Hello Victor,

I am writing to you in regards to moving out. I apologize once again for the short notice but from my time living at 556 State Street the noise level from Whiskey Rivers will be a problem when I start classes and study. Unfortunately I was unaware that the bar was open 6 days a week and with that plus loud music to 2am, as a student, I find the living situation not ideal for studying and sleeping. It was okay during the time I lived there, for I could catch up on sleep during the lighter hours, but during classes, I will not be able to do so. Therefore I had to put it into perspective and as a working student I need my rest for both work and classes.

I thank you for understanding and thank you for taking the time to sign and allow me to live there during that time period.

Thank You Victor and Jeff.
