Dear Mr. Levitan:

I want to urge the Commission to vote to preserve intact the buildings in the 100 block of State Street. I believe it is a city's historic buildings that make that city unique. Also, when I look at an historic building and when I walk through its doors I am reminded of those who came before...in whose footsteps I am walking, regardless of whether they were common folks or the city's "movers and shakers". The Frautschi's should be encouraged to do rehabilitation and renovation, not demolition and "facadectomies".

Thank you,
Sandy Bennett
