Subject: Support protected bike lanes on Cedar St
Date: Monday, May 24, 2021 8:36:31 PM

Caution: This email was sent from an external source. Avoid unknown links and attachments.

I very much support having buffered bike lanes on Cedar St at the Truman Olson site (alternative 1). My senior friends and I sometimes bike to the current Park St grocery. We would do it much more if there was better bike access.

We are always "putting cars first" instead of focusing on public transit and non-carbon modes. Having 60 rather than 65 parking spaces won't be noticed. Safe biking will.

We need to prioritize cheap, clean, healthful transportation at every opportunity. The less convenient we make single passenger trips in 3000 lb cars, the more people will walk, bike and support transit. This is a small step.

Please install protected bike lanes anywhere you can.
