### Message:

We are the first 35 vendor selected into the market ready program of the Madison Public Market Project at the beginning.

We are really waiting for this project for too many years and don't give up. Thanks City of Madison to keep this project on the table.

Entrepreneurs like me " part of the minorities" in this city. Need from Alders like you continue taking our voice to the next label of political discussions to get the goal.

### Message:

It is critical to provide funding for necessary services. The Public Market should be seeking funding from the public and wealthy benefactors, not stealing money from city services. We need an increase in police, not a decrease.

Hello,

I am a life long resident of Madison and the public market would be so cool to have! Please vote to provide funding!
