

Paratransit Service Level Increase

Effective Sunday, August 23

Below are the effects that the proposed service level increase would have on paratransit service area and hours:

Route 31 area:

- Continued daily service – prior to COVID, no daily service in Route 31 area. Since COVID, daily service has been provided, and is proposed to continue with the service level increase in August.

Route 73 area:

- New weekday service - A small portion of the Route 73 service area would now become eligible for service on weekdays.

Route 59 area:

- The Route 59 service area would lose current eligibility on weekdays – Route 59 would return to a Saturday/ Sunday/ Holiday only route (like it operated prior to COVID), limiting eligibility to weekends only. Weekday service area will be provided by Route 52 service area.

Holiday Service Hours:

- Holiday start and end time would end a couple hours earlier at 9:30 p.m.
