I was commenting on 62436.  
Why was so little notice sent to nearby residents ? The signs were difficult to see and very few received a notice by mail.  
It seems they are trying to slip this through with NO public comment.  
Again I am not in favor.

How does the neighborhood benefit from this proposal?

Many see a potential for increased crime and are worried about property values.

How can the city insure that will not happen?

This location is also located next to a child care and pre school and does not seem like a good fit.
