Subject: SW commuter bike path

I know that light pollution is a concern, but I recall biking on this path last summer and being shocked at how dark it was along the SW commuter bike path. A couple walking their dog that evening very nearly took out our friend (or he nearly took out them: who could tell it was so dark!). I would be for the lights. Unless all dog-walkers wear lights like us bikers.

Resident, user of path, but not a neighbor,
