Re: Parks Commission meeting on 6/12

Mr. Eric Knepp

I urge you to support our DMNA Parks & Garden plans for Glenwood Children's and Glenway Park. I have been working as a volunteer at the park since 2008 and helped formulate the plans to be presented to you.

Support from the Board of Parks Commissioners would go a long way to lifting the morale of we volunteers who have already put years of effort into this project. Many mothers and fathers, out for walk in the park with their families, have stopped by as we worked to thank us for our efforts and tell us how much friendlier is the park these days. That, of course, is our reward. That is what we are trying to do.
