

## Tentative Business Plan

### **By Day**

During the day, "Canopy" will be ran as a coffee shop, with the intent to cater to the students and their studying. Lounges, tables, coffee, and food will be offered.

After some remodeling, the upstairs will be converted into a "class" area, where people may meet to take dance classes and other such things.

There's also intent to add an outside patio and other features to better facilitate community activities.

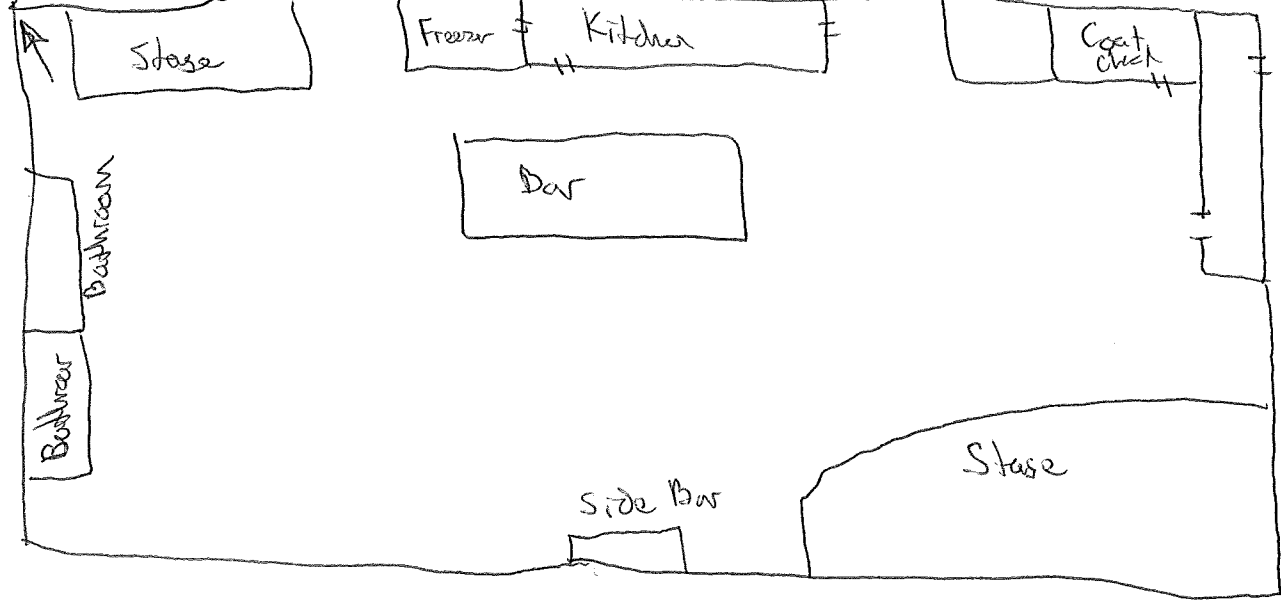

### **By Night**

At night the Café will transition to a Bar/Nightclub where live entertainment such as bands and Dj's will entertain a crowd.
