PROGRAM B - 2 MAY 25, 2010

CITY OF MADISON

ORGANIZATION:	Madison Area Community Land Trust	
PROGRAM/LETTER:	B MACLT Deep Green Retrofit program	
PRIORITY STATEMENT:	CDBG: B. Housing - Housing for homebuyers (CDBG)	

DESCRIPTION OF SERVICES

The houses MACLT can afford to buy for rehab are typically old, energy-inefficient, and in need of substantial
capital improvements. The Land Trust can spend money deliberately today, to ensure the long-term viability, livibilty
and affordability of the homes it will steward for the next 98 years.

6. NEED FOR PROGRAM: Please identify local community need or gap in service that the proposed program will address.

7. SERVICE DESCRIPTION - Describe the service(s) provided including your expectations of the impact of your activities.

The Deep Green Retrofit program proposes to take old homes and prepare them for the next generations of occupancy and life. MACLT's retrofit project at 709 Gannon Ave. -- funded thanks to the CDBG program -- offers a template for the work MACLT proposes to carry out with the CDBG funds. MACLT will use Block Grant money to reconstruct and moderinze the home's envelope; to rebuild roofs to allow passive-solar gain; to thoroughly and skillyfully insulate the home to promote energy conservation and affordable bills; and to restructure the home's interiors as needed to ensure accessibility, durability, and comfort. In general, the Deep Green Retrofit program will bring old homes to life, by treating the house as a dynamic system to be optimized and made more logical in its livability.

8. PROPOSED PROGRAM CONTRACT GOALS: Include clearly defined service goals and process objectives: number of unduplicated clients to be served, number of service hours to be provided etc.

MACLT proposes to acquire, retrofit, and sell two homes to income-qualified households. MACLT tends to sell homes to households with one to four occupants, and will offer the program based upon opportunity and homebuyer preference.

9. SERVICE HOURS: Frequency, duration of service and hours and days of service availability.

The Deep Green Retrofit program will act upon finding a family committed to working with the Land Trust in the purcase of their home. The development of their home will be integrated within the daily work routine of the Land Trust.

COMMUNITY RESOURCES DESCRIPTION OF SERVICES SUPPLEMENT

Please provide the following information ONLY if you are applying for projects that meet the "Community Resources Program Goals & Priorities" If not applying for CR Funds, go to Demographics (p. 8).

24. CONTRIBUTING RESEARCH

Please identify research or best practice frameworks you have utilized in developing this program.

MACLT staff have written building specification manuals tailored to the needs of affordable housing non-profits, which ensure a durable, energy-efficient, comfortable home scaled to the budgets of income-qualified home buyers. MACLT exploits and integretes strategies of land ownership, sweat-equity contributions of labor, and home layout to offer the best housing product available within the parameters of the Land Trust program. The Retrofit program will draw upon the discoveries of two decades of building science, which in practice focus on the home as a system that can be optimized in terms of site, structure, weatherization, and finish. MACLT tailors its construction specifications to best take advantage of the infusion of sweat-equity value into a project, to infuse as much value per dollar invested into the project. And MACLT continually evaluates its own ownership and resale model to deepen the affordability of its homes.

25. ACCESS FOR LOW-INCOME INDIVIDUALS AND FAMILIES

What percentage of this program's participants do you expect to be of low and/or moderate income?	
What framework do you use to determine or describe participant's or household income status? (check all that apply)

Individuals or families that report 0-50% of Dane County Median Income	
Individual or family income in relation to Federal Poverty guidelines	Х
Other	

26. HOW IS THIS INFORMATION CURRENTLY COLLECTED?

MACLT staff work directly with partner families to collect information regarding household wages, support income, and other assests and liabilities. Family financial information is checked against the HUD qualification spreadsheet to determine eligibility.

27. PLEASE DESCRIBE YOUR USER FEE STRUCTURE AND ANY ACCOMMODATIONS MADE TO ADDRESS ACCESS ISSUES FOR LOW INCOME INDIVIDUALS AND FAMILIES.

MACLT sells the house but lends the land to homebuyers. MACLT collects a monthly land lead fee from its member households. When the aggregate land lease fees are balanced against the savings in the initial volume of the household's mortgage, and the mortgage's associated interest costs, as well as the property tax advantages enjoyed by MACLT properties, a MACLT household can expect to save up to \$100,000 in housing payments over the life of a 30 year mortgage.
