Hello,

I have no idea if this is on the agenda to be addressed.

I live at 3506 Portage Rd. I have an extremely bad traffic problem that nobody from my Alderman, Madison Police Traffic Division, or anyone else will address. I have a speed radar sign in front of my house & a crosswalk near my house.

The speed people tend to go in front of my house is rarely 25 miles per hour. That includes E-Bikes ! The speeds actually reach more like 40 - 70 mph, and an occasional 100 mph + from a car or sport motorcycle (crotch rocket). Personally, I drive 5-6 mph over the speed limit so I don't get run over.

I'm not exaggerating about 70 mph either. I have been passed on the right, passed in the left. AND even in the oncoming traffic side (left side of the road) on a blind corner that has the concrete dividers the city installed. Yes, you read right. The driver ended up following me to a stop sign the next day & wanted to fight me.

Not only that, but some evenings I have illegal dirt bikes & 4-wheelers speeding around. E-Bikes exceeding 30+ mph are common as well. Remember, I have a speed sign in front of my house. I can see how fast they are going.

I had an accident in front of my house while we had a garage sale 2 years ago. At 3pm on a Sunday a parked car was hit at 70 mph (estimated by the MPD officer that wrote the report). You read right, head on because, he crossed ALL lanes of traffic & sandwiched an unoccupied car between him & a telephone pole.

My neighbors coworkers joke that if they want to get rid of a car, just insure it & park it in front of his house. He has had 3 vehicles, a trailer, & several mailboxes totaled.

*** All I have asked for, is a traffic study. Put the 2 rubber cords across the road to record speeds & number of vehicles.

This will prove what I am claiming.

I have asked officers I come across for extra patrols & speed enforcement. I hardly ever see a police cruiser. Except when running code down my street.

Please help, or at least do a study to verify my claims.

Paul Biersach
