Subject: Thoughts on proposed 1902 Tennyson project

City Planning Commission,

My name is Neil Anderson a North-side Madison resident at [REDACTED] Scott Lane. I am writing to express my lack of support for the proposed rezoning and building of apartment complexes associated with 1902 Tennyson Lane. I believe the surrounding area is already saturated with high density housing, and the local community would be better served by maintaining its present zoning in this area for single family homes. In my opinion single family homes offer individuals and families opportunities for positive long term investment in the local community. I do not see promoting a more high density transient population through building additional apartment complexes on this site as strengthening my neighborhood. In fact, I perceive it as adding more potential problems to an already challenging area. Please consider my thoughts, and thanks for your time.

Neil Anderson
