Please seriously think about not allowing future buildings to be constructed in the City of Madison for the next 20-30 years. Even with the Dane County deficit and 835 million dollar multi-county budget as an agreement with the southern states boundary with The State of Illinois and The State of Iowa. There needs to be a end to some of the construction that is business poor, empty of residents and too expensive to manage house.

Many of the surrounding counties specifically south of Dane County could fare better with most of the buildings that were built in Madison.

City Resident.
