Parcel #0709-212-1406-4.

Dear Mr. Nelson,

March 7, 2007

We have questions regarding the scope of work and costs related to Reconstruction Project #53WO334 on Kendall Avenue, particularly as they pertain to our property at 2721 Kendall Avenue, Parcel #0709-212-1406-4.

1. Your letter states that "sidewalk sections will be removed and replaced on an as needed basis" and we question the need to remove and replace our sidewalk as it is in good condition. It was inspected just three years ago and determined to be sound and properly aligned. Its condition has not changed.
2. We would like someone to meet with us to inspect our sidewalk again so that we can investigate and consider removal alternatives.
3. We would like to verify the measurements of our apron. Your records show that our apron is 10 square feet larger than that of our adjoining neighbor's. The aprons appear to us to be the same size.
4. Finally, while not mentioned in your letter, we are aware of plans for speed humps to be installed on our block as a traffic calming measure once reconstruction on Kendall Avenue is complete. This is something we asked for many years ago and wholeheartedly endorse.

Sincerely,

   
Theresa Stabo & Jeffrey Schimpff
