

Greetings,

The applicant has called me, but I have not been able to connect with him. Please consider me officially notified. I am familiar with the location. I am familiar and generally comfortable with the proposed use. I have no opposition at this time, pending review and background check by MPD and others. Captain Wahl: I would like to talk to you sometime soon regarding this application, and more generally, the trend of these types of licenses in my district. I am not really opposed, but I would like to discuss the impact of allowing more of them. What is a reasonable limit? Are we promoting consumption? I would like to have this general discussion with you, and others in your office, at your convenience.

Take care. Please feel free to contact me via email or phone.
