Dear Board of Health & Public Safety committee members,

I am writing to express my support for the proposed buffer zone ordinance. This measure will protect patients from harassment and ensure their privacy while accessing health care, including abortion care. No one making this very personal decision should have protesters in their face or blocking their way.

Please support this measure when it comes before you for a vote.

Thank you for your consideration of this measure.

Sincerely,

ellen karlson

No one making this very personal decision should have protesters in their face or blocking their way.

Please support this measure when it comes before you for a vote.

I am a retired women's health care provider. This is a legal medical procedure, albeit controversial. Would you like someone yelling at you when you go to have your gall bladder, uterus or appendix out or a hip or knee replaced, or any other personal medical decision you make?

Imagine these things interfered with by someone who has no knowledge of your personal circumstances, and judges you by their own beliefs and experiences. In my opinion, your vote for this is a no-brainer! Thank you for your consideration of this measure.

Sincerely,

Rosalind Woodward

No one making this very personal decision should have protesters in their face or blocking their way.

Please support this measure when it comes before you for a vote.

I am way past the age to worry about having an abortion and thankfully, I never had to make that choice. But no one who is that position should be subjected to the harassment by protestors. Also, so many of these women are coming to the clinics for non-abortion care, including contraceptives. Without easy access to contraception while I was much younger, I may have had to make a decision whether or not to abort. These women need safe access. Please support this buffer zone.

Sincerely,

Mary Duffy

Dear Board of Health & Public Safety committee members,

I am writing to express my support for the proposed buffer zone ordinance. This measure will protect patients from harassment and ensure their privacy while accessing health care, including abortion care. No one making this very personal decision should have protesters in their face or blocking their way.

Please support this measure when it comes before you for a vote.

Thank you for your consideration of this measure.

From someone who has served this community of women in their time of need, I would like to say that it is important for those who are anti-choice to learn that they should not think they have the right to place more stress into others lives. This is not an easy decision, and all too often I have experienced a woman who has stood for her anti-choice opinion -- loud and clear -- until suddenly she is pregnant and for any one of many sufficient reasons, she chooses to have an abortion. Then she may say -- "Oh, but this is different...." or... she may say -- "Now I understand, and I respect the right for women to make their own decision without harassment."

Please support this buffer zone ordinance so as not to invade someone's privacy nor make the decision more difficult than it is.

Sincerely,

Virginia Shannon

Dane County Board of Health & Public Safety committee members WI

Dear Board of Health & Public Safety committee members,

I am writing to express my support for the proposed buffer zone ordinance. This measure will protect patients from harassment and ensure their privacy while accessing health care, including abortion care. No one making this very personal decision should have protesters in their face or blocking their way.

Please support this measure when it comes before you for a vote.

Thank you for your consideration of this measure.

Sincerely,

Jo Anna Pautsch

Please support this measure when it comes before you for a vote.

Thank you for your consideration of this measure. It is VERY important to me and we need to set an example for the rest of the state - that women's reproductive health is more important than scoring political points for re-election!

Sincerely,

Jennifer Neuls

Thank you for your consideration of this measure. We really need a buffer zone because the protestors think that all women who use this clinic are getting abortions, but these clinics are indispensable to those who get regular clinical care there, such as check-ups or mammograms. People should not be discouraged from getting regular health care. The buffer zone will ensure that people get the care they need - care that has nothing to do with abortion.

Sincerely,

Sabine Knoppke-Wetzel
