To: Landmarks Commission
Subject: The Schubert Building
From: Franny Ingebritson

Dear Commission Members:

Please deny the certificate of appropriateness to demolish the landmarked Schubert building.

The rehabilitation of the 100 block can be a win-win situation for the Block 100 Foundation and for those who want to maintain the historic character of the buildings in the 100 block of State Street.

The Madison Trust for Historic Preservation has developed a plan to rehabilitate and redesign the Fairchild Street facades without demolishing any of the buildings that have been identified as contributing properties in a State Street historical district. Please consider the long term benefits to a city that preserves its historical heritage.

Thank you for your time.

Franny Ingebritson
