I agree completely. Alder Bidar-Sielaff will recall from our meeting with the applicant that they agreed to contact me if they wanted to change their business model; I have not heard from them. That does not bode well.

The following was my reply in support of their original request sent on 4/5/10:

It is my understanding that they intend to serve food at all times, and will not be operating as a tavern selling alcohol beverages only. I would request this be a condition of their license. I am in support of this request as a restaurant type business only.

I am strongly opposed to this request, and would not have supported the original request for their license had they not agreed not to a restaurant-only business model.

Please review. This application will be considered at the June 16, 2010 ALRC meeting

Thank you,
