313	Hello, I am having a hard time understanding these questions. They are skewed, in that there are a number of assumptions that seem to be imbedded in them. For example, the first question asks "Do you believe in City Government"? What does that imply, or even mean? Of course I believe in it, as in I know that it exists (e.g. Do you believe in Santa Claus?). Is this trying to ask me if I think that city services are effective, or if I think they are working to support one thing or another? If those are the questions, why not just ask those questions?	7/29/2019 4:42 AM

135	I am OK with both phone and website. My limited experience is that my input doesn't make a difference. Eg: my neighborhood zoning used to require input from neighbors when someone wanted to put on an addition or make a change in their home structure. A city employee bought the house nextdoor to us and one day construction folks showed up to start a 2 story addition right next to our property line with no notice or input. WHen I complained, I was told that the zoning ordinance was going to change the following year so they approved his plans without following city procedures. So what's the point of going to a meeting?	7/27/2019 2:32 PM

Q11 How can the local government give more resources?

Answered: 1,210   Skipped: 438

#	RESPONSES	DATE
1	The existing city website and services are quite impressive as is, but interactive services/dynamic content would provide easier access.	8/30/2019 4:49 AM
2	make sure government is giving access to all, using various modes of communication and various geographical locations	8/29/2019 8:33 AM
3	By getting more info out there	8/29/2019 7:04 AM
4	Regular updates on user selected topics of interest. Example, I want to know about bike infrastructure and East side updates, but not children's events or West side updates.	8/29/2019 5:17 AM
5	They shouldn't - government isn't about supplying resources.	8/28/2019 2:44 PM
6	This question is way too vague. More resources for what? It is not clear what is being asked here.	8/28/2019 10:09 AM
7	I don't know	8/28/2019 5:23 AM
8	More communication with residents	8/28/2019 4:35 AM
9	Updates on Facebook	8/28/2019 4:09 AM
10	Help empower individual neighborhoods by providing regular updates via neighborhood associations,newsletters, etc. My personal experience has been that our local neighborhood association operates an agenda that is at times contradictory to both process + spirit of city	8/28/2019 4:09 AM
11	Stop spending thousands of dollars hiring consultants. Create an actual bike friendly city accessible to families. Change policies that prevent/limit access to parks and public spaces.	8/28/2019 2:59 AM
12	They give plenty now.	8/27/2019 1:41 PM
13	This question is confusing.	8/27/2019 9:44 AM
14	Visual advertisement	8/27/2019 8:19 AM
15	Leverage libraries	8/27/2019 8:06 AM
16	Prioritize biggest pain points and focus on prevention.	8/27/2019 2:24 AM
17	Fund homelesness add other preventive programs	8/27/2019 1:35 AM
18	Through our organizations who we are active with	8/26/2019 10:38 PM
19	Invest in trusted neighborhood partners. Provide funds to places like Tenant Resource Center for evictions that people like me can actually get instead of telling me that if I get help from them I can't get no more money help for 3 years. These landlords are ruthless. Git rid of ccap being public.	8/26/2019 9:58 PM
20	Better communication of what is available. I moved to this town and was like"well here I am" - maybe some sort of information packet for new residents? Here's salient websites and information?	8/26/2019 6:13 PM
21	What do you mean by resources? More libraries? Better educated and compensated streets workers? This question is baffling.	8/26/2019 11:06 AM
22	I don't understand this question. You mean: Raise taxes?	8/26/2019 11:05 AM
23	Not sure	8/26/2019 9:09 AM
24	rely in collaboration with neighborhood leaders/.agencies but also be out in the community... like the NRTs... and not just rely on same way of communication.	8/26/2019 8:30 AM
25	I'm unsure what kind of resources you are referring to.	8/26/2019 5:24 AM
26	Have someone at various free events in town.	8/26/2019 5:14 AM
27	I think we need more police officers	8/26/2019 4:45 AM

28	Send emails	8/26/2019 4:44 AM
29	Unsure	8/26/2019 4:17 AM

31	Empower community leaders	8/26/2019 4:08 AM
32	Email	8/26/2019 3:05 AM
33	Regularly publish how taxes are spent.	8/25/2019 12:49 PM
34	Not sure what this is asking. Give more resources to neighborhoods? The city needs more resources itself, due to state constraints	8/25/2019 11:03 AM
35	Unsure	8/25/2019 8:31 AM
36	Posting agendas of City Committee Meets in a timely manner on the City Website. Many of the agendas are posted after the meeting has taken place.	8/25/2019 8:29 AM
37	I'm not sure if it's so much about more resources it's making it easier to access them. There's oage after page online and it's overwhelming to navigate in it's current state.	8/25/2019 4:59 AM
38	I don't know	8/25/2019 4:51 AM
39	transportation will improve access to preexisting resources	8/25/2019 4:35 AM
40	Treat the internet like an essential service.	8/25/2019 4:27 AM
41	Libraries, schools	8/25/2019 1:25 AM
42	Online. Social media might help.	8/24/2019 5:48 PM
43	Not sure	8/24/2019 5:02 PM
44	Better online documentation and access to resources	8/24/2019 4:35 PM
45	I don't understand what this question is asking.	8/24/2019 3:02 PM
46	I've noticed some meetings, like a recent one with Ismael Ozanne, are held during the work day. More things in the evening would help make it easier to attend.	8/24/2019 2:01 PM
47	Do more outreach so citizens know what resources they have.	8/24/2019 1:45 PM
48	Neighborhood meetings, especially in newer neighborhoods	8/24/2019 1:10 PM
49	I don't have any answers to that. I think if city government emphasized the committees in existence, their roles and expectations, people would be more likely to take questions to the committees. Also, if the city actually coordinated communications among and between neighborhood associations, there would be more coordination and collaboration among these groups	8/24/2019 11:25 AM
50	Make them available online	8/24/2019 10:21 AM
51	N/A	8/24/2019 9:28 AM
52	Bringing resources to people. For example, the city has done a great job with voting access by having it at the libraries in advance of Election Day.	8/24/2019 9:13 AM
53	Greater sharing of information using multiple formats and in each neighborhood	8/24/2019 8:46 AM
54	Not sure but being that I saw this survey on Facebook through the City of Madison page I would keep promoting that way of sharing information. Creating events to become aware of decision making discussions.	8/24/2019 6:58 AM
55	By being more accessible to more people.	8/24/2019 6:53 AM
56	Question is too vague. Give?	8/24/2019 5:57 AM
57	More citizen participation	8/24/2019 5:56 AM
58	More on line access.	8/24/2019 5:46 AM
59	Door to door info. Neighborhood information sessions. Regular presence online including social media	8/24/2019 5:41 AM
60	Have alders that are responsive to emails, messages and outreach	8/24/2019 5:27 AM

61	Not sure what is being asked here.	8/24/2019 5:22 AM
62	Take a break from the high rise apartment construction	8/24/2019 5:22 AM
63	Unsure	8/24/2019 5:19 AM
64	Housing. Transportation.	8/24/2019 5:17 AM
65	Better communication, less political jargon, more local focus.	8/24/2019 4:51 AM
66	First, get a website that doesn't look like a Geocities template. Second, regulate the way meetings are conducted so they don't go until late at night.	8/24/2019 4:16 AM
67	Not sure. I think engagement has improved but maybe also focusing more on the things that people could use day to day.	8/24/2019 4:09 AM
68	What? This question doesn't make sense. Give more resources for what?	8/23/2019 7:07 PM
69	No need for more just target them to people who will use them to better their situation not just skate by	8/23/2019 5:07 PM
70	Neighborhood resources	8/23/2019 3:18 PM
71	I don't know	8/23/2019 12:14 PM
72	Listen first to what the residents are saying about how they'd like their city developed; there are a group of residents that feel that the latest developments resemble Chicago and increased population density is not good for people's mental health.	8/23/2019 11:25 AM
73	This question is to vague. What do you mean by "resources"? Do you mean more buses, libraries open on all Sundays in the year, more community gardens???	8/23/2019 11:21 AM
74	Fix tax policies and State shared revenue system so there's more money for local government.	8/23/2019 5:35 AM
75	Make it more available through modern mediums.	8/22/2019 7:35 AM

79	By talking to more people	8/22/2019 6:17 AM
80	Be more informative about the resources the city currently has through various medias such as online websites, emails, etc.	8/22/2019 6:14 AM

82	Not sure	8/22/2019 5:53 AM
83	More website information	8/22/2019 5:50 AM
84	make information more accessible to citizens who are low-literate or not fluent in English.	8/22/2019 5:38 AM

907	Online networking	7/30/2019 2:35 AM
908	Start by providing the basic services that have been curtailed: yard waste pick up that doesn't end 2 weeks before it is nice enough to do yard work in May. Summer yard waste pick up. Give teens something to do of service (such as park clean up) that deters breaking into houses and stealing cars. Food waste recycling program.	7/30/2019 2:27 AM
909	Investing in projects and infrastructure that will give back resources to the city. Let's identify the areas which consume the most in city resources and provide no return on investment (i.e. those areas where costs continue to increase without a commensurate rise in benefits).	7/30/2019 2:24 AM
910	I am not sure more resources are needed. We need to be sure monies spent are actually making a difference.	7/30/2019 2:15 AM
911	I have no idea.	7/30/2019 2:01 AM
912	A wider distribution of its email lists. There are so many committees, commissions, and task forces, though, that most citizens get overwhelmed and frustrated with the tiresome meetings and conversations that bureaucrats have and nothing their actual interests are not served because of the layers of "accountability" that exists and require approval for things to happen.	7/30/2019 1:59 AM
913	I find it hard to keep up with all of the changes that are being proposed. I have signed-up at meetings concerning specific topics such as dog parks but did not receive information about recent proposed changes from the City.	7/30/2019 1:49 AM

915	Not sure what this means	7/30/2019 12:39 AM
916	Community outreach. I like the Nextdoor App. My alderman keeps us informed through that but I'm sure many many not know about it.	7/30/2019 12:15 AM
917	Help with more youth sports and working in areas that don't have much resources to help keep kids out of trouble	7/29/2019 7:19 PM
918	making contact with people outreach	7/29/2019 7:16 PM
919	Define "resources".	7/29/2019 6:46 PM
920	I think local government already does enough and in some instances too much. I think the focus needs to be on core services that best serve the entire city, not select groups or neighborhoods.	7/29/2019 5:41 PM
921	Tax or place a surcharge on those renting and or owning luxury apartments and condos to subsidize affordable rental housing and improving existing outdated apartment buildings (e.g. bedroom ac, energy efficient windows, security doors, etc. Provide TIFF money only to developers willing to integrate or build decent affordable rental space. Total vacancy is not high enough to lower rents, actual year round occupancy is not as high as it should be. Properly subsidize the Tenant Resource Center and expand its role beyond evictions and monitoring legislation. Properly fund the Madison Police Department with the number of officers needed to adequately patrol the streets and respond to all calls during all hours of the day. Partner and extend paratransit service to surrounding municipalities like Fitchburg, Middleton, etc. Provide a system for people to submit comments online to issues that will be discussed and decided at upcoming city council meetings. A main issue is that people find out a topic is to be decided 24 hours or less before the actual meeting. Working people do not have time to go to the meeting, wait three hours, and then give 3 minutes of input.	7/29/2019 5:39 PM
922	Communicate about existing resources in local news media on tv, websites, and news apps. I'm guessing most people, including me, are aware of less than 20% of resources available. Provide links to the City website in the story.	7/29/2019 5:30 PM
923	I'm guessing that having neighbors who are comfortable with city govt structures be known to their neighbors and approachable if residents have questions.	7/29/2019 5:23 PM
924	More notifications for important events other than newspapers or madison.com. Spread wide on multiple media and social media platforms, even more snail mail	7/29/2019 4:52 PM
925	T	7/29/2019 4:32 PM
926	What do you mean?	7/29/2019 4:22 PM

927	Stop micromanaging the community. Local government focuses and spends a significant amount of time and resource working on things that don't matter to community as a whole. Investment in transportation includes letting transportation agencies do their job. BRT will fail in Madison. The officials want it but they will also restrict it from its full potential due to the incredible red tape and push back from other areas of the community. Here's an example, remove parking and bike lane on E Washington Ave for dedicated bus lanes. Not just 10 blocks, the entire length. It'll never happen. Never.	7/29/2019 4:19 PM
928	No strong opinion. Perhaps both more online accessibility and more meetings in dispersed locations.	7/29/2019 4:01 PM
929	Listen to what the people need. It varies by district sometimes.	7/29/2019 3:58 PM
930	Give alders more resources to interact with and service their constituents. Have alders establish offices or regular office hours in their districts. Also, the big issue in the city these days seems to be crime. More police outreach is needed.	7/29/2019 3:37 PM
931	Eliminate or reduce all of the red tape involved in everything.	7/29/2019 3:23 PM

For example, how many people know what rent abatement is, that it is an available resource/service, and actually use it? I'm sure there are plenty of examples like this that show more communication, not resources are needed.	7/29/2019 10:25 AM

For example, I sent a message to the city website FAQ when there was no place to report improper chemical/herbicide applications by contractors. Perhaps people could learn to forward concerns reported via online/neighborhood egroups or in person neighborhood gatherings to some city nexus where they get addressed. Think about website navigation from our perspective. What page(s) would we logically go to next? Remember, you guys know this stuff but we probably have only bits and pieces of where to go and what to do. Check out the term "user stories" in relation to programming/web development. Ideally, the city's website should address every one of these user stories within every department and/or function. It can be a tedious process but it's very doable.	7/26/2019 2:20 PM

| 1121	This question is vague and almost nonsensical. I'm not sure what is being asked. There is a latent assumption that government should be giving more "resources." How are you defining a "resource?" What do you mean by "give"? -- subsidies, taxes and/or taxation, payments, land, permits, information, skill training? All of these (and more) could be considered "resources." Technically, aren't local municipalities mostly responsible for municipal functions, and counties, states and the federal government responsible for supportive services? I am not sure how this question ended up on a professional/city sponsored survey. I can infer as to what the intent is behind it, but it is poorly worded, poorly framed, and left to the reader to decipher.	7/26/2019 6:14 AM

1123	I don't really know what this question means. I find that relevant meetings do not happen at times I can attend (due to my job, family responsibilities, and competing interests), are difficult to discover, and have made me feel like an outsider. I rely on special interest groups (e.g., Madison Bikes, Citizen's Climate Lobby) to be informed on what's important to me. I wish that my neighborhood association and Alder were more accessible and reliable sources of information so that my opportunities for involvement were not limited to just those special interest groups.	7/26/2019 5:28 AM

75	I am not aware that this is up for consideration. I would want to hear the pros and cons before making a choice. Generally having to take time and funding for an election every two years is inefficient and a constraint on developing expertise etc.; on the other hand, if there is serious disappointment in an elected Alder 4 years is a long time to wait for change. How about two years the first time and 4 years after that?	7/29/2019 3:01 PM

89	I am fine with two year terms, however, I wonder if there would be more neighborhood continuity if our elders had longer terms.	7/27/2019 3:06 PM
90	3 or 4 years. Two is too short.	7/27/2019 4:18 AM

91	Only two years, term limits. Can't run again. Maybe something would get done.	7/26/2019 3:02 PM
92	I think that 2 year terms are to short for positions that would require familiarity with job requirements. I am not exactly sure what alders do so I don't know if they fit this requirement or not.	7/26/2019 11:47 AM
93	I don't have a strong opinion, but 3 might be a good number. Alder and mayoral elections would only coincide every 12 years, reducing chances of problems from too much turnover of experienced elected officials at one time. Two years seems a little short, as incoming Alders need some time to learn the ropes, and spend more time campaigning than they would with 3 or 4 year terms.	7/26/2019 9:10 AM
94	Three years with staggered terms. Consider adding 1 more alder so that 7 of 21 alders are up for election every year.	7/26/2019 8:57 AM

100	Questions 17 & 18 are leading and/or limiting in their format. I think that the districts could be rethought (for question #17), and that without any other information as to why these questions are being posed and / or the known implications and/or conversations around the formatting of these questions, they are misleading. 4 years, if I should only pick between the two options.	7/26/2019 6:14 AM
101	Would overlapping 3-year terms make more sense, to continue to have more frequent turnover every two years while also mitigating the lost knowledge between alders?	7/26/2019 5:28 AM

107	I didn't realize they get paid. If the job demands 40 hr per week then pay full time work. Our current alder seems to struggle to perform alder workin addition to her "day job" and I suspect would perform better for us if not juggling 2 jobs	8/4/2019 2:27 AM
108	I would need more information to make an informed decision. Full time would allow more participants. Part-time only allows those privileged enough to work part-time the opportunity to serve. However, are there resources and enough work to have full time alders?	8/3/2019 8:46 AM
109	I'm not aware of the expectations/workloads of Alders. If availability and workload expectations of Alders are similar to a full-time or part-time role, they should be paid accordingly.	8/2/2019 11:15 AM

148	Part time- I don't want full time government employees representing me. It will make them out of touch with their district and increase my taxes.	7/30/2019 4:17 AM

152	I'm not sure how much they do. If 20 hrs/wl, part time. 40 hrs/el, full time	7/30/2019 12:15 AM

154	No pay. Perhaps a property tax benefit or something?	7/29/2019 4:19 PM

156	Unsure	7/29/2019 3:23 PM
157	Sorry, again I'd like to hear the arguments. There is something to be said for Alders being employed elsewhere. This way they are perhaps more in touch with their larger community and less invested in their political activity as a "career". On the other hand, many of them probably do a full time job as Alders. Again, I am not familiar enough with the situation to make an informed opinion.	7/29/2019 3:01 PM

169	I know alders who work full time while already working full time. So, short answer. I don't know.	7/29/2019 6:20 AM
170	I don't know the full spectrum of what being an alder entails so it is difficult to apply an either or to the subject.	7/29/2019 5:10 AM
171	Is this question trying to ask whether the council should be full or part time? This is another very awkwardly worded question, especially if the intent is to get information about whether there should be a full or part time council. If that were the intent of the question, why not just ask that question (should the city council be full or part time)?	7/29/2019 4:42 AM

181	I do not know how many hours they work each week, but they should be paid for the time they put in. However, as some alders are more active than others, I think they should somehow document their hours worked (meetings attended, time spent with constituents, writing communications or on a specific project)	7/27/2019 8:58 AM
182	Maybe a bit more than now but definitely not as a full-time employee.	7/27/2019 4:18 AM
183	I'm not sure how many hours they typically put in, my answer would depend on that. Basically full time for full time work; part time for part time work	7/26/2019 11:56 AM
184	I don't exactly know what they do, or what is expected of them, however it seems like being part of a government's decision making process should be a full time job.	7/26/2019 11:47 AM
185	Depends on the workload for the district	7/26/2019 9:31 AM

194	This question, like the two previous questions, doesnt make sense as a stand alone question. Wouldnt their term limit affect this, more than anything else? Wouldnt an alder be paid for the time that they work? Are they full-time positions? If they are, they should be paid as full-time positions? If they are part-time positions, they should be paid for part-time work. Again, as a professional survey, the vague nature of these last few questions is very troubling.	7/26/2019 6:14 AM
195	They should log hours and get paid based on time and effort.	7/25/2019 9:10 AM

209	Should be paid for their time at meetings and doing government work.	7/24/2019 8:24 AM
210	I think that depends on their work load. If they do a full time work, then they should be paid for that verse versa. However, I thin it will be be more effective to have their full attention of city work rather than having them do part time with the city and full time working for other entities.	7/23/2019 10:29 PM
211	it depends but full time would be preferable	7/21/2019 7:54 AM

270	Probably both.... what seems more important than who is how. It seems reasonable that BCCs should be comprised of community members (self or third-party nominated) as well as nominees of the Mayor and Common Council. However, ensuring that there is consistent leadership and facilitation of BCCs, including a decision-making framework and meeting support, also seems critical. Regarding choice of membership, I would think that it is more important to have a shared approval process, rather than identifying one body of government or the other as being solely responsible for the appointments.	8/3/2019 11:08 AM

374	mix of public and alders	7/27/2019 7:25 PM
375	Alders need more say in the appointment process, especially for Alder appointments. They should not all be made by the mayor.	7/27/2019 5:28 PM
376	I'm not familiar enough with the pros and cons to provide input	7/27/2019 5:14 PM

390	department heads	7/26/2019 12:53 PM
391	Relating to both question 20 and 21, if the BCCs make decisions regarding the operations of the city then I think that Alders should be on the BCCs. I also am not sure exactly what the BCCs do so I am actually not sure if Alders should serve on them.	7/26/2019 11:47 AM
392	Maybe some type of rotation	7/26/2019 11:24 AM

407	Combination of Mayor and Council	7/26/2019 6:16 AM
408	These questions seem leading. As a homeowner and taxpayer, I am a little concerned by this survey, as it does not seem to be on par with a professionally developed survey.
