I hope that you will support item 15260, the Midvale-Westmorland Neighborhood Plan, as recommended by the Plan Commission. I attended some of the neighborhood planning sessions as a Midvale Heights resident, and am very appreciative of the tremendous effort put into this plan by the volunteers in our neighborhood, and by the thoughtful comments of the neighbors at the planning sessions. In Midvale Heights all residents received numerous invitations to participate in this process, and multiple updates in the neighborhood newsletter, which is delivered to all residents in our neighborhood regardless of whether they are members of the neighborhood association. I think that this document has far more citizen input than the average piece of legislation. I'd like to thank the members of the city's committees for their thoughtful input as well.
