorrected violations may be eligible for abatement in addition to any other

penalties provided by law. A tenant's eligibility to abate rent shall apply only to the eligible tenant(s) or successor tenant(s) upon whose rented premises the uncorrected rent impairing violation exists or to any eligible tenant(s) or successor tenant(s) in a building with an uncorrected rent impairing violation in a common area. A provider agency's ability to abate rent shall apply only to provider agencies which pay or have paid a portion of an eligible tenant's rent while an uncorrected rent-impairing violation exists on the premises or common area of the eligible tenant's building. Where an award is made and rent has been paid by both a tenant and a provider agency, the tenant's portion of the award shall be up to but not greater than the amount of rent the tenant has paid. Where the award amount is less than or equal to the amount of rent the tenant paid, the tenant shall receive all of the award. No rent may be abated pursuant to this ordinance until abatement is ordered by the Rent Abatement Hearing Examiner or authorized by written agreement between the parties. (Am. by Ord. 11,960, 11-4-97; ORD-08-00109, 10-7-08; ORD-09-00019, 3-14-09)

(b) Other Remedies. The right of a tenant to abate a portion of the rent as established by this section shall not preclude or affect in any way the tenant's right to abate under Chapter 704 of the Wisconsin Statutes; nor shall it preclude or affect in any way the tenant's or landlord's right to any of the remedies provided by the laws of the State of Wisconsin and the Madison General Ordinances pertaining to the relationship of landlord and tenant. (Cr. by Ord. 11,339, 8-25-95)

(c) Designation of Rent Impairing Violations. The Common Council shall, after notice and public hearing, adopt a list of violations of the provisions of chapters 18, 19, 27, 28, 29 and 30 of the Madison General Ordinances to be classified as "rent impairing" as above defined. Said list shall contain a brief description of the condition constituting the violation, the section of the ordinances violated and the percentage range of possible rent abatement. The Landlord and Tenant Issues Committee may at any time recommend a change in the number of violations, their descriptions or the percentage of possible rent abatement for a particular violation but no such change shall be made except in the manner set forth above. (Am. by Ord. 11,339, 8-25-95; ORD-12-00076, 6-20-12)

(d) Schedule of Rent Impairing Violations. A tenant authorized to abate rent shall do so in accordance with the following schedule with the precise amount to be set by the Rent Abatement Hearing Examiner after notice and hearing pursuant to Sec. 32.04(4)(c). The maximum total abatement authorized pursuant to this ordinance shall not exceed ninety-five percent (95%) of the periodic rental payment, except where the premises have been vacated pursuant to an order of the Director of the Building Inspection Division of the Department of Planning and Community and Economic Development or pursuant to any other tenant right to remove from residential rental premises secured under Wisconsin law. (Am. by ORD-08-000109, 10-7-08)

MGO Violation	Description	% of Rent Abatement
1. 27.04(2)(a) [27.05(2)(j)]	a. Kitchen sink or lavatory basin i. Not provided or missing	10-25% 24-48 hrs 25% More than 48 hrs 50-95%
	b. Flush water closet i. Not provided or missing	Not only facility 5-10% Only facility 25-50%
	c. Bathtub or shower i. Not provided or missing	Not only facility 5-10% 24-48 hrs 25%
	d. Water pressure/volume i. None ii. Inadequate	More than 48 hrs 50-95% 10-25%
2. 27.04(2)(b) [27.05(2)(j)]	a. Hot water tank i. Not provided or totally not functional	25-50%
	ii. In need of repair to the extent that supply is inadequate or water is consistently below 100°F.	10-25%
	iii. Consistently does not provide 120° water but above 100°	5-10%
	iv. Tank leak - See Basement Water and Moisture Problems	
3. 27.04(2)(c)	a. Garbage and refuse storage facilities i. Adequate storage not provided	1-5%
4. 27.04(2)(d) [27.05(2)(i)] [27.05(2)(h)]	a. Required exit i. Not provided or totally unusable	10-25% per exit
	ii. Partially usable	5-10% per exit
	iii. Blocked by accumulation of stored items, junk, trash or debris A. totally B. partially	 10-25% per exit 5-10% per exit
	iv. Other impairment of exit use, i.e., double cylinder lock, skeleton keyed lock, movable furniture obstructing exit path Note: Repairs to components of an exit system (e.g., doors, stairs, porches, handrails, guardrails) where the exit remains in use should abate under repair categories.	1-5% per exit

MGO Violation	Description	% of Rent Abatement
5. 27.04(2)(f)	a. Natural light or ventilation	
	i. Not provided in one or more rooms	10-25% per room
	ii. Inadequate light or ventilation	5-10%
6. 27.04(2)(f) [27.07(2)(c)]	a. Screens	
	i. No screens provided or all screens in need of repair	10-25%
	ii. Not all screens provided and/or some screens in need of repair	5-10%
7. 27.04(2)(g) [27.04(2)(g)] [27.04(2)(i)]	a. Electrical service and wiring	
	i. No electricity	24-48 hrs 25% More than 48 hrs 50-95%
	ii. Inadequate electrical service (that part of the wiring system that starts where utility wires end and ends with and includes the main fuses) (substantially limits usage or presents potential hazard)	10-25%
	iii. Inadequate branch circuits	5-10%
	iv. Unfused circuits (the use of unfused circuits must be discontinued)	10-25%
	v. Overfused circuits	5-10%
	vi. Exposed wires, damaged or bare, presenting shock hazard	5-10%
	vii. Convenience outlets not provided, not functional, not proper number, not proper installation (one or more outlets)	5-10%
8. 27.04(2)(g) [27.04(2)(g)4.] [27.04(2)(g)5.]	a. Lighting	
	i. Required light switches not functioning or not provided	1-5%
	ii. Public halls and/or stairs not lit	1-5% per affected applicant
	iii. Outside entrance doors and/or required parking areas unlit	1-5% per affected applicant
9. 27.04(2)(h)	a. Heat	
	i. No heat or consistently below 55°	24-48 hrs 25% More than 48 hrs 50-95%
	ii. Inadequate (55-66°) or occasionally inadequate	10-25%
10. 27.04(2)(i) [27.04(2)(g)]	a. Required exit signs	
	i. Missing or not lit	1-5% per sign

MGO Violation	Description	% of Rent Abatement
11. 27.05(2)(a)	a. Improper grading and/or no eaves troughs and/or downspouts	
	i. Not causing basement or ground floor water or moisture problems	No Abatement
	ii. Resulting in basement water or moisture problems	See Basement Water and Moisture Problems
12. 27.05(2)(g)1. [27.05(2)(k)] [27.05(2)(g)3.]	a. Interior floor, wall, or ceiling i. Unsafe so that an area or room is ordered vacated by B.I. Dept.	Not a kit., bath or BR 25-50% Kit., bath or BR 50-95%
	ii. Is damaged or in such disrepair that it interferes with tenant's full use of all or part of the premises (including but not limited to holes in floors, walls, ceilings)	Kit., bath, BR (including closets) or other living areas 10-25% Other 5-10%
	iii. Incapable of affording privacy	10-25%
	iv. Reasonably waterproof or hard surface not provided in areas subject to moisture	5-10% per room
	v. Appropriate floor surfacing not provided, or damaged so that it does not function to provide ease of maintenance	5-10% per room
	vi. Unsealed gaps allowing collection of dirt and other matter severe enough to create a cleaning or sanitation problem in bathing, toilet or food preparation areas	1-5%
13. 27.05(2)(g)2.	a. Exterior foundation, wall, floor and/or roof condition i. Unsafe so that an area or room is ordered vacated by B.I. Dept.	Not a kit., bath or BR 25-50% Kit., bath, or Br 50-95%
	ii. Is damaged or in such disrepair that it interferes with the tenant's full use of all or part of the premises (including but not limited to roof leaks, holes in floors, walls, or ceilings)	Kit., bath, BR (including closets) or other living areas 10-25% Other 5-10%
	iii. Incapable of affording privacy	10-25%
	iv. Resulting in wet basement - see Basement Water and Moisture Problems	

MGO Violation	Description	% of Rent Abatement
14. 27.05(2)(g)2.	a. Chimney	
	i. Not properly removing the products of combustion (discontinue use of appliance(s) vented into chimney)	Abatement based on lost appliance/ facility: No hot water, 27.04(2)(b) No heat, 27.04(2)(h)
	ii. In danger of collapse	10-25%
15. 27.05(2)(g)3.	a. Unsealed gaps in bathing, toilet or food preparation areas allowing collection of dirt and other matter	
	i. Severe enough to create a cleaning or sanitation problem	1-5%
16. 27.05(2)(h)	a. Exterior doors, interior doors, basement hatchway doors (one or more doors)	
	i. Missing, therefore negating, dwelling unit or lodging room security	25-50%
	ii. Missing and affecting privacy, health or safety	10-25%
	iii. In a state of disrepair which threatens security (one or more doors)	Use the security analysis & %s in 20.a.i.,ii.,& iii.
	iv. Hazardous e.g., unhinged, requiring excessive force to open, door or hardware interfering with egress	5-10%
	v. Missing or nonfunctional latch assembly on a bedroom, bathroom or dwelling unit entrance door	1-5%
17. 27.05(2)(h)	a. Windows (one or more windows)	
	i. Missing from first floor, basement or other window openings accessible by balconies, fire escapes, trees, etc. and negating dwelling unit or lodging room security	25-50%
	ii. Missing and affecting privacy, health or safety	10-25%
	iii. In a state of disrepair which threatens security	Use security analysis & %s in 21.a.i. & ii.
	iv. Ventilating locks not functional	5-10%
	v. Hazardous, e.g. windows which must be propped open, broken windows with glass shards in the frame	5-10%

MGO Violation	Description	% of Rent Abatement
18. 27.05(2)(h)1.	a. Door viewer, front entry door dwelling unit or lodging room. Not provided or not functional	5%
19. 27.05(2)(h)2.	a. Exterior hinge pins not protected in dwelling unit or lodging room	5% per door
20. 27.05(2)(h)3.	a. Dead bolt lock (one or more locks) i. No lock or totally not functional lock	25-50%
	ii. Existing lock provides some security but is not a deadbolt. For example: A slide bolt lock, live bolt lock, guarded latch lock on doors accessible from grade, lock with no strike plate	10-25%
	iii. Lock conditions which have minimal effect on security. For example: Screws in strike plate not 2½" long, difficult but not impossible to lock and unlock, live, guarded or slide bolt locks on doors not accessible from grade	1-5%
	b. Secondary locking device i. Door does not lock and no secondary locking device or totally not functional	25-50%
	ii. Door locks but no secondary locking device or totally not functional	10-25%
21. 27.05(2)(h)4	a. Required window sash fasteners not provided or not functional (one or more fasteners) i. First floor, basement, and all other windows accessible by balconies, fire escapes, trees, or other existing means	10-25%
	ii. All other windows where required	1-5%
22. 27.05(2)(h)5	a. Required window ventilating sash fasteners not provided or not functional (one or more fasteners)	5-10%

MGO Violation	Description	% of Rent Abatement
23. 27.05(2)(h)7.	a. Common area doors i. No lock or totally not functional lock	5-10%
	ii. Lock conditions which have a minimal effect on security, e.g., no strike plate screws in strike plate not 2½" long	1-5%
	iii. Required door closer missing or not functioning	1-5%
24. 27.05(2)(h)10.	a. Required locks on residential buildings with two or more dwelling units and/or lodging rooms on all exterior doors and main entrance door accessed from common area not provided or not functional	10-25%
	i. No positive locking guarded latch lock or no functional locking guarded latch	10-25%
	ii. No approved self closing device or no functioning self closing device	10-25%
	b. Missing or nonfunctional approved guard plate affixed to exterior side of door deemed necessary to provide adequate security against illegal entry	10-25%
25. 27.05(2)(h)11.	a. Common area interior doors leading to basement i. No positive action guarded latch lock or no functional positive guarded latch lock	5-10%
	ii. No approved self closing device or no functioning approved self closing device	5-10%
26. 27.05(2)(h)12.	a. All doors leading to shared laundries and storage areas in basements i. No positive action guarded latch lock or no functioning positive action guarded latch lock	5-10%
	ii. No approved self closing device or no functioning approved self closing device	5-10%

MGO Violation	Description	% of Rent Abatement
27. 27.05(2)(i)	a. Inside and outside stair and/or porch	
	i. Hazardous to use	10-25% per affected app.
	b. Required appurtenances to any porch or stair such as handrails and guardrails	
	i. Protecting an elevation of less than 4'	
	A. Missing	5-10% per affected app.
	B. Inadequate	5-10% per affected app.
	ii. Protecting an elevation of more than 4'	
	A. Missing	10-25% per affected app.
	B. Inadequate	5-10% per affected app.
28. 27.05(2)(j) [27.04(2)(a)]	a. Kitchen sink, lavatory*	
	i. Totally not functional	10-25%
	ii. In need of repair to the extent that use is limited (e.g., including but not limited to extremely slow drain, missing or not functional faucet handle . . .)	5-10% per fixture
	b. Flush Water Closet*	
	i. Totally not functional	24-48 hrs. 25% More than 48 hrs 50-90% Not only facility 5-10%
	ii. In need of repair to extent that use is limited	5-10% per fixture
	*Also see Basement Water and Moisture Problems	
	c. Bathtub or shower*	
	i. Totally not functional	Only facility 25-50% Not only facility 5-10%
	ii. In need of repair to extent that use is limited (e.g., including but not limited to extremely slow drain, missing or not functional faucet handles.)	5-10% per fixture
	*Also see Basement Water and Moisture Problems	
	d. Water Pressure/Volume	
	i. Inadequate or fluctuating hot and cold	10-25%
	ii. Consistently leaking hot water faucet	1-5%

MGO Violation	Description	% of Rent Abatement
29. 27.05(2)(j) [27.04(2)(a)] [27.04(2)(b)]	a. Leaking Water Supply or Drain Piping, not containing sewage	
	i. Leaking to extent and in such a place that it interferes w/tenant's full use of all or part of premises	
	A. Kitchen, bathroom, bedroom (including closets) or other living areas	10-25%
	B. Other	5-10%
	ii. Leaking pipes in basement	See Basement Water & Moisture Problems
	b. Leaking or obstructed drain piping containing sewage	
	i. If leaks or obstruction cause backup of sewage into fixtures, onto floors, or through ceilings or walls (including basement)	50-90% per affected applicant
30. 27.05(2)(k)	a. Bathroom floor surfacing	See 27.05(2)(g)1.
31. 27.05(2)(l)	a. Supplied facility, equipment or utility	
	i. Contracted stove or refrigerator	
	A. Not functional	10-25%
	B. Partially functional	5-10%
	b. Non-required screens	No Abatement
32. 27.05(2)(m)	a. Owner-caused discontinuation of utilities	
	i. No electricity	See 27.04(2)(g)
	ii. No heat	See 27.04(2)(h)
	iii. No water service	See 27.04(2)(a)
33. 27.05(2)(q)4.	a. Covering of foam plastic insulation (if insulation not installed by tenant)	5-10%
34. 27.05(2)(z)	a. Required for main entrance door accessed through common area not provided or not functional	
	i. Doorbells, intercoms or effective buzzer system of which to alert occupant of request to access the building	10-25%
35. 27.07(2)(a)	a. Failure to clean and disinfect common area after sewage backup	10-25% per affected applicant
	b. Owner not maintaining common areas in sanitary condition	5-10% per affected applicant

MGO Violation	Description	% of Rent Abatement
36. 27.07(2)(c)	a. Screens	See 27.04(2)(f)
37. 27.07(2)(d)	a. Extermination of pests	
	i. Severe infestation, whether occasional or chronic	10-25% per affected applicant
	ii. Non-severe but chronic	1-5% per affected applicant
38. 27.07(2)(f)	a. Apartment clean prior to occupancy	25-50%
	b. Failure to clean and disinfect basement after sewage backup	10-25%
39. 29.20(15)(c)	a. Smoke or heat detectors not installed where required in storage areas	5-10% per affected applicant
40. 34.907	a. Smoke alarms not installed where required in:	
	i. Inside every bedroom and sleeping area	5-10% per affected applicant
	ii. Within 6 feet of each door leading to a bedroom or sleeping area of each unit	10-25%
	iii. Each floor of the building	10-25%
41. All code sections which result in water problems may use these percentages	a. Basement Water and Moisture Problems	
	i. Basement water violations use these percentages regardless of cause of leak	
	A. Basement not used for habitation: accumulated water	1-5% per affected applicant
	B. Basement used for habitation: damp and mold or mildew accumulated	1-5% per affected applicant
	C. Basement used for habitation	
	aa. Accumulated water	Not a kit., bath or BR 25-50% Kit., bath or BR 50-95%
	bb. Continually wet but no standing water	5-10%
	D. Basement laundry - presents potential electrical hazard when appliances are in use	5-10% per affected applicant

MGO Violation	Description	% of Rent Abatement
42. Chapter 18	Plumbing Code which adopts by reference Wisconsin Administrative Code SPS 325, Plumbing Chapter 145 Wisconsin Statutes. If a violation is cited on an occupied rental property referencing sections from the above Plumbing Codes and the violations described could appropriately be listed as violations of Sections 27.04(2)(a), 27.04(2)(b) and/or 27.05(2)(j) of the Minimum Housing Code, then the rent abatement list shall equally apply to those violations. (NOTE: Any violation cited under the State Plumbing Codes would in an existing rental property also be a violation of Sec. 27.05(2)(j) which uses the phrase "properly installed".) (Am. by ORD-12-00035, 3-28-12)	
43. Chapter 19 [NEC] [SPS 316] [SPS 352]	Electrical Code - Adopts Wisconsin State Electrical Code Volume II, Wisconsin State Administrative Code Chapter 24 and by reference the 1984 National Electrical Code. If a violation is cited in an occupied residential rental property referencing sections from the above Electrical Codes and the violations could appropriately be listed as violations of Sections 27.04(2)(g) of the Minimum Housing Code, then the rent abatement list shall equally apply to those violations. (NOTE: Any violation cited under the State Codes or the National Electrical Code (NEC) would in an existing rental property also be a violation of Section 27.04(2)(g) which uses the phrase "properly installed".) (Sec. 32.04(d) Am. by Ord. 9752, Adopted 4-4-89; ORD-06-00100, 8-2-06; ORD-09-00041, 3-19-09; ORD-10-00083, 9-15-10; ORD-12-00035, 3-28-12)	

(e) Procedure.

1. Application for Authorization for Rent Abatement. An eligible tenant who may be entitled to abate a portion of his/her rental payment under this ordinance shall have thirty (30) days from publication of the notice of possible eligibility by the Building Inspection Division of the Department of Planning and Community and Economic Development to file a request for a hearing on authorization for rent abatement. The request shall be in writing on a form approved by the Landlord and Tenant Issues Committee, shall state with specificity the name and address of the landlord and the alleged rent impairing violation (s) and shall be filed with the Building Inspection Division. The application shall be accompanied by a fee of ten dollars ($10) made payable to the City Treasurer, which fee shall be recovered from the landlord if abatement is ordered. If the applicant qualifies for waiver of the filing fees, however, the application shall be accompanied by an affidavit of economic hardship signed by the applicant. Within ten (10) days of the filing of the request, the Department of Planning and Community and Economic Development staff shall select a Hearing Examiner from the Rent Abatement Hearing Examiner panel, set a time and place for the hearing and give the landlord and the tenant(s) written notice thereof. The hearing shall be held as soon as possible, but not prior to the end of the 30-day filing period. Notice of the hearing including a statement of the time, place and nature of the hearing shall be mailed to the landlord and tenant(s) at least ten (10) days prior to the hearing. (Am. by Ord. 9752, Adopted 4-4-89; Ord. 11,994, 12-30-97; ORD-08-00109, 10-7-08; ORD-12-00076, 6-20-12)

2. Rent Abatement Hearing Examiner.
   a. The Rent Abatement Hearing Examiner shall have the authority to conduct hearings on requests for authorization for rent abatement and to determine the exact amount of rent, if any, which may be abated pursuant to this ordinance.
   b. The Rent Abatement Hearing Examiner shall have the authority to administer oaths and to issue subpoenas pursuant to Wis. Stat. § 885.01 at the request of the parties and shall be responsible for the fair, orderly and impartial conduct of the rent abatement hearing and the preservation of the exhibits and the record therein.
   c. In any matter set for hearing the Rent Abatement Hearing Examiner may hold a conference between the parties to attempt to clarify or simplify the issues. In addition, prior to the hearing, upon request of the parties the Hearing Examiner may function as a mediator to encourage voluntary settlement.

(Sec. 32.04(4)(e)2. Am. by Ord. 10,227, 3-29-91)

3. Conduct of Hearing. The Rent Abatement Hearing Examiner shall conduct the hearing on the request for authorization for rent abatement, shall administer oaths to all witnesses and may issue subpoenas upon request of the parties. So far as practicable the rules of evidence in Wis. Stat. § 227.45 shall be followed. The landlord and the tenant may be represented by counsel or other representative, may call and examine witnesses and cross-examine witnesses of the other party. All proceedings and testimony shall be recorded on tape. If a review is sought of the Hearing Examiner's decision, a written transcript shall be prepared at no cost to the parties, provided however that a reasonable fee may be charged for copies. For all other purposes, a copy of the tape recordings shall be supplied to anyone requesting the same at the requester's expense. If either party requests a stenographic recording and transcription, the Landlord and Tenant Issues Committee shall make the necessary arrangements, but the expense shall be borne by the requesting party. In the hearing, the tenant(s) shall have the burden of proving to a reasonable certainty by the greater weight of the credible evidence, i.e. by the preponderance of the evidence, that the landlord failed to correct (a) rent impairing violation(s) by the due date in an order of the Building Inspection Division. It is the landlord's burden to show by the preponderance of the evidence that any rent impairing violations were negligently or willfully caused by the tenant or the tenant's guests or that the tenant's refusal to allow entry prevented the landlord from making the corrections in a timely manner. Thereafter, the tenant has the burden to show that any such refusal was reasonable under the circumstances. Either party may present additional evidence on the nature, extent and seriousness of violations, the length of time conditions existed and the extent to which the tenant was deprived of the full use of the rented premises, to assist in determining the percent of abatement which should be allowed. (Am. by Ord. 10,875, 3-31-94; ORD-08-00109, 10-7-08; ORD-09-00147, 11-6-09; ORD-12-00076, 6-20-12)

4. Decision.
   a. If, on the evidence at the hearing, the Rent Abatement Hearing Examiner finds that the landlord failed to comply with an order of the Building Inspection Division to correct by the original due date a "rent impairing" violation as that term is defined in Sec. 32.04(4)(b), the Hearing Examiner shall order that rent be abated

retroactive to the date of the initial inspection in order to effectuate the purpose of this ordinance and to provide fair and equitable compensation to the tenant(s) for the diminished value of the rented premises due to the landlord's continued violation of the City of Madison's building/housing codes. Any such abatement shall be established in accordance with the Schedule of Rent Impairing Violations in Section 32.04(4)(d). In setting the exact percentage of abatement the Hearing Examiner shall consider the nature, extent and seriousness of the particular condition(s), the total number of rent impairing violations at issue, the length of time the condition(s) existed and the extent to which the condition(s) deprive the tenant(s) of full use of the rented premises. If the Hearing Examiner finds that the landlord's failure to comply with the order of the Building Inspection Division by the due date was caused by factors wholly outside the landlord's control and if the Hearing Examiner further finds that the landlord has taken affirmative steps to minimize the impact of the uncorrected rent-impairing condition(s) on the tenant(s), any sums reasonably expended by the landlord in that regard should be considered in setting the percentage of abatement and may operate to reduce the final abatement percentage below the minimum percentage listed for the item(s) in the Schedule of Rent Impairing Violations in Sec. 32.04(4)(d). The Hearing Examiner shall not authorize rent abatement for any condition(s) found to be caused either negligently or willfully by the tenant or his/her guests, nor shall abatement be ordered for any period of time after the tenant has unreasonably refused entry to the landlord for the purpose of correcting the condition(s) giving rise to the violation(s). (Am. by Ord. 11,339, 8-25-95; ORD-08-00109, 10-7-08)

b. If, after hearing, the Hearing Examiner finds that the landlord did not fail to comply with an order of the Building Inspection Division to correct a rent impairing violation by the due date or that the rent impairing violations were caused by the tenant or the tenant's guests or that the tenant unreasonably refused entry for the purpose of correcting a rent impairing violation, the Hearing Examiner shall enter an order denying the request for authorization to abate rent for any items negligently or willfully caused by the tenant or guests of the tenant or for any items which remained uncorrected due to the tenant's unreasonable refusal to allow entry for repair purposes. Where the landlord has received an Official Notice of code violations requiring correction within seventy-two (72) hours or less, a refusal by the tenant to allow entry after reasonable notice of less than twenty-four (24) hours may be deemed an unreasonable refusal solely for the purpose of determining whether rent abatement shall be awarded for the violation which was the subject of the Official Notice. (Am. by Ord. 10,875, 3-31-94; ORD-08-00109, 10-7-08)

c. The decision and order of the Hearing Examiner shall contain written findings and shall be mailed to the parties within twenty (20) days of completion of the hearing or as soon thereafter as possible. The failure to issue and mail a decision within twenty (20)

days shall neither deprive the Hearing Examiner of jurisdiction to render a final decision in the matter nor affect the validity thereof. (Am. by Ord. 9444, 3-25-88)

d. Except as provided in Sec. 32.04(5)(c) of the Madison General Ordinances relating to the rights of successor tenants, the holder of the landlord's interest in the premises at the time the decision and order of the Hearing Examiner is issued and the holder or holders of the landlord's interest during the period of time that the right to continuing abatement remains in effect are bound by the order and by the applicable provisions of this chapter relating to rent abatement. (Cr. by Ord. 10,018, 5-14-90)

(f) Petition for Reconsideration. Within ten (10) days after service by mail of the decision of the hearing examiner, either party may file with the Building Inspection Division a written petition for reconsideration specifying in detail the grounds for the relief sought. In addition, a hearing examiner may on his/her own motion reconsider the decision or order a hearing on reconsideration. (Am. by ORD-08-000109, 10-7-08)

1. Reconsideration will be granted only on the basis of:
   a. A material error of fact or law or an error in the calculation of an award amount, or
   b. (R. by ORD-10-00114, 12-8-10)

   (Am. by Ord. 10,990, 10-10-94; ORD-08-00109, 10-7-08)
2. Copies of the petition shall be served by first class mail by the petitioner on all parties, who may file replies within seven (7) days after service by mail of the petition.
3. Within twenty-one (21) days of the filing of the petition, the hearing examiner shall enter an order denying reconsideration or an order granting reconsideration disposing of the petition without a hearing or shall order a rehearing, which shall be held within twenty (20) days. The failure to issue a decision within the above time period shall not deprive the Hearing Examiner of jurisdiction to render a decision on reconsideration or affect the validity thereof. If no order is entered within twenty-one (21) days of the filing of the petition, the petition shall be deemed denied. (Am. by Ord. 10,990, 10-10-94)
4. Upon rehearing, if any, proceedings shall conform as nearly as may be to Section 32.04(4)(e) et seq., relating to an original hearing.
5. The filing of a petition for rehearing shall not suspend or delay the effective date of the original decision and order, and the order shall take effect on the date fixed by the hearing examiner and shall continue in effect unless the petition is granted or until the order is superseded, modified, or set aside as provided by law.

(Sec. 32.06(4)(f) Am. by Ord. 9752, Adopted 4-4-89)
(Sec. 32.04 Renumbered from former Sec. 32.06 by Ord. 12,533, 2-18-00)

(g) Request for Modification. If, subsequent to a decision by a Hearing Examiner ordering rent abatement, substantial further deterioration or substantial improvement occurs in any rent impairing conditions which were the subject of the original order, the applicant, landlord or any successor tenant may request modification of the rent abatement amount. Only one such request for modification may be made by each eligible individual, which request shall follow the procedures in Sec. 32.04(4)(e) et seq. relating to the original application.(Am by Ord. 9752, Adopted 4-4-89)

(h) Enforcement. Whenever, in the judgment of the Landlord and Tenant Issues Committee, the judicial enforcement of the ordinance is necessary, the Committee

shall in writing request the City Attorney to enforce the ordinance in the name of the City of Madison. (Renumbered from (g) to (h) by Ord. 9444, 3-25-88; ORD-12-00076, 6-20-12)

(i) Appeal. All orders of the Rent Abatement Hearing Examiner shall be final administrative determinations and shall be subject to review in court as by law may be provided. Any party to the proceeding may seek review thereof within thirty (30) days of service by mail of the final determination of the Hearing Examiner. In addition, written notice of any request for judicial review shall be given by the party seeking review to all parties who appeared at the proceeding before the Hearing Examiner, with said notice to be sent by first class mail to each party's last known address.

The institution of the proceeding for judicial review shall not stay the decision and order of the Hearing Examiner; however, the reviewing court may order a stay upon such terms as it deems proper.

(Am. by Ord. 10,227, 3-29-91)

(5) Successor Tenant.

(a) A successor tenant is entitled to abate rent pursuant to the order of a rent abatement hearing examiner issued in accordance with this Chapter, provided that at the time the tenancy commences there exists an uncorrected rent impairing violation which was determined or is in the process of being determined by the hearing examiner to be abateable.

(b) In order to be deemed a successor tenant under this ordinance an otherwise eligible individual must advise the landlord in writing with a copy to the Rent Abatement Clerk of her or his intent no later than fifteen (15) days after receipt of written notification by the landlord which conforms to the requirements of Sec. 32.04(7) of the Madison General Ordinances regardless of whether said written notification is given within the times prescribed therein. If said written notification is given at or prior to the time the rental agreement is entered into, the successor tenant's notice of intent must be given no later than fifteen (15) days after the commencement of the successor tenancy.

(c) Failure to provide the landlord with a timely written notice of intent to become a successor tenant forfeits a tenant's right to proceed to abate rent as a successor tenant under this chapter, except where the landlord has failed to provide the written notification of the tenant's right to abate rent pursuant to subdivision (b) above. In cases where the landlord fails to provide written notice as required, an otherwise eligible tenant may assert the rights of a successor tenant at any time during the tenancy or in any action relating to or arising out of the tenancy.

(New Sec. 32.06(5) Cr. by Ord. 9752, Adopted 4-4-89)

(Sec. 32.04 Renumbered from former Sec. 32.06 by Ord. 12,533, 2-18-00)

(6) Duration of Abatement.

(a) Authorization to abate a portion of the rent pursuant to Sec. 32.04(4) et seq. for failure of a landlord to correct a rent impairing violation ceases upon certification by the Building Inspection Division of the Department of Planning and Community and Economic Development that said violation has been satisfactorily corrected, except that a tenant, a provider agency or successor tenant shall not be required to reimburse any appropriately abated portion of the rent to a landlord where correction of the rent impairing violation was made after payment of the balance of the rental payment had been tendered to the landlord. Where more than one rent impairing violation has been authorized for rent abatement and partial correction has been certified, authorization to abate continues for the uncorrected rent impairing violations, until such time as their satisfactory correction has been verified. (Am. by ORD-08-000109, 10-7-08)

(b) If abatement is authorized, the landlord must promptly repay any rent previously paid by the tenant, provider agency or successor tenant and apportioned to rent impairing violations from the date of the original inspection by the Building Inspection Division at which said violations were discovered. (Am. by ORD-08-000109, 10-7-08)

(c) If the landlord fails to promptly reimburse the tenant, provider agency or successor tenant as required in Subdivision (b) above, the tenant, provider agency or successor tenant may enforce the order requiring reimbursement as follows:

1. The tenant, provider agency or successor tenant may deduct the amount previously paid and subsequently determined to be apportioned to rent impairing violations from future rental payments.

2. If the total of future rental payments payable for the balance of the tenancy is less than the reimbursement required in Sec. 32.04(6)(b) or if the tenant or successor tenant no longer resides at the premises in question, the tenant, provider agency or successor tenant shall recover from the landlord double the amount not reimbursed in accordance with the order of the Hearing Examiner plus costs of collection including reasonable attorney fees.

(d) The failure of a landlord to promptly reimburse the tenant, provider agency or successor tenant as required in Subdivision (b) above and the failure of either a landlord, a tenant or a provider agency after a decision by the reviewing court on judicial review, to return monies wrongfully not reimbursed or wrongfully abated shall be deemed a violation of this ordinance and shall be punishable pursuant to Sec. 32.04(11) of the Madison General Ordinances.

(e) Rent abatement awarded in a decision and order of a Rent Abatement Hearing Examiner shall accrue during the period when either a tenant or a successor tenant is entitled to the exclusive possession and occupancy of an affected dwelling unit. Under no circumstances shall there be recovery by both a tenant and a successor tenant for the same period of time.

(Sec. 32.06(6) Am. by Ord. 11,339, 8-25-95)

(Sec. 32.04 Renumbered from former Sec. 32.06 by Ord. 12,533,

(7) Rent Abatement and Code Violations Disclosure. The landlord or any person authorized to enter into a rental agreement shall exhibit to the prospective tenant, prior to the time a rental agreement is entered into, the following:

(a) A copy of any official notice of outstanding violation of Chapter 27 (Minimum Housing and Property Maintenance Code), Chapter 28 (Zoning Code) or Chapter 29 (Building Code) of the Madison General Ordinances of which the said landlord or person has actual notice and which affects the subject rental building regardless of the location of the violation(s) or defect(s) therein;

(b) A copy of any Hearing Examiner decision and order which affects the subject rental unit or any common areas of the subject rental building.

(c) The failure by a landlord to comply with the provisions of this subsection regarding written notice of a successor tenant's right to abate rent shall not be subject to the penalties set forth in Sec. 32.14 of the Madison General Ordinances.

In addition, prior to the time a rental agreement is entered into, the landlord shall advise the prospective tenant in writing of a successor tenant's right to abate rent pursuant to the order aforementioned until authorization to abate ceases as provided in Sec. 32.04(6). In cases where the rent abatement request is pending at the time the rental agreement is entered into, the landlord shall provide the successor tenant written notification of a successor tenant's rights when the case has been decided and shall exhibit a copy of the decision and order to the successor tenant upon receipt thereof.

Finally, at the time occupancy commences the landlord shall exhibit to the tenant (formerly, prospective tenant) a copy of all additional official notices referred to in Subdivision (a) above and a copy of all decisions and orders referred to in Subdivision (b) above, if any have been issued since the signing of the rental agreement. Similarly, at the time of occupancy the landlord shall provide the required written notice of a successor tenant's rights with respect to all such additional official notices and decisions.

The written notice of successor tenant's rights shall specifically state in underlined or otherwise emphasized print the following: "If you wish to become a successor tenant and to abate rent in accordance with Chapter 32 of the Madison General Ordinances you must provide your landlord and the Rent Abatement Clerk with written notice of that intent within fifteen (15) days of receiving written notification from your landlord of your right as a successor tenant to abate rent. Failure to provide your landlord with timely written notice forfeits your right to be a "successor tenant" and to abate rent as a successor tenant under Chapter 32 of the Madison General Ordinances."

(Sec. 32.06(7) Am. by Ord. 9796, 5-31-89)

(Sec. 32.04 Renumbered from former Sec. 32.06 by Ord. 12,533, 2-18-00)

(8) Eviction or Retaliation.

(a) No person or tenant who complains to the Building Inspection Division of the Department of Planning and Community and Economic Development of violations of Chapters 18, 19, 27, 28, 29 or 30 or complies with this section shall be evicted for nonpayment of rent or because said person or tenant has elected to act under said section, so long as rent is being abated in accordance with the provisions of this ordinance or Chapter 704 of the Wisconsin Statutes. In addition, no tenant shall be evicted for nonpayment of rent where the tenant continues to abate rent pursuant to a lawful order of a Hearing Examiner pending judicial review of the order after a stay of the Hearing Examiner's decision has been ordered by the reviewing court, if written notice of the request for judicial review was not given to the tenant in accordance with Section 32.04(4)(i) of the Madison General Ordinances. Furthermore, no tenant who has been authorized to abate a portion of his/her rental payment shall be evicted for failure to pay rent as a result of underpayment of rent due to a computation error, so long as the tenant remedies the underpayment within five (5) days after notice thereof by the landlord. (Am. by Ord. 10,018, 5-14-90)

(b) No person or tenant shall be evicted or retaliated against for complaining of violations of Chapters 18, 19, 27, 28, 29 or 30 or for complying with this section, and it shall be presumed that any attempt to terminate the tenancy of such tenant or to evict such tenant or to raise such tenant's rental payments or to otherwise harass or retaliate against such tenant during the period from the first complaint to the Building Inspection Division of the Department of Planning and Community and Economic Development to six (6) months after the certification by the Building Inspection Division of the Department of Planning and Community and Economic Development of the City of Madison that all violations have been corrected is done in retaliation for the tenant's complaint to the Building Inspection Division of the Department of Planning and Community and Economic Development of a violation of Chapters 18, 19, 27, 28, 29 or 30 or for his or her compliance with this section. Said attempt is hereby declared null and void and subject to a forfeiture of not less than one hundred and fifty dollars ($150) nor more than nine hundred dollars ($900) for each such attempt. It is further provided that in order to overcome such presumption, the landlord must show by a preponderance of the evidence that such acts by her/him were based upon good cause. "Good cause" as used herein means that the landlord must show a good

reason for her/his action, other than one related to or caused by the operation of this ordinance, including but not limited to normal uniform rental increases due to utility increases or other increased costs to landlord, or for other bonafide, nondiscriminatory business reason. (Am. by Ord. 9752, Adopted 4-4-89; ORD-14-00012, 1-14-14)

(Sec. 32.06(6) Renumbered to (8) by Ord. 9752, Adopted 4-4-89)
(Sec. 32.04 Renumbered from former Sec. 32.06 by Ord. 12,533, 2-18-00)
(Sec. 32.04(8) Am. by ORD-08-00109, 10-7-08)

(9) Prosecution. It is the intent of this section that any use of abatement will not prohibit the Building Inspection Division of the Department of Planning and Community and Economic Development from prosecuting violations of the code relating to said property.
(Sec. (7) Renumbered to (9) by Ord. 9752, Adopted 4-4-89; ORD-08-00109, 10-7-08)
(Sec. 32.04 Renumbered from former Sec. 32.06 by Ord. 12,533, 2-18-00)

(10) Coercion.

(a) Any person who accepts, as a result of misrepresentation, harassment or coercion, rental payments for premises subject to abatement under this ordinance may be subject to a forfeiture of not less than one hundred and fifty dollars ($150) nor more than nine hundred dollars ($900) whether said rental payments are tendered by or on behalf of the tenant occupying the premises at the time abatement is authorized or by, or on behalf of, any subsequent or other tenant who occupies the premises during the existence of such abatement authorization. Each such payment accepted shall constitute a separate violation.

(b) Any tenant who willfully and maliciously uses or attempts to use this ordinance to harass a landlord shall be fined not less than one hundred and fifty dollars ($150) nor more than nine hundred dollars ($900).

(Sec. 32.06(8) Renumbered to (10) by Ord. 9752, Adopted 4-4-89; Am. by Ord. 12,881, 8-24-01)
(Sec. 32.04 Renumbered from former Sec. 32.06 by Ord. 12,533, 2-18-00)

(11) Penalty.

(a) Any person violating any of the provisions of this section shall upon conviction be subject to a forfeiture of not less than one hundred fifty dollars ($150) nor more than nine hundred dollars ($900), unless a different penalty is specifically provided, with each separate day of violation to be considered a separate offense. (Am. by Ord. 12,881, 8-24-01)

(b) Any person who shall fail or neglect to comply with any lawful order of the Rent Abatement Hearing Examiner issued pursuant to the provisions of this section shall be deemed guilty of a violation of this section, and every day or fraction thereof on which such person shall fail or neglect to comply with such order, shall be deemed a separate offense.

(Sec. 32.06(9) Renumbered to (11) by Ord. 9752, Adopted 4-4-89)
(Sec. 32.04 Renumbered from former Sec. 32.06 by Ord. 12,533, 2-18-00)

(12) Severability. In the event that any section of this ordinance shall be declared or judged by a court of competent jurisdiction to be in- valid or unconstitutional, such adjudication shall in no manner affect the other sections of this ordinance, which shall be in full force and effect as if the said section or said sections were not originally a part thereof. In addition, should enforcement of these ordinance provisions relating to rent abatement be temporarily or permanently stayed in whole or in part by judicial order or should any of said sections of this ordinance be declared or judged invalid or unconstitutional by a court, the provisions of Sec. 32.06 of the Madison General Ordinances, entitled Rent Withholding, in force and effect on October 20, 1986, which relate to rent withholding procedures shall be immediately reinstated without further action by the Common Council.
(Sec. 32.06(10) Renumbered to (12) by Ord. 9752, Adopted 4-4-89)
(Sec. 32.04 Renumbered from former Sec. 32.06 by Ord. 12,533, 2-18-00)

(13) Effective Date of Ordinance. This ordinance shall be effective and apply to all orders written by the Building Inspection Division of the Department of Planning and Community and Economic Development on or after January 1, 1979. The amendments to this ordinance relating to rent abatement shall be effective and apply to all orders written by the Building Inspection Division of the Department of Planning and Community and Economic Development ninety (90) days after the publication of this ordinance as amended. (Am. by ORD-08-000109, 10-7-08)

(Sec. 32.06(11) Renumbered to (13) by Ord. 9752, Adopted 4-4-89)

(Sec. 32.06 Am. by Ord. 9011, 11-28-86)

(Sec. 32.04 Renumbered from former Sec. 32.06 by Ord. 12,533, 2-18-00)

32.05 TENANTS RIGHTS TO PRIVACY AND EXCLUSIVE POSSESSION.

(1) It shall be unlawful for the owner or operator of any residential dwelling unit to commit or permit any of the following acts which tend to interfere with the rights of the tenant therein to privacy and the exclusive possession of the premises and personal property therein:

(a) Removing, altering or replacing locks affixed to the premises unless a key is immediately provided to the tenant therein so as not to deny the tenant access except as is necessary to preserve or protect the premises in the event of damage or destruction in the tenant's absence. In such a case, a key shall be provided to the tenants as soon thereafter as practicable.

(b) Removal of doors or windows without the consent of the tenant therein except as is reasonably necessary to preserve or protect the premises when damage or destruction occurs in the tenant's absence.

(c) Confiscation of personal property belonging to tenants in lieu of rent or any other alleged claim.

(d) Except as provided in Subdivision (e), entering on a tenant's leased property including the shared areas within a single dwelling unit without at least twenty-four (24) hours notice of the specific date and approximate time of entry unless the tenant approves a shorter period of notice on a case by case basis, except when the landlord reasonably believes that entry is necessary to preserve or protect the premises from damage or destruction which is not intentionally caused by the landlord.

(e) Entering upon a tenant's leased premises solely to show the property for sale or lease without at least twenty-four (24) hours notice, the notice shall indicate the exact time of entry and the length of stay not to exceed a combined total of three (3) hours per day and shall cover not more than three consecutive days, unless the tenant approves a shorter period of notice or a larger window of availability on a case-by-case basis. (Am. by ORD-10-00016, 2-18-10)

(f) No landlord may enter a dwelling unit during tenancy without first announcing his or her presence to persons who may be present in the dwelling unit, and identifying himself or herself upon request. (Cr. by Ord. 12,533, 2-18-00)

(g) A landlord may regulate guests, but may not prohibit, a tenant from having all guests. Guest regulations, if any, shall be included in the rental agreement. Guest regulations shall be in conformance with the definition of a Family provided in Chapter 28 of Madison General Ordinances. Guest regulations shall not permit the violation of zoning regulations, including capacity standards, provided in Chapter 28 of Madison General Ordinances. Nothing in these ordinances shall prohibit a landlord from commencing an eviction action against a tenant for permitting a person to reside in the tenant's rental unit in violation of Madison General Ordinances or state law. (Cr. by Ord. 12,932, 12-11-01)

(2) It shall be unlawful for a tenant to change or re-key locks affixed to the premises without the prior approval of the landlord except in a case of emergency when necessary to protect

or preserve the premises or to protect the health or safety of the tenant. In such case a key shall be provided to the landlord within 48 hours or as soon thereafter as practicable and the landlord shall have the right to replace the altered lock. (Am. by Ord. 13,223, 1-25-03)

(3) Any person who violates any provisions of this section or fails to comply with any of its requirements shall, upon conviction thereof, be subject to forfeiture of not more than one thousand dollars ($1,000) and in addition shall pay all costs and expenses involved in the case. Each day such violation continues shall be considered a separate offense. (Am. by Ord. 12,881, 8-24-01; Ord. 13,760, Adopted 12-14-04)

(Sec. 32.05 Am. by Ord. 10,812, Adopted 1-18-94)

32.06 RENTAL AGREEMENTS AND RECEIPTS.

(1) Copies of Rental Agreements, Rules. Rental agreements and rules and regulations established by the landlord, if in writing, shall be furnished to prospective tenants for their inspection before a rental agreement is entered into, and before any earnest money or security deposit is accepted from the prospective tenant. Copies shall be given to the tenant at the time of agreement.

(2) Tenant Rights and Responsibilities. The landlord or any person authorized to enter into a rental agreement shall provide a copy of a document approved by the Landlord and Tenant Issues Committee, entitled "Tenant Rights and Responsibilities," to a tenant at or prior to the signing of a rental agreement. If a residential property unit has more than one tenant, a landlord shall only be required to provide one copy of the document to the tenants. (Am. by ORD-12-00076, 6-20-12)

(a) The document shall contain:

1. An explanation of the rights and responsibilities of tenants as specified in state law and these Ordinances, including but not limited to:
   a. timely payment of rent
   b. maintenance and cleanliness of leased premises
   c. responsibility for damages
   d. responsibility for repairs
   e. notice of intent to move
   f. legal rules of conduct
   g. provision of complete and accurate prior tenancy information
   h. summary of Chapter 32, including but not limited to Secs. 32.04-32.12
   i. summary of Section 39.03, relative to housing discrimination
   j. summary of Section 34.907 relating to smoke alarms installation and maintenance (Cr. by ORD-09-00041, 3-19-09; Am. by ORD-10-00083, 9-15-10)
2. The addresses, telephone numbers and other contact information of agencies and organizations related to landlord tenant issues, including but not limited to:
   a. Apartment Association of South Central Wisconsin
   b. Tenant Resource Center
   c. Fair Housing Center of Greater Madison
   d. Non-emergency police and fire services.

(b) The document shall be made available to landlords by the Building Inspection Division for a charge not to exceed actual cost of production. (Am. by ORD-08-000109, 10-7-08)

(c) Failure to comply with the provisions of this subsection shall subject a landlord to the penalties set forth in Sec. 32.14, M.G.O.

(d) This subsection is effective July 2, 2003. (Cr. by Ord. 13,336, 6-7-03)

(Cr. by Ord. 13,037, 3-26-02)

(3) Receipt for Tenant Payments.

(a) Immediately upon accepting any earnest money or security deposit, the landlord shall provide the tenant or prospective tenant with a written receipt for the deposit, stating the nature of the deposit and its amount. A receipt is not required where payment is made by check bearing a notation describing the purpose for which it was given, unless requested by the tenant.

(b) If a tenant pays rent in cash, the landlord, upon receiving the cash payment, shall provide the tenant with a written receipt stating the nature and amount of the payment. A landlord is not required to provide a receipt for rent payments made by check.

(Renumbered by Ord. 13,037, 3-26-02)

(4) Upon each new lease and at least once every 12 months for every continuing tenant, the owner and tenant(s) shall sign a document indicating the required alarms are installed and operating in accordance with this section. The form must state the tenant, by signing the form, understands it is a violation of this section to tamper with, remove, alter, damage or otherwise render any smoke alarm inoperable. In addition the tenant's signature indicates the tenant understands their responsibility for maintenance and testing of the smoke alarm(s). The form shall state the penalties for rendering smoke alarms inoperable or otherwise affecting the performance of the alarm. (Cr. by ORD-09-00041, 3-19-09)

(Sec. 32.06 Cr. by Ord. 12,533, 2-18-00)

(5) Voter Registration Forms. In order to increase citizen participation in elections, and in light of the many tenants residing in the City of Madison, every landlord shall provide a tenant with a voter registration form at the time the tenant takes possession of the residence. The voter registration form shall be the form made available by the City Clerk or as downloaded from the City Clerk's website. The landlord shall also provide each residential unit with the "How to Register" information available from the City Clerk. (Cr by ORD-12-00096, 7-27-12)

32.07 SECURITY DEPOSIT REFUND PROCEDURES.

(1) The landlord may require as a condition of a rental agreement a security deposit for the purposes provided in Sec. 32.07(14) and for no other purpose.

(2) (a) In this section 'security deposit' means the total of all payments and deposits given by a tenant to the landlord in a residential tenancy as security for the performance of the tenant's obligations, and includes but is not limited to all rent payments in excess of one month's prepaid rent, all pet deposits, furniture deposits and key deposits.

(b) The sum of all payments and deposits, held as security deposit shall not exceed the equivalent of one month's rent. A security deposit may not be instituted or increased during the occupancy of any original tenant(s) under the same, an amended, a renewed or a new rental agreement. If, however, the terms of the amended, new or renewed rental agreement allow as a new condition a pet or a waterbed and the increase in the security deposit is mutually agreed upon in writing between the parties, a security deposit may be instituted or increased provided it does not exceed one month's rent.

(c) Landlords who charge an amount less than or equal to fifty percent (50%) of one (1) month's rent as a security deposit shall be exempt from the provisions of this ordinance which require the payment of a rent credit.

(d) Except as permitted pursuant to Sec. 32.07(8) which provides that a security deposit shall be returned to a tenant or accounted for within twenty-one (21) days of vacation of the premises by that tenant, a landlord may not simultaneously hold a security deposit given by a tenant and a sub-tenant of the same rental premises unless the total of the deposits made by the parties does not exceed the equivalent of one month's rent.

(e) Nothing in this subsection shall be construed as prohibiting the voluntary prepayment of rent by a tenant or the prepayment of rent by a tenant pursuant to a mutually agreed upon semesterly, annual or other periodic payment plan, provided the plan contains a bona fide monthly rental payment option which the tenant is free to elect at her or his sole discretion. A bona fide rental payment option within the meaning of this ordinance is one where the total of all payments under the monthly payment option does not exceed by more than five percent (5%) the total of all payments under any of the other periodic payment options.

(3) Rent Credit. The landlord shall provide a yearly rent credit calculated from the date the security deposit is paid or an earnest money deposit has been applied toward the security deposit according to Sec. 32.10(2)(b) to the date the security deposit is either returned or properly accounted for under Sec. 32.07(8) of the Madison General Ordinances. The rent credit shall be equivalent to the State of Wisconsin Department of Financial Institutions' (DFI) announced interest rate to be paid by Wisconsin's financial institutions for money held in escrow accounts for real estate; and the Mayor shall direct that the rent credit rate and that of the prior twenty (20) years be available to the public at the City Clerk's office, Building Inspection Division, Madison public libraries and on the City's official web page. The interest rate credited shall be the announced rate on the date the security deposit is paid or an earnest money deposit is applied toward the security deposit and the rate in effect on each annual anniversary date thereafter. (Am. by ORD-08-000109, 10-7-08)

(a) The rent credit and the date it is received shall be specified in the lease and in any subsequent renewal or given in writing to the tenant at the time of entering into the rental agreement.

(b) If not credited to the last month's rent annually or otherwise distributed to the tenant prior to the termination of the tenancy, the rent credit shall be paid to the tenant or accounted for in writing using the procedures set forth below for the return of the security deposit within twenty-one (21) days after surrender of rental premises and restoration of possession to the landlord.

(c) Voluntary prepayments of rent by a tenant under Section 32.07(2)(e) are not subject to the rent credit provisions set forth in this subsection.

(d) This subsection shall become effective January 1, 2004.

(Repealed and recreated by Ord. 13,414, 10-4-03)

(4) The tenant shall place the dwelling unit in as overall clean condition, excepting ordinary wear and tear, as when the tenancy commenced or as improved by the landlord, the landlord's agents or the tenant pursuant to a written agreement with the landlord. (Former Subsection (5) Renumbered to Subsection (4) and Am. by Ord. 12,533, 2-18-00)

(5) The landlord and tenant shall use a written CHECK-IN AND CHECK-OUT procedure.

(a) The landlord shall furnish copies of check-in and check-out forms to tenants of each dwelling unit. The check-in form shall be provided to the tenant at the beginning of the tenancy and the check-out form shall be provided to the tenant prior to the termination of the tenancy.

(b) Before a landlord accepts a security deposit under Sec. 32.10(3)(b), or converts an earnest money deposit to a security deposit under Sec. 32.10(2)(b) the landlord shall notify the tenant in writing that the tenant may do any of the following by a specified date which is not less than seven (7) days after the start of tenancy:

1. Inspect the dwelling unit and notify the landlord of any pre-existing damages or defects by noting the conditions on the check-in form.
2. Request a list of physical damages or defects, if any, charged to the previous tenant's security deposit, and request the opportunity to view, within 30 days of the receipt of the notice, the photographs maintained by the landlord under Sec. 32.07(14)(a) documenting such physical damages or defects. The landlord may require the tenant to make this request, if any, in writing. (Am. by ORD-08-00043, 4-26-08)

(c) If a tenant makes a request under Paragraph (b)2., the landlord shall provide the tenant with a list of all physical damages or defects charged to the previous tenant's security deposit, regardless of whether those damages or defects have been repaired, as well as provide the opportunity to view, within 30 days of the receipt of the notice, the photographs maintained by the landlord under Sec. 32.07(14)(a) documenting such physical damages or defects. The landlord shall provide the list and make the photographs available for viewing by the tenant within 30 days after the landlord receives the request, or within 7 days after the landlord notifies the previous tenant of the security deposit deductions, whichever occurs later. The landlord may explain that some or all of the listed damages or defects have been repaired, if that is the case. The landlord need not disclose the previous tenant's identity, or the amounts withheld from the previous tenant's security deposit. (Am. by ORD-08-00043, 4-26-08)

(d) All check-out forms shall be comparable to the check-in forms. All check-out forms shall provide an obvious place for the tenant's forwarding address. Check-out forms shall also provide a space for the rent credit due and a space for the landlord's explanation for any portion of the rent credit deemed not due.

(e) Acknowledgement, if any, of receipt of the check-in and check-out forms or combined check-in/check-out form shall be included in a written document entitled "NON-STANDARD RENTAL PROVISIONS", which the landlord provides to the tenant.

(f) The landlord has the burden of proving compliance with all provisions and procedures set forth in this subsection or forfeits all right to any portion of the security deposit.

(Former Subsection (6) Renumbered to Subsection (5) and Am. by Ord. 12,533, 2-18-00)

(6) Failure by the landlord to offer either the check-in or check-out forms shall forfeit the landlord's right to withhold any amount from a security deposit for alleged cleaning costs or damages.

(Former Subsection (7) Renumbered to Subsection (6) by Ord. 12,533, 2-18-00)

(7) Every landlord who accepts a security deposit shall, within twenty-one (21) days after a tenant surrenders the rental premises, return, in person or by mail, to the tenant at the tenant's forwarding address or at the tenant's last known address if a forwarding address is not provided to the landlord, either:

(a) The full security deposit; or

(b) A written, itemized statement showing the specific reason or reasons for the withholding of the deposit or any portion of the deposit, applicable receipts and estimates including the necessary hours and the wage rate for the work done or to be done any rent credit due, and a notice, in a minimum of ten-(10) point font, that the tenant will be provided a copy of the photographs documenting any damage, waste or neglect of the premises being charged to the tenant if requested by the tenant in writing within 30 days of receipt of the notice. Upon receipt of a timely request, the landlord has 30 days to provide the tenant a copy of the photographs maintained by the landlord under Sec. 32.07(14)(a) documenting the damage, waste or neglect. The landlord shall not be held responsible for the inability of the Post Office to complete delivery of a first class letter. (Am. by ORD-07-00015, 2-06-07; ORD-08-00043, 4-26-08; ORD-10-00108, 11-17-10)

(c) If a landlord returns a security deposit in the form of a check, draft, or money order, the landlord shall make the check, draft, or money order payable to all tenants who are parties to the agreement, unless the tenants designate a payee in writing.

(d) A tenant does not waive his or her right to the full amount owed under Subdivision (a) merely by accepting a partial payment of that amount.

(Former Subsection (8) Renumbered to Subsection (7) and Am. by Ord. 12,533, 2-18-00)

(8) A tenant surrenders the premises under Subsection (7) on the last day of tenancy provided under the rental agreement, except that:

(a) If the tenant vacates before the last day of tenancy provided under the rental agreement, and gives the landlord written notice that the tenant has vacated, surrender occurs when the landlord receives the written notice that the tenant has vacated. If the tenant mails the notice to the landlord, the landlord is deemed to receive the notice on the second day after mailing.

(b) If the tenant vacates the premises after the last day of tenancy provided under the rental agreement, surrender occurs when the landlord learns that the tenant has vacated.

(c) If the tenant is evicted, surrender occurs when a writ of restitution is executed, or the landlord learns that the tenant has vacated, whichever occurs first.
(Subsection (8) created by Ord. 12,533, 2-18-00)

(9) If the landlord fails to provide a written statement within the prescribed period in accordance with Sec. 32.07(7)(b), or fails to provide the tenant a copy of the photographs requested under Sec. 32.07(7)(b), or fails to comply with the security deposit limits in Sec. 32.07(2)(b) or fails to comply with the rent credit provisions of Sec. 32.07(3), or fails to comply with or otherwise violates Sec. 32.07(14) and (15) concerning the reasons for which security deposits may be withheld, the landlord forfeits all rights to any portion of the deposit. (Am. by ORD-08-00043, 4-26-08)

(10) If a landlord fails to comply with or otherwise violates the ordinance provisions set forth below, the tenant shall have the right to recover damages in the amount indicated below together with costs including reasonable attorney's fees:

Ordinance Violation	Damages
(a) Failure to comply with the security deposit limit in Sec. 32.07(2)(b).	The money due plus up to twice the amount wrongfully held.
(b) Failure to comply with the rent credit provisions under Sec. 32.07(3).	The money due plus up to twice the amount wrongfully withheld or not provided.
(c) Failure to use check-in/check-out forms under Sec. 32.07(5).	The money due plus up to twice the amount wrongfully withheld.
(d) Failure to return security deposit or provide written statement of reasons for withholding under Sec. 32.07(7)(a) & (b)	The money due plus up to twice the amount wrongfully withheld.
(e) Failure to comply with Sec. 32.07(14) & (15) relating to the reasons for which security deposits may be withheld.	The money due plus up to twice the amount wrongfully withheld.

(11) The holder of the landlord's interest in the premises at the time of the termination of the tenancy is bound by this section.

(12) This section does not preclude the landlord or tenant from recovering other damages to which the landlord or tenant is entitled.

(13) Any attempted waiver of this section by a landlord or tenant by contract or otherwise is void and unenforceable.

(14) A landlord may withhold from a tenant's security deposit only for the following:

(a) Tenant damage, waste or neglect of the premises, provided that the landlord documents such damage, waste or neglect of the premises with photographic evidence (in any form, so long as such damage, waste or neglect can be photographed), a copy of which must be provided to the tenant upon a timely request being made under Section 32.07(7)(b) and which photographs must be retained by the landlord for either 90 days from providing the tenant notice under Sec. 32.07(7)(b) of partial or full withholding of the security deposit, or 90 days from the start of a new tenancy for the premises, whichever is later. The failure of

a landlord to take, provide, or retain a photograph documenting a specific claim of damage, waste or neglect that was able to be photographed only precludes the landlord from withholding from the tenant's security deposit for the specific claim in question, and does not otherwise affect the landlord's ability to recover for such damage, waste or neglect. However, if the tenant accepts responsibility for a specific claim of damage, waste or neglect, in writing on the checkout form, no photograph will be required to be taken, provided, or retained of the specific item. (Am. by ORD-08-00043, 4-26-08)

(b) Unpaid rent for which the tenant is legally responsible, subject to Sec. 704.29, Wis. Stats.

(c) Payment which the tenant owes for utility service provided by the landlord but not included in the rent.

(d) Payment which the tenant owes for direct utility service provided by a government-owned utility, to the extent that the landlord becomes liable for the tenant's nonpayment.

(e) Unpaid mobile home parking fees assessed against the tenant by a local unit of government under Sec. 66.0435(3), Wis. Stats., to the extent that the landlord becomes liable for the tenant's nonpayment.

(f) Other reasons authorized in the rental agreement, which may include one or more non-standard rental provisions authorizing a landlord to withhold from a tenant's security deposit for reasons not identified in Subdivisions (a) through (e). The landlord shall include the non-standard provisions, if any, in a separate written document entitled "NON-STANDARD RENTAL PROVISIONS" which the landlord provides to the tenant. The landlord shall specifically identify and discuss each non-standard provision with the tenant before the tenant enters into any rental agreement with the landlord. If the tenant signs or initials a non-standard rental provision, it is rebuttably presumed that the landlord has specifically identified and discussed that non-standard provision with the tenant and that the tenant has agreed to it.

Notwithstanding the language above which allows additional reasons for withholding security deposits if those are specified in writing, nothing in this subsection or elsewhere in this chapter shall be construed as authorizing any withholding for normal wear and tear, including activities that are customarily performed by the landlord or the landlord's agents before a new tenancy commences, including, but not limited to, washing windows, shampooing carpets, occasional repainting or reupholstering furniture; or for other damages or losses for which the tenant is not otherwise responsible under applicable law.

(15) No landlord may intentionally misrepresent or falsify any claim against a security deposit, including the cost of repairs, or withhold any portion of a security deposit pursuant to an intentionally falsified claim.

(Sec. 32.07 Am. by Ord. 10,812, Adopted 1-18-94; Am. by Ord. 12,533, 2-18-00; Former Subsection (4) repealed by Ord. 12,533, 2-18-00)

32.08 HOUSING OWNERSHIP, DEFECT AND INFORMATION DISCLOSURE.

(1) The landlord or any person authorized to enter into a rental agreement on the landlord's behalf shall disclose to the tenant in writing, at or before the execution of a rental agreement whether oral or written, the name, address and telephone number of:

(a) The person authorized to collect or receive rent and manage and maintain the premises, and who can promptly be contacted by the tenant; and

(b) An owner of the premises or a person authorized to act for and on behalf of the owner for the purpose of service of process and for the purpose of receiving and receipting for notices and demands. The address disclosed shall be an address within the state at which service of process can be made in person.

(c) A landlord shall keep tenants informed of changes, if any, in the information required in Subdivisions (a) and (b). The landlord shall mail or deliver written notice of each change within ten (10) business days after the change occurs. This section extends to and is enforceable against any successor landlord.

(d) This subsection does not apply to an owner-occupied structure containing no more than four (4) dwelling units.

(Subsection (1) Am. by Ord. 12,533, 2-18-00; Ord. 13,224, 1-25-03)

(2) Code Violations and Conditions Affecting Habitability. Before entering into a rental agreement or accepting any earnest money or security deposit from the prospective tenant, the landlord shall disclose to the prospective tenant:

(a) The following conditions affecting habitability, the existence of which the landlord knows or could know on basis of reasonable inspection, whether or not notice has been received from code enforcement authorities:

1. The dwelling unit lacks hot or cold running water.

2. Heating facilities serving the dwelling unit are not in safe operating condition, or are not capable of maintaining a temperature in all living areas of the dwelling unit of at least 67°F (19°C) during all seasons of the year in which the dwelling unit may be occupied. Temperatures in living areas shall be measured at the approximate center of the room, midway between floor and ceiling.

3. The dwelling unit is not served by electricity, or the electrical wiring, outlets, fixtures or other components of the electrical system are not in safe operating condition.

4. Any structural or other conditions in the dwelling unit or premises which constitute a substantial hazard to the health or safety of the tenant, or create an unreasonable risk of personal injury as a result of any reasonably foreseeable use of the premises other than negligent use or abuse of the premises by the tenant.

5. The dwelling unit is not served by plumbing facilities in good working condition.

6. The dwelling unit is not served by sewage disposal facilities in good operating condition.

(b) Utility Charges. If charges for water, heat or electricity are not included in the rent, the landlord shall disclose this fact to the tenant before entering into a rental agreement or accepting any earnest money or security deposit from the prospective tenant. If individual dwelling units and common areas are not separately metered, and if the charges are not included in the rent, the landlord shall disclose the basis on which charges for utility services will be allocated among individual dwelling units.

(c) The landlord or any person authorized to enter into a rental agreement shall exhibit to the prospective tenant, prior to the time a rental agreement is entered into, the following:

1. A copy of any official notice of outstanding violation of Chapter 27 (Minimum Housing and Property Maintenance Code), Chapter 28 (Zoning Code) or Chapter 29 (Building Code) of the Madison General Ordinances of which the said landlord or person has actual notice and which affects the subject rental building regardless of the location of the violation(s) or defect(s) therein; and

2. A copy of any Hearing Examiner decision and order which affects the subject rental unit or any common areas of the subject rental building.

3. The failure by a landlord to comply with the provisions of this subdivision regarding written notice of a successor tenant's right to abate rent shall not be subject to the penalties set forth in Sec. 32.14 of the Madison General Ordinances.

In addition, prior to the time a rental agreement is entered into, the landlord shall advise the prospective tenant in writing of a successor tenant's right to abate rent pursuant to the order aforementioned until authorization to abate ceases as provided in Sec. 32.06(6). In cases where the rent abatement request is pending at the time the rental agreement is entered into, the landlord shall provide the successor tenant written notification of a successor tenant's rights when the case has been decided and shall exhibit a copy of the decision and order to the prospective tenant upon receipt thereof.

Finally, at the time occupancy commences the landlord shall exhibit to the tenant (formerly, prospective tenant) a copy of all additional official notices referred to in Subdivision (a) above and a copy of all decisions and orders referred to in Subdivision (b) above, if any have been issued since the signing of the rental agreement. Similarly, at the time of occupancy the landlord shall provide the required written notice of a successor tenant's rights with respect to all such additional official notices and decisions.

The written notice of successor tenant's rights shall specifically state in underlined or otherwise emphasized print the following: "If you wish to become a successor tenant and to abate rent in accordance with Chapter 32 of the Madison General Ordinances you must provide your landlord and the Rent Abatement Clerk with written notice of that intent within fifteen (15) days of receiving written notification from your landlord of your right as a successor tenant to abate rent. Failure to provide your landlord with timely written notice forfeits your right to be a "successor tenant" and to abate rent as a successor tenant under Chapter 32 of the Madison General Ordinances.

(Sec. 32.08(2)(d) Am. by Ord. 9796, 5-31-89; Renumbered to Subsection (c) and Am. by Ord. 12,533, 2-18-00)

(d) The landlord or any person authorized to enter into a rental agreement shall notify the prospective tenant in writing, prior to the time a rental agreement is entered into, of occupancy limits imposed on the premises by Sec. 27.06 of the Minimum Housing and Property Maintenance Code; the family definition in Sec. 28.211 of the Zoning Code and the zoning district in which the premises are located; and the off-street parking requirements in Sec. 28.141 of the Zoning Code. Any tenant required to vacate leased premises because of a violation of any of the sections of the Madison General Ordinances herein specified is relieved of any further obligation under the lease, if he or she has not been so notified. (Am. by ORD-12-00134, 1-2-13)

(3) Any person authorized to enter into a rental agreement on the landlord's behalf and who fails to comply with Subsections (1) and (2), becomes an agent of each person who is a landlord for the purpose of:

(a) Service of process and receiving and receipting for notices and demands; and

(b) Performing the obligations of the landlord under this section and under the rental agreement and expending or making available for such purpose all rent collected from the premises.

(4) Penalty. Any person who violates any provision of this section or fails to comply with any of its requirements shall upon conviction thereof forfeit not less than seventy-five dollars ($75) nor more than one thousand five hundred dollars ($1,500). (Am. by Ord. 12,881, 8-24-01)

(5) Written Reasons For Denial of or Non-Renewal of Tenancy.

(a) All applications for residential tenancy shall contain the following question in writing in a prominent place on the application: "Do you wish to receive a written explanation of the denial of tenancy? Yes ____ No ____."

(b) 1. Unless the applicant has indicated on the application that the applicant does not want to receive a written explanation of a denial of tenancy, the lessor or any person authorized to enter into rental agreements on behalf of the lessor, shall provide any applicant who is denied tenancy with a written statement of reasons for the denial of tenancy as required by sub (d).

2. If the applicant has indicated s/he does not want to receive a written explanation, the applicant may request a written explanation of a denial within thirty (30) days and the lessor shall provide the statement as required by sub. (d).

(c) A lessor that decides not to renew a tenant's lease at the expiration of the lease term or terminates a periodic tenancy or tenancy at will, shall provide the affected tenant with a notice of non-renewal as required by sub. (d). The notice shall be served at least sixty (60) days prior to the expiration of the lease term unless the term is shorter than sixty (60) days, which shall require a notice compliant with Wis. Stat. § 704.19.

(d) 1. In denying an initial application for tenancy or non-renewal of a lease at the expiration of a lease term or a tenancy period or terminating a tenancy at will, the lessor shall furnish the applicant or tenant a written statement of the reasons tenancy was denied or terminated.

2. The statement shall include the reason(s) for the action, a description of the information supporting the decision, and identification of all sources of the relied-upon information. Lessor shall also furnish the applicant with a copy of the lessor's tenant selection policies.

3. The written notification required by sub. 1. shall be personally delivered or mailed to the applicant within three (3) days of the denial of tenancy.

4. An application is deemed denied for the purpose of this section if no determination is made by the lessor within twenty-one (21) days of the date the completed application is received by the lessor.

(Sec. 32.08(5) R. & Rec. by ORD-13-00181, 11-5-13)

(6) Severability. The provisions of any part of this ordinance are severable. If any provision or subsection hereof or the application thereof to any person or circumstances is held invalid, the other provisions, subsections and applications of such ordinance to other persons or circumstances shall not be affected thereby. It is declared to be the intent of this ordinance that the same would have been adopted had such invalid provisions, if any, not been included herein.

(7) Effective Date. The effective date of this section shall be August 1, 1978. All disclosure and notice to tenant requirements under Subsections (1) and (4) shall be given to tenants under existing rental agreements on or prior to said date and thereafter to any new tenants as provided herein. The requirements of Subsection (2) shall be effective on August 1, 1978 and be applicable to all current and future tenancies.

(8) Requirement That Landlord Notify Tenant of Automatic Renewal Clause. A provision in a lease of residential property that the lease shall be automatically renewed or extended for a specified period unless the tenant or either party gives notice to the contrary prior to the end of the lease is not enforceable against the tenant unless the lessor, at least fifteen (15)

days but not more than thirty (30) days prior to the time specified for the giving of such notice to him, gives to the tenant written notice in the same manner as specified in Sec. 704.21, Wis. Stats. calling the attention of the tenant to the existence of the provision in the lease for automatic renewal or extension.

(Sec. 32.08 Am. by Ord. 7542, 10-22-81; Former Subsection (3) Repealed, and Former Subsections (4)-(8) Renumbered to Subsections (3)-(7) by Ord. 12,533, 2-18-00; Former Subsections (5)-(7) Renumbered to Subsections (6)-(8) by Ord. 13,039, 3-26-02)

32.09 PROMISES TO REPAIR.

(1) Date of Completion. Every promise or representation made by a landlord to a tenant or prospective tenant to the effect that the dwelling unit or any other portion of the premises, including furnishings or facilities, will be cleaned, repaired or otherwise improved by the landlord shall specify the date or time period on or within which the cleaning, repairs or improvements are to be completed.

(2) Initial Promises in Writing. All promises made before the initial rental agreement shall be in writing with a copy furnished to the tenant.

(3) Performance; Unavoidable Delays. No landlord shall fail to complete the promised cleaning, repairs or improvements on the date or within the time period represented under Subsection (1), unless the delay is for reason of labor stoppage, unavailability of supplies or materials, unavoidable casualties, or other causes beyond the landlord's control. The landlord shall give timely notice to the tenant of reasons beyond the landlord's control for any delay in performance, and stating when the cleaning, repairs or improvements will be completed.

(4) Private Right to Recovery. Nothing herein shall be construed so as to deprive any tenant or prospective tenant from maintaining and prosecuting a private action against a landlord for damages caused by said landlord's failure to comply with any provision of this section of the ordinances.

(Sec. 32.09 Cr. by Ord. 7542, 10-22-81)

32.10 EARNEST MONEY DEPOSITS.

(1) A landlord may not accept an earnest money deposit or security deposit from a rental applicant until the landlord identifies to the applicant the dwelling unit or units for which the applicant is being considered for tenancy.

(2) Refunding or Crediting An Earnest Money Deposit.

(a) A landlord who receives an earnest money deposit from a rental applicant shall send the full deposit to the applicant by first-class mail, or shall deliver the full deposit to the applicant, by the end of the next business day after any of the following occurs:

1. The landlord rejects the rental application or refuses to enter into a rental agreement with the applicant.
2. The applicant withdraws the rental application before the landlord accepts that application.
3. The landlord fails to approve the rental application by the end of the third business day after the landlord accepts the applicant's earnest money deposit, or by a later date to which the tenant agrees in writing. The later date may not be more than 21 calendar days after the landlord accepts the earnest money deposit.

(b) A landlord who receives an earnest money deposit from a rental applicant shall do one of the following if the landlord enters into a rental agreement with that applicant:

1. Apply the earnest money deposit as rent or as a security deposit.
2. Return the earnest money deposit to the tenant.

(c) A person giving an earnest money deposit to a landlord does not waive his or her right to the full refund or credit owed under Subdivision (a) or (b) merely by accepting a partial payment or credit of that amount.

(3) Withholding An Earnest Money Deposit.

(a) A landlord may withhold from a properly accepted earnest money deposit if the prospective tenant fails to enter into a rental agreement after being approved for tenancy, unless the landlord has significantly altered the rental terms previously disclosed to the tenant.

(b) A landlord may withhold from an earnest money deposit, under Subdivision (a), an amount sufficient to compensate the landlord for actual costs and damages incurred because of the prospective tenant's failure to enter into rental agreement. The landlord may not withhold for lost rents unless the landlord has made a reasonable effort to mitigate those losses, as provided under Sec. 704.29, Wis. Stats.

(c) Upon request by any person giving an earnest money deposit, the landlord shall provide that person with a written statement accounting for all amounts permanently withheld from the deposit.

(Sec. 32.10 Cr. by Ord. 7542, 10-22-81; Am. by Ord. 12,533, 2-18-00)

32.11 PROHIBITED RENTAL AGREEMENT PROVISIONS. No rental agreement may:

(1) Authorize the eviction or exclusion of a tenant from the premises, other than by judicial eviction procedures as provided under Ch. 799, Wis. Stats.

(2) Provide for an acceleration of rent payments in the event of tenant default or breach of obligations under the rental agreement, or otherwise purport or waive the landlord's obligation to mitigate damages as provided under Sec. 704.29, Wis. Stats.

(3) Require payment, by the tenant, of attorney's fees or costs incurred by the landlord in any legal action or dispute arising under the rental agreement. This does not prevent the recovery of costs or attorney's fees by a landlord or tenant pursuant to a court order under Ch. 799 or 814, Wis. Stats.

(4) Authorize the landlord or any agent of the landlord to confess judgment against the tenant in any action arising under the rental agreement.

(5) Relieve, or purport to relieve the landlord from liability for property damage or personal injury caused by negligent acts or omissions of the landlord. This does not affect ordinary maintenance obligations assumed by a tenant under a rental agreement, in accordance with Sub. (7) and Sec. 704.07, Wis. Stats.

(6) Impose, or purport to impose liability on a tenant for:

(a) Personal injury arising from causes clearly beyond the tenant's control.

(b) Property damage caused by natural disasters, or by persons other than the tenant or the tenant's guests or invitees. This does not affect ordinary maintenance obligations assumed by a tenant under the rental agreement, in accordance with Sub. (7) and Sec. 704.07, Wis. Stats.

(7) Provide for the waiver of any statutory or other legal obligation on the part of the landlord to deliver the premises in a fit or habitable condition, or maintain the premises during tenancy.
(Am. by Ord. 12,533, 2-18-00)

(8) Contain any provision which, if enforced or invoked, would violate Chapter 32 or other ordinance or state law. (Cr. by Ord. 10,812, Adopted 1-18-94)

(9) Require payment by the tenant of the cost of cleaning or shampooing carpet or require that carpet be cleaned or shampooed at the end of a lease term, unless there is unusual damage caused by tenant abuse. (Cr. by Ord. 13,174, 11-5-02; Reconsidered & republished, 11-26-02)

(Sec. 32.11 Cr. by Ord. 7542, 10-22-81)

32.12 PROHIBITED PRACTICES.

(1) Advertising or Rental of Condemned Premises. No landlord may rent or advertise for rent any premises which have been placarded and condemned for human habitation, or on which a notice of intent to placard and condemn, or an order to raze, or to rehabilitate or raze, or any similar order has been received under state or local laws or ordinances, until and unless all repairs required to bring the property into compliance with the laws or ordinances have been completed.

(2) Automatic Lease Renewal Without Notice. No landlord shall enforce, or attempt to enforce, an automatic renewal or extension provision in any lease unless, as provided under Sec. 704.15, Wis. Stats., the tenant was given separate written notice of the pending automatic renewal or extension at least fifteen (15) days, but no more than thirty (30) days before its stated effective date.

(3) Confiscation of Personal Property. No landlord may seize or hold a tenant's personal property, or prevent the tenant from taking possession of the tenant's personal property, except as authorized under Secs. 704.05(5) and 779.43, Wis. Stats., or a written lien agreement between the landlord and the tenant. A lien agreement, if any, shall be executed in writing at the time of the initial rental agreement. The landlord shall include the lien agreement in a separate written document entitled "NON-STANDARD RENTAL PROVISIONS" which the landlord provides to the tenant. The landlord shall specifically identify and discuss the lien agreement with the tenant before the tenant enters into any rental agreement with the landlord. The lien agreement is not effective unless signed or initialed by the tenant. Any proceeds from the disposition of personal property that, together with a security deposit, exceed one month's rent shall be due the tenant. (Am. by Ord. 12,533, 2-18-00)

(4) Retaliatory Conduct.

(a) Except as provided in sub. (b), no landlord shall terminate a tenancy or give notice preventing the automatic renewal of a lease, or refuse to renew a lease, or constructively evict a tenant by means of the termination or substantial reduction of heat, water or electricity to the dwelling unit, or report the tenant to law enforcement authorities as having unlawfully entered or immigrated into the United States regardless of the validity of such a report, or threaten any of the preceding, in retaliation against a tenant if there is a preponderance of evidence that the action or inaction would not occur but for the landlord's retaliation against the tenant for doing any of the following:

1. Reporting a violation of this chapter or a building or housing code to any governmental authority, or filing suit alleging such violation; or
2. Joining or attempting to organize a tenant's union or association or a neighborhood watch group or a neighborhood association; or
3. Asserting, or attempting to assert any right specifically accorded to tenants under state or local law.

(b) Notwithstanding sub. (a), a landlord may bring an action for possession of the premises if the tenant has not paid rent other than a rent increase prohibited by sub. (a).

(Am. by Ord. 13,711, 10-26-04; ORD-07-00143, 10-18-07)

(5) Self-Help Eviction. No landlord may exclude, forcibly evict, or constructively evict a tenant from a dwelling unit other than by an eviction procedure specified under Chapter 799, Wis. Stats. (Cr. by Ord. 12,533, 2-18-00)

(6) Failure to Deliver Possession. No landlord shall fail to deliver possession of the dwelling unit to the tenant at the time agreed upon in the rental agreement, except where the landlord is unable to deliver possession because of circumstances beyond the landlord's control.

(Renumbered from 32.12(5) by Ord. 12,533, 2-18-00)

(7) Minimum Income Requirements.

(a) No landlord may deny an application for housing based solely on a minimum income requirement or minimum income-to-rent ratio or other financial criterion of a similar nature as part of a prospective tenant screening process if other reliable, demonstrable evidence of an applicant's actual ability to pay the rental amount exists and is provided by the applicant.

"Evidence of actual ability to pay the rental amount" shall mean demonstrated ability to pay both (i) a comparable income-to-rent ratio and (ii) a comparable rent amount over the past twenty-four months with income from any lawful source or combination of lawful sources. A landlord may consider increases in the applicant's expenses and debts compared to the prior twenty-four month period when calculating the evidence of the actual ability to pay the rental amount. "Reliable demonstrable evidence" shall include but not be limited to: references from landlords and employers or written documentation reasonably necessary to verify prior rent payment history and income, such as a lease, cancelled checks or receipts; certificates, vouchers, or other proof of governmental assistance; wage statements; pay stubs or proof of other lawful sources of income; or tax returns. "Comparable" shall mean equal to or greater than.

(b) No landlord may require any prospective tenant to produce or disclose their Social Security Number in relation to an application for housing or in relation to the execution of a lease, unless such disclosure is mandated by state or federal law. An applicant's refusal to provide a Social Security Number to a landlord shall not be a basis upon which said landlord may deny housing to such an applicant unless such disclosure is mandated by state or federal law. Every application for housing which requests the production or disclosure of an applicant's Social Security Number shall notify the applicant of the specific state or federal statute which mandates such disclosure or shall notify the applicant that such disclosure is voluntary and that the landlord may not deny the applicant housing on the basis of the applicant's decision to withhold their Social Security Number. (Cr. by Ord. 13,711, 10-26-04)

(c) Nothing in this subsection shall prohibit a landlord from requesting supplementary documentation of income if required to do so by law or as a condition of eligibility under any local, state or federal government program or from voluntarily considering other evidence of actual ability to pay submitted by an applicant in the event reliable demonstrable evidence as defined above does not exist.

(d) Nothing in this subsection shall prohibit a landlord from requiring a co-signer or guarantor for a rental agreement, where the applicant does not meet the minimum income requirement or minimum income-to-rent ratio and some or all of the rent will be paid by a private individual on the applicant's behalf.

(e) Nothing in this subsection shall be construed to prohibit a landlord from denying an application based solely on an applicant's participation in, or the requirements of, the federal Section 8 program.

(f) In addition to the penalties provided in this chapter, an applicant who is denied housing based on a minimum income requirement or minimum income-to-rent ratio may sue for damages therefor in a court of competent jurisdiction and shall recover twice the amount of any pecuniary loss, together with costs including reasonable attorney's fees.

(g) Upon receipt of an application for housing or an earnest money deposit, the landlord shall disclose in writing to the applicant any use of a minimum income requirement or minimum income-to-rent ratio and the reliable demonstrable evidence acceptable to landlord as part of a prospective tenant screening process.

(h) Upon denial of an application for housing that is based solely on a minimum income requirement or minimum income-to-rent ratio, the landlord shall furnish

in writing to the applicant a notice of the reason or reasons for the denial. Reasons for denial shall be provided to the applicant by the end of the third business day after the landlord receives the application or earnest money deposit, or by a later date to which the applicant agrees in writing. The later date may not be more than 21 calendar days after the landlord receives the earnest money deposit. The notice of reasons for denial shall inform the applicant that the application will receive another consideration if there is an available unit and if the applicant furnishes to the landlord evidence of actual ability to pay the rental amount. Notice of denial shall also include information regarding the type of information the landlord will find acceptable in order to reconsider the applicant. Notwithstanding the above, nothing in this subsection shall require a landlord to hold the apartment for an applicant who has initially been denied based on a minimum income requirement or minimum income-to-rent ratio.

(i) This ordinance shall become effective 45 days from the date of its adoption by the Common Council.

(j) (Repealed by Ord. 12,772, 3-13-01)

(Sec. 32.12 Cr. by Ord. 7542, 10-22-81; Am. by Ord. 12,473, 9-23-99; Sec. 32.12(7) renumbered from Sec. 32.12(6) by Ord. 12,533, 2-18-00)

(8) Showing Premises for Rental Purposes. No landlord may enter leased premises for the purpose of showing the premises to prospective tenants until one-fourth (¼) of the lease period has passed. This provision does not apply to:

(a) entry for the purpose of subletting or if a lease period is less than nine (9) months; or

(b) if a summons and complaint for eviction has been filed.

(c) such dates and times agreed to in writing by the landlord and tenant, when the tenant has signed a notice of non renewal. (Cr. by Ord 13,702, 9-29-04)

(Cr. by Ord. 12,709, 11-9-00; Am. by Ord 13,702, 9-29-04)

(9) Landlord and Tenant shall enter into a Non Standard Rental Provision, in the manner prescribed in Sec. 32.07(14)(f), Madison General Ordinances, that provides that Landlord will not enter into an agreement to rent the leased premises to another tenant for the subsequent lease period until after the date specified in the Non Standard Rental Provision. This provision does not apply if a lease period is less than nine (9) months Nothing in this subsection shall prohibit a landlord from mitigating their damages after an eviction or a lease termination.

(a) If Landlord and Tenant fail to enter into a Non Standard Rental Provision regarding showing premises for rental purposes, then it is presumed that the parties to the lease intend that the Landlord will not rent the leased premises to another tenant for a subsequent lease period until after one-fourth (¼) of the lease period has passed.

(Cr. by Ord. 12,709, 11-9-00; Am. by Ord. 13,702, 9-29-04)

(10) Threats of Prohibited Practices. No landlord shall threaten to engage in, or attempt to engage in, any practice that violates Sections 32.12(3), 32.12(4) or 32.12(5) of the Madison General Ordinances. (Cr. by Ord. 12,817, 5-18-01)

(11) Late Rent Fees and Penalties. No landlord may charge a late rent fee or late rent penalty to a tenant, except as specifically provided under the rental agreement. A late rent fee or late rent penalty shall not exceed five percent (5%) of the periodic rental payment. Before charging a late rent fee or late rent penalty to a tenant, a landlord shall apply all rent payments received from that tenant to offset the amount of rent owed by a tenant. No landlord may charge any tenant a fee or penalty for nonpayment of a late rent fee or late rent penalty. If a landlord offers a tenant a rent discount or reduction in rent for the advance or timely payment of rent, then the landlord may not also charge a late rent fee or

late rent penalty. Such a rent discount or reduction shall not exceed five percent (5%) of the periodic rental payment. (Cr. by Ord. 12,533, 2-18-00; Renumbered by Ord. 12,709, 11-9-00; Ord. 13,175, 11-5-02)

(12) No landlord may do any of the following for the purpose of inducing any person to enter into a rental agreement:

(a) Misrepresent the location, characteristics or equivalency of dwelling units owned or offered by the landlord.

(b) Misrepresent the amount of rent or non-rent charges to be paid by the tenant.

(c) Fail to disclose, in connection with any representation of rent amount, the existence of any non-rent charges which will increase the total amount payable by the tenant during tenancy.

(d) Misrepresent to any person, as part of a plan or scheme to rent a dwelling unit to that person, that the person is being considered as a prospective tenant for a different dwelling unit.

(Renumbered by Ord. 12,709, 11-9-00)

(13) City Financial Assistance.

(a) Refusal to Make Available. It shall be unlawful for any person receiving City financial assistance for the development, redevelopment or rehabilitation of a housing project to refuse to rent or lease, refuse to negotiate for the lease or rental, or otherwise make unavailable, deny or withhold such housing solely because the applicant for housing is a direct recipient of federal, state or local government housing subsidies. Recipients of City financial assistance shall comply with this subdivision for a minimum of the term of assistance or longer, as negotiated. This provision shall apply only to the specific project receiving City financial assistance.

(b) Effective Date. This provision shall apply to projects receiving new City financial assistance on or after December 1, 2002.

(Cr. by Ord. 13,171, 10-29-02)

(14) Rent In Place. It shall be unlawful for a landlord to: terminate the tenancy of a tenant, prior to the last day of tenancy under the existing rental agreement, based solely upon the tenant's participation in, or the requirements of the federal Section 8 program, when the tenant has received a voucher for the federal Section 8 program from the CDA; or refuse to accept rent payments in the form of a federal Section 8 voucher when the tenant has received said voucher after the approval of the rental application.

(a) Amendments and Extension of Lease. Any amendments to the rental agreement, or any rental agreement, which may be required by the tenant's participation in the federal Section 8 program shall not extend the term of the tenancy beyond the last day of the rental agreement, unless the tenant and landlord agree to such an extension.

(b) Referral to City Attorney. A refusal by a landlord to participate in the Section 8 Program when a tenant has received a voucher for it from the CDA prior to the last day of tenancy under the existing rental agreement may be reported to the CDA, who shall refer the refusal to the City Attorney. A landlord found to have wrongly denied tenancy under the Section 8 program may be prosecuted by the City Attorney's office and, upon conviction, shall be subject to the penalties under Sec. 32.12(16) of these ordinances.

(c) Effective Date. This Subsection shall take effect on November 1, 2002.

(Cr. by Ord. 13,171, 10-29-02; Am. by ORD-06-00052, 5-4-06)

(15) No landlord may refuse to provide an application form or deny an application for housing based solely on the status of a tenant's application for a Section 8 voucher or that a tenant is on a waiting list to receive a Section 8 voucher. A refusal by a landlord to provide an application form or deny an application for housing based solely on the status of a tenant's application for a Section 8 voucher or that a tenant is on a waiting list to receive a Section 8 voucher may be reported to the CDA who shall refer the refusal to the City Attorney. A

landlord found to have wrongly denied tenancy under the Section 8 program may be prosecuted by the City Attorney's office and, upon conviction, shall be subject to the penalties under Sec. 32.12(17) of these ordinances.

(a) Participation Limited. Nothing in this subsection shall be construed to require a landlord to participate in the federal Section 8 program other than to accept a federal Section 8 voucher from a tenant pursuant to Secs. 32.12(13) and (14), Madison General Ordinances.

(b) Effective Date. This Subsection shall take effect on November 1, 2002.

(Cr. by Ord. 13,171, 10-29-02; Am. by ORD-06-00052, 5-4-06)

(16) Penalty.

(a) By City. Any person who violates any provisions contained in Subsections 32.12 (13), (14) or (15) of these ordinances, or fails to comply with any of the several requirements, shall upon conviction thereof forfeit not less than $100 nor more than $3,000 for the first conviction within three (3) years; not less than $3,000 nor more than $5,000 for a second conviction within three (3) years; and not less than $5,000 nor more than $10,000 for a third or subsequent conviction within three (3) years.

(b) By Tenant. In addition to the forfeitures provided above, any tenant subjected to a landlord's unlawful conduct prohibited in Subsections 32.12(13), (14) or (15), above, shall be entitled to initiate a separate cause of action and shall be entitled to receive up to triple his/her actual damages plus reasonable attorney's fees and costs.

(Cr. by Ord. 13,171, 10-29-02)

(17) Severability. The provisions of any part of this ordinance are severable. If any provision or subsection hereof or the application thereof to any person or circumstances is held invalid, the other provisions, subsections and applications of such ordinance to other persons or circumstances shall not be affected thereby. It is declared to be the intent of this ordinance that the same would have been adopted had such invalid provisions, if any, not been included herein.

(Cr. by ORD-07-00143, 10-18-07)

32.13 REPAIRS, UNTENANTABILITY.

(1) Application of Section. This section applies to any tenancy if there is no contrary provision in writing signed by both parties. Nothing in this section is intended to affect rights and duties arising under other provisions of the Statutes.

(2) Duty of Landlord.

(a) Unless the repair was made necessary by the negligence or improper use of the premises by the tenant, the landlord is under duty to:

1. Keep in reasonable state of repair portions of the premises over which the landlord maintains control;
2. Keep in a reasonable state of repair equipment under her/his control necessary to supply services which the landlord has expressly or impliedly agreed to furnish to the tenant, such as heat, water, elevator or air-conditioning;
3. Make necessary structural repairs;
4. Repair or replace plumbing, electrical wiring, machinery or equipment furnished with the premises and no longer in reasonable working condition, except as provided in Sec. 32.13(3)(b). (Am. by ORD-14-00012, 1-14-14)

(b) If the premises are part of a building, other parts of which are occupied by one or more other tenants, negligence or improper use by one tenant does not relieve the landlord from her/his duty as to the other tenants to make repairs as provided in Subdivision (a) above. (Am. by ORD-14-00012, 1-14-14)

(c) If the premises are damaged by fire, water or other casualty, not the result of the negligence or intentional act of the landlord, this subsection is inapplicable and either Sec. 32.13(3) or (4) governs.

(3) Duty of Tenant.

(a) If the premises are damaged by the negligence or improper use of the premises by the tenant, the tenant must repair the damage and restore the appearance of the premises by redecorating. However, the landlord may elect to undertake the repair or redecoration, and in such case the tenant must reimburse the landlord for the reasonable cost thereof; the cost to the landlord is presumed reasonable unless proved otherwise by the tenant.

(b) The tenant is also under a duty to keep plumbing, electrical wiring, machinery and equipment furnished with the premises in reasonable working order if repair can be made at cost which is minor in relation to the rent.

(4) Untenantability Because of Damage by Fire, Water or Other Casualty, or Hazard to Health. If the premise becomes untenantable because of damage by fire, water or other casualty or because of any condition hazardous to health, the tenant may remove from the premises unless the landlord proceeds promptly to repair or rebuild or eliminate the health hazard; or the tenant may remove if the inconvenience to the tenant by reason of the nature and period of repair, rebuilding or elimination would impose undue hardship on him. If the landlord proceeds to repair or rebuild the premises or eliminate the hazard to health, and the tenant remains in possession, rent abates to the extent the tenant is deprived of the full normal use of the premises. If the tenant justifiably moves out under this subsection, the tenant is not liable for rent after the premises become untenantable and the landlord must repay any rent paid in advance apportioned to the period after the premises become untenantable. This subsection is inapplicable if the damage or condition is caused by negligence or improper use by the tenant.

(Sec. 32.13 Cr. by Ord. 7542, 10-22-81)

32.14 PENALTIES.

(1) Any violation of any section of Chapter 32 of the Madison General Ordinances for which there is not provided a specific penalty shall be subject to a forfeiture of not less than sixty dollars ($60) nor more than six hundred dollars ($600) upon conviction. Each day of violation shall be construed as a separate offense.

(2) The civil remedies provided to landlords and tenants in this chapter are not intended to preclude prosecution of an individual for violating any of the provisions of this chapter and the imposition of a forfeiture by the court upon conviction.

(Sec. 32.14 Am. by Ord. 10,812, Adopted 1-18-94; Ord. 12,817, 5-18-01; Ord. 12,881, 8-24-01)

32.15 RETALIATION PROHIBITED.

(1) No person or tenant shall be retaliated against for complaining of violations of Secs. 32.05, 32.07, 32.11, 32.12 or 32.13 of the Madison General Ordinances or for complying with those sections.

(2) Retaliation shall include, but not be limited to, eviction, inconsistent rent payment increases, failure to perform promised repairs, refusal to renew a lease or other harassment of the tenant committed by the landlord or his or her agents, or threatening any of the preceding. Any such acts shall be presumed to be retaliatory if committed within six months after the tenant has complained to any state or local investigatory or enforcement agency of violations of Secs. 32.05, 32.07, 32.11, 32.12 or 32.13 of the Madison General Ordinances or their statutory or administrative code equivalents. In order to overcome the presumption that such acts are retaliatory, the landlord must show by a preponderance of evidence that such acts were based upon good cause, as that term is used in this Chapter. (Am. by Ord. 10,452, Adopted 5-19-92; ORD-07-00143, 10-18-07)

(3) Any retaliatory act is hereby declared null and void and, in addition to any other penalty provided in this Chapter, is subject to a forfeiture of not less than one hundred fifty dollars ($150) nor more than nine hundred dollars ($900) for each such act. (Am. by Ord. 12,881, 8-24-01)

(4) Enforcement by Tenant. Any person suffering damages because of a violation by any other person of Section 32.15, or Section 32.12(4), may sue for damages therefor in any court of competent jurisdiction and shall recover twice the amount of such damages, together with costs, including reasonable attorney's fees. (Cr. by ORD-07-000143, 10-18-07)

(5) Severability. The provisions of any part of this ordinance are severable. If any provision or subsection hereof or the application thereof to any person or circumstances is held invalid, the other provisions, subsections and applications of such ordinance to other persons or circumstances shall not be affected thereby. It is declared to be the intent of this ordinance that the same would have been adopted had such invalid provisions, if any, not been included herein. (Cr. by ORD-07-000143, 10-18-07)

(Section 32.15(1)-(3) Cr. by Ord. 8544, 3-18-85)

32.16 SELF-SERVICE STORAGE FACILITIES.

For the purposes of this subsection, the definitions found in Wis. Stat. § 704.90(1) shall apply. No operator of a self-storage facility may charge fees to a lessee, except as specifically provided under the rental agreement. A late fee shall not exceed the greater of fifteen percent (15%) of the periodic rent payment or ten dollars ($10.00) for the first late rent payment in any twelve month period and shall not exceed the greater of fifteen percent (15%) of the periodic rent payment or twenty dollars ($20.00) for the second or subsequent late rent payment in any twelve month period. A late fee may not be imposed until 3 calendar days after the unpaid rent is due. When a discount in the amount of rent due is given for payment prior to or on the due date provided in the rental agreement, such discount shall be considered a late fee. Late fees do not include expenses necessary to the preservation, removal, storage, preparation for sale and sale of the personal property, as provided in Sec. 704.90(3), Wis. Stats. (Cr. by Ord. 13,415, 10-4-03)

32.17 SELF HELP REPAIRS.

(1) Eligibility. As an addition to the rent abatement procedures contained in Sec. 32.04, MGO, if a landlord of a rental premises fails to comply with an order of the Building Inspection Division of the Department of Planning and Community and Economic Development by the original or extended due date and after the issuance of the letter of eligibility for rent abatement, unless such due date is found to be unreasonable upon appeal to the Board of Building Code, Fire Code, Conveyance Code and Licensing Appeals pursuant to Sec. 29.18(3) of the Madison General Ordinances, the tenant may elect to cause repairs to be made to correct the violations contained in the order, in accordance with this Sec. 32.17, MGO and deduct the cost of those repairs from their rent, pursuant to this section. If said order of the Building Inspection Division contains more than one item that has not been completed by said due date, the tenant may elect to seek rent abatement for one or more items and self help repairs. (Am. by ORD-09-00019, 3-14-09)

(2) Notice. Prior to commencing self help repairs, the tenant shall send a notice to the landlord, by first class mail, return receipt requested, at the address provided by the landlord to the tenant pursuant to Sec. 32.08(1)(b), or if the premises are an owner occupied structure containing no more than four (4) dwelling units, to the owner's residence. The Notice shall contain substantially the following information:

(a) The tenant's statement that the tenant intends to make self help repairs to the property.

(b) The name of the tenant.

(c) A list of the work to be performed. The list shall contain only work necessary to correct the deficiencies found by the Building Inspection Division that were not completed by the original due date.

(d) The name of the persons who will perform the work, including the name of any contractors, subcontractors or other persons hired by the tenant.

(e) The date that work will be commenced. Such date shall not be less than ten (10) days after the date of mailing the notice.

(f) If the tenant intends to perform part or all of the work, a good faith estimate of the number of hours needed to complete the work by the tenant.

This notice requirement shall be construed liberally in favor of the person giving notice. If the landlord has actual notice that the tenant intends to use this self help procedure to correct the items in the Order of the Building Inspection Division, the tenant shall not be barred from deducting the cost of the self help repair from their rent because of a deficiency in meeting this notice requirement.

(3) Commencement of Work.

(a) No work may be commenced by the tenant until ten (10) calendar days after the tenant has mailed, first class return receipt requested, the notice provided in Sub. (2). The notice provided in Sub. (2) may not be mailed more than ten (10) calendar days before the original due date provided in the original order of the Building Inspection Division. After ten (10) calendar days, if the landlord has not either: commenced the work contained in the order of the Building Inspection Division using their own employees and contractors, or agreed to do the work by assuming direct responsibility for supervising and compensating the contractors retained by the tenant under the schedule previously negotiated by the tenant and the contractor, then the tenant may commence the work. If the landlord agrees to commence the work to correct the deficiencies, the tenant shall make reasonable efforts to accommodate the work and to permit access to the dwelling unit. If the landlord agrees to commence the work to correct the deficiencies, but substantial compliance is not obtained within 30 days of commencing the work, the tenant shall again be eligible for the rent abatement procedures contained in Sec. 32.04, MGO, or the tenant may immediately proceed to complete the work and may deduct payments made by the tenant for work in the manner provided herein.

(b) The ten (10) day limit in this paragraph does not apply if the Building Inspection Division has issued orders for work that relates to health and safety that must be completed in less than ten (10) days. In such cases, the tenant may commence work within twenty-four (24) hours of giving notice.

(4) Scope of Work to be Deducted. No rent deduction may be made by the tenant for payment for any repairs or work other than work done to correct the code violations outlined in the order of the Building Inspection Division that were not corrected by the original due date.

(5) Rent Deduction. At the time rent is due, the tenant shall submit copies of all invoices for the work to the landlord along with an itemized statement indicating the actual cost of repairs paid for by the tenant and lien waivers from all contractors for work done. The tenant may deduct the entire amount of those repairs for which the tenant has a payment receipt and a lien waiver from contractors and suppliers, from the total amount of rent due. If the actual amount of the receipt for the work or materials exceeds one periodic rent payment, the excess shall be applied to future rents due until the entire amount paid by the tenant for the work or materials has been deducted from rent. In the event that tenants or co-tenants who pay separate rent have jointly completed the work, they may each deduct a pro rata share of the cost of the repairs from their respective rent payments.

If the owner files a letter of objection (copied to the tenant) with the Building Inspection Division within ten (10) days of receiving notice from the tenant of intent to make repairs under this ordinance, the tenant cannot reduce the rent under the provisions of this ordinance until determined eligible for rent abatement by a Hearing Examiner,

pursuant to Sec. 32.04, MGO. For those items determined to be eligible for rent abatement, the landlord will reimburse the tenant one hundred and twenty-five percent (125%) of the costs for repairs as determined by the Hearing Examiner.

(6) Who May Perform Work; Permits Required. When State law, the Wisconsin Administrative Code, Madison General Ordinances or other applicable regulations require that a licensed professional or state-credentialed dwelling contractor perform the work to correct the deficiencies, including architectural, design, surveying, electrical, plumbing, heating and air conditioning work, no one other than a properly licensed professional or state-credentialed dwelling contractor shall perform such work. The tenant shall not perform any work themselves when a licensed professional or state-credentialed dwelling contractor is required to perform the work, nor shall the tenant permit such work to be done by anyone other than a properly licensed professional or state-credentialed dwelling contractor qualified to do the work. A tenant may deduct the cost of materials used by the tenant if the tenant chooses to complete the work themselves. A tenant may deduct the cost of their labor from rent at the hourly rate provide in Sec. 4.20(3), MGO., not to exceed the number of hours stated in the estimate provided pursuant to Sec. 32.17(2)(f), MGO. All work to be completed must be done in a workmanlike manner and must comply with all applicable state and City codes and regulations as provided in the Madison General Ordinances. No work may be commenced by the tenant until all applicable permits and regulatory approvals are obtained. If a permits or approvals are required to commence the work, the tenant shall obtain all applicable permits and approvals and may deduct the fees from the rent, in the manner specified in sub (5).

(7) Lien Waivers. Any contractor shall forward any lien waivers directly to the tenant who contracted the work. The tenant shall forward all lien waivers from contractors to the landlord along with the receipts deducted from the rent.

(8) Eviction or Retaliation Prohibited. No person or tenant who complies with this section shall be evicted for nonpayment of rent because said person or tenant has elected to act under this section 32.17 and has deducted the cost of work from rental payments. No person or tenant shall be evicted or retaliated against for giving either verbal or written notice to the landlord that they intend to use the self help procedures under this section 32.17. It shall be presumed that any attempt to terminate the tenancy of such tenant or to evict such tenant or to raise such tenant's rental payments or to refuse to renew the tenant's lease or to otherwise harass or retaliate against such tenant during the period commencing when verbal or written notice is first given by the tenant to the landlord that the tenant intends to use these self help procedures, until six months after certification by the Building Inspection Division of the Department of Planning and Community and Economic Development of the City of Madison that all violations have been corrected, is retaliation. Such attempt is hereby declared null and void and subject to a forfeiture of not less than $150 and not more than $900 for each attempt. It is further provided that in order to overcome such presumption, the landlord must show by a preponderance of the evidence that such acts by the landlord were based on good cause. "Good Cause" used herein means that the landlord must show a good reason for his or her action, other than one related to or caused by the operation of this ordinance, including but not limited to normal uniform rental increases due to utility increases or other increased costs to the landlord, or for other bona fide, nondiscriminatory business reason.

(9) Effective Date. This ordinance shall take effect one hundred and twenty (120) days after adoption.

(Sec. 32.17 Am. by ORD-08-000109, 10-7-08)

CHAPTER 33

BOARDS, COMMISSIONS, AND COMMITTEES

Section

33.01 Boards, Commissions, and Committees Procedures.

33.53 Digital Technology Committee. (Cr. by ORD-13-00089, 5-29-13)
33.54 Small Business Enterprises Appeals Committee. (Cr. by ORD-14-00178, 12-10-14)

33.01 BOARDS, COMMISSIONS, AND COMMITTEES PROCEDURES.

(1) Purpose and Intent. The purpose of Chapter 33 is to compile in one location the ordinances establishing and regulating City boards, commissions, and committees. In some cases, however, it has been deemed advantageous to maintain these regulations with the ordinance related to the subject matter of the board, commission, or committee. Furthermore, those boards, commissions, and committees that are created by resolution of the Common Council are not included in the Madison General Ordinances. Please refer to the MGO Index for a listing of standing City boards, commissions and committees.

(2) Applicability. Except as set forth elsewhere in these ordinances, in state law, or in the document establishing a given board, commission or committee, this section shall apply to all such bodies, regardless of how established or whether termed a board, commission, committee, work group, task force, or similar name or whether standing or ad hoc.

(3) Definitions. As used in this section:

(a) "Ad hoc" means a Sub-unit that is to have temporary existence to meet a specific purpose or project and does not have ongoing annual requirements. The action creating the Ad hoc Sub-unit should reference the time or action which, when accomplished, means the Ad hoc Sub-unit expires.

(b) "Authority or District" means an entity that is a separate political body from the City of Madison.

(c) "Board or Commission" means a Sub-unit of the City that is given some independent power to make determinations on behalf of the City of Madison. (Am. by ORD-16-00081, Pub. 9-15-16, Eff. 4-18-17)

(d) "Committee" means any Sub-unit other than a board or commission, and generally is limited to making recommendations or reports to the Mayor or Common Council or some other body, unless explicitly empowered otherwise. Any Sub-unit called task force, work group or similar name is a Committee.

(e) "Standing" means a Sub-unit that is intended to have permanent existence, or until such time as the entity creating the Sub-unit terminates its authority.

(f) "Subcommittee" means a Sub-unit made up of members of the parent Sub-unit or as authorized in Sec. 33.01(4)(d), MGO.

(g) "Sub-unit" means any board, commission, committee or subcommittee.

(4) Creation and Dissolution.

(a) Sub-units may be created and dissolved by ordinance, resolution, order of the Mayor, order of the President of Common Council, or, in the case of subcommittees, by action of the parent Sub-unit.

(b) Standing Sub-units shall be created and dissolved by ordinance. To the extent some standing Sub-units exist as of the date of passage of this ordinance without authorization by ordinance, the City Attorney shall draft and introduce ordinances to reflect such standing Sub-units.

(c) Ad hoc Sub-units may be created and dissolved by written order or resolution.

(d) Any board, committee or commission may create and dissolve subcommittees and may appoint any of its members to serve on such subcommittees. No board, committee or commission may appoint to any of its subcommittees any person who is not a member of the board, committee or commission unless the person has been nominated by the board, committee or commission and approved by the Common Council. If the board, committee or commission includes subcommit-

tees created or authorized by the Common Council, the members of such subcommittees may serve as members of other subcommittees created by the parent body.

(e) Notwithstanding Subdivision (d) above, any number of boards, committees and commissions may form joint committees or subcommittees consisting of members of the various boards, committees or commissions which have approved such action.

(5) Appointments. Except as otherwise provided by ordinance, all appointments shall be made as follows:

(a) Appointments to Standing Sub-units (except subcommittees) and non-City committees shall be made by the mayor and confirmed by the Common Council.

(b) Appointments to subcommittees shall be made by the parent Sub-unit or as authorized under Sec. 33.01(4)(d), MGO.

(c) Appointments to Ad Hoc Sub-units shall be subject to the rules set forth in the resolution or order establishing the Sub-unit. If not otherwise provided, appointments shall be made by the Mayor and confirmed by the Common Council.

(d) Vacancies. Vacancies shall be filled in the same manner as other appointments.

(e) Action on Appointment. The Common Council may confirm a Mayoral appointment, refer the appointment to another meeting, refer the appointment to the Mayor's office or reject an appointment by placing it on file. If an appointment is rejected, the same person may not be nominated for the same position for a period of six (6) months.

(f) Alternates. If the Sub-unit is authorized to have Alternate members, the Alternates shall be given numerical appointments (First Alternate, Second Alternate, etc.). When a member or members of the Sub-unit are absent, the Alternates shall act as full members of the Sub-unit in their numerical order, that is, the First Alternate shall first act as a full member; the Second Alternate shall be the next to so act, etc.

(6) Terms of Appointment.

(a) All appointments to Sub-units shall be for a term of three (3) years, except for Alders, which shall be concurrent with the respective Aldermanic term. No Mayoral appointment shall commence after the Mayoral term of office.

(b) Term Limits. No person, other than Alders, shall serve on any Sub-unit for a period in excess of twelve (12) years, unless authorized by a two-thirds (⅔) majority vote of the Common Council. Time served prior to July 1, 2009, shall not be included in any calculation of term limits.

(c) Any ordinance amendment or resolution affecting the terms of or the qualifications of members of boards, commissions or committees shall, unless otherwise explicitly provided therein, have prospective application only and shall not have any effect upon the remainder of any terms of office nor upon the appointment of any member of a Sub-unit in existence on the date said ordinance amendment or resolution becomes effective.

(d) Notwithstanding any fixed term of office, the terms of board, commission and committee members shall run until their successors are appointed and confirmed or for a period of ninety (90) days after the end of the fixed term, whichever is less. This ordinance shall apply to every person holding such office on January 1, 2003 and thereafter.

(7) Officers; Chairperson Restriction.

(a) Sub-units shall, except as otherwise provided, choose their Chair, Vice-chair and any other officers. Elections for officers shall be conducted at least every two (2) years, following election of Alders but may be held more often. Officers shall be chosen by secret ballot if requested by any member of the Sub-unit.

(b) No alderperson shall be the chairperson, co-chairperson, or vice-chairperson of any Sub-unit authorized to have more than two resident members appointed by

the Mayor and confirmed by the Common Council. In the event the resident chair and vice-chair are absent from a meeting, an alder, upon consensus of the members present, may assume the chair. However, in no event shall an alder serve as chair of any such Sub-unit for more than two (2) consecutive meetings.

(Cr. by Ord. 13,383, 8-23-03; Am. by ORD-17-00030, 3-8-17)

(c) Unless modified by a rule of a sub-unit or as otherwise required by ordinance, the chair shall set the agenda for meetings, with the assistance of city staff as needed. (Cr. by ORD-16-00105, 12-2-16)

(8) Attendance, Quorum and Voting.

(a) If at any board, commission or committee meeting, a quorum is not secured within fifteen (15) minutes of the officially scheduled meeting time, the Sub-unit shall adjourn without taking any action, except that it may set a date and time for its next meeting.

(b) The chair of each board, commission, and committee (or staff if delegated by the Chair) shall report to the Mayor and Common Council Office each instance in which a member is absent from three consecutive meetings or five (5) meetings out of twelve (12). For purposes of this reporting only, a called meeting that is not held due to lack of a quorum shall count toward a missed meeting by any member not present. The Mayor shall take appropriate action to secure the attendance of such members including, in the Mayor's discretion, requesting their resignation or requesting that the Council remove the person from the Sub-unit.

(c) In the absence of any statute or ordinance that establishes the quorum for any Sub-unit, quorum is a majority of the number of members fixed by law. Vacant positions shall be counted in determining the quorum of such a body. (Cr. by Ord. 13,652, 7-7-04; Renum. by ORD-07-00048, 4-12-07; Am. by ORD-14-00012, 1-14-14)

(d) In the absence of any statute or ordinance to the contrary, motions before any Sub-unit shall be passed by an affirmative vote of not less than a majority of the Sub-unit in attendance so long as such majority vote is not less than a majority of the quorum of Sub-unit. (Cr. by Ord. 13,652, 7-7-04; Renum. by ORD-07-00048, 4-12-07)

(e) If a Sub-unit commences a meeting with a quorum, and at any time thereafter loses quorum, the Sub-unit may only take the following actions in the absence of a quorum: fix a time to adjourn, adjourn, recess, or institute actions such as a Call of the House to obtain a quorum. The chair of any Sub-unit is charged with monitoring the absence of quorum. (Cr. by ORD-14-00048, 3-6-14)

(9) Minutes and Rules of Procedures.

(a) Every Sub-unit shall keep minutes of its proceedings. After the minutes have been approved by the board, committee or commission, a copy shall be filed with the City Clerk within five (5) business days.

(b) Boards, committees, and commissions may adopt rules of procedure. Such rules may not conflict with ordinances or resolutions of the Common Council. In case the Sub-unit does not adopt rules of procedure, it shall be governed by Robert's Rules of Order, insofar as Robert's Rules of Order does not conflict with ordinances or resolutions of the Common Council. Sub-units shall follow the procedure set forth in Sec. 2.21, MGO, on motions for reconsideration, and shall not modify this rule. A motion to reconsider shall not be in order before any sub-unit when the matter approved has been partially or fully carried out, including actions by City employees, or by the Council or another sub-unit of the City, by acting upon a recommendation made to the body. Sub-units shall review and make any changes in rules of procedure every two (2) years, which shall be

filed with the City Clerk by July 1 of even-numbered years. (Cr. by Ord. 11,233, 4-13-95; Am. by ORD-06-00077, 6-30-06; Renum. by ORD-07-00048, 4-12-07; Am. by ORD-10-00062, 6-15-10)

(c) Unless authorized by the rules adopted under subdivision (b) above, the chair of a Sub-unit shall not vote unless the chair's vote would affect the outcome of the matter before the Sub-unit and shall not participate in making motions or discussion thereon.

(d) Council Participation. Every Sub-unit, whether created by ordinance, resolution, or order shall permit any member of the Common Council to take part in its deliberations and to speak on any agenda item. This includes closed sessions of Sub-units except as provided herein or if the individual member's exclusion is necessary for the purpose of the closed session. Nevertheless, Council members who are not members of the Sub-unit shall not vote, shall not be counted in determining whether or not there is a quorum, and may not make or second any motion. This subdivision does not apply to quasi-judicial hearings on contested matters, nor to deliberations concerning such hearings on contested matters nor to closed sessions of the Ethics Board held for the purpose of hearing and deliberating confidential requests for advisory opinions pursuant to Sec. 3.35(11)(b), nor to personnel matters.

(e) Public Comment. Every Sub-unit, including subcommittees created under Subsection (4)(d), above, shall establish a period for public comment at or near the beginning of each meeting. The public comment section of the meeting allows comments on any matter on the agenda or matters not on the agenda, provided, however, that the Sub-unit shall not take action on a matter raised in the public comment portion of the meeting unless that matter is otherwise on the agenda. The Sub-unit may allow public comment on any agenda item at the time that item is taken up. Members of the public who comply with applicable rules, including registering to speak prior to the Sub-unit beginning discussion on any agenda item, on registration forms established by the City, shall be permitted at least three (3) minutes to speak. If the speaker requires an interpreter, either because of his/her limited English proficiency or because of a disability, he/she shall be allowed no less than six (6) minutes.

This subdivision shall not apply to quasi-judicial hearings on contested matters, nor to deliberations concerning such hearings on contested matters nor to closed sessions of the Ethics Board held for the purpose of hearing and deliberating confidential requests for advisory opinions pursuant to Sec. 3.35(11)(b). (Cr. by Ord. 13,129, 8-28-02; Renum. by Ord. 13,267, 3-11-03; ORD-05-00015, 2-15-05; Renum. by ORD-07-00048, 4-12-07)

(f) Disclosures and Recusals. Every sub-unit shall include an agenda item related to disclosures or recusals under the City's Ethics Code, Sec. 3.35(5)(f), MGO. Members of the sub-unit shall, at the time such agenda item is taken up, state any matters on the agenda for which they will abstain, or for which they believe a disclosure is required under the Ethics Code. (Cr. by ORD-10-00104, 11-17-10)

(10) Meetings Not to Be Held.

(a) Budget Meetings. Sub-units shall not schedule meetings on the same nights that the Finance Committee or the Common Council is considering the annual Operating and Capital budgets. (Am. by ORD-16-00081, Pub. 9-15-16, Eff. 4-18-17)

(b) No Meetings Election Day. No Sub-unit shall meet on any general or primary election day for local, state or national offices, or referenda. (Cr. by Ord. 13,308, 4-30-03; Renum. by ORD-06-00176, 12-8-06; Renum. by ORD-07-00048, 4-12-07; Am. by ORD-09-00162, 12-5-09)

(11) Reports.

(a) Every Sub-unit, whether created by ordinance, resolution, or order shall act on items the Council refers to it, where the votes are contested, by roll call vote. Its report to the Council shall include a list of members who voted and the vote of each. In case any report of a board, committee, or commission shall fail to contain the list of members and votes, the City Clerk shall reject the report and shall return it to the board, committee or commission. Any Sub-unit, which fails to act upon any matter referred to it by the Common Council, within the deadline for such action as may be set by the Common Council, shall have been deemed to have waived the opportunity to report to the Common Council on the matter referred. The Common Council may then take up the referred item notwithstanding the board, committee or commissions failure to file a report. (Am. by Ord. 13,652, 7-7-04; Renum. by ORD-07-00048, 4-12-07)

(b) In January and June of each year, the City Clerk shall notify the chair of each Standing Sub-unit of the requirements contained in Subsection 33.01(8)(b) and shall send to the department or division head responsible for providing staff services to the Sub-unit a copy of the notification.

(Sec. 33.01 Am. by ORD-09-00051, Pub. 4-2-09, Eff. 8-1-09)

33.02 ALCOHOL LICENSE REVIEW COMMITTEE.

(1) Creation. The Operator's License Review Committee is hereby renamed the Alcohol License Review Committee, which is hereby created for the City of Madison.

(2) Composition. The Alcohol License Review Committee shall consist of nine (9) members, three (3) of whom shall be alderpersons and six (6) who shall be adult residents of the City. The President of the Dane County Tavern League, the Chief of Police, the chair of the Student Council of the Associated Students of Madison, and the University of Wisconsin Chancellor, or their designees, shall serve as technical advisors to the Committee. The City Clerk, the City Attorney, or their designees, and the city of Madison Alcohol Policy Coordinator (or other Mayoral designee) shall serve as staff to the Committee. Technical advisors to the Committee, upon proper recognition by the Chair, may question witnesses who appear before the Committee and may take part in debate, but shall not have a vote and shall not take part in any deliberations held in closed session.

All aldermanic appointees shall hold office for a term expiring on the third Tuesday in April in the second year following their appointment or until their successors are appointed and qualified, except that alderpersons appointed to fill an unexpired term shall only serve the remainder of such unexpired term. Resident appointments shall be made by the third Tuesday in April and such appointees shall hold office for a term expiring on the third Tuesday in April in the second year following their confirmation by the Common Council or until their successors are appointed and qualified, except that residents appointed to fill an unexpired term shall only serve the remainder of such unexpired term. Resident appointments shall all be for a term of three years. (Am. by Ords. 10,238, 4-12-91 and 10,248, 5-15-91; Am. by Ord. 13,566, 4-21-04; ORD-05-00192, 12-20-05; ORD-09-00068, 4-17-09; ORD-09-00152, Eff. 11-1-09, Pub. 11-20-09; ORD-12-00054, 4-25-12)

(3) Duties. The Alcohol License Review Committee shall be charged with the responsibility and duty to review and examine all applications for the granting of all fermented malt beverage licenses, intoxicating liquor licenses, and operator's licenses, to receive all recommendations relating thereto from staff personnel and to review and make recommendations as to the subsequent granting of all such licenses by the Common Council, and be further charged with the responsibility and duty to review the triennial "Alcohol License Problem Reports" submitted by the Chief of Police and may conduct such additional review of problems reported therein with the licenses affected and make such further recommendations or take such further action as they may deem appropriate. The

committee is further charged with providing a reason to the Common Council whenever the committee recommends that a new Chapter 38 license or permit not be approved. (Am. by Ord. 9430, 3-11-88)

33.03 BOARD OF ASSESSORS.

(1) The Board of Assessors shall consist of the City Assessor, the Assistant City Assessors and four staff appraisers appointed annually by the City Assessor and approved by the Common Council. (Am. by Ord. 8971, 9-12-86; ORD-11-00087, 6-28-11)

(2) Objections to property tax assessments shall be processed through the Board of Assessors. The City Assessor shall publish a Class 3 notice under Wis. Stat. ch. 985 that on the days named in the notice, the assessments for the City will be open for examination by the taxable inhabitants of the City. (Am. by Ord. 8971, 9-12-86)

(3) To the end that all evaluations throughout the City shall be made on a uniform basis, such Board of Assessors, under the direction and supervision of the City Assessor, shall compare the valuations so secured, making all necessary corrections and all other just and necessary changes to arrive at the true value of property within the City. The City Assessor may direct that all objections to valuations filed with the City Assessor in writing, in the manner provided in Wis. Stat. § 70.47(13), shall be investigated by the Board.

(4) The concurrence of a majority of the Board of Assessors is necessary to determine any matter upon which the City Assessor requires it to act. No notice need be given to the owners of the property assessed of any corrections or changes in assessments which are made prior to the day or days fixed in the notice specified under Subsection (2) on which the assessments are to be open for examination, but any changes made thereafter and before the assessment roll is delivered to the Board of Review can only be made upon notice by first class mail to the person assessed if a resident of the City or, if a non-resident, an agent if there is one resident in the City or, if neither, the possessor of the property assessed if any, if the residence of the owner, agent or possessor is known to any member of the Board of Assessors.

(5) The City Assessor may provide for committees of the Board of Assessors to make investigations including the investigations mentioned in Subsection (3) and perform such other duties as may be prescribed. The City Assessor shall chair the Board of Assessors, and may appoint as a member or chairperson of the various committees, himself or herself, the deputy assessor, or other officer or employee in the office of the City Assessor. (Am. by Ord. 8971, 9-12-86)

(6) The Board of Assessors shall remain in session until all corrections and changes have been made, including all those resulting from investigations by committees of objections to valuations filed with the City Assessor as provided in this section, after which the City Assessor shall prepare the assessment rolls as corrected by the Board of Assessors and submit them to the Board of Review not later than the last Monday in July. A person assessed who has been notified of the determination of the Board of Assessors as required in Subsection (4) is deemed to have accepted such determination unless the person notifies the City Assessor in writing, within fifteen (15) days from the date that the notice of determination was issued under Subsection (4), of a desire to present testimony before the Board of Review. After the Board of Review meets, the City Assessor may appoint committees of the Board of Assessors to investigate any objections to the amount or valuation of any real or personal property which are referred to the City Assessor by the Board of Review. The committees so appointed may at the City Assessor's direction report their investigation and recommendations to the Board of Review and any member of any such committee shall be a competent witness in any hearing before the Board of Review. (Am. by Ord. 8971, 9-12-86; ORD-11-00087, 6-28-11)

(Sec. 3.20 Cr. by Ord. 5974, 9-30-77; Renum. by ORD-07-00048, 4-12-07)

33.04 BOARD OF CANVASSERS.

(1) Pursuant to Wis. Stat. § 7.53(2)(a), the Board of Canvassers is to be appointed by the City Clerk prior to each election. The municipal board of canvassers for municipal elections shall be composed of the municipal clerk and two (2) other reputable electors appointed by the clerk prior to the date of the election being canvassed. If the municipal clerk is a candidate at the election being canvassed, the other two (2) members shall designate a third member to serve in lieu of the clerk for that election. If one or more temporary vacancies on the municipal board of canvassers reduces the number of members to less than three (3), the municipal clerk shall appoint a member to fill each vacancy. No vacancy may be filled on a board of canvassers during the pendency of a canvass or recanvass. (Am. by ORD-17-00030, 3-8-17)

(2) The Board shall have the duties described in Wis. Stat. § 7.53 and 9.01.

(3) The members of the Board of Canvassers shall serve for two-year terms commencing on January 1 of each odd-numbered year, except that any member who is appointed to fill a permanent vacancy shall serve for the unexpired term of the original appointee.

(Sec. 3.39 Am. by Ord. 9812, 6-29-89; Renum. by ORD-07-00048, 4-12-07)

33.05 BOARD OF PARK COMMISSIONERS.

(1) There is hereby created for the City of Madison, pursuant to Wis. Stat. § 27.08, a Board of Park Commissioners.

(2) Appointment; Terms. Said Board shall consist of seven (7) members, two (2) alders and five (5) resident members appointed by the Mayor and confirmed by the Common Council. The alderperson members shall be appointed in April for the term of two (2) years, beginning on the first day of May. The full term of each resident member shall be for five (5) years beginning on the first day of May next succeeding her/his appointment and until her/his successor is appointed and qualified; but when the Board is first constituted, the respective appointments shall be for terms of five (5), four (4), three (3), two (2), and one (1) years, respectively. At the organization meeting of the Common Council on the third Tuesday in April preceding the end of any of the resident members' terms, the Mayor shall appoint her/his successor for a full term and shall submit the appointment to the Common Council for confirmation. (Am. by Ord. 13,292, 4-5-03; ORD-09-00147, 11-6-09; ORD-14-00012, 1-14-14; ORD-17-00030, 3-8-17)

(3) The Board of Park Commissioners shall adopt Rules of Procedure and Basic Policies which may from time to time be amended by the Board. A copy of said policies and procedures shall be available, at reasonable times, in the office of the Superintendent of Parks. (Cr. by Ord. 10,698, 7-30-93)

(4) Suspension, Revocation of Permit/License; Appeal.

The Superintendent of Parks or her/his designee is authorized and directed to suspend for up to six (6) months or revoke a permit or license found to be in violation of any Madison General Ordinance or Board of Park Commissioners rule and, upon written notification thereof, the permittee/licensee shall surrender such permit/license to the Superintendent. When any permit or license is revoked, no other permit or license shall be granted to such person or organization within twelve (12) months of the date of its revocation nor shall any part of the money paid for any permit or license so revoked be refunded.

Any suspension or revocation imposed by the Superintendent of Parks or her/his designee may be appealed within ten (10) days of such notice of suspension or revocation to the Board of Park Commissioners or a subcommittee of the Board by filing a Notice of Appeal with the City Clerk. The Notice of Appeal shall state the basis or bases upon which the permittee or licensee seeks review of the Superintendent's determination. Said Committee shall consist of the entire Board of Park Commissioners or a subcommittee of the Board consisting of the Chair of the Board or designee, one (1) alderperson and one (1) resident who are members of the Board of Park Commissioners appointed by the Chair of the Board.

At such hearing, the permittee or licensee shall have an opportunity to cross examine witnesses, may call witnesses on her/his own behalf and may be represented by legal counsel. After holding a hearing, the Board or subcommittee shall by majority vote make findings of fact and conclusions of law and may by majority vote affirm, modify or reverse the suspension or revocation imposed by the Superintendent of Parks or her/his designee.

(Cr. by Ord. 10,698, 7-30-93; Renum. by ORD-07-00048, 4-12-07; Am. by ORD-17-00030, 3-8-17)

(5) Subcommittees. The following subcommittees of the Board of Park Commissioners assist in receiving resident input and making recommendations to the Park Commission. Except where specified, members shall be appointed by the President of the Board of Park Commissioners and each subcommittee shall contain at least one member from the Park Commission.

(a) Golf Subcommittee. Advises the Commission regarding policies, rate structure, rules and regulations, capital improvements, user complaints, operations and the selection of golf pros. The Golf Subcommittee is composed of seven (7) persons: one Park Commissioner; the President or designee representing the Odana Golf Association, the Yahara Golf Association, the Madison Area Retiree Association, and the Women's Municipal Golf Association; and two at-large members. This subcommittee meets quarterly, and all members shall be City of Madison residents.

(b) Warner Park Community Recreation Center Advisory Subcommittee. Advises the Board of Park Commissioners regarding operations, policies and procedures, fees and user concerns, and makes program and budget recommendations, concerning the Warner park Community Recreation Center. The Subcommittee consists of eleven (11) persons: three resident representatives from the Northside and at large; a representative from the Northside Planning Council, the North/Eastside Senior Coalition, the MSCR Advisory Committee, and the Board of Park Commissioners; two youth representatives; and the two Warner Park area aldermanic representatives. This committee meets bi-monthly and all members shall be City of Madison residents. Notwithstanding Sec. 33.01(6)(b), and except for the Alder members, a member may not serve on the Subcommittee for more than two consecutive three-year terms.

(c) Facilities, Programs and Fees Subcommittee. Reviews policies and operation standards, makes program recommendations and recommendations on new user fees and charges. The Subcommittee consists of seven (7) members and meets as needed.

(d) Habitat Stewardship Subcommittee. Reviews public tree concerns, advises and makes recommendations concerning the Conservation Parks. The Subcommittee consists of five (5) members and meets quarterly.

(e) Long-Range Planning Subcommittee. Advises the Board of Park Commissioners, reviews the procedures and policies of the Parks Division and solicits input regarding the Parks Division from alders, groups and residents. Also, when necessary, researches and advises regarding the naming of public parks. The Subcommittee consists of five (5) members and meets quarterly. (Am. by ORD-09-00052, Pub. 4-2-09, Eff. 8-1-09)

(Sec. 33.05(5) Cr. by ORD-09-00052, Pub. 4-2-09, Eff. 8-1-09; Am. by ORD-13-00117, 6-26-13; ORD-17-00030, 3-8-17)

33.06 BOARD OF POLICE AND FIRE COMMISSIONERS. The Board of Police and Fire Commissioners for the City of Madison shall consist of five (5) citizens, appointed by the Mayor and approved by the Common Council. The Board shall have the power and authority conferred under

the provisions of Subsections (1), (2), (3), (4), (5), (5m), and (7) of Section 62.13, Wisconsin Statutes. (Am. by Ord. 11,616, 6-13-96; Renum. by ORD-07-00048, 4-12-07)

33.07 BOARD OF PUBLIC WORKS.

(1) Creation. There is hereby created for the City of Madison, pursuant to Wis. Stat. § 62.14, a Board of Public Works.

(2) Composition, Appointments and Terms. The Board of Public Works shall consist of seven (7) voting members. The Mayor or her/his designee shall serve as a member of the Board, one (1) member shall be an adult City of Madison resident with an engineering background who shall serve for one (1) year, two (2) members shall be alderpersons, and three (3) members shall be residents. The Mayor shall also appoint two persons to serve as alternate members. The alternate member may act with full power and authority when any other member of the Board is absent. The alternate member may participate in Board discussion, may serve on subcommittees, and may be appointed to any committee which requires the participation of a member of the Board of Public Works.

All members shall be appointed by the Mayor, subject to approval of the Common Council. All members shall be appointed for a term of two (2) years. The terms of aldermanic members shall expire with the expiration of their terms as members of the Common Council. The Mayor at the organizational meeting each year shall indicate to the Common Council whether s/he will serve on the Board or inform the Council of the name of her/his designee. The Board shall elect one (1) of its members to serve as chair and another of its members to serve as vice-chair. The Mayor may change her/his designee or elect to assume membership on the Board any time and upon so assuming membership may elect to be chair of the Board. All appointments under this section shall be submitted by the Mayor to the Common Council for confirmation except that membership by the Mayor or selection of a designee shall be at the option of the Mayor. The Board shall adopt special rules for the conduct of public hearings before the Board. One (1) member of the Board of Public Works shall be a member of the Long-Range Transportation Committee. (Am. by Ord. 11,848, Adopted 4-15-97; Eff. 5-21-97; ORD-09-00052, Pub. 4-2-09, Eff. 8-1-09; Am. by ORD-17-00030, 3-8-17)

(3) Executive Secretary to the Board of Public Works. The Director of Public Works shall serve as the executive secretary of the Board of Public Works by virtue of her/his office but shall not vote. All matters to be considered by the Board of Public Works shall be submitted to the Director of Public Works who shall summarize these proposals, provide additional information as s/he may deem to be appropriate, append her/his recommendations, and submit them to the Board for consideration. Agendas for meetings of the Board, together with summaries and background information and the recommendations of the Director of Public Works shall be delivered to members of the Board at least twenty-four (24) hours before the date of the meeting.

(4) This is a charter ordinance and shall be effective upon sixty (60) days from the passage and publication; subject, however, to the referendum provisions of Wis. Stat. § 66.0101(5).

(5) Sanction Against Bid Rigging. Any corporation, firm or individual violating Wis. Stat. § 133.01(1971), or any subsequent amendment thereof, shall upon conviction thereof be thereby disqualified as a bidder on any City of Madison project for a period of three (3) years from the date of such conviction; however, nothing herein shall be interpreted to preclude such corporation, firm or individual from completing any and all contracts he may already have with the City at the time of such conviction, nor shall this ordinance be applied retroactively to violations occurring prior to the adoption and publication of this ordinance. (Renumbered from Sec. 23.10(2), ORD-07-00028, 3-15-07)

(6) Public Construction Allowed to be Done by the City Without Bids.

(a) The installation and maintenance of irrigation equipment at municipal golf courses is hereby designated a class of public construction which may be done directly by the City without submitting same for bids, in accordance with Wis. Stat. § 62.15(1).

(b) The installation of prefabricated bus shelters is hereby designated a class of public construction which may be done directly by the City without submitting same for bids, in accordance with Wis. Stat. § 62.15(1). (Am. by ORD-07-00193, 12-20-07)

(Renumbered from Sec. 23.10(3), ORD-07-00028, 3-15-07)

(Sec. 3.10(1)-(4) Am. by Charter Ord. 68, 2-26-93; Am. by Charter Ord. 71, 10-20-00)

(7) Best Value Contracting.

(a) Policy. When entering into contracts for public construction under Wis. Stat. § 62.15, the City of Madison requires bidders to prequalify pursuant to the provisions of Wis. Stat. § 66.0901, and procedures adopted by the City. The City of Madison finds that using the Best Value Contracting procedures set forth in this ordinance will provide the City with the best value for its public construction while also meeting requirements that contracts be awarded to the lowest responsible bidder, and that the requirements of this ordinance are for the protection and welfare of the public in the performance of public contracts.

(b) Definitions.

1. "Contractor" means a person, corporation, partnership or any other business entity that performs work on a public works contract as a general contractor, prime contractor or (subject to the limitations for subcontractors in Secs. (j)3. and 4. and (l) of this ordinance) subcontractor at any tier.
2. "Class A Apprenticeship Program" means an apprenticeship program that is currently approved by the U.S. Department of Labor or a state apprenticeship agency and has graduated apprentices to journeyperson status for three (3) years. In addition, a new apprenticeship program that has been registered with the federal or state government within the last three (3) years will be considered a Class A Apprenticeship Program, provided that such new program graduates apprentices to journeyperson status within the indenture period.
3. "Engineer" or "City Engineer" means the City of Madison City Engineer.
4. "Public works contract" means a contract for the City of Madison for the construction, alteration, execution, repair, remodeling or improvement of a public work or building, where the contract is required to be bid pursuant to Wis. Stat. § 62.15.
5. "BVC Contract" is a public works contract where the value of the contract is more than $48,000 for any single-trade public works project and $234,000 for any multiple-trade public works project. Every year, the City Engineer shall adjust the minimum estimated project cost of completion figures for both single-trade and multiple-trade public works contracts on the basis of the change in the construction cost index as published in the Engineering News-Record. The adjusted minimum estimated project cost of completion figures shall be rounded to the nearest thousand, and maintained by the City Engineer.
6. "Multiple-trade public works contract" is a public works project in which no single trade accounts for 85% or more of the total labor cost of the project.
7. "Single-trade public works contract" is a public works project in which a single trade accounts for 85% or more of the total labor cost of the project.

(Am. by ORD-09-00095, 6-20-09)

(c) Prequalification Requirement. As a condition of performing work on a public works contract for the City of Madison, a contractor shall first be prequalified by the City in accordance with the provisions of this ordinance and other policies of the City as adopted by the Board of Public Works. This section shall apply to general contractors, prime contractors and (subject to the limitations for subcontractors in Secs. (j)3. and 4. and (l) of this ordinance) subcontractors of any tier.

(d) Additional Qualification Information. In addition to information specified in this ordinance, the City Engineer may request, in prequalification applications or separately on a project by project basis, any other information he or she determines necessary to ensure that prospective contractors meet the contractor responsibility standards established by this ordinance and otherwise possess sufficient qualifications and capabilities in all respects to successfully qualify for and perform public works contracts.

(e) Prequalification Term.

Once a contractor's prequalification application is approved by the City Engineer under this ordinance, it shall remain valid for a period of two years to expire on March 1, unless suspended or revoked pursuant to this section. (Am. by ORD-11-00005, 1-12-11; ORD-13-00118, 6-26-13)

(f) Renewal and Disclosure. It shall be the obligation of the contractor to timely renew its prequalification and to report information regarding any material changes to its business or operations that are relevant to its prequalification application, including information that would affect its ability to make the certifications required by this ordinance. Any such information must be reported within fifteen (15) days of the contractor's knowledge of the information. Failure to report information under this subsection may result in suspension or revocation of the contractor's prequalification, debarment from City contracts for a period of up to three years and other sanctions available under applicable law.

(g) Prequalification Approval. The City Engineer shall review contractor prequalification applications and approve applications that comply with the requirements of this ordinance and other applicable standards developed by the City Engineer. If a contractor has been certified by the City as a DBE, MBE, SBE or WBE, and the City Engineer determines that the contractor fails to meet the prequalification requirements under this ordinance, the City Engineer will notify and discuss the determination with the Affirmative Action Division prior to issuing any notice of non-qualification.

(h) Prequalification List. The City Engineer shall publicly post a list of prequalified contractors which shall include the names, addresses and prequalification numbers of contractors and applicable dates of prequalification approval. This list shall be updated on a monthly basis.

(i) Prequalification Review. The City Engineer shall review the performance of contractors prequalified according to this section periodically, but at least once a year, to determine whether contractors are performing satisfactorily. This review shall examine all relevant areas of contractor performance, including but not limited to project cost and schedule, compliance with plans and specifications, quality of workmanship and compliance with applicable laws and regulations. For good cause shown, the Engineer may suspend or revoke a contractor's prequalification status at any time after providing the contractor with notice and the opportunity to be heard by the City Engineer.

(j) Prequalification Enforcement. The City Engineer shall:

1. Take the necessary actions to ensure that all contractors and subcontractors on public works contracts and BVC contracts are properly prequalified in accordance with the requirements of this ordinance;

2. Require general contractors or prime contractors to verify their prequalification as a condition of submitting bids on public works contracts and BVC contracts;
3. Further require general contractors or prime contractors to submit a list of the subcontractors they intend to use in the performance of the contract with the names and prequalification numbers of such subcontractors. This information for subcontractors may be submitted at the time of the bid and must be submitted by the time specified in sub. (l). Firms identified on the subcontractor list may be substituted only for good cause shown and with the written approval of the City Engineer.
4. Notify subcontractors that they may apply for prequalification under this ordinance.

(k) Required Certifications. Prequalification applications submitted pursuant to this ordinance shall include all information as determined necessary and appropriate by the City Engineer. Such applications shall, at a minimum, require a sworn certification by the applicant attesting to the facts specified in this subsection. In submitting a prequalification application, the applicant shall certify that for any project it seeks to perform for the City during the term of its prequalification, it shall:

1. Possess all technical qualifications and resources, including equipment, personnel and financial resources, necessary to perform the work required for the project or will obtain same through the use of responsible, prequalified subcontractors.
2. Possess all valid, effective licenses, registrations or certificates required for the contractor or its employees by federal, state, county or local law necessary for the type of work it seeks to perform, including, but not limited to, licenses, registrations or certificates for any type of trade work or specialty work.
3. Meet all bonding requirements as required of it by applicable law or contract specifications.
4. Meet all insurance requirements as required of it by applicable law or contract specifications, including general liability insurance, workers compensation insurance and unemployment insurance requirements.
5. Maintain a substance abuse policy for employees hired for public works contracts that complies with Wis. Stat. § 103.503.
6. Pay all craft employees that it employs on public works projects the wage rates and benefits required under any applicable prevailing wage law. (Am. by ORD-14-00012, 1-14-14; ORD-17-00011, 2-20-17)
7. With respect to BVC contracts only, either participate in a Class A Apprenticeship Program for each separate trade or classification in which it employs craft employees and continue to participate in such program or programs for the duration of the project or have, an apprenticeship program pre-certified as compliant with Wisconsin Executive Order 108 (June 29, 2005) by the Wisconsin Bureau of Apprenticeship Standards on the date the bid is awarded by the Common Council. In applying this requirement, the City Engineer shall follow rules developed by the City Engineer for the administration of this paragraph, which rules shall be approved by the Board of Public Works. (Am. by ORD-11-00005, 1-12-11; ORD-11-00080, 6-16-11)
8. Fully abide by the equal employment opportunity and affirmative action requirements of all applicable laws, including City ordinances.
9. Provide in its prequalification application a detailed statement regarding related companies if, at any time during the past three (3) years, the

contractor has controlled or has been controlled by another corporation, partnership or other business entity operating in the construction industry. This statement shall be included in prequalification application and shall explain the nature of the contractor relationship.

10. Disclose, whether for the past three years:
    a. It has had any type of business, contracting or trade license, certification or registration revoked or suspended.
    b. It has been debarred by any federal, state or local government agency.
    c. It has defaulted on any project in the past three years;
    d. It has committed a willful violation of federal or state safety laws as determined by a final decision of a court or government agency authority.
    e. It has been found by a final decision of a court or government agency in violation of any other law relating to its contracting business, including, but not limited to wage and hour laws, prevailing wage laws, environmental laws, antitrust laws or tax laws, where the penalty for such violation resulted in the imposition of fine, back pay damages or any other type of penalty in the amount of more than $10,000.

    The applicant shall provide an explanation to the City Engineer of any disclosures under this subsection, and the City Engineer shall determine if such incidents are of such a nature as to disqualify the applicant.
11. Certify that the contractor prequalification application has been executed by a principal or person employed by the applicant who has sufficient knowledge to address all matters in the prequalification application and shall include an attestation stating, under the penalty of perjury, that all information submitted is true, complete and accurate.
12. Understand that in performing under any City public works contract, it will be required to use as subcontractors only those entities that have been properly prequalified in accordance with the requirements of this ordinance.
13. Comply with the City's Equal Benefit Ordinance, Sec. 39.07. (Cr. by ORD-12-00022, 3-5-12)
14. Comply with the City's Ban the Box Ordinance, Sec. 39.08. (Cr. by ORD-15-00128, 11-25-15)

(l) Subcontractors. Subcontractors may, but are not required to, apply for and obtain prequalification status under this ordinance. At least ten (10) days prior to commencing work under any City of Madison Public Works Contract, a subcontractor, the value of whose work exceeds the single-trade minimum of Sec. 33.07(7)(b)5., shall submit the information required under this ordinance to be qualified, and no such subcontractor may begin work on a City of Madison Public Works Project until the City Engineer determines that such subcontractor meets the qualification requirements herein. Subcontractors that are solely involved in project management, providing of materials, or brokerage services, such as truck brokerage firms, are exempt from this prequalification requirement. (Am. by ORD-11-00005, 1-12-11; ORD-11-00080, 6-16-11)

(m) Conditional Approval. The City Engineer may issue conditional approvals of any application for prequalification and shall set out the conditions thereof in writing, provided, however, that no conditional approval of a bidder's application for prequalification that relates to the pending approval of an Affirmative Action Plan shall extend beyond the date of the bid opening, at which time the contractor must be in full compliance with Sec. 39.02(9)(e), MGO. (Am. by ORD-09-00012, 2-6-09)

(n) Best Value Contracting in City Supported Projects. In order to achieve the goals set out in this ordinance, it shall be a condition of any City financial support of a development project, in the form of TIF financing, Capital Revolving Loan funds, industrial development bonds, or other City or CDA assistance as designated by the Common Council in the resolution granting such assistance, in an amount that meets the requirements of sub. (7)(b)5., that the developer utilize for construction those firms that have met the prequalification requirements of this ordinance. This provision will be included as a developer obligation in any agreement between the City and the developer.

(o) Appeal. Any applicant, contractor, or subcontractor aggrieved by a determination of the City Engineer under this ordinance has the right to appeal the City Engineer's determination to the Board of Public Works. The appeal shall be taken by delivery of a letter to the City Engineer within fifteen (15) days of the determination to be appealed. The Board of Public Works will schedule a hearing on the appeal promptly.

(p) Report by City Engineer. After this ordinance shall have been in effect for two years, the City Engineer shall prepare a report to the Common Council on the effects of the ordinance.

(q) (R. by ORD-11-00005, 1-12-11)

(Cr. by ORD-07-00028, 3-15-07)

33.08 BOARD OF REVIEW.

(1) Composition of Board of Review. The Board of Review of the City of Madison shall consist of five (5) residents of said City none of whom shall occupy any public office or be employed by the City of Madison. The members shall be appointed by the Mayor with the approval of the Council and shall hold office as members of said Board for terms of five (5) years commencing on the third Tuesday of April in the particular year for which appointed, or until their successors are appointed and qualified, except that the first appointments commencing on April 19, 1960 shall be for one (1), two (2), three (3), four (4) and five (5) years, respectively. (Am. by Ord. 9809, 6-29-89)

(2) Alternate Members. In addition to the members above-mentioned, the Mayor may appoint with the approval of the Council two (2) residents of the City none of whom shall occupy any public office or be employed by the City of Madison, to be alternate members. The alternate members shall hold office of the Board for terms of five (5) years commencing on the third Tuesday of April in the particular year for which appointed, or until their successors are appointed and qualified. The Board shall designate which alternate is the first alternate and which alternate is the second alternate. The first alternate shall act with full power when any other member of the Board is absent or refuses to act because of a conflict of interest. The second alternate shall so act only when the first alternate refuses or is absent or when more than one (1) member of the Board so refuses or is absent. The alternate members shall be notified in advance when required to serve and shall receive the same compensation as the Board members only when required to serve in the place of a Board member. (Cr. by ORD-10-00033, 4-1-10)

(3) Officers. The members of the Board of Review shall elect a chair for each annual session thereof which said election shall be held at the first annual meeting of the Board. The Board of Review shall select a secretary for such Board who shall keep an accurate record of all of its proceedings and give the necessary notices and upon request of the Board the Mayor may designate a City employee to assist the secretary in the performance of her/his duties in keeping accurate records of its proceedings and giving the notices of meetings and adjournments as provided by the Statutes. (Renum. by ORD-10-00033, 4-1-10; Am. by ORD-14-00012, 1-14-14)

(4) Compensation. The members of the Board of Review shall receive a salary of twenty dollars ($20.00) a day, or fraction thereof, that the Board of Review is in session for the purpose of hearing and considering testimony or in making their report and determination. (Renum. by ORD-10-00033, 4-1-10)

(5) Objections to Valuations.

(a) 1. The Board of Review may not hear an objection to the amount or valuation of property unless, at least 48 hours before the Board's first scheduled meeting, the objector provides to the Board's clerk written or oral notice of an intent to file an objection, except that, upon a showing of good cause and the submission of a written objection, the Board shall waive that requirement during the first 2 hours of the Board's first scheduled meeting, and the Board may waive that requirement up to the end of the 5th day of the session or up to the end of the final day of the session if the session is less than 5 days with proof of extraordinary circumstances for failure to meet the 48-hour notice requirement and failure to appear before the Board of Review during the first 2 hours of the first scheduled meeting.

2. Objections to the amount or valuation of property shall first be made in writing and filed with the Clerk of the Board of Review within the first 2 hours of the Board's first scheduled meeting, except that, upon evidence of extraordinary circumstances, the Board may waive that requirement up to the end of the 5th day of the session or up to the end of the final day of the session if the session is less than 5 days. The Board may require such objections to be submitted on forms approved by the Department of Revenue, and the Board shall require that any forms include stated valuations of the property in question.

3. Persons who own land and improvements to that land may object only to the aggregate valuation of that land and improvements to that land, but no person who owns land and improvements to that land may object only to the valuation of that land or only to the valuation of improvements to that land.

4. No person shall be allowed in any action or proceedings to question the amount or valuation of property unless such written objection has been filed and such person in good faith presented evidence to such Board in support of such objections and made full disclosure before said Board, under oath of all of that person's property liable to assessment in such district and the value thereof. The requirement that it be in writing may be waived by express action of the board.

(b) No person shall be allowed to appear before the Board of Review, to testify to the Board by telephone or to contest the amount of any assessment of real or personal property if the person has refused a reasonable written request by certified mail of the assessor to view such property.

(c) For the purpose of this section, the managing entity, as defined in Wis. Stat. § 707.02(15), or its designees, may be considered the taxpayer as an agent for the time-share owner, as defined in Wis. Stat. § 707.02(31), and may file one objection and make one appearance before the Board of Review concerning all objections relating to a particular real property improvement and the land associated with it. A time-share owner may file one objection and make one appearance before the Board of Review concerning the assessment of the building unit in which he or she owns a time share.

(d) After the first meeting of the Board of Review and before the Board's final adjournment, no person who is scheduled to appear before the Board of Review may contact, or provide information to, a member of the Board about that person's objection except at a session of the Board.

(e) When appearing before the Board, the person shall specify, in writing, the person's estimate of the value of the land and of the improvements that are the subject of the person's objection and specify the information that the person used to arrive at that estimate.

(f) 1. No person may appear before the Board of Review, testify to the Board by telephone or object to a valuation, if that valuation was made by the assessor or the objector using the income method, unless the person supplies to the assessor all of the information about income and expenses, as specified in the manual under Wis. Stat. § 73.03(2a), that the assessor requests.

2. Whenever the assessor, in the performance of his or her duties, requests and obtains income and expense information pursuant to Wis. Stat. § 70.47(7)(af), or any successor statute thereto, such income and expense information that is provided to the assessor shall be held confidential by the assessor, except, however, that such information may be disclosed to and used by persons in the discharge of duties imposed by law, in the discharge of duties imposed by office including, but not limited to, use by the assessor in performance of official duties of the assessor's office and use by the Board of Assessors and Board of Review in performance of their official duties, or pursuant to order of a court. Income and expense information provided to the assessor under Wis. Stat. § 70.47(7)(af), unless a court determines that it is inaccurate, is, pursuant to Wis. Stat. § 70.47(7)(af), not subject to the right of inspection and copying under Wis. Stat. § 19.35(1). (Am. by Ord. 6505, 2-8-79)

(Renum. by ORD-10-00033, 4-1-10)

(6) In those cases where a current member of the Board of Review or a member of the Assessor's Office files an objection to an assessment on property in which the individual has an interest, such objection shall not be acted upon by the Board of Assessors, but shall be referred to the Board of Review for hearing. (Cr. by Ord. 6505, 2-8-79; Renum. by ORD-10-00033, 4-1-10)

(7) In any hearing or determination in which a current member of the Board of Review has an interest in the assessment being protested, that member shall not be counted in determining a quorum and shall not participate as a Board member in the hearing or vote concerning the determination. (Cr. by Ord. 6505, 2-8-79; Renum. by ORD-10-00033, 4-1-10)

33.09 CITY-COUNTY COMMISSIONS AND COMMITTEES. (Am. by ORD-14-00090, 5-7-14)

(1) City-County Liaison Committee. The City-County Liaison Committee is hereby created to maintain a relationship between the Common Council and the Dane County Board for the purpose of conferring on matters of mutual interest and to provide a forum to resolve matters where there may be a difference in interest between the city and the county. City representation on the committee shall consist of the Mayor or designee and three Common Council members appointed by the Mayor and confirmed by the Council.

(Cr. by ORD-09-00052, Pub. 4-2-09, Eff. 8-1-09; Renum. by ORD-14-00012, 1-14-14; Am. by ORD-16-00084, 9-29-16)

(2) Henry Vilas Zoo Commission.

(a) Composition; Terms. Pursuant to an agreement dated April 19, 1983, between the City of Madison and the County of Dane, the City of Madison does hereby create the Henry Vilas Zoo Commission consisting of seven (7) members appointed to

staggered three (3) year terms. All terms shall commence as of May 1 and end as of April 30 of the third year after appointment except for transitional terms which may be of one, two or three year lengths. An appointee whose term has expired shall serve until a successor is appointed and qualified.

(b) Transitional Provisions; City and County Memberships. Initially, the Mayor of the City of Madison shall appoint five (5) members, three members for a one-year term each (expiring in 1984), one member for a two-year term (expiring in 1985), and one member for a three-year term (expiring in 1986). At the same time, the County Executive shall appoint one member for a three-year term (expiring in 1986) and one member for a two- year term (expiring in 1985). Of the three terms expiring in 1984, the replacements shall e named by the Mayor, each for three-year terms expiring in 1987. The County Executive shall appoint the members for the three terms expiring in 1987 and these two members shall thereafter be County appointments. All other members shall remain County or City appointments according to the original appointing authority. Members appointed by the City of Madison may be removed according to City regulations, and County members according to County regulations. Appointees are subject to confirmation by the City or County, as appropriate. (Am. by Ord. 8365, 7-3-84)

(c) Zoological Society Memberships. The County Executive and the Mayor shall each designate at least one membership to be filled by a member of the Henry Vilas Park Zoological Society, Inc. For each appointment available to a member of the Zoological Society, the Society shall furnish, within ten (10) days of a request to do so, a current Society membership list to the Mayor or County Executive, as appropriate, and upon its failure to do so, the appointing authority may appoint any resident of Dane County

(d) City and County Elected Official Representation. The Mayor shall designate one of the City terms to be held by a City alderperson in whose District the zoo is located and the County Executive shall designate one of the County terms to be held by a County Board Supervisor. The term of a member whose appointment depends on his or her status as an alderperson or a Supervisor shall terminate as of the end of the member's elective term unless he or she is re-elected. (Am. by Ord. 9823, 7-27-89)

(e) Resident Representation. Of the three resident members, at all times at least one shall be a resident of the City of Madison and at least one shall be a resident of that part of Dane County outside the corporate limits of the City of Madison. (Am. by ORD-17-00030, 3-8-17)

(f) Duties of Commission. The Zoo Commission shall act as the policy making and budgetary oversight body with respect to the operation of the Henry Vilas Zoo. The Commission shall annually supervise the preparation of a budget for operation of the Zoo. In calendar years 1983 through 1985, inclusive, the budget shall be submitted to the City of Madison for approval, with copies to the County Executive and County Board Chairman. Thereafter, the budget shall be submitted to the County for its approval. The Commission shall not assign, convey, lease, sell, devise, or otherwise alienate any real property at the Zoo or any personal property assigned thereto except that the Commission, directly or by written delegation to the Director, may sell, lease, trade or purchase personal property in accordance with regulations of the City of Madison or the County of Dane as appropriate. The Zoo Commission shall determine the hours the Zoo shall be open to the public, subject to the requirements that it be open at all reasonable hours and that no charge be made for admission to the Zoo or any part or exhibit thereof. Notwithstanding any other provisions of the ordinances of the City of

Madison, the jurisdiction of the Parks Commission and Parks Division previously exercised over the operation of the Henry Vilas Zoo is hereby transferred to the Henry Vilas Zoo Commission.

(g) Commission to Conform to City and County Regulations. In the years 1983 through 1986, the Zoo Commission shall operate in conformity with policies, procedures, rules and regulations of the City of Madison, and thereafter in conformity with those of the County of Dane. Proposed and adopted bylaws, rules and regulations of the Commission shall be subject to review, amendment and recision at any time by the Common Council during the years 1983 through 1986 inclusive and by the County Board's Judiciary Committee in subsequent years.

(3) City-County Homeless Issues Committee.

(a) The City-County Homeless Issues Committee is created and shall be governed by this ordinance.

(b) Membership; Terms.

1. The City-County Homeless Issues Committee shall consist of thirteen (13) members.

a. City Members. Two (2) members shall be City of Madison Alders, one (1) member shall be a Madison Police Department officer, one (1) member shall be a representative of a downtown business or community organization, one (1) member shall be a current or former homeless person who has used homeless services, and one (1) member shall be from the Homeless Services Consortium or other persons experienced in homeless services or advocacy. All City members shall be appointed by the Mayor and confirmed by the Common Council. Alders shall have a term coextensive with their terms on the Common Council. Other members shall serve staggered three-(3) year terms ending on June 30.

b. County Members. Three (3) members shall be Dane County Board Supervisors, appointed by the County Board Chair, whose terms shall be coextensive with their terms on the County Board. Two (2) members shall be current or former homeless persons who have used homeless services, and two (2) persons shall be from the Homeless Services Consortium or other persons experienced in homeless services or advocacy. The County members shall be appointed by the County Executive. All persons who are not elected shall serve three-(3) year terms. (Am. by ORD-17-00030, 3-8-17)

2. When the City-County Homeless Issues Committee is first constituted, the initial appointments for three year terms shall be staggered such that two (2) members have a one year term, three (3) members have a two year term, and three (3) members have a three year term.

(c) Chairperson. The Chairperson of the Committee shall be elected by the Committee, and shall serve rules adopted by the Committee.

(d) Powers and Duties. The Committee shall examine, report and make recommendations to the Madison Common Council and the Dane County Board of Supervisors on issues related to homelessness. This includes housing for the homeless, jobs and job training, availability of public toilets and showers, access to storage lockers, and the provision of mental health, drug and alcohol services. The Committee may adopt rules for the operation of the Committee.

(e) Reporting. The Committee shall report at least annually, by August 1, to the Common Council and County Board.

(f) Staffing. The Committee shall be assisted by the Dane County Human Services Department and the City of Madison Community Development Division.

(Sec. 33.09(3) Cr. by ORD-14-00090, 5-7-14)

(Sec. 3.26 Am. by Ord. 8055, 6-17-83)

33.10 COMMITTEE ON EMPLOYEE RELATIONS.

(1) The Committee on Employee Relations shall act in an advisory capacity to the Mayor and the Common Council in making studies and recommendations relative to rates of pay, hours of work and conditions of employment for employees employed by the City of Madison who are not in a compensation group containing general municipal employees where a certified labor organization has been elected to collectively bargain. The Committee is advisory only and is not created to, nor shall it engage, at any time, in collective bargaining.

(2) Membership.

(a) The Committee shall be composed of nine (9) members. Three (3) members shall be members holding management positions with the City of Madison. Three (3) members shall be resident members nominated by the employees. Two members (2) shall be alderpersons currently serving on the Finance Committee. One member (1) shall be the Human Resources Director who will only vote to break a tie vote among the other members. All members, with the exception of the Human Resources Director, shall be appointed by the Mayor subject to the approval of the Common Council on the third Tuesday of April for a term commencing on that date. The terms of the alderpersons expire with the expiration of their term as an alderperson. The remaining six (6) members shall serve staggered terms of three (3) years, with the terms of two (2) members expiring annually. (Am. by ORD-17-00030, 3-8-17; ORD-16-00081, Pub. 9-15-16, Eff. 4-18-17)

(b) The Human Resources Director shall act as executive secretary to the Committee and shall prepare the agenda and minutes of the meetings and perform such other duties as the Committee shall direct.

(c) Appointments to the Committee shall be made with consideration given to the expertise or interest necessary for proper performance of the duties assigned to the Committee members with strong consideration given to experience relating to recognized labor and employment related groups and agencies. All vacancies shall be filled by appointment of the Mayor subject to approval of the Common Council for a term filling out the remainder of the vacated member's term.

(3) The offices of Chair and Vice-Chair shall be filled by majority vote at the first meeting in May annually. Consistent with Sec. 33.01(7)(b), MGO, alders are not eligible to serve as Chair or Vice-Chair. In the event the resident chair and vice-chair are absent from a meeting, an alder, upon consensus of the members present, may assume the chair. However, in no event shall an alder serve as chair of the Committee for more than two (2) consecutive meetings. The Committee shall adopt rules for the governance of its proceedings not inconsistent with Federal, State or local law. Such rules may include a provision for delegation of the powers and responsibilities of the Committee to subcommittees composed exclusively of Committee members. (Am. by ORD-17-00030, 3-8-17)

(4) Duties. It shall be the function of the Committee to make recommendations on ordinances, resolutions, the Employee Benefits Handbook for General Municipal Employees and portions of the Professional and Supervisory Handbook that apply to Compensation Group 23 (collectively "Handbooks") pertaining to rates of pay (excluding base wages as that term is defined in Wis. Stat. § 111.70(4)(mb) as may be amended from time to time and the initial placement of the employee in the salary range), hours of work and conditions of employment affecting the City and its employees, including matters pertaining to:

(a) Improving the delivery of City services;

(b) Problems that arise in the workplace which are not covered by the general municipal employee grievance and arbitration procedure (Sec. 3.53(9), MGO) or City of Madison Personnel Rules;

(c) Rates of pay other than base wages or the initial salary placement;

(d) Proposed changes to employee benefits;

(e) Proposed changes, whether by ordinance or resolution, Handbooks or any other means, related to pay (other than base wages or the initial salary placement), hours of work and conditions of employment, including the amount of any general salary increase;

(f) Changes to the Handbooks. Any changes to the Handbooks shall be made only after approval by this Committee and the Common Council.

(g) Matters referred to it by the Common Council.

(5) Mission. The mission of the Committee is to reach an amicable understanding by developing, implementing and fostering interest based problem solving methods and techniques with respect to the Employer-Employee relationship. To that end, the Committee shall, in conjunction with the Mayor and all City departments create, promote and agree to work together in joint employee-management teams to foster open and regular communication between employees, management, City officials, and residents recognizing that open communication is an essential element in maintaining an atmosphere of trust in the City and continuing to provide the high quality service for which the City is known. (Am. by ORD-17-00030, 3-8-17)

(6) The Committee shall take up no matter, nor propose any ordinance, personnel rule or work rule that interferes, in any way, with the rights of represented general municipal employees to bargain over base wages nor shall the Committee take up any matter, nor propose any ordinance, personnel rule or work rule that interferes with the management rights of the City to operate and manage its affairs in keeping with its responsibility and the powers or authority which the City retains by law or custom unless specifically designated as a duty of the Committee in sub. (4) above.

(7) The members of the Committee shall serve without compensation.

(8) The Committee is a standing sub-unit of the City of Madison and may only be dissolved by ordinance.

(Sec. 33.10 Cr. by ORD-14-00122, 7-11-14; Am. by ORD-14-00172, 12-10-14)

33.11 COMMITTEE ON THE ENVIRONMENT. (Am. by ORD-09-00052, Pub. 4-2-09, Eff. 8-1-09)

(1) The Committee on the Environment shall act in an advisory capacity to the Mayor and the Common Council in making studies and recommendations relative to water, land and air quality; noise abatement; use control; safety and management of the lakes, rivers, streams and other bodies of water and their shorelands under the jurisdiction of the City of Madison and all drains, outlets and sewers emptying into any such streams or bodies of water, and shall act toward improved quality of land, air and water. (Am. by ORD-09-00052, Pub. 4-2-09, Eff. 8-1-09)

(2) The Committee shall be composed of nine (9) members to be appointed by the Mayor subject to the approval of the Common Council on the third Tuesday of April for a term commencing on that date. One (1) member shall be an alderperson whose term shall expire with the expiration of his/her term as alderperson. Five (5) members shall be resident members whose terms shall be three (3) years.

The Board of Public Works, the Board of Health for Madison and Dane County and the Water Utility Board will each designate one member of their respective bodies for appointment by the Mayor to this Committee.

The City Engineer shall act as executive secretary to the Committee who shall prepare the agenda and minutes of the meetings and perform such other duties as the Committee shall direct.

Appointments to the Committee shall be made with consideration given to the expertise and/or interest necessary for proper performance of the duties assigned to the Committee members, and with strong consideration given to membership or participation in recognized environmental groups and agencies. All vacancies shall be filled by appointment of the Mayor subject to approval of the Common Council for a term filling out the remainder of the vacated member's term.
(Am. by Ord. 10,901, 5-13-94, 5-31-94; Ord. 13,239, 2-11-03; ORD-05-00033, 2-24-05; ORD-17-00030, 3-8-17)

(3) The offices of Chair and Vice-Chair shall be filled by majority vote at the first meeting in May annually. The aldermanic members shall be eligible to serve in one but not in both such positions during any year.

The Committee shall adopt rules for the governance of its proceedings not inconsistent with Federal, State or local law. Such rules may include provision for delegation of the powers and responsibilities of the Committee to subcommittees composed exclusively of Committee members. (Am. by ORD-14-00012, 1-14-14)

(4) It shall be the function of the Committee to make recommendations on matters pertaining to environmental quality as above-mentioned, including measures to:

(a) Further the maintenance of safe and healthful conditions;

(b) Prevent and control water, land and air pollution;

(c) Protect spawning grounds, fish and aquatic life;

(d) Preserve shore cover and natural beauty;

(e) Control nuisance conditions;

(f) Maintain and improve flow and navigation channels;

(g) Influence development or use of recreational areas;

(h) Control excessive noise.

(5) The Committee shall, in conjunction with the Mayor and appropriate City departments, also take steps to open lines of communication with residents, as well as with other municipalities, the County, the State, and the Federal government in order to better coordinate efforts at improving the quality of the environment. It shall also take steps to encourage creation of an intergovernmental council on the environment of officials from all units of local government in the Madison area. (Am. by ORD-17-00030, 3-8-17)

(6) The members of the Committee shall serve without compensation.

(Sec. 3.09 Cr. by Ord. 4801, 12-6-74; Sec. 3.11 Am. by ORD-09-00052, Pub. 4-2-09, Eff. 8-1-09)

[EDITOR'S NOTE: Section 3.09 was originally the Municipal Justice Section. Justice of the Peace repealed by 1963 J.R. 1965 J.R., Vote April 1966.]

33.12 RESERVED FOR FUTURE USE. (Rep. by ORD-16-00112, Pub. 12-14-16. Eff. 1-1-17)

33.13 COMMON COUNCIL EXECUTIVE COMMITTEE.

(1) Committee Composition. There is hereby created a Common Council Executive Committee (CCEC) which shall consist of seven (7) members of the Common Council who shall serve for terms of one year. The President of the Common Council shall serve as Chair. At the annual organizational meeting of the Common Council, held on the third Tuesday of April of each year, the President shall appoint five (5) other members of the Council to serve on the Executive Committee. The Vice President of the Council shall serve as the seventh member of the Committee, and the immediate past President shall, if s/he is a member of the Common Council, serve as an alternate member of the Committee. If the immediate past President is not a member of the Common Council, or has been elected to serve another term as President or a term as Vice President, the President of the Common Council shall appoint an alternate member. The alternate member may act with full power and authority when any other member is absent or refuses to act. The alternate member

may participate in Committee discussion and serve on subcommittees at any time. The President may appoint any Council members to serve on a subcommittee. (Am. by Ord. 12,037, 3-2-98; ORD-14-00107, 6-16-14; ORD-16-00080, Pub. 9-15-16, Eff. 4-18-17)

(2) Office of the Common Council.

(a) There is hereby created the Office of the Common Council which shall be managed and directed by the Common Council President with the advice and support of the City's Human Resources Director. Common Council staff shall be appointed by the Common Council after nomination by the Common Council Executive Committee, shall serve under civil service, shall prepare and review the Council office budget, and shall perform those duties assigned by members of the Common Council. (Am. by ORD-09-00054, 4-2-09)

(b) Common Council Chief of Staff. There shall be a Common Council Chief of Staff authorized by the Common Council.

1. The Common Council Chief of Staff shall be appointed by the Common Council and report to the Common Council Executive Committee. The Common Council Chief of Staff is subject to the authority of the Common Council Executive Committee to impose discipline or discharge as provided in section (9) of the City of Madison Personnel Rules.

2. The Common Council Chief of Staff shall have supervisory authority over other Common Council Staff and the Common Council Legislative Analyst.

(c) Pursuant to Sec. 3.53(1)(h), MGO, the Common Council Chief of Staff is exempt from the civil service system. Instead, the Common Council Chief of Staff will serve for a term of five (5) years under a written employment agreement said agreement to be renewed at the pleasure of the Common Council. This position is also exempt from the provisions of Sec. 3.54(9), MGO, governing compensation of managerial employees. Annual cost of living increases will be equivalent to increases for members of Compensation Group 18.

(d) For purposes of benefits only, the Common Council Chief of Staff shall have the same benefits as non-represented professional employees in Compensation Group 18 as may be provided and/or modified by the Madison General Ordinances, Resolution of the Common Council, Administrative Procedure Memoranda or other official City action."

(Sec. 3.55(2) R. and Sec. 3.55(3) Renumbered to Sec. 3.55(2) by Ord, 12,037, 3-2-98; Sec. 33.13 Am. by ORD-17-00058, 6-19-17)

(3) Common Council Rules and Procedures. The Common Council Executive Committee shall be responsible for recommending rules and procedures to be followed by all standing committees of the Common Council and at Council meetings. The Committee shall also establish rules and guidelines for use of the Council office facilities. Such rules and procedures shall be approved by the Common Council. (Renumbered by Ord. 12,037, 3-2-98)

(4) Duties of the Committee.

(a) Review and Recommendation of City Policy. The Common Council Executive Committee may receive referrals of ordinances, resolutions and reports from the Common Council, may hold public hearings, and may make reports and recommendations on matters so referred.

(b) Review of Legislation. The Committee shall:

1. Participate in the development of a City of Madison state legislative agenda and make recommendations to the Council and the Mayor as to agenda priorities. The legislative agenda would identify the City's legislative goals for the session, some of which may be submitted for introduction to the Legislature.

2. Study proposed legislation affecting the City and make recommendations to the Council and the Mayor for positions to be taken by the City on selected legislation. In those instances where prompt action is required and time and circumstances do not permit adoption of a position on specific legislation, the Mayor is authorized to act in a manner consistent with the City's legislative agenda.
3. Design strategies and make recommendations to the Council to directly involve the Council members in communicating Council positions to the Dane County State Legislative delegation on specific issues or legislation.
4. Receive reports from the City's Legislative Analyst regarding the status of the City's legislative agenda and other legislation.
5. Make periodic reports to the Council pertaining to legislative matters.
6. Conduct studies and make recommendations to the Council and the Mayor relative to state or federal legislative issues which may have an impact on City government.
7. Examine federal legislation or issues which might have significant direct impact on City government.
8. Review proposed legislative agenda from Special Committees.

(c) The Common Council Executive Committee shall serve as the Administrative Review Board under Sec. 9.49, MGO. (Cr. by ORD-11-00161, 12-6-11)

(d) Other Duties. The Common Council may assign other duties to the Common Council Executive Committee. (Renum. by ORD-11-00161, 12-6-11)

(Cr. by Ord. 12,037, 3-2-98; Am. by ORD-16-00079, Pub. 9-15-16, Eff. 4-18-17)

33.14 COMMITTEE ON AGING.

(1) Organization. There is hereby created a Committee on Aging to serve as an advisory body to the Community Services Committee and the Community Development Division, as well as other City Departments, the Mayor and the Common Council.

(2) Membership and Meetings. The Committee on Aging shall be composed of eleven (11) individuals and two (2) members of the Common Council, to be appointed by the Mayor, subject to the approval of the Common Council. A majority of the members shall be over 55 years of age, and other members shall have expertise, experience, or education in aging social services or programs. One member of the Committee shall be a board member of the Madison Senior Center Foundation, Inc. All members will serve without compensation. Members shall be appointed for terms of three (3) years, except that the term of the aldermanic member shall expire upon the expiration of his or her term as alder. The Committee shall meet no fewer than nine (9) times per year.

(3) Officers. The Committee shall elect from among its members a chairperson and vice chairperson. The Senior Center Director and the Community Development Division shall provide staff assistance to the Committee on Aging.

(4) Charge. The Committee on Aging shall have the following powers and duties:

(a) Recommend Older Adult Service Goals and Objectives to the Community Services Committee.

(b) Recommend budget allocations for older adult services purchased by the City of Madison to the Community Services Committee.

(c) Address barriers to service or participation in older adult services including but not limited to language access issues, socioeconomic, racial, cultural or gender issues and sexual orientation.

(d) Gather information, through public hearings and other methods, on the concerns, problems and needs of older adults and communicate its findings to the Community Services Committee, Mayor, and Common Council.

(e) Review and recommend policy and its impacts to the Community Services Committee, the Community Development Division, the Mayor and the Common Council in the area of older adult concerns and programs.

(f) Review proposed legislation or policies to determine the impact on older adult services and the service population.

(g) Recommend legislation or policy or revisions as may be necessary related to the health, welfare, and security and safety of older adults.

(h) With the support of the Mayor and Common Council, advocate for older adults and the policies, funding, and legislation which best serve their interests and needs.

(i) Coordinate funding and programs with the Area Agency on Aging, the Aging and Disability Resource Center, and other agencies serving older adults.

(j) Investigate new and innovative methods for the delivery of older adult services.

(k) Seek ways to involve residents in planning for the provision of services to older adults. (Am. by ORD-17-00030, 3-8-17)

(l) Advise the Director of the Senior Center on programs, services and policies for the effective functioning of the facility.

(m) Promote the Senior Center and its programs and services to older adults and their families and caregivers.

(n) Oversee and recommend the budget for the Senior Center to the Community Development Division.

(o) Receive regular reports and information from the staff and participant advisory council of the Senior Center.

(Sec. 33.14 R. & Recr. by ORD-12-00062, 5-9-12)

33.15 COMMUNITY DEVELOPMENT BLOCK GRANT (CDBG) COMMITTEE. (Am. by ORD-09-00052, Pub. 4-2-09, Eff. 8-1-09)

(1) Organization. There is created for the City of Madison a Community Development Block Grant (CDBG) Committee.

(2) (a) Membership. The Committee shall consist of nine (9) members and two (2) alternate members, appointed by the Mayor, subject to the approval of the Common Council. Two (2) members shall be alderpersons. The other members shall be resident members. At least three resident members shall be persons of low or moderate income, as low or moderate income is defined by the CDBG regulations, and at least one resident member shall be a member of a minority as defined in Sec. 39.02(9)(a)7. of these ordinances. One position may be filled by either an alderperson or a resident member. (Am. by ORD-17-00030, 3-8-17)

(b) Alternate Members. In addition to the nine (9) members, as provided in Subdivision (a) above, the Mayor shall appoint a first alternate and a second alternate member. Alternate members shall serve a term of one (1) year, and may be re-appointed. The first alternate shall act with full power when any other member of the Committee is absent or refuses to act because of a conflict of interest. The second alternate shall act only when the first alternate is absent or refuses to act, or when more than one (1) Committee member is absent or refuses to act because of a conflict of interest. Alternates may serve as the CDBG Committee representative on other City committees at any time. (Am. by ORD-08-00128, 11-22-08)

(3) Terms. All members except alternate members shall be appointed for two (2) year terms. The terms of alderpersons shall expire with the expiration of their terms as alderpersons.

(4) Powers and Duties. The Community Development Block Grant (CDBG) Committee shall have the following powers and duties:

(a) Recommend policies, goals, and objectives of the CDBG program, after consultation with the Mayor, to be approved by the Common Council.

(b) Evaluate performance of contractors performing CDBG-funded activities, including obtaining such information as is reasonably necessary for such evaluation; and, at the discretion of the Committee, make recommendations to the Mayor and Common Council regarding contract revisions, enforcement or terminations.

(c) Review project and Local Options proposals for CDBG funding.

(d) Recommend to the Mayor and Common Council a budget for CDBG funding, based upon assessment of the proposals, evaluation of performance on other projects, City policies, goals, objectives, financial needs and commitments, and upon the needs assessment by the Clearinghouse for Citizen Participation.

(e) Recommend to the Mayor and Common Council the allocation of any reprogrammed funds.

(f) Perform those functions delineated in Sec. 4.22 as regards the Affordable Housing Trust Fund. (Cr. by Ord. 13,476, 12-23-03)

(g) The Community Development Block Grant Committee (CDBGC) shall recommend to the Mayor three (3) of its regular members (not alternate members), including one alderperson, to serve as members of the Community Development Division Conference Committee. The term of each appointment shall be one year. (Cr. by ORD-14-00010, 1-14-14)

(5) Mayor's Role. Nothing herein shall be deemed to limit the obligations, duties, and discretion of the Mayor pursuant to his or her position as the Chief Executive of the City and pursuant to the rules and regulations of the Department of Housing and Urban Development (HUD).

(6) Meetings. The Committee shall meet at least once each month, shall elect officers, and otherwise conduct its business in accordance with rules it may establish. The Community Development Block Grant Supervisor, under the direction of the Mayor, shall provide necessary staff services to the Committee but the Committee may request and receive necessary staff services from other City agencies.

(Renumbered from Sec. 3.70 by ORD-07-00047, 4-12-07; Sec. 3.70 Am. by Ord. 11,182, 3-3-95; Ord. 13,476, 12-23-03; ORD-09-00052, Pub. 4-2-09, Eff. 8-1-09)

33.16 COMMUNITY SERVICES COMMITTEE. (Am. by ORD-09-00052, Pub. 4-2-09, Eff. 8-1-09)

(1) Organization. There is created for the City of Madison a Community Services Committee.

(2) Membership. The Committee shall consist of eleven (11) members, except as provided below. Nine (9) members shall be appointed by the Mayor, subject to the confirmation by the Common Council. Members shall be appointed on the basis of their knowledge and interest in human services. At least one, and no more than two, such members shall be an Alderperson. One (1) resident member shall be selected by the Mayor from and with the advice of the Early Childhood Care and Education Committee. One (1) resident member shall be selected by the Mayor from a panel of three (3) submitted by the Madison Federation of Labor. One (1) of the resident members shall be a present or former client or recipient of a private nonprofit program. At least one (1) of the resident members shall be a member of a minority as defined in Sec. 3.58(8)(a)7. of these ordinances. The Senior Citizens Advisory Committee shall elect one of its members to serve as a member and another to serve as an alternate member of the Community Services Committee subject to confirmation by the Common Council. The alternate member may act with full power and authority when the other Senior Citizens Advisory Committee member is absent or refuses to act due to a conflict of interest. The remaining members shall be broadly representative of the community. The Supervisor of the Office of Community Services or his/her designee shall be an ex-officio member of the Committee without vote and shall serve as secretary. (Am. by Ord. 11,725, 12-13-96; Ord. 12,806, Adopted 4-3-01; Ord. 13,209, 12-10-02; ORD-07-00135, 10-18-07; ORD-09-00052, Pub. 4-2-09, Eff. 8-1-09; ORD-17-00030, 3-8-17)

(3) Terms. When the Committee is first constituted, the respective appointments shall be as follows: Three (3) resident members shall be appointed for terms of three (3) years; and two (2) resident members shall be appointed for terms of two (2) years; and two (2) resident members shall be appointed for terms of one (1) year except that such terms shall expire on October 1 of the year of expiration of said terms. Thereafter, all members shall be appointed for terms of three (3) years, except that the term of aldermanic members of the Committee shall expire with the expiration of their terms as alders. (Am. by ORD-09-00147, 11-6-09; ORD-17-00030, 3-8-17)

(4) Charge. The Community Services Committee shall have the following responsibilities:

(a) Establish policies to be followed by the Office of Community Services.

(b) Investigate new and innovative methods for delivery of human services.

(c) Recommend policy to the Mayor and Common Council in the area of community services.

(d) Make recommendations to the Mayor and Supervisor of Community Services regarding the budget for community services, and human services purchased by the City from private non-profit agencies.

(e) Stimulate coordinated inter-community and intra-community planning for the delivery of human services.

(f) Seek ways to involve residents in assessment of human services needs. (Am. by ORD-17-00030, 3-8-17)

(g) Cooperate with the Plan Commission and Department of Planning and Community and Economic Development.

(h) Seek to improve accessibility of human services to residents who have language and other barriers. (Am. by ORD-17-00030, 3-8-17)

(i) Establish human services priorities and criteria for choices between those services which are provided directly by the City and those which are purchased from other agencies.

(j) Work to improve coordination and follow-up in connecting City residents with available human services.

(k) Coordinate human services activities with other governmental units.

(l) The Community Services Committee (CSC) shall recommend to the Mayor three (3) of its regular members (not alternate members), including one alderperson, to serve as members of the Community Development Division Conference Committee. The term of each appointment shall be one year. (Cr. by ORD-14-00010, 1-14-14)

(5) Meetings. The Committee shall meet at least once each month and shall conduct its business in accordance with rules which it may establish.

(6) Reports. The Committee shall furnish to the Mayor minutes of its regular and special meetings within ten (10) days of the date of the meeting.

(7) Early Childhood Care and Education Committee.

(a) There is hereby created an Early Childhood Care and Education Committee as a committee of the Community Services Committee to serve as an advisory body to the Community Services Committee and the Community Development Division on the operation of the Madison Child Care Accreditation and Child Care Assistance Programs. (Am. by Ord. 12,806, Adopted 4-3-01)

(b) The Early Childhood Care and Education Committee shall consist of nine (9) members with experience and/or expertise necessary for proper performance of the duties assigned; two (2) members shall be specialists in the field of child care; six (6) members shall be other resident members to include one (1) member who is a child care service consumer and one (1) member who is a child care worker; and one (1) Alderperson. (Am. by Ord. 12,504, 11-19-99; Ord. 12,806, Adopted 4-3-01; Ord. 13,161, 10-8-02; ORD-17-00030, 3-8-17)

(c) Members shall be appointed by the Mayor and confirmed by the Common Council to three (3) year terms with the exception of the Alderperson whose term shall expire with the expiration of their term as alderperson. All Committee members shall serve without compensation. All terms shall commence on the first (1st) day of October, with the exception of the Alderperson, whose term shall begin on the third Tuesday in April. Appointments shall be for three (3) years. Vacancy appointments shall complete the term of appointment filled. Members' terms shall automatically be terminated when the member no longer meets the requirements set forth in Section 33.16(7)(b). (Am. by Ord. 13.161, 10-8-02; Ord. 13,206, 12-10-02)

(d) The committee members shall choose from among their resident members a chairperson and vice chairperson. The Community Development Director or his/her designee shall serve as secretary to the committee. (Am. by Ord. 8099, 8-12-83; ORD-17-00030, 3-8-17)

(e) It shall be the general duty of the Early Childhood Care and Education Committee to advise and make recommendations to the Community Services Committee and the Community Development Division on policy and guidelines for the Madison Child Care Accreditation and Child Care Assistance Programs and the Community Resources funding process. Those duties shall include, but not be limited to, the following:

1. Eligibility criteria for approved child care agencies;
2. Eligibility criteria for child care assistance;
3. Eligibility criteria for grants and loans; and
4. Participation in the Community Development Division Funding Process regarding children and families and assessment of community child care needs.

(Am. by ORD-09-00052, Pub. 4-2-09, Eff. 8-1-09)

(f) The Committee shall conduct hearings and make determinations in appeals from actions of the Child Care Coordinator pursuant to Section 3.12(10)(c)3.e. of these ordinances. (Am. by Ord. 8099, 8-12-83)

(Am. by ORD-09-00052, Pub. 4-2-09, Eff. 8-1-09; ORD-13-00161, 10-9-13)

(8) (R. by ORD-12-00062, 5-9-12)

(Sec. 33.16 Am. by ORD-09-00052, Pub. 4-2-09, Eff. 8-1-09)

33.17 ECONOMIC DEVELOPMENT COMMITTEE. (Am. by ORD-09-00052, Pub. 4-2-09, Eff. 8-1-09)

(1) There is hereby created for the City of Madison a committee to be known as the Economic Development Committee.

(2) Composition. The Committee shall consist of eleven (11) members: the Mayor or the Mayor's designee, three (3) Alderpersons, and seven (7) residents with a wide range of direct experience in business and/or knowledge related to job creation, real estate or workforce development. The Mayor shall appoint the members of the Committee subject to confirmation by the Common Council.

Terms of appointment of the resident members shall be staggered, for three (3) years, commencing May 1 and expiring April 30. The Alderpersons terms shall coincide with his or her term of office.

If the Mayor serves on the Committee, the Mayor shall act as chairperson. Otherwise, the chairperson will be elected by the Committee. (Am. by Ord. 12,112, 5-18-98; Ord. 13,602, 5-11-04; ORD-05-00113, 6-28-05; ORD-09-00116, Eff. 8-1-09; ORD-16-00034, 3-25-16; ORD-17-00030, 3-8-17)

(3) Duties. The Economic Development Committee shall:

(a) Assist City officials and staff in promoting a healthy, diversified economy in which business can locate, innovate, grow and prosper, and all residents have opportunities for living wage jobs.

(b) Make recommendations to the Mayor and the Common Council on economic development policies and issues.

(c) Every four (4) or five (5) years, receive and consider a Comprehensive Economic Development Report and Plan (CEDRP) prepared by Economic Development Division staff on economic trends for the City of Madison and surrounding area. After review and revision by the Committee, the CEDRP shall be submitted to the Common Council for approval. The CEDRP should include:

1. Available data on employment by type of job, wages, unemployment rate; and, overall changes in employment and population,
2. General demographic data,
3. A description of business and workforce assistance available,
4. An evaluation of current economic development efforts, and
5. Recommendations of possible changes to, and new, programs, strategies, policies, and projects to achieve the economic development goals stated in paragraph (a) above and other related goals adopted by the City of Madison.

(d) Every two (2) years, the Economic Development Division Director will develop a "Work Plan" consistent with the adopted CEDRP for the City's economic development priorities in the next two (2) years. The Work Plan shall be submitted to the Common Council with referral to the Economic Development Committee before action by the Common Council. The Work Plan may include changes to the CEDRP.

(e) Provide the community with a public forum for information sharing and discussion about economic issues affecting the City of Madison.

(4) In carrying out the duties described in subsection (3), the Committee may form subcommittees, hold public meetings, and utilize the services of the City or other public or private services as it finds necessary, subject to the policy and budgetary approval of the Common Council.

(5) The Economic Development Committee shall meet once a month and all agendas shall be prepared by the Economic Development Division Director or his/her designee in consultation with the Chair, and they shall determine the order of the agenda.

(6) Staff. The Economic Development Committee shall receive primary staffing from the Economic Development Division.

(Am. by Ord. 7023, 6-27-80; Ord. 13,602, 5-11-04; Am. by ORD-09-00052, Pub. 4-2-09, Eff. 8-1-09; ORD-16-00034, 3-25-16)

33.18 COMMUNITY DEVELOPMENT DIVISION CONFERENCE COMMITTEE.

(1) Purpose & Intent. The Community Development Division (CDD), the Community Development Block Grant Committee (CDBG) and the Community Services Committee (CSC) each exercise an important and ongoing role in allocating City resources, through established and regularly scheduled City funding processes, that seek to address and fund social services and community needs through investments in programs that serve prioritized issues or populations. Within these funding processes, the roles of the CDBG and CSC frequently intersect. In addition, emerging or unanticipated needs or opportunities sometimes arise under circumstances that cannot be properly addressed within established funding cycles. To meet these various needs, this Committee is created and charged with coordinating final decisions that are required under CDD's established funding processes; reviewing applications for Emerging Opportunities Program funds submitted pursuant to

Sec. 3.12(11) and making recommendations to the Mayor and Common Council; and facilitating discussions or decisions around other issues that affect both the CDBG and CSC.

(2) Composition. The Committee shall be composed of six (6) members. The CDBG and CSC shall each recommend to the Mayor three of its members, including one alderperson from each of the CDBG and the CSC, to serve on the Conference Committee. No member of the Conference Committee shall be appointed to fill a position for both the CDBG and the CSC, however, a member of the Conference Committee may be a member of both the CDBG and the CSC. Each member's term shall be for one year, though members may serve for more than one term.

(3) Support. The CDD shall provide staff support to the Community Development Division Conference Committee.

(4) Meetings. The CDD Director shall notify the Community Development Division Conference Committee when there is a need to convene and the Committee shall schedule meetings as soon as practicable following such notifications.

(Sec. 33.18 Cr. by ORD-14-00010, 1-14-14)

33.19 LANDMARKS COMMISSION.

(1) Composition and Terms. A Landmarks Commission is hereby created, consisting of seven (7) members. One (1) shall be a historian; at least one (1) shall be a licensed architect, one (1) shall be a licensed real estate professional; one (1) shall be an Alder; and three (3) shall be resident members, at least one of whom has expertise in construction. Each member shall have, to the highest extent practicable, a known interest in historic preservation. Of the membership, at least two (2) shall meet the Professional Qualifications Standards established by the United States Secretary of the Interior for History, Archeology, Architectural History, Architecture, or Historic Architecture. The Mayor shall appoint the commissioners subject to confirmation by the Common Council. The term for each member shall be three (3) years. The terms shall be staggered. (Am. by ORD-17-00030, 3-8-17; ORD-17-00030, 3-8-17)

(2) Powers and Duties. The Landmarks Commission shall have the authority and duties assigned to it under Sec. 41.04, MGO. In addition, the Landmarks Commission shall:

(a) Oversee a survey for the identification of significant properties, structures, sites and areas that exemplify the cultural, social, economic, political or architectural history of the nation, state, or city at least every ten (10) years.

(b) Work closely with the appropriate State of Wisconsin officials for the National Register of Historic Places of the United States National Park Service to list landmarks designated by the Common Council on the National Register.

(c) Work closely with the City Planning Division to visually define and highlight historic districts.

(d) Educate landmark owners and the owners of properties in historic districts about resources and incentives available which would assist in carrying out the policy and purposes of Chapter 41, MGO.

(e) Educate the residents of Madison about the historic heritage of the city, including its designated landmarks and historic districts. (Am. by ORD-17-00030, 3-8-17)

(f) Assist the City in obtaining funds for the purpose of historic preservation

(g) Adopt policies and procedures, as necessary, to carry out its responsibilities.

(h) Review proposed historic preservation plans, amendments to historic preservation plans, and proposed ordinances affecting historic preservation, and make recommendations to the Common Council.

(Sec. 33.19 Rep. & Rec. by ORD-15-00072, 7-29-15)

33.20 MADISON CULTURAL ARTS DISTRICT BOARD.

The Common Council, pursuant to Subchapter V of Chapter 229, Wis. Stats., has adopted Substitute Resolution ID No. 28007 (the "Enabling Resolution"), which authorized the creation of a special purpose district that is separate and distinct from, and independent of, the City. Such district shall be known as the Madison Cultural Arts District (the "District"). The District shall be governed by the Madison Cultural Arts District Board.

(1) Board Composition. The Madison Cultural Arts District Board shall consist of the following thirteen members, subject to Subsection (4):

(a) The following persons, or their designees, shall be ex-officio members of the Board, except that a designee shall serve at the pleasure of his or her appointing authority:

1. The Governor of the State of Wisconsin.
2. The Mayor of the City of Madison.
3. The Dane County Executive.

(b) Three persons appointed by the Governor.

(c) Six persons appointed by the Mayor, one of whom shall be selected from a list of three to five names that is submitted by the Madison Metropolitan School District Board and one of whom shall be selected from a list of three to five names submitted by the collective board chairs of the Overture Center's resident companies. Of the remaining four appointees under this paragraph, all of the appointees shall have demonstrated interest and participation in cultural arts activities and two appointees shall be Common Council members. A person appointed under this paragraph may take his or her seat immediately upon appointment and qualification, subject to confirmation by the Common Council. (Am. by Ord. 12,845, 7-9-01)

(d) One person appointed by the Dane County Executive.

(2) Initial Terms.

(a) Persons appointed by the Mayor shall serve staggered terms of four years expiring on July 1st, except that:

1. The initial term of two directors appointed by the Mayor shall expire on July 1st of the fourth year beginning after the year of creation of the District.
2. The initial term of two directors appointed by the Mayor shall expire on July 1st of the fifth year beginning after the year of creation of the District.
3. The initial term of two directors appointed by the Mayor shall expire on July 1st of the sixth year beginning after the year of creation of the District.

(b) The Mayor shall designate with his or her initial appointments the terms to which directors have been appointed.

(3) Residency; Removal; Vacancies.

(a) Persons appointed under (1)(b) to (d) must have resided within twenty-five miles of Madison's City Hall for at least one year before their appointment. Persons appointed by the Mayor shall be residents of the City of Madison.

(b) Persons appointed by the Mayor may be removed from the Board before expiration of their terms by the Mayor, but only for cause, as defined in Sec. 17.16(2), Wis. Stats.

(c) Vacancies for Mayoral appointments shall be filled by the Mayor, subject to Common Council confirmation. A person appointed to fill a vacancy shall serve for the remainder of the unexpired term to which he or she is appointed.

(d) The Mayor, Governor and County Executive shall confer with one another regarding their appointments with a view toward achieving diversity of the District Board.

(4) Board Expansion. If the Common Council determines that another city or a village or town having territory located within twenty-five miles of Madison's City Hall provides substantial support to the District, the Common Council may increase the size of the Board to include as a member the mayor, village president or town board chair of that city, village or town, or the designee of such a mayor, village president or town board chair. If the Common Council subsequently determines that the other city or the village or town no longer provides substantial support to the District, the Common Council may decrease the size of the Board to exclude that member.

(5) District Powers. Upon the appointment and qualification of at least seven of the members of the Board, the Board may exercise the powers and duties as set forth in Subchapter V of Chapter 229, Wis. Stats., as it may be amended from time to time, including but not limited to:

(a) Adopt bylaws to govern the District's activities.

(b) Sue and be sued in its own name, plead and be impleaded.

(c) Maintain an office.

(d) In connection with cultural arts facilities or in support of any cultural arts activity:

1. Acquire, construct, equip, maintain, improve, operate and manage the cultural arts facilities as a revenue-generating enterprise or otherwise, or engage other persons to do these things.
2. Acquire; lease, as lessor or lessee; use; or transfer property within or outside of the District's jurisdiction;
3. Acquire property by condemnation.
4. Enter into contracts, subject to such standards as may be established by the District Board.
5. Grant concessions.

(e) Employ personnel, and fix and regulate their compensation; and provide, either directly or subject to an agreement under Sec. 66.0301 as a participant in a benefit plan of another governmental entity, other than a benefit plan provided under Ch. 40, any employee benefits, including an employee pension plan.

(f) Purchase insurance, establish and administer a plan of self-insurance.

(g) Mortgage, pledge or otherwise encumber the District's revenue, property or funds.

(h) Issue revenue bonds under Sec. 66.0621 and contract short term obligations, and pledge the full faith and credit of the District for repayment of those short term obligations.

(i) Maintain funds and invest the funds.

(j) Promote, advertise and publicize its cultural arts facilities and related cultural arts activities.

(k) Set standards governing the use of, and the conduct within, its cultural arts facilities in order to promote public safety and convenience and to maintain order.

(l) Establish and collect fees, and establish shared revenue arrangements or other charges for the use of its cultural arts facilities or for services rendered by the District.

(m) Enter into partnerships, joint ventures, common ownership or other arrangements with other persons to further the District's purposes.

(n) Solicit and accept gifts, loans, grants of land or other property and other aid, and agree to conditions with respect to such gifts, loans, grants or other aid.

(o) Administer the receipt of revenues, and oversee the repayment of debt contracted by the District.

(p) Adopt and alter an official seal.

(q) Direct its agents or employees, if properly identified in writing, to enter upon any real property that the District has the authority to condemn, to make surveys and examinations.

(r) Provide money or other property, by sale, loan, lease, grant, gift or other form of transfer, to any other person.

(6) Eminent Domain. The Board may exercise its powers of eminent domain in the area designated in the Enabling Resolution. The Common Council may enact a resolution that expands or contracts the area in which the Board may exercise its power of eminent domain, except that the Common Council may not remove from that area any property that was included in the Enabling Resolution.

(7) Annual Budget. An annual budget shall be established by the District and delivered to the Common Council, but such budget shall not be subject to the approval of the Common Council.

(8) Procedure; Ethics. Section 3.27, Madison General Ordinances, shall not apply to the Board. Board members appointed by the Mayor shall be subject to the City's Code of Ethics at Sec. 3.47, Madison General Ordinances.

(9) Severability. If any term or provision of this Section is for any reason held invalid or unconstitutional by any court of competent jurisdiction, such term or provision shall be deemed a separate, distinct and independent term or provision and such holding shall not affect the validity of the remaining portions of this Section.

(Cr. by Ord. 12,690, 10-17-01; Section 3.71 "City Investment Policy Subcommittee" R. by Ord. 10,585, 1-29-93)

33.21 MONONA TERRACE COMMUNITY AND CONVENTION CENTER BOARD.

The City and Dane County, by an agreement under Wis. Stat. § 66.0301, have created a Monona Terrace Community and Convention Center Board (Board). The Board shall have broad authority and latitude to make decisions to operate a successful convention and community center. It shall establish all policies, rules and regulations governing Monona Terrace and oversee its operation, subject to the limitations set forth in the Agreement.

(1) Monona Terrace Board; Composition, Terms. The Monona Terrace Board shall consist of twelve (12) members appointed to three-year staggered terms ending on May 1st. Six appointments shall be made by the Mayor of the City of Madison, five by the Dane County Executive and one by the Governor of the State of Wisconsin. City and County appointments shall be subject to confirmation by the governing body of either City or County, as appropriate.

(a) Alternates. The mayor and county executive may each appoint one alternate member, for three year terms ending on May 1. The alternate appointed by the mayor shall be entitled to vote at Board meetings only when one or more of the other mayoral appointees is absent and the alternate appointed by the county executive shall be entitled to vote at Board meetings only when one or more of the other county executive appointees is absent. Alternates may serve as the Board representative on the Monona Terrace Event Booking Assistance Advisory Committee and on Board committees and shall have full voting rights while thus serving. An alternate may serve as an officer of a committee but may not serve as an officer of the Board. Alternates shall be entitled to attend all Board meetings and participate in all Board discussions but shall not be included when determining whether a quorum of the Board exists unless eligible to vote at the meeting. An alternate shall continue to serve until her or his successor is appointed and confirmed. (Cr. by Ord. 11,274, 6-19-95; Am. by ORD-07-00033, 3-22-07; ORD-09-00052, Pub. 4-2-09, Eff. 8-1-09)

(2) Transitional Provision for Initial Terms. Each appointing authority shall designate the terms of office for the original appointees in order to achieve staggered terms. The Mayor shall designate two of the original City appointees for one-year terms each, two for two-year terms each and two for three-year terms each. The County Executive shall

designate two of the original County appointees for one-year terms each, two appointees for two-year terms each and one for a three-year term. The original appointment by the Governor shall be for a three-year term.

(3) Terms Continued. Once appointed, regardless of other limitations on continuing to serve, a member shall serve until her or his successor is appointed and is confirmed.

(4) By-Laws; Officers Elected. The members of the Board shall create by-laws for the Board which shall be subject to approval of the City's Common Council except that the by-laws shall provide for election by Board members of a chairperson, vice-chairperson and secretary for one-year terms expiring May 1st. Matters not covered in the by-laws or in the agreement shall be decided by reference to the most recent edition of Robert's Rules of Order.

(5) Start-Up Date. The original mayoral and executive appointments to the Board shall be made no later than May 1, 1993.

(6) Duties of Board; Mission Statement. The Board shall develop a mission statement for Monona Terrace, subject to approval of the City's Common Council.

(7) Annual Budget. The Board shall review and approve the budget for Monona Terrace presented by the Director and recommend the budget for Monona Terrace to the Common Council. Following approval of the budget by the City's Mayor and Common Council, the Board shall be authorized to determine the allocation of funds within the available City appropriations and other revenue.

The budget will provide broad latitude for the Board to oversee financial operations including the authority to accept and expend operating revenues and grants received by Monona Terrace during the fiscal year.

(8) Financial Control and Oversight. The Board shall establish all user rates and charges for Monona Terrace and oversee the financial performance of the facility consistent with City accounting and financial reporting standards.

(9) Hiring of Director. The Board shall constitute or appoint a search committee for the position of Director of Monona Terrace and shall recommend three to five candidates to the City's Mayor for his or her consideration for appointment as the director. The Mayor shall submit the names to an oral interview panel for recommendation of a final selection. The oral panel shall consist of the Alliant Energy Center Director, a member of the Monona Terrace Board and three persons to be named by the Mayor. Prior to making the final selection, the Mayor shall meet with the Board to review the selection of the successful candidate. In addition, the Board shall review and recommend approval to the City's Common Council of any employment contract with the Director. Board concurrence shall be required in any nonrenewal or termination of the Director's employment. (Am. by ORD-07-00033, 3-22-07)

(10) Establishing Position of Director. There is hereby created the position of Director of Monona Terrace. The Director shall be selected as provided in Subsection (9) above and shall be subject to Section 3.38(6)(f) of these ordinances. The Director shall be responsible for operational management of Monona Terrace and be the appointing authority for all other Monona Terrace employees. (Am. by ORD-07-00033, 3-22-07)

(11) Contracting Powers. The Board is empowered to enter into contracts to purchase or provide goods and services consistent with the mission of Monona Terrace, the approved budget and these ordinances. The Chair of the Board and the Director of Monona Terrace are authorized to sign contracts for the benefit of the Monona Terrace Community and Convention Center. All contracts shall be signed by both the Chair and the Director. In the absence of either the Chair or the Director, contracts may be signed by their duly authorized designee. Contracts shall be approved by the Finance Director and as to form by the City Attorney.

(a) The Director of Monona Terrace is hereby empowered to enter into standard form facility rental agreements provided such agreements have been approved in advance by the Finance Director and the City Attorney.

(b) The Monona Terrace Board is hereby empowered to enter into agreements for monetary contributions from donors, sponsors or underwriters of events or programs to be held at Monona Terrace, provided that the amount of such monetary contribution does not exceed twenty-five thousand dollars ($25,000) in any twelve-(12) month period per donor, sponsor or underwriter. Such agreements shall be approved by the Finance Director and as to form by the City Attorney. Agreements for contributions greater than twenty-five thousand dollars ($25,000) shall be approved by the Common Council. (Cr. by ORD-14-00153, 9-24-14)

(Am. by Ord. 11,695, 10-14-96; ORD-11-00037, 3-8-11)

(12) Marketing. The Board shall cooperate with the common marketing agent selected by the City and County.

(13) Joint Services with Alliant Energy Center. The Board shall participate in joint services with the Alliant Energy Center of Dane County whenever and wherever it determines the same to be economically feasible and in the best interests of both parties, including utilization of those County services identified in paragraph 29 of the Agreement. The Board shall at least annually issue a report analyzing opportunities for increasing efficiency through joint services and operations, together with the Board's decisions thereon. (Am. by ORD-07-00033, 3-22-07)

(14) Community Promotions. The Board shall assure that Monona Terrace marketing efforts, in conjunction with the joint marketing agent's efforts, actively promote "hub and spoke" day trips (trips to various Dane County sites and communities) for Monona Terrace attendees and families.

(15) Community Access. The Board shall establish a schedule of non-profit user rates to assure community access to the facility.

(16) Small Business Opportunities. The Board shall aggressively seek to involve small business enterprises in the operations and development of the facility and shall also promote employment opportunities for economically disadvantaged persons throughout Dane County in all aspects of Monona Terrace employment and contracting. Within six months of its creation, the Board shall set goals in these areas and document plans to achieve the goals. The Board shall provide subsequent performance reports and plan updates annually thereafter.

(17) Monona Terrace Convention Center Sales Staff. The Director of the Monona Terrace Convention Center may, with the approval of the Mayor, enter into individual employment contracts on behalf of the City with person hired into the unclassified positions of "Monona Terrace Sales/Marketing Events Manager", "Monona Terrace Sales Manager" and "Monona Terrace Sales Associate" to perform sales and related marketing activities for the Center. (Am. by Ord. 12,319, 2-1-99)

(a) Such contracts shall include provisions for performance-based incentive pay above the base salary not to exceed 15% of the base salary.

(b) Such contracts shall include a provision for the termination of the agreement by either party with or without cause.

(c) Such contracts shall comply in all respects with state and federal law and shall include benefits and longevity pay consistent with those received by permanent City employees and wages established within the assigned Compensation Group 19, Range subject only to the Range maximum. (Am. by Ord. 12,319, 2-1-99)

(d) Such contracts shall be approved as to form by the Finance Director, City Attorney, and Human Resources Director.

(Cr. by Ord. 11,693, 10-14-96; ORD-11-00037, 3-8-11)

(18) Monona Terrace Convention Center Gift Shop Staff. The Director of the Monona Terrace Convention Center may, with the approval of the Mayor, enter into an individual

employment contract on behalf of the City with the person hired into the unclassified position of "Monona Terrace Gift Shop Manager" to operate the Center's Gift Shop and perform other duties as assigned for the Center.

(a) Such contract shall include provisions for performance-based incentive pay above the base salary not to exceed 15% of the base salary.

(b) Such contract shall include a provision for the termination of the agreement by either party with or without cause.

(c) Such contract shall comply in all respects with state and federal law and shall include wages and benefits consistent with those received by City employees in Compensation Group 19. (Am. by Ord. 12,270, 11-17-98)

(d) Such contract shall be approved as to form by the Finance Director, City Attorney, and Human Resources Director.

(Cr. by Ord. 11,737, 12-13-96; ORD-11-00037, 3-8-11)

(Sec. 3.19 Cr. by Ord. 10,642, 4-30-93; Am. by Ord. 13,652, 7-7-04)

(19) Monona Terrace Booking Event Assistance Advisory Committee. The Monona Terrace Booking Event Assistance Advisory Committee shall consist of five members appointed by the Mayor and approved by the Common Council and meets on an as-needed basis. Terms are open-ended unless a person leaves the position that allows the appointment. The Monona Terrace Booking Event Assistance Advisory Committee considers funding requests from the Greater Madison Convention and Visitors Bureau for event assistance funding for conventions and conferences. The Committee rules on funding requests by following the Fund Policies and Guidelines approved by the Common Council. (Cr. by ORD-09-00052, Pub. 4-2-09, Eff. 8-1-09)

33.22 PUBLIC SAFETY REVIEW COMMITTEE. (Am. by ORD-09-00052, Pub. 4-2-09, Eff. 8-1-09)

(1) Organization. A Public Safety Review Committee is hereby created for the City of Madison.

(2) Membership. The Public Safety Review Committee shall consist of nine (9) members: the Mayor, or his/her designee, three (3) members of the Common Council, five (5) resident members, and one alternate resident member who may participate in Board business as though a full member, but may vote only in the absence of one of the resident members. The aldermanic members and resident members shall be appointed by the Mayor subject to confirmation by the Common Council. All elected members shall serve by virtue of their office (ex officio). (Am. by Ord. 10,240, 4-26-91; 12,560, 4-7-00; Ord. 12,695, 10-20-00; ORD-09-00136, Eff. 11-1-09)

(3) Terms. Common Council members shall be appointed for two (2) year terms ending on the third Tuesday in April. Resident members shall be appointed for three (3) year terms ending on April 30 of the third calendar year after their appointment and confirmation, except that, in April 1993, the Mayor shall designate the terms of resident members in order to achieve staggered terms. The Mayor shall designate two resident members for one-year terms, two for two-year terms, and two for three-year terms. (Am. by Ord. 10,660, 5-29-93; Ord. 13,293, 4-5-03)

(4) Duties. The work of the Public Safety Review Committee shall be advisory to the Mayor and the Common Council to assist them in the performance of their statutory duties regarding the police and fire departments. The role of the Public Safety Review Committee shall in no way interfere with the lawfully prescribed powers and duties of the Common Council, the Police and Fire Commission, the Mayor, or the Chiefs of the respective Police or Fire Departments. The Public Safety Review Committee may, in the performance of its duties:

(a) Review service priorities and capital budget priorities of the Police and Fire departments;

(b) Serve as liaison between the community and the City on public safety issues;

(c) Review annually and make recommendations to the Mayor and the Common Council regarding the annual work plans and long-range goals of the departments.

(Section 3.65(4) Am. by Ord. 10,198, 2-14-91)

(5) (R. by Ord. 9134, 3-12-87)

(Sec. 33.22 Am. by ORD-09-00052, Pub. 4-2-09, Eff. 8-1-09; Am. by ORD-17-00030, 3-8-17)

33.23 SOLID WASTE ADVISORY COMMITTEE.

(1) The Solid Waste Advisory Committee shall act in an advisory capacity to the Mayor and Common Council, making studies and recommendations relative to collection and disposal of refuse, composting, recycling, landfills and other solid waste issues. The Committee shall review City programs and operations and staff reports on these matters, and shall report to the Board of Public Works.

(2) The Solid Waste Advisory Committee shall consist of nine (9) voting members appointed by the Mayor subject to the approval of the Common Council on the third Tuesday of April for a term of one year each commencing on that date, except that the terms of resident members and of the alderperson shall be two years with each term ending on the third Tuesday of April of the second year of such term. Appointees shall include one (1) alderperson, one (1) member of the Board of Public Works, one (1) member of the Committee on the Environment, and six (6) resident members.

Appointments shall be made with consideration given to expertise in solid waste management, environmental health, public relations, economics or business, hydrogeology, chemistry, environmental engineering and/or other areas related to solid waste issues.

The Street Superintendent (Streets and Sanitation Superintendent) shall serve the Solid Waste Advisory Committee as its nonvoting Executive Secretary. All matters to be considered by the Committee shall be submitted to the Executive Secretary who shall prepare the notice, agenda and minutes of all Committee meetings and perform such other duties as the Committee shall direct.

(Sec. 3.73(2) Am. by Ord. 10,548, 12-11-92; Ord. 13,378, 8-2-03; ORD-05-00033, 2-24-05; ORD-06-00001, 1-19-06; ORD-09-00052, Pub. 4-2-09, Eff. 8-1-09; ORD-17-00030, 3-8-17)

(Sec. 3.73 Cr. by Ord. 10115, 9-27-90; Renum. by ORD-07-00047, 4-12-07)

33.24 URBAN DESIGN COMMISSION

(1) Title. This section shall be known, cited and referred to as the Madison Urban Design Commission ordinance and may be referred to herein as "this ordinance. (Am. by ORD-09-00091, 8-1-09)

(2) Purpose And Intent. It is hereby declared a matter of public policy that the design, appearance, beauty and aesthetics of all public and private buildings, structures, landscaping and open areas are a matter of public concern and as such must be controlled so as to promote the general welfare of the community. The purpose of this section is:

(a) To assure the highest quality of design for all public and private projects in the City.

(b) To protect and to improve the general appearance of all buildings, structures, landscaping and open areas in the City; to encourage the protection of economic values and proper use of properties.

(c) To encourage and promote a high quality in the design of new buildings, developments, remodeling and additions so as to maintain and improve the established standards of property values within the City.

(d) To foster civic pride in the beauty and nobler assets of the City, and in all other ways possible assure a functionally efficient and visually attractive City in the future.

(3) Commission Composition And Terms. An Urban Design Commission, advisory to the City Plan Commission, and vested with final decision-making authority as described elsewhere in this ordinance, in Chapter 31 (Sign Control Ordinance) and elsewhere in these

ordinances, is hereby created, consisting of nine (9) voting members. Of the initial voting members appointed, three shall serve terms of two years each; three shall serve terms of one year each; and three shall serve terms of three years each; provided, however, that notwithstanding the provision of subdivision (j) below, the aldermanic member shall serve a two-year term and such term shall be concurrent with his/her term as a member of the Council. Thereafter, the term for each voting member shall be three years. The voting members shall be appointed by the Mayor and approved by the Common Council as follows: (Am. by ORD-09-00091, 8-1-09)

(a) One member shall be an alderperson. (Am. by Ord. 11,277, 6-19-95)

(b) Two resident members. (Am. by ORD-17-00030, 3-8-17)

(c) One member shall be a graduate landscape architect appointed after consideration of a list of at least three nominees submitted by the Wisconsin Chapter of the American Society of Landscape Architects.

(d) (R. by Ord. 10102, 9-12-90 & 9-15-90)

(e) Three members shall be registered architects appointed after consideration of a list of at least three nominees for each available position submitted by the Southwestern Chapter of the Wisconsin Society of Architects.

(f) Two members shall be design professionals to be selected from design-related professions including, but not limited to: Urban Planner, Architect, Landscape Architect, Structural Engineer, Graphic Designer, and Interior Designer. (Am. by Ord. 10102, 9-12-90 & 9-15-90)

(g) In addition to the members above-mentioned, the Mayor may appoint upon an annual basis a resident to be an alternate member of such Commission to act with full power when any other member of the Commission is absent or refuses to act because of conflict of interest. Alternate members may serve as the Urban Design Commission representative on other City committees. (Cr. by Ord. 9714, 2-14-89; Am. by ORD-09-00103, 7-2-09; ORD-17-00030, 3-8-17)

(h) All members and nominees shall be residents of the City of Madison. (Renumbered by Ord. 9714, 2-14-89)

(i) All lists of nominees shall be submitted to the Mayor along with brief biographies of each, in accordance with these provisions, and all nominees and biographies shall be forwarded to the Common Council at such time as the respective appointments are submitted for approval. (Renumbered by Ord. 9714, 2-14-89)

(j) The regular terms of office shall commence on July 1 of the respective years, and members shall serve until a replacement is approved. (Renumbered by Ord. 9714, 2-14-89)

(k) Officers shall be nominated and elected by the commission. (Renumbered by Ord. 9714, 2-14-89)

(l) All Commission members shall be subject to Sec. 3.35 (Code of Ethics) and all other applicable laws regarding ethics and conflicts of interest. Additionally, no member of the Urban Design Commission who is employed by, or has any ownership interest in, an entity which has entered into a contract with the City of Madison for any work on a building being built or expanded by the City, or has any other private pecuniary interest, direct or indirect, in any such contract, shall be authorized to participate in any capacity in any official function in regard to that contract or to perform in regard to that contract any official function requiring the exercise of discretion on her/his part. (Cr. by ORD-09-00091, 8-1-09)

(Sec. 33.02(3) Am. by Ord. 10,281, 7-1-91)

(4) Powers And Duties.

(a) General Powers and Duties. In addition to other duties specifically enumerated herein, in Chapter 31 (Sign Control Ordinance), and elsewhere in these ordinances, the Urban Design Commission (UDC) shall make recommendations to the City Plan Commission, Common Council and any other concerned commission on all

matters referred or assigned to it under the provisions of this ordinance and other City ordinances. In addition, the Commission may provide advice and make recommendations concerning urban design problems at the request of any City department, agency, commission or division. (R. & Recr. by Ord. 5114, 9-3-75; Am. by Ord. 12,685, 9-25-00; ORD-09-00091, 8-1-09)

(b) Planned Developments. The Urban Design Commission shall review the design of all proposed developments that are considered planned developments under provisions of the Zoning Ordinance (i.e., Secs. 28.098 and 28.099). In exercising this power, the commission shall be bound by the provisions of Section 28.098(2) and shall report its findings to the City Plan Commission and Common Council. The UDC shall review sign packages in Planned Development Districts using the procedure in, Sec. 31.13(4). (R. & Recr. by Ord. 5114, 9-3-75; Am. by ORD-05-00167, 11-8-05; ORD-09-00091, 8-1-09; ORD-12-00134, 1-2-13; ORD-13-00069, 5-8-13; ORD-15-00117, 10-28-15)

(c) Residential Building Complexes. The Urban Design Commission shall review the exterior design and appearance of all principal buildings or structures and the landscape plans of all proposed residential building complexes. It shall report its findings and recommendations to the City Plan Commission. (Cr. by Ord. 8516, 2-4-85; Am. by ORD-13-00069, 5-8-13; ORD-13-00134, 8-14-13)

(d) Review of Public Projects. The Urban Design Commission shall approve plans for all buildings proposed to be built or expanded in the City by the State of Wisconsin, the University of Wisconsin, the City of Madison, Dane County, the Federal Government or any other local governmental entity which has the power to levy taxes on property located within the City. At least annually, the head of every City department, agency, commission or division responsible for major exterior alteration of new or existing public buildings and their related spaces (excluding any subterranean portions of such buildings), parks, or open spaces shall report to the Urban Design Commission those projects proposed for consideration in the capital budget and shall periodically report consideration of such additional projects that subsequently appear during the year. The Urban Design Commission shall provide advice and make recommendations to the responsible department, agency, commission or division on the design, appearance and aesthetics of each proposed project. All plans reviewed by the Urban Design Commission which are submitted to the Common Council for approval shall be accompanied by the report of the commission on the project. The commission shall report in writing to the City Plan Commission and the Common Council at least annually a summary of its recommendations on those projects it has reviewed. The commission need not prepare a detailed design analysis on such minor projects as it deems to have negligible effect on residual environment of the City, including but not limited to the design characteristics of street pavement. (Am. by Ord. 9978, 3-14-90; ORD-09-00091, 8-1-09)

(e) Establishment of Urban Design Districts.

1. The Urban Design Commission, after analysis of an area and meeting with property owners and residents, may propose geographically defined districts within the City of Madison as Urban Design Districts. Each proposal shall include a description of the district's boundaries, a design analysis, a statement of design objectives and methods, recommendations for future public and private improvements and developments and specific criteria to be employed in reviewing development proposals. Upon approval of such proposal by the Urban Design Commission, the proposal shall be submitted to the City Plan Commission and Common Council for review and adoption. Adoption of the proposal would include any rezonings and proposed ordinance amendments set forth in the proposal, thus requiring

public hearings and procedures as set forth in Sec. 28.12(9) of the Zoning Code. Amendments to an Urban Design District may be proposed and shall be reviewed and adopted in the same manner.

2. All concerned City departments, commissions and agencies shall work with the Urban Design Commission in the development of a proposal for the designated district.

3. All plans for the major exterior remodeling of existing properties including but not limited to painting of an unpainted exterior face or for new development within an Urban Design District shall be approved by the Urban Design Commission prior to the issuance of any building, demolition or excavation permits therefor. Upon application for such permits, unless the District regulations provide otherwise, the Zoning Administrator shall forward said application together with such plans or other information as may be prescribed to the Urban Design Commission for review and action.

UDC Public Hearing Procedure. The Urban Design Commission shall hold a public hearing on each application for the types of permits listed above, and each matter for which a hearing is required under Sec. 31.043, and any other procedure under Sec. 33.24 that requires a public hearing, within thirty (30) days of the date of filing of said application. Notice of the time, place and purpose of such hearing shall be given by Class 1 notice under Wis. Stat. § 985.07 (2007-2008), and notice shall also be sent to the applicant, the Alderperson of the District in which the property affected is located and the owners of property in whole or in part situated within two hundred (200) feet of the boundaries of the properties affected, said notice to be sent at least ten (10) days prior to the date of such public hearing. Nothing herein shall prevent the owner or the owner's architect from requesting a meeting with the Urban Design Commission prior to beginning extensive preliminary plans for the proposed development, by making a request through the Secretary of the Commission. The owner and/or the owner's architect or other agent may request additional meetings with the Commission during the planning process.

An appeal of the decision of the Urban Design Commission to approve or reject the issuance of a building, demolition or excavation permit under this subsection, or to approve exterior painting, or any other approval required by this Sec. 33.24(4)(e)3., may be taken to the Plan Commission by the applicant or by the Alderperson of the District in which the use is located. Any appeal shall stay issuance of permits hereunder until the appeal has been acted upon by the Plan Commission.

Appeals of UDC decisions regarding signs made pursuant to Sec. 31.043 shall be final administrative decisions as stated in Sec. 31.043(5).

(Section 33.02(4)(e) Am. by Ord. 9536, 7-28-88; ORD-09-00091, 8-1-09)

(f) Large Retail Developments.

1. Statement of Purpose. The purpose for this section is to provide a regulatory framework to ensure that large-format retail development promotes the efficient use of land and preserves and enhances the urban fabric through a more urban site and building design. In applying this ordinance to the redevelopment, expansion, or remodeling of existing sites, it is the intent of this ordinance to seek improvements, while recognizing that existing constraints will likely make full compliance with all provisions of this section difficult or infeasible.

2. Applicability. All new retail development that is on a single zoning lot and has a total floor area of forty thousand (40,000) square feet or more shall

be subject to this ordinance total floor area shall be calculated by adding the floor area of all buildings on a zoning lot. When applying the requirements below, the Urban Design Commission, Plan Commission, and staff shall consider relevant design recommendations in any element of the City's Master Plan or other adopted City plans.

a. Any single retail business establishment that has a total floor area of forty-thousand (40,000) or more square feet shall be subject to Paragraphs 3. through 8. below.

b. All development on a single zoning lot shall be subject to Paragraphs 4. through 8. below.

c. The Plan Commission may waive one or more of the requirements in Par. 3. through 8. below, if it determines that unique or unusual circumstances warrant special consideration to achieve a superior design solution.

d. Proposals for additions, exterior building alterations, or site alterations to existing structures currently used for, or originally designed to accommodate, a retail development that has a floor area of forty thousand (40,000) or more square feet shall be approved pursuant to the applicable ordinances relating to the alteration of approved projects and shall comply with these requirements to the extent possible, given the constraints of the existing sites and structures..

e. Proposals for alterations to existing developments that currently exceed or are proposed to exceed a one hundred thousand (100,000) building footprint, as described in Par. 3, below, shall be approved pursuant to the applicable ordinances relating to the alteration of approved projects and shall comply with these requirements to the extent possible, given the constraints of the existing sites and structure.

(Am. by ORD-15-00033, 4-8-15)

3. Requirements for Buildings in Excess of 100,000 Square Feet. A single new retail business establishment may only exceed a building footprint of one hundred thousand (100,000) square feet as defined by the exterior walls, as provided below. Other separately-owned retail business establishments, entertainment, office, and residential uses not associated with the proposed business establishment shall not be counted towards the size of the building footprint.

   a. The Plan Commission may consider a single retail establishment exceeding one hundred thousand (100,000) square feet if the design includes one or more of the following elements:

      i. Multi-story development.

      ii. Mixed use development.

      iii. Structured or underground parking facilities.

4. Customer Entrances.

   a. The side of a building that directly abuts the most traveled public or private right-of-way that provides vehicular and pedestrian access to the site shall feature at least one (1) customer entrance. The entry may utilize a pedestrian plaza, entry portico, or other community feature as described in Par. 8, below, between the building and sidewalk. Corner entrances may be considered to meet this requirement.

5. Site Design. A development must follow one of the following three (3) options adjacent to the street that is projected to have the most pedestrian

activity associated with the building(s). The requirements may be met using any combination of buildings on the zoning lot. The site may be designed to utilize any combination of the three (3) setbacks, i. through iii., below. If a zoning lot directly abuts two (2) or more public or private rights-of-way, there are no requirements for additional street frontages.

a. At least fifty percent (50%) of adjacent street frontage shall be occupied by building facades with a maximum setback of twenty (20) feet. This requirement may be met by using any combination of buildings on the zoning lot. No off street parking facilities shall be located between the façade(s) directly abutting the street and the adjacent street.

b. At least sixty percent (60%) if adjacent street frontage shall be occupied by building facades with a maximum setback of sixty-five (65) feet. This setback shall allow for a only a single drive aisle and one row of perpendicular parking with building entrance access and required landscaped buffer as stated in Par. 6.a., below. This setback may be extended to a maximum of seventy-five (75) feet, if traffic circulation, drainage and/or other site design issues are shown to require additional space.

c. At least seventy percent (70%) of adjacent street frontage shall be occupied by building facades with a maximum setback of eighty-five (85) feet. This setback shall allow for only a single drive aisle and two rows of perpendicular parking with building entrance access and required landscaped buffer as stated in Par. 6.a., below. This setback may be extended to a maximum of one hundred (100) feet, if traffic circulation, drainage and/or other site design issues are shown to require additional space.

6. Parking. The following requirements apply to the entire zoning lot.

a. Off street parking facilities shall be located at least ten (10) feet from any property line and/or right-of-way and utilize a landscape buffer that includes trees, shrubs, decorative fencing, benches, flowerbeds, ground covers, or other high quality materials.

b. Transportation Demand Management. Any single retail business establishment of forty thousand (40,000) square feet or more with one hundred (100) or more full-time employees or full-time equivalents is required to have a Transportation Demand Management (TDM) Plan, or participate in a Transportation Management Association (TMA), if one is available in the geographic area of the establishment. This requirement shall also apply to any such existing retail business establishment proposing an addition or alteration, and that will have one hundred (100) or more full-time employees or full-time equivalents.

i. The TDM Plan shall generally describe the applicant's intent with respect to reducing the number of single-occupant automobile trips and list the methods the applicant intends to use. These methods shall be based on the transportation choices available and indicate if the applicant will provide for either the full price to purchase a monthly bus pass from Madison Metro, or provide for three (3) or more of the following options to all employees: ridesharing/ car pool matching; preferred parking for ridesharers; secured bicycle parking, showers and lockers; employee commuting subsidies or awards; emergency ride home program;

employer-subsidized bus passes; provision of real-time transit information; or other options proposed by the employer to discourage the use of single-occupant vehicles, and as approved by the City.

ii. The employer shall make the provisions in its Plan available to all employees.

iii. The Plan shall describe the traffic/parking impacts of the development and shall provide specific details on the measures the employer will use to monitor the traffic/parking impacts.

iv. The Plan shall be periodically updated at intervals not to exceed every two years.

v. The Plan shall be reviewed by the Traffic Engineer in concert with the Planning Division Director. The Traffic Engineer shall provide comments and suggestions for how the Plan might be improved.

7. Pedestrian Circulation. The following requirements apply to the entire zoning lot.

a. Sidewalks shall be provided along all sides of the site abutting a public or private right-of-way. Public sidewalks within the right-of-way may be used to meet this requirement.

b. Continuous internal pedestrian walkways at least six (6) feet in width shall be provided from the public sidewalk or right-of-way to the principal customer entrance of all buildings on the site. At a minimum, walkways shall connect focal points of pedestrian activity such as, but not limited to, transit stops, street crossings, building and store entry points. Walkways shall have adjoining landscaped areas along at least fifty percent (50%) of their length. These areas shall include trees, shrubs, benches, flowerbeds, ground covers, or other such materials.

c. Sidewalks at least eight (8) feet in width shall be provided along the full length of the building facade featuring a customer entrance, and along any façade abutting parking areas and shall provide at least eight (8) feet in width clear from any merchandise, vending, or other obstructions. These sidewalks shall be located at least six (6) feet from the facade to provide planting beds for foundation landscaping, except where features such as arcades, entryways, or community features, as defined in Par. 8., below, are part of the facade.

d. Internal pedestrian walkways provided in conformance with subparagraph b., above, shall have weather protection features, such as awnings or arcades within thirty (30) feet of all customer entrances and shall be constructed parallel to the façade of the building but need not extend into driving aisles or parking areas.

e. All internal pedestrian walkways and crosswalks shall be distinguished from driving surfaces to enhance pedestrian safety and comfort, as well as the attractiveness of the walkways. Walkway materials shall be of durable, low-maintenance surface materials, such as pavers, bricks, or scored concrete. Signs shall be installed to designate pedestrian walkways.

f. Sidewalks shall connect transit stops on or off-site as well as to nearby residential neighborhoods.

8. Central Features and Community Spaces. The following requirements apply to the entire zoning lot.
   a. At least one (1) of the following central features and community spaces shall be provided for each forty thousand (40,000) floor area of building on the zoning lot. A minimum of two (2) is required and each central features and community space shall each occupy a minimum of 400 square feet in area. (Am. by ORD-15-00033, 4-8-15)
      i. Patio/seating area.
      ii. Pedestrian plaza with benches.
      iii. Transportation center.
      iv. Window shopping walkway.
      v. Outdoor playground area.
      vi. Kiosk area.
      vii. Water feature.
      viii. Planter walls.
      ix. Other deliberately shaped area and/or focal feature or amenity that adequately enhances the community and public spaces.
      x. Outdoor employee amenities, such as a break area.
   b. All of the above, except outdoor employee amenities, shall have direct access to the public sidewalk network and shall not be constructed of materials that are inferior to the principal materials of the building and landscape.

(Cr. by ORD-05-00067, 4-16-05; Am. by ORD-13-00164, 10-9-13)

(g) Duties of the Secretary of the Urban Design Commission. The Secretary of the Commission shall be a staff member of the Department of Planning and Community and Economic Development.

1. Administrative Approval within Urban Design Districts. The Secretary may administratively approve certain proposed building additions, minor façade alterations, or minor construction within Urban Design Districts if found to be in compliance with the applicable criteria and requirements of the District in question.
2. Minor Alteration to Approved Plans Reviewed under Sec. 33.24(4)(b). ;4; When, subsequent to the UDC's approval of a plan for which UDC approval was required under Sec. 33.24(4) or elsewhere in these ordinances, a request is made to alter the plans, the Secretary of the Urban Design Commission may approve such alteration(s) on behalf of the UDC, if in the exercise of her/his professional judgment, a change does not substantially alter the approved design, and may make that recommendation to the Director of the Department of Planning and Community and Economic Development.
3. Minor Façade Alterations in DC Downtown Core District. The Secretary shall perform the duties for review and approval of applications for minor building facade changes in the DC district found in the "Downtown Urban Design Guidelines" established by Resolution #12-00949. (Am. by ORD-12-00134, 1-2-13)
4. Sign Permit Review by the Secretary.
   a. Urban Design Districts. The Secretary shall be authorized to review applications for sign permits in Urban Design Districts using the standards and criteria for each district as required by this

ordinance, and shall report to the Zoning Administrator whether proposed signage is in compliance with such requirements, and may recommend approval or denial of the permit accordingly.

b. DC Downtown Core and UMX Districts. The Secretary shall perform the duties for review and approval of applications for sign permits in the DC and UMX districts, as described in Secs. 31.13(9), and shall apply the criteria therein, which includes the "Downtown Urban Design Guidelines."

(Renumbered. by Ord. 8516, 2-4-85 and ORD-05-00067, 4-16-05; Am. by ORD-09-00091, 8-1-09; ORD-15-00117, 10-28-15)

(h) Other Duties. The commission shall also:

1. Actively work with the Common Council Legislative Committee to try to implement changes in state laws which will facilitate the discharge of its functions, streamline the approval process for private development, and assist in the improvement of the visual and functional City.
2. Recommend ordinance changes to the City Plan Commission and Common Council which will promote a visually and functionally improved City.
3. Actively seek the adoption and implementation of plans for urban beautification in Madison.
4. Undertake the continuing education of the residents of Madison about the visual assets and liabilities of Madison and the mission and intent of the commission. (Am. by ORD-17-00030, 3-8-17)
5. Report quarterly to the City Plan Commission on its activities, plans and work programs.
6. Perform all duties as authorized in Chapter 31, Sign Control Ordinance, referenced below in Sec. 33.24(4)(j). (Cr. by ORD-09-00091, 8-1-09)

(Renumbered. by Ord. 8516, 2-4-85 and ORD-05-00067, 4-16-05)

(i) Meetings and Rules. Meetings of the Urban Design Commission shall be held at the call of the chairperson and at such other times as such commission may determine. All meetings of said commission shall be open to the public. The commission shall keep minutes of its proceedings, shall adopt its own rules of procedure not in conflict with this ordinance or with the applicable Wisconsin Statutes, and shall select or appoint such officers, including a chairperson, as it deems necessary. (Renumbered by Ord. 8516, 2-4-85 and ORD-05-00067, 4-16-05)

(j) Sign Review Under Chapter 31. The Commission shall perform all duties required by Chapter 31, the Sign Control Ordinance, including but not limited to: conducting Comprehensive Design Reviews under Sec. 31.043, hearing requests for modification of height, area and setback for signs, hearing requests for Additional Sign Code Approvals, hearing appeals from decisions of the Zoning Administrator (except those decisions related to structural or mechanical concerns heard by the Building Board of Appeals under Sec. 31.04(3)(b)1.) and shall perform any other duties or functions as may be required of the Commission under Chapter 31. The Commission shall use criteria for sign review described in Sec. 33.24(7)(b) below. (Cr. by ORD-09-00091, 8-1-09)

(5) Professional Services. The Department of Planning and Community and Economic Development and other departments and divisions of the City of Madison shall provide, upon request, the professional services the Urban Design Commission deems necessary to fulfill its purposes and duties. (Am. by Ord. 6569, 3-21-79)

(6) Fees.

(a) Any application for new construction or major exterior remodeling of existing properties in any Urban Design District, public projects pursuant to Sec. 33.02(4)(c) and (d), unless built or expanded by the City of Madison, State of

Wisconsin, University of Wisconsin or federal government shall be accompanied by a fee of three hundred fifty dollars ($350), which shall be paid to the City Treasurer. (Am. by ORD-12-00008, 1-24-12; Am. by ORD-12-00134, 1-2-13)

(b) Any application for minor exterior remodeling of existing properties in an Urban Design District or a DC District shall be accompanied by a fee of one hundred fifty dollars ($150), which shall be paid to the City Treasurer.

(c) Application fees for Comprehensive Design Review or any other sign review by the UDC shall be as established in Chapter 31 of the Madison General Ordinances. (Cr. by ORD-09-00091, 8-1-09)

(Cr. by Ord. 13,216, 12-20-02; Am. by ORD-09-00091, 8-1-09)

(7) Urban Design Commission Criteria. In addition to the criteria established elsewhere in Sec. 33.02 for each Urban Design District, the Commission shall apply the following criteria, when applicable:

(a) (Rep. by ORD-13-00069, 5-8-13).

(b) Criteria for Sign Review Under Chapter 31. Criteria for Comprehensive Design Review or other sign approval duties assigned to the UDC in Chapter 31, shall be as described in Sec. 31.043 and elsewhere in Chapter 31. Criteria for reviewing signs in Urban Design Districts shall be as set forth in this ordinance. Criteria for the UDC to review signs under other any other review procedures shall be as set forth by the applicable ordinance. To the extent that requirements, guidelines or other provisions regarding signs in this ordinance conflict with Chapter 31 or any other ordinance, the more restrictive provision shall apply.

(Cr. by Ord. 8516, 2-4-85; Renumbered by Ord. 13,216, 12-20-02; Am. by ORD-09-00091, 8-1-09)

(8) Urban Design District No. 1.

(a) Statement of Purpose. Urban Design District No. 1 is hereby established to make John Nolen Drive and the South Beltline Highway and adjacent properties, a most visually attractive approach to the City of Madison, to establish requirements and guidelines for aesthetically pleasing future development, and to assure that future development in the district will preserve and enhance the property values in the district and not cause a substantial depreciation in the property values within the district. Design requirements and guidelines are therefore hereby established to assist property owners in the district and the State of Wisconsin, City of Madison, and Dane County in improving and developing all properties within the district. In addition, the district is designed to foster a sense of personal and civic pride among the property owners, particularly as it relates to the appearance of their area, and the corresponding promotion of the commercial enterprises therein. A map of the District, current as of April 20, 2009, is available from the Department of Planning and Community and Economic Development. (Am. by Ord. 11,226, 4-13-95; ORD-09-00078, 5-21-09)

(b) Design Review Required. All development in the district (including, but not limited to, new buildings or structures, additions to existing buildings or structures, major exterior alterations of existing buildings or structures, painting of existing unpainted exterior faces, exterior lighting, landscaping or screening done in conjunction with new buildings or structures or additions, and cutting or removal of trees greater than two inches in maximum diameter, and permits for new signs) shall require approval of the Urban Design Commission or the Secretary if authorized under Sec. 33.24(4)(g), and shall be designed, erected, and maintained in compliance with this ordinance, with all applicable federal and state laws, and with the Building Code, Zoning Ordinance, and other applicable codes of the City of Madison not in conflict with this ordinance. The applicable regulations of other codes shall continue to apply with full force and effect to all properties in the

district. However, if this ordinance conflicts with other city regulations, the regulations which are more restrictive or which impose higher standards or requirements shall govern. (Am. by ORD-09-00091, 8-1-09)

(c) Basis for Design Review. In reviewing plans for development in the district, the Urban Design Commission shall consider in each case those of the following requirements and guidelines as may be appropriate. In addition, when applying the requirements and guidelines, the Urban Design Commission and staff shall consider relevant design recommendations in any element of the City's Master Plan or other adopted City plans. The overall design of each development shall be of high quality. (Am. by Ord. 13,219, 12-20-02)

1. Site Planning.

a. Grading. The grading of public and private land in the district shall meet the following requirements, and shall conform as much as possible with the following guidelines:

i. Requirements. Grading shall insure a positive drainage consistent with established water runoff patterns in the district. All grading shall allow for the installation and maintenance of appropriate landscape materials.

ii. Guidelines. Grading may create earth forms which add interest to the existing topography. Respect for the natural topography in site development will also be important as a means of adding interest and capitalizing on the sloping terrain. Earth berms are encouraged, to screen out unpleasant views and accentuate pleasant views. Earth mounds may be used to reinforce the proposed landscape treatment.

b. Landscaping. The landscaping of public and private land in the district shall meet the following requirements and conform as much as possible with the following guidelines:

i. Requirements. Landscaping shall be used for a functional as well as decorative purpose, including framing desirable views, screening unattractive features and views along the roadway, screening different uses from each other, and complementing the architectural massing of the building.

ii. Guidelines. Landscaping should express the unique natural beauty of Madison. There should be a variety of trees and shrubs in group plantings, alternated and dispersed in order to create some variety. While indigenous species will be favored, they should be in scale with the buildings and complement the topography. The unique character of the native landscape should be preserved and reinforced by selecting plant material which originally grew in the area. Both upland and lowland sites are included in the district. Species for planting should reflect this. A recommended list of appropriate species for both types includes:

Upland

Trees:

Quercus alba	White Oak
Quercus macrocarpa	Bur Oak
Quercus rubra	Red Oak

Tilia americana	Basswood
Prunus serotina	Black Cherry
Acer rubrum	Red Maple
Fraxinus americana	American Ash
Juglans nigra	Walnut
Aesculus hippocastanum	Chestnut

Evergreens:

Juniperus virginiana	Red Cedar
Juniperus horizontalis	Creeping Juniper

Shrubs:

Cornus racemosa	Gray Dogwood
Corylus americana	Filbert
Crataegus Spp.	Hawthorne
Malus ioensis	Prairie Crabapple
Prunus virginiana	Common Chokecherry
Rhus glabra	Smooth Sumac
Rhus typhina	Staghorn Sumac
Rosa Spp.	Wild Rose
Viburnum lentago	Nannyberry Vibrunum
Viburnum prunifolium	Blackhawk Viburnum
Euonymus Alatus	Burning Bush

Lowland

Trees:

Quercus bicolor	Swamp White Oak
Fraximus pennsylvanica	Green Ash
Crataegus mollis	Downy Hawthorn
Crataegus crusgalli	Cockspur Hawthorn
Carpinus caroliniana	Musclewood
Celtis occidentalis	Hackberry
Salix nigra	Black Willow
Acer rubrum	Red Maple
Betula nigra	River Birch

Evergreens:

Thuja occidentalis	White Cedar or Arborvitae

Shrubs:

Alnus incana (cold water)	Speckled Alder
Amelanchier canadensis	Shadblow Serviceberry
Amelanchier laevis	Alleghany Serviceberry
Amorpha fruticosa	Indigobush Fruticosa
Aronia arbutifolia	Red Chokecherry
Arnoia melanocarpa	Black Chokeberry
Cephalanthus occidentallis	Common Buttonbush
Clematis virginiana	Virginsbower

Cornus racemosa	Gray Dogwood
Cornus stolonifera	Redosier Dogwood
Cornus amomum	Silky Dogwood
Ilex verticillata	Common Winterberry
Malus ionensis	Prairie Crab
Sambucus canadensis	American Elder
Salix discolor	Pussywillow
Salix glaucophylla	Firm Blueleaf Willow
Salix lucida	Shining Willow
Salix petiolaris	Petiolaris Willow
Salix servicea	Silky Willow
Salix serissima	Autumn Willow
Viburnum dentatum	Arrowood Viburnum
Viburnum trilobum compacta	American Highbush Cranberry

c. Building Relationships. The siting of structures on public and private land in the district shall meet the following requirements and conform as much as possible with the following guidelines:

i. Requirements. The structures shall be related to the site to enhance or maintain current contours. New development shall consider activities on adjacent properties with relation to access from abutting streets, parking areas, service areas, building setbacks, height of structures, and color and materials of adjacent or nearby buildings.

ii. Guidelines. In the development of the site, the existing quality vegetation should ordinarily be maintained. Areas which are highly visible to living units should be landscaped in a manner complementary to the building forms. Buildings should be sited to avoid having living units with direct views of parking areas. The relationship of any buildings to the public right-of-way should be completed in a manner that presents an attractive, properly located structure. In the siting of new structures, consideration shall be given to:

A. Relating attractively to abutting roadways, the Nob Hill Interchange, the interchange with Interstate Highway 90, and the lakes.

B. Recognizing the views of the city skyline, Lake Monona, and the Exposition Center.

C. Providing landscaping treatment for open areas which are highly visible from John Nolen Drive and which complement the building forms.

2. Lighting. Exterior lighting in the district shall meet the following requirements and conform as much as possible with the following guidelines.

a. Requirements. The functions of exterior lighting on private property shall be:

i. To illuminate building facades, especially those bearing business identification signs.

ii. To illuminate pedestrian walks and spaces.

iii. To illuminate parking and service areas.

The choice of equipment, design, quantity, and placement of on-site lighting shall relate to these functions. Lighting shall be adequate but not excessive. The height and number of lighting standards shall be appropriate to the building and its function and to the neighborhood.

b. Guidelines.

i. Building Facades. Architectural lighting should be free from glare and of a type to complement the existing development in the district.

ii. Building and Grounds Security. Security lighting should provide necessary levels of illumination to insure safety of the property and its residents, while not reflecting direct rays of light into adjacent property.

iii. Off-Street Parking Area. Off-street parking area lighting shall be so arranged as to conform with applicable sections of Section 10.08 of the Madison General Ordinances.

3. Utility Service. It shall be a goal of this district to eliminate overhead wiring within the district. To this end, owners of property within the district, working with the Madison Gas and Electric Company, Wisconsin Bell, and cable television licensees, shall, in all new developments and major additions, make provision for underground service. Whenever possible this shall be accomplished during building development and construction. When it is not possible, certification to the fact that provisions have been made for the placement of service underground, signed by representatives of each company, shall appear on plans submitted to the Urban Design Commission for review.

4. Signs. Signs in the district shall meet the following requirements and conform as much as possible to the following guidelines.

a. Requirements.

i. Signs, if located on or adjacent to buildings, shall be integrated with the architectural design of the buildings.

ii. Signs shall be located and designed only to inform the intended clientele.

iii. Signs shall be used only as identification of the establishment, and shall have no more than a total of eight (8) symbols and/or words.

iv. No portion of an illuminated sign shall have luminance greater than two hundred (200) foot-lamberts for any portion of the sign within a circle of two (2) feet in diameter. No sign or part of any sign shall change its level of illumination more than once every one (1) hour.

v. Electronic changeable copy signs, if permitted in the District, shall comply with 31.046(1) which requires that electronic changeable copy signs in Urban Design Districts shall not alternate, change, fade in, fade out, or otherwise change more frequently than once every one (1) hour.

vi. A minimum setback of five (5) feet from the public right-of-way is required of all ground signs. A minimum setback of ten (10) feet from the public right-of-way is required for signs exceeding ten (10) square feet in net area. A minimum setback of twenty (20) feet is required for all signs exceeding twenty (20) square feet in net area.

vii. The height of a ground or wall sign shall not exceed ten (10) feet along John Nolen Drive or eighteen (18) feet

elsewhere in the district unless a higher sign is specifically approved by the Urban Design Commission based on the following criteria:

A. An exception from the height limitation is necessary for a sign located on the site of an establishment to be identifiable and legible from the nearest roadway at prevailing speeds; and

B. An exception from the height limitation will result in a sign more in scale with the building and site and will result in a superior overall design.

viii. The net area of a ground or wall sign shall not exceed forty (40) square feet along John Nolen Drive or seventy-two (72) square feet elsewhere in the district unless a larger sign is specifically approved by the Urban Design Commission based upon the following criteria:

A. An exception from the size limitation is necessary for a sign located on the site of an establishment to be identifiable and legible from the nearest roadway at prevailing speeds; and

B. An exception from the size limitation will result in a sign more in scale with the building and site and will result in a superior overall design.

(Sec. 33.24(8)(c)4.a. Am. by ORD-09-00091, 8-1-09)

b. Guidelines.

i. A sign should identify the activity without imposing upon the view of residents, businesses or activities of the district.

ii. A sign should be appropriate to the type and activity and clientele at which its message is aimed.

iii. Signs should be designed so as to be legible to the intended viewer in relation to the surrounding circumstances.

iv. Signs should avoid covering or impinging upon landscape features or significant structures.

v. Illuminated signs should be lit internally or from the ground, not with fixtures projecting from the sign.

vi. Internally illuminated signs displaying illuminated copy shall be designed in such a way so that when illuminated, the sign appears to have light-colored copy on a dark or non-illuminated background. (Am. by ORD-09-00091, 8-1-09)

c. The Urban Design Commission shall, in addition, evaluate proposed signs in the district based upon the requirements of Chapter 31 in the Madison General Ordinances.

5. Parking and Service Areas; Screening. The Urban Design Commission in its review of plans for the district will concern itself with the height at time of planting, the spacing, height at maturity, and ability of proposed plants to screen throughout the year. Screening shall meet the following requirements and conform as much as possible with the following guidelines:

a. Requirements.

i. The amount of parking and service areas to be provided in conjunction with any use shall conform to the requirements as set forth in Chapter 28 (Zoning Code) of the Madison General Ordinances.

ii. Parking and service areas shall be screened from views from John Nolen Drive, the South Beltline Highway, frontage roads, and abutting properties. Screening shall be accomplished in a manner consistent with the requirements of Section 28.142 of the Madison General Ordinances. (Am. by ORD-12-00134, 1-2-13)

iii. Parking areas shall be illuminated using attractive low-profile standards and fixtures. Drawings of these standards and fixtures shall be a part of plans submitted to the Urban Design Commission for review and approval.

iv. Off-Street Parking and Loading Areas. All open off-street parking areas containing more than three (3) spaces, and all open off-street loading, shall have effective screening on each side adjoining or fronting on any residential property or any public or private street. If the screening is to be accomplished by using plant material, it shall be planted at a minimum height of thirty (30) inches and grown to a height at maturity of at least fifty-four (54) inches. If any other material is used to screen these types of areas, it shall be a minimum height of fifty-four (54) inches.

v. District Boundary Lines. Any property located in a commercial or manufacturing district shall have effective screening along lot lines adjoining any residence district.

vi. Screening of Rubbish and Trash Storage. Such areas shall be screened to block the view of rubbish and trash containers from any point outside the property on which the storage area is located.

b. Guidelines.

i. Large parking lots should be avoided. Parking lots with more than seven parking spaces should be subdivided by landscaping so that each subdivided area has no more than seven spaces.

ii. Acceptable screening may consist of any of the following or combinations thereof:

A. Principal or accessory buildings;

B. Earth berms;

C. Masonry walls;

D. Hedges;

E. Trees;

F. Decorative fences. (Diamond mesh or other metallic fences are not acceptable.)

6. Building Design. Buildings shall meet the following requirements and conform as much as possible with the following guidelines.

a. Requirements.

i. Materials and colors shall be durable, low maintenance, and harmonious with each other and with other buildings in the neighborhood.

ii. Mechanical elements mounted on the roof or ground shall be screened from the view of adjacent properties and roadways.

iii. Contemporary architecture shall be the goal of the district. Buildings shall be designed to complement and enrich this character. Building component massing, materials, textures, and colors shall be consistent with this character.

iv. The overall design of the building shall be of high quality, considering the importance of the district as a principal gateway to the City.

v. Metal shall not be used as an exterior material for building, except as an integral part of a design of exceptional merit.

vi. An addition shall relate to the existing building in terms of scale, materials, and color.

b. Guidelines.

i. Structures should be designed to be compatible with the structures that are adjacent to them.

ii. Large unbroken exterior facades should be avoided.

iii. All building elevations are of importance and should be carefully designed. Buildings should avoid blank facades. When visible from roadways or adjoining properties, roof surfaces should be considered as part of the overall design.

iv. Any building of exceptional height or prominence shall be integrated with the surrounding development and topography.

(Sec. 33.02(7) R. & Re-Cr. by Ord. 9407, 2-11-88; Renumbered to 33.02(8) by Ord. 13,216, 12-20-02)

(9) Urban Design District No. 2.

(a) Statement of Purpose. The Urban Design District No. 2 is hereby established to make the Schroeder Road/Watts Road area and adjacent properties between Gammon Road and Whitney Way an attractive visual experience and to establish guidelines which insure that commercial, industrial, and residential development can occur which complement the existing development in the district. Design guidelines and criteria are therefore hereby established to assist area property owners in the City of Madison, Dane County, Town of Madison, and Town of Middleton in improving and developing all properties within this area. In addition, the district is designed to develop a sense of identity among the people that live and work in the district. A map of the District is available from the Department of Planning and Community and Economic Development.

All development designed, erected, and maintained pursuant to the provisions of this ordinance shall be designed, erected, and maintained in compliance with all applicable Federal Laws, State Laws, and with the Building Code, Zoning Ordinance and other applicable codes of the City of Madison not in conflict with this ordinance.
(Am. by Ord. 11,319, 8-4-95)

(b) Property Included in the District. The District shall include property having any frontage on: Forward Drive, Ellis Potter Court, Gilbert Court, Kessel Court, Rayovac Drive, Schroeder Road and Schroeder Court; Struck Street between Schroeder Road and Watts Road; the east side of Gammon Road between Seybold Road and Park Ridge Drive; the south side of Watts Road between Gammon Road and Rayovac Drive; the west side of Whitney Way between Schroeder Road and 410 feet north of the north right-of-way line of Piping Rock Road and the east side of Whitney Way between the West Beltline Highway and 130 feet northeast of the north right-of-way line of Woodland Way. If any portion of a zoning lot is in the district, the entire lot is within the district. (Cr. by Ord. 11,319, 8-4-95)

(c) Design Review Required. All development in the district (including, but not limited to, new buildings or structures, additions to existing buildings or structures, major exterior alterations of existing buildings or structures, painting of existing unpainted exterior surfaces, and screening done in conjunction with new buildings or structures or additions to existing buildings or structures, and permits for new signs), except residential buildings containing eight (8) or fewer dwelling units and modifications to the existing miniature golf course, par-three golf course, driving range and batting cages and any new structures containing less than two thousand (2000) square feet situated on the Vitense Golfland abutting the 5400 and 5500 blocks of Schroeder Road, shall require approval of the Urban Design Commission or the Secretary if authorized under Sec. 33.24(4)(g), and shall be designed, erected, and maintained in compliance with this ordinance, all applicable federal and other state laws, and the Building Code, Zoning Ordinance and other applicable codes of the City of Madison not in conflict with this ordinance. Approval of the Urban Design Commission under this subsection shall not be required for an awning unless it is part of other development requiring approval under this subsection. The applicable regulations of other codes shall continue to apply with full force and effect to all properties in the district. However, if this ordinance conflicts with other City regulations, the regulations which are more restrictive or which impose higher standards or requirements shall govern. (Cr. by Ord. 11,319, 8-4-95; Am. by ORD-09-00091, 8-1-09)

(d) Basis For Design Review. In reviewing plans for the improvement of existing facilities or for new development within the area, the Urban Design Commission shall consider in each case those of the following guidelines and requirements as may be appropriate:

1. Site Planning.

   a. Grading. The grading of public and private land in the district shall meet the following requirements and conform as much as possible with the following guidelines:

      i. Requirements. Grading shall insure positive drainage consistent with established run-off patterns in the district. All grading shall be completed in such a manner that allows for the regrowth of natural vegetation. The creation of artificial topography or the change of any grades shall strive towards a natural appearance.

      ii. Guidelines. Grading should be considered as a device for creating earth forms which add interest to the existing topography. Respect for the natural topography in site development will also be important as a means of adding interest and capitalizing on the gentling sloping terrain. The use of earth berms is encouraged as a means of screening out unpleasant views and accentuating pleasant ones. Earth mounds should be used to reinforce the proposed landscape treatment.

   b. Landscaping. The landscaping of public and private land in the district shall meet the following requirements and conform as much as possible with the following guidelines:

      i. Requirements. Landscaping shall be used for a functional as well as decorative purpose, including framing of desirable views, screening of unattractive features and views along the roadway, screening of different uses from each other, and finally complementing the architectural massing of the building.

ii. Guidelines. Any landscaping which is done should be expressive of the unique natural beauty of Madison. There should be a variety of trees and shrubs in group plantings alternated and dispersed in order to create some variety. While indigenous species will be favored, they should also be in scale with the buildings and complementary of the topography. The goal of perpetuating and reinforcing the unique character of the native landscape can be facilitated by the selection of plant material which originally grew in the area. Both upland and lowland sites are included in the Schroeder Road Design District, and species for planting should reflect this. A recommended list of appropriate species for both types includes:

UPLAND	LOWLAND (e.g., the Greenway)
Trees	Trees
Quercus alba (White Oak)	Guercus bicolor (Swamp White Oak)
Quercus macrocarpa (Bur Oak)	Fraximus pennsylvanica (Green Ash)
Quercus rubra (Red Oak)	Cratagus mollis (Downy Hawthorn)
Tilia americana (Basswood)	Crataegu crus-galli (Cockspur Hawthorn)
Prunus serotina (Black Cherry)	Carpinus caroliniana (Musclewood)
Acer rubrum (Red Maple)	Carpinus caroliniana (Musclewood)
	Celtis occidentalis (Hackberry)
	Malus ioensis (Prairie Crab)
	Virburnum Trilobum Compacta (American Highbush Cranberry)
Shrubs	Shrubs
Cornus racemosa (Gray Dogwood)	Cornus racemosa (Gray Dogwood)
Corylus americana (Filbert)	Cornus sericea (Redosier Dogwood)
Rosa Spp. (Wild Rose)	Sambucus canadensis (Elderberry)
Evergreens	Evergreens
Juniperus virginiana (Red Cedar)	Thuja occidentalis (White Cedar or Arborvitae)
Juniperus horizontalis (Creeping Juniper)	

c. Building Relationships. In the siting of structures on public and private land in the district the following requirements shall be met and where applicable guidelines conformed to:

i. Requirements. The structures shall be related to the site in an effort to enhance or maintain current contours. At the same time as relating to the site the new development shall take into consideration activities on adjacent properties with relation to: location of windows, so as to provide privacy when that is desired; height of structure when possible; and scale, so that any development is consistent with the low profile nature of the community.

ii. Guidelines. In the development of the site the existing vegetation should be maintained. Also it is important that an attempt be made to insure that areas which are highly visible to living units and Schroeder Road be landscaped complementary to the building forms. The relationship of any buildings to the public right-of-way should be completed in a manner that presents an attractive, properly located

structure. The setbacks of the buildings should be irregular so as to give a variety in the line of sight as well as take advantage of views and topography.

2. Lighting.
   a. Building Facades. Architectural lighting should be free from glare and of type to complement the existing development in the district.
   b. Building and Grounds Security. Security lighting should provide necessary levels of illumination to insure safety of the property and its residents while not reflecting direct rays of light into adjacent property.
   c. Off-Street Parking Area. Off-street parking area lighting shall be so arranged as to conform with applicable sections of Section 10.08 of the Madison General Ordinances.
   d. The choice of equipment, design, quantity and placement of all on-site lighting units shall relate to the foregoing lighting purposes and shall be evaluated by the Urban Design Commission in the review of the improvement plans and comments from City departments and divisions on the improvement plans.
3. Utility Service. It shall be a goal of this plan to eliminate overhead wiring within the district. To this end, property owners within Urban Design District No. 2 working with Madison Gas and Electric Company, Wisconsin Telephone Company, and Cable Television licensee shall in all new developments and major additions make provision for underground service. Whenever possible, this will be accomplished during development and construction. When it is not possible, certification to the fact that provisions have been made for undergrounding of service signed by representatives of each company shall appear on plans submitted to the Urban Development Commission for review.
4. Signs. Because of the relationship between the residential and commercial activities of this area, it is necessary that the location and treatment of signs be appropriate to both activities. In this sense the Urban Design Commission shall evaluate proposed signs based on the following guidelines and requirements:
   a. Guidelines.
      i. Signs should identify the activity without imposing upon the view of residents, businesses, or activities of the district.
      ii. Signs should be appropriate to the type of activity and clientele at which its message is aimed.
      iii. Signs should be designed so as to be legible to the intended viewer in relation to the surrounding circumstances.
      iv. Signs should avoid covering or impinging upon landscape features or significant structures.
   b. Requirements.
      i. Signs, if located on or adjacent to buildings, shall be integrated with the architectural design of the buildings.
      ii. Signs shall be located and designed only to inform the intended clientele.
      iii. Signs shall be used only as identification of the establishment and shall have no more than a total of eight (8) symbols and/or words.
      iv. No portion of an illuminated sign shall have a luminance greater than two hundred (200) foot lamberts for any

portion of the sign within a circle two (2) feet in diameter. No sign or part of any sign shall change its level of illumination more than once every one (1) hour. (Am. by ORD-09-00091, 8-1-09)

v. Electronic changeable copy signs, if permitted in the District, shall comply with 31.046(1) which requires that electronic changeable copy signs in Urban Design Districts shall not alternate, change, fade in, fade out, or otherwise change more frequently than once every one (1) hour. (Am. by ORD-09-00091, 8-1-09)

vi. A minimum setback of five (5) feet is required of all detached signs. A minimum setback of ten (10) feet from the public right-of-way is required for signs exceeding ten (10) square feet in net area and fifteen (15) feet in height. A minimum setback of twenty (20) feet is required for all signs exceeding twenty (20) square feet in net area or twenty (20) feet in height. No detached sign shall exceed seventy-five (75) square feet in net area and twenty-five (25) feet in height. Based upon the following criteria the Urban Design Commission may specifically approve a larger sign or reduce the setbacks above:

A. An exception from the size and setback limitation is necessary for a sign located on the site of an establishment to be identifiable and legible from the nearest roadway at prevailing speeds; and

B. An exception from the size and setback limitation will result in a sign more in scale with the building and site and will result in a superior overall design.

(Am. by Ord. 9593, 10-14-88)

vii. No detached sign shall occupy the space between two (2) feet and ten (10) feet above grade within fifteen (15) feet of the public right-of-way except for its support, which shall not exceed a total cross-section area of one (1) square foot.

viii. The net area of an attached sign of any occupancy on any facade shall not exceed forty (40) square feet.

ix. All signs and their words shall be mounted parallel to the building surface to which they are attached. No sign or words shall project more than eighteen (18) inches from the surface to which they are attached. Attached signs shall not be mounted on roofs and shall not project above roofs.

(Am. by ORD-09-00091, 8-1-09)

5. Screening. The Urban Design Commission in its review of plans for the district will concern itself with the height at time of planting, the spacing, height at maturity, and ability of proposed plant to screen throughout the year. Plans for all screening on private property within the area, when done in conjunction with major additions or new structures, will require Commission approval.

a. Requirements.

i. The amount of parking and service area to be provided in conjunction with any use shall conform to the requirements set forth in Chapter 28 (Zoning Code) of the Madison General Ordinances.

ii. Parking and service areas shall be screened from Schroeder Road and abutting properties. If the screening is to be accomplished by using plant material it shall be planted at a minimum height of thirty (30) inches and grow to a height at maturity of at least fifty-four (54) inches. If any other material is used to screen these types of areas it shall be a minimum height of fifty-four (54) inches.

iii. Parking areas shall be illuminated using attractive standards and fixtures which are to be reviewed by the Urban Design Commission.

iv. Screening of Rubbish and Trash Storage. Such area shall be screened to block the view of such rubbish and trash containers from any point outside the property on which said storage area is located.

b. Guidelines.

i. Acceptable screening may consist of any of the following or combination thereof:
Principal or accessory buildings;
Earth berms;
Masonry walls approved by the Urban Design Commission;
Decorative fences approved by the Urban Design Commission;
Hedges;
Trees.

ii. The use of low profile standards is recommended for parking and service areas.

6. Building Design. Because of the nature of the area concerned, it is necessary that buildings not alter the predominantly low profile height of the district. In view of the residential scale of this area, the following guidelines and requirements shall be adhered to and will be used by the Urban Design Commission in reviewing projects in the district:

a. Requirements.

i. Exterior treatment of all buildings shall use natural colors and/or materials.

ii. Mechanical elements shall be screened from the view of adjacent properties.

b. Guidelines.

i. Buildings should not impinge on the natural views of others where possible, and should not vary but one (1) story from the height of adjacent roofs.

ii. Structures should be designed to be compatible with structures that are adjacent to them.

iii. Large buildings should have varied horizontal and vertical planes and should integrate landscaping to break up long lines.

iv. All building elevations shall be of equal importance. Design of the roof will be considered.

(Sec. 33.02(8)(b) Renumbered to (d) by Ord. 11,319, 8-4-95)

(Sec. 33.02(8); Renumbered to (9) by Ord. 13,216, 12-20-02)

(10) Urban Design District No. 3.

(a) Statement of Purpose. Urban Design District No. 3 is hereby established to make Tokay Boulevard/Odana Road and adjacent properties, an attractive visual

experience, and to establish requirements and guidelines which assure that future development will complement the existing development in the district, will preserve and enhance the property values in the district, and will not cause a substantial depreciation in the property values in the district. Design requirements and guidelines are therefore hereby established to assist property owners in the City of Madison in improving and developing all properties within this district. A map of the District is available from the Department of Planning and Community and Economic Development. (Am. by Ord. 11,226, 4-13-95)

(b) Design Review Required. All development in the district (including, but not limited to, new buildings or structures, additions to existing buildings or structures, major exterior alterations of existing buildings or structures, painting of existing unpainted exterior surfaces, screening done in conjunction with new buildings or structures or additions to existing buildings or structures, and cutting or removal of trees greater than 2 inches in diameter, and permits for new signs) shall require approval of the Urban Design Commission or the Secretary if authorized under Sec. 33.24(4)(g) and shall be designed, erected, and maintained in compliance with this ordinance, all applicable federal and State laws, and the Building Code, Zoning Ordinance and other applicable codes of the City of Madison not in conflict with this ordinance. The applicable regulations of other codes shall continue to apply with full force and effect to all properties in the district. However, if this ordinance conflicts with other City regulations, the regulations which are more restrictive or which impose higher standards or requirements shall govern. (Am. by ORD-09-00091, 8-1-09)

(c) Basis for Design Review. In reviewing plans for development in the district, the Urban Design Commission shall consider those of the following guidelines and requirements as may be appropriate. The overall design of each development shall be of high quality.

1. Site Planning.

a. Grading. The grading of public and private land in the district shall meet the following requirements and conform as much as possible with the following guidelines:

i. Requirements. Grading shall insure positive drainage consistent with established runoff patterns in the district. All grading shall allow for the installation and maintenance of appropriate landscape materials.

ii. Guidelines. Grading may create earth forms which add interest to the existing topography. Respect for the natural topography in site development will also be important as a means of adding interest and capitalizing on the sloping terrain. Earth berms are encouraged to screen out unpleasant views and accentuate pleasant ones. Earth mounds should be used to reinforce the proposed landscape treatment.

b. Landscaping. The landscaping of public and private land in the district shall meet the following requirements and conform as much as possible with the following guidelines:

i. Requirements. Landscaping shall be used for a functional as well as decorative purpose, including framing desirable views, screening unattractive features and views along the roadway, screening different uses from each other, and complementing the architectural massing of the building.

ii. Guidelines. Landscaping should express the unique natural beauty of Madison. There should be a variety of trees and

shrubs in group plantings, alternated and dispersed in order to create some variety. Indigenous species will be favored. Landscaping should be in scale with the buildings and complement the topography. The unique character of the native landscape should be preserved and reinforced by selecting of plant material which originally grew in the area. Both upland and lowland sites are included in the district, and species for planting should reflect this. A recommended list of appropriate species for both types includes:

UPLAND	LOWLAND
Trees	Trees
Quercus alba (White Oak)	Quercus bicolor (Swamp White)
Quercus macrocarpa (Bur Oak)	Fraxinus pennsylvanica (Green Ash)
Quercus rubra (Red Oak)	Crataegus mollis (Downy Hawthorn)
Tilia americana (Basswood)	Crataegu crus-galli (Cockspur Hawthorn)
Prunus serotina (Black Cherry)	Carpinus caroliniana (Musclewood)
Acer rubrum (Red Maple)	Celtis occidentalis (Hackberry)
	Malus ioenisis (Prairie Crab)
	Virburnum Trilobum Compacta (American Highbush Cranberry)
Shrubs	Shrubs
Cornus racemosa (Gray Dogwood)	Cornus racemosa (Gray Dogwood)
Corylus americana (Filbert)	Cornus sericea (Redosier Dogwood)
Rosa Spp. (Wild Rose)	Sambucus canadensis (Elderberry)
Evergreens	Evergreens
Juniperus virginiana (Red Cedar)	Thuja occidentalis (White Cedar or Arborvitae)
Juniperus horizontalis (Creeping Juniper)	

c. Building Relationships. The siting of structures on public and private land in the district shall meet the following requirements conform as much as possible to the following guidelines:

i. Requirements. The structures shall be related to the site to enhance or maintain current contours. New development shall consider activities on adjacent properties with relation to: access from abutting streets, parking areas, service areas, building setbacks, height of structures, and color and materials of adjacent or nearby buildings.

ii. Guidelines. In the development of the site, the quality existing vegetation should be maintained. Areas which are highly visible should be landscaped in a manner complementary to the building forms. Buildings should be sited to avoid having living units with direct views of parking areas. The relationship of any buildings to the public right-of-way should be completed in a manner that presents an attractive, properly located structure.

2. Lighting. Exterior lighting in the district shall meet the following requirements and conform as much as possible with the following guidelines:

a. Requirements. The functions of exterior lighting on private property shall be:

i. To illuminate building facades, especially those bearing business identification signs.

ii. To illuminate pedestrian walls and spaces.

iii. To illuminate parking and service areas.

The choice of equipment, design, quantity, and placement of on-site lighting shall relate to those functions. Lighting shall be adequate, but not excessive. The height and number of lighting standards shall be appropriate to the building and its function and to the neighborhood.

b. Guidelines.

i. Building Facades. Architectural lighting should be free from glare and complement the existing development in the district.

ii. Building and Grounds Security. Security lighting should provide necessary levels of illumination to insure safety of the property.

iii. Off-Street Parking Area. Off-street parking area lighting shall be so arranged as to conform with applicable sections of Section 10.08 of the Madison General Ordinances.

iv. Design. Lighting standards and fixtures should be of attractive design.

3. Utility Service. It shall be a goal of this plan to eliminate overhead wiring within the district. To this end, property owners within the district working with Madison Gas and Electric Company, Wisconsin Telephone Company, and cable television licensee shall in all new developments and major additions make provision for underground service. Whenever possible, this will be accomplished during development and construction. When it is not possible, certification to the fact that provisions have been made for undergrounding of service signed by representatives of each company shall appear on plans submitted to the Urban Design Commission for review.

4. Signs. Because of the relationship between the University of Wisconsin Research Park and commercial activities of this area, it is necessary that the location and treatment of signs be appropriate to both activities. Signs in the district shall meet the following requirements and conform as much as possible to the following guidelines:

a. Requirements.

i. Signs (including, but not limited to, awnings or canopies with signs), if located on or adjacent to buildings, shall be integrated with the architectural design of the buildings.

ii. Signs shall be located and designed only to inform the intended clientele.

iii. Signs shall be used only as identification of the establishment and shall have no more than a total of eight (8) symbols and/or words.

iv. No portion of an illuminated sign shall have a luminance greater than two hundred (200) foot lamberts for any portion of the sign within a circle two (2) feet in diameter. No sign or part of any sign shall change its level of illumination more than once every one (1) hour. (Am. by ORD-09-00091, 8-1-09)

v. Electronic changeable copy signs, if permitted in the District, shall comply with Sec. 31.046(1) which requires that electronic changeable copy signs in Urban Design

Districts shall not alternate, change, fade in, fade out, or otherwise change more frequently than once every one (1) hour. (Am. by ORD-09-00091, 8-1-09)

vi. A minimum setback of five (5) feet from the public right-of-way is required of all detached signs. A minimum setback of ten (10) feet from the public right-of-way is required for signs exceeding ten (10) square feet in net area. A minimum setback of twenty (20) feet is required for all signs exceeding twenty (20) square feet in net area. (Am. by ORD-09-00091, 8-1-09)

vii. The height of a ground or wall sign shall not exceed ten (10) feet unless a higher sign is specifically approved by the Urban Design Commission based on the following criteria:

A. An exception from the height limitations is necessary for the sign located on the site of an establishment to be identifiable and legible from the nearest roadway at prevailing speeds; and

B. An exception from the height limitation will result in a sign more in scale with the building and site and will result in a superior overall design.

viii. The net area of a ground or wall sign shall not exceed forty (40) square feet unless a larger sign is specifically approved by the Urban Design Commission based upon the following criteria:

A. An exception from the size limitation is necessary for the sign located on the site of an establishment to be identifiable and legible from the nearest roadway at prevailing speeds; and

B. An exception from the size limitation will result in a sign more in scale with the building and site and will result in a superior overall design.

(Am. by ORD-09-00091, 8-1-09)

ix. All signs and their words shall be mounted parallel to the building surface to which they are attached. No sign or words shall project more than eighteen (18) inches from the surface to which they are attached. Attached signs shall not be mounted on roofs and shall not project above roofs.

b. Guidelines.

i. Signs should identify the activity without imposing upon the view of businesses or activities of the district.

ii. A sign should be appropriate to the type of activity and clientele at which its message is aimed.

iii. Signs should be designed so as to be legible to the intended viewer in relation to the surrounding circumstances.

iv. Signs should avoid covering or impinging upon landscape features or significant structures.

v. Illuminated signs should be lit internally or from the ground, not with fixtures projecting from the sign.

vi. Internally illuminated signs displaying illuminated copy shall be designed in such a way so that when illuminated, the sign appears to have light-colored copy on a dark or non-illuminated background. (Am. by ORD-09-00091, 8-1-09)

5. Parking and Service Areas; Screening. The Urban Design Commission in its review of plans for the district will concern itself with the height at time of planting, the spacing, height at maturity, and ability of proposed plants to screen throughout the year. Screening shall meet the following requirements and conform as much as possible with the following guidelines:
   a. Requirements.
      i. The amount of parking and service area to be provided in conjunction with any use shall conform to the requirements set forth in Chapter 28 (Zoning Code) of the Madison General Ordinances.
      ii. All open off-street parking areas containing more than three (3) spaces, and all open off-street loading, shall have effective screening on each side adjoining or fronting any residential properties or any public or private street. If the screening is to be accomplished by using plant material, it shall be planted at a minimum height of thirty (30) inches and grow to a height at maturity of at least fifty-four (54) inches. If any other material is used to screen these types of areas, it shall be a minimum height of fifty-four (54) inches.
      iii. Screening of Rubbish and Trash Storage. Such areas shall be screened to block the view of rubbish and trash containers from any point outside the property on which the storage area is located.
   b. Guidelines. Acceptable screening may consist of any of the following or combination thereof:
      Principal or accessory buildings;
      Earth berms;
      Masonry walls;
      Hedges;
      Trees;
      Decorative fences. (Diamond mesh or other metallic fences are not acceptable.)
6. Building Design. Buildings shall meet the following requirements and conform as much as possible to the following guidelines:
   a. Requirements.
      i. Contemporary architecture shall be the goal of the district. Buildings shall be designed to complement and enrich this character. Building component massing, materials, textures and colors shall be consistent with this character.
      ii. Materials and colors shall be durable, low maintenance, and harmonious with each other and with other buildings in the neighborhood.
      iii. Metal shall not be used as an exterior material for buildings, except as an integral part of a design of exceptional merit.
      iv. Mechanical elements mounted on the roof or ground shall be screened from the view of adjacent properties and roadways.
      v. An addition shall relate appropriately to the existing building in terms of scale, materials and color.
   b. Guidelines.
      i. Buildings should not impinge on the natural views of others, where possible.

ii. Structures should be designed to be compatible with adjacent structures.

iii. Large unbroken exterior facades should be avoided.

iv. All building elevations are of importance and should be carefully designed. Buildings should avoid blank facades. When visible from roadways or adjoining properties, roof surfaces should be considered as part of the overall design.

v. Any building of exceptional height or prominence shall be integrated with the surrounding development and topography.

(Sec. 33.02(9) Cr. by Ord. 9332, 11-30-87; Renumbered by Ord. 13,216, 12-20-02)

(11) Urban Design District No. 4.

(a) Statement of Purpose. Urban Design District No. 4 is hereby established to improve the appearance of those major transportation corridors east of the Capitol Square which constitute a major entrance to the City of Madison, to preserve and enhance the property values in the district, and to avoid a substantial depreciation of the property values in the district. Design requirements and guidelines are herein established for those public and private improvements to be undertaken in these corridors that are visible from the roadways.

(b) Property Included in the District. The District shall include property having any frontage on East Washington Avenue between Pinckney Street and Blair Street; the south side of East Washington Avenue from North First Street to the western boundary of Urban Design District No. 8; North First Street between East Washington Avenue and East Johnson Street except those properties located in Urban Design District No. 8; East Johnson Street between North First and North Second streets; Pennsylvania Avenue between North Second Street and Packers Avenue; Packers Avenue between Pennsylvania Avenue and International Lane. If any portion of a zoning lot is in the district, the entire lot is within the district. A map of the District is available from the Department of Planning and Community and Economic Development. (Am. by Ord. 11,226, 4-13-95; ORD-09-00155, 11-20-09)

(c) Design Review Required. All development in the district (including, but not limited to, new buildings or structures, additions to existing buildings or structures, major exterior alterations of existing buildings or structures, painting of existing unpainted exterior surfaces, and screening done in conjunction with new buildings or structures or additions to existing buildings or structures, and permits for new signs), except residential buildings containing eight (8) or fewer dwelling units, shall require approval of the Urban Design Commission or the Secretary if authorized under 33.24(4)(g), and shall be designed, erected, and maintained in compliance with this ordinance, all applicable federal and other state laws, and the Building Code, Zoning Ordinance and other applicable codes of the City of Madison not in conflict with this ordinance. Approval of the Urban Design Commission under this subsection shall not be required for an awning unless it is part of other development requiring approval under this subsection. The applicable regulations of other codes shall continue to apply with full force and effect to all properties in the district. However, if this ordinance conflicts with other City regulations, the regulations which are more restrictive or which impose higher standards or requirements shall govern. (Am. by ORD-09-00091, 8-1-09)

(d) Basis for Design Review. In reviewing plans for development in the district, the Urban Design Commission shall consider the following requirements and guidelines

as may be appropriate. The development shall meet the requirements and conform as much as possible to the guidelines. The overall design of each development shall be of high quality.

1. Public Rights-of-Way.
   a. Requirement. Public rights-of-way shall be landscaped with appropriate trees and shrubs in accordance with planting plans prepared by the city Forester, after consultation with the Urban Design Commission.
   b. Guidelines.
      i. The appearance of the public rights-of-way is of importance in view of the mixed land use patterns which characterize the designated transportation corridors. The treatment of these rights-of-way should achieve a degree of visual continuity.
      ii. When appropriate and where the right-of-way width is sufficient, the use of earth berms should be considered to reduce traffic noise in residential areas.
2. Off-Street Parking and Loading Areas.
   a. Requirements.
      i. Parking lot landscape plans shall be developed in accordance with the revised New Approach to Parking Lot Landscaping adopted by the Common Council by Substitute Resolution No. 37,196, copies of which are on file with the City Clerk and are available in the Department of Planning and Community and Economic Development.
      ii. The quantity of parking and service areas as well as the tree islands on the interior of new parking areas shall conform to the provisions of Chapter 28 of the Madison General Ordinances. No new parking space shall be more than fifty (50) feet from a canopy tree of at least 3-inch caliper.
   b. Guidelines.
      i. Whenever possible, parking areas shall be located to the side or to the rear of buildings rather than in the front.
      ii. Whenever possible, landscaped earth berms should be used to screen the view of parking areas.
      iii. The use of chain link or other metallic fences should be avoided where visible from roadways identified in Section 33.02(10)(b).
      iv. Off-street parking and loading areas should be integrated into the overall site development. Their relationship to the building they serve and to the street should receive careful attention in preparing the site plan for the property.
3. Signs. The mixed land use patterns that characterize substantial portions of the district contribute to a proliferation of business and product identification signs which detract from the appearance of these areas.
   a. Requirements.
      i. Signs in the district shall conform to all provisions of Chapter 31 of the Madison General Ordinances.
      ii. Signs shall be integrated with the architecture of the building.
      iii. Electronic changeable copy signs, if permitted in the District, shall comply with Sec. 31.046(1) which requires

that electronic changeable copy signs in Urban Design Districts shall not alternate, change, fade in, fade out, or otherwise change more frequently than once every one (1) hour. Additionally, no sign or portion of sign shall change its level of illumination more than once every one (1) hour. (Am. by ORD-09-00091, 8-1-09)

iv. Signs along East Washington Avenue west of First Street shall not be so high or so large that they detract from the view of the State Capitol.

b. Guidelines.

i. A sign should identify the activity without imposing upon the view of residents, businesses or activities of the district.

ii. A sign should be appropriate to the type of activity and clientele at which its message is directed.

iii. Signs should be designed so as to be legible to the intended viewer in relation to the surrounding circumstances.

iv. Signs should avoid covering or impinging upon landscape features or significant structures.

v. Illuminated signs should be lit internally or from the ground, not with fixtures projecting from the signs.

vi. Internally illuminated signs displaying illuminated copy shall be designed in such a way so that when illuminated, the sign appears to have light-colored copy on a dark or non-illuminated background.

(Am. by ORD-09-00091, 8-1-09)

4. Building Design.

a. Requirements.

i. Exterior building materials shall be low maintenance and harmonious with those used on other buildings in the area.

ii. Mechanical elements mounted on the roof or on ground pads shall be screened from views from adjacent properties and roadways in a manner consistent with requirements of public utilities.

iii. Along East Washington Avenue west of First Street, metal shall be used as an exterior building material only as an integral part of a design of exceptional merit.

b. Guidelines.

i. Structures should be designed to be compatible with the structures that are adjacent to them.

ii. Large unbroken exterior facades should be avoided.

iii. All building elevations are of importance and should be carefully designed. When visible from roadways or adjoining properties, roof surfaces should be considered as part of the overall design.

iv. The architecture of new in-fill buildings, additions to existing buildings and major exterior remodelings should be compatible with that of existing adjacent buildings.

5. Lighting.

a. Requirements.

i. The functions of exterior lighting on private property shall be to illuminate building facades, especially those bearing business identification signs; to illuminate pedestrian walks and spaces; and to illuminate parking and service areas.

ii. The choice of equipment, design, quantity, and placement of on-site lighting shall relate to these functions.

iii. Lighting shall be adequate, but not excessive.

iv. The height and number of lighting standards shall be appropriate to the building and its function and to the neighborhood.

v. Off-street parking area lighting shall be so arranged as to conform with applicable sections of Sections 10.08 and 10.085 of the Madison General Ordinances.

b. Guidelines.

i. Building Facades. Architectural lighting should be free from glare and of a type to complement the existing development in the district.

ii. Building and Grounds Security. Security lighting should provide necessary levels of illumination to insure safety of the property and its residents, while not reflecting direct rays of light into adjacent property.

6. Landscaping.

a. Requirements.

i. Landscaping shall be used for functional as well as decorative purposes, including framing desirable views, screening unattractive features and views along the roadway, screening different uses from each other, and complementing the architecture of the building.

ii. In new developments the quality of existing vegetation shall be assessed and integrated into the site planning and landscape design when appropriate.

b. Guidelines.

i. Landscape plans should include a selection of plants which will provide interest and color during the entire year.

ii. Plant materials should be hardy to this region and should be of sufficient size to have immediate visual impact. Canopy trees should be at least 3-inch caliper when planted.

iii. Plant materials should be well-maintained, especially during the year following their installation. Any dead plant should be replaced during the next planting season.

iv. All planting beds should be edged and properly mulched.

(e) Utility Service. It shall be a goal of this district to eliminate overhead wiring within the district. The undergrounding of utility wires should be considered in all street improvement projects undertaken within the district. To this end, the City of Madison and owners of property within the district, working with the Madison Gas and Electric Company, Wisconsin Bell, and cable television licensees, shall, in all major new developments and major additions, including street lighting and traffic signals, make provision for underground service. Whenever possible, this shall be accomplished during building development and construction. When it is not possible, certification to the fact that provisions have been made for the future placement of service underground, signed by representatives of each utility company, licensee or service provider, shall appear on plans submitted to the Urban Design Commission for review.

(Sec. 33.02(10) Cr. by Ord. 10,440, Adopted 5-5-92; Renumbered by Ord. 13,216, 12-20-02)

(12) Urban Design District No. 5.

(a) Statement of Purpose. Urban Design District No. 5 is hereby established to improve the appearance of a major transportation corridor east of the Capital Square which constitutes a major entrance to the City of Madison, to preserve and enhance the property values in the District, and to avoid a substantial depreciation of the property values in the District. Design requirements and guidelines are herein established for those public and private improvements to be undertaken in these corridors that are visible from the roadways.

(b) Property Included in the District. The District shall include property having any frontage on East Washington Avenue or parallel frontage roads between Sixth Street and Interstate 90-94, except for those properties which have design standards and review procedures approved by the Urban Design Commission. If any portion of a zoning lot is in the District, the entire lot is within the District. A map of the District is available from the Department of Planning and Community and Economic Development.

(c) Design Review Required. All development in the District (including, but not limited to, new buildings or structures, additions to existing buildings or structures, major exterior alterations of existing buildings or structures, painting of existing unpainted exterior surfaces, and screening done in conjunction with new buildings or structures or additions to existing buildings or structures, and permits for new signs), except residential buildings containing eight (8) or fewer dwelling units, shall require approval of the Urban Design Commission or the Secretary if authorized under Sec. 33.24(4)(g), and shall be designed, erected, and maintained in compliance with this ordinance, all applicable federal and other state laws, and the Building Code, Zoning Ordinance and other applicable codes of the City of Madison not in conflict with this ordinance. Approval of the Urban Design Commission under this subsection shall not be required for an awning unless it is part of other development requiring approval under this subsection. The applicable regulations of other codes shall continue to apply with full force and effect to all properties in the District. However, if this ordinance conflicts with other City regulations, the regulations which are more restrictive or which impose higher standards or requirements shall govern. (Am. by ORD-09-00091, 8-1-09)

(d) Basis for Design Review. In reviewing plans for development in the district, the Urban Design Commission shall consider the following requirements and guidelines as may be appropriate. The development shall meet the requirements and conform as much as possible to the guidelines. The overall design of each development shall be of high quality.

1. Public Rights-of-Way.

a. Requirement. Public rights-of-way shall be landscaped with appropriate trees and shrubs in accordance with planting plans prepared by the City Forester, after consultation with the Urban Design Commission.

b. Guidelines.

i. The appearance of the public rights-of-way is of importance in view of the mixed land use patterns which characterize the designated transportation corridors. The treatment of these rights-of-way should achieve a degree of visual continuity.

ii. When appropriate and where the right-of-way width is sufficient, the use of earth berms should be considered to reduce traffic noise in residential areas.

2. Off-Street Parking and Loading Areas.

a. Requirements.

i. Parking lot landscape plans shall be developed in accordance with the revised New Approach to Parking Lot Landscaping adopted by the Common Council by Substitute Resolution No. 37,196, copies of which are on file with the City Clerk and are available in the Department of Planning and Community and Economic Development.

ii. The quantity of parking and service areas as well as the tree islands on the interior of new parking areas shall conform to the provisions of Chapter 28 of the Madison General Ordinances. No new parking space shall be more than seventy (70) feet from a canopy tree of at least 2½ - 3-inch caliper.

b. Guidelines.

i. Whenever possible, parking areas shall be located to the side or to the rear of buildings rather than in the front.

ii. Whenever possible, landscaped earth berms should be used to screen the view of parking areas.

iii. The use of chain link or other metallic fences is discouraged where visible from roadways. When used, chain link fencing should be vinyl-coated in a color harmonious with the building exterior.

iv. Off-street parking and loading areas should be integrated into the overall site development. Their relationship to the building they serve and to the street should receive careful attention in preparing the site plan for the property.

3. Signs. The mixed land use patterns that characterize substantial portions of the district contribute to a proliferation of business and product identification signs.

a. Requirements.

i. Signs in the District shall conform to all provisions of Chapter 31 of the Madison General Ordinances.

ii. Signs shall be integrated with the architecture of the building.

iii. Electronic changeable copy signs, if permitted in the District, shall comply with 31.046(1) which requires that electronic changeable copy signs in Urban Design Districts shall not alternate, change, fade in, fade out, or otherwise change more frequently than once every one (1) hour. Additionally, no sign or portion of sign shall change its level of illumination more than once every one (1) hour.

b. Guidelines.

i. A sign should identify the activity without imposing upon the view of residents, businesses or activities of the District.

ii. A sign should be appropriate to the type of activity and clientele at which its message is directed.

iii. Signs should be designed so as to be legible to the intended viewer in relation to the surrounding circumstances.

iv. Signs should avoid covering or impinging upon landscape features or significant structures.

v. Internally illuminated signs displaying illuminated copy shall be designed in such a way so that when illuminated, the sign appears to have light-colored copy on a dark or non-illuminated background.

(Am. by ORD-09-00091, 8-1-09)

4. Building Design.

a. Requirements.

i. Exterior building materials shall be low maintenance and harmonious with those used on other buildings in the area.

ii. Mechanical elements mounted on the roof or on ground pads shall be screened from views from adjacent properties and roadways in a manner consistent with requirements of public utilities.

b. Guidelines.

i. Structures should be designed to be compatible with the structures that are adjacent to them.

ii. Large, unbroken exterior facades should be avoided.

iii. All building elevations are of importance and should be carefully designed. When visible from roadways or adjoining properties, roof surfaces should be considered as part of the overall design.

iv. The architecture of new infill buildings, additions to existing buildings and major exterior remodelings should be compatible with that of existing adjacent buildings.

5. Lighting.

a. Requirements.

i. The functions of exterior lighting on private property shall be to illuminate building facades, especially those bearing business identification signs; to illuminate pedestrian walks and spaces; and to illuminate parking and service areas.

ii. The choice of equipment, design, quantity, and placement of on-site lighting shall relate to these functions.

iii. Lighting shall be adequate, but not excessive.

iv. The height and number of lighting standards shall be appropriate to the building and its function and to the neighborhood.

v. Off-street parking area lighting shall be so arranged as to conform with applicable sections of Sections 10.08 and 10.085 of the Madison General Ordinances.

b. Guidelines.

i. Building Facades. Architectural lighting should be free from glare and of a type to complement the existing development in the district.

ii. Building and Grounds Security. Security lighting should provide necessary levels of illumination to insure safety of the property and its residents, while not reflecting direct rays of light into adjacent property.

6. Landscaping.

a. Requirements.

i. Landscaping shall be used for functional as well as decorative purposes, including framing desirable views, screening

unattractive features and views along the roadway, screening different uses from each other, and complementing the architecture of the building.

ii. In new developments, the quality of existing vegetation shall be assessed and integrated into the site planning and landscape design, when appropriate.

b. Guidelines.

i. Landscape plans should include a selection of plants which will provide interest and color during the entire year.

ii. Plant materials should be hardy to this region and should be of sufficient size to have immediate visual impact. Canopy trees should be at least 2½ - 3-inch caliper when planted.

iii. Plant materials should be well-maintained, especially during the year following their installation when any dead plant should be replaced during the next planting season.

iv. All planting beds should be edged and properly mulched.

(e) Utility Service. It shall be a goal of this District to eliminate overhead wiring within the District. The undergrounding of utility wires should be considered in all street improvement projects undertaken within the district. To this end, the City of Madison and owners of property within the District, working with the Madison Gas & Electric Company, Wisconsin Bell, and cable television licensees, shall, in all major new developments and major additions, including street lighting and traffic signals, make provision for underground service. Whenever possible, this shall be accomplished during building development and construction. When it is not possible, certification to the fact that provisions have been made for the future placement of service underground, signed by representatives of each utility company, licensee or service provider, shall appear on plans submitted to the Urban Design Commission for review.

(Sec. 33.02(11) Cr. by Ord. 11,226, 4-13-95; Renumbered by Ord. 13,216, 12-20-02)

(13) Urban Design District No. 6.

(a) Statement of Purpose. Urban Design District No. 6 is hereby established to improve the appearance of a major transportation corridor west of the Capital Square which constitutes a major entrance to the City of Madison, to preserve and enhance the property values in the District, and to avoid a substantial depreciation of the property values in the District. Design requirements and guidelines are herein established for those public and private improvements to be undertaken in these corridors that are visible from the roadways.

(b) Property Included in the District. The District shall include property having any frontage on University Avenue between Farley Avenue and Allen Boulevard, except for those properties which are located in the Village of Shorewood Hills, the City of Middleton, or have design standards and review procedures approved by the Urban Design Commission. If any portion of a zoning lot is in the District, the entire lot is within the District. A map of the District is available from the Department of Planning and Community and Economic Development.

(c) Design Review Required. All development in the District (including, but not limited to, new buildings or structures, additions to existing buildings or structures, major exterior alterations of existing buildings or structures, painting of existing unpainted exterior surfaces, and screening done in conjunction with new buildings or structures or additions to existing buildings or structures, and permits for new signs), except residential buildings containing eight (8) or fewer dwelling units, shall require approval of the Urban Design Commission or the Secretary if authorized under Sec. 33.24(4)(g), and shall be designed, erected, and maintained

in compliance with this ordinance, all applicable federal and other state laws, and the Building Code, Zoning Ordinance and other applicable codes of the City of Madison not in conflict with this ordinance. Approval of the Urban Design Commission under this subsection shall not be required for an awning unless it is part of other development requiring approval under this subsection. The applicable regulations of other codes shall continue to apply with full force and effect to all properties in the District. However, if this ordinance conflicts with other City regulations, the regulations which are more restrictive or which impose higher standards or requirements shall govern. (Am. by ORD-09-00091, 8-1-09)

(d) Basis for Design Review. In reviewing plans for development in the district, the Urban Design Commission shall consider the following requirements and guidelines as may be appropriate. The development shall meet the requirements and conform as much as possible to the guidelines. The overall design of each development shall be of high quality.

1. Public Rights-of-Way.
   a. Requirements. Public rights-of-way shall be landscaped with appropriate trees and shrubs in accordance with planting plans prepared by the City Forester, after consultation with the Urban Design Commission.
   b. Guidelines.
      i. The appearance of the public rights-of-way is of importance in view of the mixed land use patterns which characterize the designated transportation corridors. The treatment of these rights-of-way should achieve a degree of visual continuity.
      ii. When appropriate and where the right-of-way width is sufficient, the use of earth berms should be considered to reduce traffic noise in residential areas.
2. Off-Street Parking and Loading Areas.
   a. Requirements.
      i. Parking lot landscape plans shall be developed in accordance with the revised New Approach to Parking Lot Landscaping adopted by the Common Council by Substitute Resolution No. 37,196, copies of which are on file with the City Clerk and are available in the Department of Planning and Community and Economic Development.
      ii. The quantity of parking and service areas as well as the tree islands on the interior of new parking areas shall conform to the provisions of Chapter 28 of the Madison General Ordinances. No new parking space shall be more than seventy (70) feet from a canopy tree of at least 2-1/2 - 3-inch caliper.
   b. Guidelines.
      i. Whenever possible, parking areas shall be located to the side or to the rear of buildings rather than in the front.
      ii. Whenever possible, landscaped earth berms should be used to screen the view of parking areas.
      iii. The use of chain link or other metallic fences is discouraged where visible from roadways. When used, chain link fencing should be vinyl-coated in a color harmonious with the building exterior.

iv. Off-street parking and loading areas should be integrated into the overall site development. Their relationship to the building they serve and to the street should receive careful attention in preparing the site plan for the property.

3. Signs. The mixed land use patterns that characterize substantial portions of the district contribute to a proliferation of business and product identification signs.

a. Requirements.

i. Signs in the District shall conform to all provisions of Chapter 31 of the Madison General Ordinances.

ii. Signs shall be integrated with the architecture of the building.

iii. Electronic changeable copy signs, if permitted in the District, shall comply with 31.046(1) which requires that electronic changeable copy signs in Urban Design Districts shall not alternate, change, fade in, fade out, or otherwise change more frequently than once every one (1) hour. Additionally, no sign or portion of sign shall change its level of illumination more than once every one (1) hour.

b. Guidelines.

i. A sign should identify the activity without imposing upon the view of residents, businesses or activities of the District.

ii. A sign should be appropriate to the type of activity and clientele at which its message is directed.

iii. Signs should be designed so as to be legible to the intended viewer in relation to the surrounding circumstances.

iv. Signs should avoid covering or impinging upon landscape features or significant structures.

v. Internally illuminated signs displaying illuminated copy shall be designed in such a way so that when illuminated, the sign appears to have light-colored copy on a dark or non-illuminated background.

(Am. by ORD-09-00091, 8-1-09)

4. Building Design.

a. Requirements.

i. Exterior building materials shall be low maintenance and harmonious with those used on other buildings in the area.

ii. Mechanical elements mounted on the roof or on ground pads shall be screened from views from adjacent properties and roadways in a manner consistent with requirements of public utilities.

b. Guidelines. These guidelines are intended to be general in nature and by no means limit designs of exceptional merit.

i. The architecture of new infill buildings, additions to existing buildings and major exterior remodelings should be compatible with but not necessarily similar to that of existing adjacent buildings.

ii. Large, unbroken exterior facades should be avoided.

iii. All building elevations are of importance and should be carefully designed. When visible from roadways or adjoining properties, roof surfaces should be considered as part of the overall design.

5. Lighting.
   a. Requirements.
      i. The functions of exterior lighting on private property shall be to illuminate building facades, especially those bearing business identification signs; to illuminate pedestrian walks and spaces; and to illuminate parking and service areas.
      ii. The choice of equipment, design, quantity, and placement of on-site lighting shall relate to these functions.
      iii. Lighting shall be adequate, but not excessive.
      iv. The height and number of lighting standards shall be appropriate to the building and its function and to the neighborhood.
      v. Off-street parking area lighting shall be so arranged as to conform with applicable sections of Sections 10.08 and 10.085 of the Madison General Ordinances.
   b. Guidelines.
      i. Building Facades. Architectural lighting should be free from glare and of a type to complement the existing development in the district.
      ii. Building and Grounds Security. Security lighting should provide necessary levels of illumination to insure safety of the property and its residents, while not reflecting direct rays of light into adjacent property.
6. Landscaping.
   a. Requirements.
      i. Landscaping shall be used for functional as well as decorative purposes, including framing desirable views, screening unattractive features and views along the roadway, screening different uses from each other, and complementing the architecture of the building.
      ii. In new developments, the quality of existing vegetation shall be assessed and integrated into the site planning and landscape design, when appropriate.
   b. Guidelines.
      i. Landscape plans should include a selection of plants which will provide interest and color during the entire year.
      ii. Plant material should be hardy to this region and should be of sufficient size to have immediate visual impact. Canopy trees should be at least 2½ - 3-inch caliper when planted.
      iii. Plant material should be well-maintained, especially during the year following their installation when any dead plant should be replaced during the next planting season.
      iv. All planting beds should be edged and properly mulched.

(e) Utility Service. It shall be a goal of this District to eliminate overhead wiring within the District. The undergrounding of utility wires should be considered in all street improvement projects undertaken within the district. To this end, the City of Madison and owners of property within the District, working with the gas and electric company, the telephone company, and cable television licensees, shall, in all major new developments and major additions, including street lighting and traffic signals, make provisions for underground service. Whenever possible, this shall be accomplished during building development and construction. When it is not possible, certification to the fact that provisions have been made for the future

placement of service underground, signed by representatives of each utility company, licensee or service provider, shall appear on plans submitted to the Urban Design Commission for review.

(Sec. 33.02(12) Cr. by Ord. 11,781, Adopted 12-3-96; Renumbered by Ord. 13,216, 12-20-02)

(14) Urban Design District No. 7.

(a) Statement of Purpose. Urban Design District No. 7 is hereby established to improve the appearance and function of Park Street. Park Street is a major gateway corridor to Madison's Downtown and the University of Wisconsin-Madison, and is a critical street for the vitality of adjoining neighborhoods. The purpose of these design requirements and guidelines is to provide clear direction for how property owners can make improvements to their properties to collectively improve the visual character and safety of Park Street. When applied, they will ensure against fragmented or incompatible development and will help prevent the negative visual and functional impacts of uncoordinated design decisions. These requirements and guidelines are intended to preserve and enhance the property values in the District, and avoid substantial depreciation of the property values and help to ensure long-term economic vitality. The goal is not to create a uniform "style" or character for the street, but rather to allow Park Street to evolve as a distinctive place that builds on the strengths of its culturally diverse businesses and neighborhoods.

(b) Property Included in the District. The District shall include all properties having any frontage on South Park Street between the West Beltline Highway on the south and Regent Street on the north. The District shall also include properties which, due to their size and/or location, are likely to have a significant visual impact on the Park Street Corridor should they be redeveloped. Any properties within the boundaries of the District which are not currently within the corporate limits of the City of Madison shall be automatically included in the District upon annexation to the City. If any portion of a zoning lot is in the District, the entire lot is within the District. A map of the District is available from the Department of Planning and Community and Economic Development.

(c) Design Review Required. All development in the District (including, but not limited to, new buildings or structures, additions to existing buildings or structures, major exterior alterations of existing buildings or structures, painting of existing unpainted exterior surfaces, signs, and new parking facilities or alterations to existing parking facilities), except residential buildings containing two (2) or fewer dwelling units and development/redevelopment on properties within the Meriter and St. Mary's Hospital campuses that are part of adopted master plans for the campuses shall require approval of the Urban Design Commission or the Secretary if authorized under Sec. 33.24(4)(g), and shall be designed, erected, and maintained in compliance with this ordinance, all applicable federal and other state laws, and the Building Code, Zoning Ordinance and other applicable codes of the City of Madison not in conflict with this ordinance. The Planning Division Director, or his/her designee, may approve minor alterations to existing and/or approved buildings or structures and site. The Planning Division Director, or his/her designee, may also approve the design of signs that are permissible under the Sign Control Ordinance. Approval of the Urban Design Commission under this subsection shall not be required for an awning unless it is part of other development requiring approval under this subsection. The applicable regulations of other codes shall continue to apply with full force and effect to all properties in the District. However, if this ordinance conflicts with other City regulations, the regulations which are more restrictive or which impose higher standards or requirements shall govern. (Am. by ORD-09-00091, 8-1-09)

(d) Basis for Design Review. In reviewing plans for development in the District, the Urban Design Commission shall consider the following requirements and guidelines as may be appropriate. The development shall meet the requirements and conform as much as possible to the guidelines. Both the requirements and guidelines apply to new construction, renovations, additions, and exterior alterations unless stated otherwise for a specific item. The overall design of each development shall be of high quality. Further explanation of the concepts and rationale conveyed through these guidelines is provided in *Design Guidelines for Private Property Improvements and Public Streetscape Design for the Park Street Corridor* (adopted by Res. 61397, 3-30-04).

1. Building Setbacks and Orientation.

   a. Requirements.

      i. New buildings shall have a setback between one (1) to ten (10) feet from the front property line. Where new buildings are designed for existing blockfaces, the building setback shall be consistent with adjoining buildings but shall not exceed ten (10) feet. However, the Urban Design Commission may allow buildings to be set back greater than ten (10) feet to allow for the development of usable public open spaces, such as pedestrian plazas.

      ii. In special cases, such as gas stations, setbacks can exceed ten (10) feet with provisions for walkways and landscaping that make these uses more attractive and inviting.

   b. Guidelines.

      i. The front yard setback should be designed to provide for amenities that will enhance the visual and pedestrian character of the street.

      ii. In areas with minimal sidewalk/terrace width (eight feet or less), building setback areas should include additional pavement to expand the sidewalk zone to a width of at least eight (8) feet.

      iii. Walkways should be provided to connect the building entrance to the public sidewalk.

      iv. The front facade of the building and the primary entrance should face the primary street. If the public entrance is allowed on the side of the building, it should be positioned close to the primary street and preferably as a corner feature of the building.

      v. Additions to existing buildings should help bring the building closer to the street and minimize any "gap" in the street wall.

2. Building Massing and Articulation.

   a. Requirements.

      i. All visible sides of the building shall be designed with details that complement the front facade. Side facades that are visible from the primary street shall receive complementary design attention.

      ii. Blank building walls with little detail or variety along primary facades shall be avoided. Improvements to these buildings shall include details at the street level to create a more comfortable pedestrian scale and character.

iii. Architectural details at the ground floor shall be provided to enhance the pedestrian character of the street. Details shall include window and door trim, recessed entries, awnings, and/or other features.

iv. Mechanical equipment shall be screened from view by using screen designs that are architecturally integrated with the building design.

b. Guidelines.

i. "Green" building design that promotes energy efficiency is encouraged.

ii. For large buildings, variation to the building face design should be provided through the use of materials and color, and/or by dividing the building into bays to break up large facades to create pedestrian interest at the street level. This is particularly important for existing large industrial and commercial buildings on Park Street.

iii. Building facades should be designed to create a visual distinction between the upper and lower floors of the building.

iv. Flat roofs are preferred for new mixed-use and commercial buildings.

v. A positive visual termination at the top of the building should be provided.

vi. Designs for buildings that adjoin historic buildings should complement the proportion, scale and architectural details of the historic building.

vii. Buildings should be designed as creations of their own time. Copying historic appearance and details is discouraged.

viii. Franchise businesses may need to modify corporate design prototypes to fit the Park Street character.

ix. Where possible, existing one-story buildings should be renovated with extended facades and parapets to increase building height, incorporate elements such as tower features. Such components shall be substantially integrated into the design of the building so they do not read as false facades.

x. New buildings and additions should complement the character of adjoining buildings in the blockface.

xi. Creative architectural designs and details are encouraged so long as designs do not conflict or draw attention away from other buildings in the block.

xii. New corner buildings should be located near the sidewalk edge and should define the street intersection with distinctive architectural features such as towers, rounded walls, recessed entries or other design features.

3. Building Height.

a. Requirements.

i. New buildings shall be at least two (2) stories in height, except as provided in Par. 10, 11, 12 or 13 or in the guidelines below.

b. Guidelines.

i. New buildings should generally be limited to four (4) stories in height. However, building height bonuses of up

to two (2) additional floors may be allowed depending on the quality of the design, the affect of the development on the adjoining neighborhood, and the contribution of the project to: the use mix and activity in the vicinity, and the character of the street. The bonus stories serve as an incentive for creative building design and should not be viewed as the permitted height.

ii. New buildings in excess of three (3) stories shall incorporate a front façade stepback of at least fifteen (15) feet from the building face at the third floor.

iii. New infill buildings should not vary by more than one (1) story from the average building height in the block when that block exhibits a concentration of existing buildings and a well-defined blockface.

iv. Greater flexibility for building height and stepbacks may be allowed as part of a coordinated redevelopment project approved by the City as described in Par. 10, 11, 12, or 13.

v. Additions to existing buildings are expected to comply with the applicable height requirements unless the applicant can demonstrate that the siting or layout of the existing building would pose hardships for its functional relationship with the new addition, in which case the Urban Design Commission may waive said requirements.

vi. In special cases, such as gas stations, the Urban Design Commission may reduce the minimum building height requirement provided the buildings incorporate elements such as extended parapet or tower features to convey the appearance of a taller building. Such elements shall be substantially integrated into the design of the building so they do not read as false facades.

4. Windows and Entrances.

a. Requirements.

i. The ground floors of commercial retail buildings shall have at least sixty (60) percent of the street wall area devoted to windows to enhance the pedestrian character of the primary street.

ii. Office buildings and other non-retail buildings should have at least forty (40) percent of the street wall devoted to windows.

iii. Windows on the ground floor shall be transparent, and not be darkly tinted, colored or have a mirrored finish.

b. Guidelines.

i. Building entrances should be designed as the focal point of the front facade.

ii. Entrances to new buildings or additions located close to the sidewalk should include recessed entries to allow for pedestrian movement.

5. Materials and Colors.

a. Requirements.

i. Exterior materials shall be durable, high-quality materials and appropriate for external use.

b. Guidelines.

i. Brick, stone and terra cotta are preferred primary materials for new buildings or additions.

ii. The use of brick tile or other "faux" sidings is discouraged.

iii. Color choice should complement the style and materials of the building's facade and provide a pleasing relationship with adjoining buildings.

iv. Painting, covering or removal of natural brick and stone is discouraged, but staining may be acceptable.

6. Signage.

a. Guidelines.

i. Preferred sign types include building mounted signs, window signs, projecting signs, and awning signs.

ii. Signs should be simple and easy to read.

iii. Sign colors should relate to and complement the primary colors of the building facade.

iv. Sign design and placement should fit the character of the building and to obscure architectural details.

v. Signage should generally be centered within the prescribed signage area of the building.

vi. Plastic box signs are highly discouraged.

vii. Internally illuminated signs displaying illuminated copy should be designed so that when illuminated, the sign appears to have light-colored copy on a dark or non-illuminated background.

viii. Individually mounted backlit letters are an encouraged form of signage.

ix. The use of small, well-designed building-mounted light fixtures is a preferred method of illuminating signage. No sign or portion of sign shall change its level of illumination more than once every one (1) hour.

x. Freestanding signs should be attractively designed. Signs should be coordinated with adjoining properties and public street signage to avoid visual clutter.

xi. Electronic changeable copy signs, if permitted in the District, shall comply with 31.046(1) which requires that electronic changeable copy signs in Urban Design Districts shall not alternate, change, fade in, fade out, or otherwise change more frequently than once every one (1) hour. (Cr. by ORD-09-00091, 8-1-09)

(Am. by ORD-09-00091, 8-1-09)

7. Parking and Service Areas.

a. Requirements.

i. Off-street parking facilities for new buildings shall be located behind or on the sides of the building and be at least ten (10) feet from the front property line.

ii. At least one (1) tree island, planted with a tree and sized and landscaped pursuant to the Zoning Ordinance, shall be provided per twelve (12) parking spaces provided. This requirement is in addition to any other landscaping requirements of the Zoning Ordinance.

iii. All trash areas shall be screened from public view.

b. Guidelines.

i. For existing properties, where the site area permits, parking in the front should be relocated to the side and/or rear of the building. When this is not possible, walkways, landscaping, architectural features, and lighting should be provided to make these areas more attractive and inviting. Decorative fences, walls and/or landscaped edges should screen front parking areas from the public sidewalk. Screening should not exceed 3'6" in height.

ii. All parking areas should be well landscaped and appropriately lighted.

iii. All parking areas should include walkways to allow safe pedestrian access to the building entrance.

iv. Shared parking areas are encouraged. Whenever possible, adjoining parking lots should be linked to provide internal traffic circulation.

v. Driveways along Park Street should be minimized to improve traffic flow and reduce pedestrian conflicts.

c. Pedestrian areas and customer parking areas should be separated from loading, service, and drive through areas.

i. If possible, trash areas should be located inside buildings.

ii. New parking ramps fronting on Park Street should include ground-floor commercial uses with attractive commercial facade design. The facade design for the upper stories should obscure the parking ramp and present an attractive building face for Park Street. The design of parking ramps should also complement the quality and design of the buildings they serve.

8. Landscaping and Open Space.

a. Requirements.

i. Screen fences and/or landscaped buffers shall be provided at property edges. Where a commercial property adjoins residential properties, this separation shall be provided pursuant to the Zoning Ordinance.

b. Guidelines.

i. Property owners are encouraged to provide well-designed landscaped outdoor spaces for the use and enjoyment of employees and customers.

ii. Landscaping and fencing should be designed to complement the character of the building and provide a pleasing relationship with adjoining properties and the public sidewalk.

iii. The use of attractive landscaping is encouraged to establish continuity between buildings and to define the blockface where there are no buildings

iv. The use of rain gardens and bio-retention basins to collect runoff and filter pollutants is encouraged, where practical.

v. Landscape islands, open spaces and porous pavements should be provided, where practical, for additional storm-water infiltration.

9. Site Lighting and Furnishings.
   a. Requirements.
      i. Full cut-off light fixtures shall be used to illuminate the site.
   b. Guidelines.
      i. Pedestrian use areas should be adequately, but not excessively lit. Low-level building and landscape accent lighting is encouraged, where appropriate.
      ii. Lighting and site furnishings (benches, trash receptacles, bicycle racks, etc.) should be designed to complement the character of the building and provide a pleasing relationship with adjoining properties and the public sidewalk.
      iii. Bicycle storage facilities should be located near the building entrance.
      iv. Decorative, colored paving is encouraged for walkways and outdoor use areas.

10. Badger Road Area.

The Badger Road Area has been identified in the *South Madison Neighborhood Plan, the Park Street Possibilities to Reality Report, and the Design Guidelines for Private Property Improvements and Public Streetscape Design for the Park Street Corridor* as possessing numerous large parcels that represent potential redevelopment opportunities that would improve the use mix, character, density and activity within the District. It continues to be the focus of more detailed and on-going planning efforts that will further articulate important site-specific design considerations for these unique parcels. Design recommendations included in subsequent adopted plans for this area shall take precedence over requirements listed below, which will otherwise apply. In addition, all applicable provisions of Paragraphs 1. - 9. shall apply.

   a. Requirements.
      i. Substantial portions of new buildings shall be at least two (2) stories in height. In special cases, such as gas stations, the Urban Design Commission may reduce the minimum building height requirement provided the building incorporate elements such as extended parapet or tower features to convey the appearance of a taller building. Such elements shall be substantially integrated into the design of the building so they do not read as false facades.
   b. Guidelines.
      i. The front façade of buildings shall be stepped back at least fifteen (15) feet from the building face at the third floor.
      ii. Redevelopment sites should incorporate high quality architecture and site design.
      iii. Buildings should be positioned to serve as attractive visual termination points for streets leading into the development from Park Street and Badger Road.
      iv. Buildings should be positioned to develop an attractive blockface along Park Street and internal streets. Buildings should be located with minimal setbacks at corners to define intersections.
      v. Streetscaping and traffic calming features should be incorporated to enhance the pedestrian character of the development.

vi. Shared parking is encouraged with a preference for enclosed parking integrated as part of the mixed-use building design. Surface parking is preferred first behind buildings and then on the side of the building.

vii. Developments are encouraged to incorporate well-designed open spaces for customer, employee, resident, and community use.

c. Architectural Review Committee. For parcels included in adopted plans with design recommendations superseding this ordinance, the developer may establish an architectural review committee to review and approve individual projects. The specific design criteria and review procedures adopted by such committee, and the categories of membership of the committee, must be approved by the Plan Commission with the adoption of the plan. If no Architectural Review Committee is created, the Urban Design Commission shall review individual projects pursuant to the adopted plan. This option shall be available for projects reviewed by Urban Design Commission solely because of their location within the District. It shall not be available for projects requiring an Urban Design Commission recommendation to the Plan Commission, such as a Planned Unit Development.

11. Wingra Creek Area.

The Wingra Creek Area has been identified in the *South Madison Neighborhood Plan, the Park Street Possibilities to Reality Report, and the Design Guidelines for Private Property Improvements and Public Streetscape Design for the Park Street Corridor* as possessing numerous large parcels that represent potential redevelopment opportunities that would improve the use mix, character, density, and activity within the District. It continues to be the focus of more detailed and on-going planning efforts that will further articulate important site-specific design considerations for these unique parcels. Design recommendations included in subsequent adopted plans for this area shall take precedence over requirements listed below, which will otherwise apply. In addition, all applicable provisions of Paragraphs 1. - 9. shall apply.

a. Requirements.

i. Buildings located away from Park Street may be built up to six (6) stories provided their placement is not detrimental to adjoining residential areas and they are consistent with existing zoning.

b. Guidelines.

i. The front façade of buildings shall be stepped back at least fifteen (15) feet from the building face at the third floor, unless an irregularly shaped parcel makes this requirement unfeasible.

ii. Redevelopment sites should incorporate high quality architecture and site design.

iii. Buildings should be positioned to serve as attractive visual termination points for streets leading into the development from Park Street.

iv. Buildings should be positioned to develop an attractive blockface along Park Street and internal streets. Buildings should be located with minimal setbacks at corners to define intersections.

v. Where appropriate, internal streets should be included as part of the development plan to improve connections between Park Street and the adjoining neighborhoods.

vi. Developments should promote narrow, "pedestrian friendly" streets with on-street parking.

vii. Streetscaping and traffic calming features should be incorporated to enhance the pedestrian character of the development.

viii. Shared parking is encouraged with a preference for enclosed parking integrated as part of the mixed-use building design. Surface parking is preferred first behind buildings and then on the side of the building.

ix. Developments are encouraged to incorporate well-designed open spaces for customer, employee, resident, and community use.

12. Meriter and St. Marys Hospital Campuses.

St. Marys and Meriter Hospitals occupy sites that are essentially surrounded by residential neighborhoods and are unique because of their size, institutional use, and campus-type development pattern. Each hospital has, or will have, a master plan that has been, or will be, approved by the City. These approved master plans, as they may from time to time be modified or expanded, shall regulate development/redevelopment activities on these sites.

13. Multi-Tenant Commercial Buildings.

Park Street has a number of multi-tenant commercial buildings or "strip centers" located primarily in the southern section of the corridor. The following requirements and guidelines, which address the general conditions existing at these sites, shall apply to all new centers and improvements to existing centers unless adopted plans for the Badger Road or Wingra Creek areas address multi-tenant commercial buildings, in which case those plans shall apply. In addition, all applicable provisions of Paragraphs 1. - 11. shall apply to all multi-tenant commercial buildings.

a. Requirements.

i. Substantial portions of buildings in new centers shall be at least two (2) stories in height.

ii. New centers shall front directly on the primary street with parking located at the rear or on the side of the building(s).

b. Guidelines.

i. New centers should include residential or office uses on the upper floors.

ii. Rear and side facades should be designed to blend with the design of the front facade, with complementary colors and materials.

14. Restoration/Preservation Activities.

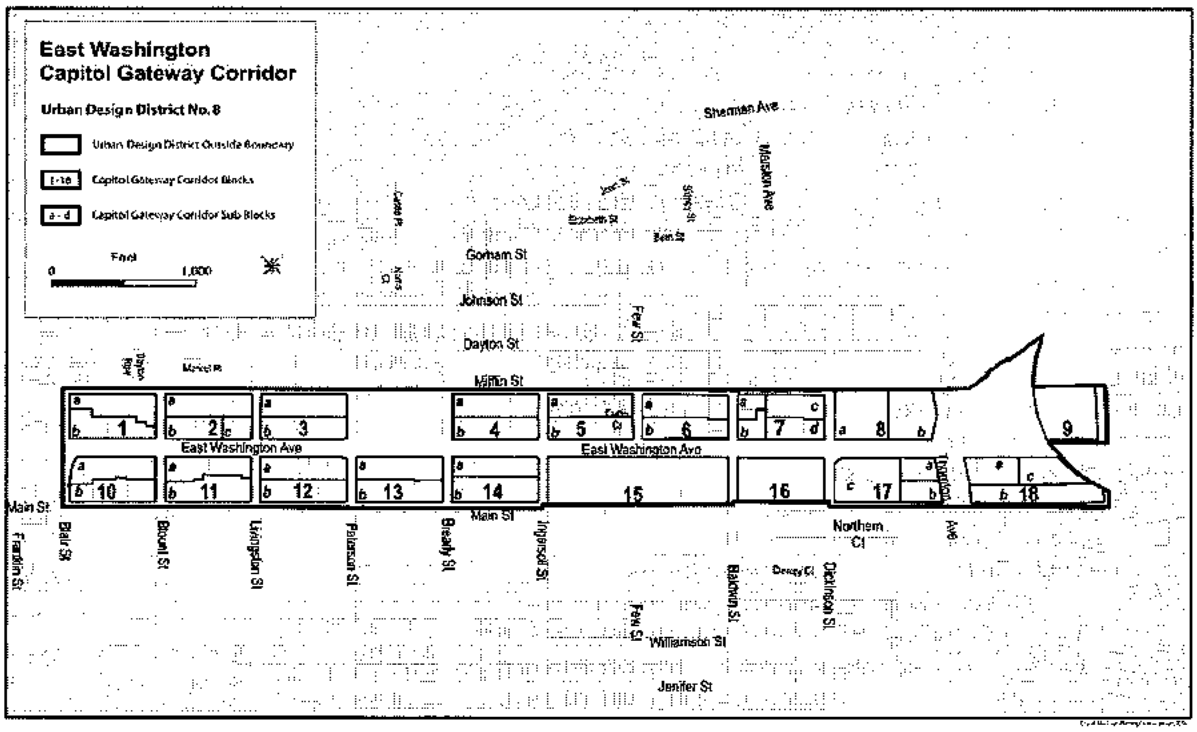
Several buildings, located primarily at the north end of Park Street, are older commercial structures which have historic value and interest. The ground floors of many of these structures have been altered over time while the upper stories have generally retained their historic appearance. When considering building improvements, property owners of older commercial structures are encouraged to restore the original character of the building. This section identifies additional design requirements and guidelines to address the special conditions that exist for these sites.

a. Guidelines.

i. The distinguishing features of the original building should be preserved. The removal or alteration of historic materials or distinctive architecture features should be avoided, whenever possible.

ii. Where practical, the original masonry should be restored and missing elements such as cornices, windows and storefronts that were part of the original building design should be reconstructed. If restoration is not feasible, new elements should be designed to compliment the character, materials and design of the original building.

iii. Any inappropriate elements, signs, canopies, etc. that cover details and features of the original building should be removed.



iv. Painting of natural brick or stone is strongly discouraged when those materials are in good condition.

(15) Urban Design District No. 8.

(a) Statement of Purpose. Urban Design District No. 8 is hereby established to improve the appearance and function of the District. It is intended to be the key implementation mechanism to further the four Core Development Principles set out in the adopted East Washington Avenue Capitol Gateway Corridor Plan. These principles are 1) to protect the iconic view of the Capitol, 2) to respect and strengthen existing neighborhoods, 3) to establish a transit-oriented employment corridor, and 4) to create a vibrant boulevard along East Washington Avenue. The Capitol Gateway Corridor is the major gateway corridor to Madison's Downtown, and is a critical street for the vitality of adjoining neighborhoods. The purpose of these design requirements and guidelines is to provide clear direction for how property owners can make improvements to their properties to collectively improve the visual character and safety of the District. When applied, they will ensure against fragmented or incompatible development and will help prevent the negative visual and functional effects of uncoordinated design decisions. These requirements and guidelines are intended to preserve and enhance the property values in the District, and avoid substantial depreciation of the property values and help to ensure long-term economic vitality. The goal is not to create a uniform "style" or character for the street, but rather to allow the Capitol Gateway Corridor to evolve as a distinctive place that builds on the strengths of its culturally diverse businesses and neighborhoods. This ordinance and the Plan will guide all new development and redevelopment in the District.

(b) Property Included in the District. The District shall include all properties shown in (c). If any portion of a zoning lot is in the District, the entire lot is within the District. A map of the District is available from the Department of Planning and Community and Economic Development.

(c) Map of the District.

(Am. by ORD-12-00053, 4-25-12; ORD-14-00080, 4-16-14)

(d) Design Review Required. All development in the District (including, but not limited to, new buildings or structures, additions to existing buildings or structures, major exterior alterations of existing buildings or structures, street graphics, and new parking facilities or alterations to existing parking facilities), except residential buildings containing four (4) or fewer dwelling units, shall require approval of the Urban Design Commission and shall be designed, erected, and maintained in compliance with this ordinance, all applicable federal and other state laws, and the Building Code, Zoning Ordinance and other applicable codes of the City of Madison not in conflict with this ordinance. The Director of the Department of Planning and Community and Economic Development may approve minor alterations to existing and/or approved buildings or structures and site pursuant to Sec. 33.24(4)(g). The Director of the Department of Planning and Community and Economic Development may also approve the design of street graphics that are permissible under the Sign Ordinance. Approval of the Urban Design Commission under this subsection shall not be required for an awning unless it is part of other development requiring approval under this subsection. The applicable regulations of other codes shall continue to apply with full force and effect to all properties in the District. If this ordinance conflicts with other City regulations, however, the regulations which are more restrictive or which impose higher standards or requirements shall govern.

(e) Basis for Design Review. In reviewing plans for development in the District, the Urban Design Commission shall apply the following requirements and guidelines as may be appropriate in order to implement the Core Development Principles of the East Washington Avenue Capitol Gateway Corridor Plan. The development shall meet the requirements and conform as much as possible to the guidelines. Both the requirements and guidelines apply to new buildings or structures, additions to existing buildings or structures, major exterior alterations of existing

buildings or structures, street graphics, and new parking facilities or alterations to existing parking facilities unless stated otherwise for a specific item. The overall design of each development shall be of high quality.

1. Building Height.
   a. Requirements.
      i. The height of new buildings shall be as shown in 3. below.
      ii. New buildings shall incorporate a front facade stepback as shown in 3. below.
      iii. Any non-habitable space from architectural features shall not be included in the height calculation.
   b. Guidelines.
      i. The Urban Design Commission may, on a case-by-case basis, reduce the minimum building height requirement provided the buildings incorporate elements such as extended parapet or tower features to convey the appearance of a taller building. Such elements shall be substantially integrated into the design of the building so they do not read as false facades.
      ii. Additions to existing buildings are expected to comply with the applicable minimum height requirements unless the applicant can demonstrate that the site, function, use, or layout of the new addition would pose structural or operational hardships due to its relationship with the existing building, in which case the Urban Design Commission may waive said requirements.
2. Building Location and Orientation.
   a. Requirements.
      i. The setback for new buildings shall be as shown in 3. below. The Urban Design Commission, however, may allow greater setbacks to allow for the articulation of long building facades or for the development of additional usable public open spaces, such as pedestrian plazas, as long as design elements are included to maintain a uniform character in the District. (Am. by ORD-14-00081, 4-16-14)
   b. Guidelines.
      i. The building location should be designed to provide for amenities that will enhance the visual and pedestrian character of the street.
      ii. In areas with sidewalk/terrace width of nine (9) feet or less, the setback should include additional pavement to expand the sidewalk/terrace to a width of at least nine (9) feet.
      iii. Walkways should be provided to connect the building entrance to the public sidewalk.
      iv. The front facade of the building and the primary entrance should face the primary street. If the public entrance is allowed on the side of the building, it should be positioned close to the primary street and preferably as a corner feature of the building.
      v. Additions to existing buildings should help bring the building closer to the street and minimize any "gap" in the street wall.

3. Building Height, Location (Distance from Property Line) and Stepback.

Block	Maximum Bldg. Height[1] (stories)	Minimum & Maximum Street Level Facade Height (stories)[2]	Minimum Stepback East-West Streets (feet or angle) [3]	Minimum Stepback North-South Streets (feet)	Minimum & Maximum Setback East-West Streets (feet)[4]	Minimum & Maximum Setback North-South Streets (feet)[4]

18.c.	6**	3-5	15	-	15	0-10

Height is based on an average story height of 9-12' (11-15' for the ground floor). Buildings with greater floor heights shall have fewer stories accordingly.

"*" - represents the required stepback angle

"**" - represents the maximum height in stories allowed without any bonus stories. Bonus stories require the provision of elements in (e)12.

[2]In cases of exceptional design, the Urban Design Commission may waive the minimum street level facade height requirement for elements comprising up to twenty percent (20%) of a building's length along a street.
[3]The angle is measured at a point at the top of the face of the street level facade wall between a horizontal line (0°) and a line (stepback height line) that is extended until the maximum permitted building height on the block is reached. Between the street level facade wall and the point at which the maximum building height is reached, buildings may be built up to the stepback height of the 30° line but may not exceed it.
[4]Includes the eastern and western boundaries of the Yahara River Parkway and Burr Jones Field.

(Am. by ORD-12-00053, 4-25-12; ORD-14-00080 & ORD-14-00081, 4-16-14; ORD-16-00089, 10-26-16)

4. Parking and Service Areas.

a. Requirements.

i. Off-street parking facilities for new buildings shall be located behind or on the sides of the building and the distance from the property line shall be the same as for buildings, as shown in 3. Additional access points off of East Washington shall not be permitted.

ii. At least one (1) tree island, sized and landscaped pursuant to the Zoning Code, shall be provided for each twelve (12) parking spaces. This requirement is in addition to any other landscaping requirements of the Zoning Code.

iii. All trash areas shall be screened from public view.

b. Guidelines.

i. For existing properties, parking in the front should be relocated, if possible, to the side and/or rear of the building. When not possible, walkways, landscaping, architectural features, and lighting should be provided to make these areas more attractive and inviting. Decorative fences, walls and/or landscaped edges should screen front parking areas from the public sidewalk. Screening should not exceed three and one-half (3½) feet in height.

ii. All parking areas should be well landscaped and appropriately lighted.

iii. All parking areas should include walkways to allow safe pedestrian access to the building entrance.

iv. Shared parking areas are encouraged. Whenever possible, adjoining parking lots should be linked to provide internal traffic circulation.

v. Driveways along the District should be minimized to improve traffic flow and reduce pedestrian conflicts.

vi. Pedestrian areas and customer parking areas should be separated from loading service, and drive-through areas.

vii. If possible, trash areas should be located inside buildings.

viii. Any new parking ramps fronting on East Washington Avenue should include ground-floor commercial uses with attractive commercial facade design. The facade design for the upper stories should obscure the parking ramp and present an attractive building face for the District. The design of parking ramps should also complement the quality and design of the buildings they serve.

ix. Entryways to parking ramps should be accessed from side streets whenever possible. Entryways/exits onto East Mifflin Street and East Main Street shall not be permitted unless no other option exists.

x. Bicycle parking should be distributed throughout a development site. Some short-term visitor bicycle parking should be located near the building entrance.

5. Landscaping and Open Space.
   a. Requirements.
      i. Landscaping within the East Washington Avenue setbacks and terraces and medians shall follow the approved palette and design concept.
      ii. The street face shall be dominated by canopy trees in both the building setback and the public right of way.
      iii. The type, number, and location of canopy trees in the building setback shall be coordinated with the type, number, and location of canopy trees in the public right of way.
      iv. When planted, canopy trees shall have a caliper and height relationship consistent with the provisions of Table 1 in Section 1.2.1 of the American Standard for Nursery Stock (ANSI 2 60.1-2004).
      v. Terraces shall have a minimum width of ten (1) feet to accommodate growth of canopy trees.
      vi. If a public sidewalk is within six (6) feet of the public street, canopy trees shall be planted on the building side of the sidewalk.
      vii. Unless existing infrastructure interferes, canopy trees shall be planted at a spacing of no greater than forty (40) feet on center.
      viii. Unless existing infrastructure interferes, canopy trees planted along street faces, in parking lots, and parking lot islands shall have a mature height of at least sixty (60) feet.
      ix. Screen fences and/or landscaped buffers shall be provided at property edges. Where a commercial property adjoins residential properties, this separation shall be provided pursuant to the Zoning Code.
   b. Guidelines.
      i. Property owners are encouraged to provide well-designed landscaped outdoor spaces for the use and enjoyment of employees and customers.
      ii. Landscaping and fencing should be designed to complement the character of the building and provide a pleasing relationship with adjoining properties and the public sidewalk.
      iii. The use of attractive landscaping is encouraged to establish continuity between buildings and to define the block face where there are no buildings.
      iv. The use of rain gardens and bio-retention basins to collect runoff and filter pollutants is encouraged, where practical.
      v. Landscape islands, open spaces, and porous pavements should be provided, where practical, for additional storm-water infiltration.
      vi. Canopy trees should be located in all terraces and medians.
      vii. When space permits, canopy trees should be located on both sides of the public sidewalk.
6. Site Lighting and Furnishings.
   a. Requirements.
      i. Cut-off light fixtures shall be used to illuminate the site.

b. Guidelines.

i. Pedestrian use areas should be adequately, but not excessively lit. Low-level building and landscape accent lighting is encouraged, where appropriate.

ii. Lighting and site furnishings (benches, trash receptacles, bicycle racks, etc.) should be designed to complement the character of the building and provide a pleasing relationship with adjoining properties and the public sidewalk.

7. Building Massing and Articulation.

a. Requirements.

i. All visible sides of the building shall be designed with details that complement the front facade. Side facades that are visible from the primary street shall receive complementary design attention.

ii. Blank building walls with little detail or variety along primary facades shall be avoided. Improvements to these buildings shall include details at the street level to create a more comfortable pedestrian scale and character.

iii. Architectural details at the ground floor shall be provided to enhance the pedestrian character of the street. Details shall include window and door trim, recessed entries, awnings, and/or other features.

iv. Mechanical equipment shall be screened from view by using screen designs that are architecturally integrated with the building design.

b. Guidelines.

i. "Green" building design that promotes energy efficiency is encouraged.

ii. Building facades should be designed to create a visual distinction between the upper and lower floors of the building.

iii. A positive visual termination at the top of the building with decorative cornices or parapets should be provided.

iv. Buildings should be designed as products of their own time. Copying historic appearance and details is discouraged.

v. Franchise businesses are encouraged to modify their corporate designs to fit the District's character.

vi. Where possible, existing one-story buildings should be renovated with extended facades and parapets to increase building height and provide a more pleasing scale for the District.

vii. New buildings and additions should complement the character of adjoining buildings in the blockface.

viii. Creative architectural designs and details are encouraged so long as designs do not conflict or draw attention away from other buildings in the block.

ix. New corner buildings should be located near the sidewalk edge and should define the street intersection with distinctive architectural features such as towers, rounded walls, recessed entries or other design features.

8. Materials and Colors.
   a. Requirements.
      i. Exterior materials shall be durable, high-quality materials and appropriate for external use.
   b. Guidelines.
      i. Brick, stone and terra cotta are preferred primary materials for new buildings or additions.
      ii. The use of "faux" sidings is discouraged.
      iii. Color choice should complement the style and materials of the building's facade and provide a pleasing relationship with adjoining buildings.
      iv. Painting, covering or removal of natural brick and stone is discouraged, but staining may be acceptable.
9. Windows and Entrances.
   a. Requirements.
      i. The ground floors of commercial retail buildings shall have at least sixty percent (60%) of the street wall area devoted to windows to enhance the pedestrian character of the primary street.
      ii. Office buildings and other non-retail buildings should have at least forty percent (40%) of the street wall devoted to windows.
      iii. Windows on the ground floor shall be transparent and unobstructed, and shall not be darkly tinted, colored, or have a mirrored finish.
   b. Guidelines.
      i. Building entrances should be designed as the focal point of the front facade.
      ii. Entrances to new buildings or additions located close to the sidewalk should include recessed entries to allow for pedestrian movement.
10. Signage.
   a. Guidelines.
      i. Preferred sign types include building mounted signs, window signs, projecting signs, and awning signs.
      ii. Signs should be simple and easy to read.
      iii. Sign colors should relate to and complement the primary colors of the building facade.
      iv. Sign design and placement should fit the character of the building and not obscure architectural details.
      v. Signage should generally be centered within the prescribed signable area of the building.
      vi. Plastic box signs are highly discouraged.
      vii. Signs displaying illuminated copy should be designed so that when illuminated, the sign appears to have light-colored copy on a dark or nonilluminated background.
      viii. Individually mounted backlit letters are an encouraged form of signage.
      ix. The use of small, well-designed building-mounted light fixtures is a preferred method of illuminating signage.
      x. Freestanding signs should be attractively designed. Signs should be coordinated with adjoining properties and public street signage to avoid visual clutter.

11. Restoration/Preservation Activities.

Several buildings within the District are older commercial structures, that have historic value and interest. The ground floors of many of these structures have been altered over time while the upper stories have generally retained their historic appearance. When considering building improvements, property owners of older commercial structures are encouraged to restore the original character of the building. This subparagraph identifies additional design requirements and guidelines to address the special conditions that exist for these sites.

a. Guidelines.

i. The distinguishing features of the original building should be preserved. The removal or alteration of historic materials or distinctive architecture features should be avoided, whenever possible.

ii. Where practical, the original masonry should be restored and missing elements such as cornices, windows and storefronts that were part of the original building design should be reconstructed. If restoration is not feasible, new elements should be designed to complement the character, materials and design of the original building.

iii. Any inappropriate elements, signs, canopies, etc., that cover details and features of the original building should be removed.

iv. Painting of natural brick or stone is strongly discouraged when those materials are in good condition.

12. Upper Level Development Standards.

a. For buildings on Blocks 2b, 2c, 3b, 4b, 10-16, and 17c, any mass above five (5) stories that exceeds a footprint of one hundred thirty (130) feet on any side parallel to East Washington Avenue and two hundred (200) feet on any side perpendicular to East Washington Avenue shall have a stepback of forty-five degrees (45°), unless the Urban Design Commission approves a maximum of ten percent (10%) increase in the footprint due to structural or other constraints. (Am. by ORD-12-00053, 4-25-12)

b. Bonus stories may be allowed as follows:

i. Two (2) bonus stories on Blocks 2b, 2c, 3b, 4b, 12b, 13b, 14a, 14b, 15, 16, 17c, and 18c. (Am. by ORD-12-00053, 4-25-12)

ii. Three (3) bonus stories on Blocks 10a, 10b, 11a, 11b, 12a, and 13a, and a third bonus story on up to ten percent (10%) of the area of Block 4b. (Am. by ORD-16-00011, 1-28-16)

iii. Four (4) bonus stories on up to fifteen percent (15%) of the area of Block 3b. (Cr. by ORD-14-00080, 4-16-14)

c. Bonus stories may be granted if it is determined that the provision of at least one (1) element from i. or a combination of elements from ii. provides sufficient public benefit to warrant the additional height.

i. —LEED Gold certification, or equivalent

—Inclusion of at least fifteen percent (15%) of dwelling units for families with incomes not greater than sixty (60%) Area Median Income (AMI) for rental units and/or an income not greater than eighty percent (80%) AMI for

owner-occupied units. Area Median Income is the median annual income calculated by the U.S. Department of Housing and Urban Development for the metropolitan area that includes the City of Madison.

—Structured parking that includes space shared by multiple users from multiple lots and that accommodates a substantial space for public use by patrons of both on- and off-site uses.

—On-site, publicly accessible plazas and/or pocket parks that are visible from the street and provide seating, landscaping, public art and/or other public amenities. For each one (1) square foot of plaza or park that is provided, five (5) square feet of bonus area is available.

ii. —Mid-block and through-block public pedestrian, bike, and/or vehicular connections.

—Substantial amount of family-supporting housing, including at least ten percent (10%) of dwelling units with three (3) or more bedrooms, outdoor recreation spaces, and/or other family-related amenities.

—On sites with designated historic structures and/or structures eligible for designation, the incorporation, preservation, or rehabilitation of such structures in the development.

—Adequately sized community meeting rooms available free of charge for neighborhood, public, or other community meetings or on-site daycare facilities in conjunction with family-supportive housing or employment uses.

—Minimum of fifty percent (50%) vegetative roof cover.

—LEED Silver certification or equivalent.

—On-site, publicly accessible plazas and/or pocket parks that are visible from the street and provide seating, landscaping, public art and/or other public amenities. For each one (1) square foot of plaza or park that is provided, ten (10) square feet of bonus area is available.

(Sec. 33.24(15) Cr. by ORD-09-00155, 11-20-09)

(16) Enforcement and Penalty. This ordinance shall be enforced by the Director of the Building Inspection Division of the Department of Planning and Community and Economic Development or her/his designee. Any person who violates Sec. 33.02(7)(b), Sec. 33.02(8)(c), Sec. 33.02(9)(b), Sec. 33.02(10)(c), Sec. 33.02(11)(c), or Sec. 33.02(12)(c) of this chapter shall upon conviction thereof forfeit not less than one dollar ($1) nor more than two hundred dollars ($200), and in addition shall pay all costs and expenses involved in the case. Each day such violation continues shall be considered a separate offense. (Cr. by Ord. 12,650, 7-28-00; Renumbered by Ord. 13,216, 12-20-02; Am. by ORD-08-00109, 10-7-08; Renum. by ORD-09-00155, 11-20-09)

33.25 HO-CHUNK NATION-CITY OF MADISON JOINT PLANNING COMMITTEE. The Ho-Chunk Nation-City of Madison Joint Planning Committee shall consist of six members: three appointed by the Nation and two appointed by the Mayor subject to the approval of the Common Council, and the director of the City Department of Planning and Community and Economic Development, or his or her designee. Four members, two each representing the Nation and the City, shall be required to constitute a quorum. The Committee shall meet as necessary or at least biannually. The Committee shall be charged with the responsibility of creating and periodically

updating a development plan for the Nation's Fee and Trust Land real properties located within the Development Area and the City boundaries.
(Cr. by ORD-09-00052, Pub. 4-2-09, Eff. 8-1-09)

33.26 RESERVED FOR FUTURE USE.

33.27 STAFF COMMITTEES.

(1) The City may establish formal committees of city staff. These staff committees are called Full Committees, Quasi-committees or Informational Committees, as described herein.

(2) Full Committees. Full Committees each have a separate ordinance setting forth their powers and duties and are subject to all the rules applicable to committees, except they are not subject to the rules on term limits, committee attendance or filing of statements of interest. The Full Committees are:

(a) Street Use Staff Commission. See Sec. 10.056(3), MGO.

(b) Board of Assessors. Sec. Sec. 33.03, MGO.

(c) Olin Terrace Use Commission. See Sec. 8.39, MGO.

(3) Quasi-Committees.

(a) General. Quasi-committees are established primarily to deal with issues of internal concern to City employees. The following rules that apply to other committees will not apply to Quasi-committees: term limits on members as set forth in Sec. 33.01(6)(b), attendance reports, filing of statements of interests, and allowing Common Council members to participate in meetings. Legislative items cannot be referred to a Quasi-Committee. If input of a Quasi-committee is desired, the matter should be referred to the department or division head related to the Quasi-committee. Quasi-committees are subject to open meeting law requirements, quorum, terms for members as set forth in Secs. 33.01(6)(a) and (d), MGO, limits on meeting dates, public comment and the filing of minutes.

(b) Multicultural Affairs Committee. There is hereby established a Multicultural Affairs Committee (MAC) composed of employees of the City of Madison and charged with addressing issues of concern to people of color employed by the City. Members of the MAC shall be appointed by the Mayor upon recommendation of the Director of the Department of Civil Rights, and are not subject to Common Council approval. The MAC may adopt such other rules or bylaws to govern its operation, including establishing the number of members of the Committee, not inconsistent with these ordinances. (Am. by ORD-14-00011, 1-14-14)

(c) Women's Initiatives Committee. There is hereby established a Women's Initiatives Committee (WIC) composed of employees of the City of Madison and charged with addressing issues of concern to women employed by the City. Members of the WIC shall be appointed by the Mayor upon recommendation of the Director of the Department of Civil Rights, and are not subject to Common Council approval. The WIC may adopt such other rules or bylaws to govern its operation, including establishing the number of members of the Committee, not inconsistent with these ordinances. (Am. by ORD-14-00106, 6-16-14)

(d) Deferred Compensation Committee. There is hereby established the Deferred Compensation Committee (DCC) composed of seven (7) employees of the City of Madison to include the following employees or designees: Human Resources Director; Treasurer; Finance Director; City Attorney and three (3) additional employees chosen by the Human Resources Director. The DCC is charged with the duty to make and implement on behalf of the City all necessary decisions relating to the 457(b) Deferred Compensation Plan for the benefit of Plan participants in compliance with Federal and State laws and regulations, including preparing, maintaining and updating the Investment Policy Statement. In furtherance of its responsibilities, the DCC is authorized to effect amendments to the

Plan to comply with amendments to Federal and State laws as may from time to time occur without further action by the Common Council. In addition, the Human Resources Director is authorized, on behalf of the City, to execute all Joinder or Participation Agreements with eligible employees which are necessary for employees' participation in the Plan. Members of the DCC shall be appointed by the Mayor upon recommendation of the Director of the Department of Human Resources and are not subject to Common Council approval. The DCC may adopt such other rules or bylaws to govern its operation not inconsistent with these ordinances.

(Sec. 33.27(2)(d) Cr. by ORD-10-00092, 9-27-10; ORD-11-00037, 3-8-11)

(4) Informational Committees.

(a) When an informational-only committee is established, their meetings shall be noticed pursuant to the open meetings law. No quorum or minutes will be required nor are these committees subject to other rules of committees.

(b) Technical Advisory Committee. A subcommittee of the Water Utility that discusses drinking water quality issues, issue alerts and performs water quality testing. This subcommittee consists of eight (8) members including four experts and three managers and one engineer from the Water Utility.

(Sec. 33.27 Cr. by ORD-08-00046, 5-10-08; Am. by ORD-09-00052, Pub. 4-2-09, Eff. 8-1-09; ORD-16-00054, 5-25-16)

33.28 EDUCATION COMMITTEE. The Education Committee serves as a formal channel of communication and policy recommendations regarding issues of shared concern between the City of Madison, the Madison Metropolitan School District Board of Education, and Dane County. The Committee shall meet on an as-needed basis. The Committee consists of eight (8) members: Mayor or designee, two Common Council members, the Madison Metropolitan School District School Superintendent or representative, two Madison Metropolitan School District Board of Education members, and two County Board Supervisors.

(Cr. by ORD-09-00052, Pub. 4-2-09, Eff. 8-1-09; Am. by ORD-12-00074, 6-20-12)

33.29 ROOM TAX COMMISSION.

(1) Creation. There is hereby created a Room Tax Commission for the City of Madison.

(2) Composition. The Room Tax Commission shall consist of six (6) members appointed by the Mayor and confirmed by a majority vote of the members of the Common Council who are present when the vote is taken. Members shall serve without compensation. All members shall be adult residents of the City. At least two members shall be alderpersons. Strong consideration shall be given to alderpersons who serve on the boards of the Monona Terrace, Overture Center, and Greater Madison Convention and Visitor Bureau. One member shall represent the hotel and motel industry. Strong consideration shall be given to an owner/operator of a hotel in the City. Notwithstanding Sec. 33.01(7)(b), MGO, an alderperson may serve as chair of this commission.

(3) Terms. Pursuant to Wis. Stat. § 66.0615(1m) (c) 3, the members shall be appointed for a one-year term and shall serve at the pleasure of the Mayor and may be reappointed.

(4) Powers and Duties. The Room Tax Commission shall have the powers and duties prescribed by Wis. Stat. § 66.0615. Any contract entered into by the Commission shall be approved by the Common Council. The Commission shall elect from among its members a chairperson, vice chairperson and secretary. No person may serve as Chair more than three (3) years in any five (5)-year period.

(Cr. by ORD-16-0024, 3-7-16)

33.30 JEFFREY CLAY ERLANGER CIVILITY IN PUBLIC DISCOURSE AWARD. The Jeffrey Clay Erlanger Civility in Public Discourse Award will recognize individuals or organizations who share Jeff Erlanger's dedication to and compassion for public policy development, politeness,

civility, individual and human rights, and who conduct their daily life consistent with these values. The committee to select the award recipient will be appointed by the Mayor and be composed of five (5) individuals, including two (2) resident members (resident members to serve a two-year term with said term expiring two years from date of appointment).
(Cr. by ORD-09-00052, Pub. 4-2-09, Eff. 8-1-09; Am. by ORD-17-00030, 3-8-17)

33.31 SUSTAINABLE MADISON COMMITTEE. The Sustainable Madison Committee takes a leadership role in the promotion of sustainability for the City of Madison, the Madison community, and the region. The committee consists of fifteen (15) members plus three alternates: at least one (1) Common Council member, one (1) Board of Public Works member (who may also be a Council member), and thirteen (13) various experts or community representatives with an interest in sustainability (no more than two (2) of whom may also be Council members). Members shall, collectively, represent the following areas of expertise: (1) Air, (2) water, (3) energy, (4) transportation and land use, (5) food, (6) the built environment, (7) finance, economics and workforce, and (8) culture (health, education, arts). The Mayor shall strive to appoint members drawn from the following portions of the community: Neighborhood groups, sustainability activists, business people, educational institutions and the development community. Cross appointments with the Commission on the Environment are permitted but not required. Members and alternates are appointed by the Mayor and approved by the Common Council. Members and alternates shall be appointed for a term of two years, with terms expiring June 30 with the exception of aldermanic members and the Board of Public Works member. The term of aldermanic members shall expire with the expiration of their terms as alders and the term of the Board of Public Works member shall expire with his or her term on Board of Public Works.
6-09; ORD-12-00073, 6-20-12)

33.32 JOINT CAMPUS AREA COMMITTEES.

(1) Joint West Campus Area Committee.

(a) There is hereby created a Joint West Campus Area Committee. The Committee will consist of 23 members: three ex-officio alders representing districts 5, 11 and 13; a mayoral representative; a representative from the following associations: Greenbush, Vilas, Dudgeon-Monroe, Sunset Village, and Regent; a member of the Plan Commission; and a member of a transportation-related committee. The UW-Madison will be represented by a Special Assistant to the Chancellor, a representative from Facilities and Planning, UW Transportation Committee, Division of Housing, School of Medicine, School of Engineering, UW Hospital, School of Nursing and an ASM representative. The Village of Shorewood Hills will be represented by its village administrator or designee, its Village Board president or designee and one additional member selected by the Village Board. (Am. by ORD-09-00147, 11-6-09; Am. by ORD-13-00090, 5-29-13; ORD-16-00105, 12-2-16)

(b) The Committee shall

1. Facilitate participation in planning activities affecting the campus community, the City of Madison, the Village of Shorewood Hills and the surrounding neighborhoods of the campus area west of Park Street, including Greenbush, Vilas, Dudgeon-Monroe and Regent;

2. Identify community-wide and neighborhood impact of campus initiated, city/village-related and private sector development projects in the west campus area;

3. Discuss and summarize comments on university, city/village and private development plans, environmental impact/assessment statements, and traffic analysis;

4. Summarize city/village, campus and neighborhood comments that enhance existing commercial, university and residential areas and street, transit and bicycle/pedestrian systems in the west campus area (west of Park Street); and
5. Time permitting and where appropriate, forward appropriate summary of JWCAC comments on development projects to the appropriate City of Madison committee (e.g., Plan Commission, Urban Design, Transit and Parking Commission, Alcohol License Review Committee, Downtown Coordinating Committee and Pedestrian/Bicycle/Motor Vehicle Commission) and to the appropriate Village of Shorewood Hills committee(s).

(2) Joint Southeast Campus Area Committee.

(a) There is hereby created a Joint Southeast Campus Area Committee. The Committee will consist of 21 members: the alders representing districts 2, 4, 8, and 13; the Mayor or designee (co-chair); a representative from the following associations: Capitol Neighborhoods, State Street-Langdon Neighborhood, the Brittingham area, a State Street organization, Greenbush Neighborhood, Plan Commission, Pedestrian Bicycle Motor Vehicle Commission, and Transit and Parking Commission. The UW-Madison members shall include the Special Assistant to the Chancellor (co-chair), a representative from Facilities Planning and Management, UW-Madison Transportation Committee, UW-Madison Arts Institute, UW-Athletic Department, Wisconsin Union, ASM, and the Division of University Housing. (Am. by ORD-13-00091, 5-29-13)

(b) The Committee shall

1. Facilitate participation in planning activities affecting the campus community, the City of Madison and the surrounding neighborhoods of the southeast campus area east of Park Street;
2. Identify community-wide and neighborhood impacts of campus initiated, City-related and private sector development projects in the southeast campus area;
3. Discuss and summarize comments on university, City and private development plans, environmental impact/assessment statements, and traffic analysis;
4. Summarize City, campus and neighborhood comments that enhance existing commercial, university and residential areas, and street, transit and bicycle/pedestrian systems in the southeast campus area east of Park Street; and
5. Time permitting and where appropriate, forward appropriate summary JSECAC comments on development projects to the appropriate City of Madison committee (e.g., Plan Commission, Urban Design, Transit and Parking Commission, Alcohol License Review Committee, Downtown Coordinating Committee and Pedestrian/Bicycle/Motor Vehicle Commission).

(Sec. 33.32 Cr. by ORD-09-00052, Pub. 4-2-09, Eff. 8-1-09)

33.33 SISTER CITY COLLABORATION COMMITTEE.

(1) Creation and Purpose. There is hereby created a Sister City Collaboration Committee to replace the Committee created by Resolution 09-00046, which resolution is hereby rescinded. The Committee shall maintain, enhance and maximize Madison's involvement and exposure to the global economy, cultural environment, educational, humanitarian and business opportunities for Madisonians and Madison companies in the regions or countries of our Sister Cities.

(2) Duties and Tasks. The Committee shall review inactive Sister City partnerships, explore potential for joint initiatives, and set criteria for the addition of new Sister City partnerships. It is tasked with raising the profile of Madison Sister City partnerships,

making connections with cultural, educational and humanitarian programs, and maximizing educational opportunities, as well as exchanging cultural, educational, business and economic ideas for Madisonians and Madison companies and Sister Cities.

(3) Membership. The Madison Sister City Collaboration Committee shall consist of one member from each approved Sister Committee partnership who will be appointed by the Mayor and confirmed by the Council. These members shall represent the Sister Cities of Madison. In addition, there shall be two (2) other members, one (1) member shall be an alderperson, and one (1) member shall be an adult resident of Madison. Members shall have three-year terms, to be staggered upon initial appointment. Quorum for the Committee will be calculated by the number of members appointed and serving at any given time.

(4) Report. The committee shall issue a yearly report to the Common Council and Mayor on Best Practices by Sister Cities and other countries.

(5) Funding. The Committee will make determinations on funding decisions for Sister Cities.

(Sec. 33.33 Cr. by ORD-11-00019, 2-11-11; Am. by ORD-14-00114, 6-25-14)

33.34 HOUSING STRATEGY COMMITTEE.

(1) Creation. There is hereby created a Housing Strategy Committee for the City of Madison.

(2) Composition. The Housing Strategy Committee shall consist of nine (9) members appointed by the Mayor and subject to approval by the Common Council. Two (2) members shall be alders. The other members shall be resident members. Members shall serve without compensation. The members shall elect annually from among their resident members a chairperson and vice-chairperson; however, the initial chairperson shall be selected by the Mayor. In making appointments, the Mayor may consider for appointment a member of the Landlord and Tenant Issues Committee. (Am. by ORD-17-00030, 3-8-17)

(3) Terms. All members shall be appointed for three-year terms, however, the initial terms of three (3) of the resident members shall expire on April 30, 2014. Initial terms of the remaining four (4) resident members shall expire on April 30, 2015. Thereafter, each resident member shall be appointed for a three-year term commencing on May 1st and expiring on April 30th. The terms of the alders shall expire with the expiration of their terms in office. (Am. by ORD-17-00030, 3-8-17)

(4) Powers and Duties. The Housing Strategy Committee shall have the following powers, duties, and functions:

(a) The Committee will serve as a forum for discussion and communication about housing strategies.

(b) The Committee shall establish a schedule for the Department of Planning and Community and Economic Development to prepare and submit a biennial housing report to the Mayor and the Common Council which will include the following:

1. Current data on Madison and regional housing supply and trends;
2. Strategies for maintaining a broad range of housing choices for all households and income levels; and
3. Strategies for maintaining and increasing affordable owner-occupied and rental housing in Madison and the region.

(c) The Committee will review the biennial housing report prepared by the Department of Planning and Community and Economic Development staff and forward the report with the Committee's recommendations to the Mayor and Common Council for their action. The schedule should include a Committee public hearing to request recommendations for special problem areas to consider in the next biennial report.

(d) In addition to the foregoing, the Housing Strategy Committee shall have such other powers, duties and functions related to housing as are conferred on it by the Mayor and the Common Council from time to time.

(5) Staff. The Department of Planning and Community and Economic Development shall provide staff support for the Housing Strategy Committee and shall receive and retain all documents, reports and records relating thereto.

(6) Meetings. The Housing Strategy Committee shall meet once a month and shall conduct its business in accordance with rules which it may establish.

(Cr. by ORD-12-00077, 6-20-12)

33.35 MADISON ARTS COMMISSION.

(1) Purpose. The arts are an intrinsic expression of human life. Thriving communities enjoy shared experiences of diverse and abundant arts and culture. Arts investments create jobs, leverage private gifts, build a sense of place, invite tourism, revitalize neighborhoods, attract creative people, cultivate democracy, preserve cultural legacy, generate local tax revenue, and enhance our quality of life. The Madison Arts Commission exists to fund artistic activities and support cultural programs that integrate and advance arts and culture as an essential part of life in Madison.

(2) Definitions.

(a) "Commission" means Madison Arts Commission.

(b) "Municipal Arts Fund" means the fund identified in Sec. 33.35(7).

(3) Structure. Madison Arts Commission shall be a commission of the Department of Planning and Community and Economic Development and shall be staffed by the Arts Program Administrator within the Planning Division of the Department of Planning and Community and Economic Development or her/his designee.

(4) (a) Commission Membership. The Commission shall consist of eleven (11) resident members including one (1) alderperson. The remainder of the Commission shall be made up of representatives from the following categories, with at least one representative from each: (Am. by ORD-17-00030, 3-8-17)

1. Art educators (early, primary, secondary, and/or post secondary),
2. Creative sector commerce (individuals engaged in commercial enterprises in the arts including but not limited to: advertising, design, film, music, performing arts, publishing, research and development, software, toys and games, TV and radio, art studios, galleries, and video games).
3. Creative disciplines related to shaping the built environment (artists or administrators who engage in professional level public art, architecture, landscape architecture).
4. Creative workers (individuals whose professional or volunteer contributions are based on creative content such as actors, writers, visual artists, musicians, dancers, and those who promote, facilitate or manage creative content or events).

Members shall be appointed by the Mayor and confirmed by the Common Council.

(b) Terms. The terms of all commission members shall be for three (3) years or until their successors are qualified. However, the term of the aldermanic member shall expire with the expiration of her/his term as alderperson, and the members appointed to the first term following the effective date of this ordinance shall be appointed to staggered terms. Three (3) members shall serve an initial term of one (1) year, three (3) shall serve an initial term of two (2) years, and four (4) shall serve an initial term of the full three (3) years. No member shall serve more than two (2) consecutive three-year terms. However, the six (6) members appointed to the first term after the effective date of this ordinance who serve an initial term of less than three (3) years, and any member appointed to fill the unexpired term of a former

member, shall be eligible to serve two (2) full consecutive three-year terms thereafter. Other than the term of the alderperson, all terms shall expire on April 30th and begin on May 1st.

(c) Conduct of Members. All members shall be allowed to vote on any agenda item, except no member may:

1. Use or attempt to use her/his position to obtain financial gain or anything of value or any advantage, privilege or treatment for the private benefit of herself/himself or her/his immediate family, or for an organization with which she/he is associated;
2. Use her/his position in a way that produces or assists in the production of a benefit, direct or indirect, for her/him or a member of her/his immediate family either separately or together, or for an organization with which the member or her/his immediate family is associated.
3. When a matter in which a member(s) should not participate comes before the commission, the member shall not participate in that portion of the body's meeting involving discussion, deliberations, and votes related to the matter; and, if a member of the commission requests the disqualified member to leave the room, that member shall physically absent herself/himself from that portion of the meeting involving discussion, deliberations and votes related to that matter, and the minutes of the meeting shall reflect her/his absence. See Sec. 3.35(5)(f)3., Madison General Ordinances.
4. The above provisions are included as a reminder that the City's Ethics Code, Sec. 3.35 of these ordinances, applies in its entirety and should guide the conduct of each member.

(5) Budget. An amount established during the annual budget process shall be deposited through direct appropriation in the account of the Municipal Arts Fund. The Commission may provide for the commitment of unrestricted funds to art projects located anywhere within the City of Madison or on City-owned property outside the City of Madison. Monies contributed to or donated for the Municipal Arts Fund shall be expended by the Commission for projects and any unexpended funds shall be carried over automatically in the Municipal Arts Fund for a period of five (5) years. Any funds carried over for five (5) years, and still unexpended at the expiration of such period shall be transferred to the General Fund; provided, however, that funds derived from revenue or general obligation bond issues or from utility revenues or other special purpose or dedicated funds shall revert to the funds from which appropriated at the expiration of the five (5) year period.

(6) Commission Authority. To carry out its responsibilities hereunder, the Commission shall:

(a) Advise the Mayor and the Common Council with regard to policies, budgets, and regulations related to the arts, culture, and creative commerce;

(b) Implement the city's public art program, including but not limited to purchasing works of art or purchasing, commissioning, and siting works of art;

(c) Advise municipal efforts to engage artists and creative workers and the community in a broad range of civic initiatives;

(d) Coordinate and support efforts to unite and focus municipal programs and services as they relate to arts and cultural activities and creative sector commerce;

(e) Establish and administer guidelines and procedures for distributing grants, issuing requests for proposals for creative services, and making recommendations of selections and awards to the Common Council;

(f) Review the performance of external contractors to the city in the areas of arts and culture;

(g) Facilitate periodic cultural planning for the City.

(7) Municipal Arts Fund. The Municipal Arts Fund is a segregated fund in the City Treasury that receives and holds funds appropriated by the Common Council for purchase and

expenditures on art activities, including visual and performing arts, as specified in Sec. 33.35(6). Disbursements from such fund shall be made in connection with projects approved by the Commission on vouchers and approved by the Director of Planning and Community and Economic Development or such other person as may be designated for specific projects. The City Treasurer shall pay the necessary warrants and make the necessary transfers.

(Sec. 33.35 Renum. & Am. by ORD-12-00129, 10-24-12)

33.50 REPORT OF VACANCIES.

(1) The Mayor shall report to the Common Council on the first of each January, April, July and October as to each vacant or expired seat for each board, committee or commission seat for which the Mayor has the power of appointment under City ordinance or resolution. The report shall be in the following format:

(a) Name of board, committee or commission;

(b) Restrictions, if any, on the vacant or expired seat;

(c) Date of such vacancy or term expiration;

(d) Seat holdover, if any; and

(e) Whether the vacancy requires the appointment of an Alderperson.

(2) The report filed by the Mayor, as required in Subsection (1) above, shall also include, for each alderperson, a list of the boards, committees and commissions of which that alderperson is a member, as of the date of the report. This list shall include only boards, committees and commissions which have been created by the Common Council and whose members must be appointed by the Mayor and approved by the Common Council.

(Sec. 3.79 Am. by Ord. 10,979, 9-14-94; Renum. from Sec. 33.25 by ORD-09-00052, Pub. 4-2-09, Eff. 8-1-09)

33.51 OBSOLETE COMMITTEES AND COMMISSIONS.

If any board, committee or commission of the City has not met during a calendar year, the board, committee or commission may be abolished by an order of the Mayor issued after April 1 of the year succeeding the year in which the board, committee or commission did not meet. The Mayor may not abolish any such board, committee or commission if the Common Council acts prior to April 1 to retain the board, committee or commission, or if the board, committee or commission is required by statute or contract. On or before February 15 each year, the Mayor shall submit a report to the Common Council, to be referred to the Common Council Executive Committee, designating those boards, committees, or commissions to be eliminated pursuant to this section.

(Cr. by ORD-05-00042, 3-16-05; Renum. from Sec. 33.26 by ORD-09-00052, Pub. 4-2-09, Eff. 8-1-09; ORD-16-00079, Pub. 9-15-16, Eff. 4-18-17)

33.52 FOOD POLICY COUNCIL.

(1) Food Policy Council. The City of Madison Food Policy Council (FPC) is created and shall be governed by this ordinance.

(2) Membership; Terms.

(a) The FPC shall consist of twenty-three (23) members appointed by the Mayor, subject to confirmation by the Common Council; except that the representative of the Madison Metropolitan School District shall be appointed by the Superintendent of the School District. Three (3) of the members shall be alderpersons; aldermanic appointees shall serve a term expiring concurrent with their term as alders. Nineteen (19) of the remaining members shall be adult resident appointees; adult resident appointees shall serve a term of three years expiring on October 1st in the third year following appointment. One (1) member shall be less than twenty-four (24) years of age when appointed and shall serve a term of one year, expiring on July 31, and shall not count against the nineteen (19) adult resident members. All

vacancies shall be filled by appointment of the Mayor, subject to Common Council approval, for a term filling out the remainder of the vacated members' term.

(b) When the FPC is first constituted, the initial appointments shall be staggered as follows: Seven (7) resident appointees shall be for a term of three (3) years; and six (6) resident appointees shall be for a term of two (2) years; and six (6) resident appointees shall be for a term of one (1) year. (Am. by ORD-15-00028, 3-18-15)

(Am. by ORD-17-00030, 3-8-17)

(3) Composition. The adult resident membership shall be composed as follows: one (1) member shall be a representative from or an advocate of community gardens, one (1) shall represent a direct-market producer, one (1) shall be a food-access advocate, one (1) shall be a representative from a health care provider, one (1) shall be a representative of the Madison Metropolitan School District, one (1) shall be a local restaurateur, one (1) shall represent a small or mid-sized retailer, one (1) shall be a representative from or an advocate for an urban farm, one (1) shall be employed by an accredited university or college as an expert in food and/or agricultural systems, one (1) shall be an employee of UW-Extension.

The remaining nine (9) adult members shall represent any of the following categories, groups, or organizations: a community-supported agriculture organization, a consumer group, an economic development entity, an environmental advocate, a food bank, a farmers' market, a food cooperative, a food processing company, a mobile food vendor or retailer, a neighborhood development organization, a religious organization, a school district, a school food and/or nutrition expert, a staff member from a youth group organization, a sustainable agriculture advocate, or a sitting member of a city or county committee that advises on food-related policy, including, but not limited to the Dane County Food Council or the Madison and Dane County Board of Health, or a representative from any of the other organizations listed above and making up the balance of the FPC.

The Chairperson of the Food Policy Council shall be the Mayor or his or her designee, who may fulfill any of the resident membership requirements above. The designee shall serve a three-year term beginning October 1st of the year of appointment. (Am. by ORD-15-00028, 3-18-15; ORD-17-00030, 3-8-17)

(4) Staffing. Public Health Madison and Dane County and the City of Madison Food Policy Director (or other Mayoral designee) shall serve as staff to the FPC. Other applicable city staff shall support the FPC as necessary. (Am. by ORD-15-00009, 1-28-15; ORD-15-00116, 10-28-15)

(5) Duties. The FPC shall act in an advisory role to the Mayor and Common Council, developing and making recommendations on food policy changes and monitoring implementation relative to reducing hunger through providing community-wide access to food; enhancing the local and regional food economy; creating an economically, socially, and environmentally sustainable local food system; and improving the health and nutrition of the community through local, healthy food options.

(6) The FPC shall have the following responsibilities:

(a) Make recommendations to the Mayor and Common Council on ordinances, policies, and budgetary items that have an impact on the food system.

(b) Request city staff to develop policies related to the food system based on research, input, and advice from the community.

(c) Solicit input from experts and residents within the food system and lead discussion on various topics in order to inform policy recommendations. (Am. by ORD-17-00030, 3-8-17)

(d) Set benchmarks for city departments to reach within a certain time frame to evaluate city progress.

(e) Create subcommittees as necessary to facilitate collaboration among stakeholders and to provide further support on policy recommendations.

(f) Review recommendations from the Dane County Food Policy Council and the City of Madison Ad Hoc Local Food Committee.

(Sec. 33.52 Cr. by ORD-12-00126, 10-10-12; Am. by ORD-16-00112, Pub. 12-14-16, Eff. 1-1-17)

33.53 DIGITAL TECHNOLOGY COMMITTEE.

(1) Digital Technology Committee. The Digital Technology Committee is created and shall be governed by this ordinance.

(2) Membership.

(a) The Digital Technology Committee shall consist of nine (9) voting members appointed by the Mayor subject to the approval of the Common Council on the third Tuesday of April for a term of three (3) years. Two (2) of the members shall be alderpersons who shall serve a term expiring concurrent with their terms as alders. The remaining seven (7) members shall be adult resident appointees.

(b) When the Digital Technology Committee is first constituted, the initial appointments shall be staggered as follows: Two (2) resident appointees shall be for a term of three (3) years; and two (2) resident appointees shall be for a term of two (2) years; and three (3) resident appointees shall be for a term of one (1) year.

(3) Staffing. The Information Technology Director, or his or her designee, shall serve the Digital Technology Committee as its nonvoting Executive Secretary. All matters to be considered by the Committee shall be submitted to the Executive Secretary who shall prepare the notice, agenda and minutes of all Committee meetings and perform such other duties as the Committee shall direct.

(4) Duties. The Digital Technology Committee shall act in an advisory capacity to the Mayor and Common Council on the deployment and use of digital technology consistent with industry and governmental standards including: making studies and recommendations relative to the facilitating the provision of internet access to all residents with special attention to low income families, realizing additional benefits from and expand utilization of the Metropolitan Unified Fiber Network, exploring the technological needs of existing and startup businesses, assisting in the provision of digital infrastructure needs, facilitate communication with the local information technology community, assisting in providing high speed, no-cost access for travelers and commuters and exploring the feasibility of other public and private investments in 21st century telecommunication technologies, including fiber optics to the home.

(Sec. 33.53 Cr. by ORD-13-00089, 5-29-13; Am. by ORD-17-00030, 3-8-17)

33.54 SMALL BUSINESS ENTERPRISES APPEALS COMMITTEE.

(1) Creation. There is hereby created the Small Business Enterprises Appeals Committee to consist of five (5) members who shall serve without compensation.

(2) Composition. The Affirmative Action Commission and the Board of Public Works shall each elect two of their members to serve on the Committee. They may also elect alternates to serve in the event the regular member is unable to serve. The fifth member shall be appointed by the Mayor. The members of the Committee shall not be subject to confirmation by the Council. Each member's term shall be two (2) years.

(3) Meetings and Staffing. The Committee shall meet as required. The Committee shall select its own Chair and Vice Chair, and shall be governed by its own rules, or if none have been adopted, by Robert's Rules of Order. The City Engineer shall provide staff assistance to the Committee, and the City Attorney shall furnish the Committee any legal assistance necessary to carry out of its functions.

(4) Duties. The Committee shall hear appeals from any party who has been found ineligible to be awarded a public works contract due to the party's failure to demonstrate a good faith effort under the City's Small Business Enterprises Program. All appeals shall be made in writing, and must be delivered to and received by the City Engineer no later than the close

of the third business day following the affected party's receipt of the written notification of ineligibility by the Affirmative Action Division Manager. The notice of appeal shall state the basis for the appeal of the decision of the Affirmative Action Division Manager.

(5) Hearings. The Committee shall schedule a hearing within ten (10) business days after receiving the notice of appeal. The date of the hearing shall be not more than twenty-one (21) calendar days after the notice of appeal has been received by the City Engineer. During the pendency of the appeal, the Common Council may not award the public works contract at issue to any contractor. At the hearing the Affirmative Action Division Manager shall have the burden of proof to persuade the Committee of the facts supporting his or her findings. Each party shall have the right to appear in person and by counsel, to call and examine all witnesses and to introduce exhibits. The Committee shall have the power to compel by subpoena duces tecum the production before it of documents, books, records, paper or other evidence which may relate to the subject matter of the hearing. In the admission of evidence, the Committee shall abide by the provisions of Wis. Stats. Sec. 227.45(1) through (6). The Committee shall make written findings of fact and conclusions of law on whether the finding of ineligibility should be sustained or overturned. The Committee shall provide written findings and conclusions and a written order within five (5) calendar days after the conclusion of the hearing, to be signed by the Chair of the Committee, and shall promptly mail or otherwise deliver copies thereof upon the appellant, the City Engineer, and the Affirmative Action Division Manager. The Committee's findings and conclusions shall constitute a final administrative determination and shall be subject to review in court as provided below.

(6) Judicial Review.

(a) Any party to a hearing resulting in a final determination may seek review by certiorari within thirty (30) days of receipt of the final determination. The court may affirm or reverse the final determination, or remand to the Committee for further proceedings consistent with the court's decision.

(b) If review is sought of a final determination, the record of the proceedings shall be transcribed at the expense of the party seeking review. A transcript shall be supplied to anyone requesting the same at the requester's expense. By stipulation, the court may order a synopsis of the proceedings in lieu of a transcript. The court may otherwise limit the requirement of a transcript.

(Sec. 33.54 Cr. by ORD-14-00178, 12-10-14)

34.01 GENERAL PROVISIONS.

(1) Intent of Code.

It is the intent of this chapter to prescribe regulations consistent with nationally recognized standards for the safeguarding to a reasonable degree of life and property from the hazards of fire and explosion arising from the storage, handling and use of hazardous substances, materials and devices and from conditions hazardous to life, property and the environment in the use or occupancy of buildings or premises. Compliance with codes and

standards of the National Fire Protection Association (NFPA), the International Code Council, Madison General Ordinances (MGO) or other approved nationally recognized safety standards, as later referred to or as specified in this code, shall be deemed to be prima facie evidence of compliance with this intent.

(2) Application of Code.

(a) The provisions of this code shall apply equally to new and existing conditions except that existing conditions not in strict compliance with the terms of this code shall be permitted to continue where the exceptions do not constitute a hazard to life or property in the opinion of the Chief.

(b) Nothing contained in this code shall be construed as applying to the transportation of any article or thing shipped under the jurisdiction of and in compliance with the regulations prescribed by the U.S. Department of Transportation (DOT) or as applying to the military forces of the United States.

(c) Except as provided herein, this code applies to each building and premises, public or privately owned and all public thoroughfares located within the City of Madison.

(d) The Department shall be regulated by this chapter and not by International Fire Code (IFC) section 103.

(3) Authority of the Chief.

The Chief has the authority to administer and enforce this code. The Chief may delegate authority under this code to such subordinates in the Fire Department and the actions of such authorized subordinates shall be construed as valid actions of the Chief.

(4) Authority to Enter Premises.

(a) The Chief may, at reasonable hours, request permission of the owner or occupant to enter any building or premises for the purpose of making any inspection or investigation, which, under the provisions of this code, may be deemed necessary.

(b) The Chief may obtain a search warrant under Wis. Stat. §§ 968.10, 968.12, 66.0119 when necessary for the purpose of making an inspection or investigation of any building or premises where the owner or occupant has refused admission.

(c) No person, having been duly informed of the existence of a search warrant to search the premises owned or occupied by that person, shall refuse to permit such search to be made. Each day, or part thereof, during which such refusal continues, shall be deemed to be a separate violation.

(5) Inspection of Buildings and Premises. The Chief may inspect all buildings and premises, except the interiors of dwelling units, as often as may be necessary for the purpose of ascertaining and causing to be corrected any conditions liable to cause fire, endanger life from fire, explosion, dangerous condition or any violations of the provisions or intent of this code and of any other applicable ordinance. The Chief shall, as a condition of granting a permit, have the right to enter the premises for which said permit was issued, at any reasonable time during and throughout the course of such work and until final approval has been granted, for the purpose of inspecting said premises and its compliance with code regulations.

(6) Issuance of Orders.

(a) Order Requiring Replacement of Fire Prevention, Detection or Suppression System Due to Recurring Violations. Whenever the Chief shall find in any building or upon any premises during any three (3) inspections or reinspections a fire prevention, detection or suppression system which is defective, inoperative, improperly maintained or improperly operated, the Chief may order the following remedies:

1. If the system includes one or more exit light(s) which have not been illuminated during inspections the Chief may order that all of the exit lights in such premises be equipped with self-illuminating lights or lights equipped with light emitting diodes (LED).

2. If the system includes one or more self-closing fire door(s) any of which have been found to have been held open with non-approved hold open devices during inspections the Chief may order that all of the fire doors in such premises be equipped with a door holder/release device.
3. If the system includes emergency exit doors which, during hours of occupancy, have been found to be secured or locked with bolts, bars, chains, padlocks or locking devices other than the primary door lock the Chief may order that all emergency exit doors within the premises be equipped with panic door release hardware.
4. This subsection shall not be construed as a limitation upon the powers of the Chief to issue orders for corrections of violations under this code nor shall this subsection be construed as a limitation upon any of the powers of the Chief under any other applicable provision of the Madison General Ordinances, Wisconsin Administrative Codes or Wisconsin State Statutes.

(b) Corrective Action. Whenever the Chief may find a violation of this code, Wisconsin State Statutes, or Wisconsin Administrative Codes, the Chief may order corrective action to cause the violation to be eliminated.

(c) Fees for Reinspections.

1. Any person who shall fail to comply with any lawful order of the Chief issued pursuant to the provisions of this Chapter may be assessed seventy-five dollars ($75.00) per inspection for compliance inspections in excess of one.
2. The Chief shall keep an accurate account of all unpaid inspection fees incurred for reinspection services rendered and report the same to the Finance Director, who shall annually prepare a statement of these special charges at each lot or parcel of land and report the same to the City Clerk, and the amount therein charged to each lot or parcel of land shall be by said Clerk entered in the tax roll as a special charge against said lot or parcel of land, and the same shall be collected in all respects like other special charges upon real estate as provided in Wis. Stat. § 66.0703. (Am. by ORD-11-00037, 3-8-11)

(d) Authority to Abate Hazard. The Chief shall have the authority to order the immediate abatement of any hazard deemed by the Chief to be an imminent hazard to the life, safety and well-being of any individual. Whenever the owner shall refuse or neglect to abate said hazard, the Chief may cause the same to be abated and the City shall recover the expenses incurred thereby from the owner. The Chief shall keep an accurate account of all unpaid expenses incurred by the City for hazard abatement rendered and report the same to the Finance Director, who shall annually prepare a statement of these special charges at each lot or parcel of land and report the same to the City Clerk, and the amount therein charged to each lot or parcel of land shall be collected in all respects like other special charges upon real estate as provided in Wis. Stat. § 66.0703. (Am. by ORD-11-00037, 3-8-11)

(e) Authority to Vacate. The Chief shall have the authority to issue an order to vacate any property deemed by the Chief to be necessary due to an imminent hazard to the life safety and well being of the occupants.

(7) Service of Orders.

(a) The service of written orders for the correction of violations of this code shall be made upon the owner, occupant or other person responsible for the conditions, either by delivering a copy of same to any person in charge of the premises, or by mailing such orders to the owner or other responsible person. This subdivision shall in no way preclude the Chief from issuing oral orders in such other manner, as the Chief deems appropriate under the circumstances.

(b) If buildings or other premises are owned by one person and occupied by another the orders issued in connection with the enforcement of this code shall apply to the occupant thereof as well as the owner, except where the rules or orders require the making of additions to or changes in the premises themselves, such as would immediately become fixtures upon real estate and be the property of the owner of the premises, and in such cases the rules or orders shall affect the owner and not the occupant unless it is otherwise agreed between the owner and the occupant.

(c) Mailing of such orders by the owner or occupant is sufficient notice to affect compliance with the order.

(8) Liability for Damages. This code shall not be construed to hold the City of Madison or its employees responsible for any damage to persons or property by reason of the inspection or reinspection authorized herein or failure to inspect or reinspect or the permit issued as herein provided or by reason of the approval or disapproval of any plans or equipment authorized herein.

(9) Board of Building Code, Fire Code, Conveyance Code and Licensing Appeals. The Board of Building Code, Fire Code, Conveyance Code and Licensing Appeals, as established in Sec. 29.18, MGO, shall act upon appeals from the decision of the Chief in respect to the provisions of this code and to advise the Chief on any matters regarding this code on which the Chief may request its opinion. The Department shall be bound by the appeals process outlined in this section and not IFC section 108.

(10) Appeals. Whenever the Chief shall disapprove an application or refuse to grant a permit, approval or certificate applied for or revoke a permit, approval or certificate, or when it is claimed that the provisions of the code have been misconstrued or wrongly interpreted, the person affected may appeal from the decision of the Chief to the Board within thirty (30) days from the date of the decision appealed and upon payment of fifty dollars ($50) payable to the City of Madison. The Board may, by majority vote, uphold, overrule or modify the action of the Chief. (Am. by ORD-12-00042, 4-19-12)

(11) Variances. The Board shall have power to modify any of the provisions of this code upon application in writing by the owner or lessee, or the duly authorized agent, when there are practical difficulties in the way of carrying out the strict letter of the code, provided that the spirit of the code shall be observed and public safety secure. The particulars of such modification when granted or allowed and the decision of the Board thereon shall be entered upon the records of the Board and a signed copy shall be furnished the applicant.

(12) Judicial Review.

(a) Any party to a proceeding resulting in a final determination hereunder may seek review thereof by certiorari within 30 days of receipt of the final determination. The court may affirm or reverse the final determination, or remand to the decision maker for further proceedings consistent with the court's decision.

(b) If review is sought of a final determination, the record of the proceedings shall be transcribed at the expense of the person seeking review. A transcript shall be supplied to anyone requesting the same at the requester's expense. If the person seeking review establishes impecuniousness to the satisfaction of the reviewing court, the court may order the proceedings transcribed at the expense of the municipality and the person seeking review shall be furnished a free copy of the transcript. By stipulation, the court may order a synopsis of the proceedings in lieu of a transcript. The court may otherwise limit the requirement of a transcript.

(Cr. by ORD-11-00004, 1-12-11)

(13) Adoption by Reference; State and National Codes.

(a) The codes in the *International Fire Code*® and the Wisconsin Administrative Codes that are adopted by reference are the most current edition of the referenced code and any subsequent editions of the referenced codes. (Am. by ORD-13-00102, 6-12-13; Rep. & Re-enacted by ORD-14-00102, 5-28-14)

(b) IFC. The *International Fire Code*®, subject to the modifications specified in this chapter. (Am. by ORD-13-00102, 6-12-13; Rep. & Re-enacted by ORD-14-00102, 5-28-14)

(c) The following Wisconsin Administrative Code Chapters:
SPS 305 - Licenses, Certifications and Registrations
SPS 307 - Explosive Materials
SPS 310 - Flammable and Combustible Liquids
SPS 314 - Fire Prevention
SPS 316 - Electrical
SPS 318 - Elevators
SPS 328 - Smoke Detectors
SPS 340 - Gas Systems
SPS 343 - Anhydrous Ammonia
SPS 361-366 - Wisconsin Commercial Building
SPS 366 - Existing Buildings
SPS 375-379 - Buildings Constructed Prior to 1914
SPS 381-387 - Plumbing

(Renum. by ORD-11-00004, 1-12-11; Am. by ORD-12-00035, 3-28-12)

[EDITOR'S NOTE: 2013 Wis. Act 270 creates Wis. Stat. § 101.02(7r) which sets forth a restriction on local governments enacting or enforcing local ordinances related to construction and maintenance of public buildings. Under § 101.02(7r)(b) an exception is made for ordinances related to fire detection, prevention, or suppression if the ordinance was enacted before May 1, 2013. In accordance with Wisconsin Supreme Court precedent, Secs. 34.01(13)(a) and (b), MGO, are deemed to have been enacted and in force since March 29, 2012. Van Dyke v. Tax Commission, 217 Wis. 528, 539 (1935) ("[W]hen a repealing statute re-enacts a provision of an old statute in substantially the same words, no change in the old law is thereby effected, but the original law is deemed to continue in force from its first enactment").

On January 26, 2015, this ordinance was determined to be in compliance with the provisions of Wis. Stat. § 101.02(7r).]

(14) Miscellaneous Inspection Fees.

(a) Inspections outside of normal work hours whether required or requested shall be subject to the fees in this section. Inspections outside of normal work hours to verify compliance with permitted activities, which are conducted outside of normal work hours, shall be subject to the fees listed in this subsection. When fire inspection personnel are required for events or emergencies, the owner shall pay for personnel time in accordance with this subsection.

(b) Inspection fee - sixty dollars ($60.00) per hour.

(c) The Chief shall keep an accurate account of all unpaid fees incurred for inspection services rendered and report the same to the Finance Director, who shall annually prepare a statement of these special charges at each lot or parcel of land and report the same to the City Clerk, and the amount therein charged to each lot or parcel of land shall be by said Clerk entered in the tax roll as a special charge against said lot or parcel of land, and the same shall be collected in all respects like other special charges upon real estate as provided in Wis. Stat. § 66.0703. (Am. by ORD-11-00037, 3-8-11)

(Renum. by ORD-11-00004, 1-12-11)

(15) Penalties. Violations shall be prosecuted as outlined within this code. The Department shall not follow IFC section 109.2.1 and 109.3.

(a) Any person violating any of the provisions of this Chapter for which a penalty is not otherwise specified shall upon conviction be subject to a forfeiture of not less

than ten dollars ($10) nor more than one thousand dollars ($1000). Every day or fraction thereof during which any person fails or to comply with any provisions of this code shall constitute a separate violation.

(b) Any person who does not comply with any lawful order of the Chief issued pursuant to the provisions of this code shall be in violation of this Chapter, and every day or fraction thereof during which such person fails or neglects to comply with such order shall constitute a separate offense.

(Renum. by ORD-11-00004, 1-12-11)

(16) Severability. The Common Council of the City of Madison hereby declares that should any section, paragraph, sentence, or word of this chapter hereby adopted be declared for any reason to be invalid, it is the intent of said Common Council that it would have passed all other portions of this chapter independent of the elimination here from of any such portion as may be declared invalid.
(Renum. by ORD-11-00004, 1-12-11)

34.02 DESIGN AND CONSTRUCTION REVIEWS, APPROVALS AND PERMITS FOR FIRE PROTECTION AND OTHER SAFETY FEATURES. (Am. by ORD-11-00151, 11-8-11)

(1) Application for Permit, Plans and Specifications.

(a) No person may install, erect or construct or add to, enlarge, move, improve, alter, convert, extend replace components, or demolish or cause the same to be done, or commence any work covered by this code on any fire protection system, any access control, delayed egress, stair door locking system or device, or LPG containers, high-piled storage arrays, flammable and combustible liquid storage arrangements, including any system subject to plan review under Wis. Admin. Code ch. SPS 361, without first submitting plans for review and approval to the Chief and obtaining a fire department work permit. This requirement is irrespective of whether such person intends to submit such plans to any other lawful approving authority. Permits shall be issued in the name of the owner or owner's agent. The Chief by special permission may authorize work to start prior to compliance with this subsection. (Am. by ORD-11-00151, 11-8-11; Am. by ORD-12-00035, 3-28-12)

(b) Applications for permits shall be filed with the Chief in writing on a form to be furnished for that purpose. Such application shall describe the land or structure upon which work is to be done, either by street number, lot, block or tract, or similar general description which will identify the proposed installation or work and shall show the use or occupancy of all parts of the building and such other pertinent information as may be required by the Chief. By filing, the applicant certifies the installation will comply with the applicable codes.

(c) Working plans and specifications showing the location of each component or element of the proposed system, all drawings, manufacturers cut sheets for devices, calculations, material approvals, manufacturers listed installation and design manuals, pre-engineered design specifications, design specifications, and the manufacturer, model and type of each component element of such systems, when needed, shall accompany every application for a permit, and shall be filed with the Chief. Applicant shall submit three (3) sets of plan documents and one (1) set of supporting documents for review. However, the Chief may authorize the issuance of a permit without plans or specifications for minor or inconsequential work.

1. Plans submitted shall be drawn to scale on substantial paper. The submitted plans shall be working plans of sufficient clarity to indicate the nature and character of the work proposed and to show that the applicable regulations will be complied with. They shall be prepared in accordance with the provisions of this code, and shall bear the name of the architect, professional engineer, contractor or other person who prepared them.

2. Specifications shall be in detail. Any specifications in which general expressions are used to the effect that "work shall be done in accordance with the Fire Code" or "to the satisfaction of the Fire Chief" shall be deemed imperfect and incomplete. Every reference to the Fire code shall be to the section or subsection applicable.
3. Alterations to or modifications of an existing system may not, at the discretion of the Chief, require a complete set of plans as set forth above, however, each such application for a permit shall include appropriate supporting documentation establishing that the proposed alterations or modifications comply with all appropriate codes, ordinances and standards.
4. For state-owned buildings plans shall be approved by the appropriate state agency. A permit is required for said projects, a copy of the state plan approval letter is required as part of the permit application. The Chief shall inspect the fire protection systems in state owned buildings. When a State agency specifies plan review and inspection by the City, a complete submittal is required.

(d) If the application, plans and specifications are in conformity with the requirements of this code and all other laws or ordinances applicable thereto, the Chief shall, upon receipt of the required fee, grant a permit for said work and shall sign, date and endorse all sets of submitted plans as approved or if approval is conditioned upon changes to the plan or compliance with other conditions, the plans may be conditionally approved. In all such cases where plans are conditionally approved the Chief shall return, with the plans, written notification of the conditions that must be satisfied. Whenever a submitted application is incomplete, the Chief may suspend any action on such application and shall notify the applicant of the information needed to process such application.

(e) The work shall be installed as shown on the plans and there shall be no modifications or alterations made without written permission from the Chief.

(f) Permits issued under this code shall lapse and be void unless the work authorized is commenced within one (1) year from the date or completed or resumed within one (1) year from the date that construction begins and in the event of further construction after either of the latter of these time periods, a new permit must be obtained pursuant to all the requirements of the code. The fees for such new permit shall be based upon the area (square footage of protected area) remaining to be done.

(g) The issuance or granting of a permit or approval of plans or specifications shall not be deemed or construed to be a permit for, or an approval of, any violation of any of the provisions of this code. If, subsequent to the issuance of a permit, errors are discovered in the application, plans, specifications or execution of the work, the Chief may require the correction of said errors in said application, plans, specifications or construction and may rescind the permit and prevent installation and work operations from continuing when in violation of this code or of any ordinance.

(h) Except as authorized by the Chief all portions of any system that are to be concealed must be tested by the installing contractor and be approved by the Chief before concealment.

(i) The data specified in all applicable IFC standards adopted by this code shall be a part of, or shall accompany, all plans submitted for approval.

(j) The initial tenant build-out for shell building projects, shall comply with this section regardless of the number of sprinklers to be altered, added or removed.

(k) The following language is substituted for IFC section 105.7.10: Construction permits are required for all Liquefied Petroleum Gas (LPG) retail cylinder exchanges and for LPG containers of one hundred (100) gallon, or aggregate,

water capacity or more. Individual LPG containers of two thousand (2000) gallon water capacity or larger and individual LPG containers where the aggregate water capacity is four thousand (4000) gallon or larger must be submitted to the Department of Safety and Professional Services. (Am. by ORD-12-00035, 3-28-12)

(2) Fees.

(a) Scope. The fees fixed in this section shall be assessed and collected by the Chief for the examination and approval of system plans. These fees also include the inspection of newly installed and remodeled systems. These fees do not cover any re-inspections. These fees are collected in advance from the owner or agent. The appropriate portion of each fee, as set forth in Wis. Admin. Code § SPS 302.31, Table 2.31-3, shall be forwarded to Department of Safety and Professional Services. (Am. by ORD-12-00035, 3-28-12)

(b) Plan Examinations.

1. Plans showing design and construction details, design computations and specifications submitted for examination and approval as required by this section shall be accompanied by a fee in the amount determined in accordance with this section.

2. For the purpose of determining the fee on the basis of square foot, floor area measurements shall be taken from outside of building at each floor level, including basement and other areas affected or serviced by the system. Except as otherwise specified in this code, for remodeling or adding to an existing system, the appropriate fee shall be determined by calculating the square footage of the area to be serviced by such remodeling or addition to the system. (Am. by ORD-15-00033, 4-8-15)

(c) (Renum. to Sec. 34.02(2)(d)9. by ORD-11-00151, 11-8-11)

(d) Fee Schedule.

1. New Systems. Except as otherwise specified in this section, plan review fees for new systems shall be computed upon the basis of the total square footage of each building or affected area and determined by the following table:

TABLE A

AREA (SQUARE FEET)	FIRE ALARM SYSTEM PLANS	FIRE SUPPRESSION SYSTEM PLANS
Less than 2,500	$200	$200
2,501 - 5,000	$250	$250
5,001 - 10,000	$300	$300
10,001 - 20,000	$600	$600
20,001 - 30,000	$900	$900
30,001 - 40,000	$1,200	$1,200
40,001 - 50,000	$1,500	$1,500
50,001 - 75,000	$1,800	$1,800
75,001 - 100,000	$2,100	$2,100
100,001 - 200,000	$2,400	$2,400
200,001 - 300,000	$2,700	$2,700
300,001 - 400,000	$3,000	$3,000
400,001 - 500,000	$3,300	$3,300
Over 500,000	$3,600	$3,600

2. Alteration/Modifications and Repair/Replacement to Existing Devices/ Systems.

a. The fee for review of submittals or review of plans for the alteration/modification to existing devices/systems shall be determined by Table B for each type of alteration/modification submitted.

Table B-1 Alteration/modifications existing devices/systems

Device/System	Fee
Existing Automatic Fire Sprinkler system of up to 20 Sprinkler Heads	$100 per system
Other existing fire protection systems of up to 3 devices	$100 per system
Dry Pipe preaction, deluge valve, and similar devices	$100 per system
Fire Pump	$200 per system
Fire Alarm Control Unit	$200 per system
Backflow Prevention Valve	$200 per system

Table B-2 Closure, change in use or temporary removal of any tank system regulated by SPS 310

Plan Review	$50
Site Inspection, 1st tank	$75
Site Inspection, each additional tank	$50

(Am. by ORD-11-00151, 11-8-11; ORD-12-00035, 3-28-12)

b. The fee for review of submittals or review of plans for the repair/replacement to existing devices/ systems shall be determined by Table C for each type of repair/replacement submitted.

Table C Repair/replacement existing devices/systems

Device/System	Fee
Sprinkler head replacement, more than 3	$100 per system
Nozzle replacement, more than 3	$100 per system
Dry Pipe, preaction, deluge valve, and similar devices	$100 per system
Fire Pump	$200 per system
Fire Alarm Control Unit Replacement	$100 per system
Backflow Prevention Valve	$200 per system
Fire alarm initiating devices, more than 3	$200 per system
Fire alarm notification appliances, more than 3	$200 per system

3. Certain Devices/Systems Subject to a Single Flat Fee. The fee for review of plans for the installation of new systems not subject to the fees in the above mentioned subsections shall be two hundred dollars ($200) for each type of device/system submitted. The fee for review of submittals for the alteration, repair, or replacement of systems not subject to the fees in the above mentioned subsections shall be one hundred dollars ($100) for each type of device/system submittal. However, no additional fee shall be due under this section if such device/system is included as a component in a system

plan which has been submitted to the Chief and for which a fee has been paid pursuant to this code. The devices/systems subject to this fee shall include but not be limited to the devices/systems in Table D:

Table D certain devices subject to single flat fee

Device/System	Fee
Digital alarm communicator transmitters (DACT)	$200 per system
Kitchen hood extinguishing systems	$200 per system
Dry chemical extinguishing systems	$200 per system
Fire detection devices that actuate fire doors/ shutters (which are not part of any fire alarm system)	$200 per system
Clean agent systems	$200 per system
Fire pumps	$200 per each
Standpipe systems (not to include combined sprinkler/standpipe systems)	$200 per system
Smoke and Heat Vents	$200 per system
High-piled Storage Arrays	$200 each
Fire Command Center	$200 each
LPG Retail Cylinder Exchanges of more than 100 gallons, or aggregate	$200 each
LPG Individual containers less than 2000 gallons	$200 each
LPG Individual containers aggregate less than 4000 gallons	$200 each
Private fire service mains and hydrants	$200 per system

(Am. by ORD-11-00151, 11-5-11)

4. Plan examination and inspection fees for storage tanks of liquids that are flammable, combustible or federally regulated hazardous substances are as outlined in Wis. Admin. Code § SPS 302.43. (Am. by ORD-12-00035, 3-28-12)
5. The fee for the inspection only of devices/systems in state-owned buildings shall be half (½) of the fees specified in this Chapter.
6. A permit shall be required for the demolition of any system. However, no additional fee shall be due under this paragraph if the installation of a new system has been submitted to the Chief and for which a fee has been paid pursuant to this code or a permit for the razing of the building is obtained from the City of Madison Inspection Division pursuant to Sec. 29.13, MGO. The permit fee shall be two hundred dollars ($200).
7. The fee for review of submittals or review of plans for any work to be performed under this section, not specified in the fee schedules in this section, shall be two hundred dollars ($200).
8. An additional fee of one hundred dollars ($100) shall be assessed for incomplete plan submittals placed on hold. (Cr. by ORD-11-00151, 11-8-11)
9. Revisions.
   a. The additional fee of two hundred dollars ($200) or fifty percent (50%) of the original plan examination fee whichever is higher

shall be assessed for review of system plans that have been submitted following denial of plan approval, if the submission is within eight (8) months of the original denial.

b. The fee of two hundred dollars ($200) shall be assessed for revisions to previously approved plans.

c. The fee of two hundred dollars ($200) shall be assessed for plan submittals that have been rejected for failing to comply with an administrative hold. Administrative holds shall be issued where plan submittals are incomplete.

(Sec. 34.02(2)(c) Renum. to 9. and Am. by ORD-11-00151, 11-8-11)

(e) Penalty. Penalty for failure to obtain a permit before starting work shall be double the required fee. This shall be in addition to any other penalties provided elsewhere in the code. In addition, a penalty of one hundred dollars ($100) shall be assessed for each day that any work requiring a permit progresses without a permit, calculated from the date the notice of violation is delivered to either the property owner or the contractor performing the work, until the date the owner or contractor submits the proper plans in an approved format to the Chief.

34.03 RECORDS FOR INSPECTING, TESTING & MAINTENANCE OF FIRE PROTECTION SYSTEMS. These requirements are in addition to the record retention requirements found in Secs. 34.507, 34.703 and 34.901, MGO.

(1) At least once each year, an individual with the applicable credential specified in Wis. Admin. Code ch. SPS 305, shall conduct the inspection, testing and maintenance specified for automatic fire sprinkler systems in NFPA 25. This section does not preclude non-credentialed individuals from conducting the daily, weekly, monthly, quarterly or semiannual inspection and testing activities for automatic fire sprinkler systems required under NFPA 25 and NFPA 72. (Am. by ORD-12-00035, 3-28-12)

(2) All inspection, testing and maintenance of systems that occur annually or less frequent shall be filed with the City of Madison's electronic reporting system. Within thirty (30) days of said inspection the owner shall insure that the following information is filed electronically with the City:

(a) The address that was inspected;

(b) The type of fire protection system inspected;

(c) The applicable standard;

(d) List of any system deficiencies or code violations;

(e) The name, registration number and address of the registered contractor who performed the inspection, testing or maintenance; and

(f) Attestation that the inspection, test or maintenance activity was performed in accordance with the applicable IFC standards.

Free accesses to computers to complete the above-mentioned requirements are available at the Madison Fire Department Administration Building, the Madison Building Inspection Division and all Madison Public Libraries.

(3) Electronic filing requirements in subsection (1) and (2) become effective on March 1, 2011. Prior to March 1, 2011, all individuals shall submit all records of system inspection, testing and maintenance to the Chief.

34.04 REGULATION OF FIRE ALARM SYSTEMS, FALSE ALARMS.

(1) Definitions. For the purpose of this ordinance, the following definitions shall apply:

"Alarm" means any sound, signal or message generated by an alarm system, alarm user or other person, to which fire personnel are expected to respond.

"Alarm user" means the person, partnership, corporation or other entity of any kind in control of any building, structure or facility or portion thereof, wherein an alarm system is in operation.

"Alarm System" means any system, device, or mechanism which, when activated, transmits a telephonic, wireless, electronic, video or other form of message to an alarm system monitoring company or some other number or emits an audible or visible signal that can be heard or seen by persons outside the protected premises or transmits a signal beyond the premises in some other fashion, except a medical alert alarm. An alarm system or alarm device may consist of one or more components all reporting to a central alarm station.

"Automatic dial device" means any device that automatically sends over regular telephone lines, by direct connection, a prerecorded voice message or coded signal indicating the existence of some type of emergency to which fire personnel are expected to respond.

"Central alarm station" means a facility having the receiving, recording and transmitting equipment to which remote alarm devices and electrical protection circuits are connected and where operators supervise an alarm panel and upon receipt of emergency signals indicating fires may relay a message to the fire department and may notify an alarm agent for the purpose of responding to the alarm signal.

"Control" means the power or authority to manage, superintend, direct or oversee a building, structure or facility or portion thereof.

"Department" means the City of Madison Fire Department and its personnel and includes other fire agencies assisting the Madison Fire Department.

"False Alarm" means the reporting of or activation of any monitored or non-monitored alarm system where the Department arrives at the premises and determines that there is no evidence of a fire or emergency on the premises that would warrant a call for fire assistance or investigation. An alarm shall be presumed to be false if the responding Department does not locate evidence of a fire or emergency on the premises that might have caused the alarm to sound. False alarm includes an alarm caused by a power outage but shall not include alarms activated by unusually severe weather conditions or other causes which are identified by the Chief to be beyond the control of the Alarm User.

"Fire" means the City of Madison Fire Department and its personnel and includes other fire agencies assisting the Madison Fire Department.

(2) Alarm Requirements.

(a) Alarm System User Responsibility. It shall be the duty of the alarm user to properly use the alarm system, ensure that all alarm users are instructed in the proper use of the alarm system and are aware of the provisions of this chapter and to maintain the alarm system in proper working order. The alarm user shall maintain at each alarm site a complete set of written operating instructions for each alarm system. Any special codes, combinations, or passwords must not be included in these instructions but must be maintained on site.

(3) Alarm Companies and Private Responders.

(a) Every alarm company shall provide its alarm customers with a complete set of written operating instructions for the alarm system, written information on the applicable law relating to false alarms, including the forfeiture amounts, and written guidelines on how to prevent false alarms.

(b) Every alarm company shall provide training to its alarm customers in the proper use of the alarm system, including instructions on how to prevent false alarms.

(4) Misuse of Alarm System. Use of an alarm system in the absence of an actual emergency situation, which results in the response of fire personnel; or use of an alarm system rather than a telephone to summon fire personnel in any situation where such telephone use would not create an immediate threat to the safety of the caller or other persons and misuse of the alarm system. Misuse of an alarm system is unlawful.

(5) False Alarm. Alarm users shall not have, permit or allow false alarms to occur at any building, structure, facility or portion thereof under their control and where an alarm system is in operation. Inspections, testing, maintenance, alteration and repair activities for fire protection systems shall not result in the transmission of a false alarm.

(6) Orders. The Chief shall have the authority to order the installation of double action pull stations or pull covers with horn when the department has responded to three (3) or more intentional false alarms at a premise.

(7) Exceptions. None of the provisions of this ordinance shall apply to any official governmental body or subdivision thereof, which owns, operates and maintains its own alarm equipment.

(8) Penalty. An alarm company, a private responder, an alarm user or a person in control of an alarm system commits an offense if they violate any provision of this section by either commission of an act that is forbidden or omission of a duty or responsibility imposed upon them by this ordinance and is subject to a forfeiture of not less than one hundred dollars ($100) nor more than one thousand dollars ($1000) for each offense. Prosecution action will be commenced if there is a malfunction of the alarm system or an unintentional false alarm if there are two (2) violations within one month or three violations within twelve (12) months. Prosecution action will be commenced if the false alarm occurs in the course of inspection, testing or maintenance of the alarm system. Prosecution action and penalties imposed will vary depending on whether the false alarm is a result of an intentional act, a malfunction of the alarm system, an unintentional act or a result of inspection, testing or maintenance of the alarms system for specifics regarding the individual penalties see Sec. 1.08(3)(a), MGO.

34.05 BAN ON SALE OF NOVELTY LIGHTERS.

(1) Intent and Purpose. The Common Council of the City of Madison hereby finds that:

(a) Novelty lighters have features which are attractive to children, including visual effects, flashing lights, musical sounds or toy-like designs.

(b) Designing lighters to disguise their true function increases the risk of injury and attracts children. Novelty lighters are easily mistaken by children and adults as children's toys or common household items.

(c) Novelty lighters are inherently dangerous products containing flammable fuel. If lighters are used incorrectly or used by children, dangerous and damaging consequences may result.

(d) Disguising the true function of an inherently dangerous product unnecessarily threatens the health and safety of the residents of Madison. (Am. by ORD-17-00030, 3-8-17)

(e) Novelty lighters have been the cause of many personal injuries to children and adults and to property damage throughout the United States.

(f) The Consumer Product Safety Commission has recalled thousands of novelty lighters since 1996 due to their danger to public safety.

(2) Definitions.

"Lighter" means a mechanical or electronic device that ignites a flame, typically used for lighting tobacco products.

"Novelty Lighter" means a lighter which is especially attractive to children due to a toy-like design. This includes, but is not limited, to lighters that depict or resemble cartoon characters, toys, weaponry, household products, watches, musical instruments, vehicles, toy animals, food or beverages, or that play musical notes or have flashing lights or other entertaining features.

(3) Ban on Sale. The retail sale, offer of retail sale, gift or distribution of any novelty lighter is prohibited.

34.06 CAUSING FIRE BY NEGLIGENCE.

(1) It shall be unlawful for any person whose negligent or reckless behavior results in a fire to any property, any part of land or any part of a building so as to endanger life or property in any way or to any extent.

(2) Exception. It is not a violation of this section if the fire is contained within the cooking device.

(3) Penalty. Any person who violates any of the provisions of this section may be subject to a forfeiture of up to five thousand dollars ($5000).

(Cr. by ORD-12-00001, 1-10-12)

34.104 INTERFERENCE WITH FIREFIGHTING.

(1) It shall be unlawful for any person to knowingly obstruct any firefighter in the performance of duties relating to an emergency or rescue.

(2) It shall be unlawful for any person to give or cause to be given any false request for fire personnel.

(3) It shall be unlawful to interfere with the proper function of a fire alarm system.

(4) It shall be unlawful to interfere with the lawful efforts of a firefighter to extinguish a fire.

(5) No person shall offer any hindrance or resistance to a firefighter in the discharge of the firefighter's duty.

(6) No person shall drive any vehicle over or across a fire hose.

(7) No person shall in any manner injure or interfere with any hose, fire engine, or other fire apparatus belonging to the City.

(8) No person shall drive or operate any automobile or other vehicle over any portion of any street or alley occupied by the engines, auto trucks or other vehicles or apparatus of the Fire Department when engaged in extinguishing a fire unless precaution is taken so as not to do any injury to any property or apparatus of the Fire Department or interfere with the operation of the same.

(9) Any person who violates this section shall forfeit up to one thousand dollars ($1000).

34.105 LICENSES AND PERMITS.

The following requirements are in addition to the requirements found in IFC section 105:

(1) All licenses shall not be transferable and any change in equipment, ownership, use or occupancy of premises shall require a new license.

(2) All permits referenced in this section and IFC section 105 will be called licenses and shall comply with the requirements found in this section.

(3) Applications required under IFC section 105.2 shall be filed with the City Clerk not the Chief.

(4) All applications must be submitted thirty (30) days prior to commencing the prescribed activities. All applications shall be acted upon promptly. The Chief shall within fifteen (15) business days from the receipt of an application, either issue the requested license or state to the applicant the reasons for not issuing it.

(5) Licenses shall be valid so long as the original conditions of their issuance are maintained, but shall not exceed one (1) year unless specifically provided. The term of each annual license shall be from July 1 to June 30 of the next year. Licenses for a part of a year may be issued, expiring on June 30. Licenses issued for a period of three (3) months to one (1) year shall be subject to the entire applicable fee.

(6) A fee of one hundred dollars ($100) shall be made for each license under this section, except as listed in this section or as specified elsewhere in this code, payable to the City of Madison.

(7) Renewal licenses shall be obtained on or before June 30 of each year or be subject to a late filing fee of twenty-five percent (25%) of the license fee. License fees that are not renewed by July 31 of each year shall be subject to a late fee of fifty percent (50%) of the license fee.

Payment of a late filing fee shall not relieve any person from any other penalties prescribed in this chapter for failing to possess or obtain a license. (Am. by ORD-12-00143, 11-12-12)

(8) No license shall be issued to minors.

(9) The Chief may revoke any license, issued under this code where any condition of issuance has not been complied with or maintained or where there has been any false statement or misrepresentation of any material fact in the application or plans on which the issuance was based. The Chief shall promptly notify the license holder of the revocation. The license holder may appeal the Chief's decision to the Board. Such revocation shall be in effect pending the decision of the Board, and the license holder shall immediately comply with the conditions of revocation.

(10) The IFC section 105.6.30 exception for recreational fires is not included as part of this code. In addition to the requirements found in IFC section 105.6.30, a permit is required for recreational fires. A permit is not required for outdoor cooking, fire in approved outdoor fireplaces, campfires in approved campgrounds and burning related to training for fire departments.

(11) Repair garage license holders shall not be required to obtain a separate flammable and combustible liquids license, as long as the flammable and combustible liquids stored, used or handled are incidental to the repair garage occupancy and are less than one hundred nineteen (119) gallons.

(12) Spraying or dipping license holders shall not be required to obtain a separate flammable and combustible liquids license as long as the flammable and combustible liquids stored, used or handled are used in the operation of the spraying or dipping.

(13) Hazardous materials license holders shall not be required to obtain additional licenses for the storage, use or handling of flammable and combustible liquids, compressed gases, cryogenic fluids, magnesium and organic coatings.

(14) The following activities shall be required to obtain a license for a specific time period as approved by the Chief, but for no longer than a year.

(a) Open Burning. The license fee for an open burning license under Sec. 34.307 is fifty dollars ($50). (Am. by ORD-14-00139, 8-13-14)

(b) Pyrotechnic Special Effects Materials. An operational permit is required for the use and handling of pyrotechnic special effects materials before a proximate audience or in a motion picture, television, theatrical and group entertainment productions. A permit is required for each display. The permit fee is two hundred and fifty dollars ($250). All use and handling of pyrotechnic special effect materials shall comply with the requirements found in IFC section 105.6.36, IFC chapter 56 and Sec. 34.5608, MGO. (Am. by ORD-13-00102, 6-12-13; ORD-14-00139, 8-13-14)

(c) Fire Performance Art as defined Sec. 34.308(2)(a) - the license shall comply with Sec. 34.308(2)(e). (Cr. by ORD-14-00032, 2-18-14)

(15) A permit is required for special events or use of the common area of a covered mall including but not limited to the display of goods, retail sales displays, fashion shows, art shows, motor vehicle displays and holiday events. A detailed floor plan drawn to scale of the area to be used shall be submitted with the permit application. The plan shall show the location of all assembly seating areas, stages, booths, displays, exhibits and demonstrate compliance with the means of egress system requirements of Wis. Admin. Code chs. SPS 361 to 365. (Am. by ORD-12-00035, 3-28-12)

(16) Fireworks Permits.

(a) Recreational Fireworks Sellers Permit. A permit is required for the retail sales of recreational fireworks under Sec. 34.5601. The fee for this permit shall be one hundred dollars ($100).

(b) Fireworks Event Permit. A permit is required for a fireworks event under Sec. 34.5608(5). The permit fee is two hundred and fifty dollars ($250).

(c) Fireworks Shooters Permit. A permit is required for the possession or public display of fireworks under Sec. 34.5608(6). The fee for this permit shall be two hundred and fifty dollars ($250).

(Cr. by ORD-14-00139, 8-13-14)

(17) The following exceptions are in addition to the exceptions found in IFC section 105.6.43 - tents or canopies used for retail sales adjunct to a business; however a building permit is required. Funeral tents and curtain or extensions attached thereto, when used for funeral services. (Renum. by ORD-14-00139, 8-13-14)

(18) The requirements of the following IFC subsections are not included as part of this code:
Section 105.1.3 Permits for same location
Section 105.6.4 Carnivals and fairs
Section 105.6.13 Exhibits and trade shows
Section 105.6.15 Fire hydrants and valves
Section 105.6.16 Flammable and combustible liquids - omit 1., 4., 6., and 7.
Section 105.6.17 Floor finishing
Section 105.6.18 Fruit and crop ripening
Section 105.6.19 Fumigation and thermal insecticidal fogging
Section 105.6.23 Hot work operations
Section 105.6.24 Industrial ovens
Section 105.6.26 Liquid- or gas-fueled vehicles or equipment in assembly buildings
Section 105.6.27 LP-gas
Section 105.6.31 Open flames and torches
Section 105.6.29 Miscellaneous combustible storage
Section 105.6.32 Open flames and candles
Section 105.6.35 Private fire hydrants
Section 105.6.38 Refrigeration equipment
Section 105.6.40 Rooftop heliports
Section 105.6.44 Tire-rebuilding plants
Section 105.7 Required construction permits
(Am. by ORD-13-00102, 6-12-13; Renum. by ORD-14-00139, 8-13-14)

34.202 DEFINITIONS.

The following definitions are in addition to the definitions in IFC section 202:

(1) "Board" means the Board of Building Code, Fire Code, Conveyance Code and Licensing Appeals.

(2) "Chief" means the Chief of the Madison Fire Department and the Chief's designee.

(3) "Code" means Chapter 34 of the Madison General Ordinances.

(4) "Code Official" means the Chief of the Madison Fire Department.

(5) "Department" or "Fire Department" means the City of Madison Fire Department.

(6) "IFC" means the *International Fire Code*® as adopted and amended by this code.

(7) "Individual" means an owner, person or licensee.

(8) "Inspector" means Fire Inspector, Fire Code Enforcement Officer, Fire Prevention Officer, Fire Protection Engineer, Fire Marshal, Firefighter or other Fire Department personnel authorized by the Chief to perform the duties of administration and enforcement of this code.

(9) "License" shall also include a permit.

(10) "Licensee" shall mean all individuals required to obtain a license under this code.

(11) "NFPA" means the National Fire Protection Association.

(12) "Owner" means every person, firm, partnership or other person having the ownership, control, custody or management of any property.

(13) "Permit" shall also include a license.

(14) "Person" means every owner and licensee.

(15) "SPS" means Wisconsin Department of Safety and Professional Services.
(Am. by ORD-12-00035, 3-28-12)

34.304 COMBUSTIBLE WASTE.

The following requirements are in addition to the requirements found in IFC section 304:

(1) Accumulation of Combustible Waste:
  (a) Combustible waste or refuse shall be properly stored or disposed of at the end of each working day, before vacating a building or premises and whenever necessary to prevent unsafe, uncontained accumulations.
  (b) Roofs, courts, yards, vacant lots and open spaces shall be kept free and clear of deposits or accumulations of waste paper, hay, grass, straw, weeds, litter or combustible waste or refuse of any kind, except as permitted in Sec. 7.361, MGO.
  (c) No person shall place, deposit, dump or otherwise dispose of hazardous material, combustible waste, refuse or rubbish in or on any street, alley, public sidewalk or public place except as permitted in Sec. 10.18, MGO.

(2) IFC section 304.1 is modified to read: Waste accumulation prohibited. Combustible waste material, including confidential material intended for destruction, creating a fire hazard shall not be allowed to accumulate in buildings or structures or upon premises.

(3) The following exception is in addition to the exceptions in IFC section 304.3.3: Dumpsters and containers constructed of noncombustible material with lids constructed of noncombustible material may be placed within five (5) feet of combustible walls, openings or combustible roof eave lines.

(4) Refuse shall be in approved bins equipped with covers and doors in a closed position except while filling or emptying.

(5) Interior storage prior to collection in apartment buildings:
  (a) Refuse storage in excess of one (1) cubic yard for more than twenty-four (24) hours shall be in rooms constructed in accordance with Sec. 29.20(8)(c), MGO and shall be of sufficient size to store all refuse generated prior to removal.
  (b) All refuse shall be removed at least once each week.
  (c) Refuse holding rooms shall not be used for any other purpose.

34.307 LICENSE REQUIRED FOR OPEN BURNING.

The following requirements are in addition to the requirements found in IFC section 307:

(1) In addition to authorization from the Chief, a license must be obtained in accordance with Secs. 7.45 and 34.105(14)(a), MGO.

(2) Open burning is not permitted without a license. The burning of rubbish, leaves, construction waste, and other similar material is prohibited.

(3) No person shall kindle a recreational fire upon the land of another without the permission of the owner.

(4) IFC section 307.4.3 shall be replaced with the following language: outdoor fireplaces and pits are bowls or pits designed for the holding or burning of wood and shall be allowed without a license, as long as the following conditions are met: (Am. by ORD-13-00102, 6-12-13)
  (a) Fireplaces shall include a bowl with supports to ensure clearances to combustibles;
  (b) Pits shall have an enclosure, heavy screen or spark arrestor to control and contain embers and sparks;
  (c) Fireplaces or pits shall not be used within fifteen (15) feet of a building or lot line;
  (d) Fireplaces or pits shall be used on a stable level surface;
  (e) Fireplaces or pits shall not be used on any combustible deck, porch or patio;
  (f) Only clean, dry wood is permitted to be burned in fireplaces or pits. No trash, yard waste or construction material shall be burned;
  (g) If the fireplace is a propane unit, only propane shall be burned;
  (h) The smoke from the fireplace or pit shall not create a nuisance;

(i) A fire extinguisher, garden hose or other method of fire control shall be readily available;

(j) The fireplace or pit must be supervised at all times by a responsible adult. The fire must be completely extinguished before the fireplace or pit is left unsupervised;

(k) Fireplaces or pits shall not be operated when air quality is other than good or moderate as defined by the Wisconsin Department of Natural Resources (DNR); and

(l) Manufactured outdoor fireplaces and pits shall be operated in accordance with the manufacturers assembly, safety and operating instructions.

(5) IFC Section 307.4.1 shall be replaced with the following language and a bonfire is permitted if:

(a) In addition to authorization from the Chief, a license must be obtained in accordance with Sec. 34.105(14)(a), MGO. As a condition of the license, the applicant shall agree to indemnify, defend and hold the City and its officers, officials, employees and agents harmless against all claims, liability, loss, damage or expense incurred by the City on account of any injury to or death of any person or any damage to property caused by or resulting from the activities for which the license was granted;

(b) The applicant shall furnish a Certificate of Insurance providing evidence of Commercial General Liability coverage with minimum limits of one million dollars ($1,000,000) per occurrence or a higher limit if determined by the City Risk Manager to be necessary on a case-by-case basis. Such Commercial General Liability coverage shall include coverage for contractual liability and list the City of Madison, its officers, officials, employees and agents as additional insureds. The Certificate of Insurance shall provide thirty (30) days' written notice to the City upon cancellation, nonrenewal or material change in the policy. The applicant shall provide the Certificate of Insurance described above at the time of submitting the bonfire license application required in sub. (a);

(c) The applicant shall contact the Chief one (1) month prior to the scheduled bonfire and provide the chief with the date, time, location and duration of the bonfire. If the Chief determines for safety reason fire personnel must be present during the entire bonfire, then two (2) weeks prior to the bonfire the Chief shall provide the applicant with an expense accounting of the event. If needed for safety reasons, the Chief shall arrange for a fire crew of four (4) firefighters and one firefighter vehicle to be at the bonfire during the entire event. The applicant shall post this monetary expense with the City Treasurer one (1) week prior to the bonfire. Failure to timely post this monetary amount will result in the revocation of said bonfire license;

(d) The bonfire does not exceed eight (8) feet in diameter;

(e) The height of the wood to start the bonfire does not exceed six (6) feet;

(f) Only dry wood is permitted to be burned in bonfires. If trees are burned they may only have minimal branches, needles and leaves attached to them. No trash, yard waste, brush, flammable or combustible liquids or other materials shall be burned;

(g) The bonfire must be placed on a non-combustible surface, such as dirt, rocks or concrete;

(h) The smoke from the bonfire shall not create a nuisance;

(i) The bonfire shall not be within fifty (50) feet of a building or lot line;

(j) The bonfire shall not be within fifty (50) feet of other combustibles, such as trees, wooded areas, natural lawns, brush. Except if the lawn is mowed and is less than six (6) inches high.

(k) Other than when igniting or extinguishing the bonfire, individuals are not permitted to be within eight (8) feet of the bonfire;

(l) The bonfire must be supervised at all times by a responsible adult. The bonfire must be completely extinguished, including all embers, before it is left unsupervised; and

(m) The bonfire shall not be ignited or maintained when air quality is other than good or moderate as defined by the Wisconsin Department of Natural Resources (DNR).

(Sec. 34.307(5) Cr. by ORD-13-00103, 6-12-13)

34.308 OPEN FLAMES.

The following is in addition to the requirements in IFC chapter 308:

(1) IFC section 308.1.4 shall be amended to remove Exception three (3). (Am. by ORD-13-00104, 6-12-13)

(2) Fire Performance Art.

(a) General. Fire Performance Art is defined as any act in a public or private place, including street fairs, and outdoor public gatherings which utilizes fire as part of a theatrical or artistic performance or other form of live entertainment. This includes fire juggling, fire eating, fire dancing and other attended manually controlled fire effects. These acts do not include pyrotechnics or other open flame devices or effects as regulated by other code sections or permits.

(b) Fire performance artist and spotters shall;

1. Be at least eighteen (18) years of age or otherwise be under the direct supervision of a permit holder under this section.
2. Have valid state issued photo identification and fire performance permit readily accessible at each performance.

(c) Permits. As specified in Sec. 34.105 a permit shall be secured from the fire code official prior to the date of the fire performance art taking place.

1. Anyone applying for a permit under this section must be at least eighteen (18) years of age.
2. Fire performance artists shall obtain a Fire Performance Art Permit that will be valid only for the duration of the performance or event. Additional locations will be required to have separate permits.
3. A written letter signed by the property owner or their representative authorizing the fire art performance. The letter clearly indicating the site address, business name (if any) printed name/title of person signing the letter and current contact information of the building owner or representative.
4. Included with the permit application shall be;
   a. A $50 (fifty dollar) application fee, per event or contracted performance location not to exceed sixty (60) days.
   b. A copy of the performers and spotter's names and photo ID.
   c. A site plan of the venue including dimensions of the performance area, seating, equipment layout, rooms, aisles and exits.
   d. Adequate ventilation for the number of ignited fire effects and duration of the production so to prevent the creation of a nuisance or a hazard.
   e. Every public display permittee shall have and maintain Commercial General Liability insurance with a minimum limit of one million dollars ($1,000,000) per occurrence; additional limits may be requested upon review by the City Risk Manager. Said insurance shall include coverage for bodily injury, property damage, and contractual liability, and name the City, its officers, officials, employees and agents as additional insured's. It shall also provide that the City receive written notice thirty (30) days prior to any

cancellation, nonrenewal or material change in the policy. Proof of said insurance shall be submitted to the Chief at the time of the permit application. In addition, the applicant shall agree to indemnify, defend, and hold harmless the City and its officers, officials, employees and agents against all claims, liability, loss, damage, or expense incurred by the City on account of any injury to or death of any person or any damage to property caused by or resulting from the activities for which the permit is granted.

f. Permits must be received thirty (30) days prior to the initial request performance to accommodate plan review and a site visit, prior to issuing a permit.

g. The Chief may prohibit or terminate the use or display of fire performance art when in the opinion of the Chief atmospheric conditions or local circumstance make such use or display a fire hazard or other hazard to public safety.

(d) Space Considerations. All performances shall maintain a minimum ten-(10) foot distance between the fire-involved item and the any member of an audience, any combustible decoration, and any combustible item within the immediate performance area.

1. All indoor fire performance art shall be conducted only in buildings with an approved fire sprinkler system.
2. Indoor performances require a minimum ten-(10) foot ceiling height.

(e) Extinguishing Agents. At minimum of one (1) 2A-10BC multipurpose fire extinguisher shall be required for every five (5) performers at each performance. Additional fire extinguishers may be required by the code official based upon the unique circumstances of the performance and occupancy.

1. One wet towel for each active fire performer shall be provided to extinguish fire implements. The towel shall be white in color to differentiate its use from other colors that may be used to clean up flammable or combustible liquid spills. Towels used for cleaning up flammable or combustible liquid spills shall be stored in a metal container with a tight fitting lid.
2. One listed fire blanket shall be provided for every five (5) performers.
3. Personal Safety. A five-(5) gallon open-topped bucket of water will be provided for each fire performance area.
4. Spotter. One trained spotter shall be provided for each performance. The spotter shall be positioned between the active fire performer and the audience. Spotters should be trained in the proper use of fire extinguishers. The spotter may be a performer who is not engaged in the current performance. The fire code official may require additional spotters based on the unique circumstances of the performance and occupancy.

(f) Fuels.

1. Approved common fuels used for fire performance art include:
   a. Denatured Alcohol;
   b. Lamp Oil (odorless and smokeless);
   c. Kerosene (For outdoor performances only) Stove Fuel;
   d. "Shell Sol T" brand fuel;
   e. "Allume Fue" brand fuel;
2. "Fire Water" brand fuel Gasoline is prohibited under any circumstances.

(g) Fuel Quantities and Storage. All fuels shall be stored in their original container(s) with the caps in place when not in use. The maximum quantity of fuel on the site shall be one (1) U.S. gallon per performer.

(h) Wicks. Wick material shall consist of cotton wrapped in Kevlar to prevent the breakdown of the cotton as it burns. Synthetic wick material shall be avoided.

(i) Clothing. It is recommended that the clothing worn by the performers be made of fire resistive materials such as natural fibers or Nomex™/PBI.

(j) Smoking. Smoking is prohibited by within fifty (50) feet of the performance area and fuel storage. No smoking signs shall be posted accordingly.

(Sec. 34.308 Am. by ORD-14-00032, 2-18-14)

34.313 FUELED EQUIPMENT.

The following requirements are in addition to the requirements found in IFC section 313:

(1) Small engine power equipment fueled by a flammable or combustible liquid shall be kept outside of a public building or in a garage.

(2) It shall be unlawful to keep or store small engine power equipment fueled by flammable or combustible liquid inside of a public building, unless:

(a) The fuel tank is drained;

(b) The fuel tank is vented to the outside for fifteen (15) minutes prior to placing the equipment in the building;

(c) The spark plug(s) is disconnected or removed;

(d) No more than four (4) pieces of fueled equipment are stored within the building;

(e) The equipment is not within a mechanical or electrical room; and

(f) The equipment is for on-site maintenance only.

(3) All flammable or combustible fuel shall be stored in accordance with NFPA 30.

34.315 MISCELLANEOUS COMBUSTIBLE MATERIALS STORAGE.

(1) The following requirement is in addition to the requirements found in IFC section 315: Outdoor storage of twenty (25) or more Combustible Idle Pallets: Pallet stacks shall not exceed fifteen (15) feet (4.6 m) in height nor shall cover an area greater than five hundred (500) square feet (46.5m^2). Pallet stacks shall be arranged to form stable piles. Piles shall be separated by a minimum of eight (8) feet. Piles shall be a minimum of ten (10) feet from buildings and property lines. (Am. by ORD-11-00004, 1-12-11)

(2) The following exception is added to IFC section 315.2.3: Combustible material may be stored in boiler rooms, mechanical rooms or electrical equipment rooms where in the judgment of the Chief it does not create a fire hazard. Access must be provided to the equipment and the clearances specified by the equipment manufacturer must be maintained.

34.501 FIRE SERVICE FEATURES.

(1) Multiple Address Buildings. The following requirements are in addition to the requirements found in IFC section 501:

When buildings or a complex of buildings are protected with a single or common fire protection system, a fire department connection and fire alarm annunciator shall be provided for each address in a location approved by the Chief. The fire alarm system shall transmit signals for each address to the central alarm station. In addition to the fire protection components, a key box or vault shall be installed for each address in a location approved by the Chief. The Chief may waive any requirements of this section when deemed appropriate.

(2) Fire Wall Identification. The following requirements are in addition to the requirements found in IFC section 501:

(a) For the purposes of this section, fire division wall or occupancy separation wall means a wall extending from the lowest floor level to or through the roof and extending the full width or length of the building.

(b) All owners shall identify, in accordance with the requirement of this section, the location of a fire division wall or occupancy separation wall at the exterior walls of buildings with a sign. A sign may not be required to identify a fire division wall or occupancy separation wall for the following:

1. Abutting exterior walls of two (2) or more buildings along streets in downtown areas;
2. With a visible parapet from the street;
3. Which extends above roofs and is an exterior wall of another part of a building; and
4. In buildings more than three (3) stories high.

(c) Sign Requirements.

1. General. The sign shall consist of three (3) circles arranged vertically on the exterior wall marking the location of the fire division wall or occupancy separation wall and centered on the fire division wall or occupancy separation wall. The circles may be affixed directly to the surface of the building or may be placed on a background material that is affixed to the building.
2. Size of Circle. Each circle shall be the same size. The diameter of the circle shall be at least one and one half (1½) inches, but no greater than two (2) inches.
3. Spacing. The circles shall be spaced equal distance apart. The maximum distance measured from the top of the uppermost circle to the bottom of the lowermost circle shall be twelve (12) inches.
4. Color. The color of the circle shall be either red, amber (orange-yellow) or white (clear) and shall be reflective. The color of the circle shall contrast with the color of the background.
5. Location. The top of the sign shall be located on the face of the exterior wall of the building and located no more than twelve (12) inches below the eave, roof edge, fascia or parapet.

34.503 FIRE APPARATUS ACCESS ROADS.

(1) Fire Access Roads on Public or Private Property Devoted to Public Use.

The following requirements are in addition to the requirements found in IFC section 503:

(a) The marking of fire access roads on public property or private property devoted to public use shall be approved by the Chief.

(b) Obstructing fire access roads shall be prohibited at all times, including the accumulation of snow.

(c) Fire access roads shall be established on public property or private property devoted to public use where the parking of motor vehicles or other obstructions may interfere with the ingress and egress of Fire Department vehicles, personnel and equipment for the protection of persons and property.

(d) At least two (2) exterior walls of each building shall be available for Fire Department access. The Chief may consider alternative designs that ensure adequate access for fire apparatus, equipment and personnel.

(2) Surface of Fire Apparatus Access Roads.

The following requirements are in addition to the requirements found in IFC sections 503.2.3 and 503.2.5:

(a) Fire access roads shall be designed to support the imposed loads of fire apparatus and shall be constructed of asphalt or concrete.

(b) Section 503.2.5 is hereby amended to add an exception. Exception: The fire chief is authorized to increase the dimension of one hundred fifty (150) feet to three hundred (300) feet where the dead end fire lane is geometrically straight between the point of two (2) access ways and the terminal end of the fire lane.

(Am. by ORD-14-00004, 1-14-14)

(3) Grade of Fire Apparatus Access Roads.

The following requirements are in addition to the requirements in IFC section 503.2.7: The grade shall not exceed a slope of eight percent (8%).

(4) Aerial Fire Apparatus Access Roads.

The following requirements are in addition to the requirements found in IFC:

(a) IFC Appendix D105.

(b) Section D105.2 is hereby amended to include an additional sentence. The last fifty (50) feet of dead-end aerial fire apparatus access may be twenty (20) feet wide or greater. (Cr. by ORD-13-00102, 6-12-13)

(c) Section D105.3 is hereby amended to include an exception. Exception: The Fire Chief is authorized to approve alternate access roads where the route(s) are parallel to at least twenty-five percent (25%) of the building perimeter. Each segment of access road used to meet the twenty-five percent (25%) of the building perimeter must be at least forty-five (45) feet in length, without overhead obstructions.

(Sec. 34.503(4) Cr. by ORD-11-00004, 1-12-11; Am. by ORD-14-00004, 1-14-14)

34.505 PREMISES IDENTIFICATION.

In IFC section 505.1, the words "or alphabetical letters" are not included as part of this chapter. (Am. by ORD-13-00102, 6-12-13)

34.507 FIRE PROTECTION WATER SUPPLY.

The following requirements are in addition to the requirements found in IFC section 507:

(1) Fire Protection Water Supply and Fire Hydrants.

(a) Private fire hydrants and water mains shall be installed in accordance with NFPA 24, and Sec. 702.4 of the latest edition of the City of Madison Public Works Department "Standard Specifications for Public Works Construction." Private fire hydrants and water mains shall be maintained in accordance with NFPA 25.

(b) Plans shall be submitted to the Chief for review to determine compliance with the applicable standards prior to the installation of private fire service mains and fire hydrants. The Chief shall act upon such applications within fifteen (15) days of receipt. Denials of such applications may be appealed to the Board. Exception: Plans for private fire service mains that do not supply a fire hydrant do not have to be submitted under this subdivision, if said plans for private fire service mains have been submitted, approved, and inspected by the City of Madison Building Inspection Division. (Am. by ORD-11-00152, 11-8-11)

(c) Global Positioning System (GPS) coordinates of private fire hydrants shall be established and submitted to the Chief prior to final inspection. (Cr. by ORD-11-00153, 11-8-11)

(d) All portions of the required fire apparatus access roads for newly constructed public buildings and places of employment and open storage of combustible materials shall be within five hundred (500) feet of at least two (2) fire hydrants. Hydrant spacing shall not exceed five hundred (500) feet between any two (2) hydrants. All portions of the exterior walls of newly constructed one- and two-family dwellings shall be within five hundred (500) feet of at least one (1) fire hydrant. On new streets hydrants shall also be located at the intersections and the end of dead end streets. Distances shall be measured along the path of the hose lay. Hydrants shall not be located where the hydrant is not accessible to fire apparatus.

Private fire hydrants shall not be located in the public right of way. Hydrant requirements in accordance with this standard may be met with existing public or private hydrants. The Chief may approve alternative locations and spacing of fire hydrants provided hydrants meet the fire suppression tactical needs of the Fire Department. (Am. by ORD-11-00004, 1-12-11)

(e) Fire hydrants shall not be located within forty (40) feet of any building. Fire hydrants shall be no more than ten (10) feet and no less than five (5) feet from the curb or edge of the fire access road. Parking lot islands shall be a minimum of three and half (3 ½) feet from the center of the hydrants to the curb.

(f) Minimum Flow and System Design.

1. Private fire service mains serving fire hydrants shall be the same size as the public mains supplying the private water system unless hydraulically calculated to provide the minimum required flow and pressure in accordance with nationally recognized standards. In all cases, mains serving fire hydrants do not need to exceed ten (10) inches but shall be at least six (6) inches in diameter. Alternative designs, based on nationally recognized standards for calculating fire flow demands, may be approved by the Chief. If the minimum flow and pressure requirements cannot be supplied by a private water supply system, the owner may be required to install a water reservoir and pressure boosting system or a public water supply system and/or multiple points of connection to the public water main(s).
2. Control valves shall be provided to limit the number of private hydrants affected by maintenance, repair or construction. Valves shall be located at street intersections and at no more than eight hundred (800) feet intervals. Valves shall be provided in each hydrant lead.
3. All hydrants shall be positioned so the largest outlet faces the fire access road.
4. The center of the lowest outlet cap of fire hydrants shall be at least eighteen (18) inches above grade and not more than twenty-four (24) inches above grade.

(g) Whenever the location of a fire hydrant may be obscured by its placement, or due to the placement of a building, structure, fencing, grade of land, vegetation, snow accumulation or other obstruction of vision, the Chief may require such fire hydrants to be identified and marked with above grade markers. Above grade markers are any devices, approved for use by the Chief, designed to promote and enhance the ready identification of fire hydrant locations.

(h) No obstructions, including but not limited to power poles, trees, bushes, fences or posts may be located within five feet of a fire hydrant. Grade changes exceeding one and one-half (1½) feet are not permitted within five (5) feet of a fire hydrant or hydrant lead.

(i) Property owners shall remove snow, vegetation or other material that has covered or obscured the view of the hydrant(s) located on their property, including the terrace area.

(j) Fire hydrants shall be installed and in-service prior to combustible construction.

(k) Private fire hydrants and water systems placed out of service or made inoperable for maintenance, repair or construction shall be covered with a durable and weather resistant bag which indicates the hydrant is not useable. The Fire Prevention Division shall be immediately notified when hydrants and/or systems are out of service. Fire hydrants and/or water systems shall be repaired and returned to service within forty-eight (48) hours except as otherwise approved by the Chief.

(l) Annual inspection, testing and maintenance shall be submitted as required in Sec. 34.03, MGO.

(Secs. 34.507(1)(c) - (k) Renum. (d) - (l) by ORD-11-00153, 11-8-11)

(2) Mobile Home Parks.

Any mobile home park created or modified after August 1, 2002, shall have an approved fire protection water supply system. The system shall include water mains, fire hydrants and appurtenances in accordance with this code. Approved fire hydrants shall be installed so that every lot or structure in the mobile home park is within five hundred (500) feet of a hydrant. Materials and equipment used must meet the standards, rules and regulations of the Madison Water Utility.

34.508 FIRE COMMAND CENTER.

The following requirements are in addition to the requirements found in IFC section 508.1.5, item 5:

The status indicators and controls for air-handling systems required in subsection 5., shall be provided on the fire-fighters control panel, with the appearance and performance required in IFC section 909.16.

(Am. by ORD-11-00004, 1-12-11; ORD-13-00102, 6-12-13)

34.603 FUEL-FIRED APPLIANCES.

The following language is substituted for IFC section 603.4:

Portable unvented fuel-fired heating equipment is prohibited, except during construction or demolition of a building as allowed under IFC section 1403.

34.604 EMERGENCY AND STANDBY POWER SYSTEMS.

(1) The following language is in addition to IFC section 604.1.1:

Where an emergency or standby power supply system is required by this code, that power shall be supplied by an on-premise generator with an onsite fuel supply source, except when determined by the Chief not to be necessary for safety purposes.

(2) In IFC section 604.2.14.1.1, the exception for the use of pipeline natural gas as the fuel supply for the generator is not included as part of this code.

34.605 ELECTRICAL EQUIPMENT.

The following requirements are in addition to the requirements found in IFC section 605:

(1) Extension Cords and Relocatable Power Taps.

(a) Definitions.

"Extension cord" means a cord set consisting of a length of flexible cord with an attachment plug at one end and a cord connector, which permits the connection of one or more attachment plugs, at the other end.

"Relocatable power tap" means a system consisting of an attachment plug cap and a length of flexible cord terminated in an enclosure in which one or more receptacles are mounted. A relocatable power tap may be provided with supplementary overcurrent protection, switches, indicator lights, transient voltage surge suppressors, or electromagnetic interference filters.

(b) Listing. Extension cords and relocatable power taps shall be listed by an approved nationally recognized testing agency.

(c) General Requirements.

1. Extension cords shall only be used for temporary wiring and shall not be substituted for permanent wiring.
2. Extension cords shall be of a 3-wire grounding type when used in conjunction with devices equipped with 3-prong grounding type attachment plugs.

(d) Ampacity. The current carrying capacity of the extension cord or relocatable power tap may not be exceeded.

(e) Use of Extension Cords and Relocatable Power Taps.

1. Except as provided in subdivision (1)(c), extension cords and relocatable power taps may not be multiplied or plugged into one another.
2. Extension cords may be used for temporary wiring at construction sites provided the cords comply with Article 305 of the National Electrical Code as adopted in Wis. Admin. Code ch. SPS 316. (Am. by ORD-12-00035, 3-28-12)
3. Extension cords shall be permitted only with portable appliances, hand tools or fixtures.
4. Relocatable power taps are permitted only with portable electronic equipment such as audio-visual equipment, computers and peripheral equipment.
5. Except for listed adapter cord sets intended for construction site use, each extension cord shall serve only one portable appliance, hand tool or fixture.

(f) Physical Protection.

1. Extension cords and relocatable power taps shall be protected from physical impact and environmental damage.
2. Extension cords and relocatable power taps may not be attached to structures or placed under doors or floor coverings.

34.703 FIRE-RESISTANCE-RATED CONSTRUCTION.

In addition to the requirements found in IFC chapter 703, all records for inspecting, testing and maintenance must be filed according to the requirements found in Sec. 34.03, MGO.

34.806 DECORATIVE VEGETATION IN NEW AND EXISTING BUILDINGS.

The requirements of IFC section 806.1.1 do not apply to natural cut seasonal holiday trees.

34.903 AUTOMATIC SPRINKLER SYSTEMS.

(1) The following requirements are in addition to the requirements found in IFC section 903.3.5:

Automatic sprinkler systems shall provide a minimum safety factor of ten percent (10%) or 5 psi, whichever is greater, in the fire protection system hydraulic calculations below the water supply curve.

(2) The following language is substituted for IFC section 903.4.2:

Approved audible and visual notification devices shall be connected to every automatic sprinkler system. Such notification devices shall be activated by water flow equivalent to the flow of a single sprinkler of the smallest orifice size installed in the system. Alarm devices shall be provided on the exterior of the building located above the fire department connection. Where a fire alarm system is installed, actuation of the automatic sprinkler system shall actuate the building fire alarm system.

(3) Records for the inspecting, testing and maintenance of automatic sprinkler systems shall be kept in accordance with Sec. 34.03, MGO.

34.904 COMMERCIAL COOKING SYSTEMS.

(1) The following requirements are in addition to the requirements found in IFC section 904.11.6:

Duct and hood systems, including the fire extinguishing system, shall be maintained in accordance with NFPA 96, as referenced in Wis. Admin. Code chs. SPS 361 to 365.

(2) The following language is substituted for IFC section 904.11.6.2:

Automatic fire-extinguishing systems shall be serviced at least every six (6) months and after every activation of the system. Inspection shall be by qualified individuals and a certificate of inspection shall be maintained and made available to the Chief upon request.

34.906 FIRE EXTINGUISHERS.

The following requirements are in addition to the requirements in IFC chapter 906:

(1) Substandard Extinguishers Prohibited.

The Chief shall order the removal, repair or testing of any fire extinguisher that has been found to be a danger. It shall be unlawful to allow any fire extinguisher to remain on the premises for which the Chief has ordered the removal thereof.

(2) Recharging of Extinguishers.

All fire extinguishers shall be recharged at periodic intervals so as to be maintained in continuous effective operating condition in accordance with the applicable standard specified in this code. Records kept regarding the inspection, testing and maintenance of fire extinguishers shall be kept in accordance with Sec. 34.03, MGO.

(3) Licensed Contractors Required.

Only qualified persons who have obtained a license in accordance with Sec. 34.105, MGO for such work shall do the recharging and servicing of fire extinguishers. The Chief shall issue such license after examination of the applicant, to make sure the applicant understands the requirements for recharging.

34.907 FIRE ALARM AND DETECTION SYSTEMS.

(1) Smoke Alarms. Buildings built before 2009 shall comply with this section, all buildings built after 2009 shall comply with IFC section 907.

(a) Definitions. For the purposes of this section, the following terms are defined as follows:

"Residential building" means any building located in the City of Madison used in whole or in part for sleeping or lodging purposes including, but not limited to, any single family home, duplex, multifamily house, apartment house, rooming house, hotel, motel, children's home, dormitory, community-based residential facility and any other building used for sleeping or lodging purposes, but does not include a hospital or nursing home.

"Sleeping area" means the area of the unit in which the bedrooms or sleeping rooms are located. Bedrooms or sleeping rooms separated by another use area such as a kitchen or living room are separate sleeping areas but bedrooms or sleeping rooms separated by a bathroom are not separate sleeping areas. Sleeping area includes the area within an efficiency unit for sleeping purposes.

"Smoke alarm" means a single or multiple station alarm system responsive to smoke and not connected to a fire alarm system. Smoke alarms contain an audible warning device. Smoke alarms may use either photoelectric or ionization sensing technology.

"Smoke detector" means a device, suitable for connection to a circuit, which has a sensor that responds to visible or invisible particles of combustion. Smoke detectors are connected to a fire alarm control panel.

"Tenant" means an individual with a residential rental agreement whether written or verbal with the owner of the property.

(b) Required Installation.

1. On August 15, 2009 all residential buildings, except owner-occupied single family homes, shall have smoke alarms in place which meet one of the following requirements:
   a. A smoke alarm with two (2) independent power sources consisting of a primary source that uses commercial light and power and a secondary source that consists of a non-rechargeable or rechargeable battery.
   b. A smoke alarm which is powered by a non-replaceable, non-removable battery that is capable of powering the smoke alarm for a minimum of ten years.
2. On August 15, 2009 all owners of residential buildings, except owner-occupied single family homes, shall install and maintain a smoke alarm in each bedroom, in every sleeping area and within six (6) feet of each door leading to a bedroom or sleeping area of each unit and on each floor of the building. This subdivision does not apply to owners of hotels and motels.
3. If the residential building has smoke alarms powered by the building's commercial light and power, the smoke alarms may remain in service until such time the device must be replaced in accordance with the manufacturer's instructions or sub. (3)(h). Replacement smoke alarms must meet the requirements of sub. (2)(a)1.
4. Owner-Occupied Single Family Homes. It shall be the responsibility of the owner of an owner-occupied single family home to install smoke alarms as required by sub. (2)(a) and sub. (2)(b) of this ordinance by August 15, 2010.
5. Smoke Alarm Installation. Smoke alarms should be installed in accordance with this section and other applicable state building codes. Single and multiple station smoke alarms shall be installed in compliance with the requirements of NFPA 72.
6. Approval. Any smoke alarm required by this section shall be listed by a Department approved listing source.

(c) Maintenance of Smoke Alarms.

1. Replacement of Batteries.
   a. The owner of any residential building shall replace the battery for a secondary power supply in all smoke alarms each time the lease is renewed or as recommended by the manufacturer, whichever time period is shorter.
   b. The owner of any residential building shall replace the batteries in any smoke alarm whenever the battery is insufficient or unable to power the smoke alarm.
2. The owner of any residential building shall provide all tenants with the manufacturer's maintenance and testing instructions.
3. Smoke alarms in the common areas of residential buildings shall be maintained and tested by the owner of the building.
4. The tenant shall be responsible for maintaining and testing, in accordance with the manufacturer's instructions, smoke alarms that are within the dwelling unit during the term of the tenancy. The tenant shall be responsible for notifying the owner in writing if a smoke alarm becomes inoperable. The owner shall have five days from receipt of such written notice to repair and replace the inoperable alarm(s). Any smoke alarms which are powered with standard batteries which are found to be inoperable shall be replaced by the owner with smoke alarms meeting the requirements of sub. (2)(a).

5. Tenant or occupants shall not tamper with, remove alter, damage or otherwise render any smoke alarm inoperable.

6. Where smoke alarms powered solely by commercial light and power have been installed and maintained in accordance with this chapter, such smoke alarms shall continue to be used and maintained in accordance with the manufacturer's instructions. Non-operational, damaged, or missing smoke alarms shall be replaced with smoke alarms meeting the requirements of sub. (2)(a)1.

7. The owner and tenant must sign a document relating to smoke alarm installation, operation and maintenance as prescribed in Sec. 32.06(4), MGO.

8. No smoke alarm may remain in service for more than ten years unless the manufacturer specifies a different service life.

(d) Fire Safety Education Required. Upon each new lease and at least once every twelve (12) months for every continuing tenant, the owner shall provide tenants with fire safety educational materials as prescribed by the Chief. The Chief shall prepare the text and make the text available for distribution by the owner.

(e) This ordinance does not apply to any buildings that have smoke detectors installed as required by other codes, ordinances, or standards and located in locations specified in sub. (2)(b).

(f) This ordinance shall be known as the Peter Talen Smoke Alarm Ordinance.

(2) Fire Safety Education Required. Upon each new lease and at least once every twelve (12) months for every continuing tenant, the owner shall provide tenants with fire safety educational materials as prescribed by the Chief. The Chief shall prepare the text and make the text available for distribution by the owner.

This is a Charter Ordinance and shall be effective upon sixty (60) days from passage and publication subject, however, to the referendum procedures of Wis. Stat. § 66.0101(5).

(Cr. by CHA-14-00002, 3-26-14, Eff. 5-25-14)

(3) Alarm Notification Appliances. In IFC section 907.5.2.1.1 the sentence is in addition to: The minimum sound pressure levels shall be: 75dBA in occupancies in Groups R and in I-1; 90 dBA in mechanical equipment rooms and 70dBA in other occupancies. (Renum. by CHA-14-00002, 3-26-14, Eff. 5-25-14)
(Am. by ORD-13-00102, 6-12-13)

(Sec. 34.907 Am. by ORD-11-00004, 1-12-11)

34.914 RESERVED FOR FUTURE USE. (Rep. by ORD-13-00102, 6-12-13)

34.1001 ADMINISTRATION.

(1) In IFC section 1001 the phrases "Section 1003 through 1029 shall apply to new construction. Section 1030 shall apply to existing buildings." are not included as part of this code.

(2) The following language is in addition to IFC section 1001:

1001.3 Existing Buildings. Sections 1003 through 1030 shall apply to existing buildings.

Exceptions: Means of egress conforming to the requirements of the building code under which they were constructed shall be considered as complying means of egress if, in the opinion of the Chief, they do not constitute a hazard to life.

34.1004 OCCUPANT LOAD.

The Department is not required to follow IFC section 1004.2 regarding increased occupant load.

34.1022 EXIT ENCLOSURES.

The lettering size of the signage requirements found in IFC section 1022.8.1 is substituted as follows:

(1) The signs shall be a minimum of 17 inches (431 mm) by 11 inches (279 mm).

(2) The letters designating the identification of the stair enclosure shall be a minimum of 1 inch (25 mm) in height.

(3) The number designating the floor level shall be a minimum of 3½ inches (88 mm) in height and located in the center of the sign.

(4) All other lettering and numbers shall be a minimum of ¾ inch (19 mm) in height.

34.1028 ASSEMBLY.

The following exception is added to the exceptions found in IFC section 1028.12:

Seats not fastened to the floor are permitted for companions of a person with a disability.

34.1100 CONSTRUCTION REQUIREMENTS FOR EXISTING BUILDINGS.

Chapter 11 of the IFC are not included as part of this code.

(Am. by ORD-13-00102, 6-12-13)

34.5003 HAZARD IDENTIFICATION SIGNS.

The following requirements are in addition to the requirements found in IFC section 5003.5:

(1) Hazardous Material Identification.

(a) Identification Signs Required. Buildings, storage trailers, stationary tanks, areas and rooms of buildings that contain hazardous materials shall be identified with signs in accordance with this section. Signs shall be maintained at all times and shall be located as directed by the Chief. Signs shall be durable, weather resistant and unobstructed.

(b) Exemptions. The following are not required to be identified with a sign:

1. Buildings used primarily for a retail trade activity that do not store or sell hazardous materials in quantities to present hazard to first responders.
2. Doors that directly access a laboratory shall be identified with a notice at least eight and a half (8½) inches by eleven (11) inches in size. The notice shall contain at least the laboratory emergency information as specified in Table A.

(c) Building Identification. A sign at least two and a half (2½) inches square with no numbers shall be conspicuously placed on or near all of the exterior building exit doors to identify the building to the Fire Department as a labeled building. A sign at least seven and a half (7½) inches square with the required identification numbers indicating the highest number of the most hazardous material for each hazard shall be conspicuously placed on or near the exterior door closest to the hazardous material.

(d) Room Identification. Doors that directly access a room or area that contains a hazardous material shall be identified with a numbered sign at least seven and a half (7½) inches square. In any room or area that has more than one hazardous material, the sign shall list the highest number of the most hazardous material for each hazard. The sign shall be placed on the door or as designated by the Chief.

(e) Above Ground Tank Identification. A sign at least seven and a half (7½) inches square with the required identification numbers shall be placed on each individual tank in such a manner so that the sign is clearly visible on two (2) sides.

(Am. by ORD-13-00102, 6-12-13)

Additional Information:

34.5601 RECREATIONAL FIREWORKS. (Am. by ORD-14-00139, 8-13-14)

The following requirements are in addition to the requirements found in IFC Chapter 56:

(1) Recreational Fireworks means the following:

(a) A cap containing not more than one-quarter (¼) grain of explosive mixture, if the cap is used or possessed or sold for use in a device which prevents direct body contact with a cap when it is in place for explosion.

(b) A toy snake that contains no mercury.

(c) A sparkler on a wire or wood stick not exceeding thirty-six (36) inches in length or one quarter (¼) inch in outside diameter which does not contain magnesium, chlorate or perchlorate.

(d) A device designed to spray out paper confetti or streamers and which contains less than one-quarter (¼) grain of explosive mixture.

(e) A device designed to produce an audible sound but not explode, spark, move or emit an external flame after ignition and which does not exceed three (3) grams in total weight.

(2) The following exceptions are additional exceptions to the requirements in IFC section 5601.1.3:

The retail sales, storage, handling and use of recreational fireworks as specified in this section are permitted.

(3) The following requirements are in addition to the requirements in IFC section 5601.2:

(a) As specified in Sec. 34.105, MGO, a permit is required for the retail sales of recreational fireworks.

(b) An application for a permit for the sales of recreational fireworks shall be made in writing at least thirty (30) days in advance of the sale or offer to sell, and shall specify:

1. The name and address of the permit holder;
2. The date on and after which sales or offers to sell shall be made;
3. The kind, quantity, and location of each device to be offered for sale.

(4) Storage and Handling. The following requirements are in addition to the requirements in IFC section 5704.1:

(a) A person who stores or handles fifty pounds (50 lbs) or more of recreational fireworks shall immediately notify the Chief of the location, description and quantity of the recreational fireworks.

(b) No person may store recreational fireworks within one hundred (100) feet of a dwelling.

(c) No person may store recreational fireworks within one hundred (100) feet of a public assemblage or place where gasoline or volatile liquid is sold in quantities exceeding one gallon.

(5) The Chief may seize, at the expense of the owner of recreational fireworks that is stored, handled, sold, possessed or used by any person in violation of this code. Such seized products shall be destroyed after conviction for a violation and other returned to the owner.

(Am. by ORD-13-00102, 6-12-13)

34.5608 NON-RECREATIONAL FIREWORKS.

(1) Applicability. The requirements in this Section are in addition to those incorporated herein by IFC section 5608. If these requirements differ with those set forth in IFC section 5608, these requirements are applicable.

(2) Definitions. In this Section the following definitions shall apply:

(a) Fireworks means any composition or device for the purpose of producing a visible or an audible effect for entertainment purposes by combustion, deflagration or

detonation that meets the definition of Fireworks as set forth in IFC section 202. This term does not include recreational fireworks, which are subject to Sec. 34.5601.

(b) Fireworks Event means any occasion or occurrence, or series of occasions or occurrences, that includes the public display of fireworks.

(c) Public Display means the use of fireworks or pyrotechnics in a setting where the discharge is for public or private entertainment purposes.

(d) Pyrotechnic Special-Effect Material means a chemical mixture used in the entertainment industry to produce visible or audible effects by combustion, deflagration or detonation. Such a chemical mixture predominantly consists of solids capable of producing a controlled, self-sustaining and self-contained exothermic chemical reaction that results in heat, gas, sound, light or a combination of these effects.

(3) Prohibitions.

(a) Fireworks Displays Prohibited. The public display of fireworks without a fireworks event permit issued under Sec. 34.105(16)(b) and sub. (5) below is prohibited.

(b) Possession or Use of Fireworks Prohibited. No person may possess or use fireworks without a fireworks shooters permit issued under Sec. 34.105(16)(c) and sub. (6) below.

(4) Exclusions. No permit otherwise required under this Section is needed under any of the following conditions:

(a) The possession of fireworks in the City is solely in the course of transportation activities;

(b) The use or sale of blank cartridges; and,

(c) The use or sale of flares for railway signal and motor vehicle emergency warning purposes.

(5) Fireworks Event Permit.

(a) Requirement. A fireworks event permit may be issued by the Chief to allow a person to stage a fireworks event. A permittee shall follow all conditions imposed on the fireworks event permit holder by the Chief under this Subsection. The failure to comply with any such conditions is a violation of this Subdivision.

(b) Permit Application. An application by a person, group, organization or other entity sponsoring, organizing or planning a fireworks event shall be submitted at least sixty (60) days in advance of the date set for the public display of fireworks and shall contain the following:

1. The name and contact information of the person seeking the permit.
2. The address and exact location of the proposed public display.
3. The date and time of the proposed public display, including any potential "rain dates" in the event the proposed public display is delayed due to weather or other public safety concerns.
4. A general summary of the proposed fireworks event and public display.
5. The written permission of the property owner where the fireworks event will occur, an approved or submitted street use permit application for the fireworks event, or an explanation why no such permission of the land owner is necessary.
6. A proposed site plan for the fireworks event, showing where the public display will take place, the firing area, distances to the audience, buildings, roadways and public pathways, and other special conditions.
7. A security plan for the safekeeping and security of fireworks while they are on-site. The plan must cover the time from when the fireworks arrive in the City until the post-display site survey is completed and all fireworks are

used or properly disposed of. The security plan must include the contact information for any persons or companies that will be responsible for firework security at the event.

8. A preliminary clean-up plan, as set forth below in sub. (c)4.

9. Proof of insurance as required under sub. (10).

(c) Permit Conditions. A fireworks event permit may be issued by the Chief, subject to the following conditions:

1. Shooters Permittee. Within thirty (30) days of the public display, the fireworks event permittee must provide the Chief with the fireworks shooters permit holder who will possess and discharge the fireworks as part of the public display. A fireworks event permit will be void if this information is not timely provided.

2. Time Restrictions. No fireworks shall be discharged after 11:00 p.m., or before 8:00 a.m., unless specifically provided for by the Chief.

3. Public Safety. No fireworks event permit may be granted for any public display where the discharge, failure to fire, faulty firing or fallout of any fireworks or other objects would endanger persons, buildings, structures, forests or brush. To ensure public safety at the event, the permittee shall work with the shooters permittee to ensure that spectators are located behind an approved secured perimeter by means of barriers, security or safety staffing, posting and/or any other means necessary to keep people out.

4. Clean-Up Plans. Every fireworks event shall have an approved clean-up plan. The goal of a clean-up plan is to minimize the environmental impacts associated with a public display of fireworks. The permittee is responsible for complying with the approved clean-up plan as set forth in this paragraph.

   a. Lake Clean-Up Plan. A public display of fireworks that will occur over a lake or river must comply with an approved lake clean-up plan. The City Engineer shall review the submitted lake clean-up plan and make any modifications necessary to ensure adequate clean-up following the fireworks event. The lake clean-up plan, as approved by the City Engineer, shall be incorporated into the conditions of the permit, and may include post-event reporting requirements as determined by the City Engineer.

   b. Park Clean-Up Plan. A public display of fireworks that will occur over a City park must comply with an approved park clean-up plan. The Parks Superintendent shall review the submitted park clean-up plan and make any modifications necessary to ensure adequate clean-up following the fireworks event. The park clean-up plan, as approved by the Parks Superintendent, shall be incorporated into the conditions of the permit, and may include post-event reporting requirements as determined by the Parks Superintendent.

   c. General Clean-Up Plan. For a public display of fireworks that will occur over lands not covered by subparagraphs a. and b., the public display must comply with an approved general clean-up plan. The Chief shall review the submitted general clean-up plan and make any modifications necessary to ensure adequate clean-up following the fireworks event. The general clean-up plan, as approved by the Chief, shall be incorporated into the conditions of the permit, and may include post-event reporting requirements as determined by the Chief.

5. Public Safety. The permittee shall be responsible for immediately cancelling or terminating any public display as part of a permitted fireworks event in the interests of public safety should such a cancellation or termination be necessary to ensure the health, safety and welfare of the public, including permittee, permittee's employees, agents, and contractors, spectators, emergency personnel, or any other persons or property that may be placed in substantial risk if the public display were to commence or continue.

6. Special Conditions. The Chief may impose special conditions on a permit as deemed appropriate under the circumstances of the planned fireworks event.

(d) Revocation. If a permittee fails to comply with the permit conditions or fails to follow this Section, the permit may be revoked. In addition, the Chief may determine that, in the interests of the public welfare and public safety, the permittee may not apply for a new fireworks event permit for at least fifteen (15) months.

(6) Fireworks Shooters Permit.

(a) Requirement. A fireworks shooters permit may be issued by the Chief under the procedures set forth in Sec. 34.105 and this Section to allow a person to possess or use fireworks as part of an approved fireworks event. A permittee shall follow all conditions imposed on the fireworks shooters permit holder by the Chief under this Subsection. The failure to comply with any such conditions is a violation of this Subdivision.

(b) Permit Application. An application for a fireworks shooters permit shall be submitted at least thirty (30) days in advance of the date set for the public display of fireworks and shall contain the following:

1. The name and contact information of the person seeking the permit.
2. A resume of experience detailing the applicant's experience in conducting public displays of fireworks.
3. The name of the fireworks event for which the permit is being sought.
4. The address and exact location of the proposed public display.
5. The date and time of the proposed public display.
6. A general summary of the proposed public display.
7. A proposed site plan for the event, showing where the public display will take place, the firing area, distances to the audience, buildings, roadways and public pathways, and other special conditions.
8. Any additional information needed to demonstrate compliance with NFPA standards.
9. Copies of valid ATF and/or United States DOT licenses allowing the applicant to transport and handle the fireworks that will be used as part of the public display.
10. Proof of insurance as required under sub. (10).

(c) Permit Conditions. A fireworks shooters permit may be issued, subject to the following conditions:

1. Approved Event. A fireworks shooters permit may only be issued for an approved fireworks event. The Chief may consider an application for a fireworks shooters permit at the same time as a fireworks event permit, but a fireworks shooters permit is conditioned upon the existence of a valid fireworks event permit.
2. Authority. The permittee shall inform the Chief of all persons authorized to possess or use fireworks pursuant to the permittee's authority.

3. Standards. A permittee, and all those persons working pursuant to the permittee's authority, must comply with all federal, state and local requirements regarding the safe handling, transportation, storage, use, and disposal of fireworks, explosives, and pyrotechnic special-effect material.
4. Permissible Fireworks.
   a. Authorized Fireworks. A firework shooters permit only authorizes the permittee to possess or use fireworks approved by the United States Department of Transportation as set forth in the American Pyrotechnics Association's Standard 87-1, Standard for Construction and Approval for Transportation of Fireworks, Novelties, and Theatrical Pyrotechnics, as adopted in 68 Fed Reg. 48562 (eff. Oct. 1, 2003) as 49 CFR Part 171.7, as that rule may be updated from time-to-time.
   b. Casings. Plastic shell casings are prohibited, unless authorized by the Chief for safety purposes.
5. Mortar Caps.
   a. Mortars shall be covered to prevent entry of rain and debris and to indicate the shell lifted from the mortar.
   b. Plastic caps shall not be allowed if the event is to discharge near any lake, river, waterway or other area where recovery may be difficult.
6. Time Restrictions. No fireworks shall be discharged after 11:00 p.m., or before 8:00 a.m., unless specifically provided for by the Chief.
7. Manual Display. Manually ignited firework displays are prohibited.
8. Event Safety and Setback Requirements.
   a. No fireworks shooters permit may be granted for any public display where the discharge, failure to fire, faulty firing or fallout of any fireworks or other objects would endanger persons, buildings, structures, forests or brush.
   b. The permittee shall work with the event permittee to establish and maintain separate perimeters for the preparation and unloading of fireworks and the discharge of fireworks.
   c. No fireworks shall be unloaded, prepared, or discharged if any person, other than the permittee, permittee's authorized employees, or emergency personnel, are within an event's secured perimeters.
   d. Only authorized persons shall be allowed inside of the approved perimeters.
   e. Spectators at a fireworks event shall be located behind an approved, secured perimeter by means of barriers, security or safety staffing, posting and/or any other means necessary to keep people out.
   f. No fireworks may be fired from a point less than the NFPA standards for setbacks.
   g. Fireworks events not in conformance with any of the conditions in this paragraph may be approved by the Chief if proper safeguards are provided to protect life and property.
9. Unfired Devices. Any fireworks or other devices that remain unfired after a public display or after a public display is cancelled shall be disposed of or removed in a safe manner or other permissible way pursuant to NFPA standards. Upon the conclusion of any event, the permittee under this subsection shall make a complete and thorough search for any unfired fireworks or other devices which have failed to fire or function and shall dispose of them in a safe manner.

10. Event Conditions. The permittee shall, at least thirty (30) days prior to a fireworks event, provide the Chief with the following information, which information, upon being approved, shall be a condition of the fireworks shooters permit. The permittee is under a continuing obligation to update this information prior to the fireworks event as additional information becomes known to the permittee, or as circumstances change:
    a. The number and kinds of fireworks which will be fired as part of the permitted event.
    b. The net weight of explosives in the public display.
    c. A list of all the chemicals in the fireworks that will be used as part of the public display.
    d. The location where the fireworks will be stored prior to the public display.
    e. A site plan for the event, showing where the public display will take place, the firing area, distances to the audience, buildings, roadways and public pathways, and other special conditions.
11. Public Safety. The permittee shall be responsible for immediately cancelling or terminating any public display as part of a permitted fireworks event in the interests of public safety should such a cancellation or termination be necessary to ensure the health, safety and welfare of the public, including permittee, permittee's employees, agents, and contractors, spectators, emergency personnel, or any other persons or property that may be placed in substantial risk if the public display were to commence or continue.
12. Special Conditions. The Chief may impose special conditions on a permit as deemed appropriate under the circumstances of the planned fireworks event.

(d) Revocation. If a permittee uses or displays fireworks contrary to this Section or the permit conditions, the permit shall be revoked and the permittee may not apply for a new fireworks shooters permit for at least fifteen (15) months.

(7) Issuance and Denial of Licenses and Permits. Following receipt of an application for a fireworks shooters permit or a fireworks event permit, the Chief shall review the application to ensure compliance with this Section. The Chief may modify any time limit requirements in this Section for good cause shown by the applicant or permittee. The Chief may make an investigation of the site of a proposed event to determine compliance with this Section. The Chief may request additional information, and the failure to provide all information requested two (2) weeks prior to the proposed public display, or a determination by the city that the proposed fireworks event would violate the requirements of this Section or subject the public to undue hazards shall be sufficient cause for the Chief to deny the fireworks event permit and/or the fireworks shooters permit.

(8) Authority to Terminate or Delay Display. The Chief may order a permitted fireworks event or the permitted public display of pyrotechnic special-effect material to be delayed or terminated if any requirement of this Section is being violated, when in the opinion of the Chief atmospheric conditions or local circumstance make such use or public display a fire hazard or other hazard to public safety, or if the public display is causing, or is likely to cause, a hazard to life or property. During such prohibition, no person may use or display or permit the starting of any use or display of fireworks or pyrotechnic special-effect material.

(9) Authority to Seize Fireworks. The Chief may seize, at the expense of the owner, all explosives, fireworks or pyrotechnic special-effects material that is stored, handled, sold, possessed or used by any person in violation of this Section. Such seized products shall be destroyed after conviction for a violation, unless ordered returned to the owner.

(10) Insurance Requirement. Every permittee and license holder under this Section and Sec. 34.105(14)(b) shall have and maintain Commercial General Liability insurance with a minimum limit of one million dollars ($1,000,000) per occurrence; additional limits may be requested upon review by the City Risk Manager. Said insurance shall include coverage for bodily injury, property damage, and contractual liability, and name the City, its officers, officials, employees and agents as additional insureds. It shall also provide that the City receive written notice thirty (30) days prior to any cancellation, nonrenewal or material change in the policy. Proof of said insurance shall be submitted to the Chief at the time of the license or permit application. In addition, the applicant shall agree to indemnify, defend, and hold harmless the City and its officers, officials, employees and agents against all claims, liability, loss, damage, or expense incurred by the City on account of any injury to or death of any person or any damage to property caused by or resulting from the activities for which the permit is granted.

(11) Penalty. Any person violating any of the provisions of this Section shall upon conviction be subject to a forfeiture of not less two hundred and fifty dollars ($250) nor more than one thousand dollars ($1000). Every day or fraction thereof during which any person fails or to comply with any provisions of this Section code shall constitute a separate violation.

(Section 34.5608 R. and Rec. by ORD-14-00139, 8-13-14)

34.5704 STORAGE TANKS FOR FLAMMABLE AND COMBUSTIBLE LIQUIDS.

The following requirements are in addition to the requirements found in IFC section 5704.2:

(1) The owner and operator of storage tanks for flammable and combustible liquids, at service stations or other locations, is responsible for the integrity and maintenance of each and all tanks at the location, together with the piping and dispensing systems connected therein at all times from original installation until termination of use of the tanks, piping and dispensing equipment. The provisions contained in Wis. Admin. Code ch. SPS 310, shall apply to the abandonment, closure, removal, change-in-service, or placing the system temporarily out of service of aboveground and underground tanks. (Am. by ORD-12-00035, 3-28-12)

(2) Approval from the Chief shall be required for the closure, change-in-service or the temporary removal from service of any tank system for flammable and combustible liquids. Tank "system" includes aboveground and underground storage tanks in excess of sixty (60) gallons and system components including but not limited to piping, vents, leak detection, cathodic protection and spill or overfill protection systems. Documents submitted under this section shall comply with all requirements found in Sec. 34.02, MGO.

(Am. by ORD-13-00102, 6-12-13)

CHAPTER 35

THE PUBLIC SEWERAGE SYSTEM

Section

35.01 Definitions.
35.02 The Public Sewerage System.
35.025 Landfill Remediation.
35.03 Reserved For Future Use.
35.04 Enforcement of the Ordinance.
35.05 Effective Date.

35.01 DEFINITIONS.

Biochemical Oxygen Demand (BOD) shall mean the quantity of oxygen utilized in the biochemical oxidation of organic matter under standard laboratory procedure in five (5) days at twenty (20) degrees C, expressed in milligrams per liter or pounds. Quantitative determination of BOD shall be made in accordance with 40 CFR Part 136, or as EPA otherwise determines.

Board shall mean the City of Madison Board of Public Works.

Building Sewer shall mean a sanitary sewer which begins at the immediate outside of the foundation wall of any building or structure being served, and ends at its connection with a community sewer or interceptor.

Carbonaceous Biochemical Oxygen Demand (CBOD) shall mean the quantity of oxygen used in the biochemical degradation of organic material in five (5) days at 20°C when the oxidation of reduced forms of nitrogen is prevented by the addition of an inhibitor. This analytical procedure shall be performed in accordance with 40 CFR Part 136, or as EPA otherwise determines.

Combined Sewer shall mean a sewer designed to receive or receiving both wastewater and storm or surface water.

Compatible Pollutant shall mean biochemical oxygen demand, suspended solids, pH, or fecal coliform bacteria, plus additional pollutants identified in the Wisconsin Pollutant Discharge Elimination System (WPDES) Permit issued to the District for its wastewater treatment facility, provided that said wastewater treatment facility was designed to treat such pollutants, and in fact does remove such pollutants to a substantial degree.

Demand Charges shall mean a fixed charge which is levied by the Madison Sewer Utility in order to recover costs which do not vary with the amount of sewage contributed to the system, or could be considered as the costs resulting from the Sewer Utility's readiness to serve.

Director shall be the Director of the District or other authorized representative of the Commission or District.

District shall mean the Madison Metropolitan Sewerage District (MMSD), a regional sewerage district governed by a commission with such powers as set forth in Wis. Stat. § 200.09.23, as amended from time to time.

DNR means Wisconsin Department of Natural Resources.

Domestic Wastewater or Sanitary Sewage shall mean a combination of liquid and water-carried wastes and wastewater discharged from toilets, conveniences, or other sanitary plumbing facilities, which contain no incompatible pollutants exceeding the limitations set forth in this ordinance and which contain no substances prohibited by the terms of this ordinance.

Driveway Approach shall mean the area improved for vehicular traffic on public street right-of-way which connects the traveled portion of the street with a driveway.

Easement shall mean an acquired right for the specific use of land owned by others.

Engineer shall mean the City Engineer of the City of Madison.

EPA means the United States Environmental Protection Agency.

Equivalent Meters shall mean the number of equivalent ⅝-inch meters and shall be based on the following:

Meter Size	Number of Equivalent 5/8-inch Meters
5/8-inch	1
3/4-inch	1
1-inch	2.5
1 1/4-inch	3.7
1 1/2-inch	5
2-inch	8
3-inch	15
4-inch	25
6-inch	50
8-inch	80
10-inch	120
12-inch	160

Where a user does not have a water meter(s) for measuring the user's water consumption, the Engineer shall estimate the number and size of water meter(s) that would otherwise be required to serve that user, based upon standard engineering practices; and the equivalent meters shall then be determined on this estimate.

Federal Act shall mean the Federal Water Pollution Control Act of 1972, 33 U.S.C. Section 1251 et. seq., as amended, known as the Clean Water Act or as implemented by Wis. Stat. chs. 281 and 283, or appropriate sections of the Wisconsin Administrative Code adopted pursuant to Chapters 281 and 283, as well as any applicable guidelines, limitations and standards promulgated by the United States Environmental Protection Agency pursuant to the Federal Act.

Floatable Oil is oil, fat, or grease in a physical state such that it will separate by gravity from wastewater by treatment in an approved pretreatment facility. A wastewater shall be considered free of floatable oil if it is properly pretreated and does not interfere with the collection system.

Flow Proportional Sample or Composite Sample shall mean a sample consisting of portions of waste taken in proportion to the volume of flow of said waste.

Garbage shall mean the animal and vegetable waste resulting from the handling, preparation, cooking, and serving of foods, or from the handling, storage or sale of food products and produce.

Good Working Condition shall mean capable of performing the task for which it was designed.

Holding Tank Waste shall mean the scum, liquid, sludge or other waste from holding tanks such as chemical toilets, campers, trailers, privies, septic tanks and other temporary holding facilities; and shall include wastes from a soil absorption field. Such term is synonymous with the term septage. The term does not include the waste from a grease trap.

Incompatible Pollutant shall mean any pollutant which is not a compatible pollutant.

Industrial Discharges or Industrial Waste shall mean any water-borne solids, liquid or gaseous wastes, other than domestic wastewater, resulting from, discharging from, flowing from or escaping from any industrial user, including but not limited to cooling water and discharges from wastewater pretreatment facilities. Such term includes any wastewater which is not sanitary sewage.

Industrial User shall mean any commercial or industrial user who makes, causes, or permits an Industrial Discharge in the Public Sewerage System.

Intercepting Sewer or Interceptor shall mean any sanitary sewer owned or operated by the District.

Interference shall mean a discharge which, alone or in conjunction with a discharge or discharges from other sources, both:

1. Inhibits or disrupts wastewater treatment processes or operations or the sludge processes, use or disposal; and
2. Therefore is a cause of a violation of any requirement of the District's WPDES permit (including an increase in the magnitude or duration of a violation) or of the prevention of sludge use or disposal in compliance with the following statutory provisions and regulations or permits issued thereunder:
   a. Section 405 of the Clean Water Act,
   b. The Solid Waste Disposal Act (including the Resource Conservation and Recovery Act),
   c. The Clean Air Act,
   d. The Toxic Substances Control Act, and
   e. The Marine Protection Research and Sanctuaries Act.

Licensed Disposer or Licensed Hauler shall mean a person holding a license under Wis. Stat. § 146.20(3)(a).

Major Industrial User shall mean an industrial user that has a discharge flow which:

(a) Is fifty thousand (50,000) gallons or more per average work day; or

(b) Is greater than five percent (5%) of the total flow rate or design compatible pollutant loading received at the Nine Springs Wastewater Treatment Plant; or

(c) Contains a material included on a list of toxic pollutants defined in Wis. Stat. § 147.07(1); or

(d) Contains a waste which the Department of Natural Resources of Wisconsin or the Madison Metropolitan Sewerage District, or the Engineer has found to have a significant impact, either singly or in combination with other contributing industries, on the wastewater treatment plant or upon the effluent from said plant.

May is permissive.

National Categorical Pretreatment Standards shall mean any regulation or order containing pollutant discharge limitations as promulgated by the U. S. Environmental Protection Agency in accordance with Section 307(b) and (c) of the Federal Act, which limitations apply to one or more specific categories of Industrial Users.

New Source shall mean any building, structure, facility, or installation from which there is or may be a discharge of pollutants, the construction of which commenced after the publication of proposed pretreatment standards under Section 307(c) of the Federal Act which will be applicable to such source, if such standards are thereafter promulgated provided that:

1. The building, structure, facility, or installation is constructed at a site at which no other source is located; or
2. The building, structure, facility, or installation totally replaces the process or production equipment that causes the discharge of pollutants at an existing source; or
3. The production or wastewater generating processes of the building, structure, facility, or installation are substantially independent of an existing source at the same site.

Pass Through shall mean a discharge which exits the wastewater treatment plant into waters of the State in quantities or concentrations which, alone or in conjunction with a discharge or discharges from other sources, is a cause of a violation of any requirement of the District's WPDES permit (including an increase in the magnitude or duration of a violation).

Person shall mean any individual, firm, company, partnership, municipality, association, corporation, cooperative, society, institution, enterprise, government agency, or other entity.

pH shall mean the logarithm of the reciprocal of the hydrogen ion concentration. The concentration is the weight of hydrogen ions, in grams, per liter of solution. Neutral water, for example, has a pH value of 7 and a hydrogen ion concentration of 10-7.

Pretreatment shall mean the reduction of the amount of pollutants, the elimination of pollutants or the alteration of the nature or characteristics of the pollutant properties of the wastewater of a user prior to or in lieu of discharge to a public sewerage system.

Private Sewer shall mean a sewer serving two or more buildings and not directly controlled by a public authority.

Properly Shredded Garbage shall mean the wastes from the preparation, cooking and dispensing of food that have been shredded to such a degree that all particles will be carried freely under the flow conditions normally prevailing in public sewers.

Public Building shall mean any structure, including exterior parts of such building, such as a porch, exterior platform or steps providing means of ingress and egress, used in whole or in part as a place of resort, assemblage, lodging, trade, traffic, occupancy or use by the public, or by three (3) or more tenants.

Public Nuisance or Nuisance shall mean any source of filth or cause of sickness as defined in Wis. Stat. § 146.14. Any violation of this ordinance may also be considered a public nuisance.

Public Sewer shall mean a sewer owned and maintained by a municipality, governmental agency or public utility.

Public Sewerage System shall mean all structures, appurtenances, conduits and pipelines by which wastewater is collected and disposed of, including the wastewater treatment works, excepting plumbing inside of and in connection with buildings and properties served, and excepting building sewers.

Receiving Waters shall mean the body or bodies of water to which the treated water from the District's wastewater treatment plant is discharged.

Representative Sample shall mean a sample of the appropriate wastewater stream collected using 24-hour flow proportional composite sampling techniques where feasible. If an industrial process does not operate for twenty-four (24) hours per day, the sample shall be collected during the time the process is discharging wastewater. Samples to be analyzed for pH, cyanide, total phenols, oil and grease, sulfide, and volatile organics shall be grab samples. An industrial user may use another sampling method if it demonstrates and certifies to the District's satisfaction that it is more representative than flow proportional sampling.

Responsible Corporate Officer shall mean;

1. A president, secretary, treasurer, or vice president of a corporation in charge of a principal business function, or any other person who performs similar policy- or decision-making functions for a corporation, or
2. The manager of one or more manufacturing, production, or operations facilities employing more than two hundred fifty (250) persons or having gross annual sales or expenditures exceeding twenty-five million dollars ($25,000,000), if authority to sign documents has been assigned or delegated to the manager in accordance with corporate procedures, or
3. A general partner or proprietor of a partnership or sole proprietorship, respectively.

Roadside Ditch shall mean a ditch located within the public right-of-way to an unimproved street.

Sanitary Lateral Sewer shall mean that portion of the sanitary building sewer between the main of the public sanitary sewer and the property line.

Sanitary Sewer shall mean a sewer that carries liquid and water-carried wastes from residences, commercial buildings, industrial plants, or institutions.

Sewer shall mean a pipe or conduit that carries wastewater or drainage water.

Sewer Rental shall mean the charge which is levied by the Madison Sewer Utility to a user of the public sewerage system in order to recover costs which may vary with the quantity and the quality of the waste water contributed to the system.

Shall is mandatory.

Significant Industrial User shall mean:

1. All industrial users subject to Categorical Pretreatment Standards under 40 CFR 403.6 and 40 CFR Chapter I, Subchapter N; and

2. Any other industrial user that discharges an average of 25,000 gallons per day or more of process wastewater to the wastewater treatment plant (excluding sanitary, non-contact cooling, and boiler blowdown wastewater); contributes a process waste stream which makes of 5% or more of the average dry weather hydraulic or organic capacity of the treatment plant; or is designated as such by the District on the basis that the industrial user has a reasonable potential for adversely affecting the wastewater treatment plant's operation or for violating any pretreatment standard or requirement.

Upon a finding that an industrial user meeting Criteria 2. herein has no reasonable potential for adversely affecting the treatment plant's operation or for violating any pretreatment standard or requirement, the District may at any time, on its own initiative or in response to a petition received from an industrial user, in accordance with 40 CFR 403.8(f)(6), determine that such industrial user is not a significant industrial user.

Slug Load shall mean any substance released at a discharge rate and/or concentration which causes interference to the wastewater treatment processes.

Standard Methods shall mean the examination and analytical procedures set forth in the most recent edition of "Standard Methods for the Examination of Water and Wastewater" as prepared, approved and published jointly by the American Public Health Association, American Water Works Association, and the Water Pollution Control Federation and is in compliance with Federal Regulations 40 CFR 136, "Guidelines Establishing Test Procedures for Analysis of Pollutants", all as amended from time to time.

Suspended Solids shall mean total suspended matter that either floats on the surface of, or is in suspension in, water, wastewater, or other liquids, and that is removable by laboratory filtering as prescribed in 40 CFR Part 136, or as EPA otherwise determines.

Time Proportionate Sample shall mean a sample consisting of equal portions of waste taken at regular time intervals.

Total Kjeldahl Nitrogen (TKN) shall mean the quantity of organic nitrogen and ammonia as determined in accordance with 40 CFR Part 136, or as EPA otherwise determines.

Total Phosphorus (TP) shall mean the quantity of total phosphorus as determined in accordance with 40 CFR Part 136, or as EPA otherwise determines.

Unpolluted Water is water of quality equal to or better than the effluent criteria in effect or water that would not cause violation of receiving water quality standards and would not be benefited by discharge to the sanitary sewers and wastewater treatment facilities provided.

User shall mean any person who discharges, or causes to be discharged domestic wastewater, industrial discharges or any other wastewater into the public sewerage system.

Wastewater shall mean the spent water of a community. From the standpoint of source, it may be a combination of the liquid and water-carried wastes from residences, commercial buildings, industrial plants, and institutions, together with any groundwater, surface water, and storm water that may be present.

Wastewater Facilities shall mean the District's structures, equipment and processes which are designed to collect, carry and treat domestic wastewater and industrial discharges.

Wastewater Parameters shall include volume, BOD, suspended solids, total Kjeldahl nitrogen, actual customers, equivalent meters, and such additional parameters as may from time to time be determined by the District.

Wastewater Treatment Plant shall mean the District's arrangement of devices and structures for treating domestic wastewater and industrial discharges. Sometimes used as synonymous with "wastewater treatment" or "wastewater treatment works" or "water pollution control works".

WPDES Permit shall mean the District's permit to discharge pollutants, obtained under the Wisconsin Pollutant Discharge Elimination System (WPDES) pursuant to Wis. Stat. ch. 147.

35.02 THE PUBLIC SEWERAGE SYSTEM.

(1) (a) It is hereby determined and declared to be necessary and conducive for the protection of the health, safety and welfare of the public to charge and collect sewer charges or rentals upon all lots, lands and premises served or benefited by the sanitary sewerage system of the City of Madison, which includes all contractions for the collection, transportation, pumping, treatment and final disposition of sewage and consisting generally of pipe, conduits, sewer access structures (manholes), sewer mains, intercepting sewers, pumps, lift stations, and wastewater treatment works whether such facilities are owned and operated directly by the City of Madison or are provided under statutory or contractual provisions and the furnishing of which facilities create or impose a cost or charge upon the City of Madison for the services afforded by such facilities. The sanitary sewer system of the City of Madison shall constitute a public utility within the purview of Wis. Stat. § 66.0801.

(b) There shall be established a charge to the users of the public sewerage system based upon the user's proportionate share of the cost of operation, maintenance, and replacement of the public sewerage system. The user charges shall be determined or reviewed annually in conjunction with or after the adoption of the City budget. The City Engineer and the City Finance Director shall establish a financial management system that accounts for revenues generated and expenditures for the operation and maintenance, including replacement of the public sewerage system. The Sewer Utility shall maintain a reserve fund balance sufficient to satisfy terms of any borrowing by the Utility and sufficient to buffer the Utility from unanticipated expenditures year to year.

(c) That the regulations contained herein shall take precedence over the terms or conditions of agreements or contracts between the City and users (including industrial users, special districts, other municipalities, or federal agencies or installations) which are inconsistent with the requirements herein which address the reservation of capacity in the public sewerage system or the charges to be collected by the City in providing wastewater treatment services or reserving capacity.

(d) There shall be a user charge system consisting of demand charges, sewer rental charges, and miscellaneous charges to recover all costs for the operation of public sewerage system based upon the strength and volume from each user. (Delivery flow rate characteristics may be utilized in accordance with Section 35.02(5)(d)). The user charge system shall be calculated by analyzing each of the expense categories necessary to operate the public sewerage system generally in the following manner. However, these guidelines shall not otherwise inhibit consideration of the allocation of expenses in order to obtain a user charge system equitable to all users.

1. Expenses shall be distributed to the categories of customer accounting, customer service, flow, carbonaceous biochemical oxygen demand, suspended solids, total Kjeldahl nitrogen, and total phosphorous. Other pollutants compatible with the wastewater treatment system may be added from time to time.
2. The category of customer accounting shall reflect those expenses which do not vary from customer to customer such as the cost of customer billing, meter reading, and accounting.
3. Customer service shall be those costs which are varied on the basis of the number of equivalent meters serving each customer and reflect the portion of the expenses which have been sustained to provide a service in anticipation of the maximum discharge of the customer.

4. Flow shall be based upon the estimated amount of sewerage being discharged by the customer.
5. Carbonaceous biochemical oxygen demand (CBOD) shall be the amount of pounds of carbonaceous biochemical oxygen demand determined or estimated for each customer.
6. Suspended Solids (SS) shall represent the pounds estimated or determined from each customer.
7. Total Kjeldahl Nitrogen (TKN) shall be the number of pounds estimated or determined for each customer.
8. Total Phosphorus (TP) shall be the number of pounds of total phosphorus determined or estimated for each customer.
9. The user charge parameters determined by the regional wastewater treatment facility shall be proportioned to customers in the same fashion that it has been levied.

   Cost relating to rendering the bills shall be assessed against customer accounting. Cost relating to the installation and maintenance of meters necessary to measure or estimate the contribution of sewerage shall be assessed to customer service. The cost relating to the maintenance of the collection system shall be generally divided sixty-five percent (65%) to customer service and the remainder to flow. The cost necessary to pump sewerage shall be divided ninety percent (90%) to flow and remainder to suspended solids. Cost necessary to measure the amount of compatible pollutants contributed by individual customers shall be attributed to those parameters. Depreciation of the collection system shall be distributed sixty-five percent (65%) to customer service and the remainder to flow except that the depreciation of pumping stations shall be attributed fifteen percent (15%) to customer service, five percent (5%) to suspended solids, and the remainder to flow. Interest earned and miscellaneous revenues shall be distributed proportionately to the subtotal of the other expenses.
10. The utility shall have a net operating income sufficient to maintain its self-sufficiency.

(2) Administration.

(a) The City Engineer shall be responsible for the management of the Madison Sewer Utility under the direction of the Board of Public Works.

(b) The Madison Sewer Utility shall enter into agreements with the Water Utility in order to purchase and compensate for essential services; said agreements approved by the Board of Public Works and ratified by the Common Council. The Madison Sewer Utility is directed to arrange assignments with other City departments and divisions for specific services and compensation credits; said agreements approved by the Board of Public Works and ratified by the Common Council. Services would be provided by, but not restricted to: the Engineering Division, for administration, engineering and maintenance; the Accounting Division, for accounting services; the Division of Fleet Service; the Department of Information Technology; and the Health Division

(c) A separate set of books of accounts shall be kept by the Finance Director for the Madison Sewer Utility.

(d) When sanitary sewer mains, force mains, sanitary sewer interceptors, and sanitary sewer pumping stations and the appurtenances thereto are constructed, either by a public contract let by the City of Madison, or by a private contract under the review and inspection by the City of Madison, upon completion and acceptance of said facilities by the City of Madison, said facilities shall become the responsibility of the Madison Sewer Utility.

(e) The City Engineer shall inspect the construction of all public sewers, all building sewers, and all private sewers from the property line to the Public Sewerage System and shall inspect the construction of private sewers within private property when expressly ordered by reviewing authorities.

(f) The City Engineer shall establish a maintenance and inspection program which shall be in accord with the annual budget of the Madison Sewer Utility.

(g) In the event that the Board of Public Works deems it necessary to repair, reconstruct or reinforce portions of the public sewerage system, the cost shall be borne by the Madison Sewer Utility, unless all or a portion of the cost is assessed to properties who benefit from the construction and less other contributions in aid of construction.

(3) Use of Public Sewers Required.

(a) It shall be unlawful for any person to place, deposit, or permit to be deposited in any unsanitary manner on public or private property within the City of Madison or in any area under the jurisdiction of the City of Madison, any human or animal excrement, garbage or objectionable waste.

(b) It shall be unlawful to discharge to the public storm water system under the jurisdiction of the City of Madison, any wastewater or other polluted waters, except where suitable treatment has been provided in accordance with subsequent provisions of this ordinance.

(c) It shall be unlawful to construct any privy, privy vault, septic tank, cesspool, or other facility intended or used for the private disposal of waste water without having obtained certification from the Board of Public Works that the public sewerage system is unavailable and cannot be made available to serve the property in question and a permit issued by the Public Health Madison and Dane County and conformance with the Wisconsin Administrative Code. (Am. by ORD-15-00009, 1-28-15)

(d) The owner(s) of all houses, buildings, or properties used for human occupancy, employment, recreation, or other purposes, situated within the City of Madison and abutting on any street, alley, right-of-way in which there is now located or on which a public sewer may be located in the future, is hereby required at the owner(s) expenses to install suitable toilet facilities therein, and to connect such facilities directly with the proper public sewer in accordance with the provisions of this ordinance, within sixty (60) days after the official notice to do so, provided that said public sewer is within one hundred (100) feet or thirty-point-five (30.5) meters of the property line.

(e) When the Common Council, by resolution in accordance with Wis. Stat. §§ 62.16 and/or 66.0911, or by Section 35.02(3), MGO, requires the installation of a sanitary sewer lateral and/or connection to the public sewerage system, or when the Director of Public Health Madison and Dane County, in accordance with Wis. Stat. § 281.45 and Section 7.33, MGO, requires the installation of a sanitary sewer lateral and/or reconnection to the public sewerage system, all applicable sewer district charges or assessments, the Madison Metropolitan Sewerage District charges, and the cost of the sanitary sewer lateral shall be entered on the tax roll as a special tax against the lot or parcel of land served and the same shall be collected in all respects like other taxes upon real estate. (Am. by ORD-15-00009, 1-28-15)

(4) Building Sewers and Connections to the Public Sewerage System.

(a) Properties Within The City of Madison. All property within the City of Madison in which sewer districts have been established or sewer service has been provided shall be entitled to be connected with the Public Sewerage System of the City of Madison subject to the following requirements:

1. Conformance to the rules and regulations of the Board of Public Works, the City of Madison Standard Street and Sewer Specifications and General Conditions and subject to the ordinances passed by the Common Council; and,
2. That the applicable sewer district charges or assessments, the Madison Metropolitan Sewerage District charges, sewer connection fees, and the cost of the sanitary sewer lateral have been defrayed or the method of payment provided for; and,
3. In the case of connection to a sewer owned and operated by the Madison Metropolitan Sewerage District, an application shall be made in writing to the Chief Engineer of the Madison Metropolitan Sewerage District by a master plumber licensed by the Department of Health and Family Services of the State of Wisconsin; and,
4. The necessary permits specified in Section 35.02(4)(c) herein are obtained.

(Am. by ORD-14-00113, 6-25-14)

(b) Properties Outside the City of Madison. All property outside the City of Madison limits in sewer districts that have been established or sewer service has been provided may be allowed by the Common Council to connect with the Public Sewerage System of the City of Madison, subject to the following requirements:

1. Conformance to the rules and regulations of the Board of Public Works, the City of Madison Standard Street and Sewer Specifications and General Conditions and subject to the ordinances passed by the Common Council; and,
2. That the applicable sewer district assessments or charges, the Madison Metropolitan Sewerage District charges, sewer connection fees, and sewer lateral charges have been defrayed or the method of payment provided for; and,
3. The owner of the property agrees to pay for the costs of sewerage disposal costs incurred by the Madison Metropolitan Sewerage District to the local governmental body; and,
4. That the connection will be in the best interest of the City of Madison; and,
5. That the necessary permits specified in Section 35.02(4)(c) herein are obtained.

(Am. by ORD-14-00113, 6-25-14)

(c) Administration and Specifications for Building Sewers and Connections to the Public Sewerage System.

1. No person(s) shall uncover, make any connections with or opening into, use, alter, or disturb a public sewer or appurtenance thereof owned and operated by the Madison Sewer Utility without first obtaining a written permit from the Engineer. No persons shall uncover, make any connections with or opening into, use, alter, or disturb any interceptor or appurtenance thereof owned and operated by the Madison Metropolitan Sewerage District without first obtaining a written permit from the Director of the Madison Metropolitan Sewerage District. No permit shall be issued unless the Engineer determines that the public sewerage system is adequately sized to convey additional flow from the proposed connection, and sewer connection fees have been paid. No permit shall be issued to a

user who contributes industrial waste until that user has obtained a permit from the Director of the Madison Metropolitan Sewerage District. (Am. by ORD-14-00113, 6-25-14)

2. The permit shall only be granted by the City Engineer upon written application, provided by the Engineer, by the owner or authorized agent on the premises desiring to make such an application. The Engineer may, at his/her option, accept the owner's application for a building permit as the application to connect to the public sewerage system. The user who proposes to connect to the public sewerage system shall submit an application fee of one hundred dollars ($100) for each connection. Said application fee will be in addition to any connection fees levied by the Director of the Madison Metropolitan Sewerage District or imposed by the City of Madison such as impact fees, connection fees, or deferred assessments. The application fee is not refundable.

   Upon approval of the application and payment of all sewer connection fees, the City Engineer shall issue a permit granting the right to make the connection and may specify special conditions which must be met as a part of the permit. In addition, the applicant must comply with all special conditions required by the Director of the Madison Metropolitan Sewerage District, if any. (Am. by ORD-14-00113, 6-25-14

3. The Engineer shall maintain records of the public sewerage system indicating the location of the mains and appurtenances of the public sewerage system within public rights-of-way and on easements, designating all lots created by subdivision, and the approximate location of the connections of laterals and building sewers to the public sewerage system. Upon acceptance of the construction, the engineer shall furnish a complete set of as-built plans to the district if there were substantial changes from the original plans.

4. All private sewers and all building sewers between the property line and terminating at the public sewerage system shall be installed by City forces, City contract, plumbers or contractors qualified by the Director of Public Works for that category of construction, or contract under the supervision of the Board of Public Works.

5. All costs and expenses incidental to the installation and connection of the building sewer shall be borne by the owner(s). Whenever a sanitary sewer lateral is installed by City forces or City contract as provided herein, the actual cost of construction of the sanitary sewer lateral plus an additional ten percent (10%) for engineering and inspection by the City of Madison shall be entered on the tax roll as a special tax against said lot or parcel of land served and the same shall be collected in all respects like other taxes upon real estate. Section 4.08, MGO, dealing with payment of special assessments and installments shall apply.

6. A separate and independent building sewer shall be provided for every building or as provided by Wisconsin Administrative Code.

7. Old sanitary lateral sewers may be used in connection with new building only when they are found, on examination test by the Engineer or the Plumbing Inspector, to meet the requirements of this ordinance.

8. Whenever possible, the building sewer shall be brought to the building at an elevation below the basement floor. In all buildings in which any building drain is too low to permit gravity flow to the public sewer, sanitary sewer carried by such building drain shall be lifted by an approved means and discharged to the building sewer.

9. The size, slope, alignment, materials of construction of a building sewer, and the methods to be used in excavating, placing of the pipe, jointing, testing and backfilling the trench, and the connection of the building sewer into the public sewer or with the sanitary lateral sewer shall conform with the Building Code and Plumbing Code provisions of the Madison General Ordinances and the Wisconsin Administrative Code.

10. All excavations for building sewer installation shall be adequately guarded with barricades and lights so as to protect the public from hazard. Streets, sidewalks, parkways and other public property disturbed in the course of the work, shall be restored in a manner satisfactory to the Engineer and in conformance with the latest edition of the Standard Specifications of Public Works Construction. (Refer to Chapter 10 of the Madison General Ordinances for applications and permits for excavations in street right-of-way and public property.)

11. No connection of a building drain subject to backflow or backwater shall be made to any sanitary sewer unless it is protected with a backwater valve or sump with pumping equipment as specified in the Wis. Admin. Code § ILHR 82.30(11)(a)(2).

12. No connection shall be made to any sanitary sewer if the connection pipe is carrying flow from a building foundation drain.

13. Where new construction or development occurs, the owner or builder shall establish preliminary public sewer service with the establishment of water service and prior to the installation of the water meter. A one-time sewer use fee shall be collected with the initial water service permit. The fee shall equal one half of the 'flat rate' charge as described in Sec 35.02(6)(b)3., rounded down to the nearest five dollars ($5).

14. Any existing sanitary lateral that is to be removed or abandoned shall obtain a Permit to Plug Sewer Lateral from the City Engineer.

    a. Where the public sanitary sewer main conditions allow, the plugging of the sanitary lateral shall be completed by City crews using a short liner process at the sanitary lateral connection to the sanitary sewer main. It is then the responsibility of the owner of the lateral to properly plug the lateral at the property line. The fee for plugging shall based upon the estimated average cost incurred by City crews to install the short liner and including administering the permit. This fee shall be established by the Board of Public Works and adjusted periodically as necessary.

    b. If City crews are unable to plug the lateral by short liner at the sanitary sewer main, the owner shall properly plug the sanitary lateral at the property line. The cost of the plugging permit shall then be one thousand dollars ($1,000) and shall include a one hundred dollars ($100) inspection fee and a nine hundred dollars ($900) deposit for guarantee of the performance of the work and call for inspection of the work.

    c. All conditions of the permit must be adhered to and the plugging properly inspected by the City inspector to obtain any refund of the deposit.

    d. The Permit to Plug Sewer Lateral shall be valid for sixty (60) days from the date of issuance unless the permit is extended in writing by the City Engineer. Following an additional sixty (60) days after the expiration of the permit, the permit will be closed and any

deposits remaining, less inspection fees or other permit costs, will be returned. Upon closing of the permit, the owner must apply for a new permit to complete the sewer lateral plugging work.

(5) Use of the Public Sewerage System.

(a) Prohibited Discharges.

1. No person shall discharge wastes to the Public Sewerage System which cause, or are capable of causing either alone or with other substances:
   a. A fire or explosion hazard including, but not limited to, waste streams with a closed cup flashpoint of less than 140°F or 60°C using the test methods specified in 40 CFR 261.21;
   b. Obstruction of flow or damage to the public sewerage system;
   c. Danger to life or safety of any persons;
   d. Air pollution as defined in Wis. Stat. § 144.01(1), as amended from time to time, and any regulations or orders of any regulatory agency issued thereunder. This shall include pollutants which result in the presence of toxic gases, vapors, or fumes within the public sewer system or the treatment plant in a quantity that may cause acute worker health and safety problems;
   e. Prevention of effective maintenance or operation of the wastewater facilities;
   f. Any product of the District's treatment processes or any of the District's residues, sludges, or scums, to be unsuitable for reclamation and reuse or to interfere with the reclamation processes;
   g. A detrimental environmental impact, a public nuisance, or any condition unacceptable to any public agency having regulatory jurisdiction over the City;
   h. Any sanitary sewer or the District's wastewater treatment facilities to be overloaded;
   i. In the opinion of the Engineer, excessive collection and treatment costs, or use of a disproportionate share of the Public Sewerage System;
   j. A violation of the Madison Metropolitan Sewerage District's Wisconsin Pollutant Discharge Elimination System permit.
2. Specific Prohibited Discharges. Prohibited discharges shall include but not be limited to:
   a. Any gasoline, benzene, naptha, fuel oil, or other flammable or explosive liquid, solid or gas;
   b. Any wastes containing toxic or poisonous solids, liquids, or gases in sufficient quantity, either singly or by interaction or in combination with other wastes, to injure or interfere with any waste treatment process, constitute a danger to humans, flora or fauna, create a public nuisance, or create any hazard in the receiving waters of the wastewater treatment plant.
   c. Any waters or wastes having a pH lower than five-point-five (5.5) or higher than ten-point-zero (10.0), or having any other corrosive property capable of causing damage or hazard to structures, equipment, or treatment works personnel.
   d. Solids or viscous substances including, but not limited to, such substances as ashes, bones, cinders, sand, mud, straw, shavings, metal, glass, rags, feathers, tar, plastics, wood, improperly shredded garbage, whole blood, paunch manure, hair and fleshings, entrails, paper dishes, cups, milk containers, either whole or ground by garbage grinders.

e. Any wastewater from industrial plants containing floatable oils, fats, or greases.

f. Any wastewater which contains organo-sulfur or organo-phosphate pesticides, herbicides or fertilizers.

3. Prohibitions on Storm Drainage and Ground Water. Storm water, ground water, rain water, street drainage, roof runoff, and subsurface drainage shall not be discharged into the Public Sewerage System without prior approval of the Engineer and the Chief Engineer of the Madison Metropolitan Sewerage District. Such approval shall be granted only when no reasonable alternative method of disposal is available.

Polluted storm water runoff and ground water from limited areas may be discharged to the sanitary sewer upon approval of the Engineer and the Chief Engineer of the Madison Metropolitan Sewerage District, subject to payment of applicable charges and fees and compliance with conditions required by the Engineer and the Chief Engineer of the Madison Metropolitan Sewerage District.

4. Prohibition on Unpolluted Water. Unpolluted water, including but not limited to, cooling water, process water or blowdown from cooling towers or evaporative coolers, discharge from swimming pools shall not be discharged into the Public Sewerage System without prior approval of the Engineer and the Chief Engineer of the Madison Metropolitan Sewerage District. Such approval shall be granted when no reasonable alternative method of disposal is available and upon payment of the applicable charges and fees in compliance with the conditions required by the Engineer and the Chief Engineer of the Madison Metropolitan Sewerage District.

(b) Limitations on Discharge Characteristics.

1. Discharge to the Public Sewerage System of the following described substances, materials, waters, or waste shall be limited to the following concentrations or quantities which will not harm the sewers, wastewater treatment process or equipment, will not have an adverse effect on the receiving stream, will not have an adverse effect on the District's sludge management program, will not endanger persons or property, will not cause air pollution or other detrimental environmental effects, and will not constitute a public nuisance:

a. Liquid having a temperature higher than 65°C (149°F) at any point of discharge to the public sewer; or any wastewater having a temperature which will inhibit biological activity in the District's treatment plant thereby resulting in interference. Notwithstanding the foregoing, in no case shall wastewater be discharged having a temperature that causes the influent to the District's treatment plant to exceed 40°C (104°F), unless the treatment plant is designed to accommodate such temperature.

b. Wax, grease, oil, plastic or any other substance that solidifies or becomes discernably viscous.

c. Radioactive wastes which, alone or with other wastes, result in releases greater than those specified by current United States Bureau of Standards Handbooks, or which violate the rules or regulations of any applicable regulatory agency.

d. Wastewater containing more than fifty (50) milligrams per liter of petroleum oil, nonbiodegradable cutting oils, or products of mineral oil origin.

e. Wastewater containing more than three hundred (300) mg/l of oil or grease of animal or vegetable origin.

f. Wastewater, which in concentration of any given constituent or in quantity of flow, exceeds for any period of duration longer than fifteen (15) minutes more than five (5) times the average twenty-four (24) hour concentration or flows during normal operation.

g. Wastewater which contains in excess of any of the following constituents in a twenty-four (24-)hour flow proportionate sample made up of an aggregate of the total discharge from all of the outfalls of the Industrial User:
0.5 mg/l cadmium
0.5 mg/l hexavent chromium
1.5 mg/l copper
5.0 mg/l lead
0.02 mg/l mercury
0.3 mg/l selenium
3.0 mg/l silver
10.0 mg/l total chromium
8.0 mg/l zinc
2.0 mg/l nickel
0.1 mg/l cyanide
Samples shall be collected over the period of discharge if the discharge is less than twenty-four (24) hours in duration.

h. Industrial discharges exceeding applicable National Categorical Pretreatment Standards, or State Standards.

i. Any substance with objectionable color not removed in the treatment process, such as, but not limited to, dye wastes and vegetable tanning solution.

j. Any noxious or malodorous liquids, gases, or solids which either singly or by interaction are capable of creating a public nuisance or hazard to life or are sufficient to prevent entry into the sewers for their maintenance and repair.

k. The District, or the Engineer after notification and consultation with the District, may change the requirements established in the regulations herein if necessary to meet the objectives of this ordinance or the conditions of the Madison Metropolitan Sewerage District's Wisconsin Pollutant Discharges Elimination System permit.

l. Wastewater containing polychlorinated biphenyls.

2. No person shall cause or permit a discharge into any public sewerage system that would cause, or significantly contribute to, either directly or indirectly, a violation of the conditions of the District's WPDES permit and any modification or re-issuance thereof.

(c) Accidental Discharge of Prohibited Wastewater. Any person who accidentally discharges into the Public Sewerage System wastes or wastewater prohibited under this ordinance shall immediately report such a discharge to the Engineer and the Chief Engineer of the Madison Metropolitan Sewerage District, and shall report the location of the discharge, the time thereof, the volume thereof, and the type of waste or wastewater so discharged. Within fifteen (15) days of such discharge a detailed written statement describing the cause of the discharge and the measures taken to prevent a future occurrence shall be submitted to the Engineer and the Chief Engineer of the Madison Metropolitan Sewerage District. Such reporting shall not relieve the person causing the accidental discharge from any penalties

imposed by this ordinance. Where the Engineer and the Chief Engineer of the Madison Metropolitan Sewerage District deem necessary, industrial users shall provide facilities to prevent accidental discharges or spills of wastes or wastewaters prohibited under this ordinance.

(d) Alternatives to Acceptance of Wastewater. If any waters or wastes are discharged or are proposed to be discharged to the public sewers, in excess of those limitations enumerated herein, the Engineer and the Chief Engineer of the Madison Metropolitan Sewerage District may in the exercise of their reasonable discretion:

1. Reject the wastes;
2. Require pretreatment;
3. Control the quantities and rates of discharge, and/or
4. Recover the increased costs of handling and treating such wastes.

(e) Pretreatment of Industrial Wastes. Industrial users may be required to pretreat their wastewater when necessary to protect the Public Sewerage System or prevent discharge of incompatible pollutants from the wastewater treatment plant. If the Engineer requires a pretreatment or equalization of waste flows, the design and installation of the plant and equipment shall be subject to the review of the Engineer and the rules and regulations of any applicable regulatory agency. Industrial users who are not required to pretreat but elect to do so, shall notify the Engineer of their intent to establish a pretreatment plant and the Engineer shall be given the opportunity to review the plans and specifications and to comment thereon. Construction, operation and maintenance of pretreatment facilities shall be at the expense of the user. Pretreatment facilities shall be operated by qualified personnel holding a Grade I license issued by the Wisconsin Department of Natural Resources.

(f) Limitations on Discharge of Holding Tank Wastes. No persons shall discharge any wastes from septic tanks, industrial or domestic waste holding tanks, seepage pits, grease traps, mobile public toilets, permanent or portable privies, or liquid industrial wastes directly into a manhole or other opening in the Public Sewerage System without a permit issued by the Engineer and approved by the Chief Engineer of the Madison Metropolitan Sewerage District. Such permit shall state the location, volume and characteristics of the discharge.

(g) Grease, Oil and Sand Trap Installation. Grease, oil and sand traps shall be installed at repair garages, gasoline stations, car washes and other commercial establishments where, in the opinion of the Engineer, necessary to prevent the discharge of sand, flammable wastes, oil or grease in the amounts exceeding the limits of Section 35.02(5). All such traps shall be constructed and maintained by the owner at her/his expense in accordance with the Wisconsin Plumbing Code and shall be readily accessible for cleaning and inspection. The Engineer may require the owners of these traps to maintain records of the dates of cleaning the traps and the means of disposal of the captured material. (Am. by ORD-14-00012, 1-14-14)

(h) Special Agreements. No statement contained in this ordinance shall be construed as preventing any agreement or arrangement between the Madison Metropolitan Sewerage District, the City of Madison and a user whereby an industrial waste of unusual strength or character may be discharged into the Public Sewerage System.

(6) Wastewater Measurement, Sampling, and Reporting.

(a) Measurement of Demand Charges.

1. There shall be a demand charge for each meter required to measure the quantities of sewage contributed, including meters necessary to measure private water supplies, and the public water supply.
2. The Madison Sewer Utility is hereby authorized and directed to compensate the Madison Water Utility for one-half (½) the cost of providing and

reading meters and other measuring devices used to measure the usage of water and/or the contribution of sewage. Except that, when such meters or other measuring devices are used to measure the sewer rental for users who elect or are required to monitor the characteristics of their effluent, said measuring devices shall be provided by the user.

3. In the case of a lot, parcel of land, a building or premises which discharges sewage or industrial waste, either directly or indirectly, to the Public Sewerage System, where the Engineer finds that it is not practical to attempt to measure such wastes by meter, the Engineer shall measure such waste in a manner and a method determined to be practical in the opinion of the Engineer.

(b) Measurement of Sewer Rental For Users Who do Not Elect or Are Not Required to Monitor the Characteristics of Their Effluent.

1. The measurement of quantity of sewage contributed for customers using the public water supply shall be based on the volumetric amount of water passing through the meter or meters or actual volume of sewage as determined by a sewerage metering installation. The measurement of the quantity of sewage contributed for customers who connect to the Public Sewerage System after January 27, 1976, and use a private water supply, in lieu or in addition to the public water supply, shall be based upon the amount of water passing through the meter or meters used to measure the private supply, or the actual quantity as determined by a sewerage metering installation.

2. A credit may be given to a user for water which passes through the water metering device but does not enter the Public Sewerage System under the following conditions:

   a. That a separate meter be installed and a demand charge collected for that meter.

   b. That the customer desiring to install such separate meter make application for the meter, and that a licensed plumber or owner of a single family residence make the necessary piping changes, and install couplings so that the meter can be set in accordance with applicable plumbing codes.

   c. That the applicant pay a standard fee as established by the City Engineer to cover the cost for labor and equipment to:

      i. administer and process the application; and

      ii. install the credit meter; and

      iii. inspect the plumbing configuration and applicability of the credit meter request.

      This standard fee shall be updated and adjusted periodically by the City Engineer based on actual costs to administer this service (recover actual costs), and approved by the Board of Public Works. For complex applications, the applicant may be billed the total, actual cost in excess of the standard fee, for labor and materials to fully process the application, inspect and install the meter. All fees shall be income of the Sewer Utility and the Sewer Utility shall reimburse the Water Utility for its costs to administer applications. In the event a credit meter is not approved for installation, the applicant is not entitled to any refund of the application fee.

   d. The City Engineer shall make periodic audits and inspections of existing credit meters. When it is determined that credits are being improperly granted, the customer shall have fourteen (14) days do make any necessary modifications or removal of meters. After

fourteen (14) days, the credit shall become null and after sixty (60) days the customer shall be required to re-apply for said credit. Failure to allow inspection or audit within fourteen (14) days of notification shall also render the credit null.

3. Where the City Engineer determines that the measurement of sewer rental is not practical, the City Engineer is authorized to establish a flat rate charge for sewer rental and demand charges. For new construction prior to meter installation, one half of one flat rate charge shall be collected for every single family residential home (rounded down to the nearest $5). For multi-units, one flat rate charge shall be collected for every four dwelling units (rounded down to the nearest $5). For non-residential properties, the flat rate charge shall be determined by the City Engineer based upon the equivalent meter size as described in the definitions in Sec 35.01.

(c) Measurement of Sewer Rental For Users Who Elect or Are Required to Monitor The Characteristics of Their Effluent.

1. The Engineer shall establish a monitoring program to determine wastewater characteristics and constituents in order to determine compliance with this ordinance and to facilitate an equitable system of sewer charges and industrial cost recovery charges. In addition, any user may establish an approved monitoring program to determine the user's wastewater characteristics and constituents.
2. A new user who expects to discharge, or who is capable of discharging, wastewater having constituents or characteristics different from domestic wastewater shall install a monitoring facility in accordance with Section 18.30(2) of these ordinances.
3. An existing user who discharges wastewater different from the characteristics associated with the domestic wastewater may be required by the Engineer and/or the Madison Metropolitan Sewerage District to install a monitoring facility. Construction of such facility must be completed within ninety (90) days after the user has been notified of the requirement, unless the Engineer and the Madison Metropolitan Sewerage District grant an extension of time.
4. All monitoring facilities shall be constructed at the user's expense in accordance with the plans approved by the Engineer. The monitoring facility shall contain the necessary meters and equipment to facilitate the observation, sampling, and measurement of wastes, and shall be maintained by the users so as to be safe and accessible at all times.
5. The requirements of Section 35.02(6)(c)2. through 35.02(6)(c)4. may be waived upon special written permission of the Engineer and the Chief Engineer of the Madison Metropolitan Sewerage District.

(d) Powers and Authority for Inspection and Sampling.

1. The Engineer, or his/her designee, bearing proper credentials and identification shall be allowed access to all properties served by the Madison Sewer Utility, and to all monitoring facilities, for the purpose of inspection, observation, measurement, sampling, and testing of discharges to the wastewater facilities, or for the purpose of inspection, repair, or maintenance of any portion of the Public Sewerage System. The Engineer, or his/her designee, may require an onsite audit as determined necessary to ensure accurate billing and compliance with this Ordinance.
2. The Engineer, or his/her designee, may require industrial users to provide information about industrial processes which may have an effect on the nature of the industrial discharges. Such industrial process information may be withheld if the industrial user demonstrates to the satisfaction of

the Engineer that release of such information to the public would reveal trade secrets or result in an advantage to competitors. No effluent data shall be withheld from the Engineer, but will be kept confidential by the Engineer if necessary to protect the trade secrets of an industrial user. All customers shall promptly comply with requests for information and onsite audits.

(e) Reporting Requirements.

1. It shall be the responsibility of the user who elects or is required to monitor the characteristics of the users effluent to sample, chemically analyze, and prepare a report on the effluent by competent personnel. All costs associated with such monitoring shall be the responsibility of the user.
2. The Engineer may require a user to provide the information concerning but not limited to:
   a. Volume time and peak rate of discharges.
   b. Chemical analysis of discharges.
   c. Raw materials, processes and products relevant to discharge characteristics.
   d. Discharges of specific wastes such as sludge, oil, solvent, or incompatible pollutants.
   e. Plot plans of sewers on the user's property showing locations of sewers, monitoring facilities and pretreatment facilities.
   f. Details of pretreatment facilities.
   g. Details of systems to prevent losses of materials through spills to the Public Sewerage System.
3. The Engineer shall review the annual reports submitted to the Madison Metropolitan Sewerage District by significant industrial contributors in accordance with Wisconsin Administrative Code NR-101. The Engineer may bill the user based on the data contained within the report or, may ask for additional information on which to base the cost of sewer rental.
4. All measurements in test analysis of the characteristics of wastewater shall be determined in accordance with methods established by the EPA and contained in 40 CFR Part 136 and amendments thereto or with any other test procedures approved by the EPA. Sampling shall be performed in accordance with the techniques approved by the EPA. Where 40 CFR Part 136 does not include a sampling or analytical technique for the pollutant in question, sampling and analysis shall be performed in accordance with the procedures set forth in the EPA publication, "Sampling and Analysis Procedures for Screening of Industrial Effluents for Priority Pollutants, April 1977", and amendments thereto, or with any other sampling and analytical procedures approved by the EPA.
5. A Responsible Corporate Officer, as defined in this ordinance, shall sign any reports required to be submitted by an industrial user pursuant to the provisions of this ordinance.
6. Each Industrial User shall retain and preserve for no less than three (3) years any records, books, documents, memoranda, reports, correspondence and other information relating to monitoring, sampling and chemical analyses made by or on behalf of the Industrial User in connection with its industrial discharge. All such records pertaining to matters which are the subject of any enforcement proceedings under this ordinance or the subject of any litigation involving the District, shall be retained and

preserved by an Industrial User until such proceedings or litigation have been finally concluded and all periods of limitation with respect to appeals therefrom, have expired.

(f) Government Owned Property Subject to Ordinance. The provisions of this ordinance, including the charges established and the method of measuring sewer rental and demand charges, shall apply to property owned by the City of Madison, the County of Dane, the State of Wisconsin, and the United States of America, and to any property which might be otherwise exempt from the payment of general property taxes.

(g) Bypass Reporting. In the event of a bypass or spill of wastewater from any community sewer, the District Customer owning the sewer shall notify the District and the Department of Natural Resources immediately upon becoming aware of the situation. The notification shall include the location of the bypass/spill, the reason for the bypass/spill, when the situation is expected to be corrected, and an estimate of the volume or rate of the bypass/spill.

(7) Schedule of Demand Charges, Sewer Rental, Miscellaneous Charges and Industrial Cost Recovery Charges.

(a) Procedure to Establish Charges. All charges authorized under this Subsection, said charges being necessary to recover the Madison Sewer Utility's cost and which are in addition to the demand charges levied by the Water Utility, shall be set by the City Engineer, consistent with the standards set forth in Wis. Stat. § 66.0821(4). These rates shall be set annually, and will go into effect upon approval by the Board of Public Works and the Common Council.

(b) Demand Charges. Demand charges established under this Subsection shall differentiate between customers who are billed for sewer use based on their metered water use (or equivalent) and those who request a separate meter to measure water usage that does not enter the sewer system.

(c) Sewer Rental. Sewer Rental shall be set as follows:

1. The sewer rental for those customers who do not elect or are not required to monitor the characteristics of their effluent shall be based upon each one hundred (100) cubic feet of wastewater contributed.
2. The sewer rental for those customers who elect or are required to monitor the characteristics of their effluent shall be based upon each one hundred (100) cubic feet of waste contributed, each pound of Carbonaceous Biochemical Oxygen Demand, each pound of suspended solids, each pound of nitrogen as measured Total Kjeldahl Nitrogen, and each pound of Total Phosphorous.

(d) Schedule of Charges Where Measurement of Sewer Rental is Not Practical. Where the Engineer has determined that the measurement of the volume of sewage or industrial waste contributed is not practical, a flat rate charge for sewer rental and demand charges shall apply.

(e) Schedule of Charges for Septic Tank Waste. The charge for discharges of waste (from septic tanks, industrial or domestic waste holding tanks, seepage pits, grease traps, mobile public toilets, permanent or portable privies or liquid industrial waste) at the City Engineering Division's Facility located at 1600 Emil Street, or at any other approved site on the Public Sewerage System shall be set under this Subsection. Waste containing approximately ten thousand (10,000) milligrams per liter of five (5-) day Biochemical Oxygen Demand (BOD5) or twenty thousand (20,000) milligrams per liter of suspended solids shall be considered "average" waste for the purpose of this subdivision. The City Engineer is authorized to establish a modified schedule of charges based on the unit cost established in accordance with Sec. 35.02(7)(c)2. for septic tank waste which materially differ in strength from the average.

(8) Collection of Demand Charges and Sewer Rental.

(a) The Engineer shall divide the City into sections, as practical for billing purposes, and coinciding with the sections used by the Water Utility. The demand charges, sewer rental and industrial cost recovery charges shall be payable periodically to the City Treasurer at the same time as Water Utility bills are payable.

(b) (Reserved for Future Use.)

(c) All charges established by this ordinance shall be a lien against the property served pursuant to Wis. Stat. §§ 66.0809(3) and 66.821(4)(d).

(d) The bills for Sewerage Utility charges shall be dated and issued to users. A late payment charge of one percent (1%) of any unpaid balance shall be assessed and added to the bill for such services if the amount of the bill is not paid within twenty (20) days thereafter (the "due date") and an additional late payment charge of one percent (1%) of the unpaid balance of the bill plus any previously assessed late payment charge remaining due at the end of every monthly anniversary of the due date shall be assessed and added to bills then remaining unpaid. (Am. by ORD-14-00150, 9-12-14)

(e) Bills issued under this section and paid by the user which are subsequently found to be in error shall be corrected, and revised bills shall be issued. Users who were billed less than the proper amount shall be rebilled from the date of notice of the error back a period not to exceed two years. Users who were billed more than the proper amount shall be refunded the difference back to the date of the first occurrence or six years, whatever is less. Interest shall be refunded as determined by Wis. Stat. § 138.04.

(9) Special Charges. Whenever any user discharges wastes into the public sewerage system which cause physical damage to the wastewater facilities and/or which cause the MSU or MMSD to incur unusual additional costs, the MSU or MMSD may assess a special charge against such user for the work required to repair the facilities and/or to recover the unusual additional costs. Special charges shall be in addition to the service charges specified herein and shall be billed directly to the user.

(10) Sewer Connection Fees. Prior to approving a request to connect a property to the sanitary sewer under subsection (4)(c) above, the City Engineer shall determine whether any sewer connection fees are due for the connection. Sewer connection fees shall include the administrative costs to the City to extend sewer service to the property, including Madison Metropolitan Sewerage District service area expansion application fees, the central urban service area amendment fee imposed by the Capital Area Regional Planning Commission, or its successor, along with reasonable staff costs associated with these applications. City Engineering shall determine a method of calculating and apportioning the sewer connection fees consistent with Wis. Stat. § 66.0628, which method and apportionments shall be approved by the Board of Public Works.

(Sec. 35.02(10) Cr. by ORD-14-00113, 6-25-14)

35.025 LANDFILL REMEDIATION.

(1) It is hereby determined and declared to be desirable and necessary for the protection of the public health, safety and welfare to remedy the release of organic and inorganic substances from solid waste landfills operated by the City, and to encourage the proper abandonment of private drinking water wells. Said releases are potentially detrimental to the air and groundwater, and if allowed to concentrate, may be toxic, combustible or explosive. Improperly abandoned wells represent potential direct pathways for groundwater contamination to enter the municipal drinking water supply. In order to finance the environmental remediation of solid waste landfills operated by the City and to encourage the proper abandonment of private drinking water wells located in the City of Madison or on properties served by the Madison Water Utility, there shall be established a charge upon all

lots, lands and premises served or benefited by the sanitary sewerage system of the City of Madison, also referred to as "The Madison Sewer Utility," a public utility within the purview of Wis. Stat. § 66.0801.

(2) Transfer of Assets. The land rights and improvements of the city, or such rights determined to exist, for the following landfills are hereby transferred to the land assets of the Madison Sewer Utility:
   (a) Mineral Point Landfill, Parcel No(s). 0708-243-0301-3 and 0708-243-0302-1.
   (b) Greentree Landfill, Parcel No. 0708-362-0302-9.
   (c) Demetral Landfill, Parcel Nos. 0710-062-0918-6 and 0710-062-1401-0.
   (d) Sycamore Landfill, Parcel Nos. 0810-343-0099-7 and 0810-343-0802-4.
   (e) Olin Landfill, Parcel No. 0709-264-1904-9.
   (f) Sycamore clean fill site, Parcel No. 0810-342-0239-1.

(3) Administration. The Water Utility Manager, City Engineer and Finance Director shall establish procedures for review by their respective Boards and approval by the Common Council to properly allocate the costs for the administration of this service.

(4) Schedule of Landfill Remediation Fees. The Landfill Remediation Charge shall be in addition to the demand charges established by Section 35.02(7)(b) of these ordinances and shall be set by the City Engineer. These rates shall be set annually, and will go into effect upon approval by the Board of Public Works and the Common Council. For the purpose of calculating the bills for the customers of the Sewer Utility, the Landfill Remediation Charge may be added to demand charges established by Section 35.02(7)(b). Sewer customers without a meter who are billed a flat rate for sewer service shall be charged, under the approved schedule, based on the appropriate sized meter applicable to their water service.

(5) The bills for Landfill Remediation charges shall be dated and issued to users. A late payment charge of one percent (1%) of any unpaid balance shall be assessed and added to the bill for such services if the amount of the bill is not paid within twenty-five (25) days thereafter (the "due date") and an additional late payment charge of one percent (1%) of the unpaid balance of the bill plus any previously assessed late payment charge remaining due at the end of every monthly anniversary of the due date shall be assessed and added to bills then remaining unpaid.

35.03 RESERVED FOR FUTURE USE.

35.04 ENFORCEMENT OF THE ORDINANCE.

(1) The City Engineer is hereby authorized to prescribe the form of application for permits under this chapter and shall be responsible for the general supervision of the enforcement of the provisions of this chapter and law.

(2) Any person violating the provisions of this chapter shall be fined not less than twenty-five dollars ($25) nor more than two hundred dollars ($200) per day for each and every violation; each day of violation shall constitute a separate offense.

35.05 EFFECTIVE DATE.

This ordinance shall be in effect from and after its passage and publication.

(Chapter 35 Repealed and Recreated by ORD-12-00142, 11-12-12)

CHAPTER 36

VIDEO AND CABLE TELEVISION SERVICE PROVIDERS

Adopted September 2, 2008

Published by direction of the Common Council of the City of Madison in accordance with Section 66.0103, Wisconsin Statutes

Section

36.01 General Provisions.
36.02 Definitions.
36.03 Video Service Provider Fee and PEG Channel Monetary Support.
36.04 PEG Channel Requirements.
36.05 Police Powers, Design/Construction Standards & Rights of Ways.
36.06 Theft of Cable and Satellite Cable Programming. (Cr. by ORD-13-00184, 11-5-13)

36.01 GENERAL PROVISIONS. The provisions of Wis. Stat. § 66.0420 are hereby incorporated as though fully set forth herein. The additional provisions of this Chapter supplement those provisions of the state statutes and constitute an expression of the City's home rule authority. Any person who owns, leases, operates, controls, constructs or maintains a video service or cable television service shall comply at all times with the provisions herein when constructing, operating or maintaining a video service or cable television service in the City.

36.02 DEFINITIONS. The terms used in this chapter shall have the same meaning as those terms are defined in Wis. Stat. § 66.0420(2), which is incorporated by reference as though fully set forth herein.

36.03 VIDEO SERVICE PROVIDER FEE AND PEG CHANNEL MONETARY SUPPORT.

(1) Video Service Provider Fee. Video Service Providers and Cable Operators shall pay, in addition to the PEG Support Fee set forth in sub. (2) below, a Video Service Provider fee to the City in an amount equal to five percent (5%) of the providers gross receipts.

(2) Public, Educational, and Government (PEG) Channel Monetary Support. Video Service Providers and Cable Operators shall pay, in addition to the Video Service Provider Fee set forth in sub. (1) above, a monthly fee of sixty-three cents ($ .63) per subscriber which payment shall be used to fund PEG access related external costs. The allocation of the PEG Channel Monetary Support fee between public access and government access activities/channels shall be at the sole discretion of the City and which allocation the City may alter at any time and without notice.

(3) Supporting Documentation. Payment of the fees set forth in sub. (1) and (2) above shall be accompanied by documentation verified by an agent or officer with the authority to legally bind the provider that is sufficient for the City to verify the accuracy of the fees being paid by the provider. The failure to provide such documentation shall subject the provider to a forfeiture of not less than $100 nor more than $5,000 per day until such time the documentation is provided to the City.

36.04 PEG CHANNEL REQUIREMENTS.

(1) Number of PEG Channels. Video Service Providers and Cable Operators shall provide capacity for four PEG channels. These channels shall be allocated as follows: one channel dedicated for use by Madison City Channel which is operated by the City as a governmental access channel; one channel dedicated for use by WYOU, which is operated as a public access channel by WYOU Community Television, Inc., and; two channels dedicated for use as educational access channels by the Madison Metropolitan School District.

(2) Location of PEG Channels. PEG channels must be carried on any service tier that is viewed by more than fifty percent (50%) of the video service provider's or cable operator's customers. Video service provider's or cable operator's may not charge an extra fee nor require the rental of special equipment in order for their customers to view such PEG channels if such fees or equipment are not required to view any of the non-PEG channels on such service tiers.

(3) Quality of PEG Channels. Video Service Providers and Cable Operators shall not carry a PEG television signal in a lesser format or lower resolution than that afforded to a non-broadcast digital programmer carried on the video or cable system. The signal quality of PEG channels shall be indistinguishable or better than the signal of other non-PEG channels carried by the video service provider or cable operator.

(4) Drops/Origination Points. Video service providers and cable operators shall supply and maintain upstream capacity from all current origination points, (a/k/a "live drops") and shall provide sufficient capacity for carriage of a television signal from each of these origination points at all times. These origination points are all located in the City of Madison as follows:

(a) Madison Municipal Building, Room 210 215 Martin Luther King, Jr. Boulevard;
(b) City-County Building, Room 201, 210 Martin Luther King, Jr. Boulevard;
(c) Overture Center, 201 State Street;
(d) Monona Terrace Community and Convention Center, 1 John Nolen Drive;
(e) Madison Public Library, Central Library, 201 W. Mifflin Street;
(f) WYOU Studios at 609 E. Washington Avenue;
(g) Madison Metropolitan School District, 545 W. Dayton Street.

(5) Substantial Utilization of PEG Channels and PEG Programming.

(a) Procedures for Disconnection Due to Failure to Substantially Utilize PEG Channel.

1. Written Notice of Objection to Program as Not Locally produced. A Video Service Provider or Cable Operator must provide written notice to the PEG Channel Director within ten days of the first or original airing of any program that the Video Service Provider or Cable Operator is objecting to the program as having not been locally produced. Such notice shall describe with particularity the program being objected to, the date and time the program was first aired and the factual basis supporting the objection. Failure to timely provide this notice waives the objection and therefore, such program will be counted towards the determination of whether said PEG channel is being substantially utilized.

2. Written Notification of Failure to Substantially Utilize Channel. A Video Service Provider or Cable Operator must provide written notification to any PEG channel Director within 10 days following any week in which the Video Service Provider or Cable Operator objects that the PEG Channel has not been substantially utilized. Such notice shall describe with particularity the time period being objected to, the dates and times during the week in which qualifying programming was not aired and the factual basis supporting the objection. Failure to timely provide this notice waives this objection and therefore, such programming period will be counted towards the determination of whether said PEG channel is being substantially utilized.

3. Written Notification of Intention to Disconnect, Reprogram or Drop PEG Channel. A Video Service Provider or Cable Operator must provide 120 Days advance written notification to any PEG channel Director that the Video Service Provider or Cable Operator intends to disconnect, reprogram or drop. A video Service Provider or Cable Operator may not disconnect, reprogram or drop any PEG channel that it has not timely

provided with such written notice. Furthermore, should any PEG channel Director provide the Video Service Provider or Cable Operator with a written response that the PEG channel was substantially utilized during the time period in question or will be substantially utilized by the municipality, the video service provider or cable operator shall not disconnect, reprogram or drop the PEG channel.

4. Penalty for Failing to Provide Notice(s). If any Video Service Provider or Cable Operator disconnects, reprograms or drops any PEG Channels without providing the notice(s) as required in subs. a through c above, the video service provider or cable operator shall be subject to the following:

a. Immediate reinstatement of the PEG channel to its location in the channel line-up prior to the disconnection, reprogramming or dropping of the channel.

b. A forfeiture of not less than $1,000 nor more than $10,000 for each day that the PEG channel is disconnected, reprogrammed or dropped.

(b) Locally Produced Programming. Locally produced programming shall include all programming produced by any PEG channel and shall include all programming that has not been commercially aired. "Locally produced programming" includes any program that was in part produced for original airing in the broadcast market in which it was produced either in part or in whole. The term "locally produced" shall not require that the programming was created, filmed or produced in the Madison or Dane County area. PEG stations may share and exchange programming content in order to meet the substantial utilization requirements of sec. 66.0420(5)(b), Wis. Stats.

(7) Underwriting of Programming. PEG channels may transmit non-commercial programming to subscribers generally or to specific recipients of video service providers or cable operators. Nothing herein shall in anyway prohibit or prevent PEG channels from accepting grants or sponsorships in support of such programming nor shall PEG channels be prohibited from acknowledging such grants or sponsorships before, during or immediately after such PEG programming has been broadcast in such a manner that is similar to the manner in which the Public Broadcasting System (PBS) acknowledges the substantially similar support of its programming content. Such acknowledgements shall comply with the requirements of 47 USC § 399b as though the PEG channel were a public broadcast station.

(8) Notice of Intention to Move PEG Channel Locations/Designations. Any Video Service Provider or Cable Operator who intends to move any PEG Channel from the channel designations in effect at the time this ordinance is enacted may only make such a change after providing 60 days advance written notice to the affected PEG channel(s). Additionally, such Video Service Provider or Cable Operator shall engage in a public education program of such intensity and duration as to reasonably inform the general public of the proposed PEG channel designations.

36.05 POLICE POWERS, DESIGN/CONSTRUCTION STANDARDS & RIGHTS OF WAYS.

(1) Subject to Police Powers. Video Service Providers and Cable Operators are subject to the police power of the City to adopt and enforce general ordinances necessary to the safety, health and welfare of the public. The grant of a statewide video or cable franchise, does not render or to any extent lose, waive, impair or lessen the lawful powers and rights, now or hereafter vested in the City under the Constitution and statutes of the State of Wisconsin to regulate the use of streets and public ways or to regulate any matter affecting the safety, health and welfare of the public. The City shall make the video service providers

and cable operators history of compliance with such codes and ordinances available to the Department of Financial Institutions so that the Department may determine the provider or operators legal, financial and technical qualifications to provide video services.

(2) Design, Permits, Construction and Excavation. Video Service Providers and Cable Operators shall comply with all applicable City codes and ordinances including, without limitation by expression herein, Chapter 6 Fire Department and Fire Regulations; Chapter 10, Streets, Alleys, Sidewalks and Gutters; Chapter 17, Radio, Television and Electronics Code; Chapter 18, Plumbing Code; Chapter 19, Electrical Code; Chapter 29, Building Code; Chapter 30, Heating, Ventilating, Air Conditioning of the Madison General Ordinances and shall be subject to any forfeitures so specified for any violations thereof. The City shall make the persons history of compliance with such codes and ordinances available to the Department of Financial Institutions so that the Department may determine the provider or operators legal, financial and technical qualifications to provide video services.

36.06 THEFT OF CABLE AND SATELLITE CABLE PROGRAMMING.

(1) It shall be unlawful for any person to intentionally:

(a) Obtain or attempt to obtain video service without paying all lawful compensation to the operator of such service, by means of artifice, trick, deception or device; or

(b) Assist another person in obtaining or attempting to obtain video service without paying all lawful compensation to the operator of such service; or

(c) Connect to, tamper with or otherwise interfere with any cable, wire or other device used for the distribution of a video service if the effect of such action is the obtaining of a video service without paying all lawful compensation therefore; or

(d) Sell, use, manufacture, rent or offer for sale, rental or use any device, plan or kit designed and intended to obtain video service in violation of this section; or

(e) Attempt to connect to, tamper with, or otherwise interfere with any cable television signal, cables, wires, devices or equipment used for the distribution of video services and which results in the unauthorized use of a video service or the disruption of the delivery of the video service. Nothing in this section shall be construed to prohibit, restrict or otherwise limit the purchase, sale or use of any products, including without limitation hardware, software, or other items, intended to provide services and features to a customer who has lawfully obtained a connection from a video service provider.

(2) The intent required for a violation of this paragraph may be inferred from proof that the video service to the defendant's residence or business was previously disconnected by the video service provider and that thereafter exists in fact a connection to the video service network at the defendant's residence or business.

(3) This subsection incorporates by reference Wis. Stat. § 943.47 (1), (2) and (5).

(4) Penalty.

(a) Any person violating any section of this ordinance shall be subject to a forfeiture of not less than two hundred dollars ($200) nor more than one thousand dollars ($1,000), exclusive of costs.

(b) Any person violating any section of this ordinance may be subject to restitution as set forth in Wis. Stat. § 800.093.

(Sec. 36.06 Cr. by ORD-13-00184, 11-5-13)
(Chap. 36 R. & Rec. by ORD-08-00106, 9-18-08)

CHAPTER 37

THE PUBLIC STORMWATER SYSTEM INCLUDING EROSION CONTROL

Cr. by Ord. 7854, 11-5-82
Adopted October 19, 1982

Repealed and Recreated by Ord. 13,112, 8-2-02
Adopted July 16, 2002

37.01 TITLE.

This ordinance shall be known, cited and referred to as the "The Public Stormwater System Including Erosion Control."

37.02 FINDING AND DECLARATION OF PURPOSE.

(1) The Common Council of the City of Madison finds that urbanizing land uses have accelerated the process of soil erosion, stormwater runoff and sediment deposition within and beyond the Yahara River, the Sugar River, Door Creek and other bodies of water in the City. Soil erosion and uncontrolled stormwater runoff from land-disturbing and land-development activities have significant adverse impacts upon regional water resources and the health, safety, property and general welfare of the community, and diminish the public enjoyment and use of natural resources. Specifically, soil erosion and stormwater runoff can:

(a) Increase the likelihood of infiltration and inflow into the sanitary sewer system.

(b) Carry sediment, nutrients, pathogens, organic matter, heavy metals, toxins and other pollutants to regional lakes, streams and wetlands;

(c) Diminish the capacity of water resources to support recreational and water supply uses and a natural diversity of plant and animal life;

(d) Clog existing drainage systems, increasing maintenance problems and costs;

(e) Cause bank and channel erosion;

(f) Increase downstream flooding;
(g) Reduce groundwater recharge, which may diminish stream base flows and lower water levels in regional lakes, ponds and wetlands;
(h) Contaminate drinking water supplies;
(i) Increase risk of property damage and personal injury, and;
(j) Cause damage to agricultural fields and crops.

(2) This ordinance is intended to regulate erosion and stormwater runoff, to accomplish the following objectives:
(a) Promote regional stormwater management by watershed;
(b) Minimize sedimentation, water pollution from nutrients, heavy metals, chemical and petroleum products and other contaminants, flooding and thermal impacts to the waters of the state;
(c) Promote infiltration and groundwater recharge;
(d) Protect functional values of natural watercourses and wetlands;
(e) Provide a set of performance standards that are at least as protective of the environment and natural resources as and not in conflict with the standards set forth by Dane County and the Wisconsin Department of Natural Resources;
(f) Achieve an eighty percent (80%) reduction in total suspended solids load to waters of the state as compared to no controls for all new development, a forty percent (40%) reduction in total suspended solids load compared to no controls for all redevelopment and street reconstruction. Further, on a municipality-wide basis, achieve a twenty percent (20%) reduction total suspended solids load compared to no controls for existing developments by 2007; a forty percent (40%) reduction in total suspended solids load compared to no controls by 2011;
(g) Ensure no increase in the rate of surface water drainage from sites during or after construction;
(h) Control exceedance of the safe capacity of existing drainage facilities and receiving water bodies;
(i) Protect public and private property from damage resulting from runoff or erosion;
(j) Ensure no increase in temperature of post-construction stormwater in order to protect cold-water communities;
(k) Protect spawning grounds, fish and aquatic life;
(l) Preserve ground cover and scenic beauty, and;
(m) Promote sound economic growth and protect the tax base.

37.03 GENERAL PROVISIONS.

(1) Applicability. This ordinance applies to the use of lands within the incorporated boundaries of the City of Madison, and with the exception of Sec. 37.05 applies to the use of lands subject to extraterritorial review as provided by Wis. Stat. ch. 236.10 and Sec. 16.23, MGO.
(2) Severability of Ordinance Provisions. If any section, clause, provision or portion of this ordinance is adjudged unconstitutional or invalid by a court of competent jurisdiction, the remainder of this ordinance shall remain in force and not be affected by such judgment.
(3) Performance Time Requirement. All action required in this ordinance shall be conducted as soon as possible as determined by the Administrative Authority.
(4) Effective Date. This ordinance ID #20903 shall become effective as of February 1, 2011.

37.04 DEFINITIONS. For the purpose of this ordinance certain words used herein are defined as follows:

Accepted Soil Erosion Control Methodology means the U.S. Natural Resources Conservation Service Technical Guide based on the universal soil loss equation (USLE) with consideration given to season of year, site characteristics, soil erodability, and slope, or another commonly known soil erosion control methodology that has been approved by the Administrative Authority.

Administrative Authority means the City Engineer, or Director of the Building Inspection Division where specifically stated herein, or their respective designees.

Affected means that a regulated activity has significantly:

(a) Caused negative impacts on water quality or the use or maintenance of one's property or business; or

(b) Endangered one's health, safety, or general welfare.

Agricultural Land Uses means related to or used for the production of food and fiber, including but not limited to, general farming, livestock and poultry enterprises, grazing, nurseries, horticulture, viticulture, truck farming, forestry, sod production, cranberry productions and wild crop harvesting and includes lands used for on-site buildings and other structures necessary to carry out such activities.

Average Annual Rainfall means the rainfall information for an average year as determined by the information in the following rainfall file: msn1981.ran. This file represents a synthetic rainfall record for the Madison area of 1981, from March 12 through December 2. This file is available on the Wisconsin Department of Natural Resources website http://dnr.wi.gov/runoff/models/.

Best Management Practices or "BMP"s means structural or non-structural measures, practices, techniques or devices employed to avoid or minimize soil, sediment or pollutants carried in runoff to waters of the state.

Board shall mean the City of Madison Board of Public Works.

Checklist Plan is an erosion control plan available from the Administrative Authority, which is designed to control soil erosion and sedimentation resulting from land-disturbing activities on areas less than twenty thousand (20,000) square feet.

City means the City of Madison.

Cold Water Community means surface waters capable of supporting a community of cold water fish and other aquatic life, or serving as a spawning area for cold water fish species, as set forth in Wis. Admin. Code ch. NR 102.04(3)(a).

Connected Impervious Area means an impervious surface that is either connected to a separate storm sewer system or water of the state via an impervious flow path or is connected to a separate storm sewer system or water of the state by virtue of not having a minimum of thirty (30) feet of continuous pervious area as measured along the flow path, that is a minimum width of the spread of the water flow or a stormwater best management practice. Grassed swales designed to slow and treat discharge shall not be considered to be part of the separate storm sewer system.

Construction Site Erosion Control means preventing or reducing soil erosion and sedimentation from land-disturbing activity.

Customer Charge shall mean a fixed charge per lot or parcel of land to recover costs which do not vary with the amount of stormwater contributed to the system including costs to administer the Stormwater Utility or the billing system.

Design Storm means a hypothetical discrete rainstorm characterized by a specific duration, temporal distribution, rainfall intensity, return frequency and total depth of rainfall.

Detention Storage is the temporary detaining or storage of stormwater in reservoirs, under predetermined and controlled conditions, with the rate of discharge there from regulated by installed devices.

Development means any of the following activities:

(a) Structural development, including construction of a new building or other structures;

(b) Expansion or alteration of an existing structure that results in an increase in the surface dimensions of the building or structure;

(c) Land-disturbing activities; or

(d) Creation or expansion of impervious surface.

Direct Conduits to Groundwater means wells, sinkholes, swallets, fractured bedrock at the surface, karst features, mine shafts, non-metallic mines, tile inlets discharging to groundwater, quarries, or depressional groundwater recharge areas over shallow fractured bedrock.

Driveway Approach shall mean the area improved for vehicular traffic on a public street right-of-way, which connects the traveled portion of the street with a driveway.

Effective Infiltration Area means the area of the infiltration system that is used to infiltrate runoff and does not include the area used for site access, berms or pretreatment.

Erosion means the process by which the land's surface is worn away by the action of wind, water, ice, or gravity.

Excavation means any act by which organic matter, earth, sand, gravel, rock or any other similar material is cut into, dug, quarried, uncovered, removed, displaced, relocated or bulldozed and shall include the resulting conditions.

Existing Development means buildings and other structures and impervious area existing prior to ordinance adoption.

Existing Grade means the vertical location of the existing ground surface prior to excavation or filling.

Fill means any act by which earth, sand, gravel, rock or any other material is deposited, placed, replaced, pushed, dumped, pulled, transported, or moved to a new location and shall include the resulting conditions.

Financial Security Instrument means a surety bond, performance bond, maintenance bond, irrevocable letter of credit, or similar guarantees in a form approved by the City Attorney that is submitted to the Administrative Authority to assure that requirements of the ordinance are carried out in compliance with the stormwater management plan.

Grading is altering the elevation of the land surface by stripping, excavating, filling, stockpiling of soil materials or any combination thereof and shall include the land from which the material was taken or upon which it was placed.

Gully Erosion means a severe loss of soil caused by or resulting in concentrated flow of sufficient velocity to create a defined flow channel.

Heavily Disturbed Site means a site where an area of land is subjected to significant compaction due to the removal of vegetative cover or earthmoving activities including filling.

Hydrologic Soil Group (HSG) has the meaning used in the runoff calculation methodology promulgated by the United States Natural Resources Conservation Service Engineering Field Manual for Conservation Practices

Impervious Area means any land surface that has been compacted or covered with a layer of material so that it is highly resistant to infiltration by rain or melting snow. The term includes without limitation due to enumeration, all areas covered by structures, roofs (including overhangs), roads, sidewalks, patios, porches, driveways, parking lots, loading docks, and semi-impervious surfaces such as compacted clay and gravel, all as measured on a horizontal plane.

Impervious Area Charge shall mean the charge per one thousand (1,000) square feet of impervious area to recover those costs which vary with the quality or quantity of the stormwater, including operation and maintenance of the storm sewer system, street cleaning, and debt retirement on additions to the Public Stormwater System and capitalized maintenance equipment.

Impervious Surface means an area that releases as run-off all or a large portion of the precipitation that falls on it, except for frozen soil. Rooftops, sidewalks, driveways, parking lots, gravel storage areas, underground structures with less than two and one half (2.5) feet of pervious material installed above the outside top of the concrete structure and streets are examples of surfaces that typically are impervious.

Infiltration for the purposes of this ordinance, refers to any precipitation that does not leave the site as runoff.

Infiltration System means a device or practices such as a basin, trench, rain garden or swale designed specifically to encourage infiltration, but does not include natural infiltration in pervious surfaces such as lawns or minimal infiltration from practices such as swales or road side channels designed for conveyance and pollutant removal only.

Karst Feature means an area or surficial geologic feature subject to bedrock dissolution so that it is likely to provide a conduit to groundwater, and may include caves, enlarged fractures, mine features, exposed bedrock surfaces, sinkholes, springs, seeps or swallets.

Land-Disturbing Construction Activities means any man-made alteration of the land surface resulting in a change in the topography or existing vegetative or non-vegetative soil cover, that may result in runoff and lead to an increase in soil erosion and movement of sediment or other debris into waters of the state. Land-disturbing construction activities include, but are not limited to, clearing and grubbing, demolition, excavating, pit trench dewatering, filling and grading activities.

Land in its Natural Undeveloped State means land, which has runoff characteristics equivalent to runoff curve number (CN) 68, as used in the runoff methodology promulgated by the U.S. Natural Resources Conservation Service National Engineering Handbook.

Land Treatment Measures are structural or vegetative practices, or combinations of both, used to control erosion and sediment production, including areas to be protected by fencing.

Lightly Disturbed Site means a site where an area of land is subjected to minor compaction due to the limited removal of vegetative cover or earthmoving activities.

MEP or "Maximum Extent Practicable" means a level of implementing best management practices in order to achieve a performance standard specified n this chapter which takes into account the best available technology, cost effectiveness and other competing issues such as human safety and welfare, endangered and threatened resources, historic properties and geographic features. MEP allows flexibility in the way to meet the performance standards and may vary based on the performance standard and site conditions.

Non-Erosive Velocity means a rate of flow of stormwater runoff, usually measured in feet per second, which does not erode soils. Non-erosive velocities vary for individual sites, taking into account topography, soil type, and runoff rates.

PDF means portable document format, a digital file format that allows for ease of document exchange.

Peak Flow is the maximum rate of flow of water at a given point in a channel, watercourse, or conduit resulting from a predetermined storm or flood.

Permittee means any person, corporation, limited liability company, partnership or other entity granted a permit under this ordinance.

Person shall mean any individual, firm, company, partnership, municipality, association, corporation, cooperative, society, institution, enterprise, government agency, or other entity.

Pervious Area means an area that releases as runoff a small portion of the precipitation that falls on it and shall be a minimum of two and one half (2.5) feet deep. Lawns, gardens, parks, forests or similar vegetated areas are examples of surfaces that typically are pervious. Additionally, pervious pavement areas (concrete, asphalt or modular block), which are specifically designed to infiltrate stormwater may be considered to be pervious but may not be considered to be a best management practice.

Pervious Area Charge shall mean the charge per one thousand (1,000) square feet of pervious area to recover those costs which vary with the quality or quantity of the stormwater, including operation and maintenance of the storm sewer system, street cleaning, and debt retirement on additions to the Public Stormwater System and capitalized maintenance equipment.

Plan means an erosion control plan as required by Sec. 37.08 or a stormwater management plan as required by Sec. 37.09.

Post-development refers to the extent and distribution of land cover types anticipated to occur under conditions of full development of the submitted plan. This term is used to match pre- and post-development stormwater peak flows as required by the ordinance.

Pre-development refers to the extent and distribution of land cover types present before the initiation of land-development activity, assuming that all land uses prior to land-disturbing activity are in "good" condition as described in the Natural Resources Conservation Service Technical Release 55, "Urban Hydrology for Small Watersheds" (commonly known as TR-55). This term is used to match pre- and post-development stormwater peak flows as required by the ordinance. In a situation where cumulative impervious surface created after the adoption of this ordinance exceeds the twenty thousand (20,000) square feet threshold, the pre-development conditions shall be those prior to any land disturbance.

Protective Area means an area of land that commences at the top of the channel of lakes, streams, and rivers or at the delineated boundary of wetlands, and that is the greatest of the widths defined in Section 37.09(3)(h), as measured horizontally from the top of the channel or delineated wetland boundary to the closest impervious surface. However, protective area does not include any area of land adjacent to any stream enclosed within a pipe or culvert such that runoff cannot enter the enclosure at this location.

Public Lands means all government owned lands, which are subject to regulation by the City, including, but not limited to:

(a) All lands owned or controlled by the City;

(b) All lands which are owned by another unit of government.

Public Stormwater System shall mean all public storm sewers, drainage conduits, drainage conveyances, private non-exclusive drainage easements, public non-exclusive drainage easements, roadside ditches or curb and gutter on public rights-of-way, public greenways, and public parkways and all improvements thereto which by this section are constituted as the property and responsibility of the Stormwater Utility. These are to be operated to, among other things, conserve water, control discharges necessitated by rainfall events, incorporate methods to collect, convey, store, absorb, inhibit, treat, use or reuse water to prevent or reduce flooding, over-drainage, environmental degradation and water pollution or otherwise affect the quality and quantity of discharge from such system.

Redevelopment means any construction, alteration or improvement exceeding four thousand (4,000) square feet of land disturbance performed on sites where the proposed development is replacing older development. (Am. by ORD-15-00037, 4-8-15)

Residential Development, for the purpose of determining infiltration requirements, shall be considered to be one (1) or two (2) family units. Apartment complexes or condominiums in excess of this size shall be considered to be commercial development/non-residential.

Resurfacing means an improvement project on a parking lot where the improvement includes prepping and cleaning the affected area, milling the existing asphalt, adjusting drainage structures and installing a new layer of asphalt over the prepared base. (Cr. by ORD-15-00037, 4-8-15)

Roadside ditch shall mean a ditch located within the public right-of-way to an unimproved street.

Runoff means stormwater or precipitation including rain, snow, ice melt or similar water that moves on the land surface via sheet or channelized flow

Runoff Curve Number (RCN) has the meaning used in the runoff calculation methodology promulgated by the United States Natural Resources Conservation Service Engineering Field Manual for Conservation Practices.

Sediment is solid material, both mineral and organic, that is in suspension, is being transported, or has been moved from its site of origin by air, water, or ice, and has come to rest on the earth's surface at a different site.

Sedimentation means the deposition of eroded soils at a site different from the one where the erosion occurred.

Sensitive Area means lakes, perennially flowing streams, or wetlands subject to regulation by the City.

Sheet and Rill Erosion means a loss of soil caused by sheet flow or shallow concentrated flow, and characterized by an absence of channeling or a relatively uniform loss across the exposed upper layer of the soil or shallow irregular scouring of the soil surface.

Site means the bounded area described in an erosion control plan or stormwater management plan.

Slope means the net vertical rise over horizontal run, expressed as a percentage, which represents a relatively homogeneous surface incline or decline over the area disturbed.

Soil Loss is soil moved from a given site because of land-disturbing activities or by the forces of erosion and re-deposited at another site on land or in a body of water.

Soil Loss Rate(s) means the rate, usually measured in tons per acre per year, at which soil is transported beyond the perimeter of a given control site and which occurs as a result of sheet and rill erosion. This term does not apply to soil movement resulting from concentrated flow such as gully or bank erosion.

Standards Oversight Council (SOC). The Wisconsin Standards Oversight Council (SOC) is a group comprised of regulatory and technical experts, which creates technical standards for stormwater management practices. This group is supported by the WDNR. Further information is available on the WDNR website at http://dnr.wi.gov/runoff/stormwater/techstds.htm.

Storm Building Sewer shall mean that part of the stormwater system which receives the discharge from building storm drains and sub-drains, yard drains, parking lots, yard fountains and other permissive sources and conveys such waters to a public stormwater system, private stormwater system or other approved point of disposal.

Storm Events mean the precipitation amounts that occur over a 24-hour period that have a specified recurrence interval for Dane County, Wisconsin. For example, one-year, two-year, 10-year and 100-year storm events mean the precipitation amounts that occur over a 24-hour period that have a recurrence interval of one, two, 10 and 100 years, respectively.

Storm Sewer shall mean a drain or sewer for conveying water, groundwater, subsurface water, or unpolluted water from any source.

Stormwater means the flow of water which results from, and which occurs during and immediately following, a rainfall, snow- or ice-melt event.

Stormwater Management means any measures taken to permanently reduce or minimize the negative impacts of stormwater runoff quantity and quality after land-development activities.

Stormwater Runoff is the water derived from rains falling or snowmelt or ice melt occurring within a tributary drainage basin, flowing over the surface of the ground or collected in channels, watercourses or conduits.

Stormwater Utility means the utility established under this ordinance for the purpose of managing stormwater and imposing charges for the recovery of costs connected with such stormwater management.

Street Reconstruction means removal and replacement of the road sub-grade, where existing stormwater conveyance systems are modified.

Structure means any human-made object with form, shape and utility, either permanently or temporarily attached to, placed upon, or set into the ground, streambed or lakebed.

Structural Measures are works of improvement for land stabilization to prevent erosion, sediment or runoff.

Type II Distribution means a rainfall type curve as established in the "United States Department of Agriculture, Soil Conservation Service, Technical Paper 149, published 1973", which is incorporated by reference for this chapter. The Type II curve is applicable to all of Wisconsin and represents the most intense storm pattern.

Unimproved Street shall mean a street without a curb and gutter.

Unnecessary Hardship means that circumstance where special conditions, which were not self-created, affect a particular property and make strict conformity with regulations unnecessarily burdensome or unreasonable in light of the purposes of this ordinance.

Unpolluted Water is water of quality equal to or better than the effluent criteria in effect or water that would not cause violation of receiving water quality standards and would not be benefited by discharge to the sanitary sewers and wastewater treatment facilities provided.

USLE means universal soil loss equation.

37.05 THE PUBLIC STORMWATER SYSTEM.

(1) Purpose and Necessity. The Common Council of the City of Madison finds that the management of stormwater and other surface water discharges within and beyond the Yahara River, the Sugar River, Door Creek and other bodies of water within the City is a matter that affects the health, safety, welfare and well-being of the City, its residents and businesses and others in the surrounding area. Failure to effectively manage stormwater

affects the sanitary sewer utility operations of the City by, among other things, increasing the likelihood of infiltration and inflow into the sanitary sewer system. Surface water runoff may cause erosion of lands, threaten residences and businesses with water damage, and create environmental damage to the rivers, streams, and other bodies of water within and adjacent to the City. A system for the collection and disposal of stormwater provides benefits to all properties within the City and surrounding areas, including those properties not currently served by the system. Beyond designated initial Capital Expenses for system improvements, the cost of operating and maintaining the City stormwater management system and financing necessary repairs, replacements, improvements and extensions thereof should, to the extent practicable, be allocated in relationship to the services received from the system. In order to protect the health, safety and welfare of the public, the Common Council hereby exercises its authority to establish a stormwater utility and establish the rates for stormwater management services. Nothing in the foregoing shall affect the determination of the Common Council to provide for the payment of designated initial capital expenses for system improvements by other necessary and convenient means. In promulgating the regulations contained in this section, the City is acting pursuant to authority granted by Wis. Stat. chs. 62 and 66 including, but not limited to, Secs. 62.04, 62.11(5), 62.16(2), 62.18, 62.23(6), 66.0809, 66.0811, 66.0813, 66.0821, and 66.0627. (Am. by ORD-17-00030, 3-8-17)

(2) Creation and Supervision. The purpose of this section is to state the intention of the City to provide and maintain a public stormwater system capable of conveying stormwater from public lands and right-of-ways and to dispose of such water in a manner that the health, safety and welfare of the public shall be protected. There is here established a stormwater utility within the purview of Wis. Stats § 66.0821.

The Administrative Authority shall be responsible for the maintenance and management of the public stormwater system under the direction of the Board of Public Works.

(3) Authority. The City, acting through the stormwater utility, may acquire, construct, lease, own, operate, maintain, extend, expand, replace, clean, dredge, repair, conduct, manage, and finance such utilities, operations and activities, as are deemed by the City to be proper and reasonably necessary for a system of storm and surface water management. These facilities may include, without limitation due to enumeration, surface and underground drainage facilities, sewers, watercourses, retaining walls, ponds, streets, roads, ditches and such other facilities relating to collection, runoff and retention. This includes facilities that will support a stormwater management system, whether such facilities are owned and operated directly by the City or are provided under statutory or contractual provisions and furnishing of which facilities create or impose a cost or charge upon the City for the services afforded by such facilities.

(4) Rates and Charges.

(a) It is hereby determined and declared to be necessary and conducive for the protection of the health, safety, and welfare of the public to charge and collect charges or fees upon all lots, lands and premises served or benefited by the stormwater system of the City.

(b) There shall be established a charge for stormwater services to all lots and parcels of land within the municipal boundaries of the City. The charge schedule shall be made up of a Customer Charge, an Impervious Area Charge, and a Pervious Area Charge.

(c) Measurement of Impervious Area and Pervious Area. The Administrative Authority shall measure the total area, impervious area, and pervious area of each lot or parcel of land within the City using aerial photography, site or building plans

submitted by the property owner, actual on-site surveys, or, in the case of single family and duplex residential lots, using information from the data base of the City Assessor and formulas.

Individual property owners may submit site and building surveys to the Administrative Authority, which more accurately determine the total area, impervious area and/or pervious area. Property owners may appeal the measurements of the Administrative Authority to the Board of Public Works.

(d) Adjustments to the Measured Impervious and Pervious Areas. Individual property owners may submit, to the Administrative Authority, site and building surveys or documentation of mitigation or treatment measures which more accurately determine or reflect the total area, impervious area and/or pervious area. The Administrative Authority may reduce the measured impervious area and/or pervious area after taking into consideration the volume or peaking of stormwater or surface water discharge that is caused by the area of impervious surfaces, topography, and other surface characteristics, and the extent and reliability of mitigation or treatment measures that demonstrably and materially reduce the costs to the Stormwater Utility. It shall be the burden of the property owner to demonstrate by a preponderance of the evidence that a fee adjustment is warranted. Any such adjustments shall be made in accordance with the Rate Adjustment Policy established by the Administrative Authority and approved by the Common Council.

(e) Appeals. The appeal process is as provided in Sec. 37.13 of this ordinance. The pendency of an appeal of a decision or determination of the Administrative Authority shall not excuse payment of any stormwater charge. If a decision or determination of the Administrative Authority is reversed or modified the Board may grant a refund to the aggrieved party, prorated and retroactive to the date on which an application for fee adjustment was filed with the Administrative Authority.

(f) Rate Structure. The City Engineer shall, consistent with the standards set forth in Wis. Stat. Sec. 66.0821(4), annually set the Customer Charge, Impervious Area Charge and Pervious Area Charge rates. These rates shall be set annually, and will go into effect upon approval by the Board of Public Works and the Common Council.

(g) Collection of Customer Charge, Impervious Area Charge and Pervious Area Charge. The Administrative Authority shall divide the City into sections for billing purposes, which shall coincide with the billing schedule of the Water Utility. The Customer Charge, Impervious Area Charge and Pervious Area Charge shall be payable to the City Treasurer at the same time that the Water Utility bills are payable. All charges established by this Ordinance shall be a lien on the property served pursuant to Wis. Stat. §§ 66.0809, 66.0811, 66.0813 and 66.0821.

(h) The bills for stormwater services shall be dated and issued to users. A late payment charge of one percent (1%) of any unpaid balance shall be assessed and added to the bill for such services if the amount of the bill is not paid within twenty (20) days thereafter (the "due date") and an additional late payment charge of one percent (1%) of the unpaid balance of the bill plus any previously assessed late payment charge remaining due at the end of every monthly anniversary of the due date shall be assessed and added to bills then remaining unpaid. (Am. by ORD-14-00150, 9-12-14)

(5) Transfer of Assets and Outstanding Debt.

(a) The land rights and improvements of the City, or such rights determined to exist, for the following components of the public stormwater system are hereby transferred to the land assets of the Madison Stormwater Utility.

1. Storm sewers;

2. Inlets, catch basins, retention ponds, and related appurtenances;
3. Access structures;
4. Greenways.

(b) Effective January 1, 2001, the Stormwater Utility shall assume the responsibility for debt service on all outstanding general obligation debt issued for storm drainage purposes

(6) Additions to the Public Stormwater System.

(a) Additions to and reconstruction of the Public Stormwater System shall be financed by the Stormwater Utility except as follows:

1. Inlets, inlet leads, curb and gutter, manholes not located on trunk system, temporary corrugated facilities, and temporary ditching, unless said construction is incidental to the storm sewer installation.
2. The construction of greenways required by Sec. 16.23, MGO.
3. Storm sewer constructed in accordance with Sec. 7.47, MGO.
4. Public drainage systems required by Sec. 16.23(9)(d)5., MGO.
5. Any public drainage system installed to benefit redevelopment, as that term is defined in Sec. 37.04.

(b) A determination of the type of storm drainage system to be used shall be made by the Administrative Authority on the basis of required capacity, economics, and use of abutting lands. Additions to the Public Stormwater System shall, in general, be designed and constructed to convey stormwater, which would drain from the upstream lands as a result of a storm that could be expected to occur once in ten (10) years, except that culvert crossings in greenway drainage systems shall be designed for the twenty-five (25) year event peak flow.

Where, in the opinion of the Administrative Authority, a situation exists which will result in development or creation of an enclosed depression (no safe overflow path during times when the storm sewer is at capacity), and where the only outlet is the storm sewer system, then the storm sewer system shall be designed to handle the runoff that can be expected to result from a one hundred (100) year storm event or larger depending on the risk of property damage and public safety, as determined by the Administrative Authority. For design purposes, the acceptable flooding associated with this design event shall not leave the public right of way or public easements.

The duration of these design storms shall approximate the time that the water takes to flow through the storm drainage system, but in any event, not be less than thirty (30) minutes. In the event that the area under consideration is in a flood plain, then the drainage facilities shall be designed to convey the one hundred (100) year regional flood without raising the flood plain water surface more than 0.01 feet.

(Am. by ORD-17-00037, 3-29-17)

(c) Inspection of Additions to the Public Stormwater System. The Administrative Authority shall inspect the construction of all public sewers and all private sewers, including building sewers, from the property line to the public stormwater system and shall inspect the construction of private sewers and best management practices within private property when deemed necessary by the Administrative Authority.

(7) Connection to the Public Stormwater System.

(a) Permit Required for Connection, Disconnection or Abandonment.

1. General Requirements. No person shall do any work whatsoever for the purpose of connecting, disconnecting or abandoning an existing connection to the public stormwater system or existing building sewers or existing private sewers, or for the purpose of laying building sewers or private sewers, without first obtaining from the Administrative Authority a

written permit to connect, disconnect or abandon a connection to the public stormwater system. The street curb and gutter is considered to be part of the stormwater conveyance system. Curb discharges via pipes, tubes, flumes or "curb scupper" devices of any type of discharge, including sump pumps, roof drains or any other discharge, shall require a permit to connect to the stormwater system.

All private sewers and all building sewers between the property line and terminating at the public stormwater system shall be either installed by City forces, City contract, contract under the supervision of the Board of Public Works, or by a Contractor approved by the Board of Public Works for sewer construction, or a plumber qualified by the Board of Public Works (terrace only) and inspected by City forces. All work shall comply with the City of Madison Standard Street and Sewer Specifications and General Conditions.

2. Stormwater System Connection Permit.
   a. Permit Fee. For each original permit to connect to the public stormwater system, the applicant shall pay to the City Treasurer an application fee of one hundred dollars ($100) and conform to the procedures and regulations of this Subsection. Should the stormwater system connection permit be for dry weather flow (a foundation drain or sump pump system) an additional surcharge fee shall be charged consistent with the following:
      i. For peak discharges up to a maximum of 225 gallons per minute, no surcharge fee.
      ii. For peak discharges over 225 gallons per minute up to 675 gallons per minute, a surcharge fee of five hundred ($500) dollars shall be charged.
      iii. For peak discharges in excess of 675 gallons per minute, the Administrative Authority shall first determine if the system can accept the proposed discharge rate. Should the discharge be approved, the surcharge fee shall be one thousand ($1,000) dollars.
   b. The stormwater system connection permit issued under this Subdivision shall be on the premises and in the hands of the person completing the connection.
   c. Prior to allowing connections to the public stormwater system, for the purpose of a non-stormwater discharge (not including residential sump pump discharges from building foundation drains), the applicant shall first obtain a permit from the City Health Department in accordance with Sec. 7.47, MGO.
3. Stormwater System Disconnection or Abandonment Permit.
   a. Permit Fee. For each original permit to disconnect or abandon a public stormwater system connection, the applicant shall pay to the City Treasurer an application fee of one thousand ($1,000) dollars and conform to the procedures and regulations of this Subsection. Upon a successfully inspected disconnection or abandonment of the private connection and closure of the permit application, the City shall refund an amount of not more than nine hundred ($900) dollars to the applicant.
   b. As connections to the public stormwater system come in almost infinite types and combinations, the approved method of disconnection or abandonment shall be clearly defined in the permit conditions.

c. The stormwater system disconnection or abandonment permit issued under this Subdivision shall be on the premises and in the hands of the person completing the disconnection or abandonment.

d. All conditions of the permit must be adhered to and the disconnection or abandonment must be successfully inspected by the City Inspector to obtain any refund of the deposit.

e. The permit issued under this Subdivision shall be valid for 60 days from the date of issuance unless the permit is extended in writing by the City Engineer. Following an additional 60 days after the expiration of the permit, the permit shall be closed and any deposits remaining, less any inspection fees or other permit costs, will be returned. Upon closing of the permit, the owner must apply for a new permit to complete the disconnection or abandonment.

(b) Charges, Specifications and Maintenance of the Connection. The Administrative Authority shall review all parking facility permit applications and applications for "commercial sites" as defined by Sec. 10.08, MGO, hereinafter termed the "site." Single and two family detached dwellings shall be reviewed by the Director of the Building Inspection Division.

1. All sites, which include ten thousand (10,000) square feet or less of impervious surface, may be permitted to drain over the sidewalk with the provision that the site shall be graded so that the resultant flow shall be distributed over at least ten (10) linear feet of sidewalk.

2. All sites, which include over ten thousand (10,000) square feet of impervious surface, shall be designed to convey stormwater drainage to the public stormwater system by means of a private storm sewer or storm building sewer. Where the existing topography is such that the stormwater cannot practically be conveyed to the storm sewer facility or over the sidewalk by means of gravity, and where the stormwater has drained historically onto another parcel of land, the Administrative Authority may grant site drainage approval conditioned on the fact that the City is properly relieved of responsibility for any costs of damage to other lands attributed to said stormwater flow.

3. As part of all plat or CSM developments, where the area draining to a single discharge point from a swale or other conveyance to a sidewalk or driveway exceeds fifty-five thousand (55,000) square feet the area shall be served with public storm sewer prior to the discharge to the public right-of-way. Serving of this area with storm sewer shall be at the expense of the developer proposing the improvement.

4. When the Administrative Authority deems that the existing storm sewer is unavailable, or that connection to the storm sewer is not in the public interest, he/she may permit drainage across the sidewalk on a temporary or permanent basis.

5. When a site being reviewed by the Administrative Authority proposes to continue existing drainage patters and discharge stormwater runoff onto property neither under the applicants control (via ownership, easement or agreement) nor onto publicly owned property, the Administrative Authority shall require the applicant to provide documentation that they have made significant efforts to obtain the right to discharge this stormwater onto this property. If no right can be obtained, the applicant shall be required to mitigate the increased volume of discharge on their property prior to making this discharge. Mitigation shall consist of implementation

of a stormwater practice that shall match the existing volumetric discharges from the applicant's property to other lands not under their control in storm events including the 1, 2, 5 & 10-year storm events.

6. The Administrative Authority shall review and approve the location, direction of flow, depth, size and type of material to be used in the private storm sewer or storm building sewer. No storm sewer lateral shall be less than six (6) inches in diameter.

7. The property owner shall be responsible for the cost of installation of the private storm sewer or storm building sewer from his/her property line to the public stormwater system. The cost of installation shall include excavation, pipe laying, backfilling, and street restoration where required under the supervision of the Administrative Authority and in accordance with the City of Madison Street and Sewer Specifications.

8. The maintenance of the private storm sewer or building storm sewer, and/or best management practices shall be the responsibility of the property owner. Every private storm sewer, building storm sewer, and best management practice shall be properly installed and maintained in good working condition, free from defects, leaks and obstructions, and in accord with the maintenance agreement recorded against the property, if applicable.

   a. Where existing private storm sewer, building storm sewer, and/or best management practices are in a state of disrepair or present an obstruction to the drainage system, and the resulting drainage overflows cause damage to the roadway or adjacent public or private lands, the Administrative Authority is authorized to resolve the drainage obstruction. Authorized actions include but are not limited to: removal of any drainage obstructions, at existing inlets, at existing ditch lines and the like; regrading of existing ditch lines; and repairing best management practices to allow for positive drainage. The Administrative Authority may proceed as follows to complete the work:

      i. Where, in the opinion of the Administrative Authority, a situation exists that could adversely affect the health and safety of the public or cause significant damage to public or private property, the Administrative Authority is authorized to resolve the situation and the City will special charge the completed work in accord with Sec. 4.09(13), MGO.

      ii. Where, in the opinion of the Administrative Authority, the situation affects only the property on which the problem exists, and the needed repair is not to a best management practice that is part of the approved stormwater management plan, the Administrative Authority may proceed to complete the work provided the owner of the affected property signs a completed waiver of Notice and Hearing for imposition of a special charge to pay for the cost of the work.

      iii. Where, in the opinion of the Administrative Authority, the situation on one (1) property affects the drainage on other properties but does not threaten the health and safety of the public or threaten to cause significant damage to public or private property, or where the required maintenance is on a best management practice that is part of the approved stormwater management plan, the Administrative Author-

ity may proceed in accord with Sec. 27.05, MGO, and order the owner of the property causing the problem to correct the situation.

b. Any property owner required to have a Best Management Practice or a maintenance agreement on the property shall submit to the City Engineer an annual report reviewing the condition of that practice and the maintenance performed during the past calendar year. This report shall be submitted by June 1 and be sealed by a Professional Engineer currently licensed in the State of Wisconsin.

Where a recorded maintenance agreement exists, which specifies the annual inspection requirements, that agreement shall be the minimum information required. Where a maintenance agreement does not exist, the City Engineer shall make available inspection forms and maintenance guidelines for the most common types of stormwater management BMP's. These will be considered the minimum inspection and maintenance standards acceptable for the specific sites developed prior to maintenance agreements being required. The- inspection forms will also be accepted for those properties with maintenance agreements, provided the minimum inspection and maintenance standards match that proscribed in the agreement.

(8) Discharges to the Public Stormwater System.

(a) Definitions. In addition to the terms set forth in this Chapter, the definitions set forth in Sec. 7.47(2) shall apply to this Subsection.

(b) Non-storm Discharges. All non-stormwater discharges to the public stormwater system shall be approved and permitted by the Health Department, as required and authorized under Sec. 7.47.

(c) Illicit Discharges. All non-stormwater discharges to the public stormwater system that are either not permitted under Sec. 7.47 or are not required to have a permit (this includes, but is not limed to, foundation drains, sump pumps, and some air conditioning condensation discharges) shall be considered to be illicit and are hereby prohibited.

(d) Clean-up or Repair of Wastes Discharged to the Public Stormwater System. The Administrative Authority shall work cooperatively with the Health Department to prevent, repair, and remove pollutants/waste from the public stormwater system. Should a discharge of pollutant/waste to the public stormwater system be caused by any individual, this person is responsible for immediately cleaning up any spilled material to prevent it from becoming a hazard to health or safety, or directly or indirectly causing pollution to the lakes and streams under the jurisdiction of the City of Madison.

(e) Notification. Spills or the accidental release of hazardous materials or potentially polluting substances at a site of a quantity or nature that cannot be adequately cleaned up by the responsible person shall be reported immediately to the emergency number for the Police department (911) so that assistance can be provided by the proper agency.

(f) Access. Where the Administrative Authority, under the direction of, or in consultation with and the approval of, the Health Department, has determined that a situation exists that could adversely affect the health and safety of the public or that a potential waste/pollutant discharge poses a significant threat of pollution to the waters of the State, and to remedy this situation access to privately owned property is required, the Administrative Authority shall have the right to enter private property for the specific purpose of remedying the potential discharge of waste/pollutants.

(g) Financial Liability. The person responsible for the release, escape or discharge of potentially polluting substances/wastes shall be held financially liable for the cost of clean-up or attempted clean-up deemed necessary or desirable and undertaken by the City of Madison, or its designated agents. This clean up shall be done only where the Administrative Authority, under the direction of, or in consultation with and the approval of, the Health Department, has determined that a situation exists that could adversely affect the health and safety of the public or that a potential waste/pollutant discharge poses a significant threat of pollution to the waters of the State. When the Administrative Authority acts consistent with this guidance it shall be determined to be acting in good faith. The costs associated with these remediation efforts shall be recovered as a special charge against the property served pursuant to Sec. 4.09(13), MGO.

(9) Vehicular and Pedestrian Crossings of the Public Stormwater System.

(a) New Private Driveway Approaches. As stated in Sec. 10.08(5)(f) of the Madison General Ordinances and Wis. Stat. § 88.87(3) all new private driveway approaches (entrances) from unimproved public roadways into private property, shall have drainage facilities such as culverts and roadside ditch grading done in accordance with requirements of the Board of Public Works. Ditching and culverts required by the Board of Public Works shall be done at the property owner's expense.

The Administrative Authority shall determine said requirements which shall include, but are not limited to; size, length and type of culvert, alignment and grade of culvert, type of embankment needed at culvert end, roadside ditching and grading required to provide roadside drainage. The construction shall be done by and at the expense of the property owner and the Administrative Authority will provide engineering and inspection.

(b) Existing Private Drainage Systems. The maintenance, repair and replacement of private drainage systems, including, but not limited to, ponds, bioretention systems, rain gardens, pipes, inlets, filters, basins, culverts for private driveways, and roadside ditches along unimproved public roadways, are the responsibility of the adjacent private property owner. Where existing private drainage systems present an obstruction to the drainage system, and the resulting drainage overflows cause damage to the roadway or adjacent public or private lands, the Administrative Authority is authorized to correct any drainage obstruction. Authorized actions include but are not limited to removal of any drainage obstructions in existing ditch lines and regrading of existing ditch lines to allow for positive drainage. The Administrative Authority may proceed as follows to complete the following work:

1. Where, in the opinion of the Administrative Authority, a situation exists that could adversely affect the health and safety of the public or cause significant damage to public or private property, the Administrative Authority is authorized to resolve the situation and the City will special charge the completed work in accord with Sec. 4.09(13), MGO.
2. Where, in the opinion of the Administrative Authority, the situation affects only the property on which the problem exists, the Administrative Authority may proceed to complete the work provided the owner of the affected property signs a completed waiver of Notice and Hearing for imposition of a special charge to pay for the cost of the work.
3. Where, in the opinion of the Administrative Authority, the situation on one (1) property affects the drainage on other properties but does not threaten the health and safety of the public or threaten to cause significant damage to public or private property, the Administrative Authority may proceed in accord with Sec. 27.05, MGO, and order the owner of the property causing the problem to correct the situation. It is noted here that

for this scenario to be utilized the drainage problem must be clearly limited to one property affecting other properties. In the more common case, of drainage problems on multiple properties affecting the drainage for the area, paragraph 4. below will apply.

4. Where, in the opinion of the Administrative Authority, the situation is such that drainage problems are caused by a poorly maintained drainage system throughout the area, and it is only possible to correct the situation through regional improvements made on multiple properties, the Administrative Authority may propose an assessment improvement district to correct the situation.

(10) Public Harvesting of Foliage or Seeds from Storm Utility Lands.

(a) Request to Harvest Plant Materials. A City of Madison resident or volunteer may make a written request to the Administrative Authority for the harvesting of foliage or gathering of wildflower or prairie seeds from lands owned and operated by the City of Madison stormwater utility. Each instance or location must be made as a separate request, reviewed, and approved prior to any harvesting or gathering activities. Harvested materials must be used for non-profit purposes and cannot be resold. The person or persons allowed to harvest materials from City of Madison stormwater utility lands must also complete a City of Madison volunteer waiver. Any damage caused by harvesting activities other than removal of the proscribed plant or seed materials must be repaired to the satisfaction of the Administrative Authority.

37.06 LAND-DISTURBING ACTIVITIES SUBJECT TO EROSION CONTROL AND STORMWATER MANAGEMENT.

(1) General Requirement. Any person who undertakes, commences or performs land-disturbing activities, or who permits or directs another person to do the same, on land subject to this section, shall be subject to this ordinance.

(2) Land-Disturbing Activities Subject to Erosion Control. Unless expressly exempted by Sec. 37.06(4) an erosion control permit under Sec. 37.11 shall be required and the erosion control provisions of Sec. 37.08 shall apply to any of the following activities in the City:

(a) Land-disturbing activity in excess of four thousand (4,000) square feet resulting in the loss or removal of protective ground cover or vegetation;

(b) Land-disturbing activity that involves the excavation or filling, or any combination thereof, in excess of four hundred (400) cubic yards of material;

(c) Any public (federal, state or local) street, road or highway that is constructed, enlarged, relocated or substantially reconstructed;

(d) Any new public or private roads or access drives longer than one hundred twenty-five (125) feet;

(e) Land-disturbing activity that disturbs more than one hundred (100) lineal feet of road ditch, grass waterway or other land area where surface drainage flows in a defined open channel; including the placement, repair or removal of any underground pipe, utility or other facility within the cross-section of the channel;

(f) Any subdivision of land as defined by Sec. 16.23, MGO, entitled "Land Subdivision Regulations" which requires plat approval or any certified survey;

(g) Any use by a unit of government or by public or private utilities in which underground pipe or facilities will be laid, repaired, replaced or enlarged for a distance of over three hundred (300) feet.

(h) Land-disturbing activity that disturbs less than four thousand (4,000) square feet of land, including the installation of access drives, that the Administrative Authority determines to have a high risk of soil erosion or water pollution, or that may significantly impact a lake, stream, wetland, or other sensitive area. Examples of activities with a high risk of soil erosion or water pollution may include, but are

not limited to, land disturbance on erodible soil or disturbance adjacent to lakes, rivers, streams or wetlands. All such determinations made by the Administrative Authority shall be in writing, unless waived by applicant.

(3) Land-Disturbing Activities Subject to Stormwater Management. Unless otherwise exempted by Sec. 37.06(4), a stormwater management permit under Sec. 37.11 shall be required, and the noted stormwater management provisions of Sec. 37.09 shall apply, for the following activities within the City:

(a) Development. Any development(s) commenced after the adoption date of this ordinance that either

1. Results in the addition of twenty thousand (20,000) square feet of new impervious surface to the site; or,
2. Arises from the development of a previously developed or partially developed site(s) and results in a new site(s) condition with a total cumulative addition of twenty thousand (20,000) square feet of new impervious surface, since August 1, 2001, shall meet all the provisions of Sec. 37.09. (Am. by ORD-15-00037, 4-8-15)

(b) Land Subdivision. Any subdivision of land, as defined by Sec. 16.23(2) of the Madison General Ordinances, which requires plat approval or any certified survey for property intended for commercial or industrial use.

(c) Redevelopment. Any development that meets the standards for redevelopment, as defined in Sec. 37.04, shall meet the stormwater management performance standards of Sec. 37.09(1), (2), (3)(a) and (b).

(d) Other Land-Development Activities. Any development activity, including but not limited to the redevelopment or alteration of existing buildings and other structures, which the Administrative Authority determines may exceed the safe conveyance capacity of the existing drainage facilities and/or receiving body, significantly increase downstream runoff volumes, flooding, soil erosion, water pollution or property damage, or significantly impact a lake, stream, wetland, or other sensitive area, shall meet all the provisions of Sec. 37.09.

(e) Site Disturbance/Grading. Any land disturbance equal to or greater than one (1) acre, regardless of the amount of impervious area that is part of the project after construction, shall be subject to Sec. 37.08 and all the provisions of Sec. 37.09.

(f) Street Construction. Any street construction or reconstruction exceeding twenty thousand (20,000) square feet of new impervious area that is not directly associated with a new plat or CSM development is subject to Secs. 37.09(1), (2) & (4).

(g) Resurfacing. A site improvement project that requires zoning approval and has thirty thousand (30,000) square feet or more of parking lot resurfacing as defined in Sec. 37.04 shall meet the stormwater management performance standards of Sec. 37.09(1), (2), (3)(a) and (3)(b). (Cr. by ORD-15-00037, 4-8-15)

(4) Exemptions and Clarifications.

(a) The following activities are exempt from all the requirements of this ordinance:

1. Any activity directly related to the planting, growing and harvesting of agricultural crops;
2. Construction of agricultural buildings provided the resulting new total impervious surface area does not exceed twenty thousand (20,000) square feet.

(b) The following activities are exempt from the construction site erosion control provisions of Sec. 37.06(2):

1. One- and two-family dwelling units regulated under the Wisconsin Uniform Dwelling Code; The Director of the Building Inspection Division shall

regulate these sites during the period that residential building permits are in effect, consistent with the most current Wisconsin Uniform Dwelling Code requirements.

2. Construction of public buildings and buildings that are places of employment relating to activities specifically regulated by the Wisconsin Department of Commerce during the period that Department of Commerce-authorized building permits are in effect and specific erosion control procedures on these construction sites are effective, pursuant to Wis. Stat. § 101.1205.
3. State building projects subject to Wis. Stat. § 13.48 (13) and state highway projects subject to Wis. Admin. Code ch. Trans 401.
4. Industrial activities wherein the disturbance is an ongoing part of the daily activity on the site, such as a nonmetallic mining operation, materials storage yards, etc. However, these activities could be required to obtain a permit for construction site erosion control from time to time when doing temporary construction to alter the site or the facility such as constructing a new building, adding a new roadway, or as identified in Secs. 37.06(3) and 37.06(4)(c). Furthermore, these industrial activities are still subject to the Stormwater Management requirements of this Ordinance, with an annual modified fee schedule as described in Paragraph 37.11(1)(a)4..

(c) Notwithstanding the language of Sec. (4)(b)2., activities unrelated to actual building construction shall be subject to all the requirements of this ordinance. These activities shall include, but are not limited to:

1. Land-disturbing activity prior to excavation for foundation work;
2. Landscaping;
3. Installation of driveways, parking areas and sidewalks;
4. Earthwork on an area greater than four thousand (4,000) square feet on sites not directly related to structural concerns; and
5. Development of ponds and channelized watercourses, commercial parks, and landing strips or airport runways.

(d) Notwithstanding the language of Sec. (4)(b)3., the following activities are subject to the requirements of this ordinance:

1. Buildings and activities of municipalities;
2. Buildings and activities of school districts;
3. Local highway projects;
4. Municipal streets; and
5. County roadways.

37.07 PERMITTING OR CAUSING EROSION PROHIBITED.

No person shall cause or permit erosion or the tracking or dropping of dirt or sediment deposits on adjacent land, public streets or bodies of water from any land whether otherwise subject to this ordinance or not.

37.08 EROSION CONTROL PLAN REQUIREMENTS.

(1) Control Plan Required.

(a) Every applicant for an erosion control permit shall submit both a paper copy, 11" × 17", and a PDF copy of a plan to control erosion, sedimentation and runoff to the Administrative Authority. These plans shall be at a 40:1 or larger scale and include the information described in Sec. 37.08(2). Plans shall be submitted when the proposed activity:

1. Disturbs an area twenty thousand (20,000) square feet or larger;
2. Disturbs an area adjacent to or draining directly into any sensitive area;

3. Regardless of size, proposes to have an onsite pumping system to control groundwater or to dewater the site after rain events;
4. Is considered redevelopment and disturbs an area four thousand (4,000) square feet or larger; or
5. Is considered development and disturbs an area twenty thousand (20,000) square feet or larger.

(b) Sites not requiring a control plan as identified above shall submit erosion control proposals using the simplified plan checklist provided with the permit application as described in Sec. 37.08(3).

(c) The Administrative Authority may require separate erosion control plans and measures for Planned Development Districts where there is more than one building.

(2) Plan Materials. Erosion control plans required under Sec. 37.08(1)(a) may include consideration of adjoining landowners' cooperative efforts to control transport of sediment and except as specifically exempted below, shall be completed and sealed by a Professional Engineer currently licensed in the State of Wisconsin and shall include the following information:

(a) Limits of disturbed area;
(b) Limits of impervious area;
(c) All erosion control measures to be installed, including a pumping plan as needed;
(d) Cross sections of and profiles within road ditches;
(e) Kinds of utilities and areas of installation, including special erosion control practices for utility installation;
(f) Culvert sizes;
(g) Topographical features and the natural direction of flow of runoff;
(h) Watershed size for each drainage area;
(i) Design discharge for ditches and structural measures;
(j) Runoff velocities;
(k) Soil loss rate calculations for the construction period per the USLE or another method approved by the Administrative Authority;
(l) Fertilizer and seed types, rates and recommendations;
(m) Time schedules for stabilization of ditches and slopes;
(n) Description of methods by which sites are to be developed;
(o) Provision for sequential steps mitigating erosive effect of land-disturbing activities to be followed in appropriate order and in a manner consistent with accepted erosion control methodology suitable to proposed sites and amenable to prompt re-vegetation. Practices shall be installed consistent with Wisconsin Department of Natural Resources' guidance in Storm Water Management Technical Standards as provided on the website as follows: http://dnr.wi.gov/runoff/stormwater/techstds.htm.
(p) Provisions such as stone access drives to prevent mud-tracking off-site onto public thoroughfares during the construction period and all incidental mud tracking shall be cleaned up and removed by the end of each working day using proper cleaning and disposal methods; and
(q) Any other information necessary to reasonably determine the location, nature and condition of any physical or environmental features of the site.

(3) Simplified Plan Checklist. Applicants may submit erosion control proposals using simplified checklists of standard erosion control practices, on a standard form approved by the Administrative Authority, wherever all of the following conditions exist:

(a) The site does not exceed twenty thousand (20,000) square feet in area; and
(b) The slope of the land does not exceed six percent (6%) throughout the site.

Simplified plan checklists shall be reviewed by the Administrative Authority for completeness and accuracy.

(4) Erosion Control Performance Standards. Plans will not be approved nor permits issued unless the proposed design, suggested location and phased implementation of effective, practicable erosion control measures for plans are designed, engineered and implemented to achieve the following results:

(a) Prevent gully and bank erosion.

(b) Limit total off-site permissible annual aggregate soil loss for exposed areas resulting from sheet and rill erosion to an annual, cumulative rate not to exceed five (5) tons per acre per year. (Am. by ORD-15-00037, 4-8-15)

(c) Modifications. Any proposed modifications of approved plans or alterations of accepted sequencing of land-disturbing site activities shall be approved by the Administrative Authority prior to implementation of the modifications.

(d) Plan compliance shall be determined using the U.S. Natural Resources Conservation Service Technical Guide or another commonly accepted soil erosion methodology approved by the Administrative Authority, which considers season of year, site characteristics, soil erodability and slope.

(5) Erosion Control Inspections.

(a) Applicability. Applicants who must submit a control plan because the proposed activity meets the criteria of Secs. 37.08(1)(a)5. or 37.08(1)(a)6. shall also be required to conduct erosion control inspections of the site and the erosion control devices/practices at the site as set forth in this Subsection.

(b) Required Inspections. The applicant shall inspect the erosion control measures on a weekly basis and within twenty-four (24) hours after each half inch (½") rain event.

(c) Winter Dormant Inspection Requirements. When a permitted construction site is shut down and dormant over the winter season, the applicant shall be exempt from weekly inspections as required in Sec. 37.08(5)(b) upon approval of the Administrative Authority. In order for a permitted site to be classified as winter dormant, the applicant must install erosion control measures to the satisfaction of the Administrative Authority, provide an inspection of these measures and then cease all construction activities except for minor maintenance activities. Once a site is classified as winter dormant by the Administrative Authority, inspections are only required within twenty-four (24) hours of a rain or thaw event as determined by the Administrative Authority. If at any time construction resumes or an erosion control failure occurs at the site, the site shall lose the winter dormant classification and the applicant must resume normal inspection requirements. The winter dormant classification only applies to inspections required by Sec. 37.08(5)(a) and at no time negates inspection requirements imposed by other permits the applicant may have obtained such as Dane County or WDNR Land Disturbance Permits.

(d) Documentation of Inspection. Erosion control inspections, including any repairs needed and/or actions taken at the site, shall be documented on the City of Madison Erosion Control Website. The permitee will be given access to this website, which contains documentations and forms for use in the erosion control inspections. Digital photographs of each of the erosion control practices and the site conditions shall be submitted and shall be required to meet the minimum inspection requirements of this Subsection.

(e) If the site is noted as being within the Rock River TMDL area, the City of Madison may require additional erosion control measures in addition to those needed to meet the minimum standard of limiting erosion to a rate of five (5) tons per acre per year. The applicant will be made aware of these additional measures either as a condition of permit issuance or as the result of a site inspection performed by the City of Madison. (Cr. by ORD-15-00037, 4-8-15)

(6) Additional Requirements. In addition to the requirements set forth elsewhere in this Ordinance, applicants for an erosion control permit who must submit a control plan under Sec. 37.08(1)(a) must do the following:

(a) Hold a Preconstruction Meeting Prior to the Start of Construction. This preconstruction meeting shall be attended by a Professional Engineer licensed in the State of Wisconsin responsible for the initial implementation of the erosion control plan. The erosion control permitting and reporting requirements shall be discussed at this meeting. The Professional Engineer in attendance shall document the meeting and submit minutes of the meeting to the Administrative Authority within one (1) week of this meeting. The Administrative Authority, at their discretion, may allow other appropriately credentialed professionals to complete this requirement.

(b) Provide documentation to the Administrative Authority, on forms available from the City Engineer, from a Professional Engineer licensed in the State of Wisconsin showing the initial installation and implementation of the erosion control plan. These forms shall be submitted to the Administrative Authority within one (1) week of the completion of the initial installation and implementation of the erosion control plan. The Administrative Authority, at their discretion, may allow other appropriately credentialed professionals to complete this requirement.

(c) Within ten (10) working days of completion of the project, or the erosion control portion of the project (meaning the final site stabilization has been completed), notify the Administrative Authority that the Applicant requests closure of the Erosion Control Permit. This request shall be made via the Erosion Control Notice of Termination (ECNOT) form available from the City Engineer.

(d) Upon written or verbal notice by an agent of the City of Madison to the applicant, or the applicant's designated representative, regarding an erosion control action or repair needed to bring the site into compliance, the applicant has not less than twenty-four (24) nor more than seventy-two (72) hours to bring the project site into compliance and document those subsequent actions with the Administrative Authority. The time allotted to bring the site into compliance shall be noted on the notice.

37.09 STORMWATER MANAGEMENT REPORT REQUIREMENTS.

(1) Management Report Required.

(a) Every applicant for a stormwater management permit shall submit a report documenting the system(s) and measures proposed to control stormwater runoff from the site. The stormwater management report shall be completed and sealed by a Professional Engineer currently licensed in the State of Wisconsin.

(b) Evidence of Financial Responsibility. The Administrative Authority may require a financial security instrument sufficient to guarantee complete construction of the stormwater management systems proposed in the management report.

(2) Report Materials. Stormwater management reports shall satisfy all of the requirements in Sec. 37.09(3), and shall provide at a minimum the following information:

(a) A narrative describing the proposed project, including implementation schedule for planned practices;

(b) Identification of the entity responsible for long-term maintenance of the project;

(c) A topographic map of the site location, including the contiguous properties, existing drainage patterns and watercourses affected by the proposed development of the site and the existing vegetative cover;

(d) A map showing drainage areas for each watershed area;

(e) A summary of runoff peak flow rate calculations, by watershed area, including all of the following:

1. Pre-existing peak flow rates;

2. Post-construction peak flow rates with no detention;
3. Post-construction peak flow rates with detention;
4. Assumed runoff curve numbers (RCNs), which shall be consistent with the following table for predevelopment conditions:

	Hydrologic Soil Group			
	A	B	C	D
Woodland	30	55	70	77
Grassland	39	61	71	78
Cropland	51	68	78	83

5. Time of concentration (Tc) used in calculations.

(f) A complete site plan and specifications, sealed by the Professional Engineer who designed the stormwater management system(s) and measures. All plans and specifications shall be drawn to a legible scale, shall be clearly labeled, and shall include, at a minimum, all of the following information:

1. Property lines and lot dimensions;
2. All buildings and outdoor uses, existing and proposed, including all dimensions and setbacks;
3. All public and private roads, interior roads, driveways and parking lots and shall show traffic patterns and type of paving and surfacing material;
4. All natural and artificial water features, including, but not limited to lakes, ponds, streams (including intermittent streams), and ditches. Show ordinary high water marks of all navigable waters, 100-year flood elevations and delineated wetland boundaries, if any. If not available, appropriate flood zone determination or wetland delineation, or both, may be required at the applicant's expense;
5. Depth to bedrock;
6. Depth to seasonal high water table;
7. The extent and location of all soil types as described in the Dane County Soil Survey, slopes exceeding twelve percent (12%), and areas of natural woodland or prairie;
8. Existing and proposed elevations (referenced to the City of Madison Datum when required by the Administrative Authority);
9. Elevations, sections, profiles, and details as needed to describe all natural and artificial features of the project;
10. Soil erosion control and overland runoff control measures, including runoff calculations as appropriate;
11. Detailed construction schedule indicating the anticipated starting and completion dates of the development sequence;
12. Copies of permit or permit applications required by any other governmental entities or agencies;
13. Any other information necessary to reasonably determine the location, nature and condition of any physical or environmental features;
14. Location of all stormwater management practices;
15. All existing and proposed drainage features;
16. The location and area of all proposed impervious surfaces;
17. The limits and area of the disturbed area;
18. Seeding mixtures and rates, lime and fertilizer application rates, and kind and quantity of mulching for both temporary and permanent vegetative control measures.

(g) Engineering designs and detailed drawings for all structural management practices;

(h) A description of methods to control oil and grease or written justification for not providing such control;

(i) If required under Sec. 37.09(3)(g), the plans to control the temperature of runoff;

(j) A maintenance plan and schedule for all permanent stormwater management practices as recorded on the affidavit required in Sec. 37.11(3).

(k) Where the area being developed is in or adjacent to an area prone to flooding (as determined by the Administrative Authority) the applicant shall provide detailed survey and proposed site plan information on the lowest entrance openings to the building (including underground parking). Further, the applicant shall certify to the Administrative Authority that the building has been designed to provide flood protection to an elevation a minimum of one half a foot (0.5') above the regional flood elevation or two (2) feet above the adjacent sidewalk elevation. This shall include permanent flood protection of access to underground parking structures and areas served by on site stormwater systems connected to the public system (where the public system in the opinion of the Administrative Authority is known to be lacking sufficient capacity). Where pumping systems are used, the pumping plans shall be submitted to the Administrative Authority and shall be stamped by a Professional Engineer in the State of Wisconsin. These plans shall provide and document that the pump system can adequately control the anticipated flows that result from a 100-year storm event. Alternatively, the pumping plan may be certified by a Professional Engineer and the pump design and installation plan itself certified by a Master Plumber as defined by Wisconsin Statute.

(l) A completion date for all proposed stormwater management devices to be constructed and in service on the site. Failure to complete the project and bring the devices into service by the approved date shall constitute a violation of this section.

(3) Stormwater Management Performance Standards. The proposed design, suggested location and phased implementation of effective, practicable stormwater management measures shall be designed, engineered, and sealed by a Professional Engineer licensed in the State of Wisconsin, and implemented to achieve the following results:

(a) Sediment Control.

1. For development, by design:

a. Reduce, to the maximum extent practicable, total suspended solids load leaving the site by eighty percent (80%), based on the average annual rainfall, as compared to no runoff management controls. This shall requires the use of a continuous model such as SLAMM, P8 or equivalent, and the use of approved grain size distribution curves and rainfall data. These files are managed and maintained by the Wisconsin Department of Natural Resources and are available on its website.

No person shall be required to exceed an eighty percent (80%) total suspended solids reduction, for the site as a whole, to meet the requirements of this subdivision. The analysis needed for this shall use approved procedures and assume no re-suspension of particles. If the applicant proposes to use treatment devices in series, then the analysis shall require the use of a modeling program which provides for tracking of the particulates trapped by each device used in series. If a program tracking particulate distributions is not used, then the Administrative Authority shall not allow the use of serial redundant devices.

2. For redevelopment, by design:

a. Reduce, to the maximum extent practicable, total suspended solids (TSS) loads leaving the redeveloped site by forty percent (40%), based on average annual rainfall, as compared to no runoff

management controls. This shall require the use of a continuous model such as SLAMM, P8 or equivalent, and the use of approved grain size distribution curves and rainfall data. These files are managed and maintained by the Wisconsin Department of Natural Resources and are available on its website.

No person shall be required to exceed a forty percent (40%) total suspended solids reduction, for the site as a whole as compared to no runoff management controls, to meet the requirements of this subdivision except as noted below in Sec. 37.09(3)(a)3. for sites located in the Rock River TMDL watershed. The analysis needed for this shall use approved procedures and assume no re-suspension of particles. If the applicant proposes to use treatment devices in series, then the analysis shall require the use of a modeling program which provides for tracking of the particulates trapped by each device used in series. If a program tracking particulate distributions is not used, then the Administrative Authority shall not allow the use of serial redundant devices.

3. For redevelopment and/or resurfacing by design for sites located within the Rock River TMDL:

a. Reduce, to the maximum extent practicable, total suspended solids (TSS) loads leaving the redeveloped or resurfaced site by eighty percent (80%), based on average annual rainfall, as compared to the existing conditions of the site prior to the proposed redevelopment and/or resurfacing. This shall require the use of a continuous model such as SLAMM, P8 or equivalent, and the use of approved grain size distribution curves and rainfall data. These files are managed and maintained by the Wisconsin Department of Natural Resources and are available on its website. Changes in TSS loading as compared to the existing site are expected to be met from land use changes and stormwater management practices.

This requirement shall be considered met if the eighty percent (80%) reduction requirement is met for the site or all new exposed parking areas reach a sixty percent (60%) total suspended solids reduction, as compared to no controls. The analysis needed for this shall use approved procedures and assume no re-suspension of particles. If the applicant proposes to use treatment devices in series, then the analysis shall require the use of a modeling program which provides for tracking of the particulates trapped by each device used in series. If a program tracking particulate distributions is not used, then the Administrative Authority shall not allow the use of serial redundant devices.

(Am. by ORD-15-00037, 4-8-15)

(b) Oil and Grease Control. For all stormwater management measures at commercial or industrial developments and all other uses where the potential for pollution by oil or grease, or both, exists, the first one-half (0.5) inches of runoff will be treated using the best oil and grease removal technology available. The Administrative Authority may waive this requirement only when the applicant can demonstrate that the installation of such practices is not necessary.

(c) Runoff Rate Control. Runoff rate control is required for development, redevelopment upon an incremental cumulative increase in new impervious area equal or exceeding twenty thousand (20,000) square feet. Incremental increases over a period of years, such that multiple small incremental increases in new impervious

area eventually exceeds the twenty thousand (20,000) square foot criteria, shall be retroactively controlled once the cumulative increase in new impervious area meets or exceeds twenty thousand (20,000) square feet.

Hydrologic calculations for event driven analysis shall be completed according to the methodology described in the Natural Resources Conservation Service's Technical Release 55, "Urban Hydrology for Small Watersheds" (commonly known as TR-55), for analysis requiring average annual results SLAMM or other Technical Standards and Specifications as provided in Sec. 37.10(2). For agricultural land subject to this section, the maximum runoff curve number (RCN) used in such calculations shall be 51 for hydrologic soil group (HSG) A, 68 for HSG B, 79 for HSG C, and 84 for HSG D. The TR-55-specified curve numbers for other land uses shall be used. Heavily disturbed sites will be lowered one permeability class for hydrologic calculations. Lightly disturbed areas require no modification.

(d) Runoff Rate Control - Design Standards. All stormwater facilities shall be designed, installed and maintained to effectively accomplish the following:

1. Maintain predevelopment peak runoff rates for the 1-year, 24-hour storm event (2.49 inches over 24 hours duration using the MSE4 NRCS Rainfall Distribution).
2. Maintain predevelopment peak runoff rates for the 2-year, 24-hour storm event (2.84 inches over 24 hours duration using the MSE4 NRCS Rainfall Distribution).
3. Maintain predevelopment peak runoff rates for the 10-year, 24-hour storm event (4.09 inches over 24 hours duration using the MSE4 NRCS Rainfall Distribution.)
4. Safely pass the 100-year, 24-hour storm event (6.66 inches over 24 hours duration using the method approved by the City Engineer).
5. Maintain predevelopment peak runoff rates for the 100-year, 24-hour storm event (6.66 inches over 24 hours duration using the MSE4 NRCS Rainfall Distribution).
6. Flood Prone Watersheds.
   a. Lands that are known to the City Engineer to be within watersheds experiencing significant flooding shall provide detention volume equal to the known surcharge volume in the watershed (during a 25-year storm event) multiplied by the proposed development's impervious area and divided by the total impervious area of the watershed as determined by the City of Madison Stormwater Utility Records. This is intended to create a proportional allocation of the excess flood volume by impervious area within the watershed. Any redevelopment shall provide detention commensurate with the proportion of the flooding problem. For purposes of this calculation, timing and routing issues of stormwater shall be ignored.
   b. For the University/Midvale watershed (also known as watershed ME01), the applicant shall provide 0.06 acre-ft of detention per acre of proposed impervious area.
   c. Where, in the opinion of the Administrative Authority, a situation exists which will result in development or creation of an enclosed depression (no safe overflow path during times when the storm sewer is at capacity), and where the only outlet is a storm sewer system, then the storm sewer system shall be designed to handle the runoff that can be expected to result from a one hundred (100) year storm event or larger depending on the risk of property

damage and public safety, as determined by the Administrative Authority. For design purposes, the acceptable flooding associated with this design event shall not leave the public right of way or public easements. (Cr. by ORD-17-00037, 3-29-17)

7. Discharge Off-Site to Other Private Lands. When a site being reviewed by the Administrative Authority proposes to continue existing drainage patters and discharge stormwater runoff onto property neither under the applicant's control (via ownership, easement or agreement) nor onto publicly owned property, the Administrative Authority shall require the applicant to provide documentation that they have made significant efforts to obtain the right to discharge this stormwater onto this property. If no right can be obtained, the applicant shall be required to mitigate the increased volume of discharge on their property prior to making this discharge. Mitigation shall consist of implementation of a stormwater practice that shall match the existing volumetric discharges from the applicant's property to other lands not under their control in storm events including the 1, 2, 5 & 10-year storm events.

(Am. by ORD-15-00037, 4-8-15)

(e) Outlets. Discharges from construction sites must have a stable outlet capable of carrying designed flow as required in Sec. 37.09(3)(d), at a non-erosive velocity. Outlet design must consider flow capacity and flow duration. This requirement applies to both the site outlet and the ultimate outlet to stormwater conveyance or water body.

(f) Infiltration. All plats, Certified Survey Maps, development, and redevelopment projects which create a cumulative total of twenty thousand (20,000) square feet or more of new impervious area are required to provide infiltration of stormwater as set forth below. Stormwater management reports submitted to the City of Madison for review shall meet the requirements of Wis. Admin. Code ch. NR 151.12(5)(c). The stormwater management reports shall comply with the sections entitled "Criteria" within the applicable Infiltration Technical Standards as provided by the Department of Natural Resources and maintained by the Standards Oversight Council. A link to the technical standards is provided as follows: http://dnr.wi.gov/runoff/stormwater/techstds.htm. Stormwater infiltration shall comply with the following:

1. All Developments. Developments within the City of Madison, regardless of development type, shall be required to infiltrate sufficient runoff volume so that the post-development infiltration volume shall be at least ninety percent (90%) of the pre-development infiltration volume, based on an average annual rainfall, regardless of area necessary for this requirement. Should the applicant prove not able to meet the infiltration requirement without dedicating more than two percent (2%) of the site area for this purpose, they may optionally choose to meet the secondary recharge standard.

2. Secondary Recharge Standard. If the infiltration standard cannot be met by the developer with dedication of two percent (2%) or less of the site area, the developer may choose to design an infiltration system and pervious surfaces to meet or exceed the estimated average annual recharge rate (7.6 inches per year). If this alternative design approach is taken, at least two percent (2%) of the site area shall be dedicated as part of the effective infiltration area.

3. Distributed Best Management Practices. If the applicant proposes to use distributed practices (e.g. rain gardens) to meet infiltration requirements, a deed restriction and maintenance agreement will be required. These shall

be recorded against individual parcels. If these devices are utilized to meet infiltration requirements, no credit shall be given towards the volume requirements for Runoff Rate Control—Hydrologic Calculations or Design Standards, in Sec. 37.09(3)(c) and (d) of the Madison General Ordinances.

4. Pre-Treatment. Prior to infiltration of runoff from parking lots, new road construction (in commercial, industrial and institutional areas), the runoff shall be pre-treated. This pre-treatment shall be in accord with the applicable Standards Oversight Council Technical Standard. Infiltration systems designed in accordance with this section shall, to the extent technically and economically feasible, minimize the level of pollutants infiltrating to the groundwater and shall maintain compliance with the prevention action limits at a point of standards application in accordance with Wis. Admin. Code ch. NR 140 for all pollutants excepting chloride. Further, if site-specific information indicates that compliance with the applicable prevention action limit is not achievable, the infiltration device shall not be installed or shall be modified to prevent infiltration to the maximum extent practicable.

5. Prohibitions. Notwithstanding paragraphs (1) through (4), infiltration systems shall not be installed in any of the following areas:
   a. Areas associated with Tier 1 industrial facilities as identified in Wis. Admin. Code ch. NR 216.21(2)(a).
   b. Storage and loading areas of Tier 2 industrial facilities as identified in Wis. Admin. Code ch. NR 216.21(2)(b).
   c. Fueling and vehicle maintenance areas.

6. Exemptions. Runoff from the following areas may be credited toward meeting the requirement for infiltration under Sec. 37(09)(3)(f) when it is infiltrated. However any requirement for infiltration of runoff from these areas is optional:
   a. Parking areas and access roads less than five thousand (5,000) square feet for commercial development.
   b. Parking areas and access roads less than five thousand (5,000) square feet for industrial developments not subject to paragraph 5. above.
   c. Redevelopment sites.
   d. Roads in commercial, industrial and institutional land uses, and arterial residential roads.
   e. Areas where the infiltration rate of the soil is less than 0.60 inches per hour measured at the bottom of the proposed infiltration system, provided that, based on soil borings, a more permeable soil layer with infiltration rates exceeding 0.60 inches per hour does not exist within two (2) feet of the proposed bottom of the infiltration device.

7. Location of Practices. Infiltration practices shall not be located in the following areas:
   a. Areas with less than five (5) feet of separation distance from the bottom of the infiltration system to the elevation of the seasonal high groundwater or the top of bedrock for Industrial, Commercial, Institutional parking lots and roads, and for residential arterial roads.
   b. Areas with less than three (3) feet of separation distance from the bottom of the infiltration system to the elevation of the seasonal high groundwater or the top of bedrock for all other source areas not identified in (a) above.

c. Areas with less than one (1) foot of separation distance from the bottom of the infiltration practice to the elevation of the seasonal high groundwater or top of bedrock for roofs draining to subsurface drainage systems.

d. Areas where infiltrated water will contain runoff from commercial, industrial, or institutional land uses or regional infiltration devices serving residential development, where the proposed infiltration device is within four hundred (400 feet) of a community water system well as specified in Wis. Admin. Code ch. NR 811.16(4).

e. Areas where contaminants of concern, as defined in Wis. Admin. Code ch. NR 720.03(2), are present in the soil through which infiltration will occur.

8. Alternative Uses. Where alternate uses of runoff are employed, such as for toilet flushing, laundry or irrigation, such alternate use shall be given equal credit toward the infiltration volume required by this section.

(g) Thermal Control. The stormwater management report shall include provisions and practices to reduce the temperature of runoff for sites located within the watershed of a river or stream identified by the Wisconsin Department of Natural Resources as a Cold Water Community through Wis. Admin. Code ch. NR 102.04(3)(a), and Class I, Class II, and Class III Trout Streams identified in "Wisconsin Trout Streams," Wisconsin Department of Natural Resources Publication PUB-FH-806 2002, http://dnr.wi.gov/fish/species/trout/wisconsintroutstreams.pdf, or its successor.

The stormwater management report does not have to meet this thermal control requirement if the applicant can justify by use of a model approved by the Dane County Conservationist and the Administrative Authority that practices are not necessary because the temperature increase of runoff from the site post-development will be zero (0).

A current list and maps of affected watersheds shall be available for reference at the office of the Administrative Authority.

Meeting the infiltration standards of Sec. 37.09(3)(f), MGO, shall satisfy all requirements for thermal control. If a site is exempt or excluded from infiltration requirements but is located in a thermal control watershed, the thermal requirements of this section apply and shall be met.

(h) Protective Areas. Impervious surfaces shall be kept out of the protective areas to the maximum extent practicable. The stormwater management report shall contain a written site-specific explanation for any parts of the protective area that are disturbed. Where land disturbance occurs within the protective area and where no impervious surface is present, adequate sod or self-sustaining vegetative cover of seventy percent (70%) (of the disturbed area) or greater shall be established and maintained. Best management practices may be located within protective areas.

1. For outstanding resources waters and exceptional resources waters and for wetlands in areas of special natural resource interest as specified in Wis. Admin. Code ch. NR 103.04 — the protective distance is seventy-five (75) feet.

2. For perennial and intermittent streams identified on a United States Geological Survey 7.5 minute series topographic map, or on a county soil survey map, which is more current — the protective distance is fifty (50) feet.

3. For lakes — the protective distance is fifty (50) feet.

4. For highly susceptible wetlands — the protective distance is seventy-five (75) feet. Highly susceptible wetlands include the following: calcareous fens, sedge meadows, open and coniferous bogs, low prairies, coniferous swamps, lowland hardwood swamps and ephemeral ponds.
5. For less susceptible wetlands — the protective distance is ten percent (10%) of the average wetland width, but not less than ten (10) feet nor more than thirty (30) feet.
6. For wetlands not subject to paragraphs 4 or 5 above, the distance shall be fifty (50) feet.
7. For concentrated flow channels with drainage areas greater than one hundred thirty 130 acres — the protective distance is ten (10) feet.
8. Redevelopment post-construction sites are exempt from the protective area requirements.
9. Structures that cross or access surface waters are exempt from the protective area requirements.

(i) CARPC Requirements. Where, as a condition of approval of an urban service area extension, the Capital Area Regional Plan Commission (CARPC) requires compliance with additional stormwater management standards, the applicant shall comply with the resolution of approval for this urban service area as issued by CARPC and approved by the Wisconsin Department of Natural Resources (WDNR) and/or the Madison Metropolitan Sewerage District (MMSD).

(4) Stormwater Management Goals.

(a) For existing development, implement practices to reduce by twenty percent (20%) the anticipated total suspended solids entering waters of the state, as compared to no controls, by March 10, 2007 and a forty percent (40%) reduction by March 10, 2011. This as designed/modeled standard will be met on a municipality wide basis. In the event that the majority of the communities in the Madison Lakes watershed fail to adopt similar provisions, then the requirements of this section shall revert to those contained in Wis. Admin. Code ch. NR 151.13(2).

(b) For street reconstruction, the following shall apply:

1. Total Suspended Solids (TSS) Control — Reduce, to the maximum extent practicable, total suspended solids loads leaving the site by forty percent (40%), based on average rainfall, as compared to no runoff management controls. This method requires the use of a continuous model such as SLAMM or P8, and of approved grain size distribution curves and rainfall data. These files are managed and maintained by the Wisconsin Department of Natural Resources and are available on its website.

   No person shall be required to exceed forty percent (40%) total suspended solids reduction to meet the requirements of this subdivision. This analysis shall use approved procedures and assume no re-suspension of particles. This analysis shall require tracking of the particulate sizes trapped by each device used in series (or treatment train). Serial redundant removal efficiencies shall not be allowed. For example, a catch basin and an inlet filter, each being approximately twenty-five percent (25%) effective, do not provide a fifty percent (50%) removal efficiency. Rather, as these devices both trap the same particle size the combined efficiency of these two (2) devices used in series remains at twenty-five percent (25%).
2. Infiltration — design practices to infiltrate stormwater runoff from the roadway in accordance with Wis. Admin. Code ch. NR 151.24(5).
3. Peak Discharge — design practice to reduce peak runoff from the roadway in accordance with Wis. Admin. Code ch. NR 151.24(4).

(5) Off-Site Stormwater Management. Off-site stormwater management is allowed, provided that all of the following conditions for the off-site facility are met:

(a) The facility is in place;

(b) The facility is designed and adequately sized to provide a level of stormwater management that at least meets the ordinance standards;

(c) The facility has a legally obligated entity responsible for its long-term operation and maintenance.

(6) Installation Certification. Each applicant who is granted a stormwater management permit, and who has signed and recorded the required maintenance agreement, shall submit to the City Engineer certification that the BMP's referred to in the stormwater management report have been installed in accord with the plans and specifications of that report. This certification shall be provided and sealed by a Professional Engineer currently licensed in the State of Wisconsin, on forms available from the City of Madison Engineer.

The City of Madison stormwater management permit shall not be closed without submission of this certification. This certification shall serve as Official Notice of Termination by the Applicant with regard to the stormwater management permit, and shall trigger a final site inspection by City Engineering staff. Upon completion of this inspection, a notice of permit closure and reminder to the Applicant of the annual stormwater management report requirement shall be sent and the stormwater management permit shall be closed.

(7) Annual Stormwater Management Report. Each applicant who is granted a stormwater management permit, and who has signed and recorded the required maintenance agreement, shall submit to the City Engineer an annual report on the condition of the site's stormwater management devices. This report shall be submitted by June 1 of each year following closure of the Stormwater Management Permit required under Sec. 37.09(6). Because of the change of the report due date, no annual report submittal will be required for the calendar year 2013. The annual report shall be completed and sealed by a Professional Engineer currently licensed in the State of Wisconsin, on forms provided by the City Engineer. The requirement that the annual report be sealed by a Professional Engineer may be omitted in the case of a stormwater management plan consisting solely of storm sewer inlet filters and/or catchbasin sumps, provided that the applicant can provide the appropriate documentation and dated photos as outlined in Secs. 37.09(7)(a)&(b). For sites with more extensive stormwater management systems, the Administrative Authority may allow other appropriately credentialed professionals to complete this work at their discretion.

For sites that have a stormwater management device (or devices) that require a topographic survey every three years, this survey requirement may be satisfied through the submittal of adequate photographic documentation. The acceptance of date stamped photographs in lieu of a topographic survey is at the discretion of the Administrative Authority. The topographic survey requirement waiver may only be applied to qualifying detention or infiltration basins.

Upon receipt of the annual report, if requested on the cover letter accompanying the report or by separate email, City Engineering staff shall provide an email response to the contact listed on the reporting forms stating that the report was received. This response from City Engineering shall be made within 15 working days of receiving the report. The annual report shall include the following:

(a) Documentation of the completion of the required annual maintenance, including copies of receipts (actual prices paid need not be reported) from agents hired to perform the work and the date the work was completed;

(b) Photos of the management device at the time of inspection. This shall include photos of existing conditions and photos after the completion of any required maintenance.

37.10 STANDARDS AND SPECIFICATIONS.

(1) Tracking. For plan approval and issuance of a permit there must be adequate provisions to prevent the tracking or dropping of dirt or other materials from the site onto any public or private street.

(2) Concrete Management. For plan approval and issuance of a permit the applicant shall provide a plan for Engineering review and approval that documents methods to control and limit concrete waste material from leaving the site. (Cr. by ORD-15-00037, 4-8-15)

(3) Dewatering Plan. For plan approval and issuance of a permit the applicant shall provide a plan for Engineering review and approval that documents the methods to control sediment from being discharged to the environment as part of any pumping (utility or site dewatering) to be done as part of this application.

If this pumping plan exceeds seventy (70) gallons per minute (GPM) the applicant shall provide documentation of the WDNR dewatering and/or point well permits. Additionally, if Engineering staff suspects site contamination, based on documented reports on file with the WDNR, the applicant shall provide testing results documenting the condition of groundwater on the site. If contamination is found no plan approval or issuance of a permit can be granted until and unless the applicant documents WDNR permits for discharge of contaminated groundwater to either the sanitary or storm sewer systems. Once WDNR approval is granted additional permits may be required from the Madison Metropolitan Sewerage District, City/County Health and City Engineering. (Cr. by ORD-15-00037, 4-8-15)

(4) Groundwater Contamination. For projects in areas where a review of WDNR records indicate that possible groundwater contamination exists, the applicant shall be required to complete a site investigation including borings and groundwater testing prior to plan approval. (Cr. by ORD-15-00037, 4-8-15)

(5) Technical Standards and Specifications. The design of all best management practices designed to meet the requirements of this ordinance shall comply with the following technical standards:

(a) U.S. Natural Resources Conservation Service's "Field Office Technical Guide;" or its successor;

(b) U.S. Natural Resources Conservation Service's Technical Release 55 (TR 55) "Urban Hydrology for Small Watersheds";

(c) U.S. Natural Resources Conservation Service's Engineering Field Manual for Conservation Practices;

(d) U.S. Natural Resources Conservation Service's Engineering Handbook;

(e) Wisconsin Department of Natural Resources' "Stormwater Management Technical Standards" as provided at http://dnr.wi.gov/org/water/wm/nps/stormwater/techstds.htm, or its successor;

(f) Any other technical methodology approved by the Dane County Conservationist and the Administrative Authority.

(Renum. by ORD-15-00037, 4-8-15)

(6) Design Criteria. The applicant for a permit may employ structural or nonstructural measures necessary to achieve all applicable standards set out in this ordinance. However, these measures will be evaluated to determine that they follow currently accepted design criteria and engineering standards. The following general principles shall be used when evaluating control plans and granting permits under this ordinance:

(a) The smallest area of land shall be exposed for the shortest period at any given time during development.

(b) The rough grading of the lot shall include backfilling the basement and all excess earth shall be hauled off the lot.

(c) Accommodation of the increased runoff caused by changed soil and surface conditions during and after development.

(d) Permanent, final plant covering or structures shall be installed prior to final acceptance.

(e) The plan of development shall relate to the topography and soils of the site so that the lowest potential for erosion is created.

(f) All detention and retention basins shall first be constructed to act as a settling basin with later conversion to a permanent basin upon seventy-five percent (75%) build-out of the area served by the basin.

(g) Prior to final acceptance by the City and not prior to substantial completion of the development within the plat; all public detention and retention basins shall provide to the Administrative Authority an 'as-built' survey stamped by a Professional Engineer or Professional Surveyor.

(h) The developer for all plats or phases thereof shall submit for approval a "Post Erosion Control Plan" that details structural measures and responsibility for erosion control after the initial improvements have been made. The Post Erosion Control Plan shall propose erosion control measures to protect all improvements and include a re-vegetation schedule for denuded areas that takes into account the time of year. This plan may accompany the initial plan or be submitted separately, but must be approved prior to the City's acceptance of the plat improvements and issuance of building permits.

(Renum. by ORD-15-00037, 4-8-15)

37.11 APPLICATION FEES AND ISSUANCE OF PERMITS.

(1) Permit Required; Procedure and Fees.

(a) Unless specifically excluded by this ordinance in Sec. 37.06, no person may undertake an activity subject to this ordinance without receiving an erosion control and stormwater management permit issued by the Administrative Authority. Each person desiring to undertake a regulated activity subject to this ordinance shall submit an application for an initial permit together with the appropriate fee.

Any subdivision of land, development or redevelopment for which there is a contract for public improvements in place with the City pursuant to Sec. 16.23(9)(c)6. shall require reimbursement to the City for permit application fees (two permits are possible - one for work in the ROW and one for work on private property) as well as actual costs sustained for inspection and enforcement, as calculated by Sec. 16.23(9)(e), MGO.

A person otherwise subject to this ordinance need obtain only one permit when the disturbance of land activity involves both public and private lands. Note: this presupposes that any work in the ROW associated with the work on private property shall be minimal and covered under a permit to work in the ROW.

(b) Erosion Control Permit.

1. There is a one hundred dollar ($100) application fee for erosion control permits that do not require submittal of a plan

2. There is a two hundred dollar ($200) base fee + a fee of $0.005 per square foot of disturbed area for erosion control permits which require plan submittal and review.

(c) Stormwater Management Permit. For stormwater management permits, there is a four hundred dollar ($400) fee plus an additional fee of $0.010 per square foot of new impervious area plus an additional fee of $0.005 per square foot of redeveloped impervious area.

(d) Non-Metallic Mines and Industrial Sites. For the operation of industrial sites that are required to control sediment, such as nonmetallic mining, storage yards, etc., the fee shall be fixed at five hundred and thirty-two dollars ($532) and paid

annually. (Note: the fee is not based upon area, but rather is derived from an estimate of the actual cost for the City to review the permit and plan, inspect the site, and follow up as needed with compliance issues.)

(2) The applicant must provide the following when requesting a permit:

(a) Completed application form;

1. The application must be signed by the landowner or include a notarized statement signed by the landowner authorizing the applicant to act as the landowner's agent and bind the landowner to the terms of this ordinance.

2. If a landowner appoints an agent to submit an application pursuant to sub. (2)(a)1, the landowner shall be bound by all of the requirements of this ordinance and the terms of any permit issued to the agent.

a. Fees as required by Sec. 37.11(1)(a).

b. If required by Sec. 37.06(2), an erosion control plan meeting all the standards of Sec. 37.08, or a simplified checklist as described in Sec. 37.08(3).

c. If required by Sec. 37.06(3), a stormwater management plan meeting all of the standards of Sec. 37.09 and a draft maintenance agreement as described in Sec. 37.11(3).

(b) Copies of permits or permit applications or approvals required by any other governmental entity.

(c) A proposed timetable and schedule for completion and installation of all elements of approved erosion control and stormwater management plans and a detailed schedule for completion of construction.

(d) An estimate of the cost of completion and installation of all elements of the approved erosion control and stormwater management plans.

(e) Evidence of financial responsibility to complete the work proposed in the plan. The Administrative Authority may require a financial security instrument in a form approved by the City Attorney sufficient to guarantee completion of the project.

(3) Review of Application. The Administrative Authority shall verify that the permit application is complete under Sec. 37.11(2). The Administrative Authority shall also review all permit applications accompanied by the control plan, if required, and the appropriate fee, and shall determine if measures are adequate to meet all the applicable standards as set out in Secs. 37.08, 37.09, and 37.10 of this ordinance.

The submitted plan shall either be approved or disapproved within the time frame set by the Administrative Authority.

The applicant will be notified in writing whether the control plan is approved, disapproved, modified or if additional information is required. In the event that the plan is disapproved, the applicant may resubmit a new control plan or may appeal the Administrative Authority's decision as provided in Sec. 37.13 of this ordinance. No additional permit fee is required.

Where installed stormwater practices will be privately-owned, an affidavit which describes the property by legal description, notifying future prospective purchasers of the existence of a stormwater permit issued under this ordinance and applicable plan, timetables and potential liability imposed by Sec. 37.12(6)(c) for failure to bring the property into compliance with this ordinance after notification, shall be recorded with the Dane County Register of Deeds prior to issuance of an erosion control and stormwater management permit. The foregoing information shall also be noted on every plat and certified survey map.

Upon approval, the erosion control and stormwater management permit shall be issued by the Administrative Authority after the applicant has met all other requirements of this ordinance.

(4) Permit Conditions. All permits under this ordinance shall be issued subject to the following conditions and requirements.

(a) The plan shall be implemented prior to the start of any land-disturbing activity and shall be maintained over the duration of the project. Stormwater components of the plan shall be maintained in perpetuity.

(b) The permittee is responsible for successful completion of the erosion control plan and the stormwater management plan. The permittee shall be liable for all costs incurred, including environmental restoration costs, resulting from noncompliance with an approved plan.

(c) All land disturbances, will be done pursuant to the approved control plan.

(d) The permittee shall give two (2) working days notice to the Administrative Authority in advance of the start of any activity.

(e) The permittee shall file a notice within ten (10) days after completion of land-disturbing activities to the Administrative Authority.

(f) Approval in writing from the Administrative Authority must be obtained prior to any modifications to the approved control plan.

(g) The permittee shall be responsible for maintaining all proposed public roads, road right-of-ways, streets, runoff and drainage facilities and drainage ways as specified in the approved plan until they are accepted and become the responsibility of the City.

(h) The permittee shall be responsible at permittee's expense for repairing any damage to all adjoining parcels of land and rights of way caused by runoff and/or sedimentation resulting from permittee's activities.

(i) The permittee shall provide and install at permittee's expense all drainage, runoff control and erosion control improvements as required by this ordinance and the approved control plan. Permittee and owner, if not permittee, shall provide perpetual maintenance on all these private control facilities.

(j) No portion of the land which is disturbed will be allowed to remain uncovered for greater than two (2) weeks after notice is given that the activity is completed.

(k) All incidental mud-tracking off-site onto adjacent public thoroughfares shall be cleaned up and removed by the end of each working day using proper cleaning and disposal methods.

(l) Application for a permit shall constitute express permission by the permittee and landowner for the Administrative Authority to enter the property for purposes of inspection under Sec. 37.12(3) or curative action under Sec. 37.12(6)(c). The application form shall contain a prominent provision advising the applicant and landowner of this requirement

(m) The permittee authorizes the Administrative Authority to perform any work or operations necessary to bring the condition of the lands into conformity with the approved control plan and further consents to the City collecting the total of the costs and expenses of such work and operating as a special charge against the property for current services rendered as provided by law.

(5) Permit Duration. The Administrative Authority shall determine the expiration date of the permit based on the proposed land disturbance work, project schedule, site conditions, or other relevant erosion control considerations. The Administrative Authority is authorized to extend the expiration date of the permit and/or require modification of the plans to prevent any increase in sedimentation, erosion or runoff resulting from any extension.

If the Administrative Authority is not contacted with a request from the applicant to extend/modify a permit prior to the expiration of that permit, the applicant shall be required to pay a new fifty dollars ($50.00) renewal base fee to reinstate the permit.
(Am. by ORD-15-00037, 4-8-15)

37.12 ADMINISTRATION.

(1) Delegation of Administrative Authority.

(a) The City Engineer shall administer, approve plans and enforce the provisions of this ordinance on public lands and upon private lands except single- and two-family residential dwelling units during the period that residential building permits are in effect. In addition, the City Engineer shall enforce the provisions of Sec. 37.11(4)(h) for those permittee's under his/her administrative authority.

(b) Except as set forth in sub. (a), the Director of the Building Inspection Division shall, in consultation with the City Engineer, administer, approve plans and enforce the provisions of this ordinance on private lands for single- and two-family residential dwelling units during the period that residential building permits are in effect within the City. In addition, the Building Inspection Division shall enforce the provisions of Sec. 37.11(4)(h) for those permittee's under its administrative authority.

(c) The City Engineer shall administer, approve plans and enforce the provisions of this ordinance on lands being subdivided by plat or certified survey within the extraterritorial limits for plat review in accordance with Wis. Stat. § 236.10, for erosion control and stormwater management including both public lands and private lands.

(d) The enforcement of the provisions of this ordinance, when the construction site in question is regulated under the Wisconsin Uniform Dwelling Code (UDC), shall not be more restrictive than the provisions of the UDC.

(2) Administrative Duties. The administration and enforcement of this ordinance shall include the following duties:

(a) Keep an accurate record of all plan data received, plans approved, permits issued, inspections made and other official actions.

(b) Review all plans and permit applications received when accompanied with the necessary information and the appropriate fee and issue the permits.

(c) Investigate all complaints made to the application of this ordinance.

(d) Maintain a database of all properties responsible for annual reports. This database shall track annual reports sent in and shall flag delinquent or deficient reports. Staff shall take appropriate action on flagged reports to bring those properties into compliance.

(e) Revoke any permit granted under this ordinance if the holder of the permit has misrepresented any material fact in the permit application or plan; or has failed to comply with the plan as originally approved or as modified in writing; or has violated any of the other conditions of the permit as issued to the applicant.

(3) Inspection Authority.

(a) Application for a permit under this ordinance shall constitute permission by the applicant and landowner for the Administrative Authority to enter upon the property prior to permit issuance and to inspect during the construction phase prior to the inspections pursuant to sub. (d) and (f), below, as necessary to confirm compliance with the requirements of this ordinance.

(b) As part of the plan approval process, the Administrative Authority shall determine the minimum number of inspections required to assure compliance. The site of any regulated land-disturbing activity shall be inspected once every thirty (30) days, or more frequently as determined by the Administrative Authority during the construction phase.

(c) Within ten (10) days after installation of all practices in an approved erosion control plan and achievement of soil stabilization, the permittee shall notify the Administrative Authority.

(d) The Administrative Authority shall inspect the property to verify compliance with the erosion control plan within ten (10) days of notification of soil stabilization.

(e) Within ten (10) days after installation of all practices in an approved stormwater management plan, the permittee shall notify the Administrative Authority and submit drawings documenting construction. The person who designed the stormwater management plan for the permittee shall submit as-built certification stamped by a registered professional to ensure that constructed stormwater management practices and conveyance systems comply with the specifications included in the approved plans. At minimum, as-built certification shall include a set of drawings comparing the approved stormwater management plan with what was constructed. Other information shall be submitted as required by the Administrative Authority.

(f) The Administrative Authority shall inspect the property to verify compliance with the stormwater management plan within ten (10) days of notification.

(g) Maintenance is the responsibility of the owner, and facilities are subject to inspection and orders for repairs. Proof of maintenance is required with each annual report.

(4) Permit Transfers.

(a) When a permittee and landowner act to transfer an interest in property subject to an approved plan prior to completion of the proposed steps to attain soil stabilization, the permittee must secure approval from the Administrative Authority.

(b) When a permittee and landowner transfers ownership, possession or control of real estate subject to either or both an uncompleted erosion control plan or stormwater management plan, the successor in interest to any portion of the real estate shall be responsible to control soil erosion and runoff and shall comply with the minimum standards provided in this ordinance.

(c) When ownership, possession or control of property subject to an uncompleted erosion control or stormwater management plan, or both, is transferred, the former owner (seller) shall notify the new owner (buyer) as to the current status of compliance with notice to the Administrative Authority, and provide a copy of the erosion control plan or stormwater management plan, or both.

(d) Transfers of interest in real estate subject to an approved, uncompleted plan may be conducted consistent with this ordinance under any of the following arrangements:

1. The transferee shall file a new, approved erosion control or stormwater management plan, or both, with the Administrative Authority;
2. The transferee shall obtain an approved assignment from the Administrative Authority as sub-permittee to complete that portion of the approved plan regulating soil erosion and runoff on the transferee's property;
3. The permittee shall provide the Administrative Authority with a duly completed and executed continuing surety bond or certified check in an amount sufficient to complete the work proposed in the approved plan; at the time of transfer the permittee may seek to reduce the surety bond or certified check to the appropriate amount to complete remaining work. If the transferor enters into escrow agreements with transferees to complete an approved plan, these funds shall be available to the Administrative Authority to attain plan compliance. When an approved erosion control plan and, if required, a stormwater management plan is or are not completed as proposed, the Administrative Authority may use the surety bond to complete remaining work to achieve plan compliance.

(5) Plan or Permit Amendments. Any proposed modifications to approved plans, construction schedules or alterations to accepted sequencing of land-disturbing site activities shall be approved by the Administrative Authority prior to implementation of said changes.

(6) Enforcement Authority.

(a) Stop Work Order.

1. Whenever any noncompliance with the provisions of this ordinance is found the Administrative Authority shall attempt to communicate with the owner or person performing the work to obtain immediate and voluntary compliance if such person is readily available. If the owner or person performing the work is not readily available, that person refuses to voluntarily comply immediately or the noncompliance presents an imminent danger or will cause or threatens to cause bodily injury or damage to off-site property, including, but not limited to off-site run-off, the Administrative Authority shall post in a conspicuous place on the premises, a stop work order which shall cause all activity not necessary to correct the noncompliance to cease until noncompliance is corrected.

2. The stop work order shall provide the following information: date of issuance, identifying information and location within the City, reason for posting, and the signature of the inspector posting the card.

3. It shall be a violation of the ordinance for the unauthorized removal of the stop work order from the premises.

(b) In addition to posting a stop work order, the Administrative Authority shall provide notification to the owner or contractor by personal service, written notice by certified mail, or facsimile transmission.

1. The permittee, landowner and contractor shall have twenty-four (24) hours from the time and date of notification by the Administrative Authority to correct any noncompliance with the plan when notification is by either personal communication of noncompliance to owner or contractor or their respective agents or written notice sent by certified mail to owner or contractor.

2. If notice is not provided under sub. (6)(b)1., the permittee and landowner shall have seventy-two (72) hours to correct any noncompliance with the plan when notification is by posting notice in a conspicuous place on the site or sending notice by facsimile transmission to owner or contractor.

(c) If any noncompliance is not corrected within the time periods specified in sub. (6)(b)1. or (6)(b)2., the permittee and landowner authorize the Administrative Authority to take any action, to perform any work, or commence any operations necessary to correct conditions upon the subject property where notice of noncompliance has been issued to bring the property into conformance with plan requirements. The permittee and landowner further consent to reimburse the Administrative Authority for the total costs and expenses of the aforementioned actions. Reimbursement may be imposed and collected as a special charge upon the property for current services rendered as provided by law.

(d) If the permittee has filed an appeal under Sec. 37.13 prior to the expiration of the time for compliance under Sec. 37.12(6)(b) the Administrative Authority may take action, perform work or correct conditions only to the extent necessary to protect against or correct an imminent hazard or a condition that will cause or threatens to cause personal injury or damage to off-site property.

(7) Compliance Inspection Fees.

(a) Any person who shall fail or neglect to comply with any lawful order of the Director of the Building Inspection Division issued pursuant to the provisions of this chapter may be assessed seventy-five dollars ($75) per compliance inspection, as defined in Sec. 27.03(2), MGO, that does not result in compliance with the order.

(b) The Department of Planning and Community and Economic Development shall keep an accurate account of all unpaid inspection fees incurred for compliance

inspection services rendered and report the same to the Finance Director, who shall annually prepare a statement of these special charges at each lot or parcel of land and report the same to the City Clerk, and the amount therein charged to each lot or parcel of land shall be by said Clerk entered in the tax roll as a special charge against said lot or parcel of land, and the same shall be collected in all respects like other special charges upon real estate as provided in Wis. Stat. § 66.0627.

(8) Penalties.

(a) Any person who violates, disobeys, omits, neglects or refuses to comply with or resists the enforcement of any of the provisions of this ordinance, or causes or directs another to do so, shall, upon conviction thereof, be subject to a forfeiture of not less than one hundred dollars ($100) nor more than one thousand dollars ($1,000) for each and every violation thereof. Each day that a violation exists shall constitute a separate offense.

(b) Any person who has the ability to pay any forfeiture entered against him or her under this ordinance but refuses to do so may be confined in the county jail until such forfeiture is paid, but in no event to exceed thirty (30) days. In determining whether an individual has the ability to pay a forfeiture, all items of income and all assets may be considered regardless of whether or not such income or assets are subject to garnishment, lien or attachment by creditors.

(c) As a substitute for or as an addition to forfeiture actions under Sec. 32.12(7)(a) or corrective action under Sec. 37.12(6)(c), the City Attorney is authorized to seek enforcement of any part of this ordinance by court action seeking injunctive relief. It shall not be necessary for the City Attorney to take corrective action or prosecute for forfeiture before resorting to injunctive relief.

(d) Where it is found that any of the provisions of this ordinance are not being observed on particular lands, the Administrative Authority is hereby authorized to require the person to perform the work or land treatment measures within three (3) working days and to order that if the person fails to perform, the Administrative Authority may enter upon the land, and bring the condition of said lands into conformity with the requirements of this ordinance, and recover the costs and expenses thereof from the owner. In the event that the owner fails to pay the amount due, it shall be imposed and collected as a special charge for current services rendered upon the property as provided by law.

(9) Fees. The permit fee shall be payable at the time an application for either an erosion control or a stormwater management permit, or both, is submitted.

37.13 APPEALS AND VARIANCES.

(1) Appeals.

(a) Any person aggrieved or any officer, department, board or commission of the City affected by the order, requirement, decision or determination made by the Administrative Authority pursuant to this ordinance may appeal. Where the Administrative Authority is the City Engineer the appeal shall be made to the Board of Public Works as provided herein. Where the Administrative Authority is the Director of the Building Inspection Division the appeal shall be made to the Building Board of Appeals. For the purpose of this ordinance, "aggrieved person" shall include applicants and property owners who own land that is subject to this ordinance. Such an appeal shall be taken within fifteen (15) days after the challenged decision. Notice of Appeal setting forth the specific grounds for the appeal shall be filed with the Administrative Authority.

(b) The Board of Public Works shall fix a reasonable time for the hearing of the appeal and publish a class 2 notice thereof under Wis. Stat. ch. 985, as well as give due notice to the parties in interest, and decide the same within a reasonable time. Upon the hearing any party may appear in person or by agent or attorney.

(c) The Board of Public Works may, in conformity with the provisions of this ordinance, reverse or affirm, wholly or partly, or modify the order, requirement, decision or determination appealed from and may make such order, requirement, decision or determination as ought to be made, and shall have all the powers of the officer from whom the appeal is taken.

(d) The concurring vote of a majority of the Board of Public Works shall be necessary to reverse the decision of the Administrative Authority. The Boards action shall be considered final action.

(2) Variances.

(a) An applicant may include in the application a request for a variance from the requirements of Sec. 37.08 or 37.09. No variance shall be granted unless applicant demonstrates and the Administrative Authority finds that all of the following conditions are present:

1. Enforcement of the standards set forth in this ordinance will result in unnecessary hardship to the landowner;
2. The hardship is due to exceptional physical conditions unique to the property;
3. Granting the variance will not adversely affect the public health, safety or welfare, nor be contrary to the spirit, purpose and intent of this ordinance;
4. The project will have no adverse impact upon any of the stated purposes of this ordinance as set forth in Sec. 37.02 or 37.05.
5. The applicant has proposed an alternative to the requirement from which the variance is sought that will provide equivalent protection of the public health, safety and welfare, the environment and public and private property.
6. The net cumulative effect of the variance will not impact downstream conditions; and
7. Existing regional facilities are shown to meet the performance standards of this ordinance.

(b) If all of the conditions set forth in Sec. 37.13(2)(a) are met, a variance may only be granted to the minimum extent necessary to afford relief from the unnecessary hardship, with primary consideration to water quality.

(c) A variance from the provisions of Sec. 37.09(3)(a), (b) and (g) may only be granted if:

1. The applicant has met the requirements of Sec. 37.13(1)(c); and
2. The applicant will be denied all reasonable and beneficial use of the property if the variance is denied.

(d) A person aggrieved by a variance determination by the Administrative Authority may appeal the decision to the Board of Public Works.

(e) A variance may be granted to two or more property owners, including governmental agencies that submit one runoff control plan for two or more parcels of land. In the event it is in the interest of the City to participate with another property owner(s) in a runoff control plan and contribute available stormwater detention capacity, or construct stormwater detention on City lands, the other participant(s) shall reimburse the City an amount equal to the value of the City lands used, but not less than the fair market value of unimproved lands, plus the estimated construction cost of the detention capacity that would have been required of the other participant(s) to serve their lands in order to comply with this ordinance.

(Chapter 37 Repealed and Recreated by ORD-12-00141, 11-12-12)
