Mr. Kevin Firchow,

I am writing in behalf of my fiancée whom lives in the New Centurion Condominiums which is adjacent to the Project Address.

Tamara Gloyd – 6701 Fairhaven - #111

She objects to the rezoning due to the fact that this was established to be a condominium neighborhood and not a rental without ownership required. This is only being done by the developer to generate profits, since the condo market has decreased and the ability to make money in rentals is more of an incentive. We would request that this rezoning is denied and that the City of Madison Planning Department stick with the original intention for the neighborhood.

It is really sad when developers see \$\$\$ versus what the original project was intended to be.

Thanks you

James M. Lehman

Tamara Gloyd
