Subject: comment on Olbrich paved path re-design

Caution: This email was sent from an external source. Avoid unknown links and attachments.

Hello,

My “vote” would be for the number 3 option for the redesign of the Olbrich path. This design allows space for the sledding hill which gets much use in the winter months, and is an improvement over the location of the path now.

I do not like option number 1, which traces the lake shore to Starkweather Creek. I would prefer to see busy travel routes for the public remain further away from the lakeshore, as in option # 3 . This option better preserves a more peaceful park for all to enjoy. There are few enough places where one can enjoy the lake vistas, sunsets over water, and wildlife, etc. Let’s do what we can to preserve the natural beauty and provide peaceful areas to enjoy it.

Thank you.
Sincerely,
Sue Ela
