Questions

Why do I want to serve?

I enjoy helping others and making connections within our community here in Madison. I was encouraged to step up by our former Alder Donna Moreland. She and I have worked on many community events, that have brought our community together:

- Neighborhood meetings
- Picnics
- Helping to raise funds to supports the victims of an apartment fire.

I would like to represent the people of my neighborhood, community and city, by helping citizens understand what our city has to offer. I am not afraid of hard work and feel that through my experiences, this would be a natural progression. With this position I will be able to help and serve in bigger ways than I have ever been able to accomplish before. I want to make positive changes in my community, so that our future generations have something to be proud of.

What would I like to accomplish?

I would like to continue the legacy of Alder Moreland in providing communication to my district, as well as to act as a voice for concerns that arise. I see myself using my previous experience to help with issues related to homelessness in our community, as well as, working to bring our community together in ways that promote unity and a sense of community. I am eager to find ways to get our youth participating and sharing their energy in positive ways to build up our community and character towards one another. Our city is currently facing many issues of poverty, social injustice, as well as violence which I believe can be solved by; giving, aligning and providing opportunities for community to help one another.

Would I run in 2021 Spring Election?

Yes, I would plan to run for the Alderperson position for District 7 in the Spring of 2021 Election.
