Subject: Letter to City of Madison alders opposing energy benchmarking ordinance - Greater Madison Chamber of Commerce

<http://greatermadisonchamber.com/2013/chamber-updates/letter-to-city-of-madison-alders-opposing-energy-benchmarking-ordinance/>

I want to go on record supporting the letter from the Chamber of Commerce against the Energy Benchmarking Ordinance. This creates an undue burden on businesses that is not necessary. As a business and property owner we do all we can to keep energy usage to a minimum. It is unrealistic to add more costs of doing business and we have no control over tenants and their energy usage.

Sincerely,

John B. Hutchinson
