

BPW Meeting January 19, 2011:

Review of Projects by Engineering Environmental Staff for Impacts to Water Resources

5. W Gilman St/N Carroll St Reconstruction

This project will disturb over an acre of land, which shall require a WRAPP from the Dept. of Natural Resources as well as a City of Madison Erosion Control/Stormwater Management permit. **(Chris Petykowski, City Engineering)**

7. Joylynne Dr/Douglas Tr Reconstruction

This project will disturb over an acre of land, which shall require a WRAPP from the Dept. of Natural Resources as well as a City of Madison Erosion Control/Stormwater Management permit. **(LeAnne Hannan, City Engineering)**

56. Hudson Park Sanitary Sewer Emergency Repair

DNR staff has been contacted regarding this project. The City has been given approval to immediately fill the eroded portion with material and cover it with geotextile fabric, as long as the work completed is above the Ordinary High Water Mark. A General Chapter 30 Permit application will need to be submitted for the riprap repair component. It will take about 30 days to receive the permit from the WDNR. **(Mark Moder, City Engineering)**
