Subject: Pubic Access, Live Music & Events at The Edgewater
Date: Monday, August 07, 2017 2:14:32 PM

Dear Members of ALRC, City Council and City Staff:

My wife Pamela and I own a condominium at The Edgewater and are avid supporters of live music and other events in the downtown area generally, and those that are held on The Edgewater's public plaza specifically.

Prior to purchasing our place at The Edgewater, we owned a condominium at The Loraine on West Washington Ave. for several years. If it's not obvious, we're bullish on the vibrancy of the downtown Madison community! We made a significant decision in choosing to sell our place at the Loraine in favor of a personally meaningful investment in our residence at The Edgewater. For us, part of the reason we made this decision and investment was because of the investment and commitment The Edgewater itself has made to create a public place and an active environment on the plaza and waterfront for more than just its guests/residents. In a very real sense, at least to us, the public access and the music and events that are programmed primarily for the local community should be applauded and embraced, not limited or heavily restricted.

We do not live at The Edgewater full time (unfortunately). However, we are in Madison frequently, particularly during the active periods for outdoor events. We have found the events to be a positive addition to our choice of residence, not a negative.

Our family are long time, avid supporters of both The University of Wisconsin and the local Madison community. We believe part of what makes Madison a success and so appealing to us, is its active downtown. We hope that The Edgewater will continue to host the type of programming and outdoor events it has since its reopening, and that this remains an active, community asset for Madison as a whole.

Feel free to contact me with questions, or should you wish to discuss this topic in further detail.

Thank you.

GFHjr

Subject: Regarding the Edgewater's Entertainment License
Date: Wednesday, August 09, 2017 12:17:07 PM

To whom it may concern:

I was asked by Kristi Solberg, manager at Kennedy Manor/Madison Land Company, to write a letter stating my experience living with the noise levels coming from the Edgewater Hotel in Madison.

I lived at Kennedy Manor from 2011-2015, which is located on the corner of Langdon and Wisconsin, across from the hotel. The noise level from the construction of the building was terrible to live with. But, I thought that after construction was completed, the noise level would abate and things would go back to normal. They did not. I was constantly living with terrible levels of noise coming from the hotel, whether it was rude guests shouting outside the building night and day, delivery trucks with their horrible back up beepers backing into the loading dock all morning and afternoon (FedEx being the worst), music being piped out of the front doors, tour buses parked and running on the street all times of day, and don't get me started on the concerts.

Suffice it to say, for health reasons, I moved. The stress living with that much noise was too much.

I miss my apartment and it's location at Kennedy Manor very much. I would happily be living there still, if it wasn't for the Edgewater. I hope that the city of Madison will place some noise level constraints on the owner that take into consideration the people living in the neighborhood, before their Entertainment license is renewed.

Thank you,

Allison Smith

TO: ALRC Members
RE: The Edgewater Entertainment License
From: Franny Ingebritson
Date: August 9, 2017

Dear Committee Members:

The frequency of The Edgewater Hotel's amplified outdoor events have severely affected the quality of life for nearby residents who find themselves living in an echoing sound canyon of excessive noise coming from the hotel's property. Thank you for your time.

Sincerely,
Franny Ingebritson

2016-2017 Amplified Outdoor Edgewater Events

Sun. April 10 @ 6-9 pm: SloPig with Live Bluegrass
