RE: File No. LD 0820 – Certified survey map – 7101-7201 Manufacturers Drive (EMI)

Dear Mr. Kaukl:

The two-lot certified survey of your client's property located at 7101-7201 Manufacturers Drive, Section 9, Township 8N, Range 10E, City of Madison, Dane County, Wisconsin, is hereby **conditionally approved**. The site is zoned M1 (Limited Manufacturing District). The conditions of approval from the reviewing agencies to be satisfied before final approval and recording of the CSM are:

Please contact Janet Dailey, City Engineering, at 261-9688 if you have questions regarding the following ten conditions:

1. Certified Survey Map must show the existing 50-foot wide Public Pedestrian-Bicycle Trail and Landscaping Easement located adjacent to I-39/90/94 per Document No. 4136691.
2. Clearly identify on the CSM existing easements of records from easements being created by this CSM (if there are in fact any) by labeling as existing and citing the Register of Deeds recorded document number which created the same (i.e. 50' Highway Setback Line, 15' Public Sanitary Sewer Easement and the 10' Utility Easement all exist as created by the Interstate Commerce Park subdivision plat as Document No. 4137450).
3. Add the following note to this CSM: "This CSM is subject to the Agreement recorded as Document No. 4108256".
4. Clearly identify the difference between existing easements (cite Register of Deeds recording data) and any easements which are being conveyed by the CSM. Identify the owner and/or benefiting interest of all easements.
5. Arrows shall be added to the certified survey map indicating the direction of drainage for each property line not fronting on a public street. In addition, the certified survey map shall include lot corner elevations, for all lot corners, to the nearest 0.25-foot. The following notes shall be added to the certified survey map:
 - a.) Arrows indicate the direction of surface drainage swale at individual property lines. Said drainage swale shall be graded with the construction of each principal structure and maintained by the lot owner unless modified with the approval of the City Engineer. Elevations given are for property corners at ground level and shall be maintained by the lot owner.

- b.) All lots within this survey are subject to a public easement for drainage purposes which shall be a minimum of 6-feet in width measured from the property line to the interior of each lot except that the easement shall be 12-feet in width on the perimeter of the certified survey map. Easements shall not be required on property lines shared with green ways or public streets. No structures may be constructed within said easement and no other obstructions to drainage, including landscaping are permitted without the prior written approval of the City Engineer.

Note: In the event of the City of Madison Plan Commission and/or Common Council approve re-division of a previously subdivided property, the underlying public easements for drainage purposes are released and replaced by those required and created by the current approved subdivision.

6. If the lots within this certified survey map are inter-dependent upon one another for storm water runoff conveyance, and/or a private drainage system exists for the entire site an agreement shall be provided for the rights and responsibilities of all lot owners. Said agreement shall be reviewed and placed on file by the City Engineer, referenced on the certified survey map and recorded at the Dane County Register of Deeds.
7. All outstanding Madison Metropolitan Sewerage District (MMSD) and City of Madison sanitary sewer connection charges are due and payable prior to Engineering sign-off, unless otherwise collected with a Developer's / Subdivision Contract. Contact Janet Dailey (261-9688) to obtain the final MMSD billing a minimum of two working days prior to requesting City Engineering signoff.
8. Wisconsin Administrative Code A-E 7.08 identifies when Public Land System (PLS) tie sheets must be filed with the Dane County Surveyor's office. The Developer's Surveyor and/or Applicant must submit copies of required tie sheets or condition reports for all monuments, including center of sections of record, used in this survey, to Eric Pederson, City Engineering. If a new tie sheet is not required under A-E 7.08, Engineering requests a copy of the latest tie sheet on record with Dane County Surveyor's Office. The Applicant shall identify monument types on all PLS corners included on the CSM. Note: Land tie to two PLS corners required.
9. In accordance with Section s.236.34(1)(c) which says a CSM shall be prepared in accordance with s.236.20(2) (c) & (f), Wisconsin Statutes, the applicant must show type, location and width of any and all easements. Clearly identify the difference between existing easements (cite Register of Deeds recording data) and easements that are being conveyed by the CSM. Identify the owner and/or benefiting interest of all easements.
10. Prior to Engineering final sign-off by main office for Certified Survey Maps, the final CSM must be submitted to Engineering Division Surveyor/ Land Records Coordinator for final technical review and approval. This submittal must occur a minimum of two working days prior to final Engineering Division sign-off. E-mail submittal of the final CSM in PDF format to epederson@cityofmadison.com is preferred.

Please contact Dennis Cawley, Madison Water Utility, at 266-4651 if you have any questions regarding the following item:

11. Water service is not presently available to serve Lot 2. This lot shall not be developed until arrangements are made to extend water service. The Water Utility will not need to sign off the final plans, and will need a copy of the approved plans.

Please note that the City Real Estate Office is reviewing the report of title provided with this survey and may have comments. That office will send any comments to you by fax. If you have any questions, please contact Jeff Ekola at 267-8719 for more information.

A resolution authorizing the City to sign the CSM and any other documents related to the proposed land division will be approved by the Common Council on September 2, 2008.

As soon as the comments and conditions have been satisfied as verified with a completed affidavit form (enclosed), the original along with the revised Certified Survey Map, with all signatures and approvals from the reviewing agencies, shall be brought to this office for final signoff. You or your client may then record the certified survey at the Dane County Register of Deeds. For information on recording procedures and fees, contact the Register of Deeds at 266-4141.

Upon acceptance and recording of the certified survey map by the Dane County Register of Deeds, please transfer the recorded volume, document number, and page numbers to the copies and forward a copy to this office for our records. The original survey map with the recording information is permanently kept on file in the Dane County Register of Deeds Office. A copy of the recorded document can be obtained from the Register of Deeds Office, Room 110, City-County Building or the Real Estate Office in the Madison Department of Planning and Development.

Any appeal from this action, including the conditions of approval, must be filed with the Circuit Court within thirty (30) days from the date of this letter. The approval of this CSM shall be null and void if not recorded in **two years** from the date of the approving resolution. If you have any questions or if may be of any further assistance, please do not hesitate to contact my office at 261-9632.

Sincerely,

Timothy M. Parks
Planner
