To Whom It May Concern:

I am writing this letter to inform you that based on both my personal and business involvement with "My Buddies, LLC," I strongly support Dale Wells' application for a Class B liquor license for his new restaurant.

My name is Amanda Altenberger and I have been involved with this operation on a business and personal level. In preparation for opening the new restaurant and bar, I have been given a wonderful opportunity to shine in my areas of expertise and achievement. I have been in the food and beverage service industry for almost 11 years and this is where my heart is in business. Throughout the last ten years, I have focused on what makes a business in this industry successful and what makes it fail. I have taken what I've personally learned and experienced in the many places I have worked and focused on a way of business and customer service that has made this industry extremely successful for me and my family. Helping with the set-up of this new establishment, I am honored and extremely pleased to be a part of the reintroduction of a family neighborhood establishment that not only focuses on the success of My Buddies business, but also on the community involvement for every age group that will be offered.

My Buddies Kids is an idea developed by several of the people who have contributed to the potential success of Dale and Debra's place. Being a mother myself, I am excited that My Buddies wants to focus on family, and to teach and offer a positive environment for kids with fun events and education offered to the children of the community. There are not many places that offer children a place where they can focus on their positive strengths while getting ready to be a positive successful adult, in a safe, fun environment offered to members of the public.

My Buddies are the people who appreciate the values of people and living. My Buddies Core Beliefs in life are what this has been built on. HONOR, having respect for every 'buddy' and their property; INTEGRITY, empowering every 'buddy' to act honestly and make the right choices in life. KNOWLEDGE, learning is growing; FAMILY, being a genuine, caring, loving, hardworking, trustworthy person. My Buddies understand how important it is to share these values with everyone who enters their establishment. My Buddies is a "family business" and those involved must, and will, treat everybody the same way they hope to be treated: with honor, integrity, knowledge, and understanding importance of family.

**"If you think you know everything, chances are you have a lot to learn"- quote**  
**"What you surround yourself with is what you become" -quote**

These are only a few of the qualities that make me believe there should be no reason to deny Dale & Debra liquor license to open an establishment where the traditional values of family, friendship, companionship, and good business sense and neighboring can be reintroduced into the society, which has been lost in this industry for over 30 years.

Please allow My Buddies Bar license. I hope to see you and your family there!

Thank you for your time and consideration while making a decision in regards to a positive, safe, healthy, fun place of establishment for all ages in our community.

Sincerely Yours,

Amanda Altenberger
