Subject: RE: UW Hosp East: PC conditions language

Tim, Metro's response to the Planning Commission conditions language, referenced as item 40 in the February 7 memo, is as follows:

Metro Transit and UW Health staff has met several times regarding bus service to the UW Health facility at 4602 Eastpark Boulevard in the American Center. The current plan for service during the first year of operation starting Spring 2015 includes the service as specified in item 40 of the February 7, 2013 memo from Timothy Parks of City Planning. It is anticipated that service would be from East Towne Mall and cover the park and ride by the American Center and the parking lot at the UW Clinic East. UW Health is committed to covering the estimated annual cost of \$300,000 as well as providing the necessary infrastructure for the bus service including bus pull-ins on both sides of the street in front of the hospital.

There would be a 3 to 5 year evaluation period during which staff from both organizations would regularly review the potential need for adjustments, including other development occurring that would require revised financial arrangements to pay for transit services to that area.
