Subject: D2 Ald. Support for Red Rock Expanded Capacity Request
Date: Wednesday, June 26, 2024 3:02:00 PM

Good afternoon,

This is Juliana, the District 2 Alder. I'm writing to share my support for Red Rock's request to expand their capacity.

After speaking with Drew about their plans, I do not have concerns with their expanded capacity. Prior to speaking, my primary concerns were safety and crowd management. Drew assured me that Red Rock has plans to expand their staff, including security personnel, to manage the increased capacity. They are also installing a new camera system with will monitor all activities around the building, including the neighboring parking lot.

From my perspective the increased capacity will help with crowd management. In particular, Red Rock constantly has long lines outside that can increase the chance for disturbance. Overall, this sounds like a net positive and I hope the ALRC will be supportive.

Best,

Juliana
