December	Donners	Despares	Const Federal Domanno
Response	Response	Response	Open-Ended Response
1 Support	Can live with	Do not support	I don't want side walks on the off side of MacArthur or on MacArthur court
2 Support	Can live with	Do not support	I am opposed to adding the sidewalks for the odd side of MacArthur road/ MacArthur court.
3 Do not support	Do not support	Do not support	Do not want sidewalk on odd number side of MACARTHUR RD
4 Support	Can live with	Do not support	
5 Support	Can live with	Do not support	Wider terraces for more big trees!
6			
7 Support	Support	Do not support	We would like curb side parking on MacArthur Rd for visitors to Eagle Harbor apartments. there is limited space for parking there and they use adjacent business lots, which is not preferred. There was mention of cutting off access to Eash
	la r		Wash from Mac Arthur Rd or dead-ending it. We oppose that for business traffic.
8 Support	Can live with	Do not support	
9 Do not support	Can live with	Support	Survey fails to address plans for MacArthur Ct which include sidewalks on both sides of the court. There is no need to add sidewalk on either side as this court only has 4 houses with driveways and is low use. With little vehicle traffic,
			pedestrians have use of the road to walk dogs and kids. We do not support the addition of sidewalks to MacArthur Ct.
10 Can Live With	Can live with	Can live with	Not interested in sidewalk
11 Do not support	Do not support	Do not support	
12 Support	Can live with	Do not support	No
13			
14 Support	Can live with	Do not support	l do not support adding sidewalk to both sides of MacArthur Rd or either side of MacArthur Ct. Extending the existing sidewalk on the southwest (even numbered) side of MacArthur Rd to the intersection with Sycamore should be sufficient
			given the amount and origin of foot traffic. This gives safe passage on a sidewalk all the way out of the neighborhood in both directions. Many people do not even use the existing sidewalk and instead walk in the road itself (majority of the
			people even live on the side of MacArthur that has the sidewalk), and so I do not feel adding additional sidewalk will change their behavior. For MacArthur Ct, having any side walks (on either side of the street) is unnecessary given the low
			vehicle traffic given it services only four houses, and traffic speeds are very low given short length of street and the dead end. Pedestrian traffic is very safe here in the existing state without any sidewalks. In addition if the city has an
			initiative for greener streets, adding so much additional impermeable surface that increases runoff to the lakes seems counterintuitive to this goal.
15 Support	Can live with	Do not support	please make roads as narrow as possible and increase green space. use hourglass style narrowing to help calm traffic to one land at strategic points along ALL roads being reconstructed. MacArthur Court NEEDS to be NO overnight parking
16 Support	Can live with	Do not support	please make roads as narrow as possible and increase green space. use hourglass style narrowing to help calm traffic to one land at strategic points along ALL roads being reconstructed.
17 Support	Can live with	Do not support	please make roads as narrow as possible and increase green space. use hourglass style narrowing to help calm traffic to one land at strategic points along ALL roads being reconstructed.
18 Support	Can live with	Do not support	please make roads as narrow as possible and increase green space. use hourglass style narrowing to help calm traffic to one land at strategic points along ALL roads being reconstructed.
19 Support	Can live with	Do not support	would like more green space and as little roadway as possible. Also requesting traffic calming "hourglass" type narrowing at specific spots on all roads to cause one car traffic calming.

(I like the ones the city put in on Dean. Very nice.) Traffic speed is an issue on this street, however parking is also fairly limited. I'd be in favor of an option to have the 30 foot road but keep the restricted, no overnight parking in effect for the 3800 block of Sycamore. I do not support a sidewalk or on street parking on Mcharther Ct Desire street to be as narrow as possible and also further street narrowing to single lane to promote slower traffic movement. More green space and less non permeable surfaces. I even support removing sidewalk on one side. Do not want to lose the trees in our front yard due to sidewalk being moved. Very concerned about accessibility to my house by vehicle during construction do not support any overnight street parking; it would be used by the apartment complex behind us as it was before the current restrictions. There are multiple families living in the townhouses that are designed and zoned for one. Six families in one currently. Would like to talk to someone to figure out best way for driveway apron to be done. Also why narrow unimproved section when it's already narrower than current curb section? I am assuming the street will be
