## **URBAN DESIGN COMMISSION APPROVAL PROCESS**

#### Introduction

The City of Madison's Urban Design Commission (UDC) has been created to:

- Encourage and promote high quality in the design of new buildings, developments, remodeling, and additions so as to maintain and improve the established standards of property values within the City.
- Foster civic pride in the beauty and nobler assets of the City, and in all other ways possible assure a functionally efficient
  and visually attractive City in the future.

#### **Types of Approvals**

There are three types of requests considered by the UDC:

- <u>Informational Presentation</u>. A request for an Informational Presentation to the UDC may be requested prior to seeking any approvals to obtain early feedback and direction before undertaking detailed design efforts. Applicants should provide details on the context of the site, design concept, site and building plans, and other relevant information to help the UDC understand the proposal and provide feedback. (Does not apply to CDR's or Signage Modification requests)
- <u>Initial Approval</u>. Applicants may, at their discretion, request Initial Approval of a proposal by presenting preliminary design information. As part of their review, the Commission will provide feedback on the design information that should be addressed at Final Approval stage.
- <u>Final Approval</u>. Applicants may request Final Approval of a proposal by presenting all final project details. Recommendations or concerns expressed by the UDC in the Initial Approval must be addressed at this time.

#### **Presentations to the Commission**

The Urban Design Commission meets virtually via Zoom, typically on the second and fourth Wednesdays of each month at 4:30 p.m. Applicant presentations are strongly encouraged, although not required. Prior to the meeting, each individual speaker is required to complete an online registration form to speak at the meeting. A link to complete the online registration will be provided by staff prior to the meeting. Please note that individual presentations will be limited to a **maximum of three (3) minutes**. The pooling of time may be utilized to provide one speaker more time to present, however the additional time will be based on the number of registrants from the applicant team, i.e. two (2) applicant registrants = six (6) minutes for one (1) speaker.

Primarily, the UDC is interested in the appearance and design quality of projects. Emphasis should be given to the site plan, landscape plan, lighting plan, building elevations, exterior building materials, color scheme, and graphics. Please note that presentation slides, in a PDF file format, are required to be submitted **the Friday before** the UDC meeting.

# **URBAN DESIGN DEVELOPMENT PLANS CHECKLIST**

The items listed below are minimum application requirements for the type of approval indicated. Please note that the UDC and/or staff may require additional information in order to have a complete understanding of the project.

1. intorma	πonal Presentation					
	Letter of Intent (If the project is within an Urban Design District, a summary of how the development proposal addresses the district criteria is required)  Contextual site information, including photographs and layout of adjacent buildings/structures  Site Plan  Two-dimensional (2D) images of proposed buildings or structures.		Providing additional information beyond these minimums may generate a greater level of feedback from the Commission.	1 2 3 4 5 6 ** ,	<ul> <li>Title block</li> <li>Sheet numle</li> <li>North arrow</li> <li>Scale, both</li> <li>Date</li> <li>Fully dimental 1"= 40" of All plans must</li> </ul>	written and graphic sioned plans, scaled or larger be legible, including dscape and lighting

#### 5. Required Submittal Materials

#### **Application Form**

• A completed application form is required for <u>each</u> UDC appearance. For projects also requiring Plan Commission approval, applicants must also have submitted an accepted application for Plan Commission consideration prior to obtaining any formal action (Initial or Final Approval) from the UDC.

#### **Letter of Intent**

- If the project is within an Urban Design District, a summary of how the development proposal addresses the district criteria is required.
- For signage applications, a summary of how the proposed signage is consistent with the applicable Comprehensive Design Review (CDR) or Signage Modification review criteria is required.

Development Plans (Refer to checklist on Page 4 for plan details)

Filing Fee (Refer to Section 7 (below) for a list of application fees by request type)

#### **Electronic Submittal**

- Complete electronic submittals <u>must</u> be received prior to the application deadline before an application will be scheduled for a UDC meeting. Late materials will not be accepted. All plans must be legible and scalable when reduced. Individual PDF files of each item submitted should be submitted via email to <u>UDCapplications@cityofmadison.com</u>. The email must include the project address, project name, and applicant name.
- Email Size Limits. Note that <u>an individual email cannot exceed 20MB</u> and <u>it is the responsibility of the applicant</u> to present files in a manner that can be accepted. Applicants who are unable to provide the materials electronically should contact the Planning Division at (608) 266-4635 for assistance.

#### **Notification to the District Alder**

• Please provide an email to the District Alder notifying them that you are filing this UDC application. Please send this as early in the process as possible and provide a copy of that email with the submitted application.

6.	App	licant Declarations	
	1.	Prior to submitting this application, the applicant is required.	o discuss the proposed project with Urban Design Commission staff. on
	2.	• • • • • • • • • • • • • • • • • • • •	d in this submittal and understands that if any required information on will not be placed on an Urban Design Commission agenda for
	Nam	e of applicant	Relationship to property
	Auth	orizing signature of property owner	Date 6/23/23
7	Anni	isation Filing Foos	

#### 7. Application Filing Fees

Fee payments are due by the submittal date. Payments received after the submittal deadline may result in the submittal being scheduled for the next application review cycle. Fees may be paid in-person, via US Mail, or City drop box. If mailed, please mail to: City of Madison Building Inspection, P.O. Box 2984, Madison, WI 53701-2984. The City's drop box is located outside the Municipal Building at 215 Martin Luther King, Jr. Blvd. on the E Doty Street side of the building. Please make checks payable to City Treasurer, and include a completed application form or cover letter indicating the project location and applicant information with all checks mailed or submitted via the City's drop box.

Please consult the schedule below for the appropriate fee for your request:

Urban Design Districts: \$350 (per §33.24(6) MGO).

Minor Alteration in the Downtown Core District (DC) or Urban Mixed-Use District (UMX) : \$150

(per §33.24(6)(b) MGO)

Comprehensive Design Review: \$500

(per §31.041(3)(d)(1)(a) MGO)

Minor Alteration to a Comprehensive Sign Plan: \$100 (per §31.041(3)(d)(1)(c) MGO)

All other sign requests to the Urban Design Commission, including, but not limited to: appeals from the decisions of the Zoning Administrator, requests for Sign Modifications (of height, area, and setback), and additional sign code approvals: \$300 (per §31.041(3)(d)(2) MGO)

A filing fee is not required for the following project applications if part of the combined application process involving both Urban Design Commission and Plan Commission:

- Project in the Downtown Core District (DC), Urban Mixed-Use District (UMX), or Mixed-Use Center District (MXC)
- Project in the Suburban Employment Center District (SEC), Campus Institutional District (CI), or Employment Campus District (EC)
- Planned Development (PD): General Development Plan (GDP) and/or Specific Implementation Plan (SIP)
- Planned Multi-Use Site or Residential Building Complex

June 26, 2023(2)

Urban Design Commission City of Madison

RE: 2301 W Beltline HWY Sign Plan Amendment – Kayser Ford Lincoln – Comprehensive Design Review of a CC Commercial Center District Site

Dear Commission,

Attached is the proposed sign plan for the Commercial Site, Zoned CC, located at 2301 W Beltline HWY.

This application requests an amendment to the Kayser Ford Lincoln signage plan approved by the Commission in 2013. The request includes removal of some existing ground signage, removal of some existing wall signage, new wall signage on the recently constructed Lincoln showroom building, and new ground signage for effective identification of this extensive site. This 11.5+ acre site includes operations of a Ford dealership, a Ford Commercial Vehicle Center (heavy trucks), and a Lincoln dealership.

Included in this application is an aerial map pictorially showing signage which exists at the start of the Lincoln showroom construction project as well as the entire proposed signage plan to effectively identify the property and operations within. Existing signage was identified with numbers 1 through 22 on the pictorial aerial map; below is a summary of the changes to the existing signage:

- Sign 2 (ground directional sign near an entrance on the western side of the property) will be eliminated.
- Sign 3 (Ford Quality Checked Used Cars pylon sign on the eastern side of the property near the new constructed Lincoln showroom) will be removed and replaced with a Lincoln ground sign. This Lincoln ground sign will be 13' in height, which is consistent with ground sign height regulations in the Sign Ordinance. This sign is internally-illuminated and is compliant with section 31.04(5)(k)5 so that when illuminated, the sign appears to have light-color copy on a dark or non-illuminated background.
- Sign 7 (Quick Lane informational wall sign) will be eliminated.
- Sign 8 (Quick Lane parking sign mounted on a light pole) will be eliminated.
- Sign 10 (wall sign advising caution) will be eliminated.
- Sign 13 (Lincoln wall sign near the western side of the property) will be eliminated. (The new Lincoln showroom is on the eastern side of the property and wall signage for the showroom is discussed later in this application.)
- Sign 14 (Lincoln pylon sign on the western side of the property) will be removed and replaced with a Ford Commercial Vehicle Center (CVC) pole sign. This CVC pole sign will be 22' in height, which is consistent with pole sign height regulations in the Sign Ordinance. This sign is internally-illuminated and is compliant with section 31.04(5)(k)5 so that when illuminated, the sign appears to have light-color copy on a dark or non-illuminated background.
- Sign 15 (ground directional sign near the western most entrance to the property) will be eliminated.

- Sign 21 (Kayser Commercial Trucks ground sign in the southwestern corner of the property) will be eliminated.
- Sign 22 (Kayser Budget Used pylon sign near the eastern most entrance to the property) will be eliminated (*this sign has already been removed in conjunction with the Lincoln showroom construction*).

For the new Lincoln showroom building, the proposed signage is as follows:

- LINCOLN letters on the north elevation facing the street. These are below canopy mounted letters with a 10' underclearance to the building floor below; the building floor is several feet above grade at this location, resulting in an underclearance to grade of approximately 14' (grade in this area consists of a landscaping bed).
- SERVICE letters on the north elevation facing the street. These are below canopy mounted letters with a 11'-2" underclearance to grade below. This is to identify where visitors enter for vehicle service. The overhead door behind the area where the site is located has a shorter height than the 11'-2" underclearance to grade, and no vehicles exceeding this height are expected to pass into the building.
- A Lincoln logo on the north elevation facing the street; this is compliant with section 31.07 of the Sign Ordinance.
- KAYSER dealer name letters on a free-standing wall immediately in front of the showroom building that, between the steps and the accessibility ramp to reach the building entrance; this is considered a ground sign from a Zoning perspective, and is consistent with ground sign height regulations in the Sign Ordinance.
- A non-illuminated Lincoln logo on the windows on the west elevation facing the parking lot. As a window sign, this is per the Sign Ordinance without the need a permit per section 31.10(1), as its area is 12.67 sq ft (2'-0" x 6'-4") and the window bank it is installed on is 197.22 sq ft (16'-8" x 11'-10"), for total coverage of 6.4%. This window-mounted logo is desired over a typical wall sign on this elevation as it is a unique dimensional element that can be seen from outside or inside the showroom; that is, one element of the sign will be adhered on the outside of the glass and a matching element will be adhered on the inside of the glass, giving an appearance the logo is 'passing through' the window glass.
- The illuminated signage for the showroom building is compliant with section 31.04(5)(k)5 so that when illuminated, the sign appears to have light-color copy on a dark or non-illuminated background.

Per the Madison Sign Control Ordinance, section 31.043(4)(b) Comprehensive Design Review Criteria, below are the seven items required to be addressed. Indented under each item is information to support how we believe each item is satisfied.

- 1. The Sign Plan shall create visual harmony between the signs, building(s), and building site through unique and exceptional use of materials, design, color, any lighting, and other design elements; and shall result in signs of appropriate scale and character to the uses and building(s) on the zoning lot as well as adjacent buildings, structures and uses.
  - The proposed sign plan indeed creates visual harmony between the signs, buildings and site and appears to result in signs of appropriate scale and character. Development of the proposed sign plan included removal of signs that were deemed not to be in visual harmony with the overall site.
- 2. Each element of the Sign Plan shall be found to be necessary due to unique or unusual design aspects in the architecture or limitations in the building site or surrounding environment; ...

The proposed sign plan is intended to effectively identify this extensive property for visitors and the public.

3. The Sign Plan shall not violate any of the stated purposes described in Secs. 31.02(1) and 33.24(2).

The proposed sign plan is not intended to violate any stated purposes of ordinances, and it does not appear to do so.

4. All signs must meet minimum construction requirements under Sec. 31.04(5).

The proposed signage meets minimum construction requirements of the Chapter 31 Sign Control Ordinance.

5. The Sign Plan shall not approve Advertising beyond the restrictions in Sec. 31.11 or Off-Premise Directional Signs beyond the restrictions in Sec. 31.115.

The proposed signage is on-premise of the owner's property and does not go beyond the restrictions of Advertising or Off-Premise Directional Signs in the Chapter 31 Sign Control Ordinance.

6. The Sign Plan shall not be approved if any element of the plan: a. presents a hazard to vehicular or pedestrian traffic on public or private property, b. obstructs views at points of ingress and egress of adjoining properties, c. obstructs or impedes the visibility of existing lawful signs on adjacent property, or d. negatively impacts the visual quality of public or private open space.

The proposed sign plan is not intended to present hazards, obstruct views, obstruct visibility of lawful signs, or negatively impact visual quality, and it does not appear to do so.

7. The Sign Plan may only encompass signs on private property of the zoning lot or building site in question, and shall not approve any signs in the right of way or on public property.

The proposed signage is on the owner's private property.

Following this letter of intent is the Locator Map, pictorial summary showing existing signage at the start of the Lincoln showroom construction project as well as the entire proposed signage plan, sheets showing the proposed signage for the newly constructed showroom building, and design sheets of the remainder of the signs in the amended sign plan.

In summary, the proposed sign plan is intended to optimize property identification and effectively inform the public of the various operations on this extensive site. As such, we are seeking approval of this amendment to the signage plan.

Thank you for your consideration.

Dan Pietrzykowski
