Hello, Commission -

The city has rammed its pre-existing wishes down the throats of the Summit Woods neighborhood as it regards the redesign of Pontiac Trail. Despite neighbors saying they the neighborhood does not need or want sidewalks on both sides, the city is doing it anyway. This neighborhood deserves more than a "one-size-fits-all" plan.

Given that our two options now are parking on street or no parking on street, I want NO PARKING. In fact, the NO PARKING plan has parking by the apartments - that needs to be eliminated too, for safety. That intersection is already hard enough to see around without parking at the corner.

I also don't support the bike path through the park. It will add more traffic, runoff, and reduce privacy of our neighborhood.

Sincerely,

Kim Sprecker
